1. That in 1974 JONES had put out an appeal for all unregistered weapons his people could acquire.

One of those attending the meeting stated she had over 170 of those weapons in her house until January 1976 when they were transferred to the church's San Francisco location.

2. That the weapons were subsequently taken to Guiana via chartered aircraft out of Miami.

3. That funds in excess of \$200,000 and \$300,000 were seen in cash in one member's home.

4. These monies are normally shipped via mail c/o of Paula Adams at the mission in Guiana.

5. That JONES is an active supporter of both the Black Muslim and Black Panther organizations.

6. That JONES had considerable political power, both in Mendocino and San Francisco Counties.

7. That JONES had aspirations toward a political appointment to Guiana, possibly an Ambassadorship.

8. That JONES was seen throwing tear gas into a demonstration in Guiana in 1975.

9. That JONES would like to become a "factor" in the Guiana government or power structure.

10. That he has upward of 27,000 acres in Guiana approximately 50 miles up river from Georgetown, whereupon he has his Agricultural Mission.

11. That he surrounded himself with a para-military type of bodyguard known as the Apostolic Guardians. Surveillance at the Redwood Valley, CA, Temple verified the presence of an armed patrol around the compound.

12. That he had had an agreement with the Guianese government whereby all shipments to the Agricultural Mission would be labeled as "farm implements" or "used clothing," and would not be inspected by local officials.

13. JONES communicates from Guiana to San Francisco in code by short wave radio.

As a result of this action, a continuing series of magazine, newspaper, radio and television articles and coverage has been given to JONES and the Church. Subsequently, investigations have been initiated by San Francisco and Mendocino counties.

JONES has retreated to Guiana and is apparently selling all property here and urging his people to come to the "Promised Land."

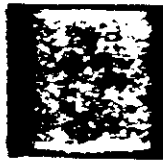

Lookouts have been posted at Miami, Houston, and New Orleans for ships destined to the mission in Guiana.

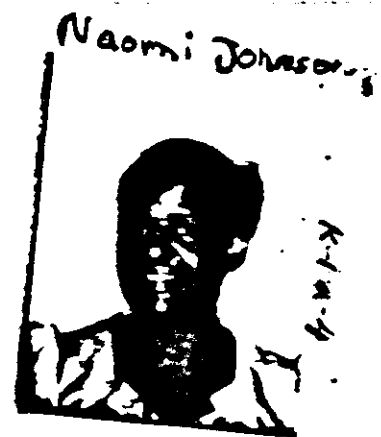

Included as Collective Exhibit 1 is a preponderance of the material printed since July 10, 1977, on this matter.

Because investigation disclosed allegations that JONES intends to establish political power base in Guiana, and that he may currently have several hundred firearms in that country, the above information is furnished to

called police 2 or 3 different times because there was a car in the drive way and they could not get in, and I called them before when we were in our drive way and could not get out. Altogether I have had to call them 2 or 3 times since I have been in our family WHY DID THEY PARK IN YOUR DRIVE WAY?....I don't know, they would leave their car there and we would have to wait and wait. That's when the police were called. That was the only reason we phoned the police.

I just told them how I had let him use the drugs that were involved and the police said that every girl that had gone with [redacted] was stuck on drugs, he kept them on drugs....I then turned myself into the police.

About two months ago the guy I was going with (he was an older guy) I was over at a girlfriends house and he came and knocked on the door and jumped on me and I called the police on him. We got into a little hassle and he scratched me and everything and the police came out, he had left, but before he went he said that he would come back and GET me, I told the police where he lived and everything and before they left he asked (the police) if there was any last words that I had to say, I said yes, let him and they picked him up and I think that they locked him up. He came by three or four weeks ago and he said see what you did to me, you see this paper it cost \$300.00 for me to get out of jail. Well I said, You should've acted up on me like that. I haven't seen him since, but he is a very violent person. I've had to call the police on a couple of incidents on him, he broke my door down, the second incident they picked him up, he'll break the door down anyplace. THAT'S THE ONLY TIMES....yes.

My ex-husband jumped on me and I called the police. It's been years, about 7. They told him that he had to leave the premises

I called the police on the people that lived below us, they was smoking pot and things like that, they were disturbing us and sayi they was going to kill us. All this because they knew we wanted them to move. They called the police and they had us move. We had only lived there three months, last part of July 74.

When they found out where the camera was they were going to send her away for two yrs. So I felt sorry for her so I paid the fine and got it all squared away.

Some people broke into our next door neighbors house and my grandma phoned the police, they come down there and ask for informat. on what they stole....

Some boys come and get in the house and start to fight, so I told my mother and called the police and then the guys left. then they threatened that they were gonna get us, but they never did.

This little boy said that he was gonna shoot me with this gun, and I called the police, they came right in, told him if he did it again that they would put him in reformatory school. 3 weeks ago.

I called the police on my husband, told them that he was trying to hurt me. About 2 yrs ago. They just told him not to mess with me.

I was going to work one morning and a man was standing on the sidewalk, with a gun and he pointed it across the st. so I walked down the st and told the police. I went on to work and the police went over to him, but I don't know what they did, about 6 months ago.

Stellas Larken: Called officers cause someone was breaking into our house this was about 3 yrs ago.

