Eugene Smith told the OH) that he was off work, so the (Day Helper)
Asked Jack Beam ? he told me that Eugene wasn't off work, Eugene
sat around for a while This was about 2:00 pm Thursday.

The following Tiched up late for med. Trentment on Thurs. Walter Williams, Joyce Mc Intyre, Terry Baryermen Thurs Turner, ! Anthony Food. Devise Johnson Miso signer in late! didn't take a medical excuse to the Hy Office. Like she has suppose to do.

Eileen Tucker took one has to get back to her gob site After leaving the med. dept.

Worker's the usually late in returning from lunch when the whatle doesn't blow. They were the whistle his no Etcus.

According to Mike Contex, Jerome Anderson Requested to check out in blank tape then in New's tape. This remains suspicious to Mike. Mike told him that they didn't give out New's tapes on blanks. This may have been impossion Jerome pant but it did seem odd.

Herbal

Shirley Fields reported on benefits of Collards, they are helpful in correcting obeisity, drug poisoning and should be grown in great abundance for the many helpful properties.

Note: Dad had a commentary on the pineapples. Some people are picking them without authorization. He wants this stopped. Is should be notified and some arrangements made for securing them.

Citrus

Should hereafter be off limits -- automatic PSF offense.

Shirley continued with her report.. 2 cup of beef liver contains 45,000 units of A, 3% oz sweet potatoes contains about 7000 units of A. It is very nutritious and all should eat this wholesome vegetable.

Truck

Discussion arose as to bringing out the truck from town ... Ujara was making \$50 per day when he was in there on one contract he had arranged -- there were other jobs. Said could look in construction, hauling fertilizer, Rice for Guyana Rice Board to the **trucksxxxx** docks and ships.. someone needed to fbllow this up. He pointed out that once you have proved yourself reputable, you will be trusted with more and more jobs.

Someone commented on the Peoples Temple sign on the door of the truck--draws hostility from locals who feel we are taking work from the Guyanese .. even though there is more truck work than there are trucks to do it. Touchette's pointed out this condition has persisted from the start and will continue-to some, we are yankee foreigners and will remain so ...

In discussing which would be the better truck for town, Ujara felt the stake truck best -- take sides off and use for the rice, etc. Out here, we need the dump truck --we have a lot of rocks and fines, etc., to haul. it will also reliev the tractors so they can be used in agriculture as they should be for most part.

It was pointed out that by using tractors to do truck work in the wet, then, when it is dry and we need the tractors on the land, they are broken down and in need of revairs. from abuse

Abuse in town Hugh Fortson mentioned that the trucks in town are being shabbily maintained. Trash left in them, and teaming them up like we have done the minkup out here. THIS SHOULD BE STOPPED:

> Dad said that money CAN be made on the trucks, and that someone should be deciding to go in and make that money. Ujara will have to go in and get it set up -- then Crenshaw alternate with him ...

Ujara said he had contacts with the rice board, with John Fernandez and with some of the trucks that haul containers .. you get \$100 per container for hauling them ...

It was mentioned a survey should be done.

C-11-d-1

Gene commented that the ability to put the tractors on our land MAKES THE DIFFERENCE -- for instance, without tractors we can plant 50 banana trees, a day...WITH TRACTORS, WE CAN PLANT 50 an hour with aid of 2 tractors... This is a major production difference. Considering the value of what has been produced by the machines in the time.. taking a load of something somethere, and planting 50 trees.. is a significant monetary consideration.

Dad in reading from analysts notes -- commented that Carol Dennis should put thru followup with Georgetown. They are to be checking on draft animals for us. What is available in the very heavy draft animals? such as oxen, jackasses and donkeys.. heavy duty horses.. Look also for pair of horses that are same size for hauling carts and trailers...

Reading Jans retort -- Dad commented that she should proceed to get the pineapples that were offered .. Wants her to try it soon, this from the analysts minutes of last week. Decided yes on the peanuts to be traded for other variety.

Movies

DAD WANTS THE HOLLYWOOD MOVIES RETURNED -- must get them back.

Do's and dont's...when we have visitors...

In addition to list given last week. We don't believe in suicide ..

No one censors our mail..

Are eliminating illiteracy; down to 4-5 from several dozen. Have protein in every meal. Balanced diet with fresh vegetable Don't whip, spank and certainly do not bury in boxes..

Plays band musical. DAD WANTS THE BAND TO PLAY SUNDAY .. must keep in practice. Dad doesn't preach here-gives us news from all stations.. We are not pro-anything .. not pro-soviet nor pro-chinese. Are open, and realize that peaceful co-existence and detante

are important; live peacefully with each other..

Have a deep regard for life ...

Our people keep neat and clean ...

We don't tease, make fun; there is no ageism, serism.. Women are not stereotyped in careers -- none are stereotyped.. No elitimm or special privileges ...

Jim is the administrator.. Believes in strong physical work in which everyone helps...

Music *

Dad wants music to be played in the library.

Gold

With the money situation going as it is.. Dad commented he wan information on turning our money into gold and GET IT DONE .. Tish to followup on this. (Note--sent word to Buford in radio foom --will followup Saturday) ...

Compost PARALLAX VIEW Russell gave part of his compost report.. Dad wants it given again in tape form on the radio tomorrow.

DAD LENTIONED GUEST IS COLUMN: PARALL/X VIEW CAMBATCEN FORALL

Road

Must get it done quickly, said Dad. Christian said it will take a week and a half, depending how fast they bring in the logs. Stephen is cutting them. We are short on that kind of timber right around here. Stephen has the # of logs needed

C-11-12-16

and Mike T. says that we can get them in okay ... Stephen said it is rough cutting when it rains, because he has trees falling on him, etc. But will try to get it . done.

Farm Report

Darrell reported: Grass was cut for horse and bull and 16 sows. The #1 and #2

litter piglets are let out daily for exercise and sunlight. They are being totally trough fed with sugar added to the feed for more consumption. It works -- they eat more feed.

The inspectors checked the baby pigs and report that they look healthy.

The baby chicks were getting out of their pen; Keaton reported he would get right on it and put clay up around the door. Chicks are doing well ON THE PIG FE

PIG FEED & Chickens ...

Slaughter

There were four pigs slaughtered Wednesday and that night. Also during the night the generator went out. We also lost 2 piglets because the sow sat on them. Now we have 47 piglets Rob also had some problems due to the generator going out. We have assigned Garnet Johnson and Danny Moton to check the generator. END OF REPORT.

Model Cottages From the followup we learned that the six model cottages are not yet ready for the guests to look at... THESE MUST BE COMPLETED WITHIN ONE WELL.

> Dad said both the logs must be in and the cottages completed within this one week.. TRY TO FINISH THE ROAD BECAUSE THE ENQUIRER USED THAT AGAINST US IN THEIR ARTICLE ..

Rice fields

We have another field that is heading up now and the youth going in and making noise have been able to keep the crows away fairly successfully.

Macrame. Expaintings -- Dad had wanted these up. Someone is to see that these are hung about for beauty when the guests arrive.. (?AVA) (Shonda?) (Ruby) Peter and Nancy could be on this.

Landscaping

Chaikin is nearly complete with what Dad requested..said with the weather allowing, he will be finished this week, including the vegetable area.

Rum Bottles?

Johnny and Lee are only ones that mostly go in --PNC people.. might look and see what is available..if any. However the BANBOO cups might be a better way to go. Ask Ken Norton and Tom Grubbs to get together on this. Committee to help ON THOM

Bob Davis, Pat, Brenda Jones, Alfreda March, Arlendo Robinson, Edward Ford, Anthony Micks, Patty Dinnis, Chris Morrell, William Jones, Maurice Anderson, Steve Addison, Louise Shavers, Micki Mitchell and James Ford.

Profiles

Ava has assigned someone to handle these.

Tea

Joyce T. says she needs some help.. Dad asked for a group

C-11-d-10

to volunteer not to work full night shift, but part time shifts all through the night.. serving and washing cups.. DAD WANTS THE CUPS SIGNED OUT AND BACK INILLY

Volunteers: Ollie Smith, Rose Shelton, Marcus Anderson, Maurice, Constance Jones, Toni James, Marionetta, Birdy Arnold, Lou Esther Louis, Alfred James, Dorothy Raulins.

Dad went over analysts minutes.. he noted they talked of not planting the beans and was very upset at the idea. Gene said it was a matter of the weather. and timing. (Johnny should perhaps check further on this. This was relative to the cuban black beans...)

Smiling

ALL ARE TO SMILE CONSTANTLY AND BE FRIENDLY. It is our socialist duty! Moodiness is a manipulation for attention. Dad also wants plants around the walls of the 6 model cottages

TO GUESTS

MORE ON WHAT TO SAY TO GUESTS .. Our families live together..strong nuclear family. We encourage husbands and wives to share in the responsibilit; Have all types of sports, chess, cards, movies, band, etc.. We don't drink and don't believe in smoking --not for moral reasons, but for health reasons first, and second cannot see spending our collective funds on such items. There is no crime in our community. We believe in the principle of cooperative living as in the days of the new testament. We correct by denying privileges when people do wrong.. We don't believe in sulcide..it is a selfish act ... makes others feel rejected, and leaves whatever job you rwere doing for someone else. Rule about smiling..ALL ARE TO SMILE.

The chair is to be shown along with the broom when our guests come in..

Cleve and Helen are to go to town.. Cleve has to go to the boat.. Richard is preoccupied with Janaro .. Cleve and Helen get in there. Dad wants something done -- train Philip for Captain and Solomon for Engineer. Lost \$40,000 but can get some in another contract..breakdown on boat due to carelessness and Richard too lenient. Cleve went on board and declared he was the owner and got them to hustling. He is to get the part repaired and get it back into town.

Dad wants black cat caught and castrated -- picks on the other Toms ..

Get the map of sight plan up on the wall

100 crates coming in; must work all night the build a warehouse, Dad said.

PEÒPLES RALLY NOTES, 8/1/78

o Dad has called a joint Pavilion gathering to discuss the issue at hand. Issue: Several of our people including Dad and Joyce Touchette are sought to serve papers on by the government who seems to be participating and/or cooperating with the conspirators, Tim & Grace Stoen who is part of the Interpol connection in order to stop the revolutionary movement of Jim Jones.

At this point the discussions have been focused around the peoples willingness to uphold our long-standing commitments — one for all and all for one. The custody cases are what the conspirators are using to get the cooperation of the Guyana government and what be cooperating capitalist in disguised positions of the PPP and PNC.

Jeff Carey brought out some important view points -- some like Pauline Groot feels some are focusing too much on historic recognitions through "revolution suicide." Glen Moten whose views were somewhat different last evening -- now says he would be for the revolution suicide.

L. V. McGinnis, Jonestown Police Captain, was very undecided about taking the children's lives if the situation arose in order to prevent our children further pain and torture. He said he would after long reasoning with him.

Carolyn Loomas says she is against revolution suicide. Legistic emergency was called at 7:30 having been gathered in the pavilion since 1 p.m.

Hazel Newell, Ruth Lowry and Chris Buckley didn't raise their hands when Dad asked who would be willing to help in taking the lives of our children and seniors so they wouldn't fall into the hands of the fascist.

Dad gave a summary of what has transpired. Some that were first against "revolution death" and now are in accord like Glen Moten and L. V. McGinnis. Dad said we may be in for a long wiat - like the police back in states do. Rob Gieg, Bob Kice, Don Fitch and others are to discuss a plan to get what we need if we have to. Dad asked for pharmacist and medical report.

Dad said we may just wait - the enemy want to weaken our morale. Dad said we have to decide if there is a stage which we will consider revolution death. Dad said each person will be watch to see if you have bullets left. This is for everyone's safety.

<u>uestion:</u> If they don't do anything - do we proceed to make a provocative act? The best thing is for them to make a move against us - then

C-11-d-2a

the socialist thing to do would be to take hostages and negotiate freedom.

If: If they don't let our boat out and we arelshut off ...

If they arrest our people in Georgetown... then that does give us a right to move - expect that this would justify provocative action. We could move the battle to places we've talked about. We need to be ready to move in the course of getting what we need.

Judging what a provocative act is:

- If they do nothing can we live in a state of suspension every day we're here.
- What if they let things just come and go with their little papers..
- And if so, how do we know they will be coming in to serve papers or make an arrest - question about coming and going.
- How do we say we don't want any guests.

Dad said children can fight at age 12 - will consider younger. Like Martin Amos who wants to fight - Dad said first see what their philosophy is.

Dad said no one is to take any mail. Rhevena Beam brought in an envelope, business type envelope, to Johnny - Dad asked her why and if she'd heard him say no mail was to be brought in. Rhevena said no --Patty Cartmel said she heard it.

Burnham previously said there was to be no services on us. Dad said he was to call us at 1 or 2 o'clock about perimeter of protection saying no one outside of Guyana would be able to touch us. Gene Chaikin feels the reason it is taking them so long is that they just haven't come to a conclusion and that they are just that way -- slow. Says they just haven't dealt with it yet. Dad said its a very dangerous situation.

Dad said when Stoen comes in -- he can't go out. Discussion:

We should prohibit them from coming in - if they send reinforcements then we know the government is enforcing it.

Dad said it is also against the law not to let any government official in. And it still breaks the law if any of their party is refused.

Pauline G. suggested demonstrating in Georgetown saying we want to be Guyanese -- Dad said if they gave us Guyanese citizenship and guarantee us in writing then we will, but until that time we won't.

0-11-6-20

Issue: We don't want folks coming out here and taking our people, Dad said.

<u>Katherine Dominick (senior)</u> says erect a double ferce at gate to keep them out.

Dad mentioned that it was risky at gate - need 2 people for talking and one stay with radio.

Ways of blocking roads with equipment -- Dad asked if a tree could be put down without tearing up planting area. This can be done.

It was suggested to reduce all usage of lights. However Al says still uses fuel. We still need to get 18 barrels of fuel.

Suggested to shut off pigger generator during the day. Jan said they use to burn wicky and use reflectors for keeping bats out. Al said that didn't work. Feels it (the cattle) could be watched - depending on size of herd. Wanda says they have enough chicken wire to close pens.

Robert Franklin - has a plan that could be used to eliminate Stoen. Dad told him to write it up.

Mary Wotherspoon will finish casava at 7 am tomorrow. 80 bags can wait 3 days. Rob says it should be spread out in shad at the mill where it won't get rained on. Jan said tent would be ok - then it was suggested to spread it out under the dorms.

Dad asked for those who would agree with Gene's idea to take hostages.

Dad mentioned that PNC was unreasonable - they wouldn't take Russian aid. Russia wanted them to include PPP - question about PNC refusing.

Lee said make a show o'arms - Steve says they shouldn't know what we have until they get in here. We have a chance with an ambush approach, but not if they already know what we have.

This would be an ideal time to make a stand on basis they refused to adhere to Russia's offer.

Etta suggested seniors and others laying down in front of land rover. Penny feels Stoen will come in with more forces since they didn't come today. She says we should consider getting Dad and children they want out.

Lew asked if local enforcements could come in without the direct approval of Furnham. Gene said local official is authorized without going to Georgetown. Does he control Gaskin police too - no Benjamin in Port Kaituma. GDF has the big weapons.

Lisa said have seniors lie down in road - Dad said but we're dealing with fascists, we're not fighting socialists. PPP doesn't meet Dad's expectations. C-II-d-2C

Tom G: Would be willing to go and get Tim Stoen. Dad said should be some that are older or who has terminal illness.

Jeff offered to be burned. Bea Orsot, Najuandrienne Darns, Magnolia Farris, Selika Bordenave, Irene Mason, Richard, Etta Thomas, DePina, Lovie —says she's willing to fight until death. Larcy Lane, Kathernine Dominick, Laura Johnson (she wrote what needed to be done, but Dad says she's too young. Others Jane Owens, Carri Langston, and Dad said Theo Williams struck it — what needed to be done.

We don't shoot unless they start something. Security was set up for showering and curfews.

Alfred March & Jamal Baisy (Learning Crew) fighting after meeting.

RALLY FOLLOWUP LIST

į

Carolynd, - Dad

1) Gaston, Chief officer of Matakai will be here tomorrow. Wants the list of skills of our people..

2) Russell to read his report over the radio at mid-day tomorrow.

Rum bottles to be collected from Kaituma; we have a glass cutter and can cut them into useable cups and glasses.

Day-off ceramics project; Tom Grubbs wants us to try making cups etc. Someone should be in charge of the volunteer project.

Counselling is to be done with Teddy and the Karate team and the _ jury is to set in on it and act. The team is to tell him how they do not appreciate his actions and how it is a reflection on the entire team and on the family.

Said that people on the job laugh at his jokes too much. Should not laugh at the jokes of people not working well. Is not helpful to socialism. Character should be first.

IF GUILTY HE SHOULD GO TO P.S.U. FOR A TILE...

Medical and dental and any others get information to Ava immediately when you know you NEED to send someone into town. She is to start getting their profile collected right then. and to give to Dad so he can have time to evaluate if they should be cleared to go in.

