TELECTION TO MASHINGTON DO STATE DEPARTMENT

From haria hatasaris

I am a member of reoples lemple Agricultural Project at Fort haituma.

I am extremely happy here, am engaged to be married to one of our young doctors.

I am in the same project as Miss Looman, whom you inquired about in the past.

by father, Steve Matasaris, is upset that I am living in Guyana in an interracial community as he is a known racist and supporter of the Greek Hilitary junta. Because of the teachings of my church, I have tried to be cordial to him, and told him that he could come down to visit me with some other guests who are coming

down in Secesber, including several church people and the California Superintendent of the Methodist Churches who is coming down to visit his two children. But my father got insulting and mentioned taking court action to get me away from here, and his behaviour brought back some painful experiences from my childhood. I am 23 years of age, and I will MCI see my father.

A wan in the ministry of information was telling me that there is another American group that is going to settle not too far from us in Arakita (I don't know where that is, but it is someplace near us).

The group is called "Huru SaSa". They lived in commune-type dwellings before they came to Guyana, and are supposed to be somethinglike Black Nationalism advocates. They came from Brooklyn, New York

JOE LAMBERT

Joe Lambert of Guyana Airways (Sales Manager) made the following statements about Johnny leaving:

- 1. What about the political considerations of the respect and acceptance that John has acquired?
- 2. He made an indirect statement about the consideration of John being the Black male in the forefront.
- 3. Not relating to John, he then informed me that he is expecting to come to see our churches at the end of May, 1975. He does not want to be tied down to going to any services or long meetings, but wants to see our facilities and any other point of information that he can carry back here about our group. I will inform you of his exact or almost exact date of arrival when it is confirmed that he will begoing.
- he wants to have a relationship with me(his words). This was a friend of Chris's.

SHALOM GROUP

All have left except one persom of the members who were from the United States. There are still some Amerindians in the interior who were with the project, but the American(U.S.) members have attempted to sell everything that they had leaving the Amerindians with no more than what is developed on the land. The only person who is still here is Greg Dorty, who is white;

BB-1-4

Dear Am.

I probably should have written this long ago. Because of what Debbi had done, I should open myself up more.

It was est first a shock when she left because I always liked her, but now I would sooner kill her as hear her name. It is hard to believe that is the same person I knew. I also feel a lot of guilt for her leaving. I recommende she go into town, I was nasty to her on the radio, I slidn't pass on traffic from the day before she left that she was not keeping the money up to date (Debbie Touchette said Earen left checks lying out unlocked also—I want to make sure I support all carelessness with money), she kept asking me several times if I thought she was companied in with this Cubam at this dance we went to at the Pegasus because Sharon reported her she said (I told her that I didn't think she knew how to handle the situation. I should have generated it because she was se afraid Sharon reported her.).

I want to idigress to when I came in last February after being stuck with Mann. I was host ile temase you, I know, only I didn't really analyze it at the time as being toward you. I was totally Errational in my thinking before I came in, but I blame a lot of it on Sharon Amos because then she wants to be right she does not give a dayn about anyone else if it threatens here I felt so alienated from you and from everyone at that time. I was beaten up by a madmam that I was mearly ready to kill and when I called our house and was in tears telling Sharon that I thought she made me feel unwanted, she did not tell me what was going on, that I was mot a part of the Gtn work, that my opinions were unsound or not useful and that I felt alienat ed. Instead of list ening to me, she confronted me about being unaccountable and bringing it onto myself because I was never around. I was irrational, but after spending women on the with the madman, having less than a month back home and back again for another mosth, I suppose most people might feel alienated. I think simply in the interest of the cause: and as a psychologist that she should have tried to pacify me at the time, but she never aid admit that she was wrong in any way. I know that I was a great deal to blame because that sale said was true, but I did and still do think that the reason she did not inform me of admix what was going on was because she was threatened by me. Mann was quite fascinated by an crying and kept walking back and forth when I was on that call. I never explained it to him, but he knew it was Sharom.

This last time was particularly horrible because there were a barrage of questions and

Mann particularly trying to trick me into admitting being involved with Wills attacks on him.

Perhaps it was coincidental but I became a fuck-up after Sharon came to town. I never stepped working ever, but my motivations were not sound and I was hostile all of the time.

I do not like Sharon even now, but I think she is better in p.r. than anyone else. (crisis p.r mostly). I think Sharon does not look at herself and is the most difficult person I have ever worked with in anything.

I brought most of my problems onto myself when I was in town. (I Have never considered betraying in the context of leaving, but I have been a traitor in that I have thought in terms of suicide on three different occasions..but I work through it, so don't worry. I know I can work out my own shit. I have done it for so lo ng that when I get depressed or feeling real sorry for myself, I stop and think about how many times I have worked through it and it is only a mattern of time until I work through it.) I am not telling you this for sympathy, because frankly I wouldn't write it if it wasn't worked through right now because I refuse to be anot her one of your burdens. I want to help not hinder.

I want to continue to digress so that I can leave these things behind. I was very upset when I wask told that I couldn't have Monique around when Mann was there in Amuzry. I took it out on Monique by not seeing her enough instead of expressing how I felt. I then felt a lot of guilt about it when I finally got home and then when I got out here and Monique was taken away from me in the sense that Annette is crazy and I would end up responsible for her death, I felt like I deserved it for not being a good mother. However now that I have been given a chance to make up for it by being a good parent, I may have to go to Georgetown.

If I have to, I will go, but dayce was so belligerent about giving me the loft for me and Monique that she will probably move me out while I am gone. I am not asking for anything except that Monique aget thrown into some new environment again. She has stopped a lot of her tantrums again but the change could throw her off again. Earen said she will stay in my loft with Monique but dayce may still try to maneuwer.

I have felt a paranoia off and on about why I have never been asked to go back into Georgetown to works. Then when I hear all of our discussions about not sending anyone an unattached into town, I wonder what is wrong with me. The irony is that I don't want to go into town. I just want to feel trusted to go into town. I don't get along at all with

Sharon and I hates having to meet people all of the time living an artificial life (in that you can never be yourself). I don't think I can work withhisharon at all. If anything, I would be a good coordinator probably, but I cannot work with aiks Sharon so I will try to be more pleasant on the radio.

It may be coincidental, by but at the same time, I don't feel trusted, I cannot do anything right and I fe el very dumb. I have not made any suggestions or offered any information that I might think I know because I figure I must be wrong. I don't even know how this insecurity started, but I had a terrible time working through it. I still feel dumb but I am not bothered by it.

I do not want any long drawn out discussions with you about any of this because I will only feel a lot of guilt for writing it. I have not written it before because I did not want to be another one of your petty bullshit problems, but if I do have to go in, I feel I owe you some straight talk.

As I have no choace but to live, I am glad it is with you. Thank you for working so hards to give us socialism. You have given me the best 7 yerys of my life, but I will be glad whe m it is over. Thank you.

BB-1-4-7

I have done a lot of reflecting since I got here. Before I came in, you asked me if I would ever leave. I said, "No." You asked how I knew. I've thought about it a lot and today I came to a conclusion which gave me some peace the more I reflected on it.

I believe in Marxism and communism and being in this situation I am now in (and lifestyle), I am out of place. I don't like it and would never fit into such hypocrisy. But I think Marxism is only as good as its leader and I believe totally in you. I never realized how much I believe in you and your example of communist leadership until I was forced to do some introspection and displaced in a countervailing atmosphere of anarchy and capitalism.

countervailing atmosphere of anarchy and capitalism.
It was important to me what you did on the radio that night when you risked our all to keep me from being what I saw my self as--and expandable piece of meat. I feel selfish and foolish on reflection, and an enormous amount of guilt that I would force you to risk our total organization on my behalf, but at the time I couldn't see it. It was no easy for some to jump up and say "she has to go in." I knew the answer myself but I know I took a liberty no one should have taken and tested you. I am so ashamed to face it now. I hope you will forgive me. I really don't know how you can stand us and more specifically me. specifically me.

I have a lot of guilt about a lot of things which are too numerous to mention. My attitude of self-importance when I came in and expecting the Georgetown office to call me when they are always

so busy is disgusting. I think I have done my job better, perhaps that is because I have been working from a basis of guilt rather than any self-righteous attitudes.

sometimes I get a bit down but afthink about the example Thanks you!

- when he met with Dwyer and McCoy. He said McCoy told him of 3 instances where your opposition made out right lies. He said he only cited 2 instances but said there were 3. One was a boy who they claimed had his head shaved and when they went out there (to Jonestown), he saw the boy and he had a big afro. He said there was no possible way he realld have grown his hair like that between the time of the complaint and when he saw the boy. He said there was another similar case. He didn't know either of the two peoples names, or wouldn't tell me. He said he asked McCoy if the District Attorney's office in San Francisco had found anything to the allegations made against us and McCoy said, "No." He said McCoy could have been telling me these things because of you." I said, "No, he has told the same thing to others, like Carl Blackman, and they have told us the same thing to others, like Carl Itali him that McCoy has been up to the farm so many times that if there was anything to the lies, by now he would have seen something strange if there were anything strange going on." I said, "Dick moved about going wherever he wants to and seeing who he wants to." "He may have something definite in mind but he is free to go wherever he wants to because we have nothing to hide." I said, "If you would go up with me, you would see for yourself." He didn't answer me.
- 2. He is mellow in the daytime usually. We talk between the hours of 9:30a.m. and 7p.m.
- 3. He is now planning to stay until Monday because he can't get a confirmed flight before then.
- 4. He is obsessed with playing poker every night. To night he was having a little trouble getting enough people to play so he's been calling all over to find people to play.
- 5. Then he came in this morning, 4:30 a.m., he said, "It is so nice coming home to you. With Juliet (his wife) it is always a big row (Guyamese expression for a fight)." This is the first time I've heard him talk about domestic troubles. My inclination is to remind him how good she is to him and if he mentions again—I will (unless told not to). The reason I'm mentioning this is that 3 times in the last few days, he's made comments about what I would have to do if I were married to him. It is likely a manipulation and an egotistical assumption that that is what any woman would want being in may position. I responded once by telling him, "Who said I want to get married?" I reassured him at the same time of my absolute love and loyalty to him, but I got a little concerned that he might get a divorce if he thought something was waiting for him. I don't believe he's thinking seriously and is manipulating, but in case they are feelers, I can't want to take any chances. He would be unmatched viciousness if he did divorce thinking I would take up housekeeping.

O upot & Duryer (Chaige d'affaires, 11.5 Embassey):

(A) Duryer sol we were industrious people. Told Mann of his

trip to the farm.

Every told Main that Mely was mentioned in 3 curl sents fled against us. He asked what they were that him it only knew of one - Kateaus. He asked why it hadn't told him I that if thought he knew because the way in the newspaper. He so, oh: it told him if was one of the defendents (which possibly may be why the Cl. didn't mention it to him). He asked how a case like that was work it so it didn't know.

(c) Duryer sol he didn't know how we'd manage after a while (moxing-wise). He sol we can't hope to get back our ortificant and when the money stops corning in, he didn't know what we wall do. He so had heard we solveited for funds from door to along. Mann sa, it didn't comment either, but it

wasn't put as a question)

Days so what worses him is that something will happen and sexult in all of us having to go brack and he'll have 1200 americans on his doorstep.

(E) Hi toid me that these things were told to him in private and not for public consumption or for other temple members.

At ind he told year Brown not to waste money flooding his office with telegram: letters (in response to the question about whether he get cone possesses from the conspidence). He say yes he sets mail from them, but want go into specific.

(F) Quesce able Mannif he gets many engineer from people alt us. When Mann didn't answer the question after stating it, if did.

people. He so, I don't know. I "you're had deflectors haven't
you?" I so, "Yes, a thief."

According to Mann, Kuryer is the one who brought up P.T.

Mann asked me alt the action against me I sod it was a slander suit from Katsaiis. He so, "Well it can't truck you here." I so, "ue, but if I popped into the U.S., Il cd be served and with have to appear." He did not say anything vicious to me alt Maria except that he didn't like the way she handled the notter to her father when he came Hord year Grown sid she saw Merials Dad one time give Maria a rather long dinging embraco: when geon questions Maria at it, Maria was very retirent to discuss it of ad after Katsaris started the slander suit Maria took a file detector test to prove she was resented. Willit Headed if she was really respected. It so yes, including oral sex. He so, what water answer men molest their daughters I sa' il don't know but there is a high sate of such incidents in the U.S. He so, "I know, hight now there is a court case of a worran who swed her father. molesting her as a child and she wrote to booklealled "Kin no Goodnight, Dealdy." She gave her father, a choiceeither aft medical care of a she wid sue him, the wid not acknowledge he'd was done it a crossed it from memory and she seed and won domages." I so well there you are.

(8) Il asked if the Biship ed come to town so they ed have a chat, I so he ed if there wasn't skill a court order out. He so he that that sottened of a habeous corpus thing was taken con of I so no why don't you come up there and talk to him. (I am still pushing to get him to corne up for a visit, whether a weekend or a day.)

= Question: Can I sak if he'r met Tim Stoen or Steve Katsais or any of the concerned relatives since I last saw him? What wear should I get inte? When we are in bed, the is open to questions and discussions but any other time he gets innoyed.

Asked him the sal no but he had ever discussed the sal he never asked him the sal no but he of discussed the sal he never sat that. That he had discussed the temple on time is had written him abt us I asked what alt. The soot he didn't know it was over a year ago, too long ago for him to remember (he sot this to a belliqued edg). He soot I can tell you this, the fith know you've here to me I so I not expect him to know if his security were thorough. It so what day the PM. It wink of you being with me. MANN I have been moody all day. It is the first time I had let this thing get too me but flow fine now. The constant pressure of this Borbados Tris in fixally sected. He had made reservations for me begardies of my protests and his experience mounting each time I so no. If thought for sure it would get to the point of threats both to the Trimple and myself (bodily)! Fortunately, the flights are a looked not ever his influence can get us flights in and out of Barbados. This morning discussion of the trip (before he found out we can't get talkets) was heated. He so I was being told what to do by the Temple and that he doubted if I'd leven have been allowed to come to town if it hadn't been him' (meaning who he is) and I'd wanted to come so bad. He so, your "Counsel probably met and discussed it and thought they & better let me go. they were telling me what to do, why can t-Thist pick up and leave if that is what Il wanted" "no one is here to stop me. I sod " I tald you I want to go to Gorada instead. Why don't we go there?" He

We the excusi that it was too expensive and difficult to get in and out. That was our morning discussion of Barbados, then we had an afternoon the that was so hootile, you cal cult it with a knife. He says I don't work to go and I'm not going." And saying, "freis ging." This went back and South. When he got the call about there not being seats on the place, he so, it was all me fault. When someone doesn't want to de something liverything goes wrong. "Il He so les black people av, didn't you know that" He then started making places to charter a place, until it told him how much Leonge Grandsoult worted to change Barbados is ended. He told the get to book him on the first available flight to liashington so he thay go Friday & any day thereafter. 2 It told him about Steve Katsaiis having a Konosexual affair and the black man sterain forward. I started the conversation asking if

The liked Katsaur. He so he'd oxly, not his

here. He sod, "If what Maria says it true it can only feel loathing for the man." If then told of his affair and he sod, "Them's white folks (southing)." He made a couple of remarks about how strange the sexual life of anciecans are! He laughed when it told him.

This conversation followed him making a pass at a 15 year did theiredian girl which lives across the street. It made some semale aces which showed disquet (I dhould have kept my mouth shut but she was just a little girl). He was embarrassed ont then away that it would think he would make a pass at a 15 year old girl. I know what it saw and heard—but he was not away of my presence until he was not away of my presence until he was well into his smooth talk which is why he agt embarrassed and then defenive and anony. After Maria being a topic of discussion, it think he got a little more concerned than he might have.

3 He is playing poker again tonight. I He met with awyer and Meloy today for a facula drink to Meloy. 88-1-1-3

MANN is it raked him if he was still young to see the Judge Bisup Ill'sd, yes. It asked him to telf him all of the Though instructed. can't do that, If don't ever know if he will diseas the case with no. " No so! " all it want to know is when he will heach his decision. He so, "People as saying one of two things wither the courts incompetent or the judge is going to rule against the Pegses Temple "the didn't on by and the government is putting priories told him it und kill Nom: had if Anything happened to John and that I had everything in life I wasted: him, a daughter, nervey, but this nears more than authing in the world to me. " The laughed and said, " you mean treat produces interitarce. " He abruptly stopped his laugh and I think from his pause thought better of it when I didn't respond. He then said, Honey, I can't interfere with this " et is Her hereath the voker I hold to tell him howhe should rule and besides it und only per his back against the wall. 2 I told him we never wrote any letters or BB-1-m-1

made any calls and that they were using Nixouan tacties to descredities. I was talking about and I told him the things Lie had mistioned. He told me that he to had gotten letters that sounded strange saying that gif show get the child and that justice should be done and that people would die if If didn't get the child I so, "What? ! " We so some "strang letters with that sort of thing " disa, "We never wrote any letters like that, I so, it is the same tactic they have used on others a lasked if we col have a try of the letters because we have proof from Someone else that they were doing this." He sa, "He didn't know when the letters wer; I get so now letters. They are probably hired. The sol, "Why don't you just leave things alone and not send all these letters and mail you flood our offices with: - this was at a different time and not following the convention. about you (P.T.) over a year age that If was the Chairman of some Housing Authority in S.F. and he stepped on some toes. " He So, told him that it is acceptable for a purate

citizen to poclaim himself a communist, but when a person has a large following and is in a public office, it becomes a threat. "He sol, Defector I are not unusual in any communist or left-wing group and always when they leave they say something to descredit the group they left probably to appearse their our conscience. He so, "I told you il spoke to one of your difeters in Los axques last year. I asked "like" He so, he didn't remember her name, but the told me before (he did not when it asked before - last year he with it even tell me what she sa). He so, " She told me just left because she didn't like it. "He so, "I puposed some provacative sort of questions to her to get her to talk. " He so, od asked her if she'd witnessed ony beatings head shawing and that sort of their " She so, so, she just did thike it." He so, most defection, instead of admitting that they don't like the discipline and scenfice, will tall some story to make up for their gult. They won't admit that they want what every book, wants a cadillac, good food, a house. " He sod, you just have to late with it " (means

He sod, ilt is lesier to say he (49) is a fake healer, there are beatings, and that with yourself." He say These won't be your only defletour, you ill have other " There is nothing investal alt it, the military sends anti-communit soldiers who defect to Cula. " Everybody has defector." "It is just that the defector leaving commune and chief rights groups always notes good copy." He not, "as far as il can see, they can't liven get goto coverage now, but are in some small-town paper. " He so, the Sun(2) and Chroxicle don't wen carry headlines assessione." He sod "What I don't waderstand is my of the long (John) is Stock's main cause, why they haven't lost momentum I tried to tell him about how they only feel that to completely, obliterate us and assinate I'm word reduce our threat." I told him Ifin nor us wed our going book to the U.S. but as long as we exist, but to them our very existence is a threat. I told him the law unt. were only a means to ensure we don't return and that they are looking for ways to make a criminal charge." He had he d talked to

July 25 Moscore and others in the D.A. s office and they told him they're investigated all of their allegations and could find no evidence Many truth to their charges." I told him the lawouits were a way to the way in court so we can't return because, although we with win the cases, it with cost a fortune to defend the cases in a perfect and their since. does stoen get all this money, - it costs a fortune to take cases to court in the 11.5 4 so! The State Department is coveració there is nothing to their charges and that the enquies are being directed through He so, " State Cupt is always getting calls from some Coxpess or other and the State Teept tells them there is nothing to it. He so, " you do IJ a disserve the way you are always getting so excited abt call me, Jean Blows tells the this about The conspiracy and that! it." thi talking about defection, he used the

Cherk tennis champion who defected to the U.S. Fortunately I knew something about it and we discussed it for some time. He sewaled a lot of his drive sympathics (not that il dish to knew already) by saying ohe just wonted what every the worts his a home, a nice can friedom to go where ale wants and to do what she wants. It not the U.S is playing it up sympathizing with her by using her wanting to see her family: they not have allowed to leave Chisposlavakia as the oppression citizens have to endure. He disagned that they (U.S.) have not played it up in the U.S.; he is there - he will know.

