1977

1 Jan - 5

Awoke at 7:45 - got up at 8:30 as I was
unable to go to sleep again - Ate for
lunch

I was a little concerned how J's state-
ment about cutting back expenses was going
to affect whether our needs money was
to be cut back as had been mentioned earlier
yesterday - I don't know what people will do
about their laundry; & in my case, I
don't know whether my pants will be given.
As for Bates, it is likely that he won't
be receiving more eggs in our diet - I
don't know how to tell to Chris Klee
about the diet prescribed by her doctor.

I prepared the beans for the 7th & then
the other 3 days - we had grapefruit, bread
& beans - gave Bates an egg & told some
of the beans.

I prepared clothes for the next 2 weeks.
He ate dinner for dinner - The menu
was the same as yesterday.

I went out to buy a few more

I had intended to be in my yard but
didn't feel very well, so I took a nap
until time to take the bus to the T. to
see Bates.

The bus left for the T. around 4:00
and started at 5:00 - the minister had

seen city estate new machine, based upon the
principle of non-violence. Allen's carrying
on - we have from the point of J's point - it's
not very difficult to die for it

Don't be dissatisfied for resistance that it might
result in more repression - nothing can be
worse than the present in which we live today -
has nothing to do with our children

J starts offspring - J spoke about getting to
to use as a base for training to help us in Third
World

Had a teleph call from Kagan who threaten to hold
all my papers & J's, not to be

Denise Price had organized a party of ten to take her to lunch tomorrow & I found her writing invitations - I told her confidentially not to send them out until she got more info from her, as the latter might stay. Dor did not appear to disapprove of her interest in the prisoner but she told me she was very sceptical about her plans - she thinks her very unstable //

My seat was occupied on bus 12 - as Irene Mason, a nun who is blind, had got on the wrong bus, I was changed to bus no 10 - I specified that I not sit in one of the seats against the wall, as the backs do not let down, & I explained I needed to sleep for a while

The buses left at about 4 or

I sat Amor Radicechini as long as there was light - we went by route 5 - there was snow on the Ureperine, quite heavy on the northern side

Then I tried to put my seat back, the mechanism was not what I didn't sleep any before the stop at B.W.

The bus offering was taken w/a good deal of earnestness. One of the Nicks sisters was hostess - this bus carried a mixed crowd of nuns & others, incl. child, & they were as courteous as those on bus 12

At the stop I helped Irene Mason to the bathroom, as no one else was assigned or volunteered - Viola Goddards was being helped by Ray - she always gets permission

As my seat was not so good I was changed to another seat toward the back - told me was a young man who was ill & was vomiting - the woman next to me resented having seats changed so often - she was fed & sprawled into my area - however I stayed well until the next stop, which was at 11:30

There I ran - the night was not as cold as F night was tho I got a little chilly, not having anything but my coat to cover me

I don't sleep on the rest of the journey
We arrived at SF at 1:30 - bus 10 dropped people at 2 Communes & at the Te - people from 1029 being some of other buses, & we were taken to our Bldg - Bates had just got in - my suitcase had been unloaded - Bates and I talked about the disagreements of many of the nurses - she told me of the arguments which had occurred just before I boarded bus 12

I bot a filler for my thermos in the drugstore on the East Bay Terminal - obtained hot water from the Dental dept. & made my lunch warm & cozy.

At 8³⁰ there was a meeting of the secretarial & clerical staff of the Leg & Cons Dept - chief purp was to intro the staff to the new personnel eval. forms which have to be filled out by supervisors on each employee yearly - they are to be discussed & seen by the employee - most of the staff were very new about the process - another issue causing hard feeling was access to the tray car A it was in the Cons. section - a few other matters came up

There had a finger playing football after hrs; it may be broken, & she left for apt near W/dater at 4³⁰

In spite of her injured finger, there came to work on AFS, as did Dor, & I had little to do - later in the day I read 2 equal oppo. act items to put on tray car for Butler's op

I did some work on my quilt

Then Maria started to tell me about her sister who behaves in a deranged manner - she really seemed to need a more experienced person to listen to her & ^W ~~proper~~ a little advice

Dor came over, obviously irritated, but instead of saying our talking interfered w/ her work or telling us she now had assignments for us, she seemed to blame us for not working

it won't be their Waterloo or ours - the

⑤ What was the Carthy era? Ans. Going back to the 30s on no votes Wallace got elected for pro - sov, pro - sov - investing com of Cong and up to guide people as to Communist bogy and gins - the Carthy era out of control, was throwing Repubs & Democrats in jail - his sudden death at 44 ended the era - can happen again - happens in times of jitteriness - always have a war or high unemployment - they rob the poor colored people using our poor colored sons - the military army doesn't feed the co pers - we don't have a big army any more - lost in Angola - so easy to kill off minorities but through drugs - that won't be enough

What the world is not going to be a victory over the part of the white class

however, we had a long wait for a bus
to take us home ~~and didn't go home~~

punishment. - I stopped discussing the matter.