- When Dad is on microphone, <u>CAO's</u> be sure the radio does not interfere particularly when he is recording tapes. It bleeds thru and it is hard enough to concentrate on so much as mast be done on those.

 BE SURE THEY DO NOT INTERFERE WITH HIS NEWS! Tell them to be ATTENTIVE when Dad is making a broadcast.
- 8) On next test use talk about what we got out of Carolyn Kirkendoll's letter. it is to be read again (probably after Nell leaves) across the P. A. system, just as she wrote it...what she wrote to Dad and about herself analysis and what it means in collective terms and in communist conscience.
- 9) Observe and report on any you see who are lazy or who let others do all of the shit work.
- 10) Dad wants the kitchen cleaned out... Wants tea for all, even if it means a night dishwasher and a senior to monitor so that the cups do not leave! Those typing and working late are to have tea..something is to be worked out.
- 11) If asked what we believe: we are peace loving people and believe in communal living. If asked about reincarnation, etc., we don't talk

C-11-d-32

about our religious beliefs... that is a personal matter and we do not all have the same religious beliefs..but we do not talk about them.

- 12) Tony Linton to be reviewed in 3 weeks relative to becoming a regular P. S. U. worker. He is assigned to the farm work pool at this time. Dad will entertain his request if he has an an excellent record. Not to be considered a precedent. must always consider this type of thing individually. Those going on or off PSU are not to dictate what they want to do or where they want to go.
- 13) NEW LAW: Anything that endangers lives will be automatic PSU.. anything that can endanger life and limb...dad said.
- 14) JURY: Dad wants a place set up in each rally where the jury has permanent down-front seating so that they do not have to stand as they deliberate.
- 15) Norman: letter given him by Edith Roller she wanted mailed in Garacas.. ask him when he gets here.
 - Set up observers to watch him and anyone with whom he talks. He formerly spent lot of time in back kitchen area and when the plane of National Enquirer flew over, it showed concentrated interest (apparently) in that area. Best to set up a careful watch in that area.

Re. Internal Survelliance Security(ISS)

Gene Chaiken-Takes an attitude when he is called to the radio room. Takes his time, and has people looking for him.

Jeff Barey-Talking to him about coming back on security he said Jimmy wouldn't let him back on because when he was on he was very negative at the time he was taken off. He felt that was part of the reason why he cameoff, or it could of been something else. He said he had a choic to either stay on security or leave.

Ken Norton-Yesterday he took an ax to his house. He hav't been seen with it again, but I do Know no tools what so ever is to be inside of homes. Also didn't pay any attention to DAD last night. Kept looking down and talking to Pam. Nodding off to sleep for awhile..

Tom Grubbs-Yesterday he went to the very back of the cottages and looked around the jungle for awhile. This is not the first or second time he has done that. Acted very strange at this time.

THE NEW SYSTEM OF TROKIA WAS EXPLAINED DOWN THRU ALL THE INDIVIUAL DEPTS WAS EXPLAINED.

THERE WAS NO AGRICULTURE PART PARTLY DUE TO THE FACT THAT NOW THE NEW SYSTEM IS UNDER WAY DAD FEELS THAT THE REPORTS SHOULD START CHANGING AND THAT THEY WILL BE MORE TO WHAT IS REALLY HAPPENING.

HE DID MAKE MENTION THAT POULTRY SHOULD BE TURNED INTO A MAJOR AREA OF THE FARM AND THE ANYTHING THAT COULD BE THOUGHT OF TO STEP UP THE PACE SHOULD BE TURNED IN AND CONSIDERED. ROB NEEDS MORE BLDGS AND THE CHIPPER TO MAKE CHIPS FOR THE CHICKENS HEALTH FACTOR. THE CHIPPER WILL BE IN ON THE ALBATROSS AND DAD SAID TO PUT THE BLDGS HIGH ON THE PRIORITY LIST.

JAN MENTIONED THAT THE CUBAN BLACK BEANS ARE JUST ABOUT READY FOR HARVEST AND THAT PICKING WILL START IN THE NEXT DAY OR SO. THE GRAIN DRYER IS BEING PUT TOGETHER BY ALBERT T. SHOULD BE READY TO GO BY THE TIME JAN NEEDS IT. THAT IS WHAT THEY ARE HOPING FOR. NO PLANS ON HOW TO BUILD THE DRYER, BUT THEY THINK XX ALL THE PARTS ARE THERE.

DAD SAID ALL SUPRVISORS MUST KNOW TO THE MINUTE WHERE ALL THEIR PEOPLE ARE. ANYONE THAT HAS TO HAVE A MEDICAL EXCUSE TO BE OFF OF WORK WILL HAVE TO SPEND THE TIME IN SCU OR NURSING CENTER. THEY MUST REST WITH TEMP TAKEN EVERY 15 MIN 1:1 ONLY HIGH ELEVATED FEVERS WILL GET PEOPLE OFF FROM WORK. IF FOR SOME REASON YOU FEEL YOU CAN'T DO YOUR JOE THEN YOU WILL BE ASSIGNED TO ANOTHER (MORE TO THE KIND THAT YOU DON'T WANT).

tower - Muggs cage is to make sure that they have total very points at all times. C - 11 - d - 5a

CHILDREN ARE TO BE TAUGHT IN CLASSES ABOUT THE DANGER OF BEING AROUND THE BACKHOES, THE CATERPILLERS, TRACORS. (STEVEN TOLD ABOUT HOW PEOPLE WILL STAND IN THE WAY OR JUST KEEP SITTING BY THE SIDE OF THE ROAD WHEN THEY SEE ONE OF THE EQUIP COMING. OR HOW THEY WILL RUN AND WALK ALONG SIDE OF IT OR EVEN HOLD ONTO THE CABLE PULLING THE LOGS.)

DAD SAID 120 MORE ARE WANTING TO COME AND HE WANTS TO KNOW WHO THEY ARE WHERE THEY HAVE BEEN KEEPING THEIRSELVES, WHAT THEY HAVE BEEN.

DOING WITH THEIR MONEY AND MAYBE EVEN STAND OUT ON A CORNER WITH A CUP FOR AHILE, BEFORE THEY COME.

PEOPLES RALLY, \$1/1/78

"Dad said no form of discipline at all except what the collective does."

People who mishehave will just have to work through lunch.

We were visited yesterday by the Foreign Minister, Wills. He said he had never had such an experience in his life.. Said he never saw anything to compare to this. He commended the goodwill and warmth that was shown and our services and planned production. He said it gave him the kind of information he needed to win the battle within the elements that might be in the country. The Foreign Minister was moved to tears when he visited the medical department. Mom Jackson gave him a talk. He said it was so wonderful to see people freed from _ (a people whose faces revealed that they had been freed from racism) and he said it was true integration he had never seen in the world. He is a very sick man - has lost 2/3 of his stomach. He doesn't get nutrition he needs. Said he would have to come out here and get taken care of. Dad said that was rather sad, a government leader who has been to doctors through the world - he cried in the doctor's office. Dad said he looked at Cheryl Wilhite and said the child would be a Guyanese child. He was told about tumor in Earl Johnson and how no one in states showed concern. Larry said he was so moved by what Dad is doing here. It was at that point he said they will have to go through him and too many of them to get us, he said we won't let them. He said it was a privilege to be a guest. He asked for the soap recipe.

Dorm 1 Proglem:

Stealing, and problem with clothing and coverings for children. Dad asked who will work with Penny getting them organized. Dad asked that equality be established. People should feel guilt if they have both blanketsand sleeping bags. How many have no blankets: Patty C., Anthony Hix.

<u>Patty Cartmel</u> needs help in getting cassava. Tommy says they need about 30 people to help pick it:

Teena Turner, Rob Gieg, Joyce Douglas, Ben Robinson, Toi Fozelle, Kenny Reed, Cynthia Davis, Janice Johnson, Mark Wagner, Ed Crenshaw, Anita March, Margarita Ramano, Jann Gurvich, Keith Newson, Danny Moten, Loretha Buckley, Sebastian McMurray.

We will need extra people to go to PNC:

James Edwards, Amanda Fair, Jim Pugh, Etta Thompson, Claude Goodspeed, Frances Stevenson, Jerri Bailey, Barbara Davis, Earnestine Elair, Fanni Jordan, Pop Jackson, Najuandrienne Darns.

C-11-d-7a

Lee had told Mrs. Hudson that the doctor would come to see her daughter. Dad said this must not happen any more. The PNC meeting starts at 3 pm and the visitewas set at 1pm. Dad said the doctor goes in when PNC goes in.

Al T. and Darrell Devers also to go to PNC meeting.

Dad told kitchen to have food for people going to get cassava.

PEOPLES RALLY 1-1-78

-- Prom Dad's readings:

Okra in some places is a substitute for coffee. Egg shells can be used in fertilizer. Dad asked Steering to look into this.

الرابيع فالهاولا المراز المراج البيلوسات

Announcements were read.

Johnny J. said some don't understand what course they are on. They went to Matthews Ridge and for the last couple of days, they have been short of utilities. They would have if they had the organization that Jim Jomes represents. They don't plan ahead. People were walking around saying this is the worst holiday they've had. They had to borrow fuel from Port Kaituma, but it didn't work. This would have never have happened with Jim Jones. They went to Port Kaituma today and they were talking to this man and he said Peoples Temple was something big in the Northwest District. He said E don't understand it but you are big. We should be thankful, we should have an attitude of gratitude. All the people that represented us did a big job. You would have been proud. It was something else.

Dad said its wonderful and that we are venturing out into many places.

Songs: Gaiden Crew "Why do we change" - Dee Dee Macon Reach out and Touch by Dorothy Brewer

I'll pack my grip - Bro. Moore

Plays: Hospital play

The Radio - Patty C.

Reading: JammGurvich read a letter that was smuggled out of an Argentina prison.

Dad said its important for us to realize our government. The CIA was directly involved in the disappearance of the Chilean people. \$540 Million was spent to put fascist into power, and the Green Beret. Argentina is right next to Chili - the government there had the power to keep many Chileans from dying. They closed their borders and forced them to die there. Dad said the Argentima Government was overthrown 8 days after Henry Kissinger visited there. Alende's daughter committed suicide in the U.S. by jumping from a window. A true communist will keep on doing what he has to do. Dad said he didn't need 5 pages from each one saying what they didn't like. Dad said he could have had anything in the world he wanted.

Song: Patty Cartmel "Anybody here seen my old friend...." The congregation and Dad were seeply touched when the word: Chris was inserted. "He triedtto free a lot of people, but the good they sure die young..."

C-11-d-86

Dad added -- "we better not look around and find another one gone."

Instrumental: Carver Cardel - "Joe Hill" & a reading of "Joe Hill's Will.""

Complaint on Ronnie James. Ronni already wrote it up to Dad. said before he got on Learning Crew he and Ronni had a sex act one day on socialist class night after work he went to Ronni's cottage in the loft, he said he was dirty and he said come on up and they were laying up there and he starting hugging and asked him if he hugged him what would he do and said it just happened and when he was leaving Ronni asked him was he coming back. says he always thinks about Ronni and that's how he got on the crew. The note says he came craving sex and he got it. Problem is that neither had clearance for this Dad said. ___ is 16 -- that's a problem. Dad asked what does that have to do with you being bad on the job when you got a sex act "on the house." said there was no excuse. Can't understand why he acted so nasty the next said Ronmi called him up to have sex and they had mutual homo/sex. Dad asked Ronni what does he say. (Lee and Jan had talked

C-11-D-86

about his work habits and they asked why he didn't say it when they talked with him.

Dad asked Ronni what does he have to say.

Ronni first had 3 mos and then 6 mos. relation with Ivonne.

He was asked what does he feel about the effect on that. In a way he did—Dad asked him di he think he was going to keep it a secret.

No he didn't — didn't think he would get on the floor. Yvonne had trouble understanding—Ronni had told her he only wanted to do something and didn't tell her he did. Dad said he told her he had a long time ago. Penny said Ronni defended when he had to stand on one foot.

Ronni told Penny that had kidney trouble. Dad asked if he had kidney problems — said yes. Says Joyce Lund knows — she said he went to the doctor for it in the states but it hadn't been established here.

Dad told Ronni he and Ivonne were in a 6 mos relationship with sex and asked him why did he have the need for both. Ronni wanted to try homo-sex with Dad said its a problem with under aged -against the law. Asked him why didn't he try it with someone else and asked him if he was attracted to anyone else. Ronni said yes - Gary Tyler. Dad said he can speak for himself. Who else -- that's all. Dad asked Gary if he was interested in Ronni - Gary said he'd noticed him a few times but hadn't thought about it. Dad asked Ronni if it was because Yvonne wouldn't. Yes. Dad said he's afraid of indulgence in times)like these) of war, but he's sympathetic to his feelings, but afraid if everyone does this - he questions what we are really doing. Dad says he has (Ronni) a bi-sexual need. Asked what does he need women for -- what does he think they need women for and how long would Says wants a homo.. to find as a companion. he want Romni said he would only have a relationship with for a short while. He asked Ronni what does he tell a person to get them to come on - did he feel was peoples property. Says had done it before. Dad mentioned that others were doing it to so others should be more understanding as they will be up here next. Vote to see who opposes to two sex's living together - vote all in favor.

Marie L. mentioned she didn't know whether her companion would prefer a man or her. But Dad said her companion who is in Detroit has left the church. Marie thanked Dad for telling her. Dad mentioned that he wanted socialist class test results. Dad asked how

C-11-d-80

many had slipped and had sex that was not cleared. Dad asked how many have wanted to have sex w/ the opposite sex male/male etc. Don't believe sex is what makes a revolution. Asked those who have had sex to write it up with "Tenight Peoples Rally" on it. Don't tell others about it.

Dad asked how many have no concern for sex. Many raised their hands. Dad said this is where the mass is.

Dad said there are new forms o' harrassments - they are bringing many of our people back in states up for audit. Says if people can fuck interjecticly afternhearing this. Most are out to use you. Partake said the experience Penny put him through was helpful. Dad asked if heard Ronni defending him. He said yes. Dad said this was out of line. Dad asked how did he think would feel when Ronni dropped him - Ronni says he intended to go back to Yvonne. Asked why - says he likes Yvonne better than he does . Why - Ronni says its to hide his homosexualty. Dad said the other is because he won't mother you. Dad said some say they have a good relationship with their wives and if you know what I know they'd drop dead. Dad says he's read their mail. He's heard your comments and complaints. Dad told them not to try to go around the law any more.

Ronni feels he should be on Learning Crew for 1 month. Dad said not to start letting people hold children when they've not shown principle. Our babies need strong hands. Dad said since Ronni was honest about it ~ he would have 1 week on learning crew. Next time someone will get beat and 30 days on learning crew. Dad says no matter what law say here or anywhere - no one should be judged by sexual orientation.

Eric Baker, Vincent Lopez, Ronni James, O'dell Rhodes, Jair Baker Keith Wade, Wayne McCall, Tracy Stone, Ronni Dennis, Dov Lundquist, Carver Cordel, Stanley Clayton. (These stay on Learning Crew)

Jair Baker: Urinated in jar that Penny thought to be not pepers and she inadvertently ate some and Jair was thought to have done it on purpose, but to prove his good faith he swallowed some to show her it was not intended. (No discipline issued in this situation)

Stanley Clayton: Refused to work in assigned area. Bad attitude to Jocelyn - chauvnist. (Learning Crew).

Kevin Smith: Broke chain saw cost \$400 wants 3 days on Learning Crew. Kevin changed it to 1 month after it was stressed how serious

was. Children who stay with him says he keeps ax's. Took oxygen tank up to banana hut and didn't bring it back. Why did he keep ax's and didn't let someone know. Said ax's were broke. Larry said he should be careful transporting equipment. (Kevin Smith on Learning Crew indefinitely)

James Johnson: Urinating sleeping quarters, leaves dirty clothes laying around and urinated in glass. (Learning Crew indefinitely)

Noya Blair: Community Training Program problem.

<u>Eileen Tucker</u>: Shirley Baisy wrote up that Eileen complains and talks too much while working - works well, however. She was asked to straighten up.

Barbara Kemp - It was said that she's falling apart. Dad told Michaeleem and Shirley to watch Eileen & Barbara's work.

Dad asked who was dropping out of school - 10% very intelligent.

O Anita March, Shawanna Harris, Poncho Johnson(says he wasn't going to school, but likes socialist classes) Darlene Ramey, Mark Wagner (Mark says he plans to go - had been on front gate. Mark Sly works with Ron Sines - likes to work with wood and likes socialist classes - Dad advised them to elect some courses.

Dad asked which ones should continue: Anita wants to be a vet --- this is reasonable. Mark Wagner has a good aptitude. Shirley R. said he said he had no interest in her class. Mark S. dislikes biology -- Tom G. says Science Dept. has been changed - feels he'd like it this term. Dad said education will have to give profile. Tom said he has a lot of basic skills but will top out. Most wanted to quit school to work - some are on security.

o Dad said all go back and try it for a week.