Capallize it. The has been showing a marked indifference to me by playing poker every night il decided a little independence needed to be shown by going out someplace with Shaw : Well or just go home for awhile. Shown, Cet; I went to C.J. Bolles house to visit Mrs. Bollers. after 30 minutes, Mana ly me, but very insecure when I am not playing homage to him. After bringing me home (with Sharon; Del accompanying), he again went out on a ruse saying he was showing his house to someone. It turned where he was at 8:30 p.m. " told him I was going out to eat (which is what we were to do that evening). He asked, who with? " I sod alove." He so where?" Ilso, I'd think about it on the way." He asked, where did you get the money I so, "Out

call Shawn: Debbi; invite them out and I's better at some more money out of the Inigeas: ellock Lian: Sandi out to dikner. Hi got home at 12 m.

He was very entagoristic all day. He got mod when I sol Och was going to read one of his books (as it nentioned befor, his incitional angu points are to touch any of his books or lat his callalto attur). If think he would have made a lip seeme at Mis Boller' house of it had a to give to go home. He told no, in private of lower, he thought I wan really seeing Ptolo (Reid). Late that night he again mentioned "Ptolo" and sol he remembered to hat someone told him abt me and Ptolo (I think he is making the up and probably heard I was in Reid's office a couple of times).

busing of your deposition of the first with him about all of his comments about set When he asked her why she didn't have a felle, she so I in taking interviews. Why, you're got somelody in nind?" Her quick selected concludes are very good because my sense of 38-10-2

I told him then I would see how I feel later, with every intention of the telling win no.) Since talking to shown , I dion of Senow how to rispond So I didn't respond at all. The only advantage it can see is that if we have any business to take care of in Ballindon or Trinidad, my passage " accordations would be paid, otherwise it think he would only buefly be upset for a few days, but it don't think It should tell Am until the last rinute or he may ask to talk to the Bishop and get you to excourage me to go. I didn't know the meaning of the word "insecure" until I met Mann. This country's in trouble of he's topical, which it believe to be the case. (1) He woke me up again to ask me of why of had given him the impression that we bere in competition with USAID. Il asked what a had said that ever gave him that impussion. We grumbled and it asked again. We so he

must have been dreaming because he didn't know what he recent. The then went on to tell me how the U.S. had virtually ent off all of their aid to Augura the Butick had cut off all their air to Aurona and the international agencies (more specifically he mentioned World Bank, INF and Unternational Development Bank have not given Augora origiting substantial. He so the lighest vote in these is the U.S. and the U.S. is not gires to Augura. He so the international agencies and U.S. are now tring to work in Jamaica to cut of their Relations with Cuba. He so socialism is a dit word with U.S. even mouse with the grassroots level than the higher eschelour. He sa Mrs. Exerce sa Aug doesn't have it so bad with shortages When she lived in Bulgaria, you always shop in turs. I asked him what Augara was going to do to oversue their econonic problems. He so "that is the question. (He is very troubled about no economic ais from the U.S.) He so he thinks that I Augua should encourage forcion micetors and give them the security that their investments won't be appropriated after a time. He so he thought it wo take years to buld up this kind of a relation with priente investors because of their applehension. He so he thought the kind of aid Hiazana was getting is not what is keeded the sol instead of these elaborate schemes like the hyperformer project on the Block Bush Polder irregation scheme, etc which are 5 year BB-1-no6

projects, that what Arryana needs is short-term projects which generate a product and employment like a glass factory or a liegele factory.

He so the biogest problem flugoria is facing in the drain of technical and prolessional people leaving the country. He so
they are leaving in drives. He asked me,
wor of a statement of fact, if it know how
many people were liked up to get visas to the

own choices - I wear in segond to the temptations of city-life. He is very upart with the two Doctors skinner who moved to Trinidad. They were personal friends and related thisigh marriage, that they didn't mention wanting to leave to him. We discussed the main problem with production He so the main problem is that all their foreign exchange is used up on xelessay food commodities so they don't have enough to give Trisinermen the money to get now materials which from produce suducts to export to bring in more foreign exchange. Then he so and it is ging to get worse."

He also so that with these international agains that they me start these big projects and then set all there anditions from year to year or they will out of their aid like IMF for example.

P.S .- He also sol the time is past for a two party state. He so the that Hurara Should only have one party and get down to the business of the economy instead of true to show the world that we are a country with free elections and denocracy, etc. - This marries he got a call store his deputy and assador about either an article or T.V. news seport which said that those opposing the referendum were besten up and that these were sists and demonstrations with tear-gassingly the police. - He so Augura should not be consentate. on sutting across on image as a Third White socialist courty because the courty is more in Reed of money and investors. - He has played poker every day since of have been here - Nothing of significance in his briefease.

- Probably this has already been conveyed many times, but alwest to a couple of stones today (department stones) and I was shocked at how close to empty these stores are of consumer goods. By year end, many will be closed down completely. If we were able to supply a store, be it alothing, or a miselline of goods, we should be able to make some money simply because of lack of availability. Declause no foreign exchange is required, we would have no import liebase problems. flury before we've gotten logged down with trying to beave money by avoiding duty if we imported for sale, but at think we well make money After if we pay duty. I also believe we would be better to pay it and do everything above - board so as to have no back lash.

if think we should also involve ourselves with some exportable item, like the undin ashtroup and humidors Mann suggested, and make some deal with our foreign market to keep a portion out of the country to ensure we'll always fave a server for foreign the sure. The Illations could be that BB-1-n-10

-he was cordial at the house, told me that IMF did go thru/ I asked if the US had given Guyana IMF loan and he said that the US hadn't had much to do with it, if the US had something to do with it, they might not have gotten it but he said that the US wasn't always the deciding factor -he said there is another grampum fund/ made up of wealthy mations that

help Caribbean nations that would be helping Guyana

- -he said no devaluation required for 1 or 2 years on IMF
- -no initial strings on the other aid, at least not that were obvious witho he said there are always some strings on aid
- -I encouraged him to visit the project, talked about Paula's heart condition he said that he didn't know if he could arrange to come in
- -told him we'd let him know when we got radio contact/ he said anytime of the nite or day was OK
- -he returned inthe evening around 11PM/ wanted to takik to Paula/ I told him that there was no radio contact and we'd call him in the afternoon when we had contact
- -he & told me he wanted to talk to me form awhile in the car/ I said OK just a minute and then ran upstairs to get Debbie to go with me
- -Debbie and I came down/ he said he wanted us to go with him for a drink to his house
- -we both went with him and had present pepsis/ he was quite friendly and we chatted about PT
- -he said our PR in SF was poor, that we were too much on the defensive and didn't have enough offensive PR/ that we should hire someone in a PR firm who knows how to get to the press and can present us in a positive light
- -he said he talked to one of the reporters who printed about Kathy Hunter and the man admitted Kathy was any alcoholic but printed the story anyway and Bunny made it look like xx he defended us hotly
- The said he's practically a member of PT and that some people won't even criticize PT in front of this because of mx this
- -he was very lonely/ didn't want Debbie and I to leave/ said he felt comfortable talking to us/ that he has a lot of acquaintances but not real friends and wanted us to stay overnight (almost got insistent about it)/ finally I told him; which Debbie was had her period and he took us home but he wasn't mad
- -he said even he would sleep on the couch and we could have the bed and be'd take us home in the morning
- -anyway he took us home
- -he's reading Indianax Decent Interval by Frank Snepp
- Shex he made a comment about Americans being so arrogant and that when he traveled to Europe he stayed clear of Americans
- -about the US policy in Angola, he said the US has made a reversal and has backed off and is acting like a friend to Angola but that is just bidding time and not necessarily optimistic as US was getting too much resistence on Angola
- -he said that people in Jonestown need to be able to come to Seorgetown and have a change of pace/ they need more freedom and Jonestown is too confining being one place. He made a comment about our members not drinking (except for MacElvane) liked all the SF people he met. They fed him real good gumbo and nice food at the temple and he liked them. He took them out too.
- -said our PR in town isn't good in that we spend so much time in people's offices (I told him that we had open houses, Debbie said it was because of his suggestion we did this, and we had people for dinner and went out to occasions also)
- -tho I mentioned we still didn't get invited much socially but we had people over here a lot and told him that our young people came in frequently for concerns going to clabs to play and getting around town (OVER)

```
-he said the aside from him and Paula we didn't date with Guyanese/ ixxxix we said that wasn'ttrue/ we had local im dating with our members and in Georgetown also
```

-gI kept encouraging him to go see Paula in Jonestown as he kept saying he was used to Paula and didn't think he'd stay long in Georgetown without her being here. He said that the problem with his going to Jonestown would be that it would be embarrassing because everyone would know and since he just flew into Guyana that would look bad

-he said that's one thing the PM doesn't tolerate, that kind of embarrassment and everyone knows him, Bonny, the pilots everyone/ he said if he were around a few weeks and then flew in it wouldn't be so bad but to just come in and then fly up there would be bad

-in regard to Mrs. Bouquet that wrote him, he said he wrote her an answer that seemed to satisfy her as he didn't hear from her again

-Bonny has a few friends like Neil Chung and someone in the States who he mused to make room with inxEmption some othercountry and they'd give parties/ he looks up this man now and the man is very nice to him

-he said Bonny did that the man at the newspaper that he talked to about Kathy EHunter "thought he was talking to some nigger"/ but Bonny said that he, Bonny, was more than a match for the man but it still didn't do any good -he said he got the nickmame Bonny because one he is like a bunny rabbit hopping from hole to hole and another because he's bonnie

to said he met this woman somewhere/ they were listening to someone sing at a club but she wanted him to takk take her home and it bothered km him because she knew he was an Ambassador and was trying to get an invitation

to a k certain social miles milies
-he said PT does good things but shouldn't talk about JJ so much but should
talk about the movement/ said Faula and others talk about JJ like he's

a Saint/ he said he talked to JJ and felt JJ seemed like a very reasonable person but he shouldn't have been talked about like he was a saint—he's still upset about Maria Kataaris, said she acted like a fool and that was bad for the collective, bringing the lawyer etc. with her when she went to see her dad/ said her dad has this image of being in psychology and if he had just been able to see her and find her in good shape, it would have been good but instead she made usch a fuss and kept changing the time she'd see her and dad and all that/

-we told him about the sexual molestation and how Maria felt/ he didn't seem concerned at all/ said he couldn't molest her with Bonny present and that Bonny am had promised he'd use any force necessary to see that she was protected and t (thus it was a personal t affront to him that Maria brought her own reinforcements)

-I said JJ doesn't control people/ Maria was attentix autistic when she first came to PT, JJ can't tell people what to do the he encouraged Maria to see her dad.

Whe said it was rediculous how Maria acted and that she obviously didn't think of the cause

-he said that (I mmay be repititious here, I am not sure) that we shouldn't talk about JJ so much but about the cause as we are a good cause and do good things

16/7/78

-he maximum was very mad because Paula had left the house/ she had an argument because he had stayed out all night and he was supposed to take her out and she thought she should act offended about this

-Paula im invited us to come to lunch, Debbie and myself, and he was supposed to join us but he didn't come by 1:30 and so we went in the car to visit Mrs. Bollers (she wanted Martin to visit her son)

Bunny came by the Bollers house and Paula told me to go out and talk to him he was passed because she had left and he wanted someone there to answer calls as his house is for rent for \$22900 and he wanted to set up

- -he said something about it at Mrs Bollers house (I told him he could come up there as I thought he'd be mad if we didn't invite him up, and I thought maybe it would be good for Mrs. Bollers to see him coming to meet us)
- -anyway she was somewhat impressed by him and kind of waited on him to im get him just the right drink and spoke to him about things related to the PN (like she heard the PN had a sauna bath)
- -Bonny asked her why she didn't swim in the PM's pools as she was right across the street/ she said she had to wait for im an invitation etc
- ~Bonny and she discussed such things as was he married, had he brought his wife/ no, he said, he said Bollers had handled two of his divorces and might handle thexx a third divorce/ said he was bored with Guyanese women so wouldn't marry a third (she's Guyanese, Mrs. Bollers)
- -at the house/ Bonnie wanted Dabbie and I to come by the house, they almost had a fight I sort of got involved in it, making joking remarks and Bonnie mellowed out since we were there
- -he kept talking about jealousy / said Paula used the Bollers as an excuse to get out / that he was like Jesus Christ betrayed by judas and all sorts of semi-joking rediculsus nonsense so I made a big joke out of it
- -he said Lucy and I dishn't screw and then the next minute he'd ask if we were leaving to see some men
- -he said I had a surplus of energy and it would be better if I had a game man and could put it to the rightuse/ I said that I always was energetic even when I was with a man
- -he said that Paula used to be that way, pacing all around, but now (because of him) she was a sedate woman
- when he made jokes or remarks about us not dating, I made jokes back, like I'm interviewing right now and I have an ad in the paper (he seems to like that kind of banter)
- -at Mrs. Bollers when he mentioned Barbados, he mentioned 3 days (Paula said he had told her a weekend, at the end of the week)/ he's planning to saay one more week
- -Paula said she'd prefer not to go, especially alone with him, but would do so if it would help like for pricing or whatever
- -I guess Bonnie was a little embarrassed as he told Paula to get some money and treat Lucy and me to dinner (Sandy and Léane went as we were out)/ she told him she had tawken \$20 for herself to eat and he said to get some more and treat us
 - -Paula was to ask Bommie what kind of speach Bonnie was working on fk for the PM/ Paula had first mentitioned that it was a speech but she found out it actually was something for the press or radio to * explain that the referendum was over / that it was time to put all the differences aside and work together
 - -that apparently some of the opposition plans to travel overseas to make speaches Jagan and others but if they do so they will have to pay the consequences
 - -that they propose a waxxix constituent assembly and if that works they will go on to a unity govt. (this is to avoid a national front govt. right away) they say it wust be I more than mingling together 2 g principal parties as that wouldn't produce national unity) sikexxwerker.

- i. I don't know when I will ever feel that it is "safe" to come out. Raybe I should just close up and go. In one day, so many things can happen that I have very mixed feelings about it. I want to come out badly because I know it will be a long time before you are ever in a position to come into town again (even if the custody matter is settled; will it be safe from extradition if you are off alone), and as you are aware, I would like to see Conique. I would rather see Conique in the children's program as long as she is getting the proper "parental figures" in the evenings, so I appreciate your suggestion of a visit in here for her if I can't get out.
 - I really don't think I should go now. As long as this court issue is going on and the medias are at our doorsteps waiting, it would be best to wait. And as far as I can gather, we still are not clear in our minds that "we are out of the same out." I really don't think we will ever get the straight outright assurances like we would like want, however, I think they will do the warm as they have in the past; to simply work out each problem as it comes while we are treating it like a crisis which could end all. I think there is a very lackadaisical attitude where we take things very seriously. They have not struggled for what they have achieved and don't relate to it.
- 2. The sugar strike may be over soon and the newspapers (like ..irror and finite Catholic ..tandard) will have nothing to print and can consentrate on new situations...like us. Nothing in the Catholic Standard this week. I will call ..ohazed manaludin on Thursday and check.
- 3. I had coyce go ahead and pursue procurement with this guy from irinidad because in my opinion, we aren't going to find a rich person with any conscience and this guy was tank captivated by Joyce if she would handle him right. I think coyce down't like to look like she is a gold-digger to men, but I insisted she ask for five main hundred dollars and she got it. The did the work, but I can small an "easy mark" when I see one. I couldn't see what it could hurt in pursuing it because he would have been hostile if she hadn't seen him occassionally. We is the ugliest vilest man alive. I cannot imagine any possibility of her having any interest in this man. We is disgusting. I think she ought to continue pursuing with this man. We is only in town occassionally and he usually comes through him with transportation for us amongst other things. We is a very lucrative investment for the short amount of time spent with him.

 I think he has a rought idea of what they are in for internationally, but I don't think he knows yet how to handle this thing and save the Guyana image with the U.S. and stand with us. - E. The report praised our work and thought the farm impressive, however he questioned how it could have come about. proposed sentioned senething about a slave colony and PADKORE quoted him and also went on to say that he saw people there working very hard (which hoberts commented that it shows that PADKORE is afraid of work). Roberts also remarked about PAD-hore's surprise about why would Americans who had so such in the U.D. want to come to Guyana which is under strain", Roberts said that it shows by his comment that if he were able to get a visa to the U.D., he would be gone.
- F. Roberts said that we sust keep in mind that FANNORs had never heard of us before, there fore when he came upon this city in the jungle with 700

18B-1- X-1

Americans and the only thing that he had heard about us was that we ran a slave colony and we beat people and stole old people's social security checks that it might influence his thinking. The point is that the persons influencing his thinking are Carmicahel, Gakkin, and Senjamin. I told deberts that the man was unfriendly and that he took two max pictures. One, of the max radio antenna, and two, of the garbage pit. Roberts saw no mention that pictures were taken written in the report, but that he would ask Fadmore about it.