Went to the Te apt. for dinner but
the guards were admitting no one -
guests were in the Oldy - the Mami

to the Ta at 5:30. But we had a long
wait - when the bus did come we had
another long wait - some of the residents
did not want to come, prob because
it was so cold

During dinner Josh made an
announcement over the inter-com to the
child, demanding that they keep the
Ta clean as it had just been cleaned

He got rides for those needing them.
There were some musical numbers.

Two offerings were taken.

officer moved up as his asst - they must
reimburse Rodney King - dont make people
desperate by attacking them in public - if
we were completely sincere we wd refuse
to pay income tax as our money goes to
overthrow govt

I commented on Dist Atty of CA - some of
black people are having babies so they can
get out of whoring - they stop whoring at 3 mos -

I made corrections & additions to yesterday's work on ATS for Schuman & Hellmuth. I did a memo for Maggie on May 1st.

Dor was in a relatively good humor, though we exchanged a few harsh words with the subject of the pardon of Tokyo Rose.

Dor was working on the Cuckoo contract, a major effort which came in piecework, & which was needed as soon

"Roots" - we can't expect anything helpful to come out of a big TV network - the series will end as an affirmation of the life effort in America, just wait & see - it will be shown how foolish it is to revolt - the author, Alex Haley, is a sell-out - it's the money to go back to Africa to learn about his ancestors. I isn't interested in where he came from - Haley refused to commit him, as Incheolun was killed, he wanted to be impartial - the slave cabins like like life during housing

For the third time this wk I overslept
or got up late & so didn't have sleep

The off. was in a state of bedlam
most of the day - both computers were
busy all day & sev people came in
to find direction AFS - Don th Kate
Walker to talk for using the computer for
correspondence - Kate has diffc w/ some
office procedures & I bel didn't know
how she cd have used Reg Cd instad -
there was no mtg of the Minis thn
the two & Don referred her to Betty Veal
whom Kate did consult - Betty came down
to talk over the matter w/ Don but I
didn't hear the outcome

Ragie brot corrections for the powers
of atty doc but Don had me wait
to do that, as I was assigned first
a long memo from Phil Beemel, on a
revision of a ~~proceeding~~ form - while
I was waiting to get instructions on that,
I balanced my checkbk

Beemel's memo was a revision of a
draft & was in very haphazard form -
it to be put on Reg Cd

(over)

C-2-A-7(14)

I spent most of the morn. on it & during the aft had to make corrections & revisions in it which involved techniques I had not sufficiently mastered - I became nervous trying to get it done by closing time & a little irritated w/ Doris instructions.

In addition to working hrs overtime, got Betty's wishes, Dor takes a self-sacrificing attitude which I find unnecessary & harmful & she eats lunch at her desk, never goes out, & I find doesn't even go to the bathroom when she needs to - lots in the apt has fat began to swell, a condition she acknowledged was put on by not going to the bathroom.

I was most annoyed when she pushed me to finish Beebe's memo, even if I had to stay overtime - I was finally allowed to stop only when B's secretary informed us the memo was not so prepared for detail anyway.

I was most disturbed because I did not have time to learn the new Wright techniques & no time for a break in order to do a few pers tasks - I did eat lunch at my old desk & I put my plant plant which Lou had given me in a pot box.

Norma works for Fred Abbott, Gail for Ron Hartsough - both said their bosses treat them very badly, are inconsiderate and demanding - Gail had wanted Valita's job which Annie Malang is getting and she was bitter about this, resentful of Annie - Valita told about Barney Johnson's treatment of her - apparently he gives her no consideration and she finally decided to quit

Vail Coney was not always available -
Dor. told him we wd have to
consider the matter - she talked
to Betty Vail who later came down
to see us - Betty sd she had
talked to Ron & told him such an
arrangement on a reg basis cd not
be approved, altho he cd use me
in an emergency - she sd he needs
to plan his schedule better & he
cd use recording equip. to dictate

