Late report Phylis Houston

I called the Senior Houston household and talked to Bob senior on the phone. He is a bit hard to understand since his throat surgery for Cancer, but we were able to talk OK. Overall, he was friendly, but obviously worried about his own health. He said that everything was up in the air with regards to his health prognosis: there is something not quite right with his aurgery—he may still have cancer. Only this last statement was implied—all else said.

I told him that I had talked to Pat and Judy on the radio and that they had said that they would to see their grandparents. I said that I was extending the invitation and that I was planning my vacation for some time the next two months and that I would like to go with them to Guyana. Hesaid that he would like to go, but then he brought up the discussion of his health.

He was very glad to hear that the children were happy, healthy and doing well in school. He also said that he thought that his doctor might say that it was OK for him to go because the doctor had told him to go on a vacation, but that he had not gone anywhere--just to the bail gamea. He said that he was worried about himself and that he was trying to work as much as he could. He said to tell the children that he was back to work and to not tell them about him being sick.

He said that he might not even have to go back into the hospital—just stay out as long as possible—though he used the words more to the effect that the situation might be that he would stay out as long as he could and not go back into the hospital until he absolutly had to, which I think implies that he thinks that he is sicker than he has been told.

I asked if I could call him back the first part of next week to talk about this further and he said that I could call anytime. He seemed glad that I called. I think that I will call him back next Monday and ask if he would like for us to arrange for a phone patch with Pat and Judy when possible—be may not want to because of the way his voice has changed—the kids need to be told to expect this if the patch is done. At that time I can ask if he has given any more thought to going to Jonestown.

REPORTS Jean **BOVEMBER 2**

I will be submitteing reports separatelyfrom the notebook as they contain things not generally for circulation.

MARK LANE's call yesterday, (Nov. 1): Said he has talked to Joe Mullens and Hal Jacques several times a day re. the article. Also the editor of the paper sum Ian Calder, who is the one Jackques got to put a damper on the previous story. The person over the PT story is a man named Paul Corkery, who is right now on me vacation. He cautioned me twice that if any word gets out that we have this information, that he has gotten into the inside on this story thing, people will lose their jobs and never work again. He is trying to get his hands on the copy, and get it xeroxed. Said it is scheduled to go shead in two weeks. He thinks there are

a couple things he can do to stop it. One, he will try to get the document, and thinks he can. Says it totals over 100 pages which would be pared down to make a cover story. So Lane wants to preparan, answer to what would be the content of the article based on Debbie B.'s petition, her article in the Chron, everything that she has said So Lane Wancs to prepare publicly. This way he can prepare a response to the kinds of things she'd

be saying, without revealing that he actualy has the article to respond to. Two, there is still the chance they will swap with him -the Ellsberg & max story has falled thru, because E. will not comply.
But Mark thinks the N.E. is still interested enough in what he has to offer without E. that they may consider a bargain.

His hunch is still that it is the Head case. Reason being that in his talk with K. Hunter, she said that the J.H. case was going to blow open, and attached a time frame of about three weeks. The inkling he gets from Jacques as to what is going on is that it is within the same time frame; though he has not been able to get the substance of the article or event,

the time frames jive.

He said seferal times that his leads as to what the story is are not definite, but he is quite definite about the fact that there will Monday he is flying from Memphis to L.A. to talk to the be an article. coroner and find out what he can find there. Then he will fly to S.F. and wants to talk to us about Debbie, and getall the information/allegations ahe has made publicy to as to prepare an answer to the pending article without revealing that he has got it. While in S.F. he will talk to Steve Davis of Channel ? to see why they have not gone shead with the interview they taped. When I asked would he do the same for the Chronicle, he answered that the Chron did not print anything because they are "the enemy."

Afeer San Francisco, which would be all day Tuesday, he will go back to L.A. and try to get to the bottom of the Head case, if not already able to. Then back to Memphis. He said he would do everything in his power -- or to the best of his ability, is how he put it -- to get the

article stopped. Mark also had talked to Freed that morning and was a concerned that I had mentioned anything to Don about Darren. He said that he had told Don it was a matter of life and death that he keep what I told him in strict confidence. Mark did not dwell on it, but let me know he thought it was wrong I had breathed a word to anyone. He took the message for Darren verbatim and said he understood the part about building a tie. He seemed surprised that we thought Darren liked him. Said she did not act like it.

2) November 2

Overall he seemed genuinely concerned about getting to the bottom of the N.E. article and said he understood what it would do to us. Re. Carrie, he is keeps reiterating I should not do anything to risk her safety. I think he is genuinely surprised by it and I don't think they have confided about this with each other. At least not yet. I think he is worried from the standpoint that something could happen to her. He agrees it is crazy.

Said in his last trip to Tampa where he was to talk to the Enquirer people, he was unable to get to them and did not bill us for the trip. He chalked it up to other business he had in Miami.

He was unable to get ahold of Lea Towe, but will keep trying.

CHARLES: Sandy and I went to see him as soon as we heard from Brite that he had made contact. We told him that we knew Brite was in US visiting his dad, but that the instructions to go ahead with the plan had come from Georgetown, thru Sharon A. We did this becasue we wanted Brite to be able to go ahead and make contact before we told Hilda -- who we were concerned might put her foot down. So to explain why we were just telling him after the plan was already in action, we said that Brite's instructions were to notify us of this as soon as he got underway successfully.