- a. Roberts suggested that the best way that we could allay many peoples paranois and curiosity about our farm is to do a very thorought picture layout and submit it to the newspaper so that people would be expessed to what we are doing without thinking it is some clandestine operation.
- h. hoberts claims that he had FANNOL come into his office and gave him a good chewing out for assuming that the government and the police and in particularly his department knew nothing about the American farm.
- I. Roberts also claimed to have told PARKORE that he knew about us from the time that he came into the country. (When we were buying the CUDICE, he went out on a fishing cruise which was really to check into fish and fuel smuggling techniques. The cruise happened to be the same eveing that we were looking and important the knew boat. I was asked to cook and I didn't know how to cook at that time and I sabstoged the food. It was bad and he had not forgotten, nor did he neglect to tell everyone that mentions isoples Temple. haybe not a good impression, however, I made an impression on him that he hasn't foggotten.)
- J. One of the primary questions that rain.GHZ put in his report was, "now do we get our funds?" Roberts was saying, even if you do get social security checks from senior citizens, it is none of our concern. I told him that we are funded by donations. He said that there must be considerably less donations with so many people here. I told him that the church had not decreased and a church that had several thousand members could still get donations. Hoberts was not cynical, however, he did get a few questions in with discretion. He is very applicated in police detective work. He may appear to very much for us, and he may well be, but I don't underestimate his ability. He takes on a very casual air. He gave us his home and wrok numbers and as I told Karen, it makes it easier if we just call and give him the information rather than him having to dig it up(which was why I assume he gave us his home number).

- K. Overall, I think Roberts is for us. I don't think he could have maintained an air of support through the entire interview without being somewhat sincere. He said that in his experience with the rolice Dept. that the kinds of things that most groups face if they are being harassed is that people will either accuse these of something atrociaus (like burying habies alive) or something to smear their morality, by suggesting things such as orgics or the opposite-they can't have sex at all. He said that you usually find these kinds of rumore around large groups which are just getting settled no matter what they are trying to do(missionaries or whatever—he doesn't categorize us as missionaries because he knows our commitment to socialism). He said that this is someon where any large group settles.
- de said that the Mathemax Rabbi sashington of the house of Israel is a fraud and that he knows of his long original record in the U.S. Roberts said if he even so such as steeped on board an airplane leaving Suyana they would be waiting for him. Mashington is running from fraud charges in the U.S. Mashington make also committed fraud on someone here, although Roberts wouldn't tell us who. The reason they neither deported him nor went heavy on him with any prosecution was because Mashington claimed to be a former CIA agent and that here were those in the U.S. Who were just waiting to get him. At that time, they were very CIA conscious and they let him slike. To extra did say that they are watching him close now because he is again involved in some kind of fraud thing.
- in. I have heard from someone else on a cusual basis that Roberts is a very sensitive persons and one of the few in the police force with a conscience. I don't know how true this is, because I don't know him well enough, but I did think his suggestion about a pictorial presentation for the newspaper a positive comment.
- is. Noberts claims that because we have left the American dream and all of the televisions and material things that the average person both in the U.D. and in Guyana will think we are up to something by coming here. Heberts said that the average American can understand if an American comes and starts a business cooperative and gets everyone else to do the work and he collects the profits. That is just a good businessman, but they can't understand why anyone would actually want to come to live in Guyana.

It would shake the American people up. Why would we want to leave, etc.

D. he said that we could expect parents to start asking the police to look into their children. It always happens. I wish others would take it in stride like he does.

- P. FARRORE said that JJ was not really in charge, but only a figure-head, that the real persons in charge were Charlie and Joyce Touchette.
- i. I imagine you already know of the reports Leon gave, he said that JJ forced him into working when he knew that Leon had jmk just undergone back surgery, he claimed that we stole him veterans check (made him sign it away).
- R. I can't think of anymore to add, but if I do, I'll just add it below.

- I think Lionel's examination of the case is perhaps such more clear than anything
 we could have given you, however I will add a few of the deanils I know in case
 I left them out.
 - A. The Prime Rimister, Fred Wills, and the Chancellor of the Judiciary J.O.F. haynes (top post in the judicial system) are advising Lionel how to handle the case insofar as Lionel does the research and they say whether it is good enough to present in court. The Prime Minister has called Whith four times according to Lionel to ask how the case was going (which is why I think Lionel has taken such a sudden interest in it). The Chancellor has called him several times but Lio has had to call wills.
 - b. The court is going to nullify all of the orders for arrest of child and arrest of you and enter at the same time that Jeffrey Haas is not even qualified to represent the mother as he has no authority. If the Judge which Joyce appeared before on Friday remains hostile, then it will go before the Full Court and if they won't throw out the orders, then it goes before the Court of Appeal (which is the Chancellor) and he will throw it out. The Judge Aubrey wishop assess an interest wills why he didn't tell him appears was interested. File, according to file, informed mishop that whether government was interested or not, "bad law was bad law."

 There is no reason to believe that Judge mishop will be on our side. If he finally agrees, it will be done quickly; if not it will just take a little longer. It is assured that we will win the case as it stands now.
 - C. The procedure could be drawn out, however, wills did indicate that it would be finished before October 6.
 - D. wills is keeping a very close eye on the matter. He even knew that Karen was waiting outside of the courtroom when Joyce was inside. However, so was kichard noton and his assistant Dennis Reese.
 - L. I have enclosed a latter which was sent by Luckhoo to collect fees.
 - F. Karen has not been approaching langley at all recently because of two reasons. **e ascertained that he really didn't have any large amount of money that he would be willing to spend on her, and thes after getting that message, we stopped. It was very difficult to keep up with that anyway because we didn't have such spare time. However, to even get some of those outrageous fees cancelled would be quite a savings.

FROM FARY RULE

- 1. I think Joyce Touchette likes to be an alarmist. Then giving you the information over the radio about the court situation, I was trying to man get Joyce to explain the background that we knew from a meeting even she attended that it was very likely that the Judge would be hostile to us, but we were planning to take it to another court if he didn't agree. She made is sound like it was the end. Nothing out of the ordinary occurred. Even when they asked highes if Grace was coming down, he would have been a lousy lawyer to say "no".
- 2. Joyce has stirred more shit up here in the few dayse than anyone ever has.
 She has got Helen so hostile that we don't even know how to approach her.
 She has had to say something about us, because where delen was relatively friendly, now we can't even approach her and she is such a bitch to newcomers.
- 3. The worst person for telling new people the negative aspects of Jonestown is Joyce Touchette. Joyce told Tish and a group of people that no one coming down here should be pregnant and that they should get abortions. When Tish told her that Father said that some women never get over haveing an abortion therefore he lets them maketheier own decision, she said that she still thought this was not the time for any babies and you should haven seen what happened the the babies during the last siege." -he also made some reference to me about a walk in the bush and .arcie (the child) dying and we couldn't figure out what we were going to do. I don't have what the hell she is talking about and I certainly have enough trust in you that I do not feel it necessary to jeopordize our movement to try to clarify the situation over the radio. # I assume what she was trying to say was that hardle died and was raised from the dead and I don't feel it necessary to risk adding any details. Flease don't say enything about this over the radio. I brought it up because I think it is the glarmist in Joyce that likes to emphasize the negative on everything and even the way she told me would have left anyone else wondering what exactly he happened. I don't like Joyce and I like her even less on this trip.

TO: ALLL FROM MARY RUIN

1. The envening the agricultural leaflets came in more was a sensational crisis. Joyan and Karen went to the airport to meet the plane. I haven't gone for a long time and Joyce said that she knew some customs agents and they were very Triendly, woyce is perhaps one of the most calm people and appearingly self-massured person I know and therefore I have a lot of confidence; in her ability to handle situations that I don't think other people can handle. This tappened to be one of the worst nights ever and the customs agent in change from the evening was a mean masty someof-a-bitch. he made all of our meople hold their own passports and fill out their own forms (where we usually help them out) and made each one of them claim their own baggage (where we usually suit claim it all together) and had them take out all of thadar belongings out of each trunk and bag and m lay it out so they could see-envery it item.. Then like Carter saw what they were doing, he just ignomed six of the trunks which did not have the same markings on them. The customs people carried them away to the unclaimed baggage section. customs man detained the radio equipment only and sent all of the rest of the stuff through. So we had six unclaimed suitacases and the radio equipment. When woyce came home and some at about it, I took Joyce, Maran, and hike Carter and went back to the airport. - core took the last load of people there and Warren, "The and I staved at the airport waiting for the customs people to show up:for their morning shift. When they did, Karen and I compensated like hell and and fike wait out in the passenger area. We told the guy that some of the people had overlooked some baggage and were going up on the boat. I told Karen anything was go to get these guys friendly to us. The customs agent who was in charge and an absolute creep came on to karen pretty strong, so waren ended up carrying most of timt perveracking load. We finally ended up going over to the cargo area.. They spened the trunks and went through them fairly throughly but not looking too specifically for anything. We only had one very close call when they discovered a false bottom in one of the crates and when waren told them it was only sheets they said o.k. and let it go. be finally got thes all out of there. When that false bottom came up, waxallxtheughtxwhentxgaingx I thought we were headed for jail and trying to figure out what we were going to say about them of plant--part of the conspiracy?). Karen said she didn't realize we could have been arrested for that, but she thought quickly enough or the guy was just so enasoured with her that he didn't think. Anyway, I'm glad that is over. I don't think we should risk that again for a long time. One of t he guys said that someone from Telecoms told them to watch for radio transmitters. BB-/-35

SUBMITTED TO DE REID

Subject: Bonnie Hann's comment when he was drunk.

Raim looks at the Frime Minister Burnham as somewhat of a god-like figure. When he was drunk he made a comment about what he would do if the Frime Minister were to die and you were to be his successor. He said that you lacked the sophistication to make a leader in the world of international affeirs. He grumbled other things about how Guyana would have to turn the clocks of progress backward. But what disturbed me the most is his comment that before he would see you become Frime Minister, he would shoot his way to the top. He claims that his experience qualifies him and that he would stop at nothing to reach the position he rightfully deserves.

Tou think things have gone threes cents free here. I remember the days when burnham used to say, GIVE Every poor man a car." He said, "Tax big cars or a four-critician like wine (he had a big dodge), he said little cars like an Austin should be tax free or duty cut, you know a car is a necessity or a reasonable social ambition in a country where you don't have... They ain't got no clerk who cam buy that's for sure. A lot of rich people won't buy it either and now you can't buysitsatsails get any at all. Unfortunately, men are judged on their performance, not their words. Socialist theories are very nice, but they've got to work. They apply to people. No body is satisfied that they are on the road to socialism if one day they can see there is hunger cars going up more, amendancemental countries their expectation to own a car vanish Houses are out of sight. A theory has got to work in practice,

PA Made a defensive statement for socialism, Good intentions are not enough, Paula, no body is going to fault the Brime Minister or Dr. Reid for their good intentions to help the poor mam, but you can't just have a good intention and see the means of achievement are going wrong and you just remain with the good intention. You're mad; you can't get food to est, the next thing we ration is clothing including footwear. Look at the price of free elempricity for your house. Petrol you can't get, that is the oil crisis, the subsidy had to come off flour, different-things. Something is wrong with planning.

> When things get hard, the harder things get, the more elitist a society becomes et riche because a plutocracy, a rich class, Neil, Rex, Joe Chin, whose never suffer, they can travel when they like, they can do what they like, and the scarcity only the rich people can affaord.

PA-They don't travel such any more, they santingskickexshiltschountsducksanni don't

have any dollars to get out of the country.

RM- Who says so? What's wrong with you? You mad or something? That's only what you think. Then after the wealthy, the politically powerful. They are out scotching the house when poor people and other people can't get . Ther'll always have attaining things and clothing in their house and they will justify it on the grounds that they are werking for the people and they should have it if they nee d something.

283 Hey, Fred. Bonnie. Yes and tell her that there are no vacancies. I can only hope that some other mission will contact, us. Sorry that we couldn't have the

girl, but we're fully staffed.

I had a long talk with Sorbin and Winnie AAgard. I told them that what we should do is to mover very slowly. Try to make interim arrangements until we get someone adequate for a whole lot of reasons. Worrel was fairly unique because he was a lawyer trained in American law and went to school in Washington, and knew all the judges, In the U.S., you can ring up the jadge beforehand and tell him that one of your nationals is appearing before him and he'll tell you what the sentance is going to be or whether he will let him off. It is simple as that. I said that Prior and I will try to do all we can. Andrew King will continue to deal with students. Fox with passports, Prior with national's complaints, and with political work, insofar as guingxum making speeches and so on . I'll simply go and do it. As long as it is in the interim. You see, one of the problems is that Worrell was virtually an embassy withing an embassy, and if we put in anyone who is less able than he, you'll create an awful lot of friction. Secondly, I know somethings you can't find in a week or two, that kind of person. There were two people I suggested that I like, and one of them is big-fat bundas from Springlands and the other is brown-skinned chap Hutton, but not as permanent, but to do something with the nationals. Both are pretty convincing speakers, and thay could do some of the political work. 7That is half the problem, they wouldn't. It seems to me that Button or Dundas would be the kind of person to do the political work. They could act in some capacity or other. I don't winnie Augurd or Corbin to surprise me. Well to it first thing when I get back. Let's keep in touch. (pa a funny phrase). Essentially, he heard I was have and just wanted to have a chat and ask how I found things up there and Ra things very militarities. He said there were two things which were taking difficult; for him: the ILO thing and I see in the papers that we're not doing anything so that seems to be the end of that and the second was the Splinexindentacionate that he thought we were carrying the Suban vote in Delhi on the Puerto Rican independence issue (he is talking about John Blacken), so I told him that this is not true, that I have talked to the participants and to the contrary, we were extremely low keyed. It is wrong information. He promised to show you the cables he got out of New Delhi. I think Rashleigh should make a point to talk to Andrew Young about it. Sometime there are several points of contradiction. Suring is getting pressure we are getting because people are saying look what happened. They are saying thurs concluded that these fellows were saying that they wouldn't fly a kite for Puerto Rican independence and look what they think. And it is simply not

trum. And I'm going to make a point of ... I'm going to try to get hold of Habeeb.

He did mention that he had put up his request for lots of things. I said that I was glad to hear it, what did he think would come out of it? And he said that he didn't think that balance of payments, you know, cash flow on the loan, but some other form, including the type of arrangement with commodities which will be one form of assistance. He said they would probably put a package together. Then he talked about the state of the economy, what I thought, and what he thought. I didn't even know that he had seen the chief. I don't memember what day I saw him, on Tuesday or something.

They can't have it both ways. They are saying that a lot of the senators in Congress want to ensure that the U.S. system of economic assistance doesn't go to line the pockets of Elite of developing countreis on the other hand when you set out to create a society, they say the elise no longer exists and they say it is socialist or communist XXXXX Thats a fairly thin point. I'm very excited about the prospects of Habeeb coming and I know he'll have a good visit. This is all very tentative and you mustn't repeat it because only you and the mixe chief know He said that he would leave Washington about a week before the Grenada meeting of the OAS which begins in the second week, so we are really talking about a couple of weeks. As soon as I get back to Washington, I'll try to get in touch with him and find out from him whats happening. You don't plan to go is there of course, to Grenada. He is going to be there and so is Vance.

Ž.

\ Joe maid they got a game.

It is a mice form of relaxation.

It is a very funny form of relaxation for a socialist.

I don't understand what my playing poker has to do with being a socialist. I'm not trying to rob anybedy, just playing a game. You find the stakes large, you could easily play poker for pennies, its just that I don't know how to play poker for pennies. It that I don't know how to play poker for pennies. If that the limit that you can afford, (Explains the elements of poker). Anybody can afford to stick around for 20¢, that ain't anything. How man much you going to lose, \$20? That ain't anything.

\$20 to me is a lot of money.

Last night they had bets for a thousand dollars, the best one I made was for \$850. I don't understand how you can afford to man play.

Does the Prime Minister know you play poker.

Yes.

I can afford this game easily. I ain't a poor man. I never have been and probably never will be.

There was a time when people played less poker here when there was more to do. Now what you going to do. There isn't very much activity. People don't invest in houses, not much building. Businesses arent much. Except you mut your money in a bank there isn't anything for people to do like they used to: excursions, travel.are not easy. The human system must find some way of relaxing itself and one way is for people of means to play poker, or something else whatever it is. I find poker to be a pretty harmless form of relaxation as long as you can afford it. You sit for hours with big men, yourout of everybodys way out of danger of accidents and gossip.

People who have manual skills have manual hobbies.

We discuss how lazy this he is in doing anything requiring manual labour, and the elitist attitude which grows out of

When he heard about it, he gave we some kind of hint just like this time.

I don't understand the similarity. The Prime Minister was my best wan at the wedding, did you know that?

What does that have to do with it? He would have an interest in its fate.

When the Prime Minister said in "the girl from Peopoes Temple" What did yousgr.

I didn't say enything. I was thrown a little bit. I don't remember, we were walking toward the car. I must have said something like "Oh, how do you know?" He said, "Nothing escapes your Father's attention son"

What do you think he will think me being from the States.

What should I do write him a letter asking his permission.

I'm not saying to write him a letter, but what do you think he would think?

I understand if it was for an abortion or something or for something for a cocktail party or for something special, I could understand that, but PT should buy your eve yday working clothes. Total you one year ago that in this country your appearance is important. You don't see how Rai dresses. When I go to the Town Hall. From the time I go in there, they know it's some body important. I The way I look, the way I dress, I don't look like the mext man coming off the street. The same with Rai, when she goes to the Corentyne, she doesn't look like any Coolie girl coming to the corentyne, the way she dresses, the way she looks. And that's important in a country like this.

LOOKS, Appearance, everything is appearance. #

Well its appearance: important.

Witss importance to you.

You know in the country, I don't go around a country looking like a Jesus freak as a government ambassaodor.

I don't think therex is one things socialist about you. In The socialist revolution? . You think that I going to punish, that I'm going to go around walking around the street like Saul. You told me yourself that that was nothing but eating money. You were talking about 2,000 to my 3,000 dollars and you said yourself that that was nothing but esting money.

Whats what I said, what else com 2,000 dollars buy. I not poor, I sit around playing poker. What else 2,000 dollars going to bring? You con open business wi h that? or take off with that. I with more than that in a month.

SUBJECT: AMBASSADOR L. MANUS

Halm spent about an hour reviewing his past from knowing Burnham when he was a child through his days when he was with Cheddie Jagan and how he finally joined the diplomatic service.

Hann said that his family and the Burnhams are cousins and the families were very close. Hann's father and Burnham's father were both headmasters of schools and in those days it was somewhat unusual for a Black man to hold such a post. This shared experience made them closer.

Mann said that he went away to college and when he was at college he axxangents

farxibus described a socialist revolutionary and
in England they beard morest about Jagan's government than about the opposition,
so when he returned to Guyana, he became a member of Jagan's government. Here was
a parliamentary secretary and member of parliament.

Mann complained that Jagan only used him and that when Jagan made him the Minister of Education that he didn't even have the decency to tell him beforehand and the first time he knew that he was going to become a full minister was when he heard it over the radio.

