✓ 1 Sept - Th

From a remark made to Denise by Betty Vasil, there + I speculate that the impo affecting the admin. grp is that Betty's is losing - this wd eff her lack of vitality + at the same time Susan Winter's prediction that many of the dept wd like to see who - we think this may be Betty's last wk

Called Lou - her of being moved to 4th floor of new admin. bldg where ops of Pres. + Senate are - she, Betty + Mike are going to see Dorothy at Ross Landing on the weekend of the 9th, so my visit will have to be postponed - Denis's family is in Hawaii + will prob be visiting her here

At 11³⁰ I went to the Coop to get a few items for next wk - I had a long wait for a Kearney St. bus, finally the another one + walked 2 blocks - ate my lunch which I had brot - purchased Sunkist, fresh vegs, fruit

I made corrections on the print - out of

Turned in my time card - had nothing but gen. admin. to put down

The last print - out of the files, index was satis - I added the items which had to be put in manually & gave it to Betty

Mare had one due to revise - aside from that we received no work

Mare spent most of her time telephoning on her moving plans & talking to her relatives

I caught up on back entries to my journal

Betty sd nothing to any of us about the admin. program or her plans

I sat at the reception desk for 15 mins at the end of the day, filling in for Mare who was filling in for Brenda

11/2 Jete lunch at my desk, as the day was foggy

(over) C-3-A-4 (A)

I got some plums on the way home
from work, as I had forgotten to get
fruit for the trip.

Maudie was packing for the trip
& tips when she was through.

I packed

Prepared all dinner & etc - I had
steak, salad, corn on the cob - &
washed dishes - put up lunches for
tom & tom morning

Was quite late in getting to the ^{serv} ^{this man}
11th Bmt, my suit case down to Parker
Bridenbach to put on the bus!!

Mary told us a new baby has
been born in the p.d. to Tim Carter &
Gloria Rodriguez - The mother, father of
the 3 Carter child, a light, now has 3
grandchild. of mixed race: Gloria is
Mex., Terry married Len ^{Jones} who is Korean,
& Mike is married to Judge Jones, a
black

Mary dismissed the serv about 9⁰⁰
o'clock - few buses were going to
L.A. - I got on No. 6, sat next to
James Agnew, who was later moved

✓ 2 Sept - 1962

to bus no. 7, on which the leadership
travels - my seat space was severely
restricted & I had an argument w/ ⁵ the
Ester, ^{leaves} told me over putting my seat
back - the spring of my seat was
broken & the back hit their knees

The bus had numerous young people
on it & was very noisy by we left.

I ate my lunch, sharing it w/ June
bef she left

I later learned from Judy Morrison
that Roshie had forgotten to put my
suitcase on the bus - it was then
too late to go after it

The buses didn't leave until 12⁰⁰

We stopped at 2⁰⁰ & I went to the
bathroom & jogged a little

I slept soundly

I finished the F map - & started
to read The Silent Language by
Edward T. Hall, which I have never
read

Boiled for 2 hrs

3 X He arrived at L.A. at 12⁰⁰

I greeted old friends, partner Bob
Davis & Doug Regner who have been
working in L.A.

11 V I washed & brushed my teeth

Ats blyst in the church

11 V Watched the children playing - a number
of them were pushing each other on the

3 of them, were among them - I was told
their legal guardian is unable to take care
of them & that they are living in the church -
They behave very badly, then during serm.,

went to Guy.!!

11³ ✓ An announcement was made that people, etc for seniors, were not to visit their relatives but call them - they were to remain in the Te & take security shifts!!

By the way I wrote girl entries
Talked w/ Edith Cordell - she told me the leadership tried to put somebody in w/ her in her new apt but she refused, as Mark is enough

He talked about people who had led the Te, in particular Edith, who left a time ago, taking her 2 girls w/ her - she had occupied a leadership position - no details were given to the Congress.

The new began at 2⁰⁰ w/ the presiding I want asked to take opening
X I saw Bertha come at 10 I joined her I told her some of what had been happening - she had heard to S.F. one weekend but hadn't seen me - she thought I had gone to Guy, but I was prob typing affidavits

Marcy came on the platform - she offered recent events in the Te & the attack we had been subjected to - she

in the new town & also a pair of
pants - she also made me a gift of
a couple of blouses!

C-3-A-4 (10)

4 Sept - Su

Hot up at 8⁰⁰

The weather was hot

Beulah's daughter & the 2 girls, Dorothy & Donna, are still w/hom - James is w/ Joyce - the 2 girls accompanied us to the boat Beulah says the girls are still living their deviant life, going out every night & getting high on dope.

For lunch I had Cranberry juice, fried egg, bacon & sausage, - toast - Beulah had me take some chicken & fruit for a lunch

I read an article in Time on "The Underclass" - while purporting to be a serious exam of a social probl, I think it will add to resentment of minorities & welfare recipients

Beulah gave me a shopping bag to put my belongings in

Emmie was late picking us up

I took my belongings to the bus where work is prog

Mary came on the platform, explaining again the sit. of the Te - she made ref to the head wh done by some, had little tolerance for those who had not done their share - discussing J's

Found a place in the shade to rest a
little

Ujara (formerly Ben) shy put me a

be so crowded & annoy Lu Ester -

I slept

About 1/2 hr before the reg stop, either bus 11 or 12 had a flat tire - both stayed back - the police came on the scene & the car int. stayed on the scene until we left

At the reg stop I saw

We arrived in SF at 4:30 - bus 12 bus went directly to 1029 Kearny - Jennie Clark took me & some others home. Wanda was already home

We both went to bed again.

✓ 5 Sept - M

Got up about 9⁰⁰

Had nothing to read

Laurie Egreem had told me she wanted me to write some ltrs for her & I thought she wanted me to come in to the Ta, so I phoned her, but I was told she went to work (this proved to be untrue).

I pressed clothes

Mopped the kitchen floor

11^{1/2} Went out & got a Sw & M sup & some grapes //

At 2⁴⁰ I went to the Bridge Theatre & saw "Cris" w/ Hurdline Chaplin & a child named Ann Torrens - it was a very moving pict. in Spanish, x directed by x

Stopped at the Ta & had dinner

Talked to Thelma Jackson - she has a job taking care of a priv. patient, a wealthy woman

Saw Laurie, who assigned me a couple of ltrs to write - there was

(over) C-3-a-1 (10)

nothing in the maps about the Te over
the weekend - The New York Times
had an article F which Laurie did
not have

I walked home

6 Sept - T

This morning Virginia was in the bathroom when I had to brush my teeth - rather than displace her, I brushed my teeth in the kitchen, drawing I harsh reprimand from Wanda - I was very hurt & brooded about the episode all day, planning to have a talk w/ her this eve about this & other instances of her discriminatory attit. Told me

^{but} Hank, who is back from his trip to Europe, had much to say, & gave me a memo to put on my Cds - he prob. would have had more to say for me but Brenda was out, & Virginia Duncan put me on the reception desk

Betty Vasil was in, but Virginia seems to have taken over some, at least, of her functions - Dor was back

Many of the attorneys & sectys

(over)

C-3-A-4 (16)

were out & the telephones were quite busy - I whid on girl enthral but didn't make much prog as I edn't concentrate - at lunch I intended to see the film in the employees' series but Denise edn't release me until 12:45, & I had to be back on the desk at 1⁰⁰, so I ate in the off