Walter Williams: Late for work - has 19 children in cottage. He says he was late only one day. Dad asked why was he late - says he failed to check in -- wasn't late just went straight out to bush. ------Man's Rights to Civilization by Jeff Carey.-----

Danny Kutulas said first day Walter didn't report - was painting and forgot. 2nd day said he reported out to job site - 3rd day was on time. 4th day he didn't see him at all. Late 3 out of 4 days. Tiki says he doesn't help with children. His work is very well. He was given a (Chance) however asked to work with wood. For asking for change upon being confronted he was given 1 day on Learning Crew.

Agricultural/Livestock heads were asked to get together with Rob

PEOPLES RALLY NOTES, PEOPLES RALLY NOTES, 14-1-78

Before rally - Dad read us the news.

Announcements: Johnny Jones

All supervisors must turn in the names of their crews to aria mccan. This is to be turned in Saturday night before Peoples Hally. Song: "Reeps on Doing great things for me".

"Carden Crew" Fon't Porget - When the Revolution comes Song: o we don't mind dying, we will never say a word.

Lell may be around red as fire, but socialism it came for me and now it speaks you see. This is a revolution and it will never know defeat.

_ad asked for ,uestions:

Debbie asked about Lenin - how he died and about Stalin (means Dad said Stalin means man of Steel. Stalin inhereted a revolution that was started in Aussia. We fought his way to success from an impovished background. Tis mother tried to araw him to the priesthood. In 1917 he fourth a revolution, he became leader of Aussia in 1) 3. Barely 6 years after the revolution. Capitalist ambitions didn't die easy. Harx and Engels proclaimed capitalism was a superior system. It was advance to all systems before it. It gave some form of representation but it would not be satisfactor, because of the class system -- no equality. Love or last of money would lend to its destruction. A few would have all the wealth. Two classes --Wager ; the ones who owned it. First when the theory of larx was tried in Aussia they had capitalist ambitions. Stalin and to lead the people through a conspiracy and the major power of Germany - the conspiracy was funded by leading industries of the ".S. . In world for II Rockefeller was making money on both sides - he owned factories in dermany. Stalin had a progressive government until the late 1973. He established communial and agricultural production. Imperialist agents bought off some of his generals in his army and his staff. It almost bought destruction. He arrested them and had some killed. me began a great purge. Some were put in camps, Institutions or slain. When Hitler invaded them they were only 15 years removed from faudalism. They resisted until they committed suicide rather than let then take them -- they held out 3 years and never surrendered. They wouldn't have been able to resist if Stalin had been a bas man. They wise . circle around their city like we do and had to eat their own acrd.

C-11-d-9a

The capitalist could not break through. Loscow fought off Jermany as Stalin was being fired on. Stalin were used cothes and left no inheritance. His daughter left and went to the M.S. Emerican didn't win it. It was won in Stalingrade the city named after their leader. The seniors fought with pitch forks and they kept on marching. Then the middle aged went forth — The enemy never saw such a fate of heroism — with astonishment the enemy general jot under his tank. They turned back the Lazi army.

Dao said Troski never believed in building anyting. e cansed bush fires everywhere. Te wanted to venture out into Jussia, China and Juba with infiltration. Le probably would have made a good leader, believed you should export into other nations first. Should not those established presently in 'international revolution. Feliaved in acnational boundaries. It doesn't work. Le thought it should take place immediately - wanted to start fires all over. The wanted finds from Aussia. (for same massia hod min killed) - probably because he was no longer reactionary. (.arx has been right in predictions about capitalists - it will fail). But thought it would take place in an industrial country, but instead in an agricultural settim. We believe ark theory was the best theory of economics to go by. We don't say Lenin was perfect and neither was Stalin. (Sebalina - Stalin's despiter). Stalin died of a cerebral accident - he had maintained life for some days then died. It was said that people worshiped him too much. Sebuling was a strong supporter of her dad. He was not forced to retire - they removed nim. Stalin had to be tough.

person had to be trained to fuck. Rimo is Dad's son. He knows now to teach people. It's a burden to have sex with people you love. If you really need pleasure you could get out and find it in the minut. But said he only has two sons. One is little andoone very tall. Ind believes in general love — desn't love one more than the other. Is mentioned how grace had wanted him to marry her. Dad said we ought not to be moved by physical appearance. We should like people out of character.

.

should not be in back. Some continue to take special privileges and insist on working with those you like. Dad said he had to fuck all night once with someone he hated. This made him holier than Jesus. The end justifies the means. Dad said people have no right to think they are close to him because they have a special knowledge. Said no one is indispensable. Some will never change until he slaps them down. Dad said he was sick of playing. His sugar is 45 - should be 90. He mentioned how they went through one winter with no food, his Dad threw him off a bridge, and ice use to form on his cover.

Psychologically that would make him very mean, but he is very caring. To be unified it takes discipline. We would have an almost spartan society producing.

Some people refuse to be kind to people. Many leaders are that way, we have some that are kind, but very few. Dad said some people are not heard. Dad said he's given his children more than if he had been a capitalist parent. We are suppose to be - o -. We should think about black children starving to death in Africa. We are all guilty as it was our dollars that paid them.

Someone took Dad's pasts from the crates. Inspection Committee should look into this. Some didn't know up for the water brigade. Laziness doesn't go in socialism. Some would starve to death. Some have accidents all the time to keep out of work.

Joyce Lund asked about the term Marxist/Leninist - Marxist is the Theory and Lenin - put it in to practice -adapted it to condition/established it.

C-11-d-9c

BILEEN TUCKER:

Asked how to be a -o-. Dad said to imagine thinking less of yourself as some have had more pain than others. Dad told her to think of people that were being beat to death in Africa by our tax dollars.

Jack Barron asked about Troski again: Dad said he was too idealistic. He didn't think - his concept was to start a national revolution -it wouldn't work no more than if we tried to take over Port Kaituma. We should produce so we can bring people in. If we produce enough we can override the problems. Dad said as long as we produce they will be hesitant to come in, as long as we stay strong. The gov't. kicked Stoen out -- U.S. threatens to kick out Guyanese in the U.S. we have been paying a price all the days of our lives. Did we think we would have a beautiful land and wouldn't have to fight for it. Dad mentioned the Mitchell's saying that they had found something to die for. Dad said some complained about there wasn't enough meat. Some have been ill and too out of jails. People arehot grateful enough. Some should quick taking all these breaks Warnings: Supervisors - should be able to take criticisms. Some are bothered by consultation. One supervisor/coordinator gets pist. Slow to admit they have been forgetting things. We won't tolerate it. She works well and fast, but this must be changed.

Praises from Marie Lawrence: Barbara Walker, Tarik Baker and Nicki L.

Dad said he is suspices of crew writing all praises.

Laura Johnson' crew: Guy Mitchell - good attitude - Betty Fitch - good worker. Jerome Anderson - cooperates cut hand and kept working.

(Extra cookies) Other praises: Jocelyn Carter, Diane Lundquist are doing good. Mary Wortherspoon - good. Teresa King, Joan Johnson Diane McKnight and Diana Marshall.

Rhonda PAGE: Defensive - (Last warning) Netra Fain - talks too much.

Elli Pear - Always getting assignments that will take her off the job (warning)

Earnestine darch - good worker - talks too much - pouts when things don't go her way. (From Becky Plowers)

Elli Beam - Told Shirley all the clicks were broken up including she and Jocelyn, Stan t Tanya. Elli said that was her understanding why Jan broke up all the crews. (Learning Crew)

Julie Cordel - Learning Crew

Willie Alone - Learning Crew

Aaren Chr - off

Jim sogue wants to chane name to Eurrall - approved linda Sacler - hard to get a hold of - didn't return to children feels she should be warned (Learning Trew)

Jocelyn's crew: Stanley Clayton - 28d told him he should be thankful - the, had a contract out on him. Dad as ed him who was after him. He said he didn't know. (His work is good - talks too much) Leslie supports him. Leslie feels Jocelyn sometimes doesn't work that hard. Leslie #2 ner sid she feels she should be on learning (Learnin rew) Shirley Micks feels Stanley has straighten up lately. Tad asked Stan if he knew now 'ris died - he was milled with different wespons. He walked a plock 1/2 with holes in him tried to tell who did it. Police killed nim. They immediately took the car away. is noo, was riddled with holes. Stan was given a chance.

Vicki ... rshall - needs to improve.

lurlene ..ewman - works well.

Someone feels Johnhaas been lat for school. Rea Orsote wrote it. Ben says becky told her. Ead said its not wise to cause alie ation in a child-with all that is going on. Bea a Becky given (warning) Dad says he felt it was hostilities directed toward him. Luester said bea didn't write herself up when she let the dog eat out of her plate. Tom Grubb says he was also responsible - he should have known what the child was going through. Other children have been late too.

Need more Learning Crew supervisors - ava Ingram asked to be teaching crew supervisor.

parents and relatives are not to ask when their child is to get off.

Ronni Dennis - off, Wayne McCall - 3 more days threw fit., Vincent Lopez off, James Ford - off, Tyrone Cartmel - off, (works better wien not with Eark Rhodes., Trinidet Bals - off, Jair Eaker - off (w/Penny at night and back to Jocelyn's cew). Rose McKnight - off, Odell R. - not working hard enough

__eslnie briedenbach - Lazy - doesn't take confrontation in bakery.
(warning)

o People need to drink more water. People are getting lot of infections from not drinking enough water. Should drink lo glasses a day.

Stoen - some said she did and reads them all the time. She said she doesn't have any - says she would kill her if she had a chance. Says she and Ellen doesn't get along well (chance). Pad told her are should have that guilt. She saued money that Grace had stolen. If we had known - we could have made some difference.

Warning: No leaving crew members.

<u>Pancho talked</u> to learning crew and laughed - his companion says he does tease people. (warning)

S.A.T. clothes are needed - some are wearing them for work clothes. Radio: Order more fatigues. Bob Davis and Tommy Walker has some.

**Carther Ricks: Says people shouldn't be discussing physical problems with others outside of the doctor or nurses. Says its very out of order. They should be turned into gratitudes.

ODELL GRODES: Re nest job change - injury giving him a problem.

Dad said be grateful. Wanting to get out of something so bad could get a disease you don't want.

People are to write special letters - letters protesting Stoens being able to come here.

Dad said Diane Wilkerson's mon was trying to give trouble with the Guyana Government - she's trying to paint Diane as a prostitute and drug user. Dad said she will come through. Even gave Diane a date when she'd be here. Diane a made the mistake of sending her mom a greeting card during Christmas.

Dr. Mingo said he would keep Tim Stoan from staying in country over 1 day - 1 day visa will be issued.

Landlords canndiscriminate against someone due to his appearance and if he doesn't like their profession. A young black woman was denied an apartment because the landlord didn't like lawyers.

Property rights have been set back 40 years. If someone is discriminated in housing they can no longer get a decision appealed - judge upheld this. Court stem is making it a dictatorship.

Government living Dr. Schacht a problem - now saving he has to have something electrone he can get his license. Dad told them we are tired a license in allegate and fro.

Dad tolder that had and how his dad use to catch rats one by one. He was the king of rats - backed him up till he climbed the wall. Then knew it was time to get out. Then next thing after that the rats were all over his dad - they had been pushed too far. However, we do have a number of Marxist in the country.

Another rat Dad remembers was in Indiana that would come out and scamper around in the day - very bold. Dad said he didn't want to will them and felt there was a way to communicate with rats. When he found one bigger than a cat, he said he would have to do something. The big rat listened to Dad, it looked like a sewer rat.

C-11-d-100

Dad talked with the rat. He put food down the next day and they had left. Dad said if piage isn't permitted to come, then we won't stay - we will be like a rat backed to the wall.

Dad appreciates those who are producing. Some don't do anything. PRAISES:

Rhonda Page: Dong good - first day with Jan's crew.

Mike Simon - Jan's crew worked overtime kept good attitude.

Dad said he will give government an alternative ll o'clock tomorrow. We're having problems with our doctor and pharmacist. Dad said we won't go through what we did when Griffith died and said he wouldn't put up with it any more.

Dad said he went to jail with Paul Roberson. Christians tried to kill him and set him on fire. They told Dad he couldn't go to Paul Roberson's meeting, but he went. They locked them up. Dad said they were being taken to jail when the door opened. Dad walked out and couldn't get anyone else to jump out with him but nne old black lady. The rest just sat there.

Dad warned Partake to stay awake because he wasn't going to be be bothered with him tonight. Dad said all the conspirators were linked.

Dad said baacks are denied rental and won't be able to take any recourse. They are taking away more and more freedoms.

Kennedy selling out. Kissed ass to Eastland by joining up and becoming a co-signer to the Senate Bill 1. But they voted Eastland to stay in office to keep Kennedy out.

5 motorcycle drivers raped a black women. She committed the condition of the 2 days later. Her borther said he would kill those who it. The police said they couldn't find the criminals who did it. Dad said if it had been someone black raping a white they would have found them. Reference was made to the case of Joane Little - same type of situation a black women being raped by her white jailer. When the brother tried to have a showdown with cops they surrounded the building and brother gave up-walked out with his hands up.

Dad said he wouldn't want to go back to a country where a black man just surrenders to police. This happened in San Jose.

* de l'information

Joane Little's boyfriend turned her in. People aremaking threats on the CB.

Mozambique's president Michell said the problem was that their revolution didn't last long enough - should have fought longer -and shed more blood. Dad said we had it masy - it could have been without food. That's why Rodesians have been able to run in andout but they are beginning to run them out. It took constant invasion of Rodesian troops. There are 18 blacks to every 2 whites but the blacks have no political office or hold no positions. No place to shower in their living areas. They work from sunu up to sun down. : U.S. troops under pay did all types of tortuses to the blacks in Rodesia. They even made Betto's daughter who was 6 years of age participate in torturing her daddy by h pulling on the wire that was tied to his penis. America is mean. Some can't imagine how mean they are. She had to pull until one ball was cut off. He died 3 days later. Some don't think its their problem. Life is not worth living unless you have freedom. Our families would do the same to us as Diane's mom did. Our women should not be pregnant may have to go on front lime. Would not be wise to have children at this time. If you are 21 you have 14 years before you need to get pregnant. It has been many here that Dad has had to fight Famigration Dept. over. They didn't want Bro. & Sis. Mercer. Said they were blind. Bad talked to Dr. Reed and was so mad and told them that the werec coming in. Some got here at great expense.

Legionaire disease totaled 85,000 people - there are 5 different kinds (strands) of it. They don't even know what it is. Only in imperalist countries.

Dad asked if there were any questions on what you are following.

Dad also mentioned they didn't want to let Helen Love in. Dad

said he has always played "confrontation politics". We should have
a basic instinct that they don't take one without all of us. Dad
has 3 people back in states watching for him in case. Knows when
you participated in service and didn't — those on back rows.

C-11-d-10c

It's bad back in states. People operated on when its not needed. He told how Helen Swinney tried to get money for the commune by staging a fall in a place of business. She went to the best doctor and he told her she meeded an operation. She was going to let them operate so she could sue them. Dad advised against it.

Dad says 1/10 doesn't know what he's talked about. Everyone should be prepared to answer questions in class of what he has talked about. Don't be sick or you will be drug out of bed. Every child and adult will be tested.

Senior asked Dad to give her the shits. He said she will have it like she's never had it before.

Carver did a write up on what Dad has said about the PRI. Each house mother and supervisor for dorms should be listen for those wasting water. Showers a constant water waste. People would give their eyes for water in Los Angeles.

"He that loses his life finds it" (Plato) Some gossip about other folks -- Dad said he's after them.

Warning: Some try to get favors from some folks who doesn't really like black folks. Who you are close to doesn't mean anything. You better be a friend of Rob Gieg's. Some folks get close to others and think they can be a shit-head.

Medical Staff:

Phillis need to share her points of views with other people. Phillis agreed that she hadn't been doing this.

Garage Contract

Dad said no condescending people together.

Terri Jones will be out of the toddler program for the time being.

Other problems in medical - some not liking particular people.

Annie Moore: Says nurses don't respond to the doctor.

Dad asked who reports on pharmacist.

Electrical Crew: Producing well lately. Out of supplies at the moment, and have placed an order with Georgetown. Terry was asked to push on that.

People should look for <u>fires</u> at night everyone shouldn't be messing with electricity unless you know what you are doing. It's a miracle that we haven't had a fire.

Dad said wes should have some fire drills. (Lee Ingram for Fire Marshall)

Chuck Kuykendall, Doug, Sanders and Lee Ingram: Some are having problems with their wiring - doesn't remember what to do orhow to do it. Dad said they will be given a chance (Kuykendall) Some I slow in house wiring - likes to talk. One gets to easily carried in conversation - works well, but doesn't work with them all the time but when he does slow, has to get use to it. Figures out some problems - likes to take the easy route. Neatness is a part of a good electrician. TRACY STONE: Returned from his walk - says the jungle is bad - says he doesn't want to go back.