Hann said they were heading for a racial clash when Jagan was in power and Jagan called in British troops to control the disturbances. Hann said this turned him and other members of the party off. They couldn't understand why this so-called communist leader was using British colonial troops. He said that a state of emergency was called and when this state of emergency was to be extended, many of the PPP-Jaganites either voted against it or not at all. The vote was an even tie and his vote was the one which would either reverse the decision or renew it, so he said he therefore abstained. Rumors were circulating that Hann was going to cross the floor so rumors followed that saying that he would be killed if he did cross the floor or vote against this emergency act. The police came to his home and requested that he allow the police to place two security people with him at all times because the rumors were quite strong. Hann intended to resign his post as minister and leave the country, so he had two security

people living with him until he went to England.

His marriage broke up under the Jagan era. He went to England and left his children to live with his mother. He studied for his doctorate in law, got tired of living as a second class citizen in England, so when Burnham asked him to come home and serve in Gayana, he did. (HiS VELSion)

Hann worked in the Ministry of Trade was economist section and then went on to be the permanent secretary of either the Ministry of Trade or it was National Development under Dr. Reid. If he did work as p.s. at Trade, he went on to National Development with Dr. Reid as his minister. He stayed at National Development until he was asked by Sonny Ramphal to take the post in Brussells. Hann told Ramphal that he didn't want the post unless he was made a full ambassador. Hann said that Dr. Reid(who was his boss at the time) agreed that he shouldn't take the post unless he was given a full ambassadorship. Mann said that Burnham was reluctant to let one of his "bright boys" go and almost didn8t agree to Hann going to foreign service.

Mann said that he went swimming every morning with the Prime Minister, Viola, and that he that he that he that he there were small from the time there got back until he went to Brussells. He said that every morning the P.M. would sweep down and pick him up on Robb St. and they would go to Calgrain House and go swimming. He said that on Sunday they would stop at Bourda Mkt. with pistols tucked under their shirts in their waistbands (in case a mad person approached the P.M.) and they would sell a stack of New Nation each (political paper). He got back from England in 1968 or 67 and left for Brussels in 1973, so if he is giving the true facts, he had been going swimming with him every morning for axisometric 5 to 6 years.

TITLE OF PROJECT:

MT. HARTMAN AGRICULTURAL AND TECHNICAL CENTRE FOR YOUTH.

I OCATION .

Mt. Hartman in the South of the

island of Grenada.

PURPOSE:

The establishment of an Agricultural and Technical Centre for training out of school youth with emphasis on Agricultural skills so that they could make a useful contribution to the development of the country.

APPROXIMATE COST:

\$300,000 U.S.

COMPOSITION:

Open to youths between the ages of 16 and 20 and other ages at the discretion of the Board of Directors. Commencing with thirty (30)

youngsters.

PROGRAMME OF ACTIVITIES:

Technical and Vocational training in Agriculture (livestock, horticulture, fisheries), Handicraft, Carpentry, Joinery, Masonry and boat building, auto mechanics, commercial subjects, sports, literary

and cultural arts.

FINANCE:

The initial sum of \$700,000 US. will provide the 1st phase of building (dormitiories, instruction classrooms and equipment). In the 2nd phase it is expected that the occupants would build recreation rooms, livestock pens, store rooms etc. It is estimated that the enterprise should be self-supporting. The profits to be divided as the Directors decide. All monies to be

placed in a Trust fund.

ADMINISTRATION:

A board of seven (7) directors appointed by the Government of Grenada. The Ministry of Youth, Development, Sport and Labour will be the executing Governmental Agency.

The Government of Grenada has been

OBJECT OF THE PROJECT:

looking for a new approach to solve the problem faced by all Caribbean States, namely that of providing a productive, practical, constructive and indigenous method of training young people who, in the main, have been rejected by society, to play a full part in normal society and it is hoped that many of these young people, as a result of their training will set standards of industry an accomplishment by which the State will continue to develop. Be it true to say that as all the well-tried methods have met with little success in dealing with this problem, the Prime Minister's flare for attempting to solve it by trying something new and unique is to be praised for if properly planned and administered it seems that it must succeed.

/too

(N.B.) It is hoped that the steering committee will not become/
rigid when it applies its rules for citizenship of the
town for although one realises that the age group 16 - 20
years presents the State with its greatest problem of
rehabilitation, it is obvious that there are large numbers
of young people aged 13 - 16, who by truency and various
anti-social acts are showing clearly their need for
character training, adult support and encouragement.

This Development Project, the Mt. Hartmen ignicultural and Technical Centre will give training to youth up to the age of 20 years in basic agricultural skills and related craft. The object of this Centre is to give a secure, organised environment in which there is given sympathetic, affectionate, responsible adult supervision wherein youths can nature and develop normally, the rejection, insecurity and damage of their early years be treated so that they can become useful members of society. This will be obtained by giving good adult concern and counselling and at the same time teaching enthusiastic work habits and high standards. Through the medium of helping in the governing of their own town the youths will learn social and society responsibility as well as self-discipline. It should not be the object of this town to repress or sufficate a youth's natural ability under a respressive regime.

The Underwater World

The water surrounding Grenada—the island's "wet world"— is considered by most to be as important, if not more so, than the lush green land itself. After all, where would our tourist industry be without those gentle waves lapping at our white sand beaches and a water temperature that stays around the hid 80's even when the snow lies deepest over much of the rest of the world.

The snorkelers and SCUBA divers among you can consider your search over! For when you (who know the certain fascination of the underwater world) reached Grenada, you found your sport's Paradise. Those warm water temperatures enveloped some of the finest reefs in the Caribbean and the underwater visibility in this area reaches 150 feet.

Our reefs abound with hundreds of different varieties of coral, sponges and tropical fish and the fascination for the diver endless-limited only by the amount of air in his tank. For the movic diver, the waters are extremely safe-it's a good place to learn how to snorkel or SCUBA. (We must warn you however, 'cause once you know how, you won't want to stop!) It's not uncommon for a diver here to push the fish out of his way while he is swim-

Some of the reefs are so spectacular that a SCUBA diver swimming in 50 feet of water will see forests of valuable black coral growing more than seven feet in length. (More about this coral on page 2). And there's endless matter for underwater photo enthusiasts with coral

in many shapes and sizes, sponges that cover a spectrum of colours.

Grenada's coastline offers unlimited protection from rough seas in its covers and the wind and rain can blow as it may without spoiling a day's diving.

Because Grenada provided hidden harbours for pirates in years past, there is always a possibility of finding that once in a lifetime wreck. One that everyone knows about and that the more experienced divers can dive on is the wreck of the Bianca C, a 20,000 ton passenger liner that went down off the coast of Grenada in 1961. (This wreck is in open water and lies deep, so it should be explored only under supervised conditions.)

UNDERWATER TREASURE

Black coral, that rare find in water 150 feet or more in depth, can be found in several parts of the world - including Grenada. That is because the water surrounding our island is warm enough, with a temperature of over 70 degrees (F.)

Difficult to locate and, once found, equally difficult to remove, black coral only meets its match when sighted by the divert of considerable experience. It will take a hammer, chisel or saw to remove the coral and then, because of its weight and drag this I "gem" tests the ability of anyone but the experienced diver to bring it to the surface.

Because it comes in a variety of colours, black coral can be detected only by the practiced eye. Once it is removed from the ocean floor and brought to the surface, the outer covering can be removed, making the black colour distinguishable.

So pliable under water (actually resembling a bush or tree swaying in the currents) it is hard to believe that this is an actual hard coral, Braided black coral bracelets have been seen, but they must have been braided underwater! Once brought to the surface, the coral becomes hard and brittle, but when cut and polished (and there are very few of these craftsmen in the world even today), it can be made into fine jewellery.

in jeweilery, black coral resembles gem only and can be worked together with gold or silver into lovely and fashionable items.

Rare and beautiful, formed and found right here in our own waters, black coral can truly be called the "gem of Grenada".

Fruits of

CASHEWS lend that brilliant spot of bright and shiny red to the market's offerings these days. The "fruit" is really a fleshy flower stalk, with a texture somewhat like a pear's. Small (2 inches in diameter and about 3 or 4 inches long), these delicate fruits have a kidney-shaped nut on the end of the fruit, which, when roasted becomes the cashew nut familiar to you. The juice of the fruit is used to make wine and jelly or a refreshing drink.

EASTER WATER PARADE

Shortly after 7 a.m. on Saturday, 9th of April, the second annual Easter Water Parade will be declared open in Grenada. With the release of Trinidad Horning Pigeons and the sounding a conch shells begins a full week of fun and races, cultural exhibits and shows, games and cancerts.

For one full week agricultural and industrial exhibitions will be held in special booths on the Carenage and the National Museum will feature the arts, crafts and presentations of our history each day from 10 a.m. until 6 p.m. There will be steelband music on the Carenage daily and visitors to the island during this time will be treated to the spectacular sight of yacht races, the first of these being the traditional Trinidad to Grenada race on Thursday April 7.

New to the yacht race portion of the Easter Water Parade will be the Petit St. Vincent to Grenada race on Friday 8th April. And on Easter Saturday there will be a sloop race from Carriacou to Grenada.

Swimming races for both children and adults will be held on Saturday, Easter Sunday and Monday and dinghy

Cultural presentations will be held on a floating stage on the Carenage each evening and netball, basketball, and water polo games will be held on Saturday, Monday, and Wednesday. Starting times for each of these events and detailed information on the week's programme can be obtained from the Easter Water Parade Secretariat on the Carenage (next to Barclays Bank Branch).

Perhaps the highlight of the whole week, at least as far as excitement goes, will be the high speed boat races around a course off Grand Anse beach and into the mouth of St. George's harbour. Spectators will be able to see this race on Easter Sunday afternoon from Grand Anse beach.

Whether you are a keen sportsman, an avid historian, interested in culture and concerts, or a visitor looking for yet another facet of Greinada's fun-in-the-sun-type offerings, there will be several events just for you during Easter Water Parade week!

DIVING ON THE WRECK

A large school of barracuda watch over the wreck from above. A huge turtle occupies one of the underwater statemobms. And a myraid of tropical fish do what they can to make the wreck of the Bianca C one of the greatest wrecks to SCUBA dive on in the Caribbaan.

Lying just west and a bit north of the tip as Pt. Saline (our lighthouse point), this wreck attracts a number of experienced divers, just as those small tropical fish hold the attraction for the barracuida. The topmost section of the ship lies just ninety feet under the surface of the sea, but the bottom of the stern is more than 200 feet deep.

Perhaps the depth at which the Bianca C rests accounts for the noticeable lack of growth on her hull, says Leroy French SCUBA diving instructor here in Grenada. Mr. French, who has dived on the wreck numberous times points out that the linces of the ship are still disceramble on a clear day and a diver at the flow can see to the middle of the huge 610 ft, hulk.

As is usual in the case of sunken ships, there is talk of the treasures that went in the briny deep with her. Fortunes in cash and jewellery are said to be lying in the staterooms and in the vault-fortunes made by the Italians living in Venezuela after the wair, now carrying them from that adopted courty to their homes in Italy. Are they still hiding there below the sea? Perhaps only the turtle and the barracuda can tell, you.

RECIPE

How about this recipe for one of those special "gifts" from the sea.

BAKED-STUFFED RED SNAPPER

A 3 lb, red snapper, cleaned Stuffing:

1½ cups bread crumbs
2 T chopped onion
½ cup chopped celery
2 T chopped parsley
1 or 2 bearen eggs
½ tsp salt
1/8 tsp paprika
½ tsp dried tarragon or dill seed
¾ tsp nutmeg
Mix all these together with a little
milk, melted butter OR stock to

make a loose dressing.

Preheat oven to 325°
Stuff fish loosely and sew together
Bake about 40 minutes or until done
Serve whole on platter, garnished with
parsley and lime wedges and, if desired, a sauce of equal parts melted
butter and sauterne.

'grenidioms'

The best laid plans...the saying goes, often go awry. But in Grenada, for anything that was supposed to have been, but wasn't, the expression is: "Rat et (ate) that" We have heard this expression applied both to a marriage on the rocks and a cancelled party.

Underwater World

Excellent reefs for either snorkeler or SCUBA diver are north of St. George's. Or if you'd like to take a trip up to Carriacou, there's Sandy Island there, just off the southwest tip of Carriacou. Less than half a mile long and only 150 feet across, this looks more like a sand bar than an island. But shrubs and palms grow there to provide shade for those rests in between diving sessions and even a toddler can stand in two feet of water wearing a snorkel and mask and see the wonderland below.

The snorkeler or diver should know enough not to touch the spiny black sea urchins lurking in and amongst the rocks and coral formations. The long, black

If you enjoy the Visitor's Guide, thank an advertiser. It is his support that enables us to send it to you. spines are painful under the skin and they can get there very easily if you're not watching where to step or touch!

On the other hand, the white sea urchin, with short whiskery white spines can be picked up, live, in the hand with no harm done whatsoever. Often times one can see workmen on funch hour out on a reef exposed at low tide, gathering in these white sea urchins and breaking them open to get at the "meat" inside, which they eat either raw or cooked.

it's a silent, colourful, peaceful world down there. A new world. Why not explore it?

IMPORMATION ABOUT GRENADA

1. CENERAL

1.1. LOCATION:

Grenada is the most southerly of the Windward Islands, which forms part of the Lesser Antilles group in the Eastern Caribbean. It lies 90 miles North of Trinidad, and 68 miles South-South-West of St. Vincent. The Territory of Grenada, includes the Grenadines - islands of Carriacou and Petit Martinique, and a number of inlets all covering a combined area of 133 sq. miles.

1.2. PHYSICAL FEATURES

The Islami of Grenada is volcanic in origin. It is very mountainous with a ridge of mountains traversing the entire length of the island North to South with spurs running off on the Western and Eastern sides, The highest peak is Mt. St. Catherine, 2,757 feet above sea level. There are a number of mineral and other springs on the island, and three lakes, formed in the craters of the extirct volcances. The South coast is indented by numerous natural harbours.

1.3. CLIMATE:

The average temperature is 80°F. There are two seasons — the DRY from January to May, when it is both cool and dry; and the WET from June to December, when the humidity is high and the temperature rises to as high as 90°F. These conditions although oppressive, are not unhealthy. The rainfall varies considerably, the average for the coastal districts being about 60 inches annually, and in the mountainous area as much as 150 inches to 200 inches. The Grenadines are normally drier; on Carriacou the average rainfall is about 50 inches a year.

. /Tre

1.4. POPULATION:

The population is approximately 105,600, the mnjority being of African or mixed descent. There is also a small European population, a number of East Indians and a small community of descendants of early European settlers.

1.5. GOVERNMENT:

Grenada achieved full Independence on 7th February, 1974. The country has a Parliament consisting of two Houses — The House of Representatives (15 members) and the Scrate (13 members). Cabinet consists of the Prime Hinister and twolve Ministers. Cabinet is responsible to Parliament. Upon Independence, Grenada became the 34th member of the Commonwealth and is a Homarchiac State. Queen Elizabeth II, who is Head of the Commonwealth is Queen of Grenada and is represented by a Governor-General.

1.6. HEALTH PACILITIES:

A General Hospital with 240 beds is located in St.

George's. Also situated in St. George's are psychiatric
and isolation haspitals, a tuberculosis sanatorium, homes
for handicapped children and for the aged. The Princess
Alice Hospital at St. Andrew's and the Princess Royal
Hospital in Carriacou each has 40 bods. Both in St.

Andrew's and in St. Patrick's are homes for the aged.

Public health facilities are provided by the district health service and the hospital service. There are five main Health Centres as well as smaller medical stations.

Malaria has been oradicated and there is PAHO programme for the oradication of yellow fever. Prevention of communicable diseases has included mass immunisation campaigns.

1.7. EDUCATION:

There are 62 Primary schools; 12 secondary schools and 2 junior secondary schools. The Junior Secondary School system is relatively now. At present there is one in Carriacou and another in St. Hark's Parish, Gronada.

G.C.E. Ordinary and Advanced Levels (University entrance) are offered in the secondary schools.

The Granada Tochmical and Vocational Institute provides courses in Commercial Arts, Industrial Arts and Technical Skills, while Teacher Training is provided at the Granada Teachers! College.

Adult Education courses in Homo Economics, Nutrition, Agriculture, Child Care, Handicraft, are offered by the Ministry of Community Development, while continuing oducation in academic subjects is organised by the University of the West Indies Extra Mural Centre.

1.8. ACRICULTURE:

The economy of Grenada is based principally on Agriculture. In 1972 export agriculture accounted for approximately 97% of Grenada's exports. The principal export crops are ecoea, nutmog and bananas.

1.9. TOURISKS

The Tourist Industry has become a significant contributor to the growth of the economy of Granda. The growth of this industry is reflected in the number of visitors arriving in the country excluding cruise ship passengers. Between 1966 and 1973 the number of visitors increased from approximately 20,000 to 40,000.

In 1973 some 18 hotels were in operation in Grenada ranging from the 186-room Heliday Inn to other hotels in the 10 to 15 rooms category. Since 1968, hotel construction rate has averaged about 95 rooms per year.

2.2. PORTS AND SEA SERVICES: The main port is in St. George's (also the Capital). It is well sheltered and has excellent berthing and decking facilities. Other ports of entry are at Granvillo and Hillsborough in Carriacou used mainly by small craft.

Regular cargo services to Greenda from British, European Canadian and United States prots are provided by ten shipping lines. Inter-island passenger and cargo services are run by ships of the West Indies Shipping Corporation and numerous small schooners.

2.3. AIRPORT AND AIR SERVICES:

Pearls Airport is situated about 2 miles North of Gronville on the island's North-East Coast, Strengthening of the runway is boing currently carried out. The length of the runway is 5,250 ft.

A feasibility study has been carried out in connection with establishing a new International Airport.

Air Services to Grenada are operated principally by Locward Islands Air Transport (L.I.A.T.). Daily scheduled services through Pearls Airport link Grenada with Commonwealth Caribbean islands and are adjusted to connect with major airlines at Trinidad and Barbados.

LIAT also operates daily services to Lauriston, Carriacou. Freight services are operated by Carib West, LIAT and Tropic Air.

2.4. TELECOMMUNI-C.TIONS: There is an island-wide automatic telephone notwork with seven fully automatic linking exchanges operated by the Grenada Telephone Company Limited which is owned by the Continental Telephone Corporation of the United States and the Government. Radio Telephone communication with all countries of the world is available on a 24-hour daily service.

Telex communications are operated by Cable & Hireless (HI)

For industrial and commercial use the service charge varies according to the size of operations and .15¢ is the charge per unit for the first 75 units, .10¢ per unit for the most 495 units and .09¢ per unit for anything over 5,000 units.

