SAC. Class

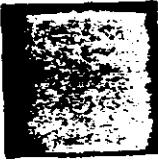

~~If no or other women we placed a sign in
a good place - signed in - Helen Love b.s.p.e - I
had a girl friend while - a portion of day's type
was played~~

~~I called - inquired whether everybody was ready for
the written test & on being told they had not
heard the news today, he was asked who had heard
yesterday's news - few did - he said we would definitely have
a written test tomorrow - he then gave a list of questions
& asked for volunteers to answer them - those people
joined the line & I promised a reward this time
for "positive reinforcement" - people who said "I help"~~

~~In the midst of questioning I spent some time on
11th day off - those who can only partially do things
they never article - should send a copy of "The New
Times" with printing of Lucy, makes her worse
than transper - get up to those who can't read &
those who can - they don't have to concentrate
any more - the media that him down - some
people can't stand this type of attack - all they
see was their public image~~

1 Aug - T

Had b/p's

I worked on adult pic records - on my list of those who have been attending I entered the info I have collected so far of their ages, level of schooling, disabilities which may interfere w/ reading & writing & the dates attended during the last few of July & I have a column for indicating their level of competence

Mr Bruce Jackson, who repairs clocks & watches for members, gave back to me my clock which had stopped running a wh-a-h half or so ago!

Time to lunch

Lois & I met our adult class - another big gyp was in attendance - the day was very hot & we all scattered under the pic pavilion tent - I secured for another place - the rice tent is cooler, but the pic classes not there at 1st - we also needed more chalked space but I had to manage w/ the two we had - I wrote on the board statements summarizing the points in the questions asked by J & then asked a question to bring out knowl. and reasoning abil, & Lois meanwhile answered questions & explained bkgnd - we finished all but about six questions

Lois, w/ the assistance of Mary Casanova, moved to the place under Barn 4 where the rice is sorted - the workers can listen as they work - it is cool in this spot

I th a shower

I finished recording all the info I have &
C-3-A-1(3)

present on my adult class - in so doing, I
have sorted out my files too, so that I am better
prepared, know what I still have to do, & know
where to find everything - a difficult task as I
keep all my writing materials in my crate, typewriter,
etc, the I am doing, h.s. records, telephone records
sewing materials & meter for personal care - clothes
I keep in my suitcase & under my mattress, as
well as sheet & towels

Wait for dinner - we ended at 6⁰⁰ too instead of
6³⁰, so I went early - we had chicken dumplings

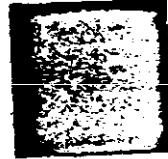

After dinner I went to the pavilion to listen to the
(bores) ~~experts~~ they had promised some of my class
members, the questions I had not finished during
class & went back to the cottage for them while
they served me a seat - but I had left my
fiddich key ~~in~~ in my bag so ~~had~~ bring them
back - as the news was ~~not~~ being played in
the pavil. was the review meter I went to the
library to see what J Terex had put on the board
signed in at the pavilion - then listened to J's
newscast

I came in late - he dictated the written exam -
there were four main questions but 2 of
them had numerous items - it was a good
test, prob prepr by Dick Trapp & Jean Hervis -
I think I answered all the questions satisfi-
factorily - the 2 class members, sitting bes me,
papered their notes & also asked questions of
each other, tho I warned them ~~not~~ this -
people who finished early were asked to help those
who can't write

The six techs assigned graded the test.
(cont) C 3-A-1(4)

1 Aug - T-2

at the side of the pavilion - and all helped
who were on the list - each of us had 25 to
30 tests - the light was poor and I had to
give those in which the handwriting was poor
or which were dimly written in pencil to someone
else.

Meanwhile the meeting went on updisc of some
civic problems and disciplinary matters - the
jury was used in some cases. One case involved
hostile behav. by a Ward girl, post. Alfreda, a
the banana crew

Two brooms made by Ken Norton for materials
& brooms made by Ken Norton were displayed -
they look very fine

X At one pt I made some remarks on reincar-
nation which I did pay attention to - he was trying
to discourage speculation concerning astrology &
reincarnation also on the grounds that it can they
make people think the universe who according to a
plan which will work inevitably; it is not
nec. to do anything - he said he had insights
that reincarnation is a fact but it means nothing
useful etc that it would prevent suicide if one
reincarnated he would come back for lots of time, so
many generations - poignantly I said that even tho'
true, he did not understand why, as it seemed
to him he just had to go through the same
thing as before

11/2 On most topics I did not concentrate 11
Athletes foot was mentioned - most of the member-
ship suffers from it - it seems to be a different
(and C-3-A-1 (S))

Type of fungus than we had in the States - & so
various disinfectants were being experimented
with on the shower floors and research will
be conducted on remedies, some of them obtained
from abroad.

Although it was very late I took up another
matter - Norman Davies, who having been gone
for 6 mos., had informed the TC he would be returning
this wk - he had not communicated w/ his
wife (Judy) and child, had sent no money - he
had been reported w/ another woman. Some of
our people had talked to him while in Miami -
tho he had been offered a job at the airport in
Havana he was flying on lines that did not
bring him in to play - the fact that he is a
pilot may have some signif. w/regard to his
~~activities~~ in view of the areas surveillance &
~~operations~~ by the DDCI Engineer plane & spots of planned
military attacks on us - many members of the
KGB characteristics = spoiled by his parents
cherished as the only son, avoidance of physical
labor, pride in his appearance - which made it
pos that he cd have deserted to our enemies -
I said that the Govt had told us ~~that~~ he the CIA
had a place in our membership who might
come here - His pos. relations w/ his sister, per-
ticularly Vicki Moore, were discussed, & various
members told of incidents involving h; Ruth
when she was teleph operated in LA re
it had told her he wd be getting mags under
an assumed name & when she reached one she
was to go in touch w/ him imm. - she had

(cont C-3-A-1 (4))

1 Aug - T-3

assumed he was at the bus. - she cd not remember the name now - I sat on the floor & told of the episode when I gave her a letter to friends in Bechtel, asked her to mail it from Caracas where his new job wd take him - his plans chang'd & the letter wd have to be mailed from Ida, he had told me - I sd I had been meticulous about giving him info concerning all ways he had been asked to del. to - I sd people wd be assigned to be w/ him & no one else is to have any conversation w/ him

The meeting did not end until about 3:30
I was in bed at 4:00

C-3-A-1(7)

2 Aug - W

I slept until 10

Estate was cleaning up the cottage, so I th.
in a dirty bowl, collected up food, & green
outside, which had been left (by Donna &c co.
to others) on the porch - Jonathan is preparing
for guests

I delayed going to library until 11³⁰ so as to
avoid a long line - we had biscuits - we
didn't have lunch

I also did not hold my class because the
rest child. were using the space from 12 or
o'clock on

I did sit home on first entries & almost finished
my adult class records - the day seemed like
a

To my shower

Went for dinner - we had curried fish
on rice

I had a frustrating time in the pavilion &
library trying to get the news - I wanted in
particular the bonus questions which were asked
on T eve while we were grading papers - Con-
trary, in the pavil made it difficult to hear J's
news tape from which I usually take notes - the
tape being played in the libr And some marker
clips which made it difficult to hear - I copied
some items from the bd, didn't get the bonus
questions at all

I saw Dennis Katalas about my news - he said
I didn't need to fill out a request again - the

(over C-3A-1 (8))

workers will be around ~~ton~~ night

In the parlour there were movies & entertainment for the people coming in on the boat - I later heard that Frances Johnson was one of them

I whd on my sewing for several hours - Dorey's people were in the cottage all eve - Dorey the conversation of Dorey & some of her goods was annoying - Dorey & her goods was less so - I made ~~consid~~ ^{consider} frug at my shirt.

Dorey was out again w/ chicken & Estelle was out - They both came home later - about 11 or they left for Providence long gone w/ the problem of getting the cottage quiet I was helped by Dorey who wanted to sleep by going to bed ~~at~~ ^{at} 11^{1/2} & Laura 11 for typewriter elsewhere when requested - however Shirley & Dorey wanted to play cards & it required some arguing by them turned on the lights

I vaguely heard Estelle & Dorey who came in around 12 AM

This was the first day in a long time that we have not had any rats/gall

C-3-A-1 (9)

3 Aug - Th

After I left my sandals for repair -
tried to inquire about my laundry - it wasn't
ready yet but I had reason to fear there might
another mix-up.

Wrote to the Libs & th notes on the news because
I had my commentary this ap by the Fred Dept -
11/5 from Mrs Teresco Ch 11

was home late - have been trying to get a mom.
free for just typing but nothing I did is always coming
up & what are my adult job records & corrected
spelling papers from the last test

Had a lunch - I saw Frances Johnson in
passing - we had only an opp. to greet each other
& I think to adult class - passed out books for a reading
lesson for all, & a class disc on our African
map proj - we also had see new people to whom
I had suggested my class - Lois told me she had

11/5 the results of the news test have been posted -
a larger nr than bef. made "Excellent-plus" &
fewer failed, so I concluded the new system is

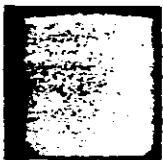

working - Johns' scores were not posted but

Tr told me I made Excellent-plus!!

Did for me this morn to coordinate our
actions - she wanted to give definitions of terms
used in the news - ap we had had disc on
steps we need to take to make our map & had
some nominees for certain jobs to be done,
which I accepted, I allowed Lois to conduct the
class session when on the definitions - we
didn't get to the reading - a heavy downpour

(cont) C-3A-1(10)

caused further problems - people had to move, who
were near the edge the bus had to be collected
to keep them from getting wet, & on account of the
rain many did not leave - in all fairness, the
definition I proj was ~~proj~~, ~~the many did not~~. I
spent some time discussing ideas w/los about
conducting the class.

I went by to pick up from Joyce L and the
African map she made for me - she has not
had time to finish maps of Europe and South Amer
she started - I wanted to see whether the African
map can be used as a model for our proj. - I
had to hurry to the cottage to prepare for my bad
dept appearance - it went smoothly - I gave them
the bonus questions we are to be tested on F
seemingly & then talked about the worse danger
spots of the world

Th my shower

Spent a little more time on the spelling exercise
of my adult class

~~met~~ Terese on the path & she made a proposal
to me concerning a preparation of some items for
the adults in simple lang - this can be typed
(by Veronika) in a big type t.w. - her idea was to
have me select & ~~then~~ translate the items - I
thought this a good idea the entailing after wh.
& pd I wd disc it w/los thinking she wd
approv - I had in mind at first taking
the items down from the types as I do now
X Had dinner

Went to the parkin & tried to take down
the news from Js newscast - the first time
I had heard it - had diffi getting the

C-3-A-4 (11)

3 Aug - Th --

ideas down & I despaired of getting my notes
for the news summary from this source - later
I spoke to Teresa about it & she said she had
to hear the tape several times - that being
the case I told her I'd prob have to wait
until I had her notes, we can't hope to put
notes out fast - I suggested one a wk as a
start.

Sat Techs met but not many came - we were
to make arrangements for F night's after classes -
I did & told Debbie it is unfair that the same
things have to take the after classes all the time,
besides I had to be home to see my needs
worker - Debbie allowed me to go

Had an opp to talk to Lois again about the
simplified newsletter - at a few remarks in the
11/2 hr I saw Lois I offered Teresa's proposal
for having a simplified news summary for those
who can't read well - she was quite vehemently
against the idea - she felt people will learn the
hard words if they have to - she thought the simplified
version of the news, was to be put on the boards
which Teresa hadn't mentioned, either I think
one or 2 boards w/ easy notes would be aduan -
some vein she had taken pretty, she backed
down - I wasn't sure why

The news workers came shortly after I got home -
they saw I was too - they were young people - they
asked to see the items we already had of the
requested category - they gave no indic. of who
the decision decision would be - & they have

C-3-A-1(12)

and I spent the rest of the evening sewing
I didn't realize that they had come home
from the off sick & gone to bed - some ^{young} people
coming into college were noisy & she
requested consideration but to no avail -
the word spreader was Joyce Evans - Chakin
came in to talk to Dey for a while - when
11⁰⁰ came I did my best to get visitors out &
the resident quiet & it had succeeded but
not long they told them how inconsiderate she
had been - Linn was there but she
did not do anything to help

I was so disturbed myself that I took
long time to go to sleep - I was awakened by
somebody at 3³⁰ went to the toilet - Dey &
Estelle were talking which caused me another
unrestful period

5 Aug - 5

Had blist

I checked the boards for the latest items so as to be prepared for the test which ^{was} to be given tom

Went to the warehouse to see whether I would get my needs but it was too late - I checked w/ Catherine Luminique about scrap paper to put our African map on for a pattern - she gets paper backs in which flour comes & cuts them up for toilet paper - she told me to ask at the veg. stand

I did my hand laundry & hung the clothes on the line on the cottage - the day was clear & not too hot

Gave some of the news summary I am doing for the seniors who can't read very well - told them I would try to get her some copy on M

Had lunch

Checked on news items again

Fois had volunteered to teach news at a spec. session of the adult class & I observed her meeting w/ them (in the second Sch Pichau, formerly the hair tent) - she had a goodly crowd

Th my shower

Wrote my report on adult ed to turn in to Ave Jones

Has not ^{given} me book, I am lost w/ which I read for an hr or so, though I nearly

(cont) C-3-A-1(18)

fell asleep

Woke up for my meeting w/ Alice - had a considerable wait for her & June / Gerette & Lois arrived too - When Alice came I gave her my draft notes which she gave to Gerette to type - Lois suggested we have eve. classes for adults who can't come to the lunch-time sessions - I have no objection if she wishes to teach them but I have enough respons. now & I know from offer that finding a place eve. is almost impos.