Dad said some adults are creeping up to going to the jungle also.—
Chris Rozynko gave a good evaluation of himself. Said he likes to
put in additional things in work to be sure - sometimes not really
needed. Sloppy about cleaning up.

Banana Crew:

Danny Kutulus: Honest evaluation of himself - saway from crew.

Conni Fitch: Wrote her own evaluation - says she complains a lot
hostile and bitches. Commended for homest evaluation of herself.

Wancy Sines:

Teresa King:

Pat Rhea: Doesn't work as hard. Talks. Wants to go to electrical Department.

Gary Tyler: Not enough work to keep busy. Spends time trying to look busy. Dad said Scott sent regards to Gary with a warm feeling. Charles Marshall: Good worker - quiet.

Rosa Rugerio: Needs to pick up pace.

<u>Aleda Santiago</u>: Working goed - pick up s pace - lot of talk. <u>Chance</u> Given a warning. Some say she's goed since she's been back from Learning Crew.

Tim Knight: Working with coals with Freeze Dried.

Dad said crews should cross-reference with other crews for better evaluations.

Tommy Bogue: - Wasting time going to and fro.

Loretha Buckley: Chance

Summary: No one feels they will be on the crew for long. They plan to move on to other skills - not interested. Some days they are late starting and poor planning. Dad said he wants scrutiny. Supervisors are to push harder - don't meed the good guy role.

Other medical comments: Doctor made someone cry - yelled at them.

Colis Boutte:

ときなるがあるとなったというというというないない

Barbara Farrell: Doesn't follow through - will sit until given next assignment.

Ruby Johnson: Does her work, but doesn't associate with rest.

Joyce Parks: Slew to see weakness.

Sharon Jones: Cooperative - not medically orientated though a nurse.

Loretta: Overpowered by Ira/ chart findings not done. They will

be getting things in shape.

Sylvia Grubbs: Yelled at by doctor - started to cry.

Luns Buckley: Good worker - doesn't attend class.

Sue Gerald(Knots): Concern about her taking stethescope. Dad asked her if she had a history of kleptomania. She said no. She said she's taken asprin before and bananas. Blood pressure cups. Hard worker Dad mentioned that 109 pieces of silverware had been found under dining reem.

Dad asked about who would be responsible for silverware count - Remos McMurray will do this.

Steve Addison: Wants to be lab tech. and study hematology.

Ruth Lowry: Good but deesn't come out much.

Don Pields: (Phellis will give him his evaluation orally)

Phyllis Chaiking Bays che needs more erganisation and communicate with Judy and Rence more.

C-11-d-10;

Annie Moore: Defendsk self - hard worker - didn't take action in certain situation - complains about Don but doesn't confront him.

Judy I.: Passive - snotty, but tries to keep it down.

Liz Rugerio: Absesses didn't get best attention.

Joyce Rozynko: Hard worker - temper.

Lois Ponce: Critical - developing an alliance with Shirley Fields.

Dad asked about this. Shirle says they have discussed cases they have been working on. Leis wants to work along too much.

<u>Dee Dee Macon:</u> Works well - doesn't participate in needs of patients. Doesn't notice enough.

N. Darns. Works well at night. Asked to help take seniors to service can make better use of extra time. - <u>Warning to keep violence down</u>.

Renee Kice: Good on treatment table. Confronts Phyllis on valid points. Relates in an alliance.

N. Darns &

Constance Harris: Warned about alliance - cool it.

Healings:

Two were called out:

<u>Easel Newell</u> - problem with kidneys - will be taken care of. Hazel was in the kitchen at the time, but Dad said he would take care of it.

Mary Bailey: Dad called out one of Mary's children's names. He saved two of her children's lives.

Dad mentioned that Lew did not hit Raymond McKnight as there had been some question on today. Raymond fell off the porch. Dad added that Lew takes a let of time with Raymond is is very fond of him.

P.A. Amouncements: 30-12-77

Therman Guy: -Beth playing around - threw shoes en reof in cottage Chris Newell: Could have ruin reef when they climbed en it.

easy to live without the promise of a definite future, although nothing is guaranteed. Animals are fortunate to know the dangers which exist. Humans have the same dangers, but believes in divinity. That's probably why it is said "ignorance is sliss." he doesn't like living in illusion. People are living in optum -- no such thing. The night has millions of eyes. This planet has nothing significant at all but through a socialist adaptation or evolution of the mind that can do some phenomenal things. All within demands of evolution of the humanoid family. And doesn't like the illusions that some have. Some write things to Dad. Some say let's get hold of Russia or thing - to take our people to Canada and then move them here.

Dad said its an international thing but it doesn't work that way. But we got more commitment from Russia than others. rask (a Russian) newspaper; has 38 million readers and they have said they will take some of our people. Russia's head of immigration's brother came to our S.r. remple in support.

pad gave some statistics about nuclear war and the number left: 253,000,000 out of 367,000,000 people. The U.S. 1,000,000 out of its 220,000,000 (if they get on with the defense plans that they never got off the drawing board.

pad said when we were in our crisis and the leaders of this country were out signing the Panama Treaty and the man left was procia wanted/tried to do us in. They sent in an air plaine to accommodate our enemies and we awaited our death because we were pushed to the wall beyond/any human people could be expected to endure. And said if Charlie and others had not followed his suggestions very closely we wouldn't have been here. It was all in the plan to have the leaders out signing the treaty in order to return the panama Canal in 30 years to its rightful owners. Those who invited them knew what they were doing. Dr. Mingle said we made the difference for socialism because we stood and wouldn't be pushed/moved.

U. S. didn't recognize Oliver marriage. They wanted them delivered to weargetown. Dad refused as always on the principle that we would rather die. An officer from the suyana roreign Min. Justice Dept. can come and talk to them along if they want. They will find out if they are happy and if they want to see their parents. Suyana thinks they

might try to slip in on their own. We can't let them in. we would have to let all the vial trash in for the next 50 days. They even wanted us to pay their way in. We said no . The Uliver's didn't get anything out of it but a trip and a hotel room. They had \$40 on their person. They have been operating with the UIA.

and asked how many have planned their death. Some raised their hands. usd said he didn't see wois' hand. She said she planned to be blown up in a million pieces but didn't know it would be here. Mis. Talley said she just hadn't thought about it. Bad asked her didn't she think it was time. She said she had some insurance once but her husband stopped paying it so she just didn't think any more about it.

Dad said sruce and silly are like is own sons and he also mentioned that the attorney had said he would write a good story if we delivered them, if we didnt we would be blasted, pad told him to kis my ass. Maya 1. asked what it meant to plan your death. Dad said a person has to think through their death or they may sell out. if you are 19 you are dying anyhow. four cells are dying at that age. Dad mentioned that he is the only one that can bring people back and give new life to dead cells. People here are in better health. When people come in from states they look blouted.

Dad said if Grace S. was an ordinary woman she would want her child happy, but she doesn't care about him. Anyone can see he is an obviously happy child. all shildren here love animals. Dad said how miserable John was with wrace and that at the age of 2 he wanted to die. John hates capitalism and loves socialism and speaks " of it with every breath.

2- Dad mentioned that Tim had asked him to save grace from committing treason.

und says he doesn't know if

had. He said some sure get quiet when he talks about death. Dad said drowning is easiest way to die. Dad mentioned he was Lenin before and had 10 years of rest. He said not to commit suicide because he's seen them come back.

pad told Partake to write a letter and said he could go. Told him when he got back don't cry to Dad. ne said when he was put in jail they chained him to-the-bars because they thought the bars wouldn't hold him.

Dad told us that his plan was to ask mussia to take us and since the u.S. had provoked John's papers - he didn't know if mussia would take him, but if not he would stay here with his son and die.

cotel butler asked if you didn't want to go to Russia could you stay here. Dad said sure. He also said would have to take in to consideration the weather for some as the temperature gets low and some seniors wouldn't be able to stand it. Carter is heating his ewimming pool but asking others to keep their thermostats at 65. Dad said Lisa Layton told about when she was in school how she refused to say the nitler slogan.

pad's blood sugar is back to normal now. Death makes him liberated. pad said by the time we get a quiet night someone does something.

Dad said people reject you because they won't look on the inside but only at outward appearance. Some are so afraid of the law. He used the army band and told them he was talking now. He asked someone to give us a home or we would die here.

Bad asked what would we do in the government served us papers

We are suppose to get a freighter on the 29th.

tomorrow?

The Foreign Minister said if I didn't like you...and if our group wasn't as productive as it is.

Dad said some of our people are 3-day wonders, you work 3 and rest 3. He said we work we don't play. Foreign minister said he never had anyone tell him they are like a tree and won't be moved. They do like our productiveness. Dad remains optimistic.

Dad said delen Swinney said a rest a man in Georgetown he has one or our crates, The main was sold the crate by Revena & Patty.

Dad sad we had two offers on our L.A. Temple. One will give \$175,000 down and \$345,000. \$150,000 and \$285,000. \$175,000 on church and apartments \$50,000 down and \$250,000 total price. If the church is sold, L.A. Temple will cease to exist. We also got an offer on the children's home.

Dad said old-timers might fight it out and send the children to Russia. We built this land and we won't give it up easy. If we fight it out no one is going anyplace.

Dad wants those who are afraid to die to be counseled.

Dad said that Bruce had commented the time we went on front line that at first he was afraid to die, then later wished he could and beforeit was over, he didn't give a shit one way or the other.

Rhonda Page: Dad said she worked hard and diligent and even pushed Denny when she was going slow. (Best example is for leaders to get in with the crew).

People are getting a break because tonight we are looking at death.

Santiago Rosas: Attitude much better since trip to the jungle.

Nawab: Last 2 days worked on his break. Off learning crew back to school.

Santiago Rosas: Off learning crew, back to kitchen with pots.

Jair: Attitude real good. Off crew back to Marie's crew and will stay in area he likes at night.

Johnson, Garnett: Off crew will go to the piggery.

Dad asked that people keep after the flies. He's ordered 200 fly swaters. We need to do something about toilet. Something was said about getting a tank with diesel. Senior said breather was stopped up. Charlie says it isn't stopped up. Ray Jones will make a small one on top.

Sly: Said to put fish guts in tank — would help kill smell.

Lucy Miller: Dad had given the initials L.M. a warning the other
night. She is picky with food. However, she's doing good work out
in the field clearing and gardening and because of that he won't bring
her up, but asked her not to make any fuss about food. She had made
a remark about hair being in the food. Dad said don't worry its protein.
Dad asked them to check with Georgetown to get a movie in here. We
are going to eat meat on Christmas Day, a ham. Dad asked Eva P. how
much meat did we have. She said midlands (1 side of hog) Dad ordered

6,000 lbs. of meat. Some asked about smoking the meat. Bro. Jeffery suggested using green wood to do it with. Rose Shelton took a sweet potato leaves and made a good smoke. Laflora Townes said don't let pregnant women around the meat. Irene Mason suggests the same thing says they'll mess it up.

3-11-0-1

Dad said it cost \$700 to feed us tonight. Dad said you can never please some people. Dad said each person that complains their check hasn't come in 3 months and they may die before they see another check. Dad said millionaires would be glad to have what we have and would give all their wealth for what we have. He mentioned the mericle about Diana McKnight who was passing her kidneys. The medical care along people would gladly give a fortune for.

U.D. & L.M. were given warnings to be careful saying no more about food. Dad said next time they will find themselves on their back. Dad said when he lifts protection it takes people days and weeks to get out of it. They should be very careful.

B.C. given a warning: Someone complained about the soap - - said it hurts your hands. Dad said you can't have a better soap. Dad said everyone was to use the soap when they come out of the toilet. Also B.C. wouldn't put any on her hands. This was pointed out by magnolia. Says this person also works in the kitchen as well.

Someone telling stories about getting someone pregnant. coordinators said that person needs to get their work production up.

<u>Santiago</u>: Still acts — clothes dirty: Dad said he must like the Learning crew. Dad asked him did he love to take up our time each day.

me said he doesn't want to take Dad's time andjust whatever he decides. Dad told him how can he possible want to cause pain.

Might in the mist of a crisis and ordered ribs and someone has to fuss about It. People don't realise. He only concludes they are saddestic. No joy for Dad just pain. If you wheel authority people hate you.

Only thing you can get is a cutles in your nect by a woman. Another attempt on and's line. Dad said he wouldn't want to be paralized for someone to take care of him. Dad asked for ideas. Santiago said he felt guilty about it. Marshall rarris said then why don't you keep your mouth shut sometime. Some said take him to the jungle. Dad asked Nawab if he thought Santiago should go. Nawab said he had to go so Santiago should go to. Jungle for Santiago.

Aleda: nas picked up her work -- good attitude - working with some disadvantage - still wines and looks sad -- but better. Off Crew back to manana crew.

Mawab: Work good - attitude fucked up -- didn't want to take a shower - had to be forced. Dad told him that every time he defies

C-11- D- 146

authority the more force he will use to equal his force. 5 children came up and socked nawab. Dad said he should worry about the fact that each night he takes up our time. Dad said that was nothing compared to what he will get if he is up here again. He stays on Learning Crew.

and the second of the second o

David Goodman: Goes to albert's crew - 3 days had good report.

Elli Beam: Work poor but last few days work was good. Good
attitude. Has made an attempt to work hard and has helped clean
dorm. Al said she got special treatment in living quarters. Aleda
explained. Dad said good enough - She's off crew will go back to
Jan's crew.

Dad said something caused rim Stoen a slight mental disturbance and he said he had been fucked by Jim Jones. Gary said he just killed himself in the legal profession for the next 50 years. pad said in 24 hours nothing traveled faster. Everyone is laughing about it. He killed all his hopes of ever holding a responsible position anywhere. pad asked had mother told the S.F. Temple about John being his son. They said yes.

Marcus anderson: Attitude fair. Work needs to be better. Clothes dirty and dirty underwear. He had shit in his underwear and wouldn't say he did it until they took him to coordinators. Dad asked him why, he said he had worms, now do you know you have worms - he said because he had blood in the bowels. Penny said the nurse asked them to find out. Penny took him to nurse' office. Penny said he had worms in front of him which lead him to think he had worms. Penny didn't follow through by bringing a stool specimen in to the nurse's office. They asked her if she had worms would she have follow through. Penny is to go to Learning Grew for 1 day. She will be replaced by Willie Malone.

Darren Swinney: attitude poor - work fair. Back to the jungle. Daren said he had been trying to work hard. He said people had been talking to him and he had tried to ignore them. Said he really has tried to get off of the craw. Saids he knows he could change if he wasn't on the craw. He said its not a laughing matter. Said he told wabby that, he feels he is ready to come off and will work harder. Said he will work after-time and will work real hard in his school work and knows he can change. Dad said if parren works as well as

C-11-d-14c

he talks it would be nice. Darren says he does need some homework. parren pleaded his case to the very end. Says he would work better if he was with Pat. He likes Pat. uad said why didn't you treat her nice so you wouldn't be in this mess. reels he would treat her nice if off the crew. Dad asked Pat and she said she can't remember a significant change in warren. Darren continued to talk. me feels if he was along with rat he would do good. reels he could learn more. ... rat said some do work better along. Some are distracted easily. Darren said he and wawab have had some conversation rat feels they have been in cahose . Fat said they are starting a half way house as soon as possible. Just a problem with housing some will have to move. Then there will be room available. Perhaps Joyce could say. Joyce said in a couple of days it would be ready. pad asked nawab should Darren take a walk. ne said he didn't know. poesn't know if he should. Bad said but he said Santiago should go to the jungle. wad asked why didn't he want Darren to go. Then mawab said he feels Darren should go to the jungle. Dad asked Nawab if he really meant that he should go. Wabby said yes -Dad asked why, Wabby said because they said Darren hasn't been working. If they say it then he hasn't been working. Dad asked Wabby why, Wabby said parren talks so much and tried to get him in trouble the other day. Dad asked him why didn't he remember earlier. Wabby told him that Sebastian had said he would remember. Wabby stuck to his story that Darren should go. and kept asking him if he were sure. Wabby said Santiago had to go and Darren got back on the crew and had been off. he suppose to be working harder. Dad said that's a point. Dad asked Wabby would be feel good about him going. Wabby said no but it will change him. Asked Wabby how does it make you feel. Wabby said he doesn't like it - know what it was like and said parren will be crying when he gets back. Lad reminded him he was not to talk about it. Dad said he was testing Wabby -und said it was clear that Wabby has conscious. Feels psychologists were wrong. Dad asked Darren again. parren continued his story. Then Dad said if Darren had said yes he did wrong and Darren attempted to involve Danny Beck. Larren went to the jungle.

