Dr. Henderson -

Here is a list of financial alternatives please let us know which - if any - would be suitable. There is a code sheet here so it should cover any situation - Margaret and I both have copies - - once out of the country I guess we will be going messag. to Jean Brown - - so that we don't have to call her at work some how Julia needs to tell MARTHA where we will be staying and MARTHA CAN CALL there leaving the number of the pay phone she will be calling us from. and what time (her time), she will be there at that location.

(THE CODES ARE complete enough that if you have different financial alternative that they can be relayed with some ease.

Dr. Henderson -

At this point we are going to leave cash at Russian

Embassy ~~for~~ and get a receipt for the funds. We will let them read the will so they know it is theirs in our death -

- We will then go to Paris and either pull the funds or change D.B. name - which ever you decide - we will go to Sweden and do the same

- If we pull funds we will either put them in safe keeping in Russia to be theirs on our deaths or else we will put them in a numbered account

in Su's - which ever
you decide -

Hopefully the codes
and Alternatives we
have sent you will
allow us to communicate
comprehensively with
each other.

- If ~~at~~ Mrs. White visits
your all funds will
be given to Elenor
and we - after checking
to see that Baker,
Lauras and Ewartz are
gone will go on to
visit Stennis to give
some politicalization
to the end -

MEMO VOTING IN GUYANES ELECTION

From: Gene Chaikin

To: All Guyana Mission Personnel, Georgetown and Port Kaituma Staff
S/': Voting in Guyana Elections

For some time the question has been discussed whether our Guyana Personnel were legally permitted to vote in a Guyanese election, and if so, whether they should do so in light of the potential effect of so voting on U.S. citizenship status.

OPINION: Our members are not eligible to vote in a Guyanese election. Article 65 of the Constitution permits a person to vote only if he is registered as an elector. To be eligible for such registration a person must be either (a) a citizen of Guyana (other conditions), or (b) a Commonwealth citizen (other conditions). None of our members so qualify except for one who is a Commonwealth citizen, and has one year of residence in Guyana.

In accordance with this opinion I am hereby advising that none of our members present themselves for registration or to vote in any election for any public office except for the one member held to qualify hereunder.

Notes from conversation with Joe Lambert (Guyana Airlines)
today:

Mr. Lambert was at a conference of officials of the Northwest District over the weekend filling in for the Minister of Home Affairs. He asked around about us at our request and reported as follows:

1. We are respected for our farm program and are regarded as "better organized and managed than Shalom, but that doesn't mean that you are loved more." Shalom is persona non grata there now and we cannot assume that some of their flack won't "ricochet" off on us. According to Mr. Duke some of the Shalom assets are being taken over by the Govt. (I'll query Duke about this at p k next week).

2. Some people there are concerned about our "evangelization" in the area, trying to win a lot of souls in the area to our church. (I said we would build a church for our own use, and if people came we wouldn't kick them out but there would be no proselytizing (sp?))

3. Till two months ago Mr. St. Romaine was the top of the lot in the District but that is ~~xxxx~~ no longer true because about two months ago Mr. Hamilton Green (till then P.N.C. Party Secretary - the key post) was "deposed" and Saint was a disciple of Green - "protège" whose influence was greatly reduced by the demise of his political mentor. He still has effect, can hurt us if he has some power to do so, though little power left to help. (I took the point to be that we should still be nice to him and said we would) Minister Carmichele is now back on top of the heap with Mr. Issac Lambert as his chief and trusty advisor. This ~~is~~ information he got from his own observations and from lengthy talks "till two in the morning" with his trusted brother Mr. Issac Lambert. (I take this part with a grain or two of salt, because it is exactly what Lambert, Issac would say to boost himself and what J e would repeat to boost his brother, but we do know that Carmichel and Lambert are buddies, and the part about Saint going down with Green seems that it has some credibility.)

4. Our ability to get "letters from Senators" has clearly established our credibility, but it also has had the effect of causing some apprehension (my word) in that they feel we have the power to "bring down hell and damnation on Guyana" if we were too mistreated. They feel that we are in a position to bring negative political influence upon Guyana because we know all of these Senators, Polititians, etc. (This last in answer to my request for clarification. I said sort of an ecclesiastical Reynolds Aluminum - he responded "that's right" I said I'd never thought of it like that) He continued that because we were Americans "nobody really thinks you are C.I.A. or anything like that, but... with such friends in high places our potential power is something that they feel they should be careful of. He said it is like a little boy whose ~~x~~ uncle is the Godfather, he may not be aware of having any power but if he were messed over others would be afraid of retribution from the uncle.