Cont'd reading the hist. of Guyana for an hr or so

Went to dinner - we had chicken gravy or cassare, & very good greens and pumpkin pie
The participants were called to a meeting in the pavilion - Triggs conducted it - he & John had been asked the prep questions for the test - they had a list of topics & asked our opin. on phrasing - most were essay questions requiring broad knowl. - we then discussed ~~recommending~~ others to replace some who have quit - Jim Pugh & one - it was decided that we would take some of the 65 - others from the classes - 11:1 I had decided we should have men in our old socialist classes & we went to be tested //

Then we realized we there would be no testing until 9:00 - dinner was to miss for dinner at 7:30 - if partie was not satisif., we would have a test ~~at 8:00~~
~~at 8:00~~ ~~in their class~~
most of our old members were present -

(cont) C-3-A-1(19)

5 Aug - 5-2

few new ones came in - Dr Jackson was
taken to teach another class & I conducted
our own alone - I asked the class for
suggested topics - partic. was very good &
most people made comments - later I heard
I had come around to observe how the classes
were going but I didn't see him if he visited
ours - As 9:00 I announced that he was satisfied -
partic had been good - we sped off to the
projection to see Hearts and Minds, documen-
tary on the Viet Nam war, which was regard -
I got a seat in the back where I did not see
well but I remembered it well from prev.
showings

Went home to bed about 12:15

C-3-A-1(2a)

6 Aug - Sun

We got up at the usual time, had a half day off - I had Bpt at 8 am

I typed on my girl from 9^{am} until 12³⁰ first in the chair from the back where it has been taken & typed in a little nook between my bed & Lewis's & Ruth's, putting the typewriter on my desk - though people were in and out they didn't bother me any & I made satisfying progress - I also typed a 2 page statement in response to a request from J that everyone turn in their feelings about what he had said at a previous mtg - I was told this concerned the confrontation w/ Records Otterburg & I had diff. of thinking what I had said at that time - however I went into the sit at the time, commented, had made on prev. other occasions & my own observations

I did some few chores, took a shower & shan - fixed my hair

Few people were in the college today, the residents weren't working in they thd you either

I worked on girl entries

Dinner at about 5^{pm} - we had cheese rice and greens

Read newspaper the board

I sewed on my skirt all eve. until about 8^{pm} - I have pieces sewn all the way around, now have to turn stitching it to the proper length - work

(over) C-3-A-1(21)

for my treat - I got an extra piece of judge
for my "Special plus" paper; actually for
some reason I was given 3 but I told the
governor lending the one was too generous

He gets the rest of the eve

They is very unhappy over her supervi-
sory role in the cottage - the deter-
mining factor, in my opin is her anger
over the lack of sympathy shown when
she was ill - the same of the residents.
(we can't be sure who they are) leave dirty
dishes in the cottage, won't cooperate w/the
regards to keep the boot rack cleaned up, —
let their belongings, even wet clothes, in
others' crates — the commotion in the
evenings is annoying & the difficulty of
getting the cottage quiet at 11 pm - they
may be more disturbed than I by night
workers coming & going - rarely hear
them lately - They want to give up her
supervisory position - I don't know when
we may effect Versie & Ellie to res
from Georgetown

I went to bed around 11:00

C-3-A-1 (22)

7 Aug - M

At my adult class I called the roll & filled in the missing info on each student, i.e., how much scholastic, any phys. cond., which interper w/learning - & offered the class our plan to break it into 2 gys more or less accor to abil, that I would like beginners & those w/reading abil. to obtain the 3rd or 4th grade level & concentrate on lang skills - Lois would take the more advanced readers & concentrate on the news - I emphasized that the final choice is upto the individ - each is free to join the class which he or she feels will do him the most good - I told them of Carolyn Layton's request for news for the New Town exhibition, that we would try to finish the quilted maps in time - Lois then cont'd w/disc on the news

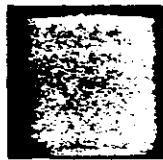

Vernette Chr. asked me whether she could borrow my t.w. as hers is out of order - In the Land, who repairs t.w.s, has been on PSL - his release had been obtained yesterday to work on the Tws in the off in Bates College but there is a more serious prob'l w/1's t.w. - I told her I had promised Terese to get some news written up for our large type edition - she picked up the t.w. & arranged to bring it back to me this aft about 3rd/11

Th my shower

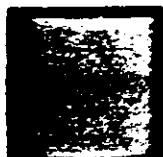

Vernette did not come w/the T.w. 21 3rd

C-3-A-1(23)

About 4 or 5 o'clock there was heavy rain all
I went to dinner
I spent the eve. sewing sitting on Louis' bed

C-3-A-1 (24)

8 Aug - T

I went over to Vernette's cottage to get my
t.w. - she said she had not yet had it b/c
of the rain.

Had bath

Stopped at the warehouse - picked up fish
towel, wash cloth & 2 bras. - plus a
new coat - I had had two but can't find
one

Started work on summaries of the news -
I simplified as much as pos, interspersed
material on internal & external & heavy political topics
w/more emotional material on racial relations
suffering of child & so on, mostly in the U.S. -
was not able to do very much

Went to lunch

Lois & I met the adult class as a whole -
I th the lower abd gyp & she the more advanced
she occupied the space in the ad. parl. we
had used formerly & I moved my gyp to the
second ad. parl. as the type playing j's
recasts was running at the other end of
the ad. parl. - we had to move again at
10 o'clock when the gym high class came in -

I effort to talk gyp what we were doing
on the map, showing them the ~~old~~ sheet given
us by Ruby Carroll (she told us have a blue
one), the paper such I had collected from
the kitchen area & the small map of Africa
given to me by Joyce Land - Curtis Winters

had volunteered to trace the map, which he did, using the glass on the aquarium - he did a good job - I then helped the class members w/ the stories which had been requested on their former life & their life in Jonestown - I think this for the book in which it is hoped the writer of the Parallel Visit will copy w/ our staff - in the case of young people, many were on drugs, dealing w/ drugs, shoplifting, purse snatching; some had been in jail - in the case of the seniors the misery by their lives in the ghetto is the predominant interest: fear of being mugged or stolen from, neglected by relatives, poor housing and so on - I either corrected the papers written by themselves or I wrote down what they told me - I stayed on after hr to finish these - the day was hot & I was very tired

I spent most of the day packing and moving
as I got a gun license - I took most of my belongings
in my laundry bag in several trips - See Dee Smith
who is moving down the top floor to 10 to my bed in
48 & who had been pressuring me to vacate
helped me w/ the first load. She is one of the two
yng girls b/w whom Edith Cordell has had so
much objection - the other is Shickwoman Dennis,
Contendee Jones' daughter, also moving to R. 10 - they
is moving to R. 9 prominently w/ Phyllis Cheekin;
altho I don't know what job is to be followed up by
to the usual 3-mo waiting period - Estelle is
staying at 48, which otherwise will be occupied
by yng people; she says she can get along w/ them -
Edith C. had constant trouble w/ the 2 girls who
were loud, rude, careless about keeping the cottage
clean, & didn't do any chores - There heard
only her side - she just constantly scolded
them - I have a little apprehension about Edith's
propriety for talking & also about Mark who is a
sluggish, apathetic child, tho bright
Laura will share the top w/ Phyllis Cheekin, & 2
more girls or women can be accommodated there //

I went over to my old cottage - in cleaning out,
someone had put boy crates out in the yard which
made me nervous - that they were just stacked as
it didn't look like rain - I saw Odell several times &
he still was not free to go - finally he allowed one of
of the young men he was supervising to help me -
I started carrying a crate of the young men but he
picked it up & took it by himself - I found another
man to help me w/ the other & they we moved it
at 4:30 the girls told me they had asked for
help in moving the crates all day but it did not
get any - their own crates had not been moved
out of 10 which upset Edith

While I was at the earlier in the day I heard that
a nest of baby rats had been found the previous night
under Edith's mattress - the everyone had been
panicked & went to get Christine Gueante to take
care of the sit - she didn't get there in time &
the babies got away - in the eve. when I came
back, a baby rat (or a mouse) was trying to
run into the house - Donnie was standing in
the doorway, shrieked & jumped on a crate - a
kitten, which had just been stalking w/ the rat,
made a jump out to the porch & pounced on
the rat, held him in his mouth
Phyllis has been in the bed I try to occupy & had not

The interview of Kenny Willhite's case and she
saw him put a thing to his mouth and she
didn't tell what it was - he still insisted he
had not taken any fruit that day - I asked

I was up at 3⁰⁰ - I read the news which was on the board by eating breakfast

W hd again in the cottage on my bed trying to finish the outline of the different countries

Cont'd wh on the map until dinner in the pavilion at 4⁰⁰ when the child. were not using the tables - I decided to do the pavilion on the Camerons undone to be finished later as I was tired and puzzled - I sorted out the scraps that have been bkt in - we need some lye pieces

Eddie Washington watched my boy & held a seat for me in the pavilion while I went to dinner - we had rice w/butter, okra fried in butter & greens

saw the film "For whom the Bell Tolls" with Gary Cooper & Ingrid Bergman which had come in on the boat - I, who monitored, ad some of the more revolutionary parts had been cut out, but it is still an excellent

The jet was over about 10^{30} . It was time to bed.

There was heavy rain during the night - I was disturbed the once by the noise from the children who are in the PSK cottage across the way - also heard Martha & Chris in the loft above me - the latter have moved their cases up

Had Dyo

Started w/ an the large type news edition, choosing news items and typing them up, 114 which I judged of importance & interest to seniors.

In the adult class I showed the maps as I had outlined it so that they could see the size of it - I explained details, how we had done the drawing Italy, & we discussed the kind of stitch to use to put the separate types on the sheet - I left the class to decide whether we should use machine stitching - they were to bring a sample of machine and hand wh - I also suggested dig types individual, and soon plenty so as to learn more about types such as dyo that had been British, Dutch, German, French and so forth, wine, best, main products - Lois later on told me 115 history, leaders &

that & frightened them, they didn't have any idea how to obtain this info - Lois carried on w/ the class, & several people who wanted to come up to the other end of the pavilion, laid countries out & made an extra copy of each, as I want to keep one ^{complete} pattern as a safety measure.

I had heard earlier that Trapp was looking

Worked on the second installment of the large type news - Tr had set'd the t.w. before I got up, but it was not working well - set keys were sticking, & the white correction fluid had been used over the center of the machine - I saw Frances & asked her about it - she was anxious about the t.w.; but told me some one else had used it last night.

Went to lunch

Held class - I conducted a short reading lesson for the beginners, then we discussed the questions for the test - The main subject was the conspiracy against Kennedy, Dr. King & others incl. the Temple, "The Parallel View" giving a pattern which is followed in all such cases.

Rained a shower

Finished a second page of the large type news & took it to Teresa

Had dinner

Listened to news in the pavilion

The soc. classes met in certain gyps - we had visitors to spend time on the details of the Rosenberg case & to drill people on the answers to questions that visitors might ask - we did so - I conducted the class alone - Dr Jackson the Jennie - she prob. writing up notes for Dr Grad - patter was very good

Besides Edith Correll and Mark, the other residents of the college are: Mary Conde, a son, very amiable; Isabel Davis, seemingly worn & garrulous; Edith has had some disagreement with; Billy Moore, mother of 8 yr old Billy, who has been acting in the game; Barbara Smith (previously described); Edith Parks, who is in the Mad Dept very friendly & helpful to me, a son whom I knew in the Valley, related to Dale, Brenda (grandmother), Gary (the son), who is in Mad Dept., spends long hrs on the phone; Eddie Taylor, amiable, spends much time reading, too does a seven day a night on the generators - in the lofts are Martha Hubs, on sun of the PSU, & a singer & band director; Chris Lund, electrician; Lorraine Johnston, on duty w/ PSU; a Phyllis, a soprano in Mad.

Edith C. does most of the ch in the college, sweeps & paints, takes clothes off the line, washes everything, sells a good deal. She is very good-hearted.

Last wk we had had more dyses w/ Bart, & exp. complaints about her lack of cleanliness - she has claimed she has been sick for the past days & didn't go to ch, had food sent to her & by her duty plate covered by a tea towel; Mary Conde told me the day we discovered the "pe" on the floor in her bed she said she hadn't seen it but they told me she was reaching for one of my towels to wipe it up when Bart noticed there was another

On Sat I did some more rearranging, put
most of my papers in the box under the bed,
also put copies & the materials used for our
map; put my books on the shelf above our bed;
left in my top closet only personal items, sewing materials
& my t.w. - I intend to put in it also sheets &
towels - in my suitcase I will put most of my
clothes which are under the mattress now - I
have some of my sewing materials & scraps of
material piling up my bed - I have books for
other articles; I am not yet my trunk, and
as spare shoes, raincoat, sewing materials & bags

I washed some items I didn't want to send
to the laundry

Went to church

In the sub post office until 2nd I worked on the
portion of the map which I don't have right yet -
made some progress but didn't finish

Rained shower & it rained again.

Wrote my rpt for Eva Jones - listed those who
injected that they all benefit from after care, classes -
this was in fact a request to let her know
persons who I thought needed the classes because
of age, in excision or other & I did not feel
compelled to make such a decision - in typing
I had even more trouble than before w/ my t.w. - and
not go it adjusted & it slowed me down

Went to the entry w/ Eva - Zuretti came &
gave her the rpt - we talked at length over
what didn't have time to mind w/ us

20 Aug - Su

I was up at 8⁰⁰

had news from the pavil. bds
for breakfast pancakes & coffee
had a few items

At 12⁰⁰ I worked on the African map in
the pavilion - I completed the outline for all
countries, tho there are some loose ends
to be tied up - I still have a problem in
the area where Zaire & Angola join - I plan
to cut out the outlines of all the cts, have
a game in class in which the students,
looking at atlas maps, can pin the outlines
of the separate countries on a sheet, thus
learning the position of some of them -
Also we will be able then to ascertain
where the map is insufficiently accurate -
at the same time we'll be able to get a complete
list of each country

Had a shower & shampooed my hair
dried, continuing w/ my work
At dinner at 5⁰⁰ we had rice w/fork,
okra, French frits fried eggplant in a batter
served

Mark was giving Edith table - she had a
cold - she turned him over to Vern
The guest was expected ten & entertain-
ment was being prepared for him in the

people were gathering but I didn't hear
any noise so assumed he had not
arrived yet - then I heard from the loudspeaker -
he was annoyed because people were wait-
ing in the pavilion instead of being in the
library studying the news - I finished sewing
at 9:30 & I went up to the library - and as
much of the news was read over the heads
of the crowd - Trapp & Jack Bean were
explaining the background of some of the news -
as the guard had not yet arrived I went home
& went to bed but I didn't sleep

Then we received orders to come to the
pavilion - I went up - I expected to find it
quiet & for a break but I had earlier ordered
the people to go up & give their seats to persons
of high rank (not to sit in front), asking the
little boy occupying it to sit at the far left the
other children & the guard, a young man
was seated w/ those assigned to talk to him at
a table in the middle of the pavilion - a
musical program was given & soon we were
dismissed at 2:00 - a heavy rain fell

The instructions given to us last night were that everyone should get up at 6⁰⁰ & go their classes & apartments, taking w/ them everything needed during the day - doors & windows were to be closed at all times - the doors were to be locked from the inside all day. Today & no one was to go in them - more visitors were expected & I surmised that this procedure was to prevent ^{one} any of the people coming in, any of whom might be a fascist or CIA agent, from concerning secretly w/ any member of freedom & a fourth place.

We did not do until about 8⁰⁰ as we had had a late night - I had breakfast - I went back to get something & find the door locked, already senior mostly went to the pavilions where they sat in any place classes were not held - some have been sitting on other benches - children were w/ their mothers all day - I often were ~~were~~ kept open for these needing to lie down - I slept on my bed most of the day as I had got far behind.

It was raining all day, sometimes there was a downpour, sometimes it was drizzling.

No one was to use the central pathway as the guests were to be taken a circuit of the college area & we were not to use that way to go to the bottom - we were also told not to go past the main pavilion where the guests would be served his meals, but were to ~~not~~ the go by the road by the digested off-

The creek was very muddy - I went down once to the central creek & talked to Tr at the pick off - some of the guests under umbrellas umbrellas were being escorted to the college area - Tr said they [] if was going w/ Carlton Goodlett - other the others were Guyanese news & radio men - they had all the plane bringing in the guests come over & they arrived about 10⁰⁰ visited the med. off - Tr said he would rather not talk w/ strangers

He heard diff. info. as to when dinner would be served - finally some were told above 1000 they could go down to eat - I went to eat at about 3⁰⁰ - we had chicken & dumplings X He ret'd to the school pavil until the guests, etc for I read [] in the late off

He ret'd to the cottages - a young man climbed through a window to knock our door

The lights were out^{in the college area} - I do not know whether the reason was generator trouble or was on purpose again felt to prevent secret meetings or perhaps anyone from seeing anything - with a map for a couple of hrs

Then I waited to go to the dining pavilion about 8⁰⁰ the lights were still off - I had heard that soup would be served but for ~~but~~ in the line - we were then told the food was for "smokers" only - I told the young woman serving & also a young woman in the kitchen and that I was hungry but was

Now that the big group of guests have gone, things are more relaxed - we are still going to keep the cottages closed up, but the doors were not locked today - the electricity is still off.