I left at 3⁰⁰ for a gynecol. check-up, from Dr John Schrauff - his sec'y Renee Lewis told me how highly she regarded Thelma Jackson who had wh'd for her on my room. - she sd Thelma was sweet-tempered & willing, had a good sense of humor & the patients liked her, but didn't know too much - Renee didn't think much of the vocational sch which trained her

I tk the bus to the Corp to stck a jar of instant coffee which I had got by mist, instad of decaf'ed coffee - I didn't have any after

I was too late to get dinner at the Te - at home I boiled a turkey leg w/potatoes, carrots, celery, onion, &okra

Etta reminded me I had not put in my & Viola's need slips - I phoned the Te - those handling needs were working until 8⁰⁰ so I took the slips up & I came right back

ate dinner & washed dishes

I had intended to deposit the refrigerator but Lavana had but ice cubes, so I can't - I cleaned out the drawer containing silverware & cooking implements, as it has been such a jumble that one can't find what was needed

Lavana, Virginia & Etta all send their Sept checks & seem to have but food w/ the money & filled up the refrigerator - the Te had them

(over) C-3-A-1 (18)

cash their own checks, because of
legal diffies & I wonder how much
will be turned over to the Te

I got maps .

Wander did not come in until
late & I did not have any conver-
sation w/ her

I bathed & went to bed early -

Went to see a film, "The Balled of Steamy Valley," at P.H. & E - it was about the electric power project utilizing steam from the geysers at Geyserville, Ca.

Worked on a proj. for Hart under the direction of his secretary, John Foster - it had to do w/ compliance w/lor law as a contractual requirement, a survey in connection w/ the Arab boycott of Israel.

I dropped the work for a few mins to do a rush draft for one of the legal costs, which led to an altercation w/ John because his files were picked up & rtd to the file room - he is very difficult to work with.

I went directly home, washed & changed clothes.

Later conversed w/ Judy who suspected that Viola & I had been talking about her - I sd we had been talking about everybody - Judy told me of her understanding that few people were to be sent to stay for next 6 months & that the leadership had changed all their mind about vacating 1029 Gary - sev. afters, incl. ours, will be held for a while

I lay down & rested at the back of the stage for about half an hr

✓ 8 Sept - Th

Went to Dr. Fudgen's off to have X-rays of my teeth & have my teeth cleaned at 10³⁰ - my gums are in good condition - I have to come back next wk as Dr Fudgen can not see me

I went to the apt to eat lunch & get reports on Harry's press conf but the news carried only a brief item, saying that he told of an IRS plot against the Te

Returning to the off, I did a half day's work w/ John on the compliance w/ law proj - I also did a little typing and a legal assist on monitoring legisl. - the job, tho' somewhat unusual, was easy

X Went to the Te to eat dinner, & then home

Estelle was back from L.A.

Every body was excited over the Harry press conf, & people ran in & out talking about it, & to see Estelle.

(over) C-3-A-4 (23)

earlier than usual

Prepared & ate dinner - I had
the leftover turkey leg & vegs & a
salad

Washed clothes
X did maps

Annex has been trying to get Reeds
but doesn't get much talk - she
usually has a task in the room such
as taking up Ruby Carroll's notes,
study Jones, or security duty - as we
have so few members left, the younger
people are carrying an extra burden -
she seems to be annoyed w/ me most
of the time, but I have decided she

try to pay no attention
Went to bed at 12³⁰

11 ↓ I had learned that Etta Thompson
had passed a rectal cancer as a result
of J's power - she had formerly had
an op for a stomach cancer - Furthermore,
the nurse who was present was Janet
Phillips, who later deserted the T - I
thought it might be useful to have evidence
that a traitor had officiated at one of
J's healings, so I took notes on the episode.
Etta also told me how J had healed
cataracts on her eyes 11

It had been cold at the beginning of the day, but the sun came out on my way home - I got home at 12⁰⁰

Wanda had taken the blood pressure of the sons - Lavone has not been feeling well & has been in bed a good part of the time - her pressure was high - Etta's was also high - she has been warned about her diet, but she likes high caloric food

I had some cheese & toast & a turn

I got up at 8³⁰ - bathed
made pen cakes for bhof
went to the serv w/ Ette
Phyllis was there, & I wrote an affidavit
all Inorn. - one was an affidavit from Ette ✓
Mary was not in the serv. I later
learned she left for Guy w/ Heron Amos -
according to Betty the Comm, Tish LeRoy &
Marsi the Comm are both leaving, so Betty
will be alone to do the accting wh -
much cooking is again being done under
C.J.'s direction & volunteers to help
were asked for - Mary had said recently
that no more large Gyps would be sent
& that most of us would be here for ser-
vices was meant to throw off the enemy, as
another big gyp is apparently being in the
next day or so - it seems that as orig
planned, only a small gyp of workers able
to be left, esp. for non-communal people,
esp. those who don't want to go at this
time

My own departure by the end of the year
is a little more pos, than I have no
reason to think my offer to stay through
31 Dec will not be accepted - I know
arrangements ^{here} will also seem to be
unsettled

The sew was dismissed at 1:30 w/ instructions -
to be back at 6⁰⁰

I went home to eat - Ethel also went
home - I had steak, cauliflower, & a

Lavane rec'd \$4,000 this morn. as
settlement in her injury case as a result
of an accident - She gave \$125 to her
grandchildren, Ethel told me, & the rest
to the TE

I typed 3 more affidavits

It's on removal of cataracts from her eyes by
J - I typed up a draft of Ethel's acct of
her healing from cancer of the rectum by
alt tho I don't know whether it can still
used, as there was no doctor's diagnosis
that she had it //

The long test for the Rally at Ethel
Memorial Church - P.T. was one of the
sponsoring orgs - I helped Virginia
Mearns & Washington Sanders get on
the bus & find a seat at the rally -
we were on the main floor

The program started about 8⁰⁰ - the
11th Sept is the 4th anniversary of the
milit. camp //

Our L.A. people left at 9⁰⁰ + at 9³⁰ some
of our other members started to go -
Virginia + I think all the Te was being
we go up to go

Here
Outside we found Hugh Fortson who
told us the Te was not being - the
Chilean group was yet to be heard - but
we decided to go home as time then instead
of waiting for the Te buses
I had maps + etc in pocket

✓ 12 Sept - M

Had letter wh to do etc to furnish
an app and for James Mansfield who is
back from his reg 3-mo. assignment
in Saudi Arabia - I had to divide
the total expenses among 10 jet mos
which entailed writing out the percentages

I wrote on girl entries

the lunch outside

Went to the Te for dinner - very
few people were there - a lge no of
people have left

Sylvia Strubbs sat opp. me - it
has been a long time since I've seen
her - she sd she had been working
on a sp proj & her meals were brought
to her - later convrs revealed that
she was clearing out the Te's second-
hand & antique shop

X Mabel Johnson was in our apt 'ment
when I got home talking to my apartment
mates - she had been told by Chris
Kice that she & her roommate were to
be moved to 199 Divisadero, as the

(over) C-3-A-4 (32)

rent on her apt ment at 1029 Gray is
expiring - Label was very angry &
sd she refused to move - she was
tired of this game of "musical chairs" -
she was also angry because her close
friends Jerry Brady & her sister had
gone to Italy & she was left beh -
when I inquired if the reason for this
was not in connection w/ her son, she
had additional complaints about the handling
of his case - she sd she had been
told to have him get his passport, which
she did - then aft he had it, the TA
delayed in sending him over, so that
he got frustrated & now didn't want to
go - he has stopped coming to mtgs -
Label sd that he had always "hated
church" - in a Comm mtg w/ her, Jean
Brown apparently had tried to convince
her that if she "didn't like our mtgs
here, he want like them there," but
Label was not mollified - Etta Thompson
seemed to be sympathizing w/ her

I did my exercises - I put no
partic stress on my elbow & the
exercise seemed to help rather than
harm

I rd maps

I tk a hot bath & soaked my elbow.
I decided not to go to the town

Went to bed about 12⁰⁰

!! I have developed some pain in
my elbow which I think may have
resulted from the heavy bag A job I

who had had nursing experience, advised me
to soak the elbow in hot water !!