5. (I asked if there were any further negative comments about the group or any particular members) He said only three members were mentioned specifically. Chris is a "nice guy" but they don't "take him seriously", "he is no thinker in the group". Gene... what's his name and Jonnie - the thin guy - are the only "two people to a watch". (What does that mean?) Well your group has never specified who the leaders are, but they feel that if they say something to either of those two, they are saying it to Peoples Temple. Leadership and thinking ability.

X-3-g-2a

he
(I think this came from Saint. At one point ~~ah~~ that I wanted to talk to me alone about a problem, since resolved, and I insisted that Jonnie come too - it was when we gave the P.M the blanket and record)

7. They are not "relaxed" with us yet, so he feels not to establish a social relationship at this time. He said that he would have taken us around to "everyones" home, but he feels it would not be expedient for him to do so now, but he certainly would continue to help us. (I said I understood perfectly and thought thats a relief)

8. He talked about fish a lot and the prospects of our bringing it in to the area. They said "Like, man, we can't get fish at all in here." (Chris must have spoken of this to him recently because at first I didn't know what he was talking about.) And said that we should definately get about this, but we should not sell it at bargain rates so as to "evangelise" (I guess he meant attract supporters) . We must be prepared to convince anyone (emphasis his) that our priceing was fair and that we were making a profit. The reason for this is that the Govt wishes to use us as a model to convince the people that Co-ops can be profitable. He said all of the things that we do should be such as make a profit and not an evangelizing function. (I took it to mean that the Govt. does not like it if we try to look better than the Govt. or gain support at the expense of making them look indifferent.) A 20 to 25% markup is a fair profit. That goes for the boat too. We should submit a proposal to the Minister after we do a cost analysis with estimated prices, days of delivery, and so fourth. Repeated that the fish idea went down very well.

(I am doing a cost analysys now) END OF REPORT.

From: Gene Chaikin, Georgetown

To: Jean Brown, Guyana Coordinating Committee

This is just a note to let you know that the Guyana Government has now formally given us permission to bring two shotguns into the country for use on the farm protecting crops, for hunting, and for protection from native wildlife. I am suggesting that you send down two 12 gage pump type shotguns with a five cartridge capacity. You should be able to find them in the group. I own one up there and someone should know where my things were stored when Phyllis changed residences. Shotguns, especially of that type are very costly down here. They should be full bore. I got mine used for \$50. (U.S.) and it works fine. If it is not too expensive, it would be good to air freight them down. Send them on a freight only line such as Flying Tigris, with instructions to be sent the rest of the way on Guyana Airways freight from Miami. Let us know when to expect them so that we can alert Customs and the Police to expect them so that there will be no administrative tangles because they must be cleared by both agencies on arrival. Customs will be charged upon the items based on the purchase price so they should have or we should have, some invoice receipt of other statement of value in place thereof.

Your concerned assistance is, as always, most appreciated here.

Dear Jean Brown,

Please have someone look up the following information for this man immediately. He wrote a very very good letter of support for us when the going was rough and we did not ask for it but he wrote of his own cognizance because he feels we are doing something good. He is an active member of the Lions Club here and is a successful businessman in the community. He asked for the information some time ago but the radio was not making contact and it sat up there for some time without me knowing it and he has called me twice about it because I assured him that we would send it over the radio and get back the information in a matter of a couple of weeks. It has been that long with a week to add so please get the info immediately. He has also loaned us his own vehicle when we were in a pinch and needed transportation.

Granberg Industries, Inc.
Richmond, Calif. 94804

They manufacture "Mini-Mill" lumber making chain saw attachment. (and possibly the ~~mm~~ chain saw, but I'm not sure if they make the chain saws or not). I'm attaching a brochure so that you will have more to go on. He wants to know the following:

- 1) Cost per unit C.I.F. Georgetown. Air freight.
- 2) Availability.
- 3) F.O.B. Price
- 4) Any other info of interest.

Address your reply to (along with carbon copy to me):

Thank you, Jean and how are you getting on? I am doing fine and find the weather very gratifying as usual and with even more intensity after hearing about the snow that you had there a few weeks ago. I don't like the cold at all, but I don't even have to think about it so I won't remind you of the pleasant 80 degree weather we have here almost daily. Things are going well here now and we are caught up enough that we are able to take turns going up to Jonestown, and besides, with the radio, ~~mm~~ we have an excuse for going (That is called rationalization, if I'm not mistaken). All for now. Take care.