Huge day

I wrote a memo to Eva on yesterday's mail from Edith Parks put in another note to Eva about Barbara Smith's habits - she left her gas bottle in the cottage today uncovered.

For lunch we had soup, bread & an orange Lois & I read our separate books - I gave my group some reading friend first, having each one read a page or two so that I could see whether they were reading books at the 1st level - then I went over the news, expecting a test tomorrow.

Paul was expected to visit the sick today, Becky told me he didn't get up till 2 o'clock when he had lunch - I heard he didn't feel well but he suffered from "hot legs" & was treated by the mail boy - Edith Po told me he enquired about our gal on dating - she thinks he may be interested in Annie Moore - I don't know.

I had my shower.

I laid on the typewriter, sitting on my bed, which was damp because the lights went off - I contoured the outlines of some of the continents which did not fit right when past on the sheet - made some changes of the ones which seemed to be right.

Had dinner at 5:15 - it was an excellent meal: casseroles cooked in a better way, pieces of fish & veg greens, pudding & an orange. Went to the pavilion to be ready for the rally.

are not completed yet & I do not have all the
countries & I made a list of problem areas

The members of both cts met too - we
sped the shed on 2 tables for too - I gave one
or 2 of the cut-out patterns to each person -
we started at the top of the map & called out
the names of the cts & had the person
fix the pattern on the shed - they enjoyed a
good deal of fun out of the exercise & it was
a good learning affair - they were deeply involved
with size of Africa - Lu & Estelle Lewis wrote
the names & the ct on the board & some
copied them

To my shower

Work again on the map after trying to
complete the areas left uncolored

Had dinner

In the eve. there was a fashion show & a
skit w/Don Freed as the queen of humor -
a table was set up so that dinner could be
served to those & the people assigned to
meet w/ them - various fruits set as
preserves & herbal remedies were displayed

our sentiments - on the stage in front of the
table were various products made by our
people in Jonestown: a cradle, chair, toys,
for instance

At Freed & his companions entered &
sat down. He came over & asked me to
come over & meet Freed - I did so - I had
suggested to Dr. T. that he visit my adults
class to see the game we played with the
patterns of the countries but he had apparently
not got up early enough to visit my class -
Freed was very interested in our project of
Teaching ours to read & was touched when
I told him how much it meant to the self-
 esteem of a person who had reached an
agreed age to learn to read.

The play consisted of episodes about poor
people under the world - Spencer Johnson
directed it

115 Clothes made in Jonestown were
modeled by all ages, from toddlers to ours,
males & females, many made by the
wearers - they were all quite stylish & well
made - clothing manufacture is likely to be
one of our most profitable enterprises - many
toys were displayed - I was just back of that
stage & they were engaged in conversation
most of the time - Dr. seemed charmed &

24 Aug - Thurs

Heavy rains have fallen in the last few days & continued today.

I had noticed that an old suitcase put out by Mrs Johnson at my former cottage was still hanging on the line there - I asked her if I could have it to use to make book bindings of & she agreed - when I got it home I found that only the zipper was missing & I decided to use it for storage in place of a cardboard box.

Gabel moved suddenly - she told Edith someone had stolen from her - she told me there were too many boxes; I got the idea she found Edith had dominating.

Edith was given custody of a brown which she was to make available to another cottage - it disappeared a few days ago - she had inquired in the neighborhood but had not located it - she enlisted the area's child in the search promising the finder her week's treat - Today 2 of the live child.

said it was in Cottage 12, which turned out to be that of Willie Mcclone - both Martin & Edith went to 12. They denied it was there but the child told us they had grabbed out the cottage no - Edith recognized her brown - Willie said he had been chid wif them & friend but Edith did not follow through wif this.

9⁰⁰ and 10⁰⁰ were his set respectively for rising and first bath - I got up early (about 8⁰⁰) & did a little on my entries - stopped in pub for a beer & checked the news items on the board by eating breakfast at about 10⁰⁰ - we had planned

while the laundry isn't taking any clothes this week - the visitors were in Jonesboro, they can't hang clothes on the lines & there was no table w/ the electric power or washing machine so - soap can be obtained from the laundry to wash one's clothes - I did a good-sized washing again this morn., and a load - it was a very hot day.

I intended to go bed didn't accomplish much - tried to take a nap but didn't actually sleep - I forgot about taking a shower until it was too late.

Then it was about time to go and we drove for my reg. 4th school entry appointment it started to rain - rain came down heavily for half an hr. or so & I waited until it was over & took water & I arrived about the same time & saw a few min. later - she was concerned about Barbara Walker's classes - we told her that we had not seen her holding class much lately & Lois that her failure to attend studies may have contributed to her outbreak w/ the other day. We assured her that her studs not just from our classes - we disc'd the projected soc. class to teach riding for those who can't come during their lunchtime - Lois wants to participate & she has a firm pd. of

attendance must be maintained - I intended to hold class on 3rd. night as I promised Betty Cartmell (for Walter) - however, where we decided to make an announcement & see who responds

I had taken up my map-making materials hoping to work on the disorganized that still existed at the sch. pavil. - however I did not have time as it was already time for dinner

After I ate I went home by way of the toilet, brushed my teeth, put my map-making materials away & went back to the pavilion where Eddie and Gertrude were holding my seat for me

The news was played several times & I th notes inc. classes were held in the pavilion - Bob Chr. opened the meeting telling us to get out paper and prepare for a written test - as the paper supply is almost exhausted in Prestonsburg, people complained they had nothing to write on - everybody who had extra paper was asked to share & I gave away all I had with me after a page for my own test I came in - he asked who had not heard the news - a couple no had not, so he agreed to have the tape played again - I filled in some loose ends "Wrote together"

I dictated the test questions - there were ten on questions visitors might ask; and some people from agencies have indicated that we may have a CIA copy arriving here w/ a group of our people & it is important that we all appear happy & exhibit satisfaction & know

remaining ten questions were on the news
news! Of the test was a series of items
on diverse subjects which we were asked to
reproduce as well as possible after I read them
rapidly to us - as far many people had not
tried to take notes, so I went through the
test again - I did about as much as possible in
long hand, & got most of it - there followed a
bonus question - if we pass it we don't have
to take the next test.

After finishing our tests, we were asked to
help those who did not write - we moved to
the rice field as a more test to be shown
in the theater field. - I helped Joyce Clark &
Gertrude Harker - they both did well on

After I took my map supplies to post office & prepared to walk out the southern city of Africa - fit them fairly well soon discovered that they don't fit in with cities printed above, particularly - it was very hot - some of the women in the crowd did help me, out of songs some more countries & while on their own spelling - I became frustrated at being as my fed L bros, decided just - others were still there

Th my phone

In the cottage I had an argument w/ Barbara - called other to go see her esp. charge fees in it & not employing fee bracket, plus spelling per a few - she denied she had any fee on floor - others were present too ad nothing I dictated to have 2 witnesses right time & then her in fact when Terence was taking notes from it

I have about 7" w^t saved on my skirt

& on h^r or on Curtis' Hinters came by - he wanted one of his colored pencils to do a drawing for the home - I got down from my bunk to find his pencils - they weren't in the usual place - I searched every where I could think of & had to conclude I prob^t lost them in the libr - I was quite worried because someone may have picked them up - I went up to the libr & enquired whether they had been turned in but they hadn't been - Curtis, who waited for me, was very gracious about the sit - he ad he had to share things - he tried not to be too much affected by disagreeable circumstances & he had both stayed for part hrs, talking to Eddie & Troy Candler as well as myself - Curtis came from Dard with the Te - he ad he never remembered having parents who cared for him - The recalling events in the old Te days & singing some of the old songs - he ad Jim was called "Brother Jones" by his members there!

I was concerned about the other items in the bag I had evidently lost: pins from Ruby, dingers from the Ed off & items of my own such as Scotch tape, but I tried not to be too depressed - this may be that Eddie Nash - right or another of the women in my class took the bag home - I can finish the map w/d the supplies - I feel I forgot them because I was too tired & decided not to do a the map ton

I don't mind my sewing during Curtis's visit & off he

I was successfully seeking not to be too dependent upon living Curtis Waters' pencils & the other items had yet, as I have often foretold a long time ago good results in a favorable outcome so I also decided to try again to have his things sent to me by him or one of my other visitors after a day seems to take per most to com. - I told Curtis when I saw him that I would replace the pencils if I did not get his back - he was still very pleased about the matter.

I worked this morn. on the next edition of the large-type senior news - I had to write it w/c pen as the electric is off during the day in the cottage area until some parts can be repaired or generators

at lunch

Then I went up to lunch, found that Eddie Jr. had taken my bag of supplies home - she had noticed I had forgotten them immediately after I left yesterday.

Spent my riding class today - using the pre-primer, I followed the instructions to the teacher w/allowances for the age & upper of my studs & we had convers. about the story in the book - I was also able to branch out into a disc about events in Nicaragua

Listened to news in the pavilion
A film about union actions in Harlan
Co., Kentucky had been obtained & I made
it mandatory to see it too, as we are
effeting a visit from some union officials -
it was a long film in color - showed
the way the miners had been effected since
the 30's & were still suffering from capitalist
mistrust

Our hours were spent to grade the tests
done at the last meeting of the film &
only 7 of us came - he wanted us to get
started grading it anyway, but John prevailed
upon him & put it off until ton of the

I decided to give us 2 half days off to make up for working last Sat - we had the day off today and also got the morning time off the relay - we left at 10:30 AM - We had breakfast (muffins & coffee) for the usual time

Rd the news items on the libr. board

Talked w/ Lois - I had to turn in a statement to the Adult Ed Dept about the personnel, hrs of work, classes taught & wh. skills whether or not related to teaching - I turned this in today for both of us - in addition I have to turn in a weekly time sheet for my day but it is less comprehensive than the one I used to do - I had obtained the forms & directions from June DeSain - I have made plans for the Russian class, in which a no. of us will study the language more intensively - I have collected the names of about 12 to 15 people who have some knowledge or interest & have set 6:30 o'clock a.m. as the first meeting place and time as the first

odd or just entries, as we go on.

The children were out of the school at 12:30 for the rest of the day & I took the pup-mates up & fed them at a table & told each thoughtful creature there still - enough milk making things & food are for

X Went to dinner

M Estelle McCall moved to our cottage - she told me few days ago that the girls in '48 were too much for her - she complained constantly of the noise at all hours - she took much luggage when leaving Edith some dinner

- Went to the pavilion & th news down - the gathering and was so noisy that I sat on the platform to hear the pc. system

I wrote an announcement about the adults riding class planned for New Eve, checked it w/ Lois, & gave it to Triple Clark who was going to announce it - However, after Triple started to read it, Harry Tropp came in & asked us in assembling room to aid in getting the Bar Assoc.

To cancel Tim Stoen's membership on a charge of perjury - he said in court that he had not given legal advice to the members - & when he arrived, explained

to NCO's efforts to tell me go - also I want to
ask about any possibl. that he may have kept
any of my info turned over to him or
used it for any other purp - I also remember

which was read alone on the pr. occasion
earlier, so he had had most of his remarks

The socialist tests were graded at the beginning of the meeting - I waited for a while to see whether my annotation about the eve. riding class would be read & I would have to take makes - I then got some papers from Tropp and marked them tests while I administered the written test - at the end of this, he gave an oral test to those who hadn't had one - I didn't take the test

I went on w/Russian instruc. & I stood on the platform to help - he indefinitely referenced the membership in practicing the alphabet, Russian names & geographical names and Engle Russian words which are similar to English words

Then we were finished w/this, I continued ~~of the tests~~ w/grading the tests

per. discipline cases were hot up - Peter Paul & his companion were charged with the taking unauthorized time off at work & covering for each other

A note from Jerry Wilson's mother saying
that after she had gathered around her son
she was not guilty as charged pre-^{2d} if she had talked
w/ Betty Dennis & asked Betty ad she had
flirted w/ him - a note from Tommy Bogue
stated he felt Jerry was not guilty - in the
first instance I ad Betty was child & not
competent to state her like facts - bes. it was
wrong to tax the child through the public again.
ignoring - interviews w/ Tommy & Linda Polite
revealed inconsistencies - the pt remained
as it was by eve that Tommy was disciplined
because he had not been willing to get upon
the floor when Jerry was up & the jury found him
guilty of grasping & threatening Linda twice - he
got 2 yrs out of P.S.U.

that all cassettes be turned in and people shall

~~30 Aug - W~~

Woke up at 9:30

Checked the news on the board by I had type - by the time I went for mine at 10:30 the pen cases had run out again & our names were listed to go there too.

Wrote more of the big type news, then did a my job - lunch was not served. The dinner had not been served.

The people who agreed to sign affidavits that Tom Stoen had given them legal advice were being called to go to the pavilion & talk to the attorneys: Eugene Charkin, Harriet Tropp & James Hirsch - I got my call & was interviewed by them - more than the advice Tim had given on the NCO (North Coast Opportunities) employer case, they were interested to know if all my intimate advise w/ him he had ever talked w/ me about the cases - I do not recall that he ever had - we discussed thoroughly my relationship w/ him - one other matter I mentioned - I remember signing a will at the Te's request dealing all my property to Tim, so, as I know, the Te's had nothing left other than my relatives - as far as I know the will is still in effect.

Went to dinner

Spent in the pavilion until the sectors began to shell for 7:00 o'clock - very few came but some (L-2A-1 (91))

to this meeting which was for the purpose of
choosing teachers to the extra classes
which were to start ten - I thought it
was decided that 2 of us would teach
each of the 3 hr. class - I started the
first hr w/ Robert Rankin - he had ten -
denied to take control & lecture way over the
heads of the class & I interrupted him
sev. times (I find the next day that only one
teacher was paid to teach each hr.)

Those who attend my class & Lois's were
exposed

It was relieved by Laura Johnston - I went to
the pavilion, all the numbers on the boards
then went home - the lights were out & I
tore off Bettie and Mary Condale in bed - I
turned them on the lights on & sewed on my
skirt - I can't tell the time & had to guess
at it as Edith keeps her clock beh her car-
tain, & Betty's clock doesn't run well any
more, & Minnie has not run since June
I dropped it one day - at one pt which I
later found was 10:30 Jo's voice came over the
loudspeaker - it seemed that the students on
the bus had dismissed the classes early &
some of the class members had complained to
Jo that they were paid to have 3 hrs. instruc-
tion & didn't get it - I supposed that Laura
had not been relieved & had closed the
class

I had been exp. tired yesterday. - slept soundly but was still tired today - have had a very tight schedule lately - got up at 7³⁰ - went to Bkfst, on the way reading the news on the boards which I had not been able to see clearly the night before & taking notes that I needed.

Had my blood pressure taken & my foot treated - have had a little trouble lately w/ my athlete's foot, prob. because of the humid weather - it is never completely cured & breaks out again every now & then.

Came across Lois who seemed disturbed but I can't find out what was the trouble - I took her off for ~~to help~~ a test given to me in the rally of people who need extra instruction in multiplying & dividing - I had discovered that many did not understand these operations - they told me that she was disengaged w/ Cottage 48 too - I left a message for Tom on the Su Russian class & also one for Sylvia by (formerly Hulbo) to give to Dr. Schatz on the class - he has good Russian pronunciation, prob. was raised in a Russian Jewish family - I have now spoken to almost everyone else here (T) (H E) (over) C-3A-1 (93)

expressed an interest in learning Russian

I wrote senior news for an hour so - I have had to do it in handwriting this week as the electricity is off during the day in the cottages & I can't use my typewriter - I got it done almost as fast.