13 Sept - T

I stayed until about 8 or

Took Viola to hospital at the Te on Monday -
nobody has been going by car in the
morning & she came by the Te on Monday

Viola told me that James had
talked to Madel Johnson & according to Madel,
she didn't have to move - if this
is true, I imagine the reason is that
Madel talks so violently that Te leaders
may fear she will start up trouble w/out
riders

* The only other time I have had a fight
at the Te was the day ^{in April} we were being
processed for departure - we had fruit,
his cuts & coffee

Ray Goodshalt had just got back from
a trip to L.A. - he may have been
driving a bus load of people going for
Aug.

I left Viola at the Te, as Sookie
Breidenbach was bring her home at
lunch, & then the bus to Polk St. -
I went to the Salvation Army shop on
Sutter - I looked for an apron, didn't
find any - but looked at shoes & got an
idea of how much I could get & cost

for, as I will need a winter coat,
if I stay here for several mos.

I rode the Sutter bus to Fillmore
& then walked down Fillmore to Union
St. & then along Union to Van Ness -
I had coffee & doughnut at a shop
where a no. of child were playing
while their parents were eating - I
was told the group was celebrating the
Jewish New Year - I stopped at the
Junior League shop & another second-
hand shop across the str but their
prices are out of my range - at a
shop on Union I find a new issue
of New West, which read some thru on
the Te from Te members - the day was
delightful.

With the Van Ness bus & then the
Sutter bus to the Te for lunch - lunch,
was very good: noodle soup, a rice dish, &

I had an aprom for a drink at the
second-hand shop on Sutter across from
the Te

11 I salad, cake or pie - This is the first
time I have had lunch at the Te - I had
a convers. w/ C. J. about my projected
article on the subj. of early H. Civilizations

At home I turned the refrig. off, as it
is defrost while I had a job - Rocky
lent me an electric heating pad which
I used ^{on my yellow} - it stops 2 hrs

I cleaned out the refrig. & mopped
up the floor

Etta was at Rocky's apt, making dolls
for the child's Christmas - Barbara has
not been feeling well & spends a good
deal of time in bed

Went to the Te for dinner - talked
w/ Dick Trapp about provision for deserial
music in Guy - Dick plays the cello &
Laurie Egan (the pianist) he has some
cassettes but been recorded & we can
send back to the U.S. for more - Dick
sa he expected to be here for a time,
until the legal matters are cleared up -
he has taken a lot of cds. from Santa
Barbara for Coll.

Talked to Laurie what had heard
new directions for Etta to Guy were
officials - she saw them from Dick
who put got them from Jonestown by radio -
They prob are a result of Guyanese fear
of being involved in intern. political episodes

I am to write to 4 of the top officials
indicating that we are helping to
imp. the Carter admin to pursue an
enlightened Corib. pol & that Guy, by
supporting the Te, also protects its own
interests

I went home w/ Viola - she told me
of an incident in which an ironic
remark she made was reported, & she
had to meet w/ Lorne, & it displayed
the humorless attitude which is typical of
bureaucrats - Viola, who is used to
living independently, has had a troubled
time since she came to SF

14 Sept - W

I went to the off today because I wanted to attend the luncheon in honor of Marc, who is leaving on F

I typed up some mins of a staff mtg for Betty Barclay, who is out this wk

Ten or so of the secretaries went to the Park Bench, an informal eating place on Circle St on the Drway - This was arranged by Del Bowen (formerly the Farland), as a farewell to Marc - She phoned our orders in ahead of time, they were brought upstairs to us - we had drinks at the bar - I had a martini - my lunch, chicken salad & a bowl of soup, was late in arriving - bar attended, tho she came late

As my arm was still painful, I left the off. At 3:00^{or} after Harold had a job for me - I plan to take note for the week for the wk

When I reached home, I had a nap

Went to the Te for dinner, altho I usually prepare my dinner at home on W night

Few were present at the serv
During the serv, Del went from

a bit of the controversy, she was
engaged in regarding her housing.

I had heard that Phyllis Chikina
left for Hwy - Jenny Chikina said nothing
had been said to her about the
affidavits - she didn't give me any

The serv was dismissed early
Grandes had told me pers. needs
were being handled out, & after some

read toilet slip & toothpaste

have to be in one apt - Joan Morrison
& Ruthie will be staying w/ them

I saw Laurie & wrote ^{letter} Mrs to 4
they got officials in the acting off
the lunch at the Te

Finished the Mrs & left them for
Laurie who had gone to work - she works
for NAACP

Had a convers. w/ Dick Trapp - I
inquired of him whether it would be
advisable to have my Russian bks
shipped to Hays - I told him of my
knowl. of Russian - he wants to
study it h' self & that I should bring
my bks to the Te for shipment - he
suggested I accompany him to a mtg

she was in Hye - she wanted me to

all is unchanged since she left & that
those are still in her room!!

✓ 16 Sept - F

Hander woke me this morn., discovering a mouse in our closet - she is afraid of mice - she flung the food I keep on the shelf - I told her of the incident involving the grapes, that I keep food in our room because the other women in our apt take food that doesn't belong to them

Went to the Te for shop - Jerry did go

I had an appointment at 9³⁰ w/ Dr. Judgen who had not been able to look at my teeth the day I had them cleaned because my blood pressure, so it was very good: 145 over 80 - my mouth is also in very good condition - he filled a small cavity

I ret'd to the Te as I had forgotten to sign the list I did yesterday - Bill Tropp found them for me

I ate lunch at home

Took my car & went to the Haight store - got a few vegs. & some fruit & bread - didn't need much as I haven't taken lunches to work

It was slightly raining today

I walked home, going down Haight to Fillmore, then on Fillmore

(over) C-3-A-4 (43)

Early, along early to Van Ness - this way
I eliminated the steepest hills

On reaching home I packed my
bag ^{the apt. house.}
I left at 4⁰⁰, buying some wine for
Lor and Georg

On the 19 Polk bus on Hyde &
transferred on Market to a bus going
through the tunnel - some buses didn't
stop & the one I got was so crowded
I had to stand the whole way - at
the tunnel I transferred to the Park
Merced bus

I arrived at Lor's at about 6⁰⁰ - Lor
has a new roomer, a young man.