He's been talking openly about homo-sexualty. Vincent challenged him to a fight when he got off the crew. Dad said Vincent was out of line for doing this. Dad asked Partake why aid Vincent bother him. Doesn't really know. Lad read something Partake had written that was difficult to understand, Fartake told Dad when he was counseling with Sharon that he liked to do segments. pad asked him how does he see himself. He said sad, self-centered and deranged. Says things come to his brain. Dad said that's because you're not tirde enough. Dad asked Partake where he was. ne said Jonestown. Where's/that Port Maituma. Where's that and Partake said South America. Dad asked him how far from venezuela he was and what kind of animals were here if you leave this protected area. rom said crocodiles and boa constrictors, he didn't know all of them. A Kamote is a kind of boa constrictor. wad mentioned that that was another mericle that none of us have been bitten by a snake. pad asked Partake if he would like for rom Grubbs to help him with his problem. He said yes, approved.

Sebastian and Ben: They'ved changed also

Janet Tupper: Improving

Jair: poing better, good attitude - positive. Good Day.
will be with Penny only at night and with workers in the day.
Dad asked if anyone had a question about any one or anything.
Toddler workers are to get their situation resolved.

pad asked how many felt the conspiracy will force us to a fight. most said yes. Some said no. mad asked why one woman din't feel that way but she said she didn't quite understand what he meant. Dad explained when we first started having trouble when he was shot at with a high powered gun. he said he had laid something on the dresser and backed off when it happened.

Santiago came back crying and said someone tried to kill him.

He said "big foot" tried to put him in the water. Said he didn't

want to go back. Lad said that Santiago wasn't acting. We don't

have mao's method, Dad said, but we do have something when people won't

respond.

Larren: came back and kept crying saying no over and over again.

Dad said some think they are too good to work back there. uad asked how did we feel about this way (method). James Edwards asked how does the Motons feel about it? Russell said whatever it takes and his parents said they feel whatever has to be done. when Moton said he didn't know what the young men had done. He feels that they should be punished. He says if should be given out by a specific group. Judge or counsel. Johnny said, but that way it would be in the hands of a few. We want everyone involved in this kind of thing. Some might say they weren't in that group that made that decision. Dad asked when if he believes in the jury system_ or court system in the U.S. He said he'd never been in no trouble with the law. ne was asked again. He said he doesn't believe in the court system. He says the court is always for the properous fellow. rhe jury can be bought. Bad said that is the same reason why you should be hesitant about 3 doing it. There will be those who will not participate. Dad said the best demoracy is a people's democracy. Dad gave an example. Dad asked him if there's any situation in which death would be called for. ne said definitely so. reels that certain crimes people should be put out of society, but he doesn't believe in capital punishment. Russel reminded his dad about the gun he use to have and how he once had a knife and said the gun has put the knife out of use. Glen said he wouldn't use it. Dad told him if you were in the service you are taught don't show a gun unless you intend to use it. Glen said he would use it to slow some down.

Harriet (sarah) clarified a point of law for Bro. Moton regarding if someone is shot on your property — not advisable to drag person on property if shot — would entail more problems. Dad asked Glen what capitalism was. He said it means the rich owns everything. What is personal property — home or your car. We do away with every personal property except our bed and clothes, but communism doesn't take your home or car away. But we offer far more here. Dad said he would like to see the means of production extended out. Dad said he wouldn't want to own a car or a house. More worry to do so. Even in socialist countries you end up with taxes on it. Dad asked one senior what personal and private property was. Dad said that one man said he would help Dad because he had helped all political persons around the world. Dad asked what is capitalism and communism. What is the difference between socialism and communism. Sis. Snell said socialism

C-11-014f

is when the means of production is owned by a few (wrong meaning):
Communism means community (means togetherness) What's the difference.
The major means of production is in the hands of the people in socialism. Moton says he always taught his children that the U. S. was going to be communism. Dad said but before that it will be fascist. What is the means of production? Joyce Parks said land labor and capital. When do you become communism. When you don't have to have people watched and when everyone is good because it is right.

Dad said that a young couple's 2 children were shot by the cops for no reason. The children could have been here.

<u>pictatorship of the Proletariat</u>: means he is dictating the will of the people. — if not he is a revisionist. If he goes away then he's a demagodry). Dad said Lynetta had a saying on her wall "Where love rules, there's no will to power).

People should report anyone making fun of those on Learning Crew. Report anyone calling names.

Dad wants to test everything on our menu. Wants to test what they cook. Dad said he doesn't want clicks. If we want to put someone in the radio room we can. Some are in because of years. We have tried others but they couldn't keep up with the codes.

Dad said he would be giving quick judgments - whether seniors, young whatever will go I day on the work crew.

Karen Layton: She wrete something up to dad - she went on the work crew. It was too late to bring the matter up 1 day

Tim carter gave and a note from Laren about Kim and Larl Barnett. For doing this he went on the work crew - 1 day.

Dad collapsed due to the below 45 point sugar count. pr. Schacht, surse Practitinner Parks and others helped to administer oxygen and medication to Dad. Johnny asked everyone to stay seated and called for S.A.T. to come forward. Everyone was quiet while and laid there. Dad began to talk while they centinued to administer, to him. Shortly after that pad got up and said Larry had explained that Dad's was a painful stroke which causes bleeding of the brain. When pad laid there he wanted the microphone, but it wasn't working and he said you would know it was made by capitalists after first thing and said when he go up was now many are afraid of death. Pad said its nothing to be afraid of man said has was sorryh he atruck out at the last two but it could have waited. Dad said the children wouldn't be hurt

by I day work. Everyone had their fair warning that they would be on the crew. It was stated by the teacher that michael Jones was a hard worker in school and loves to go on work crew projects - he tries hard in school work. Earen said she doesn't find him a difficult child to deal with at all. She reels aim doesn't like him and some of the other children.

Pat grunnet says elliot rardy works well - finds it hard to work with a group. Teases others for attention. has made great improvement from being here, change couples or half-way house to be implemented. Dad said rim and Pat are to work on work crew during some of their work hours.

uad mentioned that he had a great desire to get people out of service early, but it wasn't carter in particular that caused the problem.

agnes Jones said michael gave aim a hard time. Farents don't want michael moved. They asked Kim if she likes Michael. Aaren said she never shows warmth for him when she picks him up. Dad said she should have communicated with Kim. Fault rests on Aaren for bringing it here without going to Aim.

Dad said his opinion is that we are a long way from being ready to die. Dad said that most want to take vengeance on the enemies. (The Stoens and Myrtles). In 5 weeks there have been no attempts on mad's life. Not sure they? have been attempts on his life. You never know what a mercenary will do. pad says the main purpose has been to harass us and counting on us being so americanized that we'll keep so busy taking care of our own program that we can't expand. shootings have not been aimed at Dad. Kidnappers came with handcuffs. The system doesn't want-to attack us because they can't handle what they have now and cant have the american parents fight another war. Chile is in a bad state of affairs and they can't do anything about it. Argentina is another one they can't do anything about. America couldn't stop Angola and the cubans they let them go on and win its victory. Dad feels it would be an even loger day before they would come in and do anything with us. The prime minister keeps a third world view but doesn't line up directly with a major communist party. carter has given Guyana several billions of dollars of aid. Obviously he doesn't want to get into a war. It would be silly to think they would want to provoke us on any act. It would embarrass the government that

C-11-0 - 14h

.

they have already established trade with. Two parties: PNC reserves the right to trade with all communist nations but won't line up with any particular one. PPP is lined up with Soviets - more Soviet orientated. No right wing to work with here and and even if it did, we have the people.

pad said he's not about to die but don't press him. People test him to the very limit. These children wouldn't be hurt by 1 day's work.

Dale rarks is on his way. He was on a mission. Sorry that that was necessary. Lad said the U.S. won't come in here and people underestimate his own power. They know they will have to deal with some form of communism. Lad said They invested \$7,612 million in our land and water development. Anybody can leave, we are not worried about it. The government doesn't want him dead because if something happens to Dad they know all hell would break loose. Some person low in government said whatever happens to Lad would depend on how the people will act.

Dad asked for questions. Dad said to kill him or to do anything against this movement would be a blood bath. There is no way to eliminate us without a hell of a lot of noise, we've proven that. Dad mentioned the things that happened when the leaders were out signing the Panamanian Treaty.

reople who raised their hand who were afraid of dying:

Barbara wavis, Santiago, renny, Bev wivingston, **To**i vonsdale,

Sis. Hall, worice wackson, .

which is most painful kind of stroke. Dad said we are not in danger. Dad won the battle on the r.A. system and the front line.

pad bought us 4 radios for communication. They want to drain mad. They feel people will be complaining. Dad said the government will stand by him on Johns issue which shows a lot of spirit.

Films

(

Johnny asked about the films; said it was noted; did not make any commitment. Linda and doctor to be sure "there" next time.

Self Respect Comm-PNC- Lee and John J. on advisory board; have prog.
started for making money. Sold thru Guyana Marketing
Corp. Isaac (from trees felled) got 3,100% sacks
coal Ministry of Economica, Foreign & Cooperatives helped him export..

Kiln

Starting with same type of wood we have -- trees will be planted meeting of 25-26 Feb. 4700 must be raised for our area. Will start selling "Nation" newspaper. Do not know whom coal sold to getting it to Cuba..

Billy Watkins

JJ mentioned Billy watkins; child has feet too big for body; shoes not fitting him --JJ noticed hew as not walking right. were way too big. Somany children in their house - lives with Sebastian and Dorothy. Debby Blakey to talk to Penny on this. Debbie assigned to see what is going on in the home that this was not noticed.

Warehouse

Not checking that the shoes fit. Hereafter the teachers are to check children's feet. Will take care of this in the school in the morning.

Mingo

got word to us. Obviously it was good we let all of them know what we would do. The Ambassador went to Stoen and got him to admit ***XXXXXX lying. TCS denied that it happened --when it had! Wills said, "You people have a well organized intelligence..."

Want the papers canceled; we get it from 2 different sources that TOS limd. U. S. Consul warned him not to do anything else to us.

Lee

Mentioned taking bakery things up with him (to Ridge?) J agreed it should be done.

Sylvia Grubbs

Liz asked Sylvia is she was on PC. Sylvia said, "No, you have to be trusted to be on PC." JJ said, "she didn't want to be trusted..."

Agreed she works hard. Dad said let it go... Im did not

Agreed she works hard. Dad said let it go...im ald not want to be with her..He was tending back toward Wanda.

Machinery

Cleve's lathe rusting, Cleve told Wish. J said it should be out of the field and in where he could work on it-asked Like and Charlie to get it in. C-//-d-/5a.

(over)

Vallium

Larry gave Don Fields.vallium for nerves.. later some Vallium 10 replaced by another drug; we believe Don responsible, said Medical people.. He asked Darry for 20 and Larry only gave him 10.. Could also be Sylvia, it was agreed. Day of alert, Don Fields miss elabout 10 people's antibiotics.. JJ felt shirley's write-up was very stoic. It was mentioned that when a ball came toward Don, he pulled his little son Mark in front of him. J said to bring him up.

Darvin etc.

These tranquilizers, as well as other drugs to be counted and locked up. All agreed. Phyllis will see to it. Lois mentioned that in case of Juanita Green, Larry had ordered 50 u a day; Juanita said Don told her Larry didn't want her on it.

Shirley told Karen Layton Don had told her not to turn in her drugs. Shirley is talking a lot about she is being put-upon... Today said nobody would share resp. with her.

He gave vaginal cream up ass for works; Gave Naney Sines double dose of work medicine; Is very careless;

Phyllis said in fairness, when he works, everyone is yelling at him and it is very hard to concentrate. Hard to handle medications under these conditions.

JJ-don't leave him alone when medical team visits. Phyllis Chaikin saidokay.

Dad instructed not to pressure Larry so.. do not ask him how many he sess. Is doing a lot for JJ.. Lois felt Larry should get reports on the patients that others see -- felt he does not have time. He sees all information that is critical now.

Larry feels that others could sew up "simple" things.. Feels pressured, because J is pressing on him to do things vital to our security.

J said other med people need to be under more responsibility. Phyllis said Larry won't delegate to the practitioners.

Joyce Lund

Judy Ijames said Joyce Lund scking crazy; out of hormones; goes berserk; slams things around..undermine: Larry all the time-takes all her time off..

J-she talks rational in pavilion in time of war, so is obviously a manipulation.

Joyce said to Darrel Devers when annry, "I hope your head gets cut off." Darrell told Joyce rarks. She wanted to go way out in cottages..

PC Input on readings

Items the pc liked and recalled as very helpful:

--On the various agencies of government; what they have done; Senator Church's committee, etc.
--Revolutionary and guerilla warfare, techniques and experiences; units on revolutionary figures
--revolutionary personalities, Geo & Jomathon Jackson and Che Guevara.

(Snacks & coffee) to be ordered for PC in future JJ said.)

--continuing on comments...

--Atty general to investigate LA police for treatment of minorities.
--Would like to hear articles from good magazine on what

is going on in Africa; news bulletins in liberation struggle. JJ COMMENTED WOULD LIKE SOMEONE ELSE TO GET ON THIS...IT IS EMOTIONALLY DEPRESSING FOR HIM. Like Mozambique invaded; majority of 17-1, but still lost...—Would like to hear Glass House Tapes portions on Geo. Jackson read.. (White attorney that gave Geo the gun never again surfaced.)

- Harriet to do something on Viet Nam history..where

French coloniasts were in power, US got involved, etc.

--Andrew Young compared to Joe Louis and Jackie Robinson;
needs to get home to our youth; a tape was NOT made...

--Suggested to tell "who" the revolutionary figures are
when first read their names: tell "who" Andy Young and
'Che Guevara are..many don't know all the revolutionary
and otherfigures.

--People got insight into system when JJ read on Johnsthan Jackson case, where San Quentin Guard of 34 years told of orders to kill whemever was in the way but not let hostages block them from CAPTURING escaping prisoners.

--Danny Eutulas commented it decreases his production between 5-5:30 when workers stop to listen; but on other hand, Laura Johnson commented that where she used to get so discouraged with the discourse in fields on what people "used to do in states" etc...they now discuss revolutionary thought and she feels that production has increased because of this.

--Patrice Lammba was a good one...

(Hitler did his indoctrination speeches at the dinner hour and around 6-7 pm; workers were home eating and their resistance was lower -to change- so easier time for change.

Dear er. dallı

Today I received in the mail an envelope containing photos I had submitted to the Century to accompany an article I had submitted somewhat earlier. There was no note of explanation, nor have I received the manuscript back. I do not know if the manuscript has been rejected and if so, if there is a reason for its not being returned (insufficient postage?). I would sincerely appreciate hearing from you about the manuscript. If it is indeed the case that it has not been returned due to insufficient postage. I am enclosing some international postal coupons for that purpose.

Thanks for your attention to this.

Sincerely yours.

Dear ps. Backstrom:

Thank you very much for your letter of agust 31st. I sincerely hope that the enclosed manuscript and photos will be suitable for publication in the <u>Journal</u>. Flease feel free to edit the manuscript as necessary. I consider the manuscript to be only a very brief overview, and you may want me to add material in certain aleas. Please write me if there is anything more you may need from me.

You do not have to return the manuscript. I have, however, enclosed international postage coupons for print returns. There is already considerable international interest in Jonestown, and if the enclosed article is published in the <u>Journal</u>, I would like to be able to circulate reprints to many nations. Also let me know if you would like additional photos or photos on specific subjects, and I will try to accommodate you. Thanks for your interest.

Dear Ms. Kaswan:

Thanks for your letter of October 11th. I sincerely hope that the enclosed manuscript and photos will be suitable for publication in Green Revolution. It's a little long, but feel free to edit it down however you wish, change the title, etc. I consider the manuscript to be only a very brief overview, and it has been hard to keep everything down to article-length dimensions. We are currently preparing a book that we hope will make an impact -- Jonestown is a very unique and exceptional story. There is already considerable international interest in our co-operative, and if the enclosed article is published in Green Revolution, I would like to be able to circulate it to people in many nations. If you have any questions or want more or different material, please contact me. Thanks very much for your interest.

By the way, the fact that there is no honorarium is absolutely okay. It seems that so many who are doing good work are having to struggle along. If what I have to say about Jonestown brings some hope and encouragement to just one reader, we are well-paid. Best of luck,

Sincerely,

Richard D. Tropp

Dear Mr. Tropp:

Thank you for your recent letter and pamphlet about Jonestown. It seems like a most remarkable place and we would like to see your article about it for possible publication in the Journal...but only if the Jonestown tenants eat only locally grown foods. If that is the case, please do tell us about it and other aspects of their life, and we would be delighted to review the article for possible publication in <u>East West Journal</u>.

I am enclosing a copy of our editorial guidelines for your reference. Are you familiar with our macrobiotic focus?

Sincerely,

Dear Friend:

Thank you for your interest in East West Journal. We hope you will look through past issues to see the subjects we tend to cover.

We publish articles that show wholistic common sense rather than dualistic analysis. The style preferred is simple, concise and personal. Emphasis should be on practical and constructive alternatives, with avoidance of an aggressive or critical tone. Prose must be correct. Please avoid faddish phrases and human potential jargon. We do not solicit poetry or fiction.