Well, we got caught in it, because unfortunately and inadvertently Brite and Hilda got together on the phone before Lil and Charlie had a chance to get back to Briet with with their versions. As 'usual, Brita Hilda was pissed. We got it straightened out though, saying Brite was unsure who to trust etc. Now we have the problem of trying to keep Josephine and Hilda accurately up to date on everything Brite does without them taking over the project with him, which is what they would like to do. I think we are OK now, will try to keep it on an even keel. For the most part, Hilda likes the idea. We explainted that the original intent for Brite was somewhat changed now from when it was discussed in Jonestown. Now it was to reel Darren back in. He seemed to respect that.

He let me know that he was very hurt by Daren. He said if this person who was his friend treated him like this and made reference in her letter to him as being only peripheral as compared to Mark and Don--then who are these people (Clarke's) he is dealing with? Why don't they confide in him and trust him? I told him my opinion was that she personally was infatuated with Mark and Don. He said he cannot work with people who are basing decisions on emotions. We all got a good laugh out of that one, even Pat laughed, because of course he is highly emotional himself. But he maintained his point. He is getting undermined by what he called the events of the past few months. This included Olive, and he reiterated he still did not understand her reason for leaving.

Re. Brite he wanted to know if we had thought out about the kids & the of pressures they will try to put on him, i.e. lie detector tests etc. Both Hilda and Josephine want Brite to memorize their phone numbers and use them as contacts.

Said he learned from Mel that Cartmell, George and one other person whose name Mel could not remember off hand have applied for licenseing as an investigators business.

Re. tha attached papers which Stoen filed in court today -- this thing keeps getting thicker and thicker. Charle wants to do an affidavit saying that he is satisfied that TOS stoel money from P.T. and that is why he is asking for bank records. Stoen's defense throws up more offense. wadamaxxxxxxxxxxxxxxxx I don't wan know where it will lead. We have not talked about it yet.

Also in some notes Mazor says he has of Stoem's, there is a bank acct. #100.468.1 which he claims is Swiss. Charles wants to know what it is. He threw that out to SB and me. I do kmm not know what it is, nor who would know, nor how to find out, nor if I should. But Mel and Charles have it, so if that changes anything. Charles has done it.

Charles have it, so if that changes anything, Charles has done it.

It was also in this alleged pile of notes from Stoen which Mel claims to have that Joe Freitas and TOS tooks trip together to Phoenix, Arizona, on July 5, 1976, on Peoples Temple business. Chalres wants to know what this is. I have no idea, nor any idea how to find mx out. Please answer.

One more helpful hint from Joe -- we should set up a transmitting station in Tijuana, since it looks like the FCC will soon have me Rex's license. We had heard this before, but how and who do we send to check out the possibilities?

That's all for now. I will leave it to SB to report on the infomration Brite got from his chat yesterday.

JEAN REPORTS OCTOBER 31

- 1. Talked to Carrie's mom and sister. Both took message verbatim without question. The sister (Carolyn Warren) said she had heard from Carrie, and expected to again. The mother had not heard from her since she left Pennsylvania. The mother was slow taking the message, but kindly. She asked if I were Dietrich's mother. I said I was local, was just passing a message.
- 2. When Mark called todya, he was very concerned about Carrie, said it worried him that if this were talked about much it would endanger her. Said a young woman had called his Memphis office twice; it was long distance and though his secretary April did not recognize the voice, she had assumed it was a PT member. I assured him we were being extremely careful. Said he would call Lea Towe. I expenct him to call back tomorrow

morning with some answer on her attitude to him.

He also said he had a very good chance of getting inside infomration, perhaps even xerom, of what it is the National Enquirer is threatening to do. He said they have a hundred pages of material, are prepared to do a cover story. He still cannot find out about what. He said he would get back to me tomorrow morning to tell what it is about. One word of caution, however, and that is that the person who is obliging hir with this inside look is to be kept completely protected in confidentiality. Otherwise, if it were to be learned that he had let Mark see it, he would never get another job again.

- Winslow still has not gotten back to me re. Head. I have called several times, and he has been in court and unavailable.
- Claire delivered an untimely ultimatum. She was down here with some shopping for the FL. She said that if the ranch were going to be sold, she would stay until it sold and help. But if it is not to be sold, she is going to Guyana no matter what, and it had better be soon. Because she was NOT going to go and return. Further, she said that Genny Cheek was very unhappy and felt she was not included in activities here, and that I should take her advice and start including her. Personally, I think she was manipulating to get us to move on Genny going up to the ranch to ktake her place. I do not know what affect Claire's leaving will have on the others at the Rauch, i.e. Kim Wade, Jakela etc. They all feel the same way Claire does, but are not so assey and vocal as she has been.
- 5. I called Hugh Weston today, which was pleasant. He was exceptionally enthusiastic when I extended Jim's invitation to retire with his family in Guyana. I will keep in touch with him, send him latest information on the project.
- 6. Please have DONNA STSNFIELD write a letter endorsing Tom Adams as the person allowed to pick up her account balance. He needs to have aletter with her signature for the bank.
- FROLICH maintains his positive attitude. Did not mind a bit that I called him at home. Siadhe would send some information he has on a case which is in our favor in suing for breach of attorney-client privilege. He said he would drap the National Enquirer another line. His recommendation to us was to approach Mazor for affidavits on what he has claimed, re. the

BB-7-A12

jungle expedition, mercemaries etc. Then Jim can forgive him for what he perpetrated against us for telling the truth about it. Then he said he would go to the Inquirer and tell them off royally, and offer a story from Mazor's confessions. This, is of course an uninformed view, but it does indicate his willingness to take some chances for us. He added to tell Jim he is 100% behind him, no matter what happens.