Lor & I discussed the murder in
the SF State Library Jan. Olding Room of a
young Chin woman student - she had an
atmosphere of fear pervaded the campus -
The fear who committed the murders must
have been one of a few w/ access to an
electronic cd to open the lock of the Jan
Olding Room

We had dinner

Lor & Dyan are exchanging Tapes in
addition to letters - she had once listen

Maria & the baby were the others
in the gap - then Lou played for me
the tape made by Ryan in Tunisia -
she was at the time having an
orientation & training period in a rare
area, studying both French & Arabic, &
had also done some traveling in Tunisia
Lou was making a new tape to send
Ryan, & I added a section on communal
living

Meanwhile Marie had come home - she
had been visiting friends on the Peninsula

We looked at some slides Ryan sent
from Tunisia showing the ruins in the
town in which she lives - they had low
Arabic tiles

I finished the tape

Lou & I went up to bed about 11:30 - I
rd The Silent Language for a while

11:45 I called Marie to say good-bye,
catching her just before she left the off

C-3-A-4 (45)

17 Sept - 5

I slept until about 7³⁰

Went downstairs & made some breakfast
rd The Silent Language until Lor got
up

For breakfast we had juice, toast, an
egg & bacon

Lor is firmer than ever in her
apprehensive attitude about communal-
living, partly in a rural environment,
altho we discussed the deterioration
in society here, such as the increasing
mental illnesses we observe & the
breakdown in workmanship, lack of
responsibility for a job, & so on

Lor's life has become increasingly
busy - her soc life has expanded
because the no. of people she knows
has increased - I hadn't seen her
for a long time, not only because I
am busy, but because she entertains
several times a wk & spends much weekend
w/ friends - her apt is cluttered & she
had a long hunt for a prescription she

Over C-3-A-4 (16)

wanted to get filled

She remarked that a quiet agricultural life is not for her - she analyzed the diff. between us - she is more sociable than communal - she treasures her individuality

I went through my Russian. As she is storing for her & selected some to take with me to show Dick Trapp, not too many for me to put in my suitcase & carry - I hope to go with a car to come over for the rest

We took the bus to about 11³⁰ - she had to buy groceries, fill her prescriptions & go to the p.o. by it closed - we took the Park Avenue bus to Grand Central & transferred to a bus going through the tunnel

I arrived home about 1⁰⁰ - the apt was empty & I guessed that everyone had gone to a rally - Virginia & Lavonne ret'd from shopping but not there was a rally - Harriet & Ethel had gone - the Te grp had joined

I got up at 8³⁰, had my bath - even on Sat when we are all getting ready for church we seldom have a problem getting into the bathroom - s'times it is crowded in the kitchen but today when I prepared my breakfast no one got in my way - I had cantaloupe, toast, beef sausage, & an egg

Went to the serv at 11⁰⁰

Norm was in chge - there were announcements, Congreg. singing, music & dance nos

A repr of Rep. New ^{Marvin} Little was scheduled to visit us today but for some reason it was cancelled that he was coming thru services - it may be that I did not want visitors in his absence

The serv was dismissed early, at 1³⁰

I went home on time

Lorena had felt ill & hadn't gone - Etta came home

Etta told me prepare my dinner first - I had liver, Brussels sprouts, & a salad

Kice to ask her about Bates' requests -
I finally find her in the accounting off -
her advice was to tell Bates that -
we was try to find items to replace
the ones she left, but it is clear
that she doesn't expect we will

11V I spoke to Vernell Henderson about
the method to get underwear for Guy,
incl. cotton panties, which all the seniors
have been advised to buy - Vernell
says this is a misunderstanding - only
girls who are menstruating could wear
cotton because of some injection
had on my moist areas of the women's
membrane - I told Chris had even taken
ours out to buy cotton underwear - she
said she would talk to Chris about it -
she told me just to find what underwear
I need on my needs slip!!

I got a ride home in a car Ray
was driving

send out & some proofing to do

I wrote final entries

ate lunch at my desk, as the

Went directly to the Te to eat
lun - had a brief talk w/ Dick
about the shady items in the press

I felt rather bored (a rare

Estelle was not at home - Two
other women were quiet in their
rooms

I decided to rest, rather than exercise,
I will walk for an hr - the weather
was warm & pleasant - I went down

outside a grocery store a box in which

Patti Chastain asked whether I

Norma Bondin, who is Philippe Lamy's secretary, was out - I offered to help out Philippe & also Gordon Jadwin, an engineer, a new Bechtel attorney - gave me some contract negot. matter of C & D Division, a Bechtel entity, to put on Tracy A - gave help reviewing it & I was tied up waiting for his decisions most of the day and wasn't available for Philippe who wanted to give me s'thing.

The hot water fixture in the
kitchen had been out of order - the
staff had decided to prepare barbe-
cued ribs outside & give communal
people a real treat - perhaps also the
leadership had sensed that people
are going through an uneasy period

A little after 6 serving was
started - we had, in addition to
the ribs which were of excellent,
potato salad, corn muffins, & a
banana pudding - I had been stand -

A larger no. of people than I have ever seen at the communal dinners appeared in line, as we got around.

I brought ribs for Lewane, & Judy Merriam brought dinners for several others at Henry who didn't get up to the TC.

I walked home for the exercise & I had considered moving out to the kitchen w/ my radio so that I could both listen to the serious music I like & read the maps, but didn't do it yet because of the lack of comfort sitting on a kitchen chair - ~~later~~

I had no work at the office

I caught up on journal entries

Wrote a letter ^{Bates} telling her something
of what we have been doing here -
told her I had priced the items
she had mentioned; if I can get the
money I will buy them & Estelle
and she will get them sent

During the lunch hour there was no
film shows

I ate at my desk & went on the
bus to Wadsworth's & the Emporium to
price Peter's needs - it won't be too
expensive to replace her manicure
needs but I had to be finding a back
brush - the Emporium's basement had a few
which seemed to have been on the
shelves for a long time

Denise gave me more details of
Marc & Beth's accident - both cars were
totaled

people were asking for far too much

be cut back (Chris Rice had personally
taken some of the same shopping &
had got for inst. 10 prs of cotton
panties for each & the other same have
followed the example - cotton socks,
Tennis shoes & jeans are also recom-
mended) - I discussed the matter w/
Vida Godschalk - I felt aggrieved that
apparently I was to be denied what others
had rec'd - Eugenia Bernhardt is
doing this wh she was told to buy
adequate supplies.

Last was quiet too & I went through
many naps

28 Sept - W

I spent most of the day typing
a list for Betty Vasil of contracts
operated during the year w/ details
about each - normally but we have
done this - she & I have had gathered
the orig info & there were some
spelling errors - probs w/ handwriting
At the end of the day Herb wanted
a tele-typed

Virginia Duncan got a car -
wanted for the United Way drive
There was rain today

At lunchtime I went to the office
equip. shop & p.c. the bel for my t.w. -
they will del. it to Bechtel

Betty Barclay has decided not to
get married - she fears the man
wants her money

I went home to change clothes
Went to the Te to eat

I had prepared sev. cc of a

for the barbecue on M & passed

it came for signatures - I gave
it to Wesley Johnson who men-
tioned it in the serm

During the Te serm new slides
from Hedy were shown - we saw
some of the new facilities, partic-
ularly the housing, which got
applause, & many of the people who
arrived recently - they were prob-
ably told to dress up as many were
in their best clothes & jewelry -
parts of J. drew loud clapping -
Jean Brown, who commented on the
slides, said J. was everywhere on
the mission grounds, available to all
his people