2.6 WATER:

A comprehensive programme for providing pipe-borne water to public taps on an island-wide scale was completed in 1967 with technical assistance from U.H.O. Since 1969 a Central Water Commission has been established with authority for supply. Measures have been taken to nect the rapidly increasing depend generated by tourism (amounting to over 100 gallons per head per day in the hotal area during peak season). A treatment plant for 1.35 million gallons a day and a new 9-mile distribution main have been installed, and a reservior to hold 250,000 gallons constructed. These improvemen a are being carried out as part of a 20-year programme of which the main capital costs are being not by the Canadian Government on a project-toproject basis. Financing of local costs is being assisted by the Caribbean Development Brak. Water rates are payable as follows: a general rate is based on a percentage of the assessed annual rental of property; a water supply rate of 50% of the General Rate is payable annually by demostic users; a metred rate of \$10.. per thousand gallons per month is applicable to commercial and industrial concerns.

3.6. IMPORTS AND EXCHANGE CONTROL REGULATIONS:

Exchange controls in Grenada are modelled closely on those of Britain. Remittances to the Sterling Area for payment in respect of goods and services are allowed freely. There are certain restrictions of transfers outside the Sterling Area. There are preferential rates on duty for all British goods, and most British goods san be imported under Open General License.

3.7. INCENTIVE LEGISLATION

The Government of Grenada encourages the establishment and development of new industries and offers generous concessions to likely investors and pioneers.

Incentives to Industry in Grenada are provided under:

- 1 The Hotels Aid Ordinance Cap. 139 of 30th May, 1954 and subsequent amendments.
- 11 The Fiscal Incentives Act No. 41 of 4th July, 1974 which replaced the Development Incentives Ordinance No. 20 of 1964.

These Acts are mainly geared to encourage the establishment and expansion of the hotel industry and manufacturing enterprises in Grenada by providing:

- relief from customs duties on items imported for the construction, equipping and operation of enterprises
 e.g. articles of hotel equipment, building materials, plant, machinery, raw materials etc.
- (11) exemption from the payment of income tax on the profits arising from the operation of the enterprise.

A person or persons interested in conducting an hotel enterprise (not less than 10 bedrooms) in Grenada may, on application to Government, receive a licence under the above-mentioned ordinance which provides for:

- the importation free from customs duties those articles of hotel equipment and building materials ... meant exclusively for the construction and operation of the hotel and specified in the licence.
- the drawback of customs duties on articles of hotel equipment and building materials purchased in Grenada for the hotel enterprise and specified in the limence.
- the remittance or authorisation of refund wholly or partially of any customs duties payable or paid by the licence on the articles of hotel equipment and building materials specified in the licence.
- the complete exemption from the payment of income tax on income arising from the operation of the hotel which has been granted a licence in each of the ten years of assessment next after the year of assessment in which the licence is granted tax holiday period.
- A manapany limited by shares shall be entitled during the tax holiday period and within two years thereafter to distribute a sum equal to the income arising during the tax holiday period from such hotel to the numbers of the company and every such sum in the hands of such numbers shall be exempt from the payment of income tax.

11 FISCAL INCENTIVES ACT 1974

An enactment giving effect to the harmonisation of fiscal incentives to industry among member states of the Caribbean Community. The Act is geared to promote the industrial development of Grenada by providing to industrialists.

- (1) Exemption from the payment of customs duties on the importation - from outside of member states of the Caribbean Community - of plant equipment, machinery, spare parts, raw materials or components exclusively meant for an approved enterprise manufacturing an approved product.
- (25) Complete or partial exemption from the payment of income tax on profits arising from the sale of the approved product for a specified pariod;
- (i31) Net losses incurred during the tax holiday period may be carried forward for the purpose of set-off in computing the profits of an approved enterprise for the five year period following the tax holiday period;
- (20) Dividends when paid to shareholders or their nominees (including a company) during the tax holiday period are exempted from the payment of income tax.

For the BB-1-MM-**2**19

For the purpose of determining the length of the tax holiday period, industrial enterprises are grouped. More favourable treatment is given to those enterprises having a higher local value added content and to those enterprises that export to extra-regional markets a significant proportion of the manufactured product.

DEVELOPMENT

3.6. INDUSTRIAL Grennda has a growing young population and new job opportunities must be found since agriculture, by itself, cannot provide all that are required to improve the quality of life in this country. In 1972 the Economist Intelligence Unit, a firm of industrial consultants in London, was commissioned by the Caribbean Development Bank to study the possibilities of establishing manufacturing industries in Grennda and other territories of the East Caribbean.

> The Report concludes that less developed English speaking territories in the Caribbean provide a sound base for the establishment of labour intensive emport industries and has identified the following industries as providing attractive opportunities for export to North America and Europe:-

Electrical accessories; electronics; knitted piece goods; outer garments; intimate aparel; underware; plush toys; canned fruit; leather goods; sports goods; costume jewellery.

For each of the above industries, the ETU prepared a complete set of prospectuses which describes the market, the kind of equipment required, the labour force, capital, costs and prices, and estimates of the rate of return on capital. These preliminary feasibility studies are available to potential investors.

Concious of the desirability of promoting industrial development

s - Tourney Community (大変ないのできた。 public - 本対し Lough (1996) 1997 年 から日本の in Grenada, and recognising the urgency of the need to provide the necessary inducements to foreign investors, the Grenada Government has decided to establish an industrial estate with six factory shells 120' x 50' in the first instance at a site in Queen's Park about one mile from the port and harbour in St. George's.

3.9 HOTEL AID: An Hotel /ids Ordinance provide for:

- Duty free importation of building materials and hotel equipment as specified by the license granted, and
- complete exemption from profits or dividends from the hotel enterprise for a period of ten years.

3.10 INCOME TAX: Income Tax is payable upon incomes accurring in or derived from the island or elsewhere. However, Double Taxation Agreements exist between Grenada and the United Kingdom, the United States of America, Canada and certain countries having Double-Taxation Convention Agreements with the United Kingdom. Personal allowance is \$1,200 E.C. Rate of tax upon the chargeable income of a company is 45%.

3.13 SALE OF LANDS

All persons who are not British Commonwealth citisens, wishing to own lands or take shares in locally registered companies are required by law to obtain a licence from Cabinet. Before such licence is granted, however, each applicant is screened as to his or her background, financial standing and general suitability. As long as Government is satisfied as to the particulars reported in all these aspects the licence is is rusd.

Sometimes, however, depending on the source of the application and location of the area sought, this processing might take any time up to three months to be concluded, but the period is generally much shorter. While this might seem somewhat time absorbing, Government reviews cases with all reasonable despatch.

If the application is for the release of lands, the processing necessitates a report from the Land Use Division of the Department of Agriculture as to the suitability of the land for cultivable purposes, among others. The main reason for this is to achieve a balanced development, without detriment to the agricultural potential of the territory, and in pursuit of this, a broad scheme for zoning for tourist and similar development is followed.

Lands in the South West and Eastern parts of the island as well as some areas in the Northern part for instance, are considered suitable for development other than purely agriculturally. If, however, the land Use Division's survey reveals that agriculturally potential land exists within the areas sought to be required, a licence will be issued with restrictive terms to ensure that the agricultural portions are utilized for agricultural purposes.

This is the general basis on which licences are issued to aliens for holding lands in Grenada, and it has no relation to the size of the holding. Government, however, has decided against granting licences to aliens for islets around the territory.

LAND AND HOUSE TAX

Tax is normally chargeable on houses at a rate of 8% of the assessed (rental) value. A tax is imposed on land at 50¢ per acre or part of an acre (East Caribbean Currency).

A charge of \$5 per acre in respect of non-resident aliens.

AGRICU RE & IVESTOCK COMMISSION Minuter of February 14, 1978

Secretary: tl

Analysts present: Jim Morral, Russel Hoton, Jan Wilsey, Jack Barron,
Gene Chaikin, James Simpson, Philip Blakey, Guy Mitchell
and Rob Gieg.

Chairperson for the meeting: Jack Barron

Pollowup:

Insecticide barrel -- Tommy repaired and sealed the banana oil barrel.

Dogs to fields Jans crew took some dogs to fields; Learning is taking one or two; Chaikin has adopted a dog and giving it time. Othersstill need to give more attention.

Hap Numbering Fields Started at analysts meeting Sunday night. Initial work is done.

Grenadilla vs Fumpkin

Jack says the nutrients in pulp are approximatly the SAME.. and seeds in both can be eaten. Pumpkin seeds are perhaps a little more valuable, being approximately 50% oil and 30% protein, and being a strong deterrent to certain parasites, according to Dr. Schacht. We have enough land so are planting both. The seeds of grenadilla have a few more uses.

Project-wood

H.S. is to start a project searching for wood we can use in our sawmill operations.

Livestock

Jim Morrel reported: pushing the well, we are in a time of long dry and this is important to the stock. Jan's crew getting the poles; 100 along road and they have more in the bush. Have enough for what is scheduled. Must dig well deeper, also.

Chickenry

37 died out of 584; they had broken tongues from being pipped and starved to death. JJ said no more pipping.

Dr Fernans said if using commercial feed, use only the egg ration, it contains shell and all needed.

18 mo is end of prime laying age; chickens start laying at 6 mo; after 12 mo of laying, they are past their prime. Should go in pot then.

Need more air circulation in pens; slight modifications will accomplish this. Need to build up a supply of layers. Can purchase layer chicks; roosters are tearing up the hens-remove some of them. 90 hens and 75 babes; not been sexed yet. Rob plans to divide pens to upper and lower. Have broilers for sale every 3 weeks with no additional pens..

Not counting the pullets, we have total of 395 hens and 46 roomte s. The pullets are hens that have not yet begun laying. Of the pullets, we have 90 that are sexed, and additional 75 chicks that we have not yet sexed.

Again, by dividing each pen in half, and then each side into an upper and lower cage, we could use this for incoming chicks; we would have broilers for this for incoming chicks;

BB-1- "

This would leave one pen for storage ... a work shop. Also, this is leaving coups #1, 2,3 and 4 for our own.laying hens. The framework would be built out of poles; we would need chicken wire and a small amount of lumber for flooring in the EXEMPLE Small second—level cages. CR S. TURDAY, I WILL HAVE A COST ESTIMATION ARELIED.

This week we acreened in the isolation coups and built a partition in coup "I to separate the Jonestown chicks from the pullets because they were not able to get to the feed and water.

We screened the chickens away from rodents this week as and separated out the very young ones. Egg production was down today, partially due to pipping.

Dr. Fernans said his Dad has a chicken farm; they don't pip. they have great success. PIPS TRE A DEFICIENCY, AND DR. FERNANS WILL RESEARCH IT FOR US.

Egg count: 12th 239 13th 176

14th 228 643 usually get this much

in 2 days.

Larry commented Fernans said pip is amino acid deficiency re the corn; will research it.

Harshall Farris asked about the molting season..

Our chicks are hybrids; 9 weeks are ready for market. Hixture of 4 different kinds, bred for production & fast growth.

Sm Animals

Chris sayd have now spaed 8 dogs; 2 more by the vet that came out. Had a litter of 3 bunnies. Dated another rabbit yesterday; has 28-30 day cycle.

Russell

Doing soil analysis of newly cleared fields this week. Becky Flowers is working with me, and has made helpful suggestions already.

Guest told us to contact another since Hon Rapo didn't have the pertinent information, will be contacting them.

Dr. Fernans said in order to make decision on cutless bean protein, we needed to find out the amino acid content which Non Rapo cannot do; will have to get it done in Trinidad.

Insedticides

Earnesting reported Dr. Fernans said dry is ideal time to fight flies; in China they keep at it and break the cycle of maggots. Why wet places should be watched.

2/12 Narie Rankin sprayed around 15 houses; in windrow for mosquitos and also sprayed for maggots. Surayed toilets for flies.

Bob Davis strayed all the peanuts for Jack Barron, 5 tanks. Cannot give price because have not received it from Georgetown.

Field & Rice

12th All Crews I.II. III and IV plus learnin c ew cutting second growth down behind chicken house.

ig & Lives

13th All crews I,II, III and IV
Completed cutting the 10 acres of 2nd growth
behind chicken houses in the 1st 3 hrs of day.
Helped with maintenance around piggery; helped with
digging of well; cut poles for well in the bush,
going out to the head of road; about 70 poles cut.

14th All Crews I, II, III and IV
Helping with the maintenance at piggery;
Cut poles for well in the bush going out to head
of the road, total 100 poles plus, carried poles
out of bush to path. The poles weigh 150# or more.

Sr Garden Report

Rusth Atkins C-7: 8 rows pumpkin, 4 rows eddoes, Gomeva Beal: 2 rows corn, cutlass beans, 15 rows of corn, black eyed peas between corn, 5 rows pinto boans, 1 row of white beans.

Garden crew

Picked 257% greens; 149# radishes, 20# okra, 5#celery.
Weeded 475 feet in west garden
Westered daily
picked also
257%xxxxxxxxxxxx201% squash, 40% bora beans.
Planted 1 1/3 row shallots 175' long;
replanted 10 beds watermelon, replanted 10 beds
pumpkin; replanted 4 rows radishes 275'; 1 row
tropical vegetable 175 ft.
Helped Laura's crew in Cutlass bean field. Some of
garden crew helped clean fish. Weeded 475 ft in West
garden; set out stakes on 2 pumpkin rows 550 ft long.

Citrus & Nursery-Becky Flowers

Water wing beans and citrus trees in cottage area; Bait 2 acoushi ant nests; maintenance work in the sawmill citrus trees; stake trees in section 7 along the road; burn wood in new planting area; help with watering the garden; completed section 8 spraying, cultivating and fertilizing.

Maintenance in nursery; bagged 45 fruit trees; planted 5 trays of fruit trees seeds.

Made 1 ton of potting soil.

Gene located some trees that can be used for lumber in our construction.

Bananas

Lee asked if we are getting enough planting material? Had heard we are not. Danny said 193 suckers addition—al in the propagation field; I field has 100 suckers; 2 smaller fields of Cayenne with 35 each and mixed with Plantain; fig and dwarf.

Gene is a name of crew. In propagation field, about 330, will increase 2 to 1.. so whole only increases 1 % acres per year. Not big production: 400 trees = 660 production so just over 1% acres per year.

Gene suggested system of taking the prime stalk, the med. and follower -- 3 in all, a common system. Otherwise a lot of stake to be put up as weakens the plant structure and pulls down in wind. Could pull suckers from bigger Cayenne field. Gene estimates that in 1 banana field above the garden we have in excess of 1000 suckers currently. Gene advises to cut them out and plant them as soon as possible. Would rather see us use our own material rather than bring in any disease from the fields downriver.

Dangy says 2-3 suckers a year; reaped 3-4 times he knows of on some trees. Don also thinks production more than 2-3 times a year.

Gene said field of propagation should be expanded.

Dan: Do we have enuf Cayenne suckers right now!! Considering to plant whole thing or split corm?

Jeff said 20 per year..must cut back central stock at least once a xxxxx week.

MARKETTING INFORMATION NEEDED. Patty said private buyers do not buy bananas..govt is only one outside Georgetown that buys them. CHECK WITH GUYANA MARKETING CORPORATION (JOE LIMBERT) RE THIS AND SELL TO GOVERNMENT OR GEORGETOEN OURSELVES.

Danny is to meet with Jeff re the "ringing" of the suckers.

Inventory

JAN ASKED FOR AN INVENTORY OF THE CAYENNE ON WHOLE FARM. How long since he has done it? --never-- and when will it be done? --said Saturday next meeting.

Jeff mentioned Lokaton Cayenne, disease resistant and high yield --an East Indian guy had it and offered to us.. had to leave. Working with chickens at time Man is in B. A. I.

Gene declared not worried about disease if within

20 mi from Kaituma, but concerned beyond that. Fomoroon is where large plantations are--much disease.

Not mind going to Aracaca for planting material.

Theresa mentioned that in large commercial farms they kill suckers; their bunches are 50-100#; Dan said total # pounds on pruned trees is very slight margin-ultimately nearly same # of pounds per year.

Gene: lets split them up as fast as we can to have more that way..JAN suggested trying different way than propring. Danny said he still has to get with Charlie and get the wire ordered.

DR. FERNANS SAID WE ARE THE TULLET SOCIALIST COMMUNITY IN THE WORLD. THOUGHT WE WOULD HAVE TO USE STRONGER INTHODS...SURPRISED TO BE WITHOUT VIOLENCE...

Grubbs Rehabil proj- Charlie said located wood can be used at old sawmill site. of said priority: Must rehabilitate them.

Plantain

Ellem commented we should grow more plantain now that we have learned to make the flour; we can be more self sufficient and less dependent on wheat flour.

Danny said a lot of plantain --have over 750 trees now that will be ready around summer.

Gene said in windrows, old state farm used to have some; go to Ramniryan and ask to take out the plantain. MARE IT PAIGNOTE NEXT ONE GOING TO TOWN... Russell do.

Darrell: a stove and grill was proposed: see attached special rejort on this.

GENU SUGGESTED skillets used in oven like we bake our bread; It was said we could use cast iron to make a grill--if someone would produce some cast iron then would not have the warping. Tom said could construct veins in bottom of skillet and increase heat conduction.

Charlie said that grill plate is special non-posous and very shooth, normal steel might not work as grill plate. Many are now made of stainless steel. Tom said stainless won't work-no way of bonding 2 together. Damnestine is in favor of cast iron.

Anita: Were sugar plantations in Georgetown; see if can get castiron utensil from old plantation; cast iron factory in gtn. Make special order. See what can be found in this area.

REV. It is called grill because it is non-porous.

Grill steel should be used.

WINDMILL-

see attached report. JJ said if there is merit to the proposal, it should be done. Was referred to Steering committee.

Jack Earron Rost

reanut and surrell-I put on bucket of tsp for peanuts; no tractor or trailer service has kept us arow from the manuts and sorrel. We have some

sorrel plants 1 foot high waiting for some good rain to transplant. Peanuts were sprayed --25 gallons.

Brick

We have 14 bricks formed for drying. The 5 bricks which came out of the fire this morning were of good quality. The good quality were made with 100% clay. One all white and one 50% white and 50% red clay. These types will be used for immediate production. A 300% test was made on the 100% white clay brick.

Itust slow the premiminary drying process.. Pat Grunnet advised as to how they did it where she was in Africa.

Jak said takes about 2 weeks; dry 7 days; heat up 7 days and cool off 7 days.. Jeff said the white Kalamite mine in Brazil is big \$\$ in Brazil. Hight be worth mining as it is source of industrial income.

Firebrick and ceramics just like steel can be made from it, and can do more with it. Ludwig in Brazil made a fortune in it. CHECK IN MINING JOURNALS IN THE STATES and have them check it out and get the information.