Want to lunch

As expected, a no. of our people came in to join in my class as I had especially designated myself to attend our classes when they failed the soc. test - so I agreed they shall be assigned to our classes on the basis of their prof. ed. in general & it seemed to work out fairly well - I asked my class to vote, on whether we should concentrate on news, news or a combination - they all voted for a combination - we started the class & discussed the story we had on the other day - quite a few got on their feet & told their personal views & offers - Brother "Bob" (John) Edwards who is in charge of a new device instituted by J to make cert that people learn (to go their plots & meals they must answer a no. of polit. questions or say a phrase in Russian or Chinese) came into the class to illustrate a method for improving their memory - he drew diagrams to show China's ~~Marxist~~ doctrine of the Third World - the class enjoyed it -

There was another showing of the Harlan Co -
film which I stayed to see

Carolyn Lammie asked whether I'd write a

cancer himself - I wrote a short note to him -
another was to be written to Harvey Trill, ST
supervisor who is a honest - had copies of
many yrs committed suicide - Trill may come to

Had a cancer sufferer Ladd who was writing
news - she spoke of her of loss of interests fully -
she told me everybody had title when in

had been told not to sit first in the nursing
days again - ~~for good she got home for the first~~

Lynette Jones, Jo's mother, has died & her grave is here - I had mentioned that she was buried among the children to emphasize life

I stopped at the office & asked Joyce Touchette for an order to Pop Jackson for some chairs for our cottage - she gave me a request for 2 - I visited w/ Mom & Pop Jackson in Trois-Rivieres for a few mins - Pop let me choose 2 chairs & a footstool he already had

Saw Tom in one of the sch. tents & we had a good convers. He was more liberal than formerly about giving me responsibilities in the Eng. teaching proj - he proposed I assume supervisor of the untrained Eng. Teachers - I told him titles were irrelevant but I was glad to do all I could - I was heartened

At home I had a nap - it was very pleasant, rain falling

The other & went to dinner - I have not much appetite & have been cutting down on rice drastically but I enjoy the vegs

Spent a few hrs reading Lower Radcliffe. Worked at 11~ in the pavilion w/ Jo & our h.s. Eng teachers but the film we saw in Georgetown, The Outfit, which was shot here, was being shown for the last time & I missed the first part but sat through the

when the film was shown in Georgetown that
I had not understood it - because of its
affinity of the theme I understood better its
relevance to our concerns

After the film I saw no sign of any of the
Eng teachers - I went to wash & saw Dick

the teachers afterwards if they were there.
Tracy & Shirley Hicks in the living area
drinking coffee when I went in - D. told me he had

he had not been told about the meeting -
he did not agree w/the idea of having such
a meeting now I see that a meeting of all
teachers should be held as many of them were
using extremely faulty methods - I proposed
we have Eng teacher training sessions &
he seemed to agree, but it was not greatly
encouraged by his attitude.

Decided to bed around 1:00 - didn't turn the

Aft the morning routine, I wrote yester's
girl entry

Visitors from the Amer. were effected today
so yester's arrangements were changed after-
priately - for instance, the red shirts worn
by many of our youth to greet the communist
visitors were blded & other songs were
substituted - everything was very carefully
regulated & arranged by P.

I went to the central area just by the
guests' arrival in mid-morn. to speak w/
the demonstr classes - they were short
of people & asked me to join Harriet Troj's
class - she led it on to early British
settlement in Amer.

The guests were an official from the Amer.
Emb to Guy & a lawyer from the U.S. representing
his client & when asked where John was,
everyone was to say, "I don't know!"

I stopped mid-the visitors - they watched
HD class briefly - I saw them conferring w/P &
staff in the pavilion where the exhibit was
all displayed - a varied entertainment program
had been prepared, some of which the guests

I had lunch

The guests visited the medical facil. & then
departed.

It had been arranged for me to give my
remarks on teaching which I was unable to do
last night, so I did at the Book Depository - friend

(any) ... C 3A-2(5)

were Don Jackson, Jan Durrah, Debbie Jensen, & Barbara Walker (none of whom have had any formal training or exp. in teaching) & prof. of the time Tom Griffis & Dick Fapp - I was able to make a few pts but did not get to my central thesis - resp. seemed to be favorable etc that I faced diff's w/Barbara who remarked that she & her teachers had to develop their own methods

From the longfhr all were called to the Radios for a confrontation w/atherine Domingue, who is a Cousin of Bates - while the guests were touring the medical facil. she remarked that "they" made her take a top bunk from which she fell; neither st'ment was true & she prof. did it at of hostl. profusely to demand its attention - I sd her statements were very harmful & could have broken over all the camp papers - this he had made - most of the membership was very indignant - I proposed a system of isolating potential troublemakers when we had guests - this confrontation lasted about an hr - it was very hot - we have had no rain today

I got a big washing out of the way

On an hr

Had dinner

Took a refreshing nap for an hour or spent the evening making back girl entries - the other students went to the college

conversing but I managed to wh all right

About 11^o I siloch a confrontation w/
Don Fields who had been on the floor
night was on the boudyfor sys - he had
justified taking at his hostility on child,
by saying that I did so - I denied he
ever told me that or anyone - Fields is
a white man from L.A. whom I did not
know

Diane & my other roommates reminisced
about some of the dangerous went the invasion
has been through since their arrival &
one of I asked on the radio whether there
was any other city which would take our people
in & they were prepared to do wif nothing
afe what they had on their backs - Diane
spent 3 nights wif the children under a tent
I went to bed at 11^o

Remembered at 8:45 time this morn.
to get the medical P & take my pronarin.
Tend to forget it.

Wrote to cottage & started on girl

Typing job - try on Jonestown med. proj.

I on full cover system commented on
Fidel Chir Com giving aid to Pinochet's Chile

spin Chir doing gd job for own pol but from
U.S. nationalistic, supports U.S. & Eur. sys

Went to lunch w/

Observed Janis class, then Trapp's - both
interesting - Jan needs more report w/class -
Dish using teams to foster soc. engg

Have Jan a critique on her class - she
depressed - feels lack of org - she seems
very tired - I gave her some suggestions
but she put forth some objections

Talked to Carolyn Layton when she finished
her class & by teachers' rating - asked her
about my girl mss - the O typed ones in
her custody & some later ones sent to her
are in a "safe place" - she does not know
about the notes & drafts taken from me at
the meeting (turned over to Tom Adams) nor

the ones I later turned over to the Te
(first in April 1977) - she thinks these
may have been destroyed as the Te was
afraid they might fall into the wrong
hands - In spite of what Terry Bedford
told me, she did not know of anyone
using them for writing about the Te - she
will make inquiries - she said there
was no problem about written material

He joined the teachers' meeting which
had started - This Friday at 3 pm is a
meeting for prng & problems of all the h.s.
teachers - apparently there is a Th meeting to
disc h.s. teaching methods & Darcie Lawrence
questioned whether this was - I bel the deci-
sion was to arrange it on Th anc rotating

Tom put up the quiet q about ad as a
prospective prng for me - Barbara Docker
seemed to me to show hostility, tow me
in regard to her adult class in which I find
she has only teachers vocal & hot as well as
conducting Ecclesiastes for adult women - she
has only 18 in former class - Tom also pro-
table of the vocab - he will consult Rob
Christian who is in chge of the soc classes

Bee Morton showed a sample of a full page
of which each q us will have to turn in
weekly showing all actions of more than 15
min. - The cost of paper needed was remarked
upon - photocopies can be duplicated in

I went back to my college & typed the

X Socialism classes end at 7:30 - all
members of Jonestown are divided into
grps for this disc - Introduction to Socialism

I taught - only the teachers have copies - the
classes are too close together w/little barrier
between them that it is hard for the teachers
to make themselves heard - I joined Don
Jackson's class as he had indicated he
would like some help - I volunteered some
remarks twice, the last time on thesis-
antithesis-synthesis - something I'd
didn't say seemed to annoy Barbara Walker
who is in Don's class. I think Trupp passing by
gave me a humorous rebuke for not having
recognized her.

11/ I left my jacket somewhere & can't find
it.

A film was shown at the sec day
(over) C-3-A-2 (10)

about 9:00 - I intended to attend but
can't find a seat

It ends home in a depressed mood, as
so many things had gone wrong.

After the film was over, J. came on the
radio denouncing it & calling for disc
on its flaws - "Some if you have such
impressionable minds you'd be following
Kittie" - Diane came home w/o others
having seen the film & said it was not good

I walked up w/Diane as far as the
shower & went onto the toilet - J. saw me
on the path & called "Hello, darling" which
made me feel better

I went to bed!

The Sov amb to Guy & a Tass repr were to visit us today, so arrangements were made to greet them - They were expected to attend the meeting ton & stay overnight

I talked w/ Dick Tryon on my hand-written drafts of my files, to find out whether he knew ~~anything~~ about them - he did not - he suggests they were burnt, along w/ other notes which was destroy'd (regretfully, he thinks) when the TD leaders were afraid the investigating agencies might force an entrance & examine our files - we talked a while about Dick's proj. of interviewing sons on their backgrounds - I told him that in the adult prog I intended to use that type of material as much of the content of the course.

The visit of the Sov. reps was cancelled
as a result of an airline strike & indicated
that he believed the strike was provoked by
fascist elements who are trying to prevent
us from having friends - as the Sov. visitors
were not coming, I did not have to type
the charge version of the medical rpt

Lester J. came on the loudspeaker & said
some high-ranking Sov. milit. reps
were visiting us today & I wondered whether
this was to show their solidarity w/ us
to our enemies

Had a nap for 2 hrs in the early aft -
a grey & white kitten which I am told
may be Chris Tally's came to see me
today & slept cozily on Diane's bed - I have
picked him up & patted him - I got him
some food for my lunch - I put him up
next to my open bunk & he slept on me

Jan Turvish came around to ask whether
I would come to the pavilion to talk w/ her &
Barbara Falter about their lesson plans for
next wk - I consented - I suppose that
either Tom or Jan herself had initiated
this meeting, as I had opted for a series of
conversations w/ Barb. - the latter was not as
hostile or friendly the first time we met

one of her chief aims

picked it up when I left it at the eve class.

The people's rally was at 7:45 - we had info

Kutales⁵, animal feed by Wardel (who had
done much research on the subject), & several
others.

1 sd material on agrie was received
in the set & everybody wd be tested in
soc class on their knowledge of items discd

trade & it is good when this coincides
w/ what is to our own benefit

There was disc of fishing Rod style w/
poison & our did. Members are going to
bring in the vine which is used & our
people are going to cut through the bush
to the river then & may find the vine
then

Patty Cartmell described her last previous

giving much amusement to the audience

A complaint was made about the damage
Loren Petty does to equipment (& passengers)
when he drives a tractor - he was ordered
to change his ways

Sel Patrice, the new baby, was born
in & placed in Jo's arms

A projected tractor trip to get cassava
starch was called off because the road is
too dangerous

It was news (by radio too seemingly)
that 200 members of the W.S. went to

soc classes met at 6³⁰ to disc the plans for the class - we were briefed on the minutes of the meeting of last T, as I had requested that the Disc on agres. should be the chief topic dealt with.

The soc. classes met at 7³⁰ - I asked them to let me teach the first 1/2 of the class & he allowed me to - I asked the students to name topics which had been discussed in the agres, rally & I got about 70% right. - most of the class members had listened at the rally & were quite interested.

A letter writing group met at 9 AM - I had few specifically mentioned w/ those who should attend - & we went to write a letter of thanks to H. Dr. Henry Hyndly, who will be visiting us in a couple of mos - I got a draft approved & went home to bed.

I came on the local after system - he made a reply to his daughter (Suzanne) & to wife Cartwell, who is cooperating w/ the conspiracy agt us - said he had been heart-broken if so many others had not already so disillusioned him that he was just incapable of any sacrifice - he no longer considered himself by her side & regretted the time & effort he had given to her which could have been used for his other child, "and you?"

11 Tom told us of had given him a sp
assignm which wld require a large am
of his time & he wld have to cut out
most of his other responsibl ind. his
classes & aid to the other teachers - he
dn't give us details of the project but in
gen it had to do w/ behavior modification -
twice - from what I had he'd discuss on
the board after I supposed it had to do
w/ the topic of isolation for those on whom
the learning crew had so far not had
any effect

11 Feb - 5

At 8:30 A.M. I rode to the cottage & while all morning on the first typing the one to Dymally - then I drafted a letter about the proj. emphasizing in our agri aims & the beneficial effects on our young people of our system, preparing the same from a who in the field such as Russ Town, our economist - Then I rewrote the draft for, changing it a great deal, adding some items & leaving the others. Turned in the Teachers' aids notes I had collected from the other teachers.

To lunch w/ Amer. P. Association

Left off from at 3^o, as she had asked for help w/ lesson planning - I made suggestions but none of them seemed to impress her - she was as usual depressed, effloring it was difficult to come in from field & turn her attention to teaching - Bart who usually works w/ Jean on lesson planning I saw working at the Bush Depository, & Jean & I told we would be considered eligible if we remained in the pavilion as the United brigades were being again organized to water the west garden - we went to the Bush Depots - Bart had gone but

Jean tried to disc her beam photos
of Tom - however, he did not have
the time - we had a Jean disc w/
Liane Amus (formerly Harris) who teaches
in the stem & she - she is fascinated
by her teaching offers. & open to experi-
mental, creative methods

A firm request was made for all
able people to join the bucked brigade
to wash the field again - I went home to
change shoes & got my hat & went to help -
I was participating in the wash as well as
directing it. - I worked about an hour & a half
until all were diminished - we had a
big & colorful group & the sight was quite
impressive after the beautiful sunsets

After dinner went home to clean up a
little, then to the rally - was too late to
get good seats w/c back - sat b/w Bob
Davis & Dorothy Brown

Over the long drift I stated that Patty
Cartmell didn't agree expressions of
sympathy she had read; this was not
her part.

Peggy Watkins presided over the first pt
of the program presented few musical numbers.

Eloise Hall, w/ whom I had stayed in
L.A., & who played the organ in SF after
her first & she moved up, sang a "blues"

The brights, the chord grp, being -

I am - he stated that six dogs had
been spayed by Long & his crew - I asked
for volunteers to take dogs to the fields -
several volunteered to do so

Dane Truss, a little girl who I think
now is our learning crew, spayed someone's
dog on the floor - she was reluctant -
I called for her mother to confront her & the
truth was revealed - the mother obviously was
not serious in her disapproval - I told
Dane she had better straighten out or, she
would be first for Tom Hubble's leather modifica-
tions

Among the items on the agenda from the
Agricultural Com: much disc on raising
chickens incl. puffing use of egg shells in diet,
Tennessee disease, worms, gravel & sand -
some of the points made by people in the audience.
The bad raised chickens were contradictory - I
and we need to call a meeting of all who know
about chickens - from what he had heard it
was probably an accurate meeting

Sugar broken into by the rats at the
casher mill was stated to be mixed up the
kitchen & used in cooking only - there had
been a mix-up with Charles Williams

Coordinating the tractor-trailer plan was discussed - it was decided that all areas shall turn in their reports & the Analysts will coordinate

Getting production info from senior's projects was discussed - I said some guys have taken up others' gardens & replanted them

As regards herbs we are raising was presented - Shultz is experimenting w/extracts of alcohol or oil - I emphasized the imp. of arriving at some herbs we can use instead of purchasing medicines, which are very expensive

Info on cassava & citrus were given
I said he had got customs duties reduced to zero & the medical crates will be allowed

Dick Tracy interrupted Harry Kuttles's info on banana production, saying such info was useless unless one knew what we had got

Jack Barron, acting on peanuts & sorrel, said nematodes were a prob. in the Caribbean area - they are microscopic round worms - a guess of planting pumpkins or guineas in the certain areas - guinea was said to make a flesh - the pie = was put by the guy - however, the yield of pumpkins was much greater - the guess will be turned over to the analysts & questioned why the producer is always in debt when he has sold the end of next

he had ordered on the boat - they will be questioned at the next meeting.