On my needs envelope, I received all
the money for which I had asked,
\$30 for clothing - 11 for a part pass

perhaps it was Jack Beane, made a
disparaging remark once concerning
David - I think perhaps they were
among those who have apparently left
the cause but in reality could not
serve the Te outside - they had adopted
2 children - I had phoned Beke due

I had a speech & rd props

I had no wh all day except a

Patty Jesik of apartment contracts

X I made some girl entries & brief
my notes up to date

On my lunch break at eating lunch
at my desk, I started out bus up
Market St to go to the Emporium to

buy my underwear - an accident
on the mishap stalled traffic on
Market - I got off & walked up Henry

- tried finding what I wanted in
Liberth House & Tracy's - it was very
hard to get wanted on (there are old-

mode no clerks only cashiers), personnel
was rude & indifferent, & I didn't find
cotton articles etc bras, which were

very high-priced, as was every thing
I saw - I didn't buy anything - other
stores did not have a Rayon basement

& I intended to go to the Emporium
which does have

at wh I went to the Te for dinner
saw there Estelle & Volyole - then
Estelle of my shopping diffies - she
sd she wd take me to suburban
stores "sometime" - she finally found

to go to town as she wants to get items
for other people

Estelle drove w/ Valysha & me to the
Tampere Shopping Ctr at San Bruno -
we did much walking - we did
clothing at the Emporium, Sears &
Penney's. I got 4 pairs for \$16⁰⁰, 2
cotton pants for \$2⁰⁰ apiece, 3 pr of
cotton socks for \$2³⁹, shoes (a low-
pump) made in Taiwan of man-made
material for \$6⁹⁹ - the total cost w/ tax
was \$31¹⁴ - I have only a few dollars
left for groceries this weekend

We reached home shortly aft 9⁰⁰ -
Estelle dropped me off at the Valysha home,
did not see - Elte, Wanda & Car were
all in bed - Car woke up when I
came in

I put my laundry in the machine -
prepared to go for my lunch tomorrow -
when I went to put the laundry in the
drier I found someone had taken my
sheet from the machine - I have only
2 sheets left & always put a sheet back
on the bed aft washing & drying it -

Called Marie - she & Bob had gone out & I talked to Marie's mother, who said both girls all right, tho' suffering some pain - Marie felt badly because of loss of her car - Marie has Triple A ins. which covers every thing incl. Marie's & Bob's med expenses - man driving the other car apparently not hurt badly but wants to get as much out of Triple ins. as pos - Marie has had some job interviews but had not found a job yet

Kate Walker is in Kaiser Hosp. - she had been out for sev days, came back & fainted on the way home, I understand - she is in for tests & won't be out until after the weekend

My t.w. was done this morn. - the adapter (for the prongs) had not been supplied

I ate my lunch outside

Dore had a letter by Doris Havelle
called The Eagle Letters, consisting
of lines written as spoofs by Havelle,
under the name of Eagle Tooth, to
well-known individuals & her firms -
she lent it to take to Kate whom
she intends to visit ton - I read a
good part of it - the serious answers
the author never forfeit the humor

~~of the original entries~~
on the way home ton, the
power failed which stopped all the
buses at Market St. - it lasted about
half an hr - I walked home - found
at the time buses started again, I could get
on, as they were backing at the time.
I joined the Te & went down to see
my dinner - was by the phone - I teleph. home
that a truck which will arrive at 6 or

Had no work in the morning - had time to do some papers.

Last night June Lynn called me saying the record is still from Kaiser from a woman named Fran Lyon who inquired about me in connection w/ an accident - it was a puzzle as I didn't see an accident & we didn't know how Kaiser got the Te. no. to call me - I phoned Mrs. Lyon - she had no record of my name in such a connection - she thought the teleph. operator must have misunderstood the name.

I made out my needs slip.

I made my demands for the United Way, long car for the people on my list.

I phoned Marc - she has a job w/ a real estate co. where her dad works - she was in a good mood but still in pain from whiplash - she is distressed about a scar on her face, but it may fade - Bob Bowen had flown home - she expects to be in the office in a week or 2 - Marc was unhappy because she had not called her - I told her there was no sign of a replacement for her as yet.

I ate lunch at my desk.

I got a draft from Gail joined to type at the end of the day

I had a good meal at the Te - as is usual, the amount of food put on my plate was too much for my needs

Turned in my needs slip

Estelle about taking others' food - Est

Ethel & Judy Morrison are the worst -
she calls taking or begging others' food
"swaying" & has contempt for the practice
which is very widespread in the
communes

I went to Kaiser about 9³⁰ & saw
an orthopedist - he had X-rays
taken & diagnosed bursitis - I
think it may have been caused by
my slipping on the dining room floor
at the Te one day when somebody
had spilled soup & I had thought
I was not hurt - the injury may
have been aggravated by the heavy
typing job I do when I did for Betty

had been made by Dor w/ regard to

on Dor's jealousy - nevertheless
Rockie has to take over her school,
every day to Dor - Rockie & Lew
revealed their resentment of the nurses -
Lew was put off by some attack of Wanda -
she also did a clever take - off of
Dor - Rockie is going to take her t.w.

Went to work today because I didn't want to miss the departmental meeting - it was at 9⁰⁰ - there was a film on the United Way, the one that was shown to all congressmen - Mike Carheim of Data Processing gave a survey on the operation of Word One - it was too technical for those unknowledgeable about what editing & presented nothing new to those who did - a small controversy threatened when Virg. & Nor - nothing was said about computer plans for the Leg Dept - later Benise told me it was planned to hire a man as supervisor - she thought perhaps he would be introduced today but he wasn't - I don't know how this change will affect my status

I made out my needs list

I gave Betty our tape, teleph. no. - she will check back calls charged to it

I stayed in the meeting Cpi for the first pt of the serv - I's tape was played again - it was much clearer than it had been demonstrated & I heard items I had missed before

Rockie looked annoyed that she was being used as a chauffeur by Mabel - She sd Boreen was worse - I told her to tell people that in view of Jo's emphasis on saving money, she cd not use the car & waste gas on people's pers. desires - I recall that Viola told me Mabel bribes Rockie by buying her sp. food items & gives her money for her & Turner to eat at restaurants

When I went upstairs I told Betty the details on the use of Rockie's car - mineral car - she thot because of the circumstances (pos. damage to car might do to the cause), this sp. priv. might have to be ignored - I sd that in the case of Estelle a l.d. call might have been authorized in order to get them to Day, thot they are not members of the Te

I wrote a memo to Cous. telling how Vivian Saimons, ^{sitting in the choir} had chewed bubble gum & yawned throughout Jo's tape, yest - I had given it to ^{Wanda} Christen, who directs the choir, but she told me to give it to Vivian directly - Vivian readily received my comment, saying she worked 3 jobs & chewed gum to keep awake

participants in the seminar - I had volunteered to sit at the desk from 4⁰⁰ to closing time - had hoped to make some progress w/ my final bid Lucile whom I relieved stayed & talked

She is a middle-aged woman w/c grown son - she is concerned to make prog in her career & is taking para-legal courses - she lamented the condition of Bertel secretaries who are treated as if they had no brains - she quoted a remark made by Rafe Schuman who when she learned the secretaries wd attend the seminar today sd, "I hear the slaves will be there today." Lucile sd she had been reliably informed that her supervisor John Stewart had blocked her from obtaining the job as Steinberger's secretary. She said he has info w/ H. because of his color = Stewart strikes me as very ambitious & H. may be afraid of threats of a charge of discrim.