8. With Tom, Sandy and I involved in all the recent activities, the work for Mitzie is not getting done too fast -- but it is getting done. Sandy is working better. She does we better under crises. So far nobody has guessed anything.

One big fuck-up is Brite's dad, who is hostile and probing on the phone. xx Brite will call him tonight and try to get to the bottom of his pushiness right at this time. It is getting extremely complicated.

- 9. So far I have not called Kathy Richardson's mom. If there are any ideas how to approach the subject, I would appreciate knowing. I anticipate a lot of problems with her. Hope Kathy adjusts all right there.
- 10. A note on the material/stuffed animal project. So far we have manner spent \$6,000 plus dollares. Now Hue has requested another \$9,000,00 which was a radio request. That meant it will be as much as \$15 (U.S.) thousand dollars, or \$38,000. Guyanese. If the contract was for \$35,000. Guyanese, then what are we doing? Or are ther more contracts and orders? It would } be good to have some official guidelines on this, as \$15,000 is quire an investment, more than on about anything else. With radio: contact as limited as it is in this area, I am reluctant to go ahead and authorize the expenditura.
- 11. When Sandy and I talked to Charles and Pat today, their conclusion was that Carrie is disturbed and uphappy. Charles concarn is at this point more for her welfare and the potential damage she may do to herself tather than the harm she could do to the organization. They said not to worry, since this was not a defection. He was quite hurt that she did not consult him but just acted unilaterally. Thinks her idea was basically a good one, though her timing and her method were crazy. He said she is "sick." He was greatly undermined when he first heard about it, though since then he has recovered. His reaction was: if these people from the Temple I have dealt intimately with act like we this without consulting me -- then I am not trustad. He was jolted by it. He kept the affidavits, will put them in the safa where noone but partners have access. I have copies here locked up. The letter originals are also locked up here -- he wanted cppies. He did say that if she turns they would be usaful. He was almost prepared for the idea of her doing this, since she had been so adamant, regardless of what anyone thought, about coming back and getting things going here in the States.

Pat was upset, and so was Charles, that I had told Don about it. They especially were concerned about the "passionsate Kiss" which was conveyed in the message which came over the radio. They wanted to know how Jim knew about his kiss between Don and Teri, which I explained. They both drew breaths when they heard I had talked to Don on that level. Pat was very protective of him, said that he has severe emotional problems and does not know how not to talk about things. Said he may k very well tell Mac, since he tends to want to confide and spends some time with Mac. When I talked to Don about the exchange between them, he was highly defensive, pleaded innocence in his own intellectual way -- but was noticeably disturbed. He said the person had conducted her self beautifully, that all he had done

talk to her and ask for a date. She of course had discouraged him and he was satisfied she had another person in her life. So he made no bones about it, but when she had engaged in what he dascrived as a long kiss, he was very turned around by it.

Charles and Pat delved right into the sexual parts of the letter theywanted to know about the abortions and who Mrs. Thompson was.
Sandy and I had no idea. Pat was absolutely surprised that Carrie had
said anything about her coming on to her -- claimed she had never ever
thought of that person in that way

Pat reitereated her intense distrust of Lane and in a way blamed Carrie's actions on him, the overzealousness on the conspiracy hunt, which she harps at. Charles said he reserved judgement on Lane, since he has never worked directly with him. But he did back Pat up on the opinion against Freed and Mark both when it comes to conspiracies.

He has been talking to Mazor about George's bank accounts, which has so far led to nothing. Charles has subpoenced the names and banks records from all the ones listed on George's diary -- to no avail yet. In this respect, at least, Charles is willing to acknowlege conspiracy against P.T. He knows that George is obviously being funded from somewhere and is spending money to find the source.

- 11. The attached letter frm FCC files -- the Jim Weizman friend of Marshall Bentzman's who is looking into it for us -- speaks for iteslf. The radio is goingot have to have some contingency plans, because from the looks of recent correspondence from AARL and now this -- our days are numbered. Our letters are backfiring, it looks like; for these radio nuts, their rules are their god.
- 12. I made mm a note on the radio about Peter Trimble, Carolyn and my sm old boss from the Housing Authority. He is the one who sided in with Kilduff against Jim -- the one who said, when the offer of Jim's help was given last year as the new Executive Director was appointed and his job looked tenuous -- "If that is the kind of help Jim Jones has to offer, I want none of it." Now he has no job. 27 years of sitting in a high paid position doing nothing -- one more bites the dust!

REPORTS JEAN NOV. 4

Mark just called. Said Carrie had called in to him, asked him to goout and find the number of a payphone booth near his home. He did this and returned home, and she called him back. He gave her the payphone # and went to it. Within about 15 min. he received a call from her there.