Russ Dutton, agronomist, rptd - he wants to get info. from China on their use of night soil in agri - I told him the Chinese have a mission in Georgetown - Dutton can get info. on a compost privy - Nigeria has a method of using night soil, garbage & organic material - I said human manure is the richest of all manure - we shall do s' thing on an experimental basis.

There was disc on the diff woods available on our property & uses for them - I called for more effort in locating wood & said the sun pha take an interest.

During the livestock rps ref was made to the time the cows' teats were destroyed by bats - Mandie Swinney was blamed & said he doesn't want any apol. in adv. When the person knows he or she is getting blamed - when 4 little pigs died she wrote a 2 page letter of apol - like creates the individuality of young workers who often do better than she.

Then in Georgetown Mandie pursued an index course - once she spat out of her mouth & made us pay more than need. - I said she has many people he can't send to town, can't trust that - Mandie is arrogant, a know-it-all - in SF she was making \$1000 a mo., she goes

Burstolon has been going off - he is lethargic - he cd have flushed his cd had he not been involved w/c white male outside the ch - he is too passive

Chris Lund ^{the Electrician} gave a fine rpt on lightning protection - I wanted a required course in electricity to be taught to the h.s.

Tedra Gates refused to run while on the Learning Crew - she is 54 - I sd she is not nimble - she put him through more, more - physical trials over her dog - I put her on L.C. for a day, it was her 2nd w/c if it had not been for her age

Willie Malone went away on the L.C. - he was given a last chance

As blfst had long day to wh by myself -
who on my girl & red Amer Pediction

About 8 AM I go layton th my med. hist.
in the dining pavilion

I made announcements throughout the day on
the intern sit which is very threatening - the
war between Somalia & Ethiopia is reached a
serious stage, w/ tough stances being taken alike
by the USSR on the one hand & the USSR &
Cuba on the other

I went to dinner about 5 PM - we had chicken
as the fish wd not have been unloaded in time

I went to the pavilion & was able to finish
Amer. Pediction by Sidney Lass

Jann fed me & wanted to talk about her
future plans again - she had decided what
she wanted to do for the wht - the boat was
in w/ the passengers expected momentarily &
warned her I wanted to greet them

IV mostly exercises on sentence structure, which
is contradictory to the advice I had been giving
her all along!!

The plan for the new arrivals was to take
them to the pavilion where a crowd was
gathering for the eve entertainment, but people
insisted on greeting them at the theater - theater -
among the new arrivals were Linda King -
Eddie Katalas - Don Taylor (now called Dean
Kean) (not from Georgetown), as did Shonda
Oliver - I talked a few mins w/ Linda

(over)

C3-A-2(44)

John Jones handed out cookies, as I said he had to take care of emergency situations involving our family in the States.

I listened a few mins to the entertainment being provided in the pavilion, then went to the cottage & was on yester's girl entry.

A movie first from Georgetown was being shown afterwards & the other occupants in our cottage attended.

We did not get any new residents in our cottage, except those in the top where Judy James has moved out, Laura Johnston will be w/ 2 girls - Harriet Trapp is the other person in the top - downstairs my roommates, besides Diane, are Veron Connors & Shirley Ann Edwards.

A young girl, whose name I do not know, borrowed my iron yesterday & at bedtime had not rated it, after I had spent five mins telling her how to take care of it.

I went to bed at 11[~] but was disturbed by the conversation, which could for some time of those who were returning from the movie - the guards come around to see that lights are off at 11[~] but apparently do not check back frequently.

Didn't even hear the 6^o or call this morn.
nor anyone got up nor ho - got up at 7^o -
shortly before this an announcement about my
class must have been rd as several people
old hearing that it wd meet at 7 o'clock M,
W & Th - I waited for my medicine & the
nurses' ap - then went to the reg. shed to
get persona bid fish was being cleaned so I
couldn't be accommodated - Strangely enough,
this was the first day I had & normal
bowel movement, the spouse

Went to the Birth Depository & the place
bt to rd - found nothing except Why Children
Learn by John Holt which I have never
rd - checked it out - got some materials
for my class

At the house at the 11^o o'clock period
taught my first class, a grp of 7 or 8
men from John & Shirley Basin Eng
classes who were sp. attention for one
reason or another b among them are
Lorette Buckley, our 2^o & Fair Baker
a brother of Charles Baker who fancies
himself as an intellectual don told - the
young men in the class were talkative, the
2 girls passive - I started on a very
simple book w/ disc & then made an
observation assignment

Spent from 1^o to 5^o in my college etc
for going for a phone - I started the
book (over) C3-A-2 (43)

Held bk & wrote first entries - I pryo
There was a teachers' mtg at 3 or in Ms'
No rain but got fallen - the brush
brigade was called out again & I joined
them at 5³⁰ & was back by

Dressed for my ch class & went for
dinner - we had starch which was very
good

At 7⁰⁰ met my adult class, which was
slow in gathering - about 7 eventually came,
incl. Helen Lark & Shirley Hicks. I got an
idea of their long. obs (all can do lead
rec & write a little) & told them what
we might be doing in the class - & the
end I put a short selection from Ogden
Cook on the board to show them what
can be done w/ lang.

A Charles Bronson film, "Newman's Law",
one of those hot for Georgetown was
shown at 8⁰⁰ & I stayed to watch it -
it was horrible & I did not have sat
through it had not I come in to give his
commentary - he pointed out the racist
elements - the excessive violence was
also deplorable

Home to bed about 12⁰⁰
H.S. Denby borrowed my t.w. again in spite
of my deep-seated dislike of lending it -
I still don't have my iron back!!

At 11⁰⁰ I ate a whole papaya which
I got from the vegetable stand - I had a
small bowel movement again -

I applied to Dick Trapp the difficulty I was
having about the use of my t.w. He
told me not to allow other people to use
it

Went to the shower to do my laundry -
They are cleaned for 7⁰⁰ to 11⁰⁰, or I
could not get in - all the buckets in the
generator shed had been taken for use
in the fields - The one tub I saw on
the porch of one of the dorms the residents
had not let me use w/o the permission of
their head, who was not there. I had an
argument about this, in which Barber
Walker participated in opposition to me.
Some people were sympathetic, & finally
let me use the tub.

I finished by 11⁰⁰.

Went to the dining pavilion & ate.
Had my class at 12⁰⁰ - I wrote on the
observation forms I gave them & used
it for practice in spelling, in which they
seem to be pretty bad.

My son had been returned to the cottage

I slept on he & a half - it was very hot

I whistled on girl entries for two or three hours

Had dinner

Went to the pavilion to get a seat w/a back - there was the usual scramble between the seniors & the workers who were trying to arrange the area for the rally - I found a good place.

The Drifts did an amusing song inspired by Jo's comments on the sort of people who tell him about their constipation; called "Sitting on the Toilet Stool"

Jack Barker presided as the agri. info. was given - he first spoke on the relative merits of pumpkin & gourd - the vote of the members was to follow his recommendation: plant pumpkins in the fields, gourds in the windrows

Costs of produce are being done, incl. a cost assigned to labor

Bob Big spoke on the chickenery & the visit of the veterinarian, Dr. Thunend - the baby chicks which had been pipped were dying because their tongues were cut - the

Chris. Talley rptd that 2 more dogs have been spayed w/the help of the vet - we are awaiting a litter of rabbits

Wanda & Dr. Fernand stated the dry season was the time to get on top of the fly problem: sand flies, which闷me & wet spots for fly breeding
J. arrived at 845

Gene Charkin spoke on expanding the planting of banana suckers - we may be able to market cayenne bananas - Danny Ratakos⁵ will estimate the no of banana suckers available - Gene thought it not wise to go outside the area for banana suckers because of the risk of importing disease - Terese King had requested a change of fit back to the banana crew, but she had said she was parsimonious in estimating her position as a children's worker & she had sent an amendment

I jd Dr. Fernand was a socialist & very friendly to & impressed by Jonestown - he thinks the world the best we go
Covered C-34-2 (47)

in the world - he admired the simplicity
of life of the leaders & the parties in
actual wh of the supervisors - J. asked

word from Constance - in 3 days or less
those in the proj will show change - &
we will guarantee it

Peter Thompson submitted a proposal
for an even heat skilled cooking arrange-
ment so that we can have fried eggs,
pancakes & so on - possible. of getting the
correct metal for such a device were
discussed - Peter also suggested using
wind mills for power & watering
during dry spells - this was referred to
the Steerity Com.

Jack Dawson thinks he is getting some-
where w/ bricks - Jeff Clegg suggested
mining clay & selling it if feasible, as there
is an increasing demand for it

I asked further on the remarks of Dr.
Fernand in Guyana is better than Cuba
in the unpretentiousness of the leaders -

laying hens - of much diffc. I ascertained

disease from hogs to chickens - keeping
them tog is going to cost us in the end

J-D admitted he was lazy, lets his crew
do the physical wh & doesn't wh h'self.

I remarked that of the people who used
to assist in Q50ing in the radio room,
all have gone since the food stopped.

I sd J-D manipulates, thinks he is
better than others - J is concerned why
he doesn't wh, suspicious about his
planning to do. Larry Schatz sd J-D
does a selfish job on the herbal remedies.

Larry remarked he had a mother who
had been in labor 18 hrs, the baby was
turned and - he was prepared to perform
a Caesarian but J came by, sd it wld
be all right - the woman went into labor,
the baby turned and the woman
delivered in 2 hrs.

LL J-D had used his attendance in the
radio room as an excuse for not working

Rob Christian & Jerry - Gay had been removed from their jobs & white persons were going in - Steve Jones got up, & after a lifetime of living w/ black people denounced passionately this "white shit". I recommended Jerry & Amanda & gave each of them other assignments - he doesn't like to send seniors to learning crew.

Then Bert Christian th th floor & started to talk about the changes made in the warehouse where he has been the head - he sd Helen Swinney who was asked to help him take inventory, w/ Charlie Touchette & Joyce Touchette had worked in on him - he felt excluded - he resented removal from the warehouse job which had apparently been done by steering com last night, intending to write it up for J - Charlie, Rob - Harriet Troop sd she initiated the action - Johnny Jones sd Rob should have registered and agreed w/ steering com. At the time - Vernette Christian then became forward to state that Rob had not been so responsive; he should have acted - she was the one who sd nothing to Jerry & Amanda about it - J. sd "Well, I don't think he'd have come down somewhere"

At that moment a huge explosion coming

from the area in front of the pavilion was heard - I thought it was either a bomb planted by an enemy infiltrator or who knew we would be in this country at this time or an explosion of some fuel on the grounds near people inst. I left; the rest of us sat silently & waited.

The few moments some people were called for & it was evident that the truck was going to be driven to Port Hartman & a plane from Georgetown called for, indicating someone was injured.

We found have waited here at least, possibly 2¹/₂ - then I got a - told us that an effusion in a piece of equipment had injured Tommy Berkman (formerly Katalas); in fact he had been dead & was restored - he was blinded & maimed but he was going to be all right.

11² my watch, which has been keeping time well, had been stopping off & on all evening no matter how many times I set & wound it - I did not know what time it was //

I said when there are divisions such as those represented by racism, accidents like this happen - he gave an account of Helen Swinney's being asked to inventory the warehouse - items intended for dig. dep'ts here in the warehouse - the inventory was in a shell of corners - I had asked for

this was not directed agst us - the Stoen
are all over Washington seeing it - wing
people - therefore Mother thought be all over
Wash - Stoen won't have complete immunity
he can still be indicted for actions
as nobody likes a punk

Joyce Touchette criticized Helen's driving
for her attitude - she doesn't pay attention to
people's feelings - what was done in the
warehouse was to give Rob more opp
to perform engineering tasks for the fe -
It reminded Rob of what Helen & he
h'self had had to go through, having
children who were traitors to the cause -
she had to be willing to kill her own son -
there were essential long evening jobs for
Rob to do - I mentioned the vibrations
caused by Rob's rushing in when a
truck had been put into action & an issue
of racial injustice - "then you come in w/ charges

I th' up the question of 2000 lbs of fish

get shortchanged in Georgetown when we
need protein to feed our people - the reply
was that the anch crew was short of men -
I replied this had been foreseen - you
can't take anything for granted in a
developing story

Sly was very sad that he felt unnecessary w/ Tim
when leaving the boat controls - he said
he felt he was not trusted to do anything

Resolutions made of problems : I-D is
still hanging in the air - I said he
should have taken him off learning crew -
will serve his full term

Tim is unwilling to go on l.c. for 2 days -
Sly has to be more assertive - trying to
Tim best to change their ways & try and
it to be a l.c. too - Rob Christian to go
l.c. also (all of these prob for just a
night so that they can get back to wh tom) -

The night had been disturbed by sounds
of coming & going outside

We were awoken at 6 or by an alarm
call, the loud siren telling us to dress &
go to the central pavilion as soon as possible.
I used the potty, threw on my clothes,
put on my glasses, purposely did not take
my watch, as the others were urging me to
go

The entire membership w/few exceptions
(the babies in the nursery & their care-
takers & people taking aft the animals) were
gathered until the pavilion & seated on all
benches & chairs which could be crowded in.

I found the first sit had worsened &
was threatening - don't know. Wills had been
forced out of the Cabinet & the Minister of the
Interior, Desmond Hoyt, seemed to have
increased power - the former had been
friendly to the Te & the latter is a rightist -
the Army was on maneuvers close to us
& there might be an attempt to burn us in
one way or another - many of us believe the
U.S. & the CIA specifically might have
played an ing role in the events.

word of all, he had had no sleep for a long period of time - Sherron Oliver who has had training as a dental assistant, had temp feelings in his tooth throughout the day while he sat in his chair.

What do about the sit was the sub. of the whole day's disc - I thought the Pres. asked our rep to clarify the views of the govt & as time passed to make our demands known, as he favored his usual pl. of negotiating from a position of strength.