Lucile also told me of telephone calls she had rec'd from "irate women."

revealing that Stewart's marriage either

Back to take a job in southern Calif
w/ her husband - to be - her family
objects to her marriage - they are
Catholics & her fiance is not & her
father is a doctor & thinks her fiance
who is a computer processor, is below her
standard

I didn't go to dinner as I had had
a large lunch - I hoped to get an
early start tomorrow as to get back home
in time to hear the beginning of the
opera - however I had promised to
get some items for Viola & went to

details of the relationship than Rocky
Breidenbach and Roosevelt Turner &
Rocky & Rachel Johnson - Rocky was
going to San Jose this weekend ostensibly

from 4⁰⁰ until closing time - I

middle-aged woman w/ a grown son,
much concerned w/ advancement -
she is taking paralegal courses -
we discussed the Dixie women here
in this respect further at Backlets where
secretaries are generally considered to
have no brains - Rita Schuman,
on hearing that the secretaries would
be at the summer luncheon, had
said, "Oh, the slaves are coming
today."

Lucile as her supervisor John
Stewart, had been resp. for her not
getting the secretarial assignment in

Stewart is black & the admin may
be fearful of him for polit. reasons -

wasn't home in time to see it
from the beginning & during the

I stopped quickly at the Coop

I missed the beginning of the

I missed the story of the first act. ✓

I listened to the radio in the
kitchen while I pressed my clothes -
during the intermission Carrie Langston
arrived from the Valley - the people who
lost the nursing home at which she &
the Smeets had been working. It
was too late - the Te phoned her F
that she was at M, so she was down
to do some shopping.

I moved the radio back to our room
& listened to the last act of "Turandot" -
Josie did not awake

Aft. rising & eating a snack, I went
to sleep about 12:00

11 Among the people seated at our table were
D. J. Harde, Ins. Mgr in the Bell Toronto
off & Terry Brown, a new In speaking
attorney who I had that was an Algerian -
however, Terry told us he was born in the
Mid-west, He rather fair-skinned black,
is usually taken as a resident of any city
he happens to be in - he learned but
fluent Fr at one of his African posts - he
is a vegetarian - Harde told her Stokes
that he was born in Eng - aft the war
he so he had perceived the disastrous
changes that were coming & he came to
Eng to escape - his wd for the disaster was
"Stalinism" & he was sorry to see the
United States following the same path - he &
Dor agreed that people now wanted
something for nothing & failed to see that
all benefits had to be paid for //

About 5⁰⁰ o'clock I awakened when Josie turned the light on, rummaging in her dresser drawers, opening - closing them, rustling paper - for a while she went back to bed & I went back to sleep.

When I got up about 8⁰⁰ she turned on me in a fury, accusing me first of taking her jewelry & then complaining because I had unpacked her belongings. I told her she had given me permission to do so but she couldn't be pleased - she "didn't appreciate" it - I was just obeying - she couldn't find anything - she made reference to the confusion in the apt, made all night long, every body was so selfish which led me to feel that she wanted some medicine in the night & couldn't find it (she hadn't made any attempt to put things in order).

I reacted w/ surprise, then decided not to respond - I went to the kitchen & told Wanda & Lew that she was on the rampage - Josie came out & repeated

talk to Jack Beem - I encouraged V. to
write to Council about his use of the
car & Te gasoline

I went upstairs & told Betty McLean
the details about the use of Buck's car -
she said she would let Jack know for
further investigation.

I saw Laurie at the Te & J's directions from her concerning Mrs requested by Dick Tropp from Guy: to Andrew Young supporting him against impeachment, attempt to the Burtons, Cantor & Clausen as they have been approached by anti-Te interests

The exit sent was at 6:30 - we saw the Guy films again w/ some additional ones - Mary warned those going to the field not to take candy & gum thinking they can give it to a special few - she said people can plant flowers or fruit trees around their colleges, but "don't think they are yours, they are ours." Mary was very firm w/ some boys who had been talking while she was talking - she said adults too had been displaying cowardice, not doing their share of the job, & this must end

I did some work on my girl during the morning on weekend letters - then had a small memo from Dale Huffman which had to be typed & then retyped - he is over - solicitous & annoys me. Called her to tell her I can't visit her on F as planned, as the Te is going to L.A.

At lunchtime I went up on the bus to the off supply's store & got my t.w. ate my lunch at my desk.

The apt was very confusing - I drafted & typed a letter to Andrew Young & had to do some more work for Huffman - I started to list items to include in the letter to the legislators Dick had requested.

Norma offered me a ride so that I can take my t.w. home - she goes to class at San Francisco State on M nights.

I scolded her for not writing up for Com. how R. was misusing the communal homes - I suggested she write to Mother

I went to bed about 11⁰⁰ - I was troubled w/a good deal of coughing, as I have not recovered fully from my throat congestion - I must have disturbed Josie who got up & heated water & put wet packs on my chest, then covered me up w/blankets - she called on J's name & put his feet on my chest, but she went through someoodoo ritual, calling on the demon to come out "in the Name of J" - it was a weird exp. & I had to work hard to get to sleep, some w/c her aid but she was moved by loving feelings - This the place about 10⁰⁰ or earlier I didn't get to sleep for at least another hr

Manda & Viny were up & left for the Te
to pick up The Examiner before I got up
at 6⁰⁰ - law & Josie did not go.

I did most of the day on 3 memos
for Zaid Jawdat - at the end of the
day I left w/ Norma one I had started
as I did not know whether I would
be in.

Ate my lunch at my desk - then
travelling to Ottawa by a program
arranged by the Lower Canada Soc to
publicize a non-smoking day. The
day was beautiful & there were
several performers - Red Shamus was
part of the ceremonies - I didn't see over
the heads of the crowd but climbed a
ladder to a platform where I got a
good view - petitions for an initiative
measure to ban smoking in public
places were circulated a lot, on the
hazards of smoking was available.

Made yesterday's good entry
in the middle of the day. I didn't see

(over C30-6 (53))

to find out whether she had seen anything on TV news about the Te picketing - she had not - the Te whom I called them knew nothing either and so the picketing was still going on

I decided to go to the Te was picketing again by taking a day of annual leave if I told them that I had a personal matter to take care of -

It is the chance I take that someone connected w/ Westel might see me on TV will be unpleasant but not particularly harmful at this stage, I should think //

A woman passenger on the No. 38 bus going home was thrown to the floor when the bus turned a corner at a fast speed - all passengers got off & had to take other buses

At home I called the Te to ask them to save me a plate, learned that Te members had not come off the picket lines yet

After washing & changing clothes for the Te sew, I went to the Te - got there just by the bulk of the numbers came from the Egan

Talked to Ray Godshalk who drove
a bus up from L.A. - the whole crew was
here for the demonstration showing how
imp. it was that to be - Ray was very
tired, having driven from B.W. & then
walked all day

I saw Laurie - she had not been
in the line, as she had to work - she
showed me a very short article from
the Evening stating she had 70 people
in the protest, whereas we had first
had about there = sev. hundred people -
Laurie told me she was in Charles Perry's
off. as a reporter in the Sun-Reporter

The news began, w/ Harold Johnson
presiding, w/ the usual songs, getting rid
home & making a few announcements
about members money - making projects -
Lore Collier helped w/ taking the
spring during which Nancy came on the
platform