All manuscripts should be typewritten, double-spaced, with sixty characters to a line, twenty-five lines to a page, and should include a brief biography of the author. The deadline is the last Monday three months prior to an issue's publication (for example, April 26 for the July issue). We pay between 4¢ and 8¢ a word upon publication. Length should be between 2,000 and 6,000 words. Please include photographs or illustrations whenever possible; payment is contingent upon size and use, and ranges from \$15 for a small black-and-white (which should be glossy and no smaller than 5" x 7") to \$150 for color (which should be a transparency and is used only for the cover).

A kill fee of 15% is paid if a commissioned story is not accepted. We pay expenses only when pre-arranged. Please do not request passes, tickets, or review copies of books or records in the name of <u>East West Journal</u>. We will make these arrangements for you if we wish to have a story on the subject.

We prefer submission of a clear copy which can be marked up without having to be returned. However, if you wish the manuscript to be returned, please enclose a self-addressed, stamped envelope.

If you are interested in writing for East West Journal but have no specific articles suitable at this time, please send samples of your work, a résumé, and your areas of interest. We look forward to hearing from you.

Sincerely,

Vera Backstrom

Dear Mr. Tropp:

Sorry to be so slow answering your letter.

Jonestown certainly sounds like an impressive place, and one from which we may have much to learn. But I should begin by telling you that doing ti! --or Humanizing City Life, as we renamed it--had to suspend publication. We are, however, not completely dead. We have sort of merged with another alternatives magazine, Green Revolution, which has been around for 35 years. They carry a few pages under the Urban Alternatives heading as a sort of Newsletter for us, and in addition I serve as a contributing editor. However, since they are in eastern Pennsylvania (Tork) and we're in central Ohio, the association is somewhat lacking in intimacy. So far there have only been two issues of GR under the present arrangement. The situation is somewhat tentative, but I'm pretty confident that material I submit will be published. GR is going to our subscribers and is the publication our members receive with their membership.

I would be very interested in a story about Jonestown--1500-2000 words. You understand, of course, that there's no money for honoraria. But GR is quite a respectable magazine and is read by many activists in the alternatives movement.

I hope to hear from you. And good luck with your projects.

Cordially,

Ruth Kaswan

C-11-2-6

In the remote jungles of northern Guyana, over 1000 Americans have carved out a sprawling co-operative community on one of the world's last frontiers.

24 _

They are members of Peoples Temple, an interracial civil rights church organization, led by Rev. Jim Jones, a socialist. The multi-thousand member Temple has had a stormy twenty-five year history in the United States.

₩ 33

"We've been under attack for our stands on social justice, and for our attempts to create a society totally free of racism, based upon economic equality," explains the vigorous, outspoken 47-year old Rev. Jones. "Even though most of us are poor, we have managed to save and pool together enough to bring this community into being."

Anyone who comes to the community (named Jonestown by the Guyanese), recognizes right away that something phenomenal, perhaps unprecedented, is taking place.

A thousand acres of cleared jungle are producing well, and feeding the residents. Colorshl cottages and community buildings, carefully maintained and landscaped with fruit trees and decorative fencing, are framed in a peaceful setting of rolling fields and orchards. Public utilities, extensive and sophisticated medical services, and a full educational program have already been developed.

An amazingly diverse amalgam of people havemade the 5000 mile journey to pioneer in the tropics: a California pharmacist and his family; a country musician from Alabama; a man who worked as a brickmaker for half a century, and his wife, who managed a

-56 -65 -72 Is

convalescent hospital in Los Angeles; a former Navy drill instructor; a writer for the Black Panther newspaper; a former State College professor, a syndicated astrology columnist, a poverty-program co-ordinator, a big-city legal secretary, ex-ministers, ex-convicts, an airline pilot; a successful kidwestern salesman; a shoe repairman from Camden, New Tersey... and hundreds more, many of whom had only a dim identity in urban ghettos, (holders of a thousand odd-jobs that helped patch together the tattered garments of survival.)

Then there are the children, mostly city kids, and a few refugees from suburbia and the emotional tyranny of parents who didn't understand their longing for something else, something more. And, of course, the hundreds of senior citizens, all brought together by the fiery, controversial Jones who himself started out as an angry yet sensitive child of the Depression in rural Indiana.

Several home-made 'industries' have spring up. A feisty 103-year old, Pop Jackson, makes furniture. Another old-timer has perfected a soap-making process from local materials, and a factory has been set up to produce it in quality, under her supervision. A number of residents are engaged in toy and clothing manufacture.

Ingemity and resourcefulness characterize Jonestown. An outstanding example is the work of 32-year old Don Fitch, the wizard of the community machine and welding shop. From scraps, old parts, and practically anything else, Fitch (known as "the Doc") fashions all kinds of useful gadgets and accessories, from wheelbarrows to pancake griddles. The improvisational technologist is currently perfecting a huge mass of pipes, chambers, and ducts --a "smoke generator" -- which will convert wood smoke into fuel to power a gasoline engine and save the community thousands of dollars.

C-11-E-76

Heading the teaching staff is a veteran in helping children overcome learning disabilities. Tom Grubbs. A creative manufacturer of educational materials. Grubbs has developed an array of homemade interlocking wood puzzles, board games, and special types of blocks that make learning fun and challenging. Primary-level classes are small, emphasizing expressive skills, and the fully-accredited high school uses the community as an open-air classroom, training ninety students in over twenty different fields, from veterinary medicine to mechanics to food processing.

On one occasion, a science class discovered a deposit of a white substance, analyzed it, and found it to be a high grade of fire clay. It all led to the establishment of a fire—and construction—brick factory, now in production. The development of this "indigenous technology" has attracted wide attention and may even resolutionize building construction in the region.

In the huge food-preparation facilities (3000 meals per day, plus snacks, special dietary meals, etc.) new specialties and delicacies are frequently cooked up.from locally grown products. Many jungle teas, herbal and medicinal recipes have been concocted. The diet is balanced with a variety of vegetables, poultry, fruits, and even whole-grain rice (a non-paddy variety), grown right in Jonestown. Nutrition levels are high, (as witnessed, for example, by a visiting head of a Guyana dental school. He examined 87 children and found a total of two cavities.)

The 65-member medical team has helped upgrade community health levels in surrounding ateas. Up to three hundred people a week, mostly Amerindians, come from as far away as fifty miles by cance and on foot to get treatment at the Jonestown free clinic. The young project physician, Dr. Laurence Schacht, who is now training a team of young "barefoot doctors," has done significant work in prevention of parasite-caused diseases, and has consulted with scores of physicians in many countries via amateur radio. Under his supervision, a remarkably thorough

C-11-e-7c 324

system of preventive care and monitoring has been instituted. Vincluding preast exams, blood-pressure checks, weight-watching, and periodic complete physicals for the entire community.

-ى ح

Education is of critical importance in Jonestown. Classes of all kinds are offered to the community at all hours. A campaign is underway to wipe out illiteracy among the elderly, some of whomehad virtually no formal schooling. Community education and entertainment is enhanced by a 10,000 volume library and a large-screen television system with over a thousand hours of high-quality video-taped programming. Spirited "town forum" meetings form the cornerstone of an elaborate structure of participatory government. All have a voice, from the oldtimers down to the children.

The community functions around a system of social sharing, and personal money is not used. This, along with an adherance to equalitarian principles, has eroded destructive forms of competition, and even though many residents formerly depended on the "welfare state," they have assumed a high degree of individual responsibility for the collective godd.

People coming to Jonestown often find themselves marveling at the staggering amount of development that has been incomplished in a place that, not long ago, was an almost impenstrable jungle. Clearly, Jonestown is a community where things get done.

Sitting around the table in the community; s agricultural office for a farm-analysts s meeting are some of the people who are responsible for it all: field crop supervisor Jan Wilsey, a young Pomo Indian woman from northern California; expert tractor operator Phil Blakey, who grew up in Northumberland, England; an attorney who manages the 5000-tree citrus project; the project agronomist, Russell Moton, an alcaholicite from the Philadelphia ghetto who the shurch

Philadelphia ghetto who the Temple sponsored through school;
Dorothy Buckley, a teenager who grew up in the racism and
poverty of rural Mississippi (where she watched a friend starve);
Jack Barron, a 57-year old chemical engineer from a prominent
family in Delaware. This sort of diversity, reflecting a crosssection of the American experience, characterizes Jonestown.

If there is any group approaching homogeneity, it is the 250 senior citizens. Mostly black, many started out in the rural South, but found themselves at the end of the line in the innercity slums of Chicago, Los Angeles, and Houston. Today, in a place where gentle, persistent trade winds temper the tropical sunshine, they have found peace, and a new lease on life. They are pleased to be useful and to participate in every area of community activity, and they enjoy the respect that elderly people deserve.

Another important dimension of Jonestown can be found among the over two hundred teenagers and young adults who were unable to find the handle for their lives in the big cities: many were sinking into the crime/drug morass. Talk to them, and you hear much the same story: they have found something to put themselves into, a community to build. a future and a challenge in a young. "third-world" nation that doesn't make people feel useless, or stigmatise them as "niggers" or young "punks." Recently eighty of them staged an electrifying variety show at the Cultural Center in Georgetown (the capitol), seen by 2000 people. Several of the young men in the "Soul Steppers," a fast-paced dance/mime group, were members of the "Crips," a notoriously tough los Angeles street gang. But you wouldn't know it today.

Phenomenal? Yes. But how did all this happen. We have to look for answers to the moving force behind Jonestown, one of

the most dynamic crusaders for social justice on the American scane: Jim Jones.

Barely into his twenties, he founded Peoples Temple in Indianapolis during the McCarthy period on a platform of human service and complete racial equality. He had been dismissed from his first church assignment for insisting that blacks be seated in the front. It wasn't long before many people were calling the controversial young minister a 'inigger lover' and a "communist." (with small qualification, he pleads guilty on both counts). And it wasn't just name-calling: gumshots, rocks, molotov cocktails, sugar in the gas tank, dynamite, endless hate calls....

"It was a struggle all the way, year after year," says Marceline Jones, a Registered Nurse and Rev. Jones' wife for nearly thirty years. The couple took in needy people (up to twenty-five at a time), and adopted many children of all races, in addition to their natural-born. At the age of 29, Jim Jones became Indianapolist first Human Rights director, and spreaheaded an intanse drive to integrate all public facilities.

Threats on his children finally caused him to seek a place of more toleration. In the mid-60's, the Joneses moved to California, and Peoples Temple flourished. By the early 70's it had branched out into several cities with a combined membership well into the thousands. The Temple organized effective drug rehabilitation programs, medical and emergency services for the needs, working in the inner cities on many levels to combat racism and poverty, even satting up a network of urban communes. Harassment continued, culminating in 1973, when the huge San Francisco community center was gutted by AN arsonist. The church council got together and decided to look around for a place to start a co-operative community in a setting of peace — a lifelong dream of Jim Jones. The big question: where?

In the early 1960's, while on a missionary tour, Jim and harceline Jones passed through British Guiana. They had a good feeling about the people, the climate, the atmosphere. In late 1973, Rev. Jones and several staff members went back there — the nation had won its independence in 1966 and was now called Guyana — to discuss setting up an agricultural project. They were offered a large tract of land in the interior, where the government has been trying, with limited success, to encourage the Guyanese to settle (practically the entire population is concentrated on the narrow coastal plain), and develop the rich potential of the land. Back in California, members of Feoples Temple discussed the offer, and soon dispatched a "team" to Guyana to pioneer that initial land-clearing and construction.

The pioneer team overcame great obstacles (a story in itself), and, before long, the land was opened up. Supplies were brought in, houses erected, wells dug, and the first crops harvested by Christman, 1974. People began arriving, at first slowly (the population was still under 100 at the end of 1976), and then in large numbers through 1977 until today, there are over 1100 residents.

Although much has been accomplished, the community is still in its early stages of development, and a host of projects and plans are in the works: more agriculture, handcrafts, bee-keeping, food processing, toy and clothing manufacture, fish-farming...even gold prospecting. The area is full of possibility, and virtually unexplored. (Jonestown is actually located at the edge of what has been designated as one of the world's last frontiers, the "Guiana Highlands.")

Today, Jim Jones is proud of the Temple's new efforts at establishing a collective society in Guyana. "It's been a kind of new birth for many of us, young and old. In the States, those of us from black. Indian, or minority backgrounds especially,

suffered hardship and humiliation because of race. Many worked slavishly as house-servants or sharecroppers. They had nothing, and were not able to participate in an "American dream" that is so deceptively held up as a possibility for all. Even people in the middle-class have their troubles. Something is missing, and we know what it is -- community. Mass society is a disease, maybe a terminal one."

Same have commented that Jonestown is a "retreat." "Nothing could be further from the truth," affirms Rev. Jones. "We have, on the contrary, taken a giant step forward into the future. In the context of a developing eciety, we can feel like whole human beings, not commodities (and expendible ones, when they are not useable for someone's profit). The people here have their own land, their own community. They participate in all areas of decision making. They have effective control of their society, their environment. People respect one another, and the earth.

"When attorney Wark Lane author of Rush to Judgement visited us, he perhaps been summed up our efforts and others for building human-centered societies. He said very simply:

'This is the future...or there won't be any.'"

Ambassador Mann was quite interested in the flut that the project had sugar canal on it and considered it is a source of sugar for the arms. The most it is another home but a crop the project yields.

If there are other community people that we are not aware of that we should be maintaining a contact with let us know. Wil Battle came by the temple about 2 weeks ago and asked that we maintain the customary morning breakfasts that Johnnie Jones and Lee Ingram use to maintain Since that time HUE has been attending these breakfasts. Mary rogers asked that the Temple send a replacement for Lee Ingram on her WAPAC Board. We recommended HUE.

C-11-2-13a

Organizations such as NIA, World Peace Council, WAPAC, Police Officers for Justice, Council of Churches have been supportive. Police Officers for Justice, Enola Maxwell and the World Peace Council/Evonne Golden speak of the Temple favorably whenever there is a public meeting.

Lt. Gov. Dymally was very impressed that our group went to L.A. through the mud slides to participate in his luncheon. Jean Brown spoke to him relative to the IRS situation. He mentioned that he would be meeting with the president, informally, and that he would bring the situation to his attention.

Evonne Golden mentioned to me todday that upcoming there will be a National Convention of the Black Teachers Caucus and she wanted us to purchase a table for that affair. Angela Davis and Harry Edwards willbe the key note speakers. This thing is coming up in April.

I have attached a list of some other events that are coming up some may have already passed by the time you read this, however, we have not decided one way or the other we thought if it were worthwhile it would be cleared from your end. We really have not been involved in a lot of dinners, testimonials and that kind of PR. Most of our involvements have been with the Council of Churches, World Peace Counsil, Evonne, AIM, Enola and other small progressive organizations that have been supportive of P. T.

I met with Dellums on two occasions. The first encounter I mentioned to him the Tim Stoen situation and he claimed he was unaware. If in fact an aid of his had drafted a letter for his signature in this case he felt that his staff person was fully aware and competent to make a timely decision in the matter. He mentioned that he had 18 aides and that he did not keep up fully on the materials that came through his office in Washington. He finally stated that if I could come up with the name of this particular aide who had written in support of Tim Stoen, he would personally look into the situation. The next night there was a reception for Dellums at this Berkeley office. I presented name of the aide to him at that time.

Dellums gave me a song and dance about being a public service and that as a public servant his responsibility was to investigate claims from U.S. citizens of children being taken out of this country away from the legal parent. (although he lead me to believe the previous day that he was unaware of the Tim Stoen dituation, the very next evening when I showed him the name of the Aide Dellums leveled about the case).

I explained to Dellums that in reality the child belonged to Rev. Jones, it was at that point that Dellums stopped and listened. In a very soft spoken way he stated, "I will look into this situation, be could be a possibility that my office has been used". "If my office has been used than I will investigate the matter.

Potitizally he respected Jim.

Dellums stated that he was aware of Jim and that politically they looked at life from the same vantage point. He asked me to communicate with him through his aide in his Oakland Office Andre Swanson. Before leaving Dellums I explained to him that I would like him to write a letter to Forbes

Burnham, he asked if I had any materials on the FL I gave him the customary PR packet.

I spoke with Swanson last Friday, he indicated to me then that he would send the materials with a cover letter to the Washington Office requesting a letter from Dellums to Forbes Burnham.

PLANNING OF ADMINISTRATIVE TIME BLDCKS...

Johnny

5 July 76 8 to Approximately 10 PK Keeting of TROUGA TITH ACKE'S

From all departments will need:

1) JOB DESCRIPTIONS on each person within department, or if one person not presently on job and it is being done by whomever can get to it, then describe the function and say "personnel needed."

Recommend procedures needed to complete the jobs. (See Harold and To-

- 2) Give departmental outline or schematic and chain of command.
- 3) List your short term and long range planning with a deadline of

 on when this should be in -- probably within 2 or
 days. We will soon be going into major production on farm with
 the seasonal change, and into major construction as soon as lumber
 arrives..

It is necessary for Troike to see that you ARE COUPLETING YOUR DASUS so these reports are necessary.