As we assumed, no imminent ins - certain developments indicated that the situation was getting more serious, we began to talk of trying to get to other friendly countries - by this I mean to make suggestions or express opinions, w/ comments coming from J & others of the leadership: Harriet Tropp, the iso - prom. polit. analyst, Mike Prokes, GENE Chaitkin as an attorney, Lee Lyman, & those who have been here for some time & know the big picture, such as Charlie Torchetta

This same kind of concern & argument had taken place at least once before, as Diane had told me - at the time of the last crisis when our opponents had entered our grounds & actually fired shots (in connection w/ the attempt to get John Stoen away from us), the membership had stayed in the perimeter three days & nights - food was short in & people exhausted in spite of their physical

we were instructed by senior to go back
a small nearby bldg

Some people envisaged the possibl. of
returning to the States but in gen the
choice seemed to be two cults, the
Sov Union, & various African countries,
such as Ethiopia (I explained the serious
dispute then, Ethiopia & India w/ the
attractive possibilities of the U.S. & the Sov.
Union as playing a role in our dilemma),
Mozambique, Uganda & Zimbabwe - votes
were taken north & going to some place in
Africa wd get the most votes - The
difficulties were recognized: the fact that
we are overweighted w/ unproductive
pros & little child, the question of
funds for journeying anywhere & by
what means, language problems after
other cts w/ us also the we might
infiltrate enemy agents - I & one pt
proposed that we go back to the U.S. &
support our sons & children by relig. &
leaving things, say, in N.Y. - This latter
suggestion fell flat, more it wd seem
because of dislike of the cold than
because it wd prob be imposs to keep
our soe faith alive among our young

We had some dried bagels of water

(over) C9-02 (60)

was given to each, we were told we wd
live only on other meal - biscuits & cheese -
as we had this, & water was given out
again, I told us the sit bed not improved

I had made several st'ments from the floor
& at one time finding it diffi't to speak when
my comments seemed pertinent, I sent up
a proposal - that I asked for it to be
acted. But it was not - It suggested that
instead of revolutionary suicide (which had
been suggested) we seek to send our
young people to some African city where
they cd be used in a revolutionary cause,
that the adults support their son & child
in whatever place was most feasible, so that
the brains & talents of our little ones wd
be saved for the future - & for other people
made similar suggestions that our young
people fight in revolutionary situations

At length I stated that the polt. sit.
showed no signs of closing up & that we
had no alternative but revolutionary
suicide - he had already given instruc-
tions to make the nec. arrangements -
all wd be given a potion, which combined
w/ a potent poison - of taking it, one wd
die painlessly in about 45 min - those who
are leaders & brave wd take it last -
he wd be the last to die & wd make
sure all were dead - lines were formed

(contd) c-3-A-2 (6)

16 Feb - Th - 3

as certain w/ the portion in it was hot
in by the med. step - I see only a small
and was nec. - The ones were allowed
to be seated & be served first - at the
beginning those who had reservations
were allowed to express them but those
who did were required to be first - as
far as I cd see once the procession
started, very, very few made any protest -
a few questions were asked, such as
an inquiry about those in the nursery - I
see they had already been taken care of.

I find it hard bel that the threat w/
which we were faced justified, and an
extreme action - I do have that it
more in keeping w/ what we had been
taught to go down fighting, taking some of
the enemy w/ us - I felt that some form of
civil disc. shd be tried first, as it
cd have a profound effect on world opin -
and I wondered why we shd let all our
blgs & orgs to be exploited by the enemy, as
I had mentioned earlier instituting a
scorched earth pol.

These considerations led me in a sort of
my mind to doubt that I was actually
giving us a prison - However, the whole
procedure was otherwise so convincing -
I knew that I was able to perform any
action, no matter how desperate it might

(cont) C-3-A-2 (62)

sent to others, & that since he is convinced
that life is all pain anyway, he wd be
unlikely to be influenced by our desire to
live

I shuddered - I regretted dying as I feel
I have you of who & Upper ahead of me,
not least the writing I wish to do about
this whole remarkable story - it seemed,
bad luck that just when I had come to
Jonestown & had a chance to use my
talents as a teacher, I should be cut short -
nevertheless, I am 62 & I think of those
who were younger, especially the children,
w/all their potential - I liked and re-
mained here glowing eyes - it was awesome -
even the children were very quiet - I
looked at the beautiful sky surrounding us
~~X~~ I reflected on some in the past who had
been executed, some such as Nathan Hale
and Chegler II whose principles I didn't even
agree with, but they died bravely - I don't
know why I didn't think of revolutionary
heroes, except Rizal in the Philippines, of
whose courage I had been told - men
such as Victor Jara & Salvador Allende
should have come to mind - perhaps they did
not, because they had few tortures as is
the custom nowadays - the idea that of
being sent to meet death because of devotion

to their polit beliefs - presumably they
had here renounced their beliefs & lived
Poetry in general was what I most
regretted losing bch - inevitably Hendrik
came to my mind, & altho he was
a fictional person, I felt that he most
nearly typified the condition we faced -
all of us, a sacrifice for the community,
dying when he was young & capable of so
much achievement - but the sacrifice
of his life, as remarked by Ferguson,
accomplished s'thing for the society that
lived aft him & I felt that this amazing
event in which we were involved wd
undoubtedly be noted and the world &
people wd know that we must have
cared deeply - when it came my turn
I meant to request that he send this
msg: "Do die protesting pacifism" this is ✓
I gave some that to my sisters &
Lor - when they heard the news I
was afraid they wd think Jim Jones
11 better than dying by the nuclear bomb //
was a heretic & I wasn't much better
than one " - this that I dismissed. - what
did it matter? - sooner or later when
~~the world ends~~ (over) C3-D-2 (4)

The boat fell they wd realize Jim Jones
was right as I had always said -
the thought of the people at Bechtel whom
I had known well never crossed
my mind

In intervals as the line went down
the platform & crossed the river & came
down the middle I contemplated the
experience of death - another Shakespeare
character, I bel. it was, sa, "We owe God
a death" - I had to die some time -
but I would say I didn't look forward
to it w/joy - At that particular moment I
neither wanted to cease to exist, to be
absorbed into the Transcend. Essence, nor
to be reincarnated & start all over.

However, it was a most pleasant, &
one certain & peaceful way, I was
enjoying it just the other - everything
in the world - I was freer of those
hours one than I'd ever been -
I was able to let go & I found
myself more at peace with all in their
place & knew the important
things in life - especially
the love of my wife & my
children

16 Feb - Th - 5

11. The most poignant that of all was that the greatness that is Jim Jones will come to fruition - was this movement he has nurtured to come to nought, to a pile of dead bodies & an abandoned agricultural experiment in the small city of Guyana? He is the most remarkable man who has ever lived - is this what he will be remembered for?

I think of the time that in tones of the utmost solemnity on a tape played to the SF. Fri night meeting he had promised, "If you stay & use your fondest hopes, all that you ever imagined you could be will be fulfilled" - I didn't feel that I had delivered all I could do, and I knew that others had not. I remember his saying, in a flash of revelation, "Larry Holbergson, I see you giving your life for this cause." I did not think he meant in this way. There was one person I did not quite believe our lives were at stake.

And what would happen to those other members of our family in San Francisco - some of the brightest, the

(cont) C-3-A-2 (66)

most loyal? What would happen to them ??

Diane told us the next day that many parents came up to their children to give them a last embrace.

Some people were beginning to collapse - I saw one woman being carried out - I didn't know the passage of time - it must be about 45 mins since we had started taking the poison - I was annoyed that I did not have my watch - then I was annoyed at myself - when one is about to die, what diff does it make what time it is? - I couldn't very well write in my journal : "I died at 5³⁰ p.m. on 16 Feb -

I had only a few mins left until I would take the poison & I was going to be a credit to myself & I was just like to sit down on the grass and in a few minutes I would pass out - that would be the end.

Then I heard a voice - quite quietly he was saying, "you didn't take anything, you had any punch wps' thing I little stronger in it!" He went ahead to explain the people who were passing out or feeling dizzy. "The mind is very powerful" He told us we should have known that the revolution by suicide might be sometimes over, he was having

One little boy, Ivin, Perkins, Ibel,

A good many of the seniors said that
they were grateful to die - they had
suffered so much - I think many people
regretted that they weren't going to die -
in a way, I do, regretted that I was
not going to be off learning crew. Back to
the sound and fury of life.

11³/4 I wd take the potin w/o hesitation!!

We went into another service, the chief sub-
disc is the advisability of making some
visits to churches in Georgetown w/ the object
of gaining a following which wd stand
back of us in a polit. crisis. I envisaged
holding healing services w/ the choir -

someone proposed that types & motion pictures
cd be used to prepare for future meetings -
some opposition was expressed, prob. much
of it based on going back to the services
now that we had gotten away from the

wisdom of using his gift, which was genuine -
he told the choir to get ready

17 Feb - F.

Accomplished very little today - aft
break went to veg shed to get peppe -
none were in sight - got a cucumber
instead

Did a few entries for a short time

Had break about 11:30

Went to my class at 12^{oo} - I expect'd
them that in view of yesterdays happenings I was
going to be firmer - wanted them to pay
attention, talk and answer, etc or their
spelling - Then I chose the assignment for
today asked them to think 5 mins on yester's
events & then I wrote their observations on
the board in prep for writing on M - found that
John & Tom had both given written assign-
ment on the crisis day

Did a little more on journal entries by the
L.S. teachers' entry

Dick Trapp explained his project for an apprentice-
ship proj to go into effect when this term ends
in Jan 3 wks - said that we'd be assigned
to working one of the common under super-
vision & they wd attend class alternately
on M, W & T.Th - said teachers wd be coor-
dinated w/ the 3rd class - the classes wd be
divided into long terms w/ P.E. Sci & Maths - F.
wd be used for testing & retest - stds wd not
have much free time in academic subjects but
the subj's wd be tied in w/ the wh project -

(cont) 2-3-A-2(208)

a great deal of record-keeping would be involved, plus the time involved in setting it up - as Tom will be going into his aviation project on M, he won't be available. There was some discussion on the possible that the Guy. govt might request us to administer tests of their own on acco. ability - we would like to get sample tests & prep. them - Caroline Layton said it would be better not to go directly to the govt but get the tests some other way.

I had very little time after the teachers' meeting so I called for the buckshot brigade again - that a little rain has been falling & we had a light storm today, I said it hadn't been enough - I started out at 5 am, intended to quit at 6 or to get ready for another meeting which would precede the soc. class - however, we were late getting started - I was up a good part of night & what I did do at 6:30 there was some resentment

Wanted my college, change shoes & got my notes on hand to meeting

Waited in line for long time, then just by I was in front of the window, the servers ran out of food - we were told to come back after the soc. meeting

I haven't been able to attend the briefing session - when I arrived at the meeting I learned we were expected to test people on the agri. portions of T's meeting - don't

were meeting in the college when I got

Took a nap for about an hr

I called for the water brigade early
today - tho there had been a brig

down at 5⁰⁰ but the watering didn't
last for long, prob because of my
heat worked to get dinner started so

I went home to change my shoes & I
got my dipped & water cans - it is
now for me to fill them on most of my
trips to the central area so that I will
have enough in the collage.

I got a good seat at the rally, next to a
woman who keeps her eyes closed most of
the time - when aroused, as she was
countless times by the guards, she protested
that she had an eye infection & won't
cry

We were not awokened until an hr
ago today

I had breakfast at 8:00

I did on my part all morn., writing
my reactions to the day of crisis, 16 Feb

Went to the Central Park around 12 or
guests from the Guy govt were expected -
I joined Harriet Tropp who had a demoni-
cstration class for adults since it was
Sc, a Guyanese history

Two govt. officials were in the party,
Fred Wills, the former Govt Min. who
was said to have been deposed by
who according to Dick Tropp later in the
day, may still be Govt Min., & the
Min of Ed, Vincent Teekha - Teekha
stayed in Fort Kaituma until late in the
day.

Wills did not notice our class at all.
the party wif & his leadership grp, went
directly to their building where they con-
fined - it was released - Teekha
was by Dick & I & he has wanted
to inspect our job - & was informed

234-2 (32)

that he might want to see our school records, some of which I have & which are far from complete - I have done nothing on them - however Harriet told me later that Tackah was impressed w/our projects & that all went well

I had asked Dick for list of the Govt ministers - the pres. is Arthur Chung, Chin - Forbes Burnham is Prime Minis., Stoleny Reid the Dp'ty Prime Minis.; Vincent Tackah, Min. of Ed., for Min. Fred Wills; & Desmond Hoyt, Min. of Developm.

I went to the cottage & we had until dinner.

Went to dinner at 5th - the line was not too bad & we had liver, sweet potatoes & gravy.

Did my cooking and 7th - the band & singers were finishing entertainment in the pavilion until late but I stayed for just a few minutes.

Wait until bed time in the cottage - Diana, Rose & 1/2 child were in the cottage & I dozed on w/ my eyes, etc.

that I helped sweep out the cottage
when V. borrowed a broom.

Diane seemed very depressed all
day which I think was a result of the
adverse comment on her permissiveness
in yesterday's meeting - I tried to soothe her feel-
ings but she did not respond, maybe
because it might have been interpreted
as gossiping or resentful of author.

On Su evenings it takes a long time
for the cottage crew to settle down for
child to be taken back to their homes
& residents to turn off their tape recorders.
altho the guards had announced "Lights Out"
at 11⁰⁰ as usual - Laura Johnston, who has
moved into the log, had a severe
attack during the night & also intended
to use Karam's bed in the next cottage
when she got home last evening.

I have gone to bed at 11⁰⁰

shower & questioned him about some changes
in the Bogue & Cordell families - J. is now
called Jim Howell - Louis Bogue is not the
companion of Harold Cordell, who th his

Went through my reg morning routine;

Prenairin & med. off, got pajacs, in
bottom had small bowel movement -
my system seems to be straightening out.

Made my plans for my class &
noon.

Did a little wk on my grnl
Had lunch

In my Basic class, I put some of the
topics we had discuss'd on the board to
trigger their memories of F's disc - then
asked them to write on the day of the
crisis, their observations & their thots -
no one wrote well, and even a few
sentences - made no sense - some
just copied the topics - Jim, who had
already turned his composition in, had some
orig ideas, but his spelling & such grammatical
pts as tense were deplight & his writing
was full of a lot of bombast

* Did more wk on my grnl
Wrote a shiverill

At 3 or so had an long talk w/ mtg -
Tom, who has intiated lots of the isolators
fail, was not present - very little was
sd - at the induction of jacob I gave the

rest of my pts on teaching Eng - Dick Tropp offered some reservations about emphasis on oral methods, but his further remarks were supportive of the idea - Barbera Walker had away, gave the impression she wasn't listening, made no comment - he is in favor of centering all instruction on the actual work in Jonestown; a de-emphasis on writing etc for factual pts.

Cecy Berkman & Christine Licienite were taking grp's of small child. down to the isolation site so that they will be warned about what goes there & they misbehave - Cecy invited me to go along - The place in which the first person, Dana Trout, age 8, was confined is a grinder hut back of the dorm - Tom was sitting outside, making notes - Dana was screaming constantly that she was thirsty, wanted water - However, Cecy told me she was given water & she was merely trying to get attention - there was no light but she had more space than the other called for - the other children just listened.

I prepared for my card class, did a little more wrk in my jnt.

Then I went to dinner. I was on

paid good attention & participated well.

Asked those who didn't have to sell

turned in their names

Debbie Jordan who is a dyer of the socialist
group, let me borrow a copy of Cities w/o

to need in Georgetown - an order has been given out that all medical bks & etc. turned in to the soc. libr. & will be issued to those who have need of them for limited time, incl. students & faculty - for only teachers can borrow such bks.

On my way home, I met Diane who told me that Irene Johnson had moved in our cottage & was occupying the bunk beneath me - Irene will replace Diane as teacher of the toddlers.