She greeted the aud. as "you beautiful
people" expressed pride & amazement
that they had marched from 8⁰⁰ a.m.

to 6⁰⁰ p.m. - she sd the meeting
wd be very short - Mary & some
others had conferred w/ the Exec.
management, had told them we
were determined to cover the hostile
coverage the Te had read from
the mag - one of the editors had sd
I matter to self the guilty by staying
in Guy - Mary got in touch w/ J
H² & then sd about a statement issued
to the public & press, giving the facts on
the Bob Houston story & Phyllis Houston
had spent much time w/ the writer of
the objectionable article; nevertheless, the
paper used only a snippet from her &
the rest of the information was completely
distorted //

by radio - he sd to tell them why he
was staying in Guy - the reason was the
safety & future of a child - Mary sd the
press wd not be given info or which

of the events regarding the birth of John Steen - she described the refusal to give that name, a potentially hostile person, her for J, his Consultant w/ the leadership, their joint decision that J should satisfy Bruce's wishes, to which Mary had consented - the only other member - Mary said she felt since I had told us of this, which he had - she asked whether anyone had any problem w/ this - no one publicly admitted having a problem - Mary had not stated the names, but most members did not fail to identify the persons involved

Mary said the group had until 11 to apologize & change its pol. - if they did not, we would resume picketing

The pers was dismissed at 7 - I arrived home earlier than anyone else - the others waited for notes

Since Sam's luggage has been in our room, esp. as Jane hasn't been

Had a dull day at work - did a few items for Gaid Jawdat - both Kleinberger & Virg. Duncan were away & O'Hill was alone in the off. so I sat in for him when he took a break & went to lunch - after finishing yesterday's great entry, I got The Writer they gave to me by one of the secretaries - it was the list of pos. markets in them

Ate my lunch at my desk - then went over to Grand & Howard St. to look at some inexpensive clothes at a fast outlet Ricky Davis had told me about - they had blouses, sweaters, pants ranging in price from \$2.00 to \$10.00 - I may come again & buy some denim pants - the clothes are made in Hong Kong

Tonight went directly to the TA to eat - Lat came about 5³⁰ - she said she had packed all day - she was nervous, went to the bathroom & vomited

I read a note from Vite, who wanted me to see her - she suggested we go out on the front steps, so I knew she

as I expected only Josie had had home -
I gave her a cup of coffee - big Vile
at give me her news, Vile arrived -
then Wander come in w/ a woman

stay in L.A. until Sat - Vile

cause she doesn't want to go to Turner's -
V. that she might have been resp.
because of her note to Council - V. was
wondering how she & others not get to
the double now

I don't know whether Wander & the
others heard what V. told me - Josie,
who was in bed, asked me why
Vile had come up? I told her - she
was happy, as she thinks Beckie won't
give her rides

Wander told Vile that Ray & there -
for Vile, was not to bring for 2

Bygn called Lou from Tunisia this
morn. at 7¹⁵ - Lou had not heard
from her for 1st time - for some
reasons Bygn's ltr hadn't got through -
the two talked for a long time - Bygn
at Tunisia had decided not to take
Peace Corps workers for teaching assign-
ments such as she is doing next yr
so she can either be transferred or
terminated

I had some sentie - then Lou gave
me orange juice & toast - we had a
long talk - I told her about living w/ the
seniors - Lou at length expressed hers.
more frankly than she usually does
on the practicals - she disapproves of
separating babies from their mothers -
we had a long disc about family life &
child care

Lou intended to make some more
blip but I had to get back home

I asked Lou about the possibil. of
using her lib. cd to take out some
records from the SF State lib to
tape for our mission sch. at Datto

(over) C-3-A-6 (66)

Chastain wishes to do - Lou is willing to do it but she lost her car when her purse was snatched & has to get it renewed

I left about 10³⁰, got home about noon.

Jessie had returned from the hosp, altho they had wanted her to stay.

I took my car to the Height Comm. I'd store & buy vegs. & fruit & I stopped at Lucky food store to get decaffeinated coffee & 3 items for J.: a chicken, sweet pickles, & some unsalted butter - I thot she had specified unsalted margerine which I didn't find.

I had a road beef sandwich at a delicatessen on Height St. - the sun was shining warmly through the window! + a Pepsi Cola

Jessie was in a very bad humor - she didn't want the unsalted butter & so I got take it back.

I had a nap

I didn't have any dinner - arrived late at the Te serv. - June Hutschmann came to pick up some of the seniors but missed them, so I went w/ her

I learned Wade had had difficulties w/ Jossie last night

I went up to the Lead Off - Laurie
x showed me an article in the SE Examiner which stated that Tim Stoen had come out in favor of Grace's custody of John, saying he believed she wd be a good mother - it seems clear that earlier info that Tim had left the Te accurate - I also realized that he was the friend that J. warned me wd turn agst me - Laurie also showed me a letter to the Bart Bart Harry Lambrew had written in heavily adjectival prose & containing the worst insinuations yet concerning J & the Te - Laurie wanted me along with others to write to the Bart as they have been printing ours thro

During the show Laura Allen told me Mary wanted to see me upstairs - I went up to her quarters - Mary asked me whether I had seen the article about Tim - I told her I had - she said she was concerned about how I was feeling - I assured her that she & I did not

(over) C-3-A-6 (6)

need to worry about me - altho I
felt badly about Tim, my own loyalty to
the cause is unshakable - I repeated a
statement that Tim continually made to me
about J, that he never thought of h'self -
she said I felt Tim must be under terrible
pressure, prob. black mail from our
enemies

I th the cop to ask Mary whether she
cd find out if the Te wanted me to quit
my employ at Bechtel's at the end of the
yr - if so, it wd be advantageous for me
to give notice at the beginning of Dec - she
sd she wd find out

When Mary came on the platform, she
told the congre about Tim's conduct, saying
as she had to me that I felt he must be
under enormous pressure & that I felt the
greatest sympathy for him - she also told the
congre the reason that I was not coming
back to the U.S. - it concerned the custody
case of a child, not his own welfare -
w/o giving names she stated there had
been a young woman who was hostile to the
Te & threatened to do it damage - she,
Mary, had perceived that the young woman
felt a sexual attraction to J & she
suggested that he satisfy her desire -
the Council approved & I was willing

to gain time for the Te - the child
was the result, & he was beautiful

The sex was out at 10⁰⁰

I went home w/ Vernell - I ate
a snack & listened to the radio - Jessie
was fussing about my hearing the
radio one

During the night I was awakened
when Jessie got up - she started through
papers - then I heard her try to
pick a call on the teleph which was
in the hall - I don't know whether she
got through or not - it was some clock -
I had diffi in getting back to sleep &
was worried that Jessie may be intending
to go to the Te

C3-A-6 (70)

11 ↓ I told Wanda of Jossie's letter last night & of her early morning teleph call - Wanda informed someone, prob Vernell Henderson - Judy was asked to check w/ the teleph calls about any calls placed last night on our teleph //

I went to the sew late - Wanda stayed² in other room the same announcement & expl. concerning Tim Sten & Grace & G's reason for staying in Guy as last night

The sew was out at 2⁰⁰

I went home, had the pot roast w/ potatoes & green beans, & salad

I had a nap in Estelle's room 11² with Jossie as it was that she should not be alone //

I went to the eve sew at 6⁰⁰ - Wanda again stayed w/ Jossie - she sd it was now proposed that Pauline Frost should come & stay w/ Grace