Science class questions:

- 1) area behind old sammill should be plowed up; ALREADY DONE.
- Soccer field--Mike to plow it in couple days; will do adjacent field at same time.
- 3) Bush cabbage-heart of Palm--Takes 10 years to first harvest..
- 4) Jackpath to Lynetta Lane? 1st period class volunteered to take it on.
- 5) Students can take motes only if for science--Ushers to watch;
- IX Dr Ferrans (said JJ) told us he never saw leadership participate like it does here! Even Guyana has it over Cuba with no pomp and ceremony used in other socialist parts of the world.

INCUBATOR-JJ said Dr. Fernans said we need 200 egg incubator. Get the R roosters out.. Most of our hens seem too old.
Roof should go way out, lot of circulation.

TELL GEORGETOWN TO GO OVER TO DR. FERRANDS AND STLY THERE COUPLE DAYS AND LEARN ALL THEY CAN BOUT THE CHICKENS.

Julie Was down there when chicks came in; Julie and Florine Douglas were down there day baby chicks were pipped.. TABLE IT..JUNANTS TO KNOW ABOUT 47x \$13.

Dr. Fernans said use Pupane if works; takes care

JJ: WHEN SLAUGHTERING, CHECK AND SEE IF ANY WORMS. WAS IN HIS CRAW... CHECK NEXT FEW CHICKENS.

NEWCASTLE -- a virus that runs rapidly thru flock; I year cycle on layers; suggests we use live vaccine. Is worldwide disease, thus wiped out most of chickens in No. America.

Peed

Caid Cassava okay for bulk in the feed --but need to add concentrates of vitamins and minerals. Buy in concentrated form. Add churn minerals. Showed how to figure for balance. Chip and dry overnight; soak it; po cyanide to bother us --said cheaper in long run. R Research our access to the vitamins and mineral concentrates, said JJ.

ANYONE WHO CAN'T PASS 50% of questions will be eligible for learning..

Pigfeed

and the second of the Dr. F. said #104, for pigs, can be eaten by cattle; the #105 churn minerals for cattle cannot meeten by pigs because they do not have enough stomachs to digest the added fiber that is put in cattlefeed.

Space

Figure 1 sq. ft. per bird: 500 chickens: 500 sq. ft.

Contamination

Wim Horrell said chickens at piggery okay, but should not be overdone. As long as on oppo side, CAN have germs passed: can carry manure from one place to other on feet--transmits all sorts of parasites and disease. Cocksiliosis can be passed to hogs.

Charlie mentioned small birds cannot stand drafts... JJ ELID FOSSIBLY ASK DR. FERNANS TO DINNER AT HOUSE IN GTN.

Keeping time now for wage figures.. Jj wants costs figured.

· Fernans remembers when Joyce was only female here.

Land clear

Biggest problem is portion that appears from the road. Should be cleard. Is an eyesore.

Dr Fernans said Guyanese were not willing to endure the hardships.

J says they may need tight controls and regimentation to get it done in Guyana..Discipline; in Cuba they do not fool around.. REMIND JJ TO TELL WHAT HE HEARD...he mentioned Jagan's name...

Dad's motto: From each according to his ability; to each according to his need. CUBA MOTTO IS: FROM EACH ACCORDING TO HIS ABILITY: TO EACH ACCORDING TO HIS "WORK." Dr. Fernans said Seniors should work and be productive

New area

Mike mentioned area by new toilet; storage area for wood; remove scrap wood and plow. JJ AGREED.

Herbs

Freezedry was confronted on his irresponsibility: Shirley Bields was placed in charge of herbs, and Fannie Jordan and others can help her. some of the seniors might help, Dad said.

See FEOPLES RALLY MENUTES FOR BALANCE OR MEETING. . . . Vernetta takes minutes on the Rally subjects.

Special reports attached.

Cassava Mill No longer in operation as of this date.

TRACTOR 12th Disked 2 areas on road for cassava; quit at lpm to go unload the boat.

13th Unloaded boat
14th Rotovated peanuts in field 6; rotovated 6 beds in west garden.

CASAVA CREW 12th Planted 8 sections at corner of road on the left hand side; we weeded papaya trees at back of same field.

13th Went down road 1 mi past piggery to do maint; work.
Weeded 95 rows on the rt hand side of road, and 23 rows on left side. There was 1 bag cassava bagged and delivered to the mill. Mary Wotherspoon will be checking with me daily in reference to needing more cassava for cookies or cereal.

14th Weeded first couple fields around bend; 223 rows on the right hand side and 198 on left. We went down the right hand side and 198 on left. We went down

the right hand side and 198 on left. We went down road about 11:30 am to plant cassava.in field past mill on left hand side. Completed 194 sections.

The state of the s SMOKEHOUSE EXPERIMENT -- Don Fitch

with collected ideas from personal experience, advice and pictures of smoke houses, we have come up with a pretty reliable, easy to operate meat smoker. The method we used can be utilized with many variations of bigger scale and design.

Was the second second second

Our smoker was made from an old refrigerator, with a half barrel used as a stove and a pipe connecting the two things learned from this test are:

- 1) our stove produced many times more smoke than we needed so the same sized stove can be used on a much larger walk-in type.
 - 2) Fish should have skin left on for better results;
- 3) Fillet of fish should beoiled or have skin to keep from sticking, while fish steaks have no problem about sticking to the racks.
 - sticking to the racks.
 4) Top of box cooks faster even though heat comes from
 - 5) Banana leaves made good smoke. Locust bark after used up as tea are also good. Some of the woods work well too.
 - 6) I think twin smoke houses could be built. One for the curing process, and the other for storage with very, very cool smoke. Details can be worked out.

I am sure Gene has made his own discoveries along with everyone else's ideas; I think we can come up with the perfect meat curing process. rocess.

-P. S. MAYBE DRIED BANNETAS, OR SWEET POTATOES OR ANYTHING PAS. MAYBE DRILD BALLAMO,
CAN BE TRIED...

The flesh 93.7 % water, 0.7% protein; 0.2% fat; Carbohydrate 4.3%; fiber 0.7%; ash 0.4%; The sceds and aril(seed covering) have about 17.6% carbohydrate. GRENADILLA: Chemical analysis --17.6% carbohydrate.

Uses: The flesh and pulp of the fruit are edible and are eaten alone or in fruit salads. They are used to flavor ice cream and shorbets to make a cooling drink and jam. The tuberous root is usually regarded as poisonous, althoug they are said to be eaten in Jamaica as substitute for yams

PUMPKIN: Chemical analysis --The edible portion, about 70% in mature fruits, has the following approximate composition: water 90%; protein 1%; fat 0.2%; carbohydrates 8%; fiber 0.5%; The immature fruits contain more water and less nutrients, but have less waste. The seed kernels contain 40-50% oil and 30% protein. Largely used in pies and sandwiches. 3

FACTORS...Grenadilla has more variety of uses; pumpkins can be grown in the field; grenadilla has to grow in an area by itself. We can grow both, and pumpkins can be and are grown in the rows and fields now. Grenadilla should be grown in both windrows.

Fumpkin can be grown in the triangle between the windrows and the parden area behind Dorm 5, a acre; after pushed out.

Grenadilla bears continuously.

Pumpkin has to be replanted twime a year.

Grenadilla does not need to be fertilized or given special care, or sprayed. A wild fruit in area.

WINDHILL:

Dad (from Peter Wotherspoon) -- In Jtn we don't have consistently hig winds that would make wind a good source of power, but I think the trade winds might still be harvested to obtain useful work.

I propose we build a windmill with collapsible vanes to avoid high wind damage. A small windmill such as midwestern farmers construct on a tower, could be geared or adapted to pump water, mill cassava flour, run a small charging generator or turn a fan for drying. The tower could be constructed in such a way as to provide a high look out post for security with field glasses. Perhaps wind power might be adapted for irrigation during the dry spell.

LARGE GRILL OR SKILLT: A large skillet, metal exposed to uneven heating over a long reriod of time. Such as occurs with our present wood fire and stoves, tends to sag and dent and does not lend itself to the even distribution of oil as is needed for a skillet.

solution: A SELARATE sheet of metal, crimped on the edges to keep oil from running off could have handles welded on the edges for easy removal and carrying. The skillet would cover the whole top of the regular stove, laying on top and acquiring heat by transfer. It would only be exposed to heat while the actual cooking is being done; so it would not be weakened as the regular stove tops are. Also, removal would make it easier to clean.

1. A.J. should write to Sherlock Yaw and tell him of his activities(purchasing equipment, working for the church there, getting equipment ready for sending down to Guyans) and mention that his co-workers in Guyana told A.J. that Yaw had asked us several times about A.J. (so that he doesn't wonder all of a sudden why he is getting a letter). Also A.J. should mention something about Rosie and say something to the effect that Yaw may have met A.J.'s daughter and her husband and that Fike is a wonderful som-in-law(or something take this).

I think A.J. told Sherlock Yaw some of his paranoias and fears of death when A.J. was going through a mentally disturbed state just before he joined you there. They were "good buddles", and Sherlock is giving us trouble up there right now, with some anti-white sentiments and anti-yankee comments, but in spite of these feelings he still asks us about Archie every time we see him. 4. I would go to see the General Manager of the shipping line that brought in our stuff and plaguage his Christian sympathies with our dilemma and the items damaged in shipment, but I don't know how much the damage is worth. The only two things that were damaged according to Charlée was an air compressor which broke loose from the way it was crated inside and the generator. I cannot get a figure out of him as to an estimate of the damage. He does not think that it is the shippers faulth but rather that it was ours in the way that we crated the items, and he is not showing any interest in getting a claim. It won't he as much as I think that you there think it will be, but anything is something. Perhaps if you use some discretion in requesting that he look into the matter of if he could give you some idea of the cost of the damage or something, but he was feluctant, figured that it would do no good and that it wasn't so much damage as just junk that was sent down in the first place. If the insurance company is getting impatient, then I could go shead and get a letter stating that there was damage done to these items and the appraisal of the damage could come

later. (That is what I will do anyway..., hopefully there isn't anymore than those two items demand.) Thy SEST.

5. The radio transmissions, from information that I am getting here from Charlie, Al, and Joyce, are far from what we would like them to be, sen is defensive about ammy comment that is made by Charlie when he is criticising the equipment that was sent down with the shipment. Ben should just listen to the carificism and tell Charlie that he will inform the GCC or the person involved, because it is getting very frustrating to Charlie to say that something wasn't serviced or repaired properly and to have Den come back i and say. "Yes, it was." If ben is sure that something was repaired thoroughly and seen it first hand, he should still say that he will tell someone about it, because it is sounding like Ben is becoming the hearing board and decision maker for mamyythings. : For example, The Euddha Cenerator is the 30KVA generator that we are using to keep our ; domestic and working electricity running until we can get the 100kva generator repaired ; and the other one in from town(we couldn't offload it because we had no crane). Charlie said that it hadn't been serviced because the oil was black on the dipstick and it uses 2 gallons of oil in 10 days. Charlie was also told by Smitty that the Buddha was bought knowing parts couldn't be gotten for it (the engine), because it is a model used only by the army and only the army has parts for it and smitty said that the only way that parts could be found would be in find another engine the same model in another army junk yaru (this is what Charlie told me). They have told me about other things said to ben and he has been defensive, but I would have to ask them again to refresh my memory if you want anymore examples.

Once again we need your counsel. It is urgent that we buy the sawmill that we've had under consideration for some time. If you're not concerned about our making a purchase with U.S. dollars we will proceed to buy with Guyanese. Of course, we won't buy anything in U.S. currency except at your request for reasons you've discussed previously.

The sawmill is necessary to maintain our agrecultural mission. It is imperative that we don't delay any longer on E% finalizing this purchase, since it will take some time after purchase before it will become productive for us.

I hope to hear from you at the earliest possible time. Please I don't heaitate to contact me at our headquatters at any hour.

Dear Dr. Reid:

We were relieved to speak to you and get an assurance that Bishop Jones'son would not be drug through a court battle over custody in Guyana. If she would have gotten her way, all kinds of fascist behavior would have followed. Once the woman is refused, there won't be any of these kind of custody battles.

She obviously has a large sum of reactionary money behind her. Bishop Jones set up a savings for the child. She, at a later time, was openly bragging about spending it on herself. We have affidavits that you can see of people inside the church and one not very close to the church about this woman's stealing church money. Now that this thing has come up and they have seen her evil, they felt guilty and told of her spending church money on them on many occasions. On one occasion, an adult woman lifted up a mattress and found \$5,000 of the church's money. She didn't talk about it because she got \$350 of it for herself, but she has now signed an affidavit and a copy has been sent there for you from the interior. She wouldn't live with her conscience when she heard what the woman put in the newspaper, in one magazine, and television.

Theycould interview this child (John) for yourself. He has some nightmares to tell. He couldn't cry all night because he had to be presented to Ar. EcCoy who visited the farm the other day. Er. EcCoy was very nice. The child somehow concluded that he might have to go back and live with her. He said to the Bishop yesterday morning in tears that he would rather die than do that. He has never talked about dying these last few years. The only other time was years ago, when he was living with her. We were all afraid for the child as he was showing manifestations of being devastated—a twitch in his eye, stuttering, loss of appetite, etc. It was then that the Bishop started caring for John. She was very relieved that the Bishop started taking care of him and never came around him. She tried to blackmail bishop Jones. When the Bishop refused to give into her blackmail, she started running around with men. The child can tell you or anyone can interview him.

The child can tell how she locked him in the garage on different occasions while she went into her bedroom with this racist white man who is also in the articles. She threatened to kill the child if he told on her. (This has been so much pain to Bishop Jones that his heart agens to be affected by it.) Another time, the child spoke up for Bishop Jones. She said something very cruel and cursed the Bishop out in front of the child. Then she told the child in a very threatening manner that she and Smitty were going to put a bomb under the church and blow up didiasanddiffypouliake him, we'll blow you up too. She said that to the child:

Toward the end of living with this woman, she would shake him unmercifully for nothing in front of the whole congregation. At times it would seem as if his neck were going to break. Someone asked her why she did that to the child and she replied, "He reminds me so much of Jim (Jones)." The child has been living with the Bishop and his wife for over two years, closer to three, since he's spent most of his time in Guyana over the last year to be with the child, and of course the project.

The Bishop went to every degree to keep this mhibirian his life. The Bishop gave her a round trip ticket a few months ago to come and see him and offered it several times, but couldn't get her to come around and get it. This was a year ago this month. She took the ticket, and we even offered her another ticket so that she wouldn't have to come alone, since at that time, she was supposedly afraid of this socialist country and afraid of the people of Guyam. Her racism has become very blatant. She has already returned to live with her racist reactionary parents. And, of course, that makes many ofform people very paramed that she would now feel brazen enough to come in here. It must be that she has powerful backing because she spent the \$5,000 she stole from the church and the \$4,000 that was put in the child's account (by her own statement). Her family is influential in reactionary circles, but a very very modest means. She did take the tickets under false pretenses of visiting the child in Guyana a year ago and cashed them in. The sirline company can verify that.

The Bishop has had many many sleepless nights of torture over this matter. He said he cannot live with the thought of sending the child back to someone who bates him so much and is only using the child as a tool probably (according to Mazor, who is a criminal with a 75 page history of unscrupulous illegal activities which is now at the Walkington Embassy). Hazor's criminal records

BB-1-88-2

were provided for us through many lawyers by the request of church leaders who support us of many different faiths.

This is the only case which Bishop Jones or anyone in our entire congregation ever took on in all of the years of his marraige. It was done out of what appeared to be the gravest necessity at the time. hrs. Jones recommended it to be done and through mistaken idealism on the part of the Board, Bishop Jones hoped that there might also be some chance of changing sick personality. The entire congregation knows about the child and are writing a statement about how they feel toward the Bishop and his son. They understood perfectly what kind of trouble she would have stirred up at that time if he had not yielded to the Board's advice.

Er. Dick McCoy from the U.S. Embassy came out to our farm on Tuesday. Obviously the Bishop did not go into the background of the child with McCoy. However, he said that Joseph Mazor, the criminal who is orchestrating this whole thing is behind this situation, even though the child is here with legal documents. It was immaterial with hcCoy; he had no interest in custody matters with the U.S. government.

McCoy also mentioned the problem Guyana was having with Venequela and we told him that we were behind Guyana to the very last person. We thought McCoy was debisive in that he told the Bishop that you and Minister Wills were embarrassed by the smear campaign by the few reactionary right-wing media sources in California. We felt that his motivation was purely to attempt to divide our loyalties through devisiveness. However, we know your stance for socialist principle well enough that we did not listeneto such nonsense. We did want to inform you of the types of tactics they use.

We just got a call from Steve Narine from the <u>Guyana Chronicle</u> who said that Mohammed Mohamaludin wanted to do an interview with the Bishop or myself if he were not available for Meuters International News Service. I have referred the matter on to Mortimer Goddette because the last time we implicate. Coddette's advice and told the media that we did not want to hold an interview; that is exactly what they printed. "Peoples Temple declined interview." Cde. Hamaludin has a very good concept of socialism as far as I can tell, and if such an interview would squash some of the curiosity centered around the farm, we would do it. But only on your advice. The <u>New York Times</u> will be coming out with an expose on this

right-wing conspired attempt to discredit the name of socialism.within days.

Thank you for your kind attention. The Bishop has no greater confidence in any man's dedication to socialism that yours and I respect the Bishop's opinion greater than any man alive.

Dear Dr. Reid:

Regarding the foreign currency exchange offered us by Er. Lacchus (the man who owns the sawmill at Laini River), we now have a letter in writing from him asking us for the exchange of Suyanese money to \$150,000 American money. For your request, we are informing you about this situation and would like to have some instructions or advice from you concerning this.

Concerning the situation of Bishop Jones' son, John; we wanted to give you a little further background. Bishop Jones and his wife have reared John for three years. His wife, marceline Jones, was in full support of this procedure. Ars. Jones was a high official with a good income, and did not have to accept this situation if she was not fully behind it from the beginning. A letter of her support will be coming to you from her. This is the only case of such a situation in our group. It was only after much discussion and mistaken idealism that our board and the Bishop's wife asked Jim Jones to prevent Trace from Loing out and betraying our group. This has never happened with anyone ever again.

peveral people have come out to see our farm lately. ars. Alexander, ar. hite, ar. Lambert, and I think a lir. Lyatt were out recently, and were impressed with the use of Guyanese texts in the school room. They were impressed with the classes, the educational word games, and things made from our own wood. They spoke well of our housing situation, as they saw many couples' and singles' residence inside and out, as well as our dorms for boys and girls. They were impressed with our abundance of food when they came unexpected at the dining hour. They gave no announcement of their coming, and we were blad. They wanted to see the pits -- in fact, Bishop Jones brought it in . ishop comes showed them the machine dug garbage pits, and told them about two officials who were concerned about it days before. We wanted to wait until Carmichael came out to look at the pits before burying them. We told our guests about our new hospital that we are planning to build. They toured our laboratory facilities and our nursing station. We showed them our \$3,000 microscope, our white blood cell counter and a new machine used to detect rare eye diseases. Our guests saw our childrens' playsround equipment all made by hand. They were quite interested in our nodern furniture also made by hand, as good as that which is found on the market, and even better than most. The furniture is made by all wood with no nails. Cur

pottery and clothin; making also impressed them. he honest person could not have helped be very impressed.