I, I was arrested for the possession of cocaine, and the police asked me and I told them that I was not guilty, and he said then how did I get hold of it. Then I told him that [redacted] put it in my purse. That is my daughters boyfreind. Well they carried me to jail and him too. [REDACTED] I called the cops last yr on the next door neighbor, he was selling dope using, using dope and they was stealing peoples things and I was seeing it.

[REDACTED] I called the police on my so-called daddy, cause I had been out with a man and didn't bring home any money and at the time I was pregnant. And he would'nt let me have any dinner and he swung at me and hit me in the stomach, so I called the police. The police put me in the car and drove me around for awhile, but nothing was ever done about it. I once called the police on my husband, he took my son to his girlfriends house and the 2 yr old baby told off on him and the man slapped him in the face. So I called the police and they came and told him to leave the house for a couple of days. He came back, but nothing was ever done about it. The first incident was in 71 & 60's.

Choirie Gordon: I was at ABC market and some boy came up and asked did I need any help to take my groceries out to the car and I said no. By that time he had already snatched my purse out of the shopping cart and ran. I went home and told my sister and she called the police herself. The police came out and I gave them a discription of what the boy looked like and in a couple of days they came to the school ground making a big fuss. and the man on the school grounds in charge of the grounds, came out and called the policemen and then they called me and I went down to press charges and went to court. So they just gave them a few months

[REDACTED] There was a junk man in our driveway and I called the police coz he had gone to sleep in the car and I could'nt get out of the driveway. So the police came and told him to leave, so he left and came back and when he came back he broke a window out and went into the downstairs apt.

Nancy Clay: I called the police on a man beating up on a woman. He was calling this woman all kinds of names, it was right back of my house. He was talking about all kinds of things that he was gonna do to her and you now he could have shot at her and it could have gone right through my house and killed someone in my house. And so I called the police. this was about 13 yrs ago.

[REDACTED] I called the police because there was a bunch of boys fighting outside of my house, it was more than one fighting one boy, so I called the police. This was before I met Father, it was more than 4 yrs ago. The police came and the guys were running all over the place.

[REDACTED] I was told there was a girl in LA that wanted to run me, so I wouldn't work and I found that I was being followed, she was mixed up with some hoods, that is what it looked like. I went into a restaurant and I found that I was being followed, two men were in a car with knives and sort of like a radio. One of the girls involved, [REDACTED] and she insisted that whenever she saw me, to stop me

[redacted] ...or interview on a job, and all of this came about cos someone she cared for cared for me. She has a vendetta against me...and it gets more personal more involved, but I think that this is enough to clarify....I called the police on her cos I knew that this was a girl that had never worked since she had been in Calif, and someone told me that she was selling Cocaine, however I did not tell the police that or I did not use that expression, and I know that she was dealing in Hot tickets. There was a close girl, a friend that flipped out and I think that she had something to do with it.

(when asked by Prokes what she said to the cops she said that she used the story that the girl that was responsible for getting another one to flip out, having whatever that does to your head, I called mainly because I had compassion for that friend of mine and partly out of vengeance to the other girl) The police evidently never locked her up,

[redacted] Called the police on my husband cos he was rude and when I left the house he tried to run over me, 71, they locked him up.

Melouise Hall: Boy was stealing the bucket seats out of my sons car, and anytime that there is any trouble in my neighborhood I call the police. I've called the police many times. The last time was two yrs ago.

[redacted] The boys broke into my house then they broke into the house across from mine, then they broke into the house behind mine, my neighbors are mad at me and want me to tell it, but I didn't and now they won't speak to me. Called the police 4 months ago.

[redacted] Nextdoor neighbor, Sept 71, boy tried to molest my daughter.

[redacted] In Sept, 71 the next door neighbor tried to molest me. In 73 I told the police on how I got raped and we went to court, nothing ever was done.

Vivian Anderson: The house was broken into when I was at work, 73. On 7/13/73, it was broken into again. Many things were stolen and I called Father in EN that night.

[redacted] Called them on a man that I was living with, he had come at me with a knife, I had to sign a statement against him. This was 2 1/2 yrs ago.

Virginia Lane: [redacted] came into my house and stole all my things (cloths) 1959.

Robert Saffold: Someone was stealing the battery out of my car. By the time the police came it was too late.

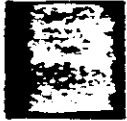

[redacted] he said that the Japs were going to take over the USA. He said when they did they would be nice to the Negroes.....so I reported it to the FBI. Then my deceased husbands wife came down and made some threatening statements to me that he had never loved a Black woman and that sort of thing.....so I called the police and they told me to call the FBI. They in turn told me to protect myself. This was the 1st incident about 20 yrs ago and the 2nd incident after 73.

Willie E Reed: Someone broke into my house and I called the police. Then 71 I had some disruptive tenants and I called the police on them. \$5-stolen things, 71-tenants incident.

[redacted] Called the police to protect my yard, kids were throwing rocks in it, it's been 1 yr. 2nd-my ex husband threatened to set my house on fire, by bringing a gallon of gas. Then a neighbor called me at work, said that he was pouring gas in my yard and was fixing to set it on fire. 69.

HELPED FIND BOMB

(Times Photo)

Deputy Sheriff Damon Brazell of San Mateo County and his dog "Baron" aided the search today in Oakland to find an unexploded bomb. "Baron" was called into action when other methods failed. He pinpointed the bomb area when the air conditioning was turned off. He has sniffed out other bombs with spirits contained in them in the past.
