disc or field & other instruments -
she he devoted to him & was a bit

By the time I came upstairs, there had

few generated an atmosphere of pride & rejoicing.

I have an opinion & often Ruth Correll has just taken an opinion. We said it has not been peaceful, & the another - he said too many were going to stores, trying on clothes, & buying things they don't need - if we enjoyed buying articles in stores, going to movies, sitting at TV shows, & eating in restaurants, there was too much of Johnson & Gomorrah in us - you can see why in Bob & Jim, but Bob Gomorrah is in you.

A film was shown, "Pain and the Peacock", w/ Sidney Portier & Harry Belafonte, directed by Portier - it concerned the ~~the~~ major trials which were organized by blacks in the South the first time they moved to the west & were harassed by Southern night riders who were intent on keeping them slaves forever. The first should help them to the ~~the~~ side in helping the ~~the~~ to go to freedom - the film was, I think, about the south in the South & was good. The film was more popular than any I remember being shown at T.T.T.

I slept until 9 or - the sun I was in was so dark I can't see anything - Dor & Eddie were already up

I had some cantaloupe & banana

We spent most of the morning talking - Dor told us of Paul's wedding - the bride was Polly Williams. Dor had some snapshots - it had been a simple wedding conducted by a Unitarian minister in the garden of the parents' house in K.G. - Polly's father is well to do - Paul has his own business designing buildings.

Doris' chief topic was her affiliation w/ McColgan & Murray O'Hair's attorney gp - she still dislikes the Te's identity as a ch. She is not bitter about the incident in Chic summer b/c last - she fears being the object of Jo's "occult" abilities.

Both Dor & Eddie warned me to avoid disc of J & the Te w/ thots - they are concerned about her mental condition - They think she is drinking too much, but she has too few interests -

(over) C-1-A-3 (68)

They think she has got rid of her
husband & do not understand her reason
for keeping it - her present sit. is not
good but Eddie desperate - I promised to
be careful in disc w/ them

^ The three of us went for a short
walk w/ Eddie's 3 dogs - the weather
was ideal

We had a light lunch

11¹/2 Eddie has rented the downstairs -
portion of her house, bedroom & bathroom
to a new teacher at her school, a young
woman - the arrangement will give Eddie
more secur.

Eddie intends to return in perhaps
another yr - she will get a pension
from her sch adminis.

We drove to Denver, stopping at
a shopping ctr on Wadsworth to
make a few purchases - I got some
zippers for my 2 dresses w/ Eddie's
advice - Denver was very hot

Eddie drove through Colorado
where we had lived as child & we
looked at familiar sites - she & I
remembered them better than I did

We had dinner at Stouffer's
& rest. on Colorado Blvd in the

airport - we had Salmon - we thought too much attention had been given to any embellishments ; the food was not extraordinary - prices were high - we paid \$8.50 for the entree above - how paid for the dinner

at 8⁰⁰ we picked up tabs at the airport - we got her right away altho we had not been certain of the airline nor flight no

tabs was in a good mood tho her complexion seems mucky & she has gained weight - she was happy bc-cause Shirley has just taken a job in Washington w/some experimental agric. proj. of the govt, starting in Oct - the climate in Montreal is hard on her - Tegore is fine - he suffers from allergies & has to have a restrictive diet - she says he has a hot temper - he likes like Matthew

restlessly.

I got up at 5³⁰, made some sandwiches
that I will make final entries -
but Mabs joined them & we sat
talking until Eddie & Dor got up.
We had toast & eggs for breakfast.

When we had dressed we went
in the car w/Eddie driving us to
see out of her friends in the locality,
to her school to meet her principal,
whom she likes very much, to the
vet w/one of the dogs who was limping
on one foot - we had a hamburger
for lunch - Mabs & I shopped for
food for toni while Dor & Eddie went
to the "beauty salon" & had their hair

perceptions - however, she is very concerned about soc. issues & agrees w/me about the harmfulness of the present gov. sys.

On our rd we visited another of Eddie's friends - I had 2 glasses of Scotch & was very tired

I slept for an hr & a half

To a shower while T. cbs told me others of some of her relationships -

Eddie had borrowed a project from the sch & showed the films I had given her of her, Paul, wife & Eric, Karen, & others, mother & the ranch

He had dinner which Eddie prepared: T-bone steak, baked potato, mushrooms, beans - Eddie paid for the food

T. cbs told of the trial & sentencing of the man who attempted to rape & murder her - he "aped a bear" was sentenced to seven yrs, I think he served two - she does not think he was what it stated

we drinking coffee & talking when Edna

Edna took the dogs for a walk
she made coffee cake for breakfast.