In Father's Love,

Affectionately,

Paula

SUGGESTIONS ON CHART OF ACCOUNTS

<u>#</u>	<u>Comment</u>
106	-B will never have a savings account, no banks in area; del
108,109	-Should be "cash account"
111	-Too general. What would they be?
112	-We need a separate accounts receivable for <u>each operation</u> : boat, pigs, dairy, cattle, farm, mill, cassava plant, so we can review each one separately
113-116	-Does this include "goods on hand"? "work in progress"? How handle half grown crops-are they an asset? At what stage of maturity?
123	-Need a separate account for each building-maybe not in Georgetown-what do you think? example: vegetable market, lumber yard, office/home, church
140 etc	-No account for cleared and land per se - is it an asset? I think so, nor a expense account for the cost of land clearing.
141-165	-Need a separate account for each finished structure, <u>and</u> a work in progress or construction account for each structure during construction. Otherwise we won't be able to show cost for depreciation. See comment to #112. Also for unallocated construction supplies & equipment.
194-5	-How and when do you make entries? When a calf is born or a tree planted? Both valued much higher 4 years later.
200 Series	-There should be one set up for each business from the start-we will have to do it here anyway.
281-297	-Irrelevant, Delete
311	-Should refer to A only
312	-Separate account for each business
412	-Should be NIS
411	-Should be Withholding tax income tax
415	-Delete, no sales tax here, should be "Tax Stamps"
420-29Series	-Add photo expense, equipment costs, secretarial supplies
440 Series	-Add on account for medical and drugs, this x is a big item. I separated the housing & business functions on mine, it is a better way.
450 Series	-Should be a separate series for farm, pigs, dairy, cattle

cassava plant. Where do we put leasehold improvements such as fencing, pasture, etc.

- 501 -Note most lease expense Example: Survey should be capitalized. If they took the lease back (or part of it) they would have to pay us. They capitalize it.
- 505 -Delete. None there, could replace with radio cost, mostly M & R
- 508 -Separate account for residential and each business.
- 510-512 -See comments on A. Also note: Most of our payment is to labor contractors, farm should have such an account
- 516 -all exchange costs are borne by A
- 514 -Separate account for each business
- 532 -None, delete
- 500-30 -One for each business
- 540 Series -Add an account for chickens, (we grow our own-but not mix in food), medical, allowances, each
- 600-25 Series -We'll probably end up with several boats of different sizes, two may be "business" the others not. Each business boat will need its own accounting
- 750 etc. -We need a theft and casualty loss account
- 766 -Where do we depreciate the sawmill buildings and equipment as a separate entity?
- 776 Series -Separate set for farm, pigs, dairy, cattle, cassava plant

Well, let me know. I may not have it understood, if so clarify. We buy pigs in March.

Love,
Gene

Dad would be too hurt. I only came here for my baby, but now the constant, constant, conflict between Joe & myself, and people believing ~~here~~ him & feel like it's all useless and why? ^{Why?} put my baby through all this?!! So I strive daily for sanity. He says we can go when everyone gets here, well, I don't believe that. I don't necessarily have to go to the U.S. but this jungle and the confinement I can't deal with. What's a day off? all you do is sleep & play with your child. I guess I am a capitalist & spoiled too much. The hypocrisy, the click, click, - too much!!! Yes, we are the best people - well I don't believe that. I am 21 years old, and my life will surely consist of nothing more than it does now. So what's the final answer? Dad has tried to save us from all the camps in the states, the racism - shit send me to ~~Germany~~ ~~Germany~~, G.I. but this moral is not for me. What do you do? Schizophrenics, sadists, what do you do. I know Dad's love is so real - but save the children!!! Leave me be. No entertainment, I never really dug movies in the states, no dances, - no nothing. I don't want to just be as negative, but that, it's him - Meel!!! I am only human, - no decent men, not even to talk to. It's all just too much. Really. But how do you cope? I wouldn't bother Dad to write a letter, I know I am not the only one who feels like this. Shit they have music in Cuba, USSR. Oh, here we sit, living day to day. I love Gtari so much, but can I really be a good anything? I know what I could've had - and of course I realize that

this is I wouldn't if I had it never. But damn, anything almost is better than this. I'm just leaning myself down, but what harm does that really do. If Dad goes in Syria, shit, I will have to take a place next to him. He's the people, always the people that fuck you over. I know I shouldn't support you or work versa but I really couldn't stay - it's all bullshit and play that righteous tip - I am sorry I'm not yelling at you when you say you want to go home. I feel the weight of missing. Shit, something has got to give - I hope that when I talk to Cleveland, things will be better, but really I know how you feel about being fired. I hate the so much, to be so cruel & actually put that shit out - I swear I'd like to castrate his ass, but Dad is going there to much. Anyway, how much can you take. I don't know what your problem is but let's try to find out!!! Something has got to work. I had no intention on leaving really. But don't give me the chance again.