Le have delegations all day every day coming in, but some of them could have caused less room for questions, particularly one official, a highly trained professional person who claimed to be a representative for one of the government ministries. We asked several strange questions that are still bothering us. We asked us what we would do if a more extreme Leminist-Warrist Covernment took over and we were asked to leave. We said we would die first. We are pledged to this government's right to exist, and having been through much persecution, death holds no weight with us these days. We will take the information of what was spoken to us and present it to you if you request it.

American man who found his way up the road to our door with no one knowing about him. He told the police he was a friend of ours, but upon being quentioned later by police while he was detained, he said he did not know us. He claimed to be alone on foot but peculiarly got all the way from Fort Maituma to our houses without even any dust on his clothes (who drove him?). Fower equipment was stolen from the other side of our farm, equipment worth approximately v20,000. Fart of the equipment was vital in our building such as power saws and lathes. Electric typewriters were taken, and even the shoes off the porches (because we never year shoes inside our houses as is the custom in this country). The police said this incident coincided with the North American there who said he was Guyanese, but who's volce lave way in the midst of his conversation revealing he was not Guyanese. The police told us they found it conclusive that some equipment that was sold by this man was our equipment. The one question this man asked there was, "Tho is John's" Conspiracy is what this all seems to link to.

We have recently had two delegations visit, both of which had menters of the opposition party in them who were out to get us. However, all were very impressed with what they saw we: were accomplishing on the farm and went away with a good feeling.

Bishop Jones considers you the finest: Socialist he's ever met, as you have an infinitely deep committment. He holds you in the highest esteem.

They toured our laboratory facilities and our nursing station. ie showed them our \$3,000. microscope, our white blood cell counter and a new machine used to detect rare eye diseases. Our guests saw our childrens' playground equipment all made by hand, and designed to improve the children's coordination and motor skills as well as for fun. They were quite interested in our modern furniture also made by hand, as good as that which is found on the market, and even better than most. The furniture is made by all wood with no nails. Our pottery and clothing making also impressed them. No honest person could not have helped be very impressed. He will take the information of what was spoken to us and present it to you if you request it.

Another interestingly bizarre experience is that of a middle aged white worth American man who found his way up the road to our door with no one knowing about him. He told the police he was a friend of ours, but upon being questioned later by police while he was detained, he said he did not know us. He claimed to be alone on foot but peculiarly got all the way from Fort Kaitume to our houses without even any dust on his clothes (who drove him?). The police said this incident coincided with the borth American there who said he was Guyanese, but who's voice gave way in the midst of his conversation revealing he was not Guyanese. The police told us they found it conclusive that some equipment that was sold by this man was our equipment. Conspiracy is what this all seems to link to.

Eishop Jones has a tremendously high personal repard for you, and wants you to know that the kind of loyalty he has for his son, John, he also has for you. We can't thank you enough for all the consultation you have given us, and we hope you won't hesitate to call upon us if ever we can be of any assistance to you.

- He said he really liked Moreline a lot. He thought she was without a doubt one of the sweetest people he had wer met." He talks about her a lot and always with respect and in giowing terms.
- Il met some of his briends last night: Clarence Ellis, the Reputy Kovernor of the Bank of Lunana in Keorgetown. I had siscered the phone on several oceasions in Itw when he called it very briefly got into the project but invited him up when he asked for instructions on how to get a try like that approved of cleared with the proper authorities I told him anyme could come and we like to have our Auganese friends from Gith risit. The was friendly but orviously heard negative stuff of only had 10 minutes to talk to him so it develled on the positive rather than take a lot of time or the defensive. Someone should talk to him in I in or it will make a point of it myself, when it get there. BB-1-XX-1

Some Notes I made Oct. 22.

- He is planning to come to Jonestown to spend a few days in January. He is bringing a U.S. Couple with bim. They are not married, but living together. Both are systems analysts and work with computers He is white, she is black. He is a liberal and she is street wise from the D.C. ghetto.
- He said he hopes Jonestown makes it, but he doesn't see how it is possible to make money farming. He thinks in I or 3 years we will have a lot of trauble supporting oneselves. He again suggested getting wood lathes to make cigar and tobacco humidous and ashtrags out of Natural woods because they are in great demand in the Caribbean islands.
- He was very impressed at us having Dick Gregory co-enece our dinner with Assemblyman Willie Brown. I told him we would love to have him attend as an honored guest. Later of I asked him if he would enclose the dinner of so that we could include his Name on the invitation along with Dick Gregory, Lt. Gov. Dymally, Mark Lawe, etc. He said personally it would love to but I would have to go

get my minister's approval. He said to write him a letter outlining it and he would discuss it with Rashleigh Jackson while he is here. Because of the other supporters I think he will do it, but it needs to be a little more than please endorse our dinner so I wanted to give the information to you so the contents of the letter could be discussed.

- He hasn't brought up our press conference again to me. His Deputy Ambassador

Peter Halder did. I gave him background about us which he wasn't aware of He was
very receptive and he has read Mark Lane's books.

- He is refusing to pay my face to see him. I He claims I would not have stayed in a Calif. So long if I had come to see him. I explained about my parents but his answer was, then why were you always at the temple when I calked. (He called daily). Oct 13

- He says he has fallen so deeply in love with me that he is going to find out every detail of my life from the time I was born.

OCTOBER 29

- Wast Night Sharon called with the message about my father horossing me. He says it sounds like the same situation as Steve Katsaris. I fold him it could create a lot of peoblems. He said he is not worried. I said, you want him calling all over about us? I said he may he even call your wife and stort a mess, as well as U.S. officials." He again said he wasn't worried—but it was not very convincing so I think he is. I told him I had better talk to him and placate him. It was very good background of what my father is like to approach him about my plane fare.

- He said that the Guyana government is strong politically but the economy is in bad shape.

- He said that the government will win the elections. Of that, he has no doubt.

- I asked about accordination. He said he didn't is know, at first, and then he said the prime minister said there would not be (but I am not so sure if he was quoting public statements of the P.M. or private Remarks). He said it wouldn't make any sense to devalue because imports are already

Restricted and that is why devoluation occurs. He said you don't have to worky anyway because your funds here are for local expenditures.

I said there is a large proportion of our funds here because we purchase space poets and equipment from all over the world at this point and need to change it back to U.S. dollars. I told him most of it was for domestic expenditures but we need that flexibility, the had said upu don't need to worky because most of your funds are away. I worky because most of your funds are away. I worky statement.

- He said there is to be another major cutbrek in the public sector (goot employees) because there isn't enough money to pay the employees they have. It will be another round of redeployment.

- He is still solicitous of me. I didn't want to go out, and if he does he will usually go above if I don't go, but he stayed home.

CarolyN -

I hope by Now you have gotten the Reports

I sent in, mostly concerning Seth so you have

some background.

- Seth has been very solicitous of Leslie except where money is concerned. He feels he shouldn't have to pay for anything for hestie UNKSS it is extra. FOR example, her plane fare was a big issue involving several controntations. He is of the opinion I deserved a holiday and that P.T. should be quite willing to pay for one of their senior staff to see a heart specialist is IN S.F. I told him there is No schior and junior staff and that I got excellent care in T/to with heart monitoring daily. Nevertheless, he refused to pay. ONly after much arguing and many tears did he Verbally give in (but I still haven't got the MONEY in hand), but he only agreed to pay the GHN - Wash part. I don't want to bring another blow up to him until he pays the first or he will likely Refuse both, saying I am going to make a habit of it or some such b.s. Get he is willing to spend on me generously for so-called luxury when I am with him.

Another subject which I feel should be &

Mentioned because I am so incompetent in it. He brings up morrioge several times a day. He is asking what I would do if we were to makey. He is saying such things about his wife that I prefer Not to hear, i.e. she is a pain in the ass, all she does is quartel, etc. He says these loving things about her IN front of others. Last Night he asked me if I would move to Washington if he and Juliette split up. I said, "No, that is between he and his wife and I wouldn't want to be in the middle." I told him, it was his decision to make. I have Not given him, the encouragement he is PUTTING CUT FEELERS FOR I REALLY DON'T KNOW WHAT TO SAY: ENCOURAGE, DISCOURAGE, INSIFFERENT. RIGHT NOW I AM MAINTAINING the position that I had never thought about because I DIDN't think it possible. Please advise!

A brief explanation of what marriage to him would be, as I have analysed it.

Cons:-Not allowed to go anywhere except approved by him.

- -No long distance OR oversess calls.
- .- Severance of activities with P.T.
 - -Jealous possessiveness.
 - -Non-acceptance of Monique. BB-1-XX-7

- Not allowed to travel without him.
- Brunt of irrational temper tantrums.
- Possible Child.

Tros: - Contacts with Guyana & 11.5. government officials.
- ENDORSEMENT OF P.T. by UNION OF MARRIAGE.

When I was in I/tn there was some discussion of what could be gained, so I wanted to give some of my own impressions.

- HE NOW speaks more supportively of P.T. and INTRODUCES me as a member. Before, I would have to tell people myself. This is likely from the impression left from Mark Lane's visit. I don't think it is anything I have done. He is impressed by Names and hearing of Dick Gregory and Muhamid Ali's visits are Definite points won.
- He is more impressed by Marceline than any woman he has ever met. She mothered # him when he and I were both sick in New York. He speaks about her graciousness and sweetness in a way I have never heard him speak about & anyone before.
- He is Now attending a conference to discuss

how to Rig the elections for the Overseas

Note. (He only told me the part about the
elections; Not the Rigging. That in itself

Was confidential and I was Not to know about

it.)

- He is much more critical of the U.S. and U.S. policy and talks about the highly Right-Wing PRO-business era American politics are entering. He is well-informed about the happenings and trends in the U.S. (OR I am so uninformed, it makes him seem well-informed). I have Never heard him so critical of the U.S. It could be a Reflection that he makes because the U.S. is unwilling to give financial ais to GUYANA. I KNOW he signed a sizeable loan last week and he brought a check down for some Road Construction. Prime Minister and Rasheigh Jackson asked if he brought the check so he is concerned that Guyana is in such a bad way that it is living hand-to-mouth. The check he beought was for U.S. \$ 500,000.

- I stayed at Christopher "Pryor" Jones, Minister-Counsellor for Guyana Embassy in

Washington when I was there. PRYOR took Claude Workell's job and was a good friend of Claude's. PRYUR WORKS MORE directly with the Guyanese Nationals in the U.S. and Canada and through DR. Reid's ministry. He is in the process of getting a divorce. He is like most West Indian men taying to prove his sexuality by having a variety of women. He KNIWS à gréat deal about us from his FORMER JOB 28 CONSUL IN NEW York. He is VERY Sympathetic to US and has kept upon INformation about us Right through Mark Lane's press conferences. I liked him More than most I have met He is sensitive IN a way. He has a maid who was a friend of a Relative who has had some bad luck in life and needed money to help suf supporther B Children Most of the children are grown but she has a year and Ya old baby and maids and general staff are not allowed to being their children. PRYOR is trying to get it arranged for her baby to join her because ? she misses her child so much He told me he didn't feel it would interfere with her WORK. Most people would Not give a damn. He is also Not afraid of manual labor. He has a swimming pool in Wash which fills up with

leaves and he wouldn't let his maid clean it Saying he didn't mind doing the work. I don't know that he is a "great guy" but Compared to the superior airs my friend puts ON, anything is an improvement. He is the ONE who fold me about Dick Meloy being twofaced. I was only able to talk to him for . about 7 minutes because my friend is very jealous. He told me Dick Melog was suppostive of us to him when they spoke. I said, yes to our faces he is and to Guyanese officials he is, but several people almost simultaneously told us that he was the source of Several lies being spread around about us." He became animated and said he found that too. He said he saw a memo with a slant to it and he said I asked McCoy about why he would tell me one thing and write another. At the He then said, I saw the P.M. once and at the end of our discussions I mentioned the P.T. The P.N. said, "Look, " as far as I am concerned, the P.T. has broken No laws, they support government, they are beloing Community development - they are Not apart from it, and they have the only doctor too mike around helping people. " At this point we were interrupted by Mr. Jealousy

so I was not able to probe. It would be good to reciprocate his kindness in letting me stay at his house in Washington while he was in Canada by inviting him to dinner. I mentioned this to Sharon. If I go, my friend will go, and It would stifle conversation. If he will not accept any other way then we will join him. Or perhaps a gift could be taken to him and conversation could be stimulated. Det 28

- Topay he asked me if Jim was Retig believed IN God. I said, NO." He said, But I UNSCRSTAND he blessed some people. How is it he doesn't believe in God?" Before I could answer, he Said, "Marceline believes in God. " I Said, "No." I then told him that Jim bel was an orbained ministee and used the teachings of the bible to being people together to help fight oppression. I said that is what ministers are for is to interpret the bible and he has used it to help people." He seemed to have accepted my answer but he asked if the old people believed in God. I said some. He asked if we had a chapel. I said No. He asked if they practised Religion in their own homes. I said yes. He said he thought religion and God were for people who were afraid or insecure and he hasn't believed

in God from the time he was a little boy.

He asked if my husband remarkied. (He thinks we are divorced — I told him 2 years and I was getting one). I said no but they live together (Marceline told him Hathic and Tom were engaged). I told him it wouldn't be tong before they markied. I told him I saw he and Hathic together a couple of times but we have nothing to say to each other. He is fairly convinced that there is nothing to worky about but he has to be reassured continually.

- He overslept for the first morning of the conference and conspicuously walked in 2 bours late. He played poker until 3 a.m.

I have been taking a firm approach with him a when he starts b.s. and I call his bluff on everything. For whatever reason, he doesn't want to lose me (he is probably C.IA. and I am that link). When I brought in 3 duffle bags of recorders for Patti, I told him I had the keys if he wanted to see for himself it was Nothing unusual. I told him it was gifts for relatives sit was he who told me to make sure relatives of make contact. We didn't check them, of the making a scene about it.

He said he didn't know if he would find out anything after I joined the Temple. He then accused me of worshipping Jim. He said I thought Jim was Jesus Christ He Said Jim told me and others to go to bed with certain people. He claimed that this OUNVERSATION Was to test my loyalty to him. I stormed out of the Room telling him that calling me a political prostitute if he meant - I was told to go to bed with him is hardly the kind of thing a man in love would Say. He coaxed me back into the kitchen Where we were talking and changed his accusational tone (he had been drinking). He said P.T. should be grateful to him for him sticking up for P.T. when we are attacked (this was in Reference to another time when We quarrelled over my plane fare). He said P.T. should pay it to keep him in favor with us. I said P.T. doesn't buy favores. He said, "Well, you should." He is always saying I don't make my own decisions -(marriage discussions) - and I told him my personal life was my decision and if We seem close-knit it is because we came close together fighting oppression. Somewhere in this conversation I made

a serious blunder. I told him that Manigue meant more to me than anything in this world. He said, "Thonks for telling me the truth." He said I revealed a lot about muself in our little talk. He repeated several times that he was so deeply in love with me and that I meant so much to him that he wanted to know all about me.

[When I wrote this in the U.S., I was extremely paranoid that I was being set up. He still talks that way and we are back in the Guyana so I am not sure if this is manipulation or serious. It is rather extreme for manipulation; but could be.]

When we were eating dinner he said he wanted me to stay in George town because he wanted me to cat meat at least twice a day because he was afraid my heart problems were caused by a protein deficiency. I told him I get plenty of protein and I had an endless amount of bloodwork done and I was not protein deficient. What beought this on was that I told him I eat meat, fish, poultry, eggs, cheese, beans, or blockeye peas for protein and he was upset that would

substitute cheese or beans for meat. I told him it was a balanced meal by any Nutertionists Standards and that we always cook our greens with meat so I do get meat every meal. He thinks I have Never looked better than I do NOW. I gained 10 lbs since leaving T/tw, so he assumes I was NOT getting enough to est. I told him his theory was absured because I lost weight in Georgetown, Not J/tw. He likes me with a big ass - and that is surely the case Now, so I guess I will have to keep this excess weight on to stay voluptuous (I am Being sarcastic). I think his real concern is that I have a man IN J/tn OR I would want to leave the jungle for civilization once in a while.

- He asked me on a couple of occassions to move to Washington, and to as to London with him. I told him no to both questions.
- He tells everyone we meet that we have in been together nearly 4 years and that no one go knows him better than me. I know what to put in which pocket of his shirt, when he will want a deink, etc. He is so routine-oriented that it is no feat:

Toyce Parks' Name is mentioned quite frequently as is Jean Brown's. Joyce's is mode to sound as a sexual challenge. Jean's is mentioned with admiration. He thought Jean had a lot of charater. Mary Wotherspron is his newest fascination. I knew it would be the likes big women with big bottoms. I warned Mary ahead of time because she fit in that category. With all of the demands for p.r., organizing, letter-writing, etc., I don't see how I can meet this demand
 He is totally unreasonable about time being spent with him. He

He is totally unreasonable about time being spent with him. He wants my complete undivided attention. He will not accept a reasonable attitude of my working on a normal day: spending evenings with him, and coming home at night. He expects 24 hour attention and starts into a P.T.-slave routine when I am gone. I cannot pacify the asshole with reason -- he is a raving madman.

3. If I take a posture of lack of time - he will likely end the relationship. I am unsure of just how significant his "friendship" is. He will end it with hostility, I am sure. I want to do the right thing.

4. I will try to keep the hours of service to evenings and night; but it will be dependent on the his attitude (if his friendship is necessary). He is telling me that his vacation is to see me. I know this is bullshit, but he convinces himself with his own rationale when he wants to be hostile.

 Existence was started by a fascist said sadist. Without you and communist belief - I couldn't survive it.

MARY_RUTH"S FRIEND

He went to Coleman's friend and said he had not succedded because Hill had too many friends that were also friends of Colemans's people so he didn't want to take Hill on. Mazor probably just jumped and leaped at my you (re: Carol McCoy's kids- give him the mak background on what Carold did with Mazor) He's leaped at you because he thought he hada hot potato.