- 4) We will need inventories immediately: Feeds, foods, fuel, spare part and supplies in every department are important for us to know about we need to know what may become an emergincy before it gets there. Harold emplained perpetual inventory, monthly summaries and delly use records we will be keeping, physical inventory every 3-5 months and there will be auditors to check on this. There is need to set up reconstructed monthly or as needed to keep above "safe" minimum.
- 5) List your procedures and go over them with the CAC's before setting changes in motion from what you originally set up in items 1, 2 and 1 above. If there are any changes or personnel shifts within the departments, please let the CAC's know immediately.
- 6) A system of followup needs to be formulated; there is a need for the CAC's to be able to evaluate the projected tasks you set up vs what you completed of those tasks, each. Will try to do much of this in these meetings.

will mostly cover interdepartmental items where both supervisor need to be present to effect a decision.

JOB POOL--Some changes are being made now, however all input will be taken final decision will rest with the CAO's. ASSISTANTS TO THE ACAO's is not necessarily a full time job.

Current personnel problems were discussed--Troiks felt they had made so decisions too rapidly -- had to modify this.. In hitchen, had pulled people too fast and nulled them from Agriculture. .. Discussed: Amondo Griffith, Lee's assistant -- obspect by Tgoile and finalized this meeting.

Vern Bosner --to return to Citrus

Kathy Barnett--pulled from piggary; to remain bitche

Dorothy Rollins--not clear decision made on her

Nursery -- they pointed out that Lucy Crenshaw wants 6 hours day secretari time, but she can stick it out for a week or two; getting tired so much time with babies.

KITCHEN--need competent white young person for kitchen and also need to integrate serving.

Karen Harms is cooking and doing well. Ron Grimm--interdepartmental; not issue for this meeting.

SECURITY: (Johnny Jones Jr. made the presentation for new procedures:)

4:00 - 5:00 AM --House check with supervisor

7:15

on who is not at work.

8:30

AM --Medical check; Sylvia can ask where they work
and list this for Jimmy

10:00

AM --Another crew check
1:00

PM --Another crew check
0:30 - 7:00

PM --Final crew check --come by dispatch and report that

all are accounted for.

MEDICAL TARDINESS -- It was recommended that the medical department open

earlier in order that people are checked for work sooner..possible open at 5:00 a.m. Phyllis will check with others in department.

RESPONSIBILITY--Charlie suggested that Acao's alternate with assistants on alternate weeks. Johnny said it is up to the ACAO as to how they work this out with assistant; the CAO's are specifical interested in the fact that a check and balance system exists and works.. and the rest can be worked out.

7) Notify CAO's when you will be having your department meetings, each week, outlines, personnel, projects in progress, completed and special items.

JACK BEAN SAID HE WILL WORK WITH JOYCE T. on the big warehouse at the Cassava Mill and will take care of it there. Joyce will need both inventories to do har food ordering. Warehouse is in pretty good shape on inventories how.. NEED DOLLAR AMOUNTS PUT ON IT AND EXTENSIONS DONE.

BPECIAL MEETING WITH RADIO PEOPLE-Troiks needs to have a followup system of established so they will know that ordering is being done, and WHEN SOMETHING HAS BREN ORDERED.

end that we also be notified when PURCHASE HAS BEEN MADE, when and how shipment can be expected...if going in the large crates or coming hir with perspus coming over, or other. If this were enforced it would eliminate the rest of our problems. I have instructed Carol to give Troiks a regular list of PD's that have been responded to and the dates and open numbers on the rest of them --will start this no later than Monday of this coming week with the first list. Tosting is a terrible problem right now because we do not have the

Carol is to do daily typing of feedback as she is currently doing and wil make an extra copy for Troika. She will do the follow up and type the replies, giving the feedback and followup at same time to Troika--the followup original to go to Paula or Mike Prokes for the Georgetown or Stateside contact.

Richard is wanting to go to Trinidad and take orders and get them direct; he can telex for responses if unable to contact dealers there by phone. Can also have dealers telex Surinam for responses..

ALUMINUM--Prefer 12 foot lengths, guage of .0175 and as much as we can go

GEORGETOWN--Carolyn said that hereafter Ujara will be responsible to get seeds to Toi or Carol, and will be responsible for the livestock_ medicines.

MENO FOR AG OFFICE: TISH WILL TELL THEM TO LOG IN SUPPLIES AND STIDS AS THEY ARRIVE.

Charlie suggested not so much would get lost if every BCX IS PACKED rather than put in sacks -- and then LAPEL BY DEPARTMENTS THEY ARE TO GO TO. Carolyn said they are putting the small items in a misc. crate coming out on the big boat. Things presently going from store to warehouse to boat.

It is important to know who in future is the ing the boat inventory.. see that everything is properly labeled in future. Presently in town they are locking all medications in one spot -- Versie and Maria McCann responsifor getting them locked all in one place.

NOTIFY TOWN: SUBSTITUTES "ONLY" ALLOWED IF THEY GIVE US FEEDBACK ON THE AVAILABLE CHOICE OR CHOICES AND THE DEPARTMENT AND FEB APPROVE THE CHANGE AND PRICE CHANGE, respectively.

Additional copy of Harold's boat report is to go to Paula so that she can check off the purchased items from her list.

ERIN'S PROCEDURES AND FILES SHOULD BE MAINTAINED BY WECEVER TAKES THIS OVER, and the system should be taught out here. Recommend a notebook here and there, and training of the people before they ever go in.

Factors to consider in the Jtn-Gtn business and financial problems.

Jonestown --primary view

1) Coordination: Administration is presently very deficient and is not coordination: Administration is presently very deficient and is not coordinated... slightly, perhaps.. but not on any efficient basis.

How do I know? because the records they should be asking for are not being asked for! Therefore, without that information they are only administering half-assed but undoubtedly with all good intentions.

To correct this --need to set up a simple log chart and see that the input comes in...*Il

--PLAN the organization time required to handle the evaluation of the input you receive...*#2

--Coordinate the followup from Rally, steering, ACAO's and Analysts, and see that you get reports indicating that the followup is completed. #3

--Organizing the personal time into a block-type of schedule is a must or there will never be sufficient time allocated for administration...#4

#4 is perhaps the key to the entire problem ...

P. R. Live to

į

3:

SANCE LEGISLAND

When we refer to block-time, this means allocation of areas of work per the number of hours needed daily: see the material I completed for you on administration --note the chart on last page or thereabouts with the % of time needed for organization. THIS MUST BE ALLOWED FOR -- and used that way. This will not be done unless you keep a personal schedule and take 15 minutes at the end of each day to plan your next day... You can tentative plan the week ahead with appropriate time blocks.. but this will change daily: you need a score sheet yourself on how much time this week, for instance you had given to organization...

Determine how much sleep and personal time, including laundry and bathing and eating —plus "some" free time... then allocate the rest of your time into the blocks. You spend time with the baby also, and this needs to be counted for... It is possible to get a phenomenal amount done in small amounts of time if they are organized and planned appropriately.

Georgetown primary view -

C-11-2-18a

- I feel very sick when I look at what is coming down in this arena...
- 1) Coordination -- requires an independent initiator who is willing to work within an agreed-to plan... This pre-supposes that a plan has been laid out. In our instance, I do not feel that a Gtn plan, per se, exists.. but rather -- a supposition of what should be done and changes kaleidoscopically with every new coordinator that goesin, however well intentioned. I think a plan must be devised for Gtn..and the people planned into that structure.
- 2) The functions in town must be divided, but still coordinated: I would separate into: BUSINESS REFORTS (boat, etc.), FAMILY SERVICES AND JUNESTOWN SHOPPERS, and PUBLIC RELATIONS & POLITICAL STAFF.

 Understandably these will at times overlap -- but over all of this should be a general coordinator with the authority to do just that. Primary persons in each department should be stabile and rotate within time cycles. The workers can be switched as needed, if the primary persons are functioning.

A careful evaluation of the pro's and con's must be given... of course, but I would like to see us consider very seriously either purchase or leasing of a very large warehouse on the waterfront.. I would handle the P. R. out of the house, and everything else out of the business structure.

We are operating a multi-million dollar operation out of our hip pocket and it is costing us a fortune in errors and miscalculations. It would be cheaper to set up a structure from which to operate —as it appears to me, perhaps others can see this differently and am certainly not fixed in my opinion —is just how it looks from this point in time.

One person should remain in the office on the phone, and another to maintain and supervise the warehouse. If a group of 3 or 4 for each position were trained in there together and set it up so that one in each post could function and operate, then we could rotate them... the "work crews" could be varied as the need changed. Distribution of our merchandise could be handled out of Gtn.. and the warehouse would suffice for both "holding" items from customs, merchandise for distribution, perhaps eventually our PRINTING AND BUSINESS SERVICES (TYPEWRITER REPAIR, ETC, & RENTAL BUSINESS), and any others that we might envision. along with a snack shop for the business people in the area for coffee and sandwiches and sodas. The meetings with general coordinator could alternate between the business location resident and the house residents. I would lodge a few strong ones at each place. the

I think that the general coordinator or the TOWN ADMINISTRATOR will have to fall within the same TIME BLOCK LIMITS as I have mentioned for cut here—with sufficient time allocated to planning and organizing and CONTROLLING... or it will never happen that we shall have our town organization structured. Without that structure, we will not make the money our potential allows...

C-11-E-186

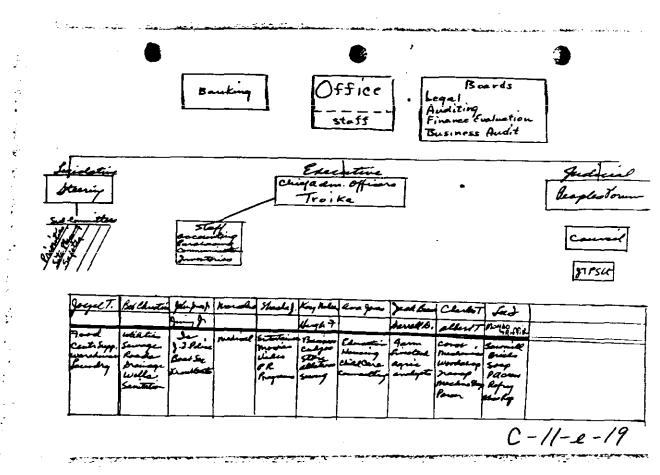

3) Greatest weakness (in my opinion) which must not be overlooked:

Primary would be the sharpshooters: We have a group of people that consistently shoot down structures that we get going and initiate. Instead of finding the problems and mending our fences, we seem to prefer to rip out existing fances and build new ones too frequently. In business this is known to be extremely costly. Perhaps it would be wiser to include the sharpshooters in the planning stage so they have a personal investment in the structure. When the tasks are seen in total it is easy to see that a person doesn't want to be involved in so much work... usually that will ease some of the control urges that instigate the sharpshooters taking aim.

Right now, I see them gathering. Certainly it looks like Richard is messing up. However, it is likely that some people can go so long without sex and no longer; perhaps this should be considered initially instead of down the line. His problem seems to be personal if he took 5 hours talking about it..that usuall y means sexual. C - / (-2 - 86)

いないないというないというないないないないという

I would recommend putting Happy Acres lease in another name, pulling Claire out of there to Jtn, bringing them together in a less tense environment and then IF THEY WORK OUT THE TENSIONS send Richard back to Gtn for intervals less-long... as one of a rotating business team. I hate to see what I see coming down... In past times, it has cost us so much I hate to count it...

Subject: Departmental Inventories

Basic Flam:
In crear to maintain a system of controls on all inventories that will assure adequate stocks at all times I suggest the following be required of each department maintaining inventories:

- 1) Perpetual inventory records, approved by the C.A.O., be maintained in each department and remain available for inspection by the C.A.O. or an appointed representative, on denand.
- 2) Monthly summary usage and receipts reports be generated from the department's inventory records and be given to the C.A.O. no later than the 5th day of the month following.
- Physical inventories be taken by each department each 3 months and a copy be given to the C.A.O.
- h) Spot aufits be taken in all departments every 3 to 6 months, or as deemed necessary, by an auditor selected by the 6.A.O. If serious differences of errors are detected then a more complete audit may be ordered.

Minimum/Maximum Levels and Re-order Points:
The C.A.O. should sit down with each department head and set proper inventory levels (maximum and minimum) and re-order points, keeping in mind the regular reserves required and the anticipated time lag in receiving re-orders. A safeguard system will be required to assure that "critical" items to the departments or project's function will not be allowed to drop below predetermined "safe" re-order points. This system to be approved by the C.A.O.

Maintenance and Reviews:

Once the inventory system is set up and functioning periodic reviews of the system would be in order to pickup any areas requiring change or improvement. This period should be established based on the size, value (or cost) and degree of importance to operational functioning and efficiency of the particular inventory and department. Also, whenever inventory differences are not adequately explained or corrected them a review be set up with the department head and corrective measures be established or appropriate disciplinary action be instituted.

C.A.O. - BASIC OBLIGATIONS

The function is administrative in nature. That means, getting things done, and, by implication, having the organization and information to get things done. It means the day to day supervision of the entire project. Included are such items as purchasing, inventory, accounting, personel deployment, as well as the normal departmental operations.

It might be easier to examine what it does not include: first, the formation of policy. Under the Office, this is a function of Steering, and somewhat of Rally. In order to avoid conflicts in operations it would be good to find a dividing line in steering tonight. All administrative measures such as construction or other maintenance operations are not steering issues. Job changes are not steering issues. Basic planning functions are steering as is the obligation to create rules of deportment (which may also be created in Rally). Therefore all of the sub committees of steering that relate to planning as distinct from administration will still be in effect, and their total output would be coordinated through steering. This should cut their agenda way down, and give sufficient time to thoroughly explore issues of importance

Another function that is not of C.A.O. is judicial: The Office, Rally, Counseling and Public Service. Public Service would be under the C.A.O. with respect to the work that it does but not with respect to who is on unless we wish to give the C.A.O. and Assistant C.A.O.s the power to put people directly on for some limited period of time. (Anyway that point is unclear in my minds t this time.)

The way I visualize it C.A.O. would have a working area and a staff. They would supermise purchasing, inventories, accounts, personel deployment (I don't think I have all "central" functions in mind now), etc. All functions not centrally administered would be delegated to one of the C.A.O.s in their area of concern. So, as to the Departments, the job is supervisory but as to the "central" functions it is direct administration. For example, the radio people and the purchasing agents are directly on the staff of the C.A.O. and not supervised, for instance, by housekeeping.

One last point is that your "sway" includes Georgetown Operations and thus I think that you held to set up one person includes there, and also some structure or operating formula, in writing, so that everyone can be held responsible for his job.

There are lots of "models" of administration type organizations. I do not hold any preferences, except that you must have a very efficient person to maintain follows and tickler systems, and must maintain a very tight-system of internal control so that you can nick up on your own make omissions. Also, there may all be some routine appearing matters that would not ampear to require my sort of interdepartmental coordination, ut which in fact do. For instance Jan just raised the issue of a faucet near Apt. 2 which the mursery wants out but which Sippson uses for watering the garden. Charlie would somehow have to know to coordinate with Jack of Jim. The "somehow" needs to be worked out. Also, there are some "cross-departmental areas that need to beworked out such as the poison control which has both agricultural and housekeeping applications.

I am sure that a lot more stuff will unrawel as time goes on, but I hope that this will help. If you want more please let me know.

Scott Thomas-

Scott is a good worker, he never hesitates to work over time. Scott gets sidetracted with non-PA jobs, He needs to follow-through more also to read and research about things he doesnt understand.

Wesly Breidenbach --

Wesly drives a tractor so he's not with us for half the week. But when he is ,he is a hard worker,he goes right into a job and do it until its done, i never have to worry about it being done wrong. He works overtime without being asked. But when Wes gets too many projects going at one time, he gets sloppy, leaving tools around. Needs to work on sloppiness.

Candace IngramCandace is a good worker with a good additude.
Shea new on the crew and suffers with frustrations

of not knowing, needs more self confidence.

Mike Carter-

Mike is another person whom i can trust to do a good job on his own. Mike suffers from absent middedness and tends to forget less important items. Needs to work on starting job at a time and finish them. He puts in overtime with out being asked

Don Casanova-

I have lousy follow through. I spread myself too thin, and then unable to finish anything. I try to be the good guy. In I need to work on my organizing.

GEORGETOWN EVALUATIONS: Sept. 27, 1973

TIM CARTER:

Charlie Touchette, "Extremely hard worker in the PR. Gets a bit excited when the pressure comes int but always stays together, appearance is good, seems to like or at least has no negative attitude about his work. Tim does not get too close to physical work."

Joan Pursley, "I thin he works good but I think he weeks on what he wants to work on and not what may be most important. I think he feels too sure of himself when alone with a guest."

Chuck Kirkendoll: "Just from looking at him he acts like he works hard. He needs to pick up on his home chores."

Gloria Carter, "He is loud and rude and is very defensive. He gets quickly irritated with the least little thing. He is a hard worker, remembers important points giving feedback. Strong to stand be principle when others keep mouth shut."