We packed & got ready for going to
Dillon - we talked so much that we
were very slow & didn't get away until
1:30

We had called my aunt Josie & told
her we would be coming - Ben & Florence
came from Fort Collins & we phoned
Laura in Pueblo - she drove up
directly.

We stopped in Idaho Springs - Mabs &
I had a hamburger & a root beer.
Just out of Idaho Springs rain began
to fall heavily & we pulled to the side
of the rd. at Edna did not see the
rd. very well.

The tunnel has been dug under Lov-
eland Pass because of the numerous
steers who go across the divide or
wheels - it save a good deal of
time but one misses some of the
scenery.

We arrived in Dillon about 3⁰⁰ - they
had expected us much sooner & were

(over) C-1-A-3 (70)

worried - Ben had taken Laura sightseeing - w/girlie driving we all followed them - we first went to see the site of "the ranch" which my grandfather & then my Uncle Carl owned & where we had spent some of our summers as child - part of the land is flooded - the ranch house burned down yrs ago - the old barn & tool house are still standing & are still in use - concrete buildings & other tourist housing have been built in other places - the whole area has had a tremendous growth in population - the lake created by the dam built by the Denver water district is used for recreational purposes & the water goes to Denver

We then went to Keystone to see more condominiums - a fancy hotel built to accommodate skiers & summer tourists - we had met Ben & Laura on the way

Ben is now 67 but still leading a happy life, tho -- -- - a little 8 yrs ago - he was retired from the Forest Service - Florence has a job

Jane spends the summers in Dillon & the winters in Tucson, Ariz - she seems the same as ever, very mild - tempered & agreeable - Florence does not seem the same, very critical, esp. of people's bookkeeping

For dinner we had steaks, an eggplant dish, green beans, & cake - we discussed politics & Jane - gave info on all the child & other relatives -
Tom was quite volatile w/ his beliefs - ✓

She was even more narrow-minded in the racial field -

20 Aug - F

I slept late

We stayed at home today

We three took a walk down the road
Mabs & Edna discussed the various
flowers & shrubs - tourists have scattered
a good deal of trash around & we took
back aluminum which Edna sells

Mabs worked in Edna's garden

Edna showed me how to put new
zippers in 2 of the dresses Clare gave
me - under her instruction I did
most of it w/o the machine sewing

Justification is ~~concern~~

We had more disc - Mabs gave
more detail on the assault she had
undergone when a young black man
had attempted to rape & murder her
in about 1971 -- when he tried to rape
her she got him off, he then stabbed
her 3 times & threw 2 objects at her
face, leaving her for dead - she de-
scribed the plastic surgery she had
which was remarkably successful

I learned of the financial aid of each
sister - Mabs is able to get along on her
annuity, supplemented by hand-knitting

(over) C-1-A-3 (77)

Teaching - I don't think the nursery is returning anything to her & her partner that they don't put back in the busi-
ness but she says they have a firm foundation & all espcl. reputation -
the house is run down & needs much work but she agrees to sell it on condition
of the garden

Edna plans to return in another year -
she makes twice the salary I do &
Alice top her 17,000 - most of her
surplus has gone into the house a
1/3 she will get return pay from the
sch. dist until old enough to draw
soc sec "

she has still more to do

Edna made fees for the return of
Sue to whom she has rented the
downstairs - Sue is expected this weekend -
Edna has cooking, laundry & sleeping
place already arranged, is moving her
dishes & cooking equipment

I washed my hair

for dinner we had some boned
chicken or boiled potatoes & a salad

I read Predication in Love

Went to bed about 12

I slept until 9 am
✓ Trials & Eddie had walked w/dogs
✓ I packed

Eddie agreed to finish the sewing on my
dresses while I changed sheets on the
beds - Trials will move upstairs - Trials
cont'd w/her gardening proj's & which
she worked most of the day

11th Trials & I had honey deer melon, an
egg + toast for breakfast - Eddie ate eggs -
cake 11

I had a half hrs walk - I went up
the rd on ppp above Eddie's place owned
by John's Bramble - it was a beautiful
sunny day - the wild flowers were the
best I have seen

Eddie & I took for the airport at 12⁰⁰ -
Trials stayed back & Eddie made me stop
at an electrical shop & I purchased
some grapes & a can of salted nuts, as
a meal was not going to be served on
the plane

Eddie & I discussed the reunion we
had had, agreeing that it had been a
very successful & we had not had any
angry arguments - we are all concerned

(cont) C-1-A-3 (79)

about each other & reassured that we are all well - even Tyabs is in a better condition than we had expected, tho we wish she didn't smoke or drink so much - Edna said they were pleased that I was happy, had friends & are now convinced that my retirement is taken care of - she asked if I thought they were selfish - I told her the whole country was living at a level which was beyond its deserts