I put Diane in the cottage - she had moved all my material & had made a very attractive room for hers. - she also scrubbed the floor of the entire cottage - I put away things & otherwise disposed of my articles & I can still keep my suitcase under the bed & managed to fit some more items in books etc. I won't be handicapped or small as I had thought.

Came up from the relay job - I took my
car down to Dick at the Agrie. Off.

Dick had told me that he didn't
think I'd get dinner late, but I asked
at the kitchen & got a big plate of greens
& a large piece of pie & pie from Ollie.

The relay was still not over - when I
ret'd to the pavilion it seemed that a big
number of people had been on the floor &
many had been put on the bed - service &
small h.s. boys had been forming groups &
chasing each other & I have broken out in a
fever when one spoke of his "gang" - I call
this a pejorative term

The meeting was ended at 2nd saying that
we had steps & bus later in the morning

I went to bed about 2^{3rd}

I got up at 8⁰⁰, went for blps
Had a long wait for medication, as
all the people who would otherwise have
come earlier to the Med. Off were crowded
into the later hrs

Did all my girl friends
Gone to bath

Washed my underwear, towels & so on -
The women's showers were closed for
of cleaning & I used the men's side -
when they were through upstair on the
women's side I changed over, finished
my rinsing & the c shower - I missed
my watch when I got to the college,
may have left it in the showers, altho
I may have left it s' where in the
College

Did a couple of hrs at my girl
The bucket brigade started early
today & I went down about 4³⁰. Stayed
2 hrs until I was really tired. There
was superintending the operation, I
see time the a State boy named Dante
in hand (Diane tells me is the son
of Betty Carroll who is still in the states) -
Dante don't hurry getting the buckets

(over) 63A-2 (46)

the song for h'self - I th c passed to him & this art. gradually improved - goes in a live dispensary - take Parkes th some movies q us - I bel some were taken yesterday - two women in me squabbled & exchanged insults - I left b/c the job was done, as I did not know the time & was worried about getting dinner & meeting my class.

I find it was 6:40p - ate a little, went to my cottage for my supplies

My class started at 7:30 & had good attendance - Shirley Fields audited the class - she has spoken to me about the possibl. of helping me w/ the class - she has had some exper. w/ teaching reading & I wanted her to find out if the class interested her

I had told Jim, Baker that I wd go over his paper written about the day of the crisis (within) & he found me - I recognized he had some good insights but his spelling, punctuation & grammar are inadequate & I told him so - I doubt that I got far convincing him that he wd not get much attention for his writing until he wrote material that was technically correct

When I got home, the other women
were decorating the cottage - I've had
already fixed up her bunk - they had
found some clothes hanging on the walls
I read Cities w/o Crisis until bedtime

23 Feb - Th

At Bldg Tom told me another child, may have been Mark Rhodes, was in isolation overnt only - may not have had much effect as he went to sleep & it away

Did a number of my sheet as they had no papers as

My Basic class was partic. titles me today - Billy Jones was back, off coming out - initiative & wanted to do s' thing else - but he & Janie anteminate Jerome too talkative & critical of others' work - Loretta & Yolanda behaved well & had learned s' thing - much time wasted - I warned them not turn names in tom if they didn't stop wasting time

Made good progress in entrance as had whole apt free, tho the nursery schoolers were in cottage for an hr - introductory disc a bad behavior of April Rignan - blames her dad, blames it on the house, takes her dislikes and on Ms, calling other chil. "ugly" - she partic. hostile to Jamie Gervae (Conrad) who has been praised so often for his singing & dancing talent - Julie Gervae (Conrad) who trained Jamie, was told to give attention to April

- Today is a Day, national holiday,
the day the city became a cooperative
democracy, I believe, in 1970 - the day such
as Jonestown had a protest & parade in the
city - they all paraded through the college

✓ I was feeling some effects from brainwash
from falls - also doubted whether the
watering would finish again in time for me
to get dinner & meet my class on time

11 I decided not to help water - //

✓ I tried to nap but didn't succeed
in going to sleep

✓ Had to hurry to dinner so as to
get to my class - we had a big
helping of fish

✓ I checked out a tape recorder from
the Bath Depository & took it to my
adult class - I figured out most of
what was needed to operate it but
hadn't completely mastered it when
Hedra Gates came in - she under-
stood how the recorder worked &
operated it for me, tho she had a
few difficulties - the class was
smaller than usual, but I think

the water brigade was late getting through - I had the class members tell on a few sentences so being interesting that had happened to them by they had not for come to the Tc I somehow interpreted the word "interesting" to mean "exciting" & people seemed to restrict themselves to that definition - not that the material was not on the whole good - less nervousness about the speaking & tape recording was shown than I had expected - Gerda Gates was the only one who got into ~~got~~ kind of memories I had hoped to extract. = she told a story of racial persecution in Waco, Texas - we listened to some of the playback & will have the rest on tape.

After dismissing the class, I experimented w/ the machine so that I could run it on my own - I took it home as I thought the library was closed.

The terms of the Polit. Enlightenment (Sociology) class I had while my class was going on - I had explained to Dr Jackson that I did not attend

Three studs were absent from my Basic class, 2 out on jobs & the third, Billy Jones, who I understand was night overseer - to the others I made a strong statement told them they'd be on the floor if they didn't behave - the class went well after the warning & we were able to progress w/ reading & spelling.

It was very hot today - the day was so hot up that I accomplished very little - by writing yesterday's entry & taking my shower, I had to go to h.s. later only at 3rd

At the meeting we first discussed the students who were to receive commendations or prizes for S night rally - one of Jesus' studs was called by the ruling to be questioned by various Techs, 11th & which Trapp presided // the first time I had seen this system used in the h.s., tho I knew the alum school used it - Trapp had made a survey of 65 h.s. students to ascertain what areas of life interested them in connection w/ the apprenticeship prog - agronomy was

(over) C 3-A-2 (103)

the first choice of more, in contrast to livestock in which a large no showed int - some other areas such as Diesel motoring had much appeal, & others such as printing & water had little - we are going to have to steer, studs into those provided by the community

The call went out for the water brigade shortly aft 4 pm & I rode to the college for my shoes & hat & went down to the fields. J. was on the line passing water the whole time - he had his public address sys. within & used it to talk to the Jonesboro commun. & to conduct bus w/ SF, as well as to send orders for more buckets & for the Caterpillar to dig a well out - we worked for 2 hrs

I had dinner, changed clothes & went to see class - Dick taught the items gleaned from the T mostly on agric & commun. management & I taught the material from Dick's to live on the Utopian socialist, adding bynd I had gained from Amer Radicalism & other sources - Dick made a note of those who responded to questions - this is to be followed as a means of testing

Rode to the College & rd Cities for about an hr

Spent a few d/lrs

c-3-a-2 (104)

25 Feb - 5

After blist today I had my athletes' feet treated at the "sores table" in the pavilion - the attendant put on alcohol & cassava powder which she said had been enormously successful.

The P.N.C. is holding a convention at Port Moresby coinciding New Republic Day & around 50 to 65 of our people attended, beginning at 10 a.m. - Laura Johnstone was one who attended - as well as speeches & music, there was a tree-planting ceremony.

Spent some time in the morning trying to find out what happened to my jacket I talked not only to the laundry workers but to Dale Parks (just met him on the path) but to Joyce Touchette & Ruby Carroll - Joyce is coordinator & Ruby has responsibility over housing - to Dale & Joyce I also mentioned my missing watch & they advised me to write it up at the bank, cd keep a bk-out.

Because I had a practically free day once I got home I accomplished much w/ my journal - I did only have Feb entries up to date, but I finished Jan entries & later in the day was able to start w/ the missing Feb & Mar of Dec 1977 entries - some of these had been drafted so that actually only the last wk in Dec remains a problem & I shall be able soon to work through that leaving myself either for typing entries or

(cont'd) J. 232-2(05)

doing other kinds of writing

The children's workers were in the cottage about 9⁰⁰ - Ira, who takes a rest period then, is still prettying up the cottage & we consultation worked it out the nails on which I hang my towel & washcloth - this, I think, was the high-handed & I said nothing about it b/c going to get my shower. I when I ret'd perh the others had intervened - at any rate she made some allowances for me - all were rather friendly to me

Dick Trapp had been asked by Marie Lawrence to give her sci students some instuc in sci rpt writing & I was going to attend, asked Dick to page me on the telephone - for this reason I planned not to go swimming - I tried to nap from 3⁰⁰ to 4⁰⁰ but didn't get to sleep

For a while a big wind came up & it did as if a rain storm might develop - I did not call for the bucket brigade - later Dick told me he gave the sci report writing at 3⁰⁰ but only Marie came, & he spent only half an hr - they had paged me but I didn't hear

I wrote w/girl entries until dinner time

While waiting for the rally to start, I had a conversation w/ the Layton, told her about my early experiences & home life

arising out of her entries for The Rebel Girl
by Elly, Shirley Flynn.

After the survivors had had their usual
scramble for seats, I decided that too
many people were at Port Kaituma & that
we would hold the rally there - by dismissing
us, he gave us on the L. after a rundown
of the news:

114 I had dinner - was weighed - I have
lost only 5 lbs this past wk - cutting down
my portions of rice & the two - hr bouts
on the water brigade Ibel are resp!!

① Tim Stone now has got relig - he has told
Hart been differing stories

② Our athy it's getting weak, old & tired - he
may be in pay of £15 - didn't follow
instructions but we went ahead & threatened
the Exam - we know that they & new wa
were in collusion w - we forced them to
print our side of the story for once

③ The Soviet Union wanted to make a
film about our project but the U.S. threatened
to cut econ. aid grants to Guy if they
allowed it

④ Coal mine strike continues - thermostats
have been set back by law to a dangerous level
for older people

⑤ The Cyprus - Egyptian war worsens

- ⑥ Our gyps in U.S. want to come to They

- ⑦ Ethiopian sit, severe - Cuban troops

Carter's bones tho emperors look good,
else why did we do?

I. said Mother has been appearing in
churches & also on talk show in George -
Town - Diane Wilkinson made a hit
singing in churches & also in a night club -
The usual entertainment program for 5 or 6 hrs
was permitted & we heard the dance
music until late

Only a spattering of rain fall
At the College I climbed on my bunk
& one city for a while, then fell asleep
over it

11³ Had a convers. w/Joyce Land - we talked
of Harry Williams & his family who either
didn't come to Jonestown or went back;
his wife, Rosemary; his daughter Yolanda, &
her husband Ron Crawford, with their baby -
I mentioned Mary Black who had been
seemingly devoted to a hard worker, the
seldom in serv - I had effected to find her
in Jonestown when I arrived - Joyce sd
one had to learn as she did not to
expect a pers. relationship w/J, which
she seemed to think was Mary's prob

26 Feb - Su

Had bright - we had rolls & syrup,
scrambled eggs, & coffee

After talking to Tom Knobbs, I mentioned
the abysmal ability of some of my Basic
Eng studs & asked him for any suggestions - he said he had a great variety
of filmstrips which might be of use
to me, covering all types of approaches
to Eng such as phonics - I spent about
2 hrs w/ him in the Bush Depository -
there are 2 machines he showed me
how to operate

At home I got my sewing meter out
& a footlocker & I undid my old
bag = the handle had come off & also
undid my housecoat

Some of our people who had been to
Port Hartume at the P.N.C. convention
were again today - our entertainers =
Dorethe's name was mentioned =
had made a big hit

I made yesterday's girl entry

I was planning to do some typing but
in the afternoon the other residents of the
cottage brought some nursery rich child
linen to use at for a playroom - I didn't
have any room to type so of course we
had to concentrate on anything -

On Saturday (over) C3-A-2 (10)

climbed on my bunk & made more
girl entries, solving most of the
problems I had left with the Dec 1977
entries.

11/5 After my shower, I

then the child, had a nap, I slept
for a short time

Dinner began to be served about 4:30 -
there were the usual long lines - we
had fried rice w/some veggies & meat
in it, sweet potatoes & citrus fruit

11/5 Had a conversation w/Rita Lenin &
Edith Bogue - Edith does physical therapy

11/5 Aft I had spoken to various people
about my missing sheet, the woman in
charge of the laundry brou't it back to me -
I imagine Ruby Carroll had it - my
name was on it but in an inconspicu-
ous place!

The rally started at 7:30 - aft the usual
scramble for the seats w/backers among
the seniors, which each wh seems to
be more bitter

Dele Parks presided over the entertain-
ment part which began the rally - among
the singers were the Gospelle singers
(some by the gyp in SF are now here -
one, Florence Heath, who had sent to me

shared her fellow, told me among her "gratitudes" that she was "grateful to God for bringing us to this lovely African city") Martha Hicks, Alice Harrington, Tommy Keaton, Connie Hatch (formerly Truman - now the companion of Don Hatch)

A wave of enthusiasm had built up so that [when] he entered was greeted w/a long ovation

The clinic pts began - pts on assignments given were asked for

Dr. Schucht had inquired about cow colostrum for human babies - he said babies get anti-bodies from the placenta; however, I ask the Univ. of Ca saw no reason why it would not be good for human babies - Lang said we don't have anyone doing pathology slides - Cathy Johnson may be able to do them when she gets back - w/regard to Merrick's disease, among the chickens slaughtered yesterday, only one chicken had M.D.'s disease & it seems that we can trust the firm which sells the chickens as to vaccinate agd's, the disease, also called foul paralysis - the chickens had poor worms - he described the disease - when we hatch chickens here we'll have to vaccinate them - the 165 chicks we hatched here have not been vaccinated - Lang will investigate whether

(over)

4-300-2612)

we can do it now - vaccine will be ordered - Ron Tally asked what it costs to raise a chicken to a sellable age - Anthony came up w/ the figure of \$4.88 per chicken at 9 weeks - we try to sell them at \$13.00 but as I pointed out there is some mortality.

SAT (Search & Agribusines) the unjformed seem free) kept track of those who left the water brigade by drowning was finished - few die

Jack Brown op'td on the pyremit testing - as far as all the goods tested were bad; he will keep investigating

Ernest Jeppies op'td on fire w/ the smokehouse - it was done by two exec for the place - were waiting for Jeppies as the boss

Connie Titus op'td on the safety sit at the shop - it has changed for the better - she has only one prob; Stan Hig refused to use goggles at a partic. machine Stan was at the front gate - Stan had also been responsible for letting an unqualified worker use a chain saw which was destroyed - after repaired, it wasted materials Stan was seen for - it seems Chas Tomblott is responsible for Stan's slight att, making him think he is indiferrible - incongruously Stan had told Bruce Turner, now in chgt

of the ship, that Charlie didn't like him.

I intimated that Christine Cobb was in danger & he had to get her out.

Also, from info from the convention in Port Maituma, the people seem to be more radical than was thought, they want more nationalization.

The question of relations b/w Bruce, Charlie Touchette & Albert Touchette was discussed - Steve said both Touchettes can be obnoxious - I said Bruce too had elitist attitudes in incidents rptd to him - one incident involved tractor main-tenance - Blacky to rpt on this next meeting.

J. Clara Johnson has emerged again in her schizophrenic behavior.

Steve Jones' own attitudes were examined - (he is usually on the platform during discussions & takes a prominent part in many confrontations - may be in training for leadership role) - He & Albert Touchette were cited as being disruptive in Jean Durocher's sanitation class - Marlene Wheeler, called upon to give the pros & cons of their behavior, was long on Steve & hard on others (to which J. Th exception).