During the sew, to my finding that 5 people who were present had not heard the announcement concerning Jo's stay in Guy & the parents of John Sten, she repeated it - she tho very tired

(cont) C-3-A-6 (71)

20 Nov - Sun

Jossie got up about 7³⁰ & may have
tried to phone again

I got up around 8:00 & put a good road
out to work - bathed

X Wanda at the hosp. had found Jossie
in poor phys. cond. - she is subject^W
to diabetes & has been eating the wrong
foods - she should have had the
sweet pickles I got for her - Wanda's
her phys. cond. is accountable for her
temperamental mood - W. wrote a
rpt on J's behavior when she was w/ her &
on the medical aspects & asked me to
write my observations - I did so,
typing my rpt on the kitchen table,
altho I had intended to write the
Bert ltr for Laurie & I had a stack of
healing affidavits to type - I also typed
Wanda's rpt

Wanda has talked w/ Vernell Hender-
son about Jossie's sit - she saw various
plans had been suggested - perhaps Jossie
wd be moved elsewhere - Florence Byers
might be moved in Estelle's room - Estelle
is coming back

Sew was out at 8⁰⁰: - Mary asked the heads of depts to stay for a time on the way of the who

When I reached home I cleaned out some shelves in the pantry & moved food which I had been keeping in the closet in our room & I had kept it in our room - because I was afraid some of the residents wd take it - I cleaned up the closet too - Jessie had complained she did not have a fair share of the room

I rd & ate a snack from 10³⁰ to 11³⁰, then went to bed

Heavy rain fell during the night
& much of the day - John is the
first good rain, the papers say, that
we have had for 3 yrs

Grades arrived for Jessie to be
taken to the doctor for an exam.

At the office I did an hrs' reporting
for Weinberger, & O'Neill's request -
among the papers was one showing
that Cathy Costello is to get a few
thous for good work (deserved, I bet),
another indicates that Weinberger has
accepted a position on the board of
✓ Fletcher Coats & has rec'd ✓ shares
✓ of stock valued at -x

I called the Soc Sec office & was told
I wd get \$244 a mo. I bet this
sum will be increased if my 1974
earnings are counted in

I had no time for pers tasks - I
had wanted to get down to the post
office to buy stamps so as to send
a lot to my sisters

At lunch I went to a prog. arranged
by the BWAA - Blenda Hight, the Epis-
copalian minister who helped BWAA
get & who has been at the Tc twice,
has arranged a series of progs on
women and hltth - I missed the

first one or two - Today's was an
medication - called "Pills - Gums,
Minc, & Thins"; it was given by
Dr. Linda Clever, an occupational
therapist - she was quite good -
she is cautious about prescribing &
taking drugs

I spoke to Linda Hope, saying I had
seen her at the Temple - that she
was polite I had the impression that
she wd rather have any case, w/ us
ignored

I ate my lunch at my desk

Happment gave me the just before
closing time & I told him I wd
not finish it

Went to the Te for dinner - we
had a good dinner w/ fried chicken
Jesse was home from the doctor -
Linda sd they had wanted to keep
her there but Kate had insisted
on coming home - her sugar level
was high & she had had an trouble
by eating the wrong foods incl. the
sweet pickles she had asked me
to buy her - she was given medica-
tion to take

Barb learned he had to go to So. Africa in connection w/c proj there on the first of Dec - I typed I short contracts for him - Janod & Hug man also were making demands of me until late

At the same time I was trying to finish & get off my ltr to my sisters

In mid - aft Betty Vainl came around & told us that Weinberger sd we cd go home half an hr early - however, I was ~~not~~ able to do I finished Barb's wk

Then I finished the ltr to my sisters & ran off four copies as the Xerox facilities were closed - kept one copy & addressed & mailed a copy to each sister - I gave them the names & rates of three places they might stay, the Lombard Hotel next door to me & 2 motels which are inexpensive & not too far away

I borrowed five dollars from Dorothy & ate dinner at the Chin.

I got up at 8⁰⁰

Took my laundry to the laundromat at
Hoye & O'Connell, as the one in our
story is closed until 4⁰⁰ - it was a
pleasant day

I defrosted the refrigerator & cleaned
it out - I asked Virginia & Jessie to
identify anything they had been at -
I threw away numerous items which had
spoiled or I dried up & then washed the
inside

The Te sew. was at 12³⁰ - there
were sev. musical selections - Harry
th the microphone around the room
so that each could tell in one sentence
what he or she was most grateful for
Dinner was planned for 3⁰⁰

11⁰⁰ the no. of people in attendance was
small, many members having gone to
celebrate their holiday w/ relatives -
just tell me what Johnson was w/ her
sister!!

Andy Silver asked me to come w/ a

(over) C-3-A-6 X8

group to visit Benjamin Banks & his
American Indian Movement
org. at 2⁰⁰ - he saw Mary also wanted
to see me - I went upstairs to her
quarters but she had been called to
the radio room & aft that was on the
platform - I guessed that she had an
ans. to my inquiry about resigning from
Bechtel at the end of Dec

Andy, Betty, Vera & another young
woman, I took at 2⁰⁰ to go to
7th & Oakland where Banks had a bar &
meeting room called La Pinta - I
thought we might be served food but all
that was available were drinks to be
purchased from the bar - we went across
the str. to a little grocery where we
bought snacks - a director of B2 was

He greeted Banks & his friends & took
us into the room which was decorated w/
Ind. & Mex. woven materials - few people
were in the room but more began to come
they were of all ages, w/ several small children
none talked to us - two films were
shown - the first called The Longest War,
I requested that Andy take care of that

But mostly showed the struggle in So. Dak. of the past few yrs - the other film we had seen at the Temple, the one on Battle Mountain & the Shoshones of Nevada

We went back to the Te at 5⁰⁰, where dinner had been saved for us - even the Turkey was not partic. good, perh. because it had been warmed over - I inquired concerning Mary but she was gone

I spent a couple of hrs in the acct'ing of going through the packing of "darts", verifying my initial impression, that almost all of them had missing items

Rockie left for Guyton - I heard Phyllis Houston who does some of the processing for those departing phone her at about 7⁰⁰ o'clock, asking her if she didn't know she was late for her traps. - I learned later she was still deciding what to take w/ her, altho she had had sev. days' notice.

I was going home about 9⁰⁰ when I met Andy Silver - I told him I had been unable to talk to Mary - he called her rm - Sandy Bradshaw, who seems to be staying w/ her, answered & Mary came on the line -

first to leave my notes

I went home & told Grandd

Got up at 8⁰⁰

Went w/ Vera & Steph at the Te - we
ate - I hadn't known they would serve
only to 9⁰⁰ but they gave us some - we
had pancakes & sholeses.

Laurie asked me about writing for the
next issue of the Journal - I have been
lately to a acute sense of oppression from
being confined in such close quarters
w/ several & from worry about all I
want to get done & haven't time for
writing letters & articles for Laurie
as well as my girl entries - I told
Laurie about the Te's approval of my
resign. from Bechtel, but she had
learned it from Karen.

I th the Dillmore bks to the Mission
Distr & shopped for clothes at 2
second-hand stores, the SF Thrift Store,
& the Purple Heart, buying around \$10 or
from the Te on their list's needs - I
got sev. blouses, shirts, pants, & a

I pd the extra end out of my own