She said she was not in Guyana. He said he knew. She asked how, and he answered that the people at PT had told him what she was up to. She asked if PT had talked to him on his phone, and he answered yes. Then she asked if PT had called from their own phone. He said he did not know. She said, "O shit," and sounded disturbed.

He told her he knew the kind of work she was doing and it was a bad mistake. Said everyone thought it was a bad mistake, not just him. Then he read Keith's message to her and added the amendment about his being indoors now because it had affected his health so grossly. Mark said she was quiet for a moment, then said to tell Keith not to worry. She was being very careful and he should not worry.

Mark said Carrie would not be specific about where she was not what she was doing. Then she asked him if she got into trouble, would he represent her. He said he responded to her: "Don't get into trouble. You should be a working as part of the collective." Then he said, when she pressed about his defending her, that he would have to ask permission of PT because it could possibly be a conflict of interest. She assured him there was no or would there any conflict of interest. It was the government she was worried about.

Mark said he did not want to encourage her to go on with her plans, nor did he want to make her feel isolated, so he said he would check and see. She said she would be in touch with him later and told me he would leave numbers where he could be reached at all times to make it so she could reach him.

He said he reitereated that people were worried about her. She reiterated for them not to worry. He did not get the impression that she intended to change her plans. Though she was concerned by Keith's message, and was obviously thinking abou it because she was quiet and serious, he got no indication she was coming back in. The conversation ended with her saying she would be in touch.

I thanked Mark for being the tie to her, told him that of all our worried, which were considerable, her safety and the affect of this on J's health were our biggest worries of all. He said he understood that. He sa had called in here right after concluding his call with har.

REPORTS JEAN NOVEMBER 8

First, Mark asked for a letter on Carrie's behalf which states from PT that he can rep. her -- that there is no conflict of interest. And if at any time such should arise, PT would waive it.

Re. Ryan, he sadi it looks like he is going on the 14th anyway. But if that wews the case, he should understand that he will only be going to Georgetown, not interior.

He has no indication farom Ryan that anyone is going besides just his staff -- no other friends or relatives

Wants to use Mel's affidavit re. what Grace told him to show Ryan all is not what it seems with Stoen. (This wuld really be stepping on Garry's toes, maybe we should suggest Garry whow it to Ryan.)

Re. National Enquirer, he has seen highlights and says it has to be stopped at all costs. See attached notes. Done by Gordon Lindsay. His ideas for stopping it include using Mrs. Navarro to get the document i hand, going over it with SB and myself and refuting it point by point in such a manner as to not disclose that he nor anyone has seen the doc. (He described this as every bit as tight as Pentagon papers, so not a word is to be breathed to anyone.)

He said Garry messed us over when G. Lindsay came into his office and talked to him about all the "charges." He said Garry's answere were ambivalent, included no strong rebuttals, and most of the answers were "off the record" -- or tacit acknowledgement. We are completely vulnerable to the article now, as they have gone to the person stating he is the one and only spokesperson for PT and cleared we everything with him. Therefore we do not have a leg to stand on in a malice suit. The only thing that stopped it before was Jacques talking to Temple members and getting a different perspective on things -- so they were not on such sure footing.

What Mark wants is a statement from PT that Charles does in fact speak for us on certain things, not everything; atkat and that in some cases Mark and members of the Temple speak for the Temple as designated. This way the Enquirer cannot say they are cleared of all responsibility by having just talked to Charles. At least this is what Mark says.

He believes two events can trigger the article -- Ramirez meeting the Enquirer and prompting them to go ahead with it, which is alleged already in the article, according to Mark. Says that Ramires has intimated the N.E. should go ahead with thiers so he has a foot hold to jump ahead with his indictments and eventual thrust for extradition. (All this is from Mark, extrapolation from the highlights he has seen and the NE people he was talking to.) The second thing that can trigger the article, give them a reason to go ahead, is a hostile response from Ryan. (On this Charles and Mark agree - that Ryan should come in and be dealt with cordially, that is, with the proper balance we have the right to demand.)

As far as Mark can determine from what he has seen, no mention of the Head case.

BB-7-A16

Mark's plan is this: 1) get the statement that Charles is not the only spokerperson for PT and present we NE with the fact that him

they have to deal with Mark and Temple designees as well.

2). Deny everything brought up in the article, and do it based on all previous negative articles printed, all allegations and affidavits filed byt the defectors. This way there will be no indication that anyathing has been seen first-hand. He wants all costs to avoid this.

Says there are people who wall go to jail or never work again.

3)/ He will need Navarro to accomplish the above. Otherwise he

cannot get ahold of the document to study with us.

4). Says the overall tone is one of attack on the U.S. State

Department and government for not doing anything about this situation.

5). Wants statements from CL, Debbie T. and Paula -- all of whom
Stoen alleges conspired to tape April in bed and gave the tapes
to Reid. Said this was done with Rosie's direct instruction. Said he does not want affidavits which could cause complications later -- jsut

quotes from them he can use to deny the mess.

6). Wants Charles to talk to Ramirez right away and try to neutralize that situation. AT least confront them with our position and not let them get away with assuming they can get indictments without a fight. Said again that NE and Ramirez were in cahoots and aiming to get Rosie back via extradition on basis of what they could accomplish together. Wants Charles to talk to Ramirez strong.