"playboy" & I tht perhaps she had
had something more in mind w/
Vail, which might account for his
bad treatm of her when she
turned him down

that I might be coming down w/ the

likely I was still suffering the results

I felt well today

I had considerable work all day. I did some memos for Maggie on MagCard - in the afternoon had a tape to transcribe for Charles Smith, an analysis of a contract about living quarters for workers at a project in Rock Springs, Wyoming

At lunchtime went to the PG&E building to hear the San Francisco State Univ. lecture in the Issues and Answers series. The speaker was Ray Miller, who had talked before on subsidies and regulations - today he spoke on "Inflation" - his talk was very well-organized and clear - at the end he answered questions - some of the points made were the tremendous extent of military expenditures in the world, the ability of huge corporations to create demands by advertising, and the demand of the underdeveloped countries for a greater share of material benefits - though he mentioned the possibility of problems getting out of hand and breakdowns which might result in nuclear war, he did not think disastrous changes were inevitable - he admitted to being worried about the economic situation in Italy

I had my lunch during the talk

I asked Dor. if her reference to Hartsough's being a "playboy" implied that he might have expected sexual favors from Gail, she said she did not consider this likely, if only because he couldn't get away with it

The weather changed today and had turned cold by the time I left the office

I had to wait a long time for a bus
I had some bread and cheese when I got home

Slept from 6.00 to 7.00

Bob Christian called that they were getting a ride with Brother Marshall Ferris - they were leaving at 7.30

I dressed and had time to eat only some tangerines

I had expected J. to be back but the others didn't think he was here and Dale Parks conducted the service, so I gave up hope of seeing him before Sat.

I brought my dress material & Joyce measured me - I had phoned her during the day and she told me to get a zipper, thread and facing for the hem, but I didn't have time tonight

Dale made announcements concerning this weekend - many changes will have to be made because of the large number of guests and the many speakers we are having

There was much congregational singing

Dale announced J. was at the airport - would be coming right in - he started to take the offering, saying we should get that out of the way - however, J. arrived in the midst of it, a little before 10.00

Shouts and applause greeted J - he then left the podium while the offering was continued

When he returned, we sang several more songs J. remarked on a number of different topics - our mission is trying to become self-sufficient - our agricultural production is outstanding - we have just harvested 60,000 pounds of yams, which were sold to the government - he left the

p.l. at 11.00 last night - "our bodies are still in the jet stream" - all the people in the country are socialists, united, with no differences between them, such as backing China or Soviet Russia - among our own group, there is a socialist class every Tuesday - no one is sick amongst them - Guyana denies admission to anyone who's been in So. Africa, even if a sports or movie star; they are faithful to principle - the CIA has been trying to interfere with them but has not succeeded

Progress in our mission has been phenomenal - dorms have been built for our students so that they can live and eat together - there is a mattress provided for almost every member, & clothing, sheets - all supplies are inventoried - \$300,000 worth of food and clothing is ready - J. got on the radio and revealed the infamy of the CIA to the entire socialist world - they had had three days of catharsis during his stay - Pop Jackson built walkway to and from our installations to protect our feet against mud - "Let's get there, why don't we?" - he indignantly inveighed against those who were too proud to ask people for money

He took another offering, during which gave an amusing account of how his party had been loaded down with so many spare parts and other equipment which was needed immediately that the plane could barely get off the ground - his serious point was to convince us if he would risk the lives of his people and have enough faith to know that the plane would not be in danger, then we should venture out to bring in more money

17 March - W-y

He gave several commendations - among them was William Klingman who was praised by his teacher - Cornelius Truss and Mark Sly had done good work - Lee Ethel Young lost the most weight this month -

J. mentioned a "white bitch" who had gone out and done some harm to the Te while he was gone - he said he was meditating on her

One disciplinary case was handled - a young girl, 12 years old, impeded a teacher in a hallway and when confronted had called the teacher a "bitch" - she was asked what she should get - she suggested 35 swats (as a clever compromise between the 25 and 50 people were suggesting, which J. said showed how bright she was) and raising \$100 in 2 months

J. mentioned that he met the vice-president, "which they say was an honor"

J. is to receive his appointment to the Human Rights Commission tomorrow - he was not flattered by the appointment, which was not as good a one as he was led to think he would get from Moscone

After performing one healing, J. dismissed the meeting at 12.00

It had been raining when we got out

Marshall Ferris took us home

I had some toast with peanut butter and with jam
Read Roszak - went to bed at 2.00