Tarik Baker, "Good PR worker. He doesn't keep up on his house chore which I guess he really don't have time to."

Helen Swinney, "Attitude fair- he is good at PR. Does not like to be confronted but have noticed an improvement in him."

Claudia Bousset, "Defensive, Gloria will say something to him he don't like and he will argue the point even tho she is right. One example, she told him about his chore he knew he wasn't doing, I guess he didn't want to look bad in the eyes of others so he argued the point and then he did do the chore, but he must have knew he was wrong but wouldn't admit it. Very defensive."

Terri Jones; "Good in his own area, you have to constantly push him to do anything, if he is told to make a call you have to hound him until he does, or at least this is the way I feel. He was very resentful that he and Gloria couldn't have a room to himself, I don't think Gloria minded. When Tark L. was there he was perfectly happy to have it be him and Mark & Tim didn't really seem to want he or Debbie along. He denied this, I found him playing cards a lot and later he would say he was overwhelmed when we would sk him to do something. I would have to depend on him for writing the letters and it would drive me crasy because he would procrastinate then he would only

do the scratch letter and Debbie and I would have to do it in good form and follow thru, there weren't that many letters so it wasn't that bad, I really can't be that objective about him, Joan did agree about the thing with Mark L.

Rosie Ruggiero: " Works hard, thinks he knows it all."

GLORIA CARTER:

Charlie Touchette, "She is definetly the wrong person to do the coordinating in G/town, she cannot keep her mind on one subject long enough to complete the subject, she made some costly decisions about picking up some meat. She seemed confused most of the time over business. She is a very hard worker but does not have the ability to do the job.

Chuck Kirkendoll, "She needs to get her shit together..."

Tarik Baker; "Needs to back herself and be more serious. Nice person & had good coordinating ideas."

Claudia Bouquet, "Unsure of herself, she tends to lean which way the way she thinks people ... I think it is hard for her to understand anything if it is put in a too fast perspective

To verbal, (A nice way of patting it) I obviously still do not keep Myself... To verbal, (A nice way or patting 10/1 bowledge) and not my mouth under control which has bad ramifications for all. I think I am learning but I still deal with people to directly and do not take into considerations all the other factors involved which is wrong. I think I expect too much out of people or if they don't follow through just right I don't give them enough chance. I have made more serious mistakes than anyone are else in town so this is not fair. I don't get as hard on myself. It is also obvious that I am to curt on the radio most of the time unjustified but even if it is, as you said last night you can give the extra inch for co-operation to get the job done, which has I have not dome, I say this everytime this is constantly what I do and it is inexcusable. I will stop this. I tend to bias my feelings about people I work with by the amount of work they do, which is not alan fair. For ex. the situation with Nedra and Helen, I know Helen is notthe easiest person to get along with and she certainly could talke to all of us better but she is a so dependable and I counted on her so much I would tend to defend her just for the job is she was getting done, and I didn't want her to quit. I do this quite a bit making allowances of certain quirks of people as long as the job gets done it is not always bad, but dealing with things in town is so touchy people watch everyone how much they get m or who gets what. I try to prove my point to much and don't back down. I still get to defensive when confronted though I think I have imporved same's some. Every time I leave I feel nothing has moved ahead (which it hasn; t so essentially I let you areas down)

Glorai C.— I like working with her I thought she was really good, though Mary Ann complianed that she left everything a mess as for far as the orders to I don't know about this, Charlies write up about her would be good. The last week there after the situation with the mix up about the airplane she practically did nothing saying everything she touched she messed up etc. I think the combination of the pressure (because one day she blew up saying fuck everything fuck leadership I didn't ask for this job I didn't appreciate being put her etc. but we smoothed it out) but that an top of Tim C. chich she said she can't stand and resented having to be there with him and he constantly bugging her for sex I guess, and missing halcolm she was ready to come hom? When the mix up came which I caused and she almost had to stay though she controls herself better than I initially she was very upset and cryed and said she had to get out (she said this to me which is not big thing I have said it alot) I just felt she really deserved to get home first. I hope if I have to go in again I can work with her she is not afraid to be a to bad guy wanter and I like working with her.

- Claudia Bouquet, she comperated pretty well as far as attitude there was no problem, but she is not good on follow through she constantly would have to be reminded of what to do what was preority etc. Gloria did the ordering of medications becasue Claudia couldnt seem to get anywhere with it, and she let Marion Campbell go into the hospital and back out without even knowing what she went in for. This was bad for Gloria as well as I since we should have pushed to know. She wasn't left with any clear insturictions of how to do anything and it was her first time so I don't know how much is just not knowing what to do and how much she is just scattered. Like I said her attitude was always good the thing with Marion was the worst thing that she did, if Rhondas hadn't come in though she wouldn't have known how to do immigration completely because instructuions weren't left. In general that area needs more organization, I have asked Anita to try to write up an procedure manual for all others future reference.

C-12-6-7

Chuck Kirkendall— We had a couple of blow ups about being him being to independent and not consulting with the coordinations, he also didn't like the fact that we told him he could park the truck and not use it for errands like taking someone to the boat etc. his must main reaction to that was that Ujara never had to do it why lay the trip on him. We worked out and like the situation with helen I ended up defending him because he worked hard he was always out on time he would have an is list of things to get done and he would get it done he was dependable. Feople complained because he didn't go to church, I excused him twice because he cleaned the grang garage and the warehouse all day sunday instead, he ended up putting more work into the day than the rest of the house but they were pissed because I didn't make him go to church. He got a little too pushy to get home and wasn't empathetic to the fact that Fhillip would be away for so long, but he continued to work hard and didn't give an attitude He contributed in the house meetings, One night we had to go down to the boat for something and Chucck and I think Tim Knight had gone down for boat security, when Mary got there no one was on the boat, Chuck and Tim gone off somewhere, I demarks don't know how hary dealt with this, she was the one who told me about

Tark Baker, At first he was not to easy to get along with, I would tell him to do something add he would say ok, and then he would give Glorai or Helen lip, we confronted him told him how much faith your had in him etc. and ever since I have seen no problem he does what he is asked seems to have a good attitude. Chuck complained that he worked to slow but we talked about that and then Chuck said no more so I assumed that improved.

I am really we happy that he is working out it is a good example for other young people. The waster of the confidence of the confidenc

- Helen improved greatly I couldn't belive it was the same person, and since all of us who lived with her before notived it, it is not just me, the people who have to go back into G/tow n frequently appreciate having meals ont time and organization of the kitchen which usually is a contatant problem. And in terms of nice meals for guests there is no one like her. Every time I have gone into town the kitchen was a constant problem and there is not way to keep a house more harmonious than to have meals on time, and have enough so I can live with her short remarks etc. though everyone agrees that this has changed for the better also.

letters and it would drive me crazy because he would procrastinate then he would only do the scratch and Debbie and I would have to do it in good form and flollow it through there weren't that many letters so it wasn't that bad, I can't really be objective

about him, Joan F. did agree with the thing with Fark L.

- Cleve I never had much dealing with at all except for giving him money for parts which he alway returned receipts in accurately. Also the first week Charlie was there he came ane reported that Chralie wanted to go out and eat and what to do and I said just tell him you don't have the money and you wont' ask for it and he said ok he would. He always has worked hard.

- Chralie I had no control over what he did all day I have no idea what he did, he always was accurate on reciepts, he participated in house meetings, as far as knowing where to get things probably more has been done in the area of ordering parts because of all his knowledge and experience. He spent alot of time on the boat mixix which was a form of escape, they could eat on the boat and of commse I have no idea if they stayed on the boat, but when he was at the house he was always fine.

C-12-6-7a

Edith Bogue: She was responsible, tryed really hard, had the concern of caring about things outside her area, if they house needed to be cleaned she chip in to do it because she knew has it had to get done. But in 6 weeks she did not learn how to get home from Water st. she spent more time getting lost than getting anything done, (the one week she was by herself Erin stayed for 5 weeks) she drives horribly. So for the purpose she went in there she really didnt' work out but she is good person and I like her I don't know if it will be worthwhile to send her back in for that particular job. Its a fast moving job and she was slow really to slow for the job.

Tony Walker: He worked out really well, I think a few more times of going in and doing FR he will be more agressive and sure of himself. He would do what was asked of him and when threre wasn't FR he would help on the truck or procure. A couple of times when I would correct him on how he appraceahed something he got pretty defensive but he never let anything show in his work. When alot of other young people were there it was harder to get him to do things than when he was by himself (For example when Amrondo Billy Karl Eddie and himslef were all there it was much harder to get anyone to anything) but when they all left he was more agreeable to everything because the pier pressure was not there.

The state of the s

Chuck Kirkendall Works hard, seems organized, has the led a good attetude most of the time. I think he like to do his own thing mes some of the time and is a choworist some of the time with the finale co-ordinators, Helen Swinney so not the typent a thought she was going to b Norka very will in the kitchen and the laundry. She is getting very antice to get out of Seorgetown Cleave Jumay referen Cleave spends practically every day on the boat I take him down at 1:15 AM and nometimes & take him home we is getting very discussed that the puts to fix the boat are not in. He to in getting very entry and would like to make a mod, but he understande that it cannot be until the boot is filed, he said once that he would like to be on the boot when it goes to Trineded. Cleave is very quiet in the house meetings, usually adds very little to the conversatione we have with the Captain of the boat, he just seems to quiet for Tung Center De something else, wonte more than ongthing to do the right thing, does not want in any way to upset you (jim) will call the shot the way she feels, does very will in her position I feel she expected to much from many ann and may W. and was for to hard on them, for both of them to be new brand at their jobs. Very is good. Meylee Bogue not around her at all, she seemed a sheldish when The was here but that went when Edith went, C-12-69a

- Claudia Boutte I donot think she wanted to be in Soyetown doing what she was doing, I don't believe she did a. good job, it received she had to be shoved much of the time to get her to go out and do her job. She spent sometime in the room I was in and managed to get my mucher out of the dreamer diewer which was closed and which means she what though the drawers looking for something to Claudia worked very well around the house and I didnot hear her in one argument. Kim Fye I think she used her foot to get out of work lowever when the doctors released her she stated right back to work with no complaints that I know of peamed O.E. Kosie Ruggerio I saw nothing of Rosie, what I did see was Joan Kursley about the same as Rosie, she works good hours never was smart and a willing worker. Good old gul and comside, dose not let grase grow under her fut, moves much like Joyce and Helen when it somes to getting a job done. I think she has nose trouble, whe wants to be in on all the P.R. at home especially with someone who Kay Debbie Voulette Same old hard working person, very quiet, Debbie and a probably didnot speak 50 words while I was in Seryetown I get the feeling she wally does not like men Charlis Touchett I the this kind of job if it were not for the confusion and missing Joyce and heil somuch a could do this job full time and now I have to

sake myself, why, & feel very guilty about this, but then I think I perform better and do more for you while in Meangetown than I do when is gonestown, I am not as voictions sol used to be now when I see something going wrong a state my opinion and solut up I think this is very pressive and I don't like it but every time I change in and were hell seem to last someones felings, get written up sol the whole mess buts a burden on you so I love been taking the losy way out and of saying very little begindless of ony wonte and feelings you can put me where you want me and I will try to do a good fob. Thank you so much for all you have done for us.

She was it good worker procuring wat Tim Carter - I trink he works good but I think he works on what he wants to work on and. not what may be most important. I think ho feels too sure of himself sometimes when he is almounted a gitest. Deblie T- Good worker, feels that some in II. doesn't think she does a good job - wants to prove that she can do as well as others, and I think she docar anno de la companya della comp Chuck tooks haid as for as & can see - I had accurate in accounting that the mix up's rusis my foult but I stroughtened it out. Thanke I always wa seems to have a good attitude, likes to get out on time in the morning. Helen S. - Pretty reasonable, much different than the way the water to be She's actually pleasant to be White Good worker and a Good Fook-1 The sume abouting & low much of the witchen

Rosie Ruggerio - Works good, pr rastinated at time when the plaques - but produced some nice much one when she did it. She was a good worker procuring but didn't want to a separate as much as I would have liked to. & overall she worked hard & was a good partner.

Jerry Jones - Lood worker, a bit too emotional at times, she seems understanding, and is always willing to listen to whatever & have to say. She stays up late, the something to say or prostically every issue

Leve Baker-Quiet person. I think he works well.

Claudia N.- I think she worked good, at times she seems unreasonable and Snappy. I may be wrong but she seemed overly concerned about her looks.

Gwelign Leroy- Sometimes spacy-good worker

Kay Nelson - good worker I don't know but

Sometimes she look as though 8he holds feeling
inside and doesn't express them. She's really

them nice towards me.

mipelf - I could work harder & faster. I, think I med to be more willing to listen to others, and to the relate to people problems. I eaf too much at times, I could stay up later at times and will. I need to be more concirned to about things generally.

Rosi Ruggiero: good points: I fel that Divoix hand and try to sccomplish my work well. I keep a good attitude, (at least try to). I take criticism well. Bud pants: passeve reason why! = on the way home on the Steamer I was with glove and Cladura. I meet with a fine, of Joans that & Joan had introduced me to well to make if Short I played & so passive Ca passive Betch!) D was talking to This ass hole and This punt next to me on my chair. I should of never let him set next to me. well he started to lean on one more, in Other woods coming on to me. I did tell him to more over . But he gust pat there. The I knew he what he was doing and that it was all Bullshit like usual shit that these gruperose men tell us like he said! be wanted to marry me and he wanted to sleep oney I to me but he wasn't going to do anything . I knew he was bullshitting all along. O should of just got up. and stood eganist the rail But I didn't . Dwas passive and I just pat there. This guy was a total chorenous ass role! Claudia Celled me to the Bathroom and to me D feel that she came of to hostile like she told me of and Boid you better tell him to leave and quit leaning in you and feeling on you lot to be honest she's totally right. But he was not feeling on me at all. He was look at my neetlace which made it look like he was feeling on me the was oft toain! The reason why I mentioned clindia being so god dam passive and after her sereaming at me and not own relating to me as a human being and giving me some time to talke to her in the bathroom Dtel you the truth of D was another verson o would of jumped off the Boot, But am not that way, a non understand why people do not get confronted in Deng Cause they might trip off while O understand that and I'm know that All being saying this again on the floor. wel I'm fod de did will at me (confront the) cause when I came out I told that as to get the feel away from me.

and be did leave In very every Dad, for putting you down and being a total fucked up passive: Botch. Dom ashamed of myself. Ages But you Know. Dlearned from that experience and I do know both part time. Stavent been through so much before (in to Relationships, but have seen alot of Shit in Hem, and that I relize it Rest to be alone my mind get's off into fantasy in relationships. I wont of to be on our straiggle for equal rights (Communism). Again o feet terrible for being passure to this asstole an deply sorry dad for putting you down. I was wrong. being in Georgetown, I could of volunteered to do nor: but like usual I tend to become lary at times Slovia Carter = lood points: works very hard trys-to relati to sveryone in a nice way. I feel that she trys to get things done Bad Don't S: I feel sless too passive. Shows hotileties toward others few this side assuming) Claradia Bouque good paints, works well, good attitude, clarid Bod Points: mossy in the noom. Die never seen for Selpus to the Room clean. medicines and Stomps were all over The place never Such as vitims apprine, o did see Sme bottles with perouption in it. also there were letters (mai) all over the place, where people could see the most or eng & go through it. She put the responsibility of Bobby on these alot Bobby would get his horized very late or he would almi go without it. Terri Carter: good Pts: wery hard worker relates of therself as being in the same as anyone also . Stows equality among everyone, and expresses on dad. (the main subject) Bod pts: O feel that for some reasons couldn't really relate to her Deel she came of to me as Kind of like nothing when ever a would talk to be I felt she realthought listening to me no Bug thing! One then y made me Houte ground terri, o was working with Joan with pequring. I we weren't home that much for me to do house descrating as painting the Rooms for quests. What over work that I saw that I could on done, but didn't have to do " I felt gretty for leaving it behind. I also flet gretty cause from had to stay long tind I got to go home, well that goes for twenger who has to stay in I sengetown well, I offered to stay to lelp out. no 829 this offered but term had made a state ment offer rate as " the when it offered to stay that I when it offered to stay that I when it offered to stay that I didn't want to go home. " a don't appreciate that

the type - I've noticed I hat kinn get very excited when asked out you lunch for PR reasons. She really gets involved with the outside oly The Rason why I say this is Cause I she Came crying to me in Seorgetown on night. Ihe didn't word to leave Theorytown Cause she get hims up on some Guy that we most in Precing. The told his that the really liked him but the didn't won't me to tell anyme else cause they would tiel terry Carter who is in Change in I.T. I feel that tim flicts too much with outsiders. Their too much with outsiders. She is too cary with them, the always talking about Jeting book to II.T. and that the Should of stayed in II.A. Cause the was only here for I wish. The doesn't clem apreciate even being bake for a week. I've told terry Carlin all about this in II.A. That I felt that I show with if up on my wood?