7). Wants to use Mazor's affidavit to neutralize Ryan as far as

Stoen is concerned.

8) Denials, though not in affidavit form, of Paula, JJ, Debbie T. and CL as far as allegations about Mann are concerned, and taping him. Just quotes he can use. This mix puts Reid in a terrible spot.

Mark thinks to utterly thwart Ryan could mean congressional hearings, however with his letter as officially on record in xupm response, we are coverred in his opinion. Ryan cannot deny we have tried to comply. (Letter copy attached.)

Later in the day SB and I tlkaed to Charles. He wanted us to come down to the office to inform us a David Perlman had called, the Chronicle editor. Described the man as a former Communist who would be sympathetic. Said Perlman understood JJ was a communiyst, byt said he was not into discussing that but would see our aims and goals were assessed on their own merits. Assured Charles he would not send Kilduff, thought he had a personal axe to grind with PT and was not fair. However, he wanted to send a guy named Ron Javers with Ryan, a 31 year old reporter and former Nieman Fellow from Harvard. Also was with the Philadelphia Daily News. Perlman said whatever was written he would go over himself. Would have Javers come see Charles for breifing.

When we told Charles our stance toward the media was set -- and that nobody was going to get into Jonestown., he got pissed and said we blow hot and cold at the media and all we will get from them is shit. (What else have we ever gotten from them??) If we let Congressmen inwithout the press, we will get fucked wax over -- not sure why, but said that the press is free to go whereever Congress goes. That is commonly understood. To handle this badly will mean political death to us. He was thinking every sort of threat to get us to allow them in thinking every sort of threat to get us to allow them in.

Then he was pissed at the idea of us had having hanlded Kilduff ourselves, and that you there had talked to the State Department and not consulted him. He asked point blank -- AM I GOING TO HANDLE THE MEDIA OR NOT?

BB-7-A17

IF I AM TO HANDLE THE COURTROOM ONLY AND BE A ROBOT, PLEASE LET ME KNOW. HOWEVER, I WILL TELL THE MEDIA WHEN THEY CALL THAT I KNOW NOTHING ABOUT ANYTHING AND THEN YOU WILL BE SORRY. BEEXHEE BECAUSE I HAVE RAPPORT WITH THE MEDIA--THEY RESPECT ME ETC.

Wants us to invite Parren Mitchell, John Conyers, Ron Dellums as a balnce, and wants to do it now. Tell them that 60% of our members are black and we want balanced perspective. Call a press conference and announce position -- Charles wants to do this.

Charles said that if it became an emergency and - necessary for him to go to Guyana, he would do so, he would drop everything and go with Ryan.

By the way, Charles mentioned that we have a real PR problem re. John. Said that Vivian Hallinan told him she thought it was wrong for the child to be kept away from its mother. Charles did not say he agreed -- but he hust threw that out for us to chew on.

THURSDAY:

Met Mark this morning in L.A. He had the article after taking 7 1/2 and brought it back to me. I copied it as best I could -- some 100 pages all by G.L. He said the guy who he got it from was very nervous and that that morning he had had a call from his boss (Gallagher) who treated him very mi distant and off-hand and asked if he were sure nothing had been mentioned to the other side (PT). The man had said no, but then asked Mark if anything had gone on the radio about it. An Mark assured him no, and he got the document -- but it was tight.

He called Ramirez who said that the case was still active and that he hoped to have it concluded by the end of the year. Mark asked if that meant he would have indictments then, and Ramirez answered that he did not know. He had been planning to meet with Charles, Vee, Florida and Archie but that the meeting had never transpired.

Mark's suggestion is that we pursue that meeting soon, and come on with very strong denials. He would be glad to do it, but we ought to try Charles first. If he wont, then Mark will.

Attached is a copy of my notes from the article. Mark took my transcripts of calls between PT and Gordon, of Debbie Layton's affidavit and our rebuttal and the Chronicla. What he will try to do now is draft a response to the article based on materials I have given him to indicate no trace of having seen the article. With strong responses to their shit, we have a chance of refuting and am stopping it. He thinks it is an excellent chance. He kept the document with him. He swore to the guy it would not get into anyone's hands but his.

1. Mark called. He said James E. Ray's atternay hearing had been cancelled and now he thought maybe he could get away for a trip with Ryan to Guyana. I told him about % Charles' reaction to seeing the letter from Mark to Ryan. He said not to worry, Charles would not quit us, he blows hot and cold like that. But he will be OK. Adn if by some chance he is not, Mark will see we get good legal

representation in S.F.

He said he had received a call from Ron Javers, tha guy who was in Charles office all day talking about P.T. This is the Chronicle reporter who has been assigned to go to Jonestown with Ryan. Javers had told Mark that Charles had complained to him about PT, that we had used Mark as our attorney. For Ryan and had gone around exempt him. Javers said Charles was upset about it and he had called Mark for an explanation. Mark told him that was not true, that Charles was not the only legal counsel for PT, that he was also in some matters.

Mark told Javers ha would not be going into Jonestown at this time, but that he would possibly be allowed to visit in the future if he did a fair and objective job this time. Javers said he would end up filming the gate to Jonestown where they would be blocked. Mark told him if he really did want to get in, he had better be of some assistance this time in being fair, trying to understand our

perspective -- then he might be invited.