J. who had been engaged in talk w/ Bonnie Layton, Harriet Tropp & Helen Chisholm on info revo on the radio noted they had been laughing about the then custody case - Tim Stoen had sd J. had

(cont'd) 2-34-2 (W4)

he had a divine R to raise John as his heir - it was not so much that He wanted to be Jesus Christ, which is ridiculous, but Tim Stoen doesn't want to be Joseph.

Side issues were taken up such as relations b/w the Tally family; at one time all 4 - Ray, Maureen, Marlene Tally, & Chris - were standing in microphone, w/ about 50 other people & Maureen remarked she'd rather not have much to do w/ the other Tally's & I commended her for it lead avoiding the family contention which many preferred.

I called for getting to the pt involving Chas & Albert Tonkette, Stan Guy, & Once Turner - at least Charlie who - the yng ones want bl pride but let's see the work, then he acknowledged the bl male is in a soc which is constantly trying to castrate him.

g Back to Guy who thinks he is indecisive because Charlie gives him responsibility. & he won't wear goggles - it is outrageous not to tell Charlie you hate him, then get a bl man all stirred up - there is nothing to discuss; they're all self-serving & Stan is arrogant because of self-consciousness on account of his size & Connie demanded he break up the clique w/ Albert 114. I sa he has no reason to feel his size make him feel inferior!!

J: The judge deciding our case (in the Stark custody matter) is having dinner w/Marcie - we've come a long way from the white night

I told Stan he was best on Learning Devt - "why did you give a chain saw to a man who didn't know how to handle a saw, Walter Williams?" - we apes instead of chain saws to fell trees - all those responsible for using that saw went to L.C. - children & others warned agst long trees before

- There was criticism of Marlene for punishing her son - she is always up him, not to him, when other child don't get this treatment

Several people were taken off the L.C. - Pauline Grant has done great work - Diana Tress, Mark Rhodes & other troublesome child, were on the floor - Troye Blair got a whipping from his mom & there came out w/c snake in his hand & for a few minutes terrified the child who screamed & cried so that so he would tell the snake to bite them - I intervened & showed them the snake - was nothing to be afraid of - he said he didn't bear for them to be afraid of snakes - he pleaded w/the child. Rose Pearson² was on the floor for

The names of many who avoid the
water brigade were called - among them
were Kaye Rufus, Carrie Duncan, Barbara

mentally incompetent, doesn't know she
doesn't work for a living, doesn't know where
she is. - the seniors were assigned to

Sec. elev. students who cited for their

tent & th mine home the ad

Stopped at the "sores" table in the pavilion
& got treatment for my athlete foot - a salve
made from a herb called Irish Vine was
used

Waited a short while on girl entries

At lunch went to my 1/2 or class - all
students were absent etc for 2 - Trapp came around
to check the classes & when he discovered the
extent of absenteeism he went on the b. appr.
& giving the names, demanded their presence
in class - all of my students came in one by
one etc for Kenny Reed who is in b.c. - I
asked if they had what it might or
had been doing when called; all acknowledged
they can make it to class

After I go home I wait a little more
on girl entries

There was a short Eng lesson today at 3rd - Dick Troff said that the Tatars would have to help interview students & place them in skill areas during the normal working hours starting next week, when evidently we will have a break from school terms - he told us what is in our socialist library which describes how the Soviet collective farms train children for the skills needed - he advised us to look at it - Dick has turned over his Eng classes to the other instructors & is acting as h.s. administrator now - however, Grubbs said he did not expect to be tied up as much as he had at first thought of the isolation affair, as he apparently was not inclined to do much w/it - We discussed briefly the tenacity of our young in their wrong behavior - John Durville beat up Tatar Dervils by students - it was agreed we would use them & Tom will draw up some pts w/a scale

At 4:30 I went on the bunker brigade for 2 hrs

Waited in a long line to get dinner

Other I surely had time, I ret'd to the cottage to get my notebook, got in to the rally b/c it was started - I had decided to have another rally ton to finish off the agrie pts

Aft 2 musical numbers, I th' chge of
the meeting - he sd by we went to the agri-
cultural yfth, we had a case to deal with
concerning a woman who was unwilling
to shk her child

Annette Jones, who is the grandmother of
Margie, was on the floor & she had threaten-
ed to go on a starvation diet if she can't
have the child b her - she had been
w/counselors, one of whom was Jerry Brady

I reminded her that Margie was on
her way to being a retarded child, Tom Trufts
sd how was withdrawing from life -
Annette, sd, "I told them they ca have her" -
Paul Adams is one of the Te people in-
volved - I dared her to defy him - "there
is s' thing worse than death if you take
the greatest to die & hr. a 2 yr old child -
Tom sd it was cruel to die & hr. a msh
on yr child & fr life - I reminded her of
the demons of hor life goes on aft death,
of the "other voice haging there," referring to the
 appeal to him to reincarnate a woman who
had betrayed him in a former life - I t
John just emphasized the harm she wd
do to the cause - Ernestine Blair made
an eloquent statement pointing out the effect
on her other child.

Annette relented little by little & I pursued
his effects - "Why go back to the animal world?"

(over) C3A-2(120)

He spoke of the cond. of the baby caused by her age & said "she's Kim".

He told how the fascists are using the child custody issue to unite people against us - the London Observer now has become part of the conspiracy - he said to Annette that every child needs all the love it can get - all those who care for her can be part of Marjorie's life - Annette agreed to stand together with the others.

Attention was turned to the agri. info - among some of the pts made; Jack Brown said we shall get 2000 lbs of peanuts per acre to make a profit - reference was made to the suggestion that the climate is good, changing & they may turn into a temperate zone - we have to make preparations for fruit which requires frost.

Phil Blechy suggested a change in the method of plowing for a potato field - Jon Tilley stated his preference - the dispute on whether to use the rototiller or ripper is to be referred to the analysts.

I insisted that we had to cut down on use of generators & bulbs - \$150, or a mo for diesel fuel - Chris Lund said biggest load is 8-12 at night - dryers take the load at night - Tom suggested using wood as fuel which will produce hydrogen for use - windmills are a possibl. J: "to a bad yr prophetically" - he said there was a danger of war wiping out all the power we have - suggestions now for cutting use of power; cut the mo of bulbs,

are a horse & cart - Tom suggested wind generators - Chris will be into conservation possible. - I asked that a meeting be held between Chris, Tom, Don Fitch & anyone else who is knowledgeable & they shall form a plan for cutting diesel use & then for

disc the place above the cleared area betw. the cottages & whether it was dry enough to burn now, what effect rain would have if it came by we burned - Steve & Jack advised burning now - the rainy season has been very erratic - I made the decision is "burn now"

Shirley Fields in herbal rds sd 34 pods & herbs have been displayed for guests - she gave a list of herbs w/ their capabilities - I want a more long q/t treatments w/herbs & plants

The nursery rd was given by Chakkin - The citrus is flowering & the trees transplanted are doing well - we have 1,657 fruit trees to plant as soon as it is wet enough - there w/ 1000 citrus seeds will make 48 acres of citrus & we will be on a commercial basis - we have 1,000 copra trees to be planted - we have Liberian & will get some Roberto - Tropical citrus seeds have to be kept wet - we can help Guy by planting pasture which is in demand for export & when small, copra trees need shade - we propose interplanting w/ cassava or bananas - we can get coconut cuttings - we figure getting into cane in the fall - we use 1750 tons lbs of rice (fertilizer) - we shall grow (over) (over) 030-2 (22)

it - Ben Karayan says hill rice should do well here - 15 acres will provide us w/ all the rice we need - we shall find a few acres or get an irrigation system

I see Director of Development, one of our visitors has in the past been very cold - he has become very positive & he wrote "very progressive project" in our guest book

Casserole & garden pots were heard There was also a distribution of buckets, needed for the distribution of glass jars (needed in the kitchen brigade), must bring these off - I send SAT to return them from the warehouses - if anyone has a bucket & jar & does not want it now, discipline will be forthcoming

J. Wilsey gave the right of vegetables, saw many people turned their names in for planting day games in the past - those who had distributed, they had quit, knowing they were doing wrong

The meeting ended about 12¹⁵

I ate a grapefruit saved from breakfast & went to bed about 1 o'clock

Dick had succeeded in convincing my h.s. students they should come to class & all were there except Ronnie Dennis & Kenny Reed - the latter is an I.C. - Dennis was inattentive & kept falling asleep - I got along the rest of the story we had started, explaining some of it to the class - questions & small projects were included, on which as a group they did quite well, showing that vocab & intell are not the prob in I.M. cases - its reading abil - Jan's behavior seemed better, & seemed definitely tried to keep still.

Washed a few clothes - can't find my clothespins at Diane lent me some of Verses' - also washed my hair, put nice on it & put it up.

Then I ret'd to the cottage. There was scrubbing the floor again - she had a request that I took in my kegged letters, tho in my opinion my best looks better than Diane's or Verses'

I did a little wh on my girl

Today the workers burned the decrepit area back of the cottages - as I was trying to sit in the cottage, it seemed to me that the flames, very hot & pushed by a strong wind, were coming very close & I speculated on the possibility that they might jump over the windrow - after a while, I decided for safety's sake to get out - then I observed that the nursery seed

in which they spend most of their time -
sev. people were watching the fire - At
the same time SAT came through urging
people to join the water brigade - It
had decided not to go today - I sat on
Ruby Carroll's porch across the way w/
Darker Duvore (Cordell) - she was
under the direction of Ruby Carroll

The fire sat still like dangerous to me -
then I sat & walk into the creek - in
a few min the wind turned around, the
flames began to die out, & it was obvious
we were in no danger

I went to the Sh. depo, as the smoke
made it unpleasant in our area, &

I, on the b. ght, has been making an offer

short of housing.

Didn't teach my class ton as I said that
the Te members had have an entertain-

due today. Attendance was not mandatory

numbers done by the child, + ours - Shirley Basy & Toby Stone did a provocative number - Eloise Hall gave a blues no, w/ nicely touches, which was very impressive

The tractor-trailer had left for Port Hartman by 6 or at least & we expected the party arriving in the boat & about any time, but they didn't come - I began to suspect that I had had the gips stopped down the river for the purpose of deterring Indians by permitting the gips to come to the reception - however since the tractor can be heard coming up the road, I realized later this was there been difficult to manage.

Duke Prokes came in w/a movie camera & the films of many of the numbers, which were repeated. I very shortly was persuaded to come in & participate in the item about "De-Worming" presented by the Mississ - I chafed with & made suggestions during the filming, so it was agreed the few animals were not here yet.

We were dismissed @ 11 & I was in the toilet when I heard that the party were just arriving - with a good many others I got down to the central one - most of us went down to the dining

There were about 15 people who had
been in Ferguson - not all had
arrived there at the same time nor by
the same means of transport - 3 pregnant
women, incl. Cathy Jackson, had been
thrown all the way - they Jackson was
in a grip which had taken Greyhound
across the city to N. Y. - Cathy told me
the bus had hit a sandbar & didn't
get off until high tide

Most of the entertainment ... was run
through again for the new arrivals -
Mother was seated w/ J. beside the platform -
she showed the effects of these last matches

The program ended at 2 or

fell - walking back was very difficult be-

Because we were late this morn., I asked us to walk straight through to lunch - lunches were not put out for field workers.

I found my watch under the bed in plain sight - it might have fallen from the bleeding or even from my purse.

There were no high school classes - students were sent to their jobs.

I visited on my girl this morning Shirley Ann Edwards & another young woman who worked cleaning fish heads last night slept in the College throughout a good part of the day.

A little rain fell during the day. I was very tired from the trip to the pigery - I got a blister on my toe, which together with my athlete's foot is giving me some trouble - the athlete's foot had been nearly cleared up - I took my shower about one & went to the pavilion to get my feet treated.

Dick Trapp told me that resumes of all our teachers, anyone who has

people we have - Dick had drawn
up a sample form & wants me to
collect the required info & type it up
in a uniform manner

I wrote my resume & also got
my adult class list in order so
that I can tell who has been coming
regularly - Ira was home & scrubbed
the floor & then the carpet

For dinner we had fish chowder,
made from the fish heads & greens

I met my class too, the first time
this wk - I broached the idea of
our doing a little skit about the
water brigade - this had occurred
to me on listening to Ray Tally
describing funny episodes when F.A.T.
tries to round up reluctant sons -
the class was enthusiastic about the
idea & contributed ideas - I had

I class members jotted down the names of those who wanted to do speaking part - Jimmy Jo Jones came to the class, taking a prominent part, & agreed to be a featured runner & recruit some others.

At the end of the class I gave the class an exercise on metaphors in proverbs - This aroused a good deal of int & several members of the class had a goodly fund of proverbs they could call upon & understand the meaning - Etta Thompson had a perfectly rich store.

I had lent his voice on the board sphr to encouraging adults to come to the class, & a number of people who had not previously been there attended - I later find that I have not emphasis! on learning to read & write & see who can not hear come

I had planned with Dick, & I had announced that resumes would be taken in the rich tent (from teachers & Others) at 8³⁰ - I waited until 9⁰⁰ - Dick Trapp did not come & neither

Dick Trapp had told me we were going to send resumes of all residents who were teaching sch., their teachers' credentials or college credits to the Ed Ministry in Georgetown - more is to fore-still attempt to close our sch by being evidence in our files of our phenomenal qualifications & intellectual attainments - Dick said they wanted to get as many as pos on the books when it was - Dick gave me a form which he had drawn up & asked me to get the info from as many of those who shall be included as I could.

When I went to my class today I th a viewer for film strips & 2 of the strips which Tom had that might be useful in improving reading - Jerome, Kenny & Billy were absent - Billy later gave me a med. expense - the class seemed to be interested & got some good from the exercise

At 2nd aft I had had my shower I spent all aft in the Pavilion taking resumes etc during the h.s. teachers' mtg - I wrote the form at the dictation of individuals who preferred that way, let them do it following the form if they preferred that.

Dick Trapp presided over the mtg - praises & reprimands were discussed - Dick, Roz-yuk, who teaches h.s. math often differs w/ Stephanie Jones, who helps teach some

A sudden call from I don't know for Kaye Rufes "Food & Center" - all who cd went to the Radio bldg to which Kaye was literally dragged - it was not made clear what the big offence had been but I was worthless that she had said, "F---k to other." The workers who came forward were very angry w/ Kaye & I ordered her to be put on the "hole" - the isolation bldg - she was taken away & I then resumed for another hr

We had a good dinner w/ smoked fish made in the new smoking oven

I got weighed & found I have gained back a pound or two!

The Teachers of the socialism class met at 6³⁰ - I cleaned up first & arrived late - told Mr Johnson that I did not have time to prepare to teach tom but he suggested I make the presentation for the socialist br - this wh we had a section

room which helped a little - Don is going
to inquire what else can be done & the
sector I gave a brief seemed to be fairly
well read, but it is hard for me to
raise my voice above the surrounding
clamor

At the soc. des., I again while a
resumes in the side tent while movies
were being shown in the Pavilion - at one
time I was helping Debby Schwedler, Tora
King & Becky Baikmanus, & we got a good
deal of amusement of some of the incongruities
coming out of their backgrounds - Debby confessed
to taking drugs, & anything she did,
so the her mind was very cloudy -
Becky told of some of the days in the Valley
when she was working as a Techs' aid,
in a convalescent shop, & w/c hospital of
young people - Dad told her she would be a
teacher some day, which seemed unlikely
as she has not even finished grade school