My own conclusions are that although Marxist & although they teach many progressive ideas & movements, they refuse to accept the seriousness of the sit - all have faith that reformist solutions can & prob will be found to our national probs. - they are bound by ties to loved ones & prop. they own - One is so adamantly anti-relig. that she cannot accept any phenomenon which she regards as superstitious - she also lacks sympathy w/ all living things & to a certain extent w/people - I did make some headway w/ all of them in leading them to view extra-sensory occurrences as real

We arrived at the airport at 1³⁰ - Edna did not come in

The plane, on Continental flight to SF by way of Colorado Springs & Albuquerque, left at 2:35 - I had a window seat - At Albuq. got off the plane & walked around the airport - I was pleased w/ the tiles of Indian designs in the passengerway & interested in the Native dolls - On the flight we had good views of the Grand Canyon, Boulder Dam, Las Vegas, Death Valley & the Sierras

I rd Reduction in America, ate my grapes & nuts - soft drinks & nuts were served twice.

We arrived at 6:14 SF time - I th the limousine in to the city, walked up to Geary to get the bus I wanted nearly cut her - when it finally came, the Driver told me that there had been two mishaps at the East Bay Terminal - the brakes of one bus went out & a woman slipped & hurt her head & an ambulance had to be called

I transferred to the Transamerica bus, was home by 8:00

I made some spaghetti w/ canned tomatoes & ate it

I unpacked

Got up at 8 or 9
Made girl entries

A little after 10^{AM} I went up to the Hayes Neighborhood Corp to buy a few items of produce - it is now open on Sun but not until 11 AM, so I took a short walk in Golden Gate Park - my sense of smell, which began to come back my last day in Colo, acted in the park & I could smell the flowers - the little corps still did not have its produce out, so I went over to Petrucci & purchased a few items.

I prepared a meal, ate, & washed dishes.

Made more girl entries

Pressed clothes for an hr & a half

Lay down for 2 1/2 hrs but just dozed

Ate some watermelon

26 Aug - Th

Stay until 6³⁰ - Didn't have any info. So we arranged at 6:30
Whether for next discussion in
1 day - after being informed an
hour in the morning she said she
had to do an A.T.

We had discussions on a
series, such as regarding set
limits, the nature of the job -
min's costs (my opinion) & so on &
why not have a "shorter" job.
She + many others agreed
new way to improve relations, which
would be much better

Jobs finished at 6:30 - Then
the sun was quite hot

I have done -

The sun was very hot
in the afternoon

Then I came to the office -

I intended to do some chores, &
Bonnie Beck called - she wanted
to come over & talk to me about
doing an article for the Tennessean

She arrived about 1³⁰ & stayed a
couple of hrs - we discussed &
her job, altho I have asked
whatever her interest is - would
affection back from the job. on 1⁴⁵ -
Bonnie was w/ D. Fennell now,
where Liz Forman used to be -
Dot Davis is working on the CP
caucus, in L.A.

Bonnie was ignorant of CP &
only gave me more info on her
position - she said "I am a
CP concerned". She has been
complaints by unrepresentative
other CPers - CPers who
try to indoctrinate w/ CP - &
people have come to work with the
Kingsbury com - Bonnie has the standard

her for persuading Gary to live when he seemed to be adapting well to the Te - Gary is w/ $\frac{1}{3}$, Bonnie, sd - it was unforgivable that she just "dumped" Lenee instead of placing her w/ someone else - Liz spent much time on her make-up - when I inquired what had led to Liz's living the Te now, Bonnie thought it was the prospect of getting money from her grandfather - I had always known what she was like - she was mentally unstable & he gave her every chance /I/ Tox works also at juvenile Hall /I/ Bonnie told me Linda Dennis' daughter is now in Juv Hall - she used "Liz" - cigarette, drugs & alcohol & has been on the pill since she was 11 $\frac{1}{2}$ - she is 14 now

I mentioned my lbs to Bonnie & she suggested I let her keep them - I is moving everything down from RV

Bonnie left at 11 $\frac{4}{5}$

I did my dishes & put my laundry away

I rec'd info & a letter from Rosko for an hr

I went to bed at 2³⁰

11² Bonnie had no particular item in mind for me to write for the newspaper but a very nice suggestion concerning the high crime of dark people & how it has usually been taken over by lighter non-native people who then enslave or after-murder the dark races - we are not sure this theme would be suitable for the paper but she thought I should give the writer to J. to use w/ the angry old Lois Parks, who is in edge of a go & give high level child.

J also suggested for the news question on the Bible which we gave the contradictory answers - and J uses to show its unreliability - I add to her book list of quotations on religion & atheism //