Mark knows Javers from Warren Commission days. At first he thought him a cynical person and was unimpressed. But in the final analysis Javers did 5 solid, good articles not only objective about the CCI work against the Commission, but actually predujiced in their favor. Mark was highly satisfied with his work. He even called a poll for the CCI and got the community to show a 96% no-confidence vote in the Warren Commission report. He came off very sarcastic at first, but came off 100% their stance and helped them out. Mark is very positive about this guy and thinks it is a real break for ua.

Re. Mazor coming to the press conference on Monday, Mark thinks that is crazy. Mazor says openly that J is a Charlatan and though the ends are good, he does not approve of the means to get them.

*****JUST got backfrom Garry's office. He mandates that THE ONLY WAY he will continue as Temple attorney is if this letter of Mark's is discounsed completely and Congress is informed that Charles Garry alone (and Mark has to clear everything thru Garry) is out attorney. Unless this is done immediately, hewill withdraw from the case. We must say he acted without authority -- acted as a freind but without authority.

The Examinr and Chrnoicle both have the letter and the Congress' response. All must know that Charles is in charge, or he is finished.

See attacked

Marshall Kilduff called today at 3:00 p.m., saying that he had been approached by Congressman Leo Ryan, who complained that he (Ryan) had requested permission to visit Jonestown, and was leaving on his trip next week and still hadn't heard. Kilduff said he wanted to talk to someone from the church to get "their side".

I said there was no one here, had him leave a number and for someone to call back,

Kathy Tropp 11/7/78

Kathy called him back around 4:00 to say that someone whould call him in the morning. (We planned to talk to Mark kefexex tomorrow morning.) He said he was going to go ahead with his story about Ryan's trip - or proposed trip - tonight and would use the Kilduff said comment Mark Land had made as the Temple's reaponse. R an had telegramed Georgetown and as yet had no response.

PT RESPONSE CALLED IN 5:00-6:00 PM: by Jean Brown

We would welcome him if and only if he is accompanied by Mark Lane and other California and national officials of our chosing whom we condiers more sensitive to third world concerns. EREXXEREMENT Before we will permit any Congressman/person to evaluate our program we want to thoroughly investigate his or her voting record and public statements on African Liberation, Women's Rights, and other concerns that are pertinent to the interst of Thire World peoples.

At such time in the future as we decide, we will invite a cross-

section of the ptess to come.

REPORTS **JEAN** NOVEMBER 10

 Talked to Charles. He does not want to call Ryan and represent our position when he does not know the position of garx The Guyana government re. his visit. He will talk to the press. Has talked to Reiterman, who called him yesterday, and read him the statement

when he called back this morning.

He said yesterday he told Reiterman the Temple thought he was an enemy and they did not trust him. So Reiterman, according to Charles, would never get into Jonestown. Charles told Reiterman he thought the Temple was wrong for being paranoid and keeping him out, not that he hadn't acted like an enemy, but that Charles thought he should go and see how wonderful Jonestown was, and he would be instantly converted.

Reiterman told Charles PT was wrong, he was not an enemy. That there were lots of things that passed his desk that he refused to print. Chalres said he held his ground and read him the riot act for what he had done over the past year.

Charles also called and talked to the young Chronicle reporter Ron Javers again. Javers came over to Charles' office and brought some articles by he had done on his extensive visits to the Soviet countreis. Chalres said he was very supportive of socialist societies, and that when the papers would not print some of his articles, he went to Commonweal with them. Charles said the man calls himself a socialist. He invited Javers x to come on Monday and talk to the EXERN Temple members who had been to Jonestown along with Channel 4 man Don Harris. Charles is very enthusiastic about this man. When I called there today, he was showing Javers copies of Stoem's handwriten notes saying, among other things, that Grace was CIa. Said they were chuckling over Stoem's notes and duality. Also showed him the copies of the checks and statments in which Stoem has his name on substantial PT accounts. At least Javers will have reason to

question Stoen on this up-coming trip.

Charles said if anyone from Press of Ryan'a office contacts him he will tell thim our line, but will ad that if they had followed protocol, they would have : contacted Garry first, the PT chief counsel, rather than going to the State Department or anyone esle (including lane!) Adn will thell them they are not getting into Jonestown because of their own unwillingness to cooperate, not Jim's nor his. (This is

what he is saying he will tell them.)

He wants Mazor to get into the act Monday. Jeezass:
Pat called too todya. She is really trying to pin us down onthe
Garry vs. Mark issue. She really baits it. She insisted Mark had
no business excorting Apton to Guyana; if anything he encountered there pretained to the lawsuits, it would only be Charles who could use it. Not Mark. She keeps pusing for a confrontation of that issue. Chalres himself is mad about it, too, but she is pushy as all hell, about Mark z having anything to do with anything.

I called the Senior Houston household and talked to Bob senior on the phone. He is a bit hard to understand since his throat surgery for Cancer, but we were able to talk OK. Overall, he was friendly, but obviously worried about his own health. He said that everything was up in the air with regards to his health prognoais: there is something not quite right with his surgery—he may still have cancer. Only this last atatement was implied—all else said.