There never was any 50 senators, that is a bunch of embellishment and the four were not four at all, that was just our intelligence, there was no problem at all with Carol. That is how we picked up all this. That man has got a big mouth (Mazor) he is unfortunately a blowhard. Carol just told the truth that she had 4 chiadren here and he just mouthed off. She called him yesterday and told him she wanted is no part of his operation he tried to bribe her into filing abduction charges. Get the letter out that details about Carol and go ower it. say this is how we got our source, this is where we got our info. We have another person who doesn't like his operation thats how we know that this chap, this right winger, Margarets dad was sent down here by Mazor and that is what discourgaed him from bombarding Guyana with a whole planeload of relatives (distant removed relatives who had no juristiction over any of there loved ones. We bet our lives that's the four he was so stupid that he fell for that

Get the old letter that goes into the discussion about Mazor and M Carol and incorporate that and remind them, both Topelo and what they are up to and how devious this chap is and how even Margaret's dad is involved with this because he talked about Margarets dad right there had some consultation about Margaret's dad coming ahead. If he could let us know the congression, that Mary Ruth's dod coetacted he is working hand in gieve with Mazor. They've tried to get things on us for years - they've got a long line on this for years - Va

Constructive Criticisms for Assimilation:

- 1. Be more open in social circumstances, that is, invite more people in areas where they will be of some benefit to us. i.e. customs people, immigration people, business people, government officers, and any others which might break down barriers. He said that even though you don't drink, make it available to guests and just chat about nothing relating to your work, but more of light talk. He said that most of Georgetown relates on a forum of drink and most people that conduct business do so with this type of entertaining...that it will break down a host of problems on the day to day scale. He said that we have access to bring in some of the best scotch and whiskey without paying duty and people who can't get this kind of thing will gladly accept your invitation. It doesn't require that you drink, but just entertain more frequently.
- 2. He suggested that we get an agent if we do not want more of a socializing activity, although he does think we are too much of a closed group socially. An agent who we buy these liquors for to entertain on our behalf (without us present) and who we pay a commission of a couple of hundred dollars a month to do our customs work, etc. I don't like this because I don't think we could control the conversation, nor could we find anyone to really put any effort into saving money if they are only getting two hundred dollars a month. He was suggesting this in regard to customs and purchasing.
 - 3. The only real criticism that he said he had about the way we operate in Guyana is that we don't assimilate enough with Guyanese or socialize enough to break down suspicions. (This is a recurring criticism.) He said that he is glad that we are having this barbecus because it brings us more into Guyana society.
 - 4. He said that we are too low-key. We should have more press coverage of the good things we are doing. For example, he suggested that we invite Mohammed Hamaludin to come up and photograph some of our donations to the Port Kaituma school and write a story about it. He also suggested having a celebration (such as a two year anniversary of project success) and invite the Minister of Economic Development and Regional Ministries and Regional Minister to attend and make sure that one of the Chronicle journalists are in attendance to write a story and take photographs. He said that both ministers will have to say praise-worthy things about what you have done and they will appear in the newspaper. (This, I think, is a very good suggestion -- not only because I made this same suggestion two years ago myself.) If we do this, I think we should invite Dr. Reid also. All three should be asked to say something, however Dr. Reid should be the designated guest of honor because of the inspiration he gave us in soming here. We should probably make some kind of donation to the Party, if we did this, on that same night. (Acknowledged support rather than hearsay.) It is something to consider.

I almost blew it, again. Under a barrage of interrogation about detractors and other things, specifically at this moment of losing my diplomacy, I was asked about the investigations about property transfers and the District Attorney's office's investigations. I stated that there were never any property transfers which were not done both legally and ethically. He then asked me whether we could afford to have the Bishop here and still financially maintain our organization. I said of course we could, that we had not closed down our organization. He asked, "Where do you get your money then?" It was following some very heated discussion also about the telephone bill I had left in Washington. I stated that it was none of his goddamn business. I then calmed down, realizing the extent of my error, and told him that I was reacting emotionally to him and that we get it from the same place we always have, from membership donations. I don't know that I am doing us any good. I cannot tolerate any negative discussion of either you or PT and I get somewhat emotional when he is totally unreasonable. He calls it being a "devil's advocate". I call it being an Uncle Tom prick.

After finally telling him that Charles Garry, Mervyn Dymally, Angela Davis, and Andrew Young think it would be foolhardy for you to return, he said, "Yes, I can see your point." I told him about character assasinations of all black officials whatever their political persuasion, and although he agrees that this is happening, he still asks Uncle Tom questions about why shouldn't the Bishop go back. Either he is comletely dual or he has a very distorted thought process. Understanding the plight of black people on one hand and on the other makes himself the exception to this circumstance.

He did say that Harold said that we have good relations with the community up there and he also said that Harold agrees with him that Margaret should see her Dad because they cannot afford any bad public reaction about Guyana being given to Congressman and Senators. He is now telling me that he wrote a letter to the Prime Minister about the situation with custody matters and about Maria. He has not told me what he said, only that he wrote. Sometimes the heated discussions are far more beneficial than the reasonable ones because I usually find out more.

Terri B. has a transcript of the tape.

I asked the usual how he was and if he had seen a doctor beclast time he was ix sick, he said he had seen a doctor.

He asked, in so many words if I was fucking anyone else.

I told him about the Boston Globe article and Larry being compared to another Dr. Schweitzer.

I told him about the success of the cultural program and that Hammie was there, and his wife, and liked it a lot (Hamilton Green). I told him that Gavin (Kennard, Minister of Agri) was there and liked it a lot, expecially the part where Marcie, my mom, spoke. I forgot to mention that even the people from the US embassy liked it.

I asked him when he was coming down, he said, not before Junc or August. (I figured that now that his friend Rashleigh Jackson, who probably feels he owes Mann something for getting him his post, or Mann may have something over Jackson, that now that he was Foreign Pinister that we would see Mann in Guyana anytime he wants to come down). Even wills said that Rashleigh Jackson would work as a puppet for Mann.

Mann asked when I was coming down and I told him in June. He said I should come next month (May). I said I would have to see. I then told him that I would need diplomatic immunity to come. He asked why. I told him that I would have to think about how to word this. I then told him that I hadn't done anything wrong but I was accused by certain agencies of doing something I hadn't done. I told him that no one believed it, but it was still something I needed to be careful about. (Carolyn said that I shouldn't have gone into the details about needing diplomatic immunity, bot I didn't know exactly how to get the point across without doing so.) I told him that it was all part of the same thing, the conspiracy. He said that I didn't need to worry and that I should come the end of this month or next bonth. He said he would make all of the arranments such as sending the ticket, etc. I don't think he will do anything about it unless I press the issue which T did not do last night. The people in the room thought I should let it drop, but unless I pin him down to something specific to do, he won't do it for sure. Then he says he will do something specific, he still may not do it, but there is a possibility in that those cases. It may not have been a good idea to keep pushing it, but I do think we should pin him down to something tangible next time. At least we did get it on tape that he said he would take care of it and I did probably overcommit myself to having been accused of something serious enough to need diplomatic immunity, and he said he would take care of everything and that I could come.

I told him I loved him very much, that I missed him very much, and also that I missed "communicating" with him. (That last analogy Carolyn threw in.)

He is always asking me to write. I told him that because of the power failure that the post office was not working because they couldn't see and they couldn't operate their equipment. He had mentioned the power failure to me first and said that his friend Neil Cheong was in Barbados vacationing untl the worst was over with the power failure. (This is an area where I could scare him out of coming down to Guyana for awhile because he cannot stand that kind of inconvenience.)

He asked when we could do this again (talk). I saw Thursday He said fine.

I told him that it was all part of the same thing, the conspiracy. He said that I didn't need to worry and that I should come the end of this month or hext month. He said he would make all of the arranments such as sending the ticket, etc. I don't think he will do anything about it unless I press the issue which I did not do last night. The people in the room thought I should let it drop, but unless I pin him down to something specific to do, he won't do it for sure. When he says he will do something specific, he still may not do it, but there is a possibility in that those cases. It may not have been a good idea to keep pushing it, but I do think we should pin him down to something tangible next time. At least we did get it on tape that he said he would take care of it and I did probably overcommit myself to having been accused of something serious enough to need diplomatic immunity, and he said he would take care of everything and that I could come.

I told him I loved him very much, that I missed him very much, and also that I missed "communicating" with him. (That last analogy Carolyn threw in.)

He is always asking me to write. I told him that because of the power failure that the post office was not working because they couldn't see and they couldn't operate their equipment. He had mentioned the power failure to me first and said that his friend Neil Cheong was in Barbados vacationing untl the worst was over with the power failure. (This is an area where I could scare him out of coming down to fluyana for awhile because he cannot stand that kind of inconvenience.)

Dear Jim.

I should not even bother you with pullsnit right now but if you are considering sending me away, I thought you should know where my head is.

Firstly, I do not want to go. I have a better relationship with my child than I ever have, and mostly because I have taken time to spend with her. She is very bright and at the inquisitive learning stage and I think her grandmother's inconsistency and moodiness is already affecting ceftain mannerisms she is developing. I have felt guilty about taking time to spend with her because it is hours away from work that I have to take, but it has made a world of difference in her (and me too).

I like to work, but I hate the radio room. It is a lot of pressure and I always react to fatigue and pressure by crying. Some people lose weight, others bite their fingernails, others develop ulcers, well -- I cry. It doesn't mean I can't take pressure, it is just that I let my emotions show in a more obvious way, but nonetheless any more mani-What I hate about the radio pulative than all attention-getters are. room isn't the pressure, or the fatigue even, but the paranoia I always set from being so close to information I would prefer to not even have. (For example, today Casolyn said to Sharon that you were thinking about having Larry give something to Mazor. I was not paying any attention and had my back to them, but I heard. haren said, you mean you are going to have Larry give something to Hazor. This time it registered what they were saying. Carolyn said you were thinking about it. At this point I turned around and said are you going to give truth serum to Aazor, which I thoughts to be no more than an addition to the conversation. At this, Carolyn said, "I doubt if we will do it." I doubt Carolyn meant any more by it than she had talked too much in front of too many people. However this is just the kind of thing that makes me feel I am in the wrong place, but I have to be there because I am working there. I am not upset by it, but only using it as an example of how easily that place can create nonsensical parancia.) I am not afraid of hard work or working in the fields. It would be a vacation from that room. I cleaned houses for middle-class housewafes from the time I was 12 to make money to buy clothes for school so I have not been pampered and I am not afraid to get my hands dirty.

The Georgetown radio is not as organized as it was before I left, but in many ways it is because I always knew everything that was going on, and now I am not able to keep up with everything because much of it is conveyed during the day when I am not there (mostly I mean the emphasis that you place in certain things I pick up from getting messages from you over the telephone), so I am caught in a catch 22. I want away from there to spend time with Monique and always feel guilty. I want to thank you for making it possible for me to adopt Monique. I have several times almost asked, but was afraid of what kind of fight it will be with her grandmother and the legal hassles it will create. But I also have been afraid that the mother may someday try to take her back, and I really think the grandmother would even prefer the daughter to having her to me.

I know I am trustworthy, but I think I have emotional reactions to people and especially to what you say rather than just to do my work in an unaffected way. I try hard to not let my emotions be so much on the surface. I don't know why I do. I always feel guilty afterward and know I put an extra burden on you. I only wish that people wouldn't try to work around me when I am # teary eyed. It is not my breaking point.

I am not asking to be in the know. I prefer whatever responsibilities which do not directly relate to me, to avoid. My point of writing this

BB-1-111-1

is more of an expose of how I am thinking and what makes me paranoid.

This last trip to town opened my eyes more than any other trip I have taken to a capitalist environment. I knew then there was nothing there I wanted. After the first couple of days of selfishly indulging in eating what I wanted, I decided it (meaning food) wasn't even a substitute for a communist environment. I will take rice and gravy and Jonestown any day. If I have to go, I only hope I am really being of help with hann and useful to marceline (who I owe quite a lot for her pulling me out of a morast a couple of years ago), and useful in whatever. You don't have to prove to me you trust me. I know I am trustoworthy and I don't need any proof.

I want to be completely honest about my insecurities as well as

my strong points.

I felt a little disappointed when I heard Tom was living with Hattie. Not so much because I wanted him, but because he didn't want me. I don't think of Tam as a sexual partner but more of a companion to talk with about various things that we enjoyed together (music, reading, etc.). It could be memories that I miss rather than the person because those were relaxed days. I didn't live with Tom for several years before I came here and I don't feel any hostility toward him or Hattie, only a blow to my ego. As ridiculous as it is, I don't feel I should hold anything back from you.

I have no emotional or physical or image attachement to Mann. It is not possible to loathe anyone more than I do him. I am always afraid I am going to blow it and say workthing I shouldn't and I feel a great amount of insecurity I will blow it by my ignorance and say strategically the wrong thing. He tests me constantly (just like he does on the radio) and after awhile I have to work at being sarcastic. I am too old and too sarcastic for this work. He does better with us via the radio. You understand men thoroughly and can wrap him around your finger. As much as I try to follow how you handle him, I fail miserably. (A question I have been too embarrassed to ask: Psychologically, what kind of effect would it give him for me to give him a blow job. He asks every single time we fuck and I cannot bring myself to do it, but I will if it will make him more accomodating to us. I was concerned it would give him some power trip besides making me gag, but I want to know the truth and let me make the decision.) The only reason I think I did better last time was because you set the stage for me, I wasn't fatigued with Gtn, and I had a better outlook about my responsibility infat.

and I had a better outlook about my responsibility infair.

I feel that lately people have been trying to work around me since my crying episode about going to Port Kaituma. Crying is not unusual, it is just me. It puts a strain on everyone else, but I can't seem to outgrow this thing. I have been this way since I was small. They called me cry-baby and I cried more. Whenever people are obviously working around me, then it is obviously me and not them that are in the wrong. I am quite willing to work. Carolyn that day said that she thought I was upset about having to be accountable in the radio room. I have done a lot of reflection on that and I disagree that that is my problem. I wrote a thing up to Carolyn about the hours I was working not because I thought she was questioning my accountability with the work in the radio room, but more because I felt guilty that I didn't work doing more things, yet I wanted to spend time with Monique. Even though I am only doing so many hours in the radio room, everytime I walk down the path, I end up doing extra things and can spend 3/4 of a day doing things which are not even related to the radio, but still somebody needed to do. This is what I was reacting to. Accountability has been a problem of mine in the past, but because I know this, I always work extra hard to correct that one area or avoid anything happening.

I lastly want to say out of concern that we get stuck with a plane fare which we do not need, is that if I have to go, Mann should be told to send a ticket because he will never refund it. I am not pressing this. I just know how he works. If he could get FT to pay it, he would. He is selfish as hell. It will take a week for it to be wired down and if I am to travel with Marceline, that is when it should be here. If I have to go, I would prefer going with someone as to by myself but I will do whatever. I don't want to go at all. I got the impression I would have to which is why I mention it.

Lastly again, I am quite concerned about having to go at this time. Your health is worse than I have ever seen and even though I can't do anything to help, I don't want to go when you are so sick. (I guess selfishly I am afraid something will happen while I am gone.)

Please forgive me for the pain I cause you.

Love, Paula

In addition to the agricultural and livestock programs is extensive community development. Three houses, a workshop, an equipment maintenance station, a warehouse, a shoe repair shop, and a church/community center have been built by the Fooples Temple mission workers. The cooperation and assistance given by this fine government's agricultural advisors, as well as from many other government departments, has been invaluable.

Pastor Jones extends his gratitude to all of our Guyanese brothers and sisters for their interest and encouragement. Dear Mr. Van de Kamp:

A matter has come to my attention which greatly upsets me. I am aware of allegations being made against some good friends of mine and fellow members of Peoples Temple. I have known the character and integrity of these people for many years and know that the nature of such allegations do not fit the nature of these people. The matter your office has been asked to look into is clearly a frame-up. I only ask that you take a close look at those who are making the allegations and the vengeful patterns that mark the path they move along. This is not not a case of merit, but rather, a crystal clear indication of the extent that those who are opposed to humanistic social changes would go to.

I have been in Guyana for nearly five years as an original representative for Peoples Temple's agricultural mission deep in the hinterlands and was a member in the United States Temple several years before that so I feel I have adequate background of the character and membership of the Peoples Temple to be a solid wifness to our credibility as a progressive humanitarian service church.

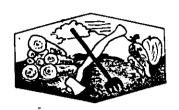

Our hinterland mission has been gratefully received by Guyanese government officials, the clargy, the business community, and the general public. Being a newly developing Third World nation with a black leadership, Guyana has met with opposition from racist forces outside of their republic. We can empathize with how they feel because harassment of our church and its members started simultaneously with our decision to start a mission in this emerging multiracial country.

Contrary to what has appeared in some malicious articles which have carried lies about ourmmission work down here, we have daily visitors who could attest to the peaceful, harmonious, humanistic community we have in the hinterland. Journalists in Guyana have visited and carried prasseworthy articles about the mission. Government officials, technical and professional people, members of the various protective services, educators, clergymen, and acquaintances all have been guests of ours at the mission or simply drop by. To believe the lies told in some two-bit sensational story is to assume that all of these people have lied. With thisoobvious attack at the very roots of our work, which is to build an interracial egalitarian community, it should be just as obvious to you that this is a frame-up and more of the same ficious lies.

I hope you will seemth your conscience and look at this matter dispassionately and analytically and see that this is a fabrication. The inconsistencies in their stories and and their irrational vengence should not go unnoticed by your or your office. Lies can easily be rationalized by hatred and so it goes with this bunch.

With great sincerity,

Paula Adams BB-/- KKK

Talk with Hancman: Sharon said she thought that Guyanese money might loose it's value and Hancman said he didn't know about that. She said that might be why Fim is a little reluctant to take Guyanese money from him.

He said when he talked to haria it was at a time when the case was still in court but now it's not in court anymore. // he said maybe he could talk to some hinisters of govt. he said he could talk to barnewell as he's a friend. he said he thinks parnewell likes money a lot, and thinks we could bribe parnewell. he could conveniently (loose the arrest order for John. Sharon asked what about Clarence hughes -- wouldn't he be upset? he said there is nothing he could do. Sharon told him she knew parnewell and he said why don't you talk to him. She told ** hanoman he would be more * effective in talking to him. he seemed like he would be willing to talk to parnewell, and Sharon told hanoman that we would have to think about it.

hanoman agreed that they sounded like trouble makers, and she said she was going to talk to Skip and hingo. She told hanoman that sarnewell is somewhat of a flirt, and he agreed. He seems very interested in buying the property so he might help.

-Bollers thinks we should call Luckhoo and Skip Roberts and let them know what's going on. He seemed to think they should be stopped. He doesn't think they should come in. But then he said maybe they should see for themselves. He didn't think they would be able to do anything about John. He reacted most's to the fact that be writeritical things about justice system and him. Ann thinks he might bow to pressure because he likes USA a lot. The thinks the issue of John should have been taken care of a long time ago. He changed the subject. He doesn't like conflict. Follers doesn't think they can do anything // he thought Skip Roberts should be contacted and warned to keep them out.