I told him that I had talked to Pat and Judy on the radio and that they had said that they would to see their grandparents. I said that I was extending the invitation and that I was planning my vacation for some time the next two months and that I would like to go with them to Guyana. He said that he would like to go, but then he brought up the discussion of his health.

He was very glad to hear that the children were happy, healthy and doing well in school. He also said that he thought that his doctor might say that it was OK for him to go because the doctor had told him to go on a vacation, but that he had not gone anywhere--just to the ball games. He said that he was worried about himself and that he was trying to work as much as he could. He said to tell the children that he was back to work and to not tell them about him being sick.

He said that he might not even have to go back into the hospital--just stay out as long as possible--though he used the words more to the Effect that the situation might be that he would stay out as long as he could and not go back into the hospital until he absolutly had to, which I think implies that he thinks that he is sicker than he has been told.

I asked if I could call him back the first part of next week to talk about this further and he said that I could call anytime. He seemed glad that I called. I think that I will call him back next Monday and ask if he would like for us to arrange for a phone patch with Pat and Judy when possible—he may not want to because of the way his voice has changed—the kids need to be told to expect this if the patch is done. At that time I can ask if he has given any more thought to going to Jonestown.

A Special Message from

Dearest Family,

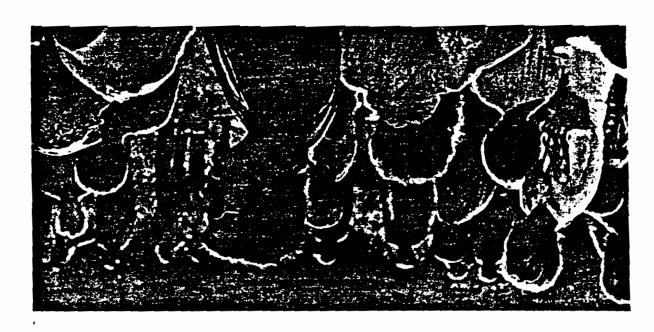

The month of November brings the coming winter along with the Thanksgiving holiday. The pioneers who celebrated the first Thanksgiving in this country did so knowing that many hardships lay ahead. Yet they set aside a special time to express their gratitude. And in that spirit of sharing and cooperation they found a new hope and inspiration to carry on.

Here at Peoples Temple, we celebrate Thanksgiving by pausing to express our gratitude, keeping our goals firmly in sight, because GRATITUDE IS THE KEY TO OUR BLESSINGS. It is important to demonstrate our gratitude through giving...and there are many ways to give. The message of Thanksgiving is that we give out of the thankfulness of our hearts, because we believe in what we're doing. As the Scriptures say, "He which soweth sparingly shall reap also sparingly; and he which soweth bountifully shall reap also bountifully; every man according as he purposeth in his heart, so let him give, not grudgingly, or of necessity, for God loveth a cheerful giver. God is able to make all grace abound toward you, that ye, always having sufficiency in all things may abound to every good work."—IICorinthians 9:6—8.

All things are possible to those who believe, and in Jonestown we have made a model of what can be accomplished through faith and dedication to principle. Each day the children grow more self-assured, blossoming in all their beauty and creativity, free to express themselves, and so healthy and happy. The seniors seem to have grown younger. We are so grateful for their wisdom. They are a very important part of life here. There is no distance between the young and the old—the little children look forward eagerly to their daily visit to the seniors' homes! The medical clinic has been compared to Dr. Schweitzer's hospital in Africa; all around us for many miles into the forest, are Amerindian families whose babies have been saved or who have been made well and whole through the work of our medical staff and Dr. Larry Schacht.

But greater than this, Family, a dream has been made REAL in Jonestown. A dream of brotherhood and harmony that is being seen by more people every day, and carried to all the corners of the globe, by amazed visitors. In each and every one of these blessings, YOU, dear one, have played a part—through your giving, through your faith, and just in wanting it to come about!

As I meditate over the special requests that I have received from you recently, my heart and mind are very much with you. How right you are to want the simple things that everyone is entitled to: the best health care possible, peace in your lives, to care and be cared for by others around you; and freedom—freedom from financial worries, from loneliness, freedom from self-doubt and despair. This freedom is something you deserve! I have great faith in the power of Love to meet your every good desire. I know that many have already been blessed with the things they needed.

Now it is very important that you write to me this month, so that I can continue the highest possible contact with you. There is a special meditation sheet provided for you to use. Also, for this month of November, until the end of the month, begin each meditation (at 6 in the morning or evening), by thinking of three things for which you are grateful.

I'm looking forward to hearing from you soon. I urge you to take advantage of this opportunity to express your gratitude and strengthen your point of contact with the Spirit of Love.

With love, Pastor Jim Jones

REPORTS NOVEMBER 6 JEAN

- 1. FROLICH sent us a copy of the letter ha got off th the Enquirer --it looks like a repeat of the last but for one of two paragraphs. He also sant a copy of the attached law case which ha said set a precedent that should be helpful to us in our suit against Stoan. A copy going to Garry's office as well.
- 2. TOM talked to the FCC attorney in Washington this morning. See his report in section on FCC in these reports. It looks quite serious.
- 3. MAC was to have talked to Frolich this morning about putting KNSC-TV on notice. Have not heard yet. He was meeting with Frolich along with Guy -- Guy wanted a second opinion on Krietin's case so June and I referred him to Frolich. He was down in L.A. for services Sunday (Guy was) so he stayed over today. No report yet.
- 4. WINSLOW'S office salled this morning with the measage that he was "Unabla to find any information indicating renewal of the Head investigation." I asked the secretary who called if that meant Winelow had called the cornoer's office. She did not know any further details and said he was in trial and not reachabel at all during the day for last week and all of this week. Mark will be going to L.A. Tussday, so he should be able to look into it further.
- 5. DYMALLY is virutally inaccessible right now, the day before the election. His secretary Hope said she had talked to him about the message of Leo Ryan coming. She said he had told her to hold onto the memo she had written him with the information. Seid to bring it to his attention again after next week. He and his staff will be in Mexico for a week after the elction.

I stsessed the critical tims pressure on this, and she said she had understood that Ryan would be put off until the first of December. I said that was not for sure, that was what Mark was working for and what we hoped. But not for absolute sure. I askedif there were any conceivable way Dymally could go if it were next week. She said no, there was no way, but she would tell him of the problem. I said that we would need to be in close touch becasus if push-came-to-shove, we would have to have someont to go, if it could not be Dymelly; perhaps Abernathy, I hinted. She said she would talk to him further about it. I will try not to call him at home until a real crisis breaks. I have never gotten good reception from him by calling him at home—and hope that working through Hope (secretary) I will be able to stay in touch. Mark thanks Dymally is the best choice, though willing to contact others if this does not work.

6. We are scheduling a meeting with GOODLETT to talk about getting use of his drug number to permit Joyce to get phermaceuticals in Venezusla and send them to Guyana. Rus, Leona and I will meet with him-as soon as he is available. So far he has been unumber out.

REPORTS NOV. 5 **JEAN**

1. Attached is Bomnie's brief report on Ranch situation. It needs clari-Bonnie was here last night after her Disciples Board meeting. She informed me that she and Don were getting the Ranch license in their name, as Claire had told them was instructed. I objected strongly and we talked to SB about it., It seems that when SB talked to Claire about her going ways over, Claire decided it was a permanent arrangement, though SB never a said that. When Claire asked about what to do with the Ranch licesnse, SB said she told Claire to do what she had to a to allow herself about 3 to 6 months away, thinking that a temporary arrangment could be made with Ganny's name, as we had done before with Edwards, Bogues etc. But Claire told Bonnie, after talking to SB, that was she was going permanently and the license was to be transferred to Don and Bonnie.

Bonnie did not doulbe check, and started the process. Now it is all but accomplished. All agencies have been notified, and though no final papers abve been sent in, Bonnie said itxmmxqumim would be very difficult to turn around at this point.

I said I was concerned for two reasons -- it was ahead of instructions, and I was concerned about the psychological inpact on Don thinking he would be stuck there indefinitely now. I said these exauses because Bonnie was getting increasingly paranoid at my insistence we get this situation clarified before anything final be done. She out-and-out demanded an explanation of me: what was her role, what were out intentions re. the Ranch etc. etc. Because she said, frankly mam speaking, this is something she has been very successful at and can keep large who amounts of momey coming it in, and she feels it is a way of making up for past mistakes and failures as far as her service to the church.

Bonnie's excuses fall short. There is no doubt that she wants this arrangement and the responsibility for jumping ahead with the license transfer was as much here as Claires', though she lays the blame on Claire. The problem is now - Bonnie. She is paranoid and will have to have some very cogent, logical reason for not proceeding to get the Ranch hin hers and Don's name -- or we will have to go ahead with it.

She is correct in saying that in 6rder for Claire to be gone any

length of time, Bonnie and Don would have to km take over the license. The programs are highly sophisticated now, and require a licensed, credentialed person -- i.e. Don Beck as teacher -- and someone with Bonnie's administrative ability. It could not continue there without her both license-wise and administrative-wise. Not for any length of time. She has beenbuilding up to this with special services programs etc -- all of which mean more money, but all of which also mean Bonnie is indespensible. The only way to reverse that, it looks like, is to sell the Rachh and pull out. As long as the programs are there, Bonnie will be essential to them. It is not sound, because Bonnie's very much wrapped up in the outside acclaim she gets for the programs. See her attached report, how she starts off saying how successfully recognized the program at the Ranch is.

So this is how the thing stands. A mess. Plaase help us on this one.

RE: The Ranch

FROM: Bonnie

NOTE: This is a brief report...more will be coming soon

STATUS IN THE COMMUNITY:

a. We have the best rating in the region and one of the best in the state. This is to our advantage re getting placements, getting money, getting agency support and when our guys get into trouble (two weeks one of our guys was chaged with attempted arson for setting a fire white after he split during the night. we got nothing but sympathy for him and for us). But the rating also works a disadvantage in that we have become open to increased visitors. Our social worker, on her own, invited the head of the Dept ou Health for Developmental Disabilities and his two top assistants to the ranch. We are also sent peole from the Regional Center. Given we are a licensed facility, and are thus liable to visitors from them at any time with or without notice, we are glad for the notice, but....

GRANT BONEY: NEED REPLY

The push in the state now is on getting people out of the hospitals. They have figured that it costs less to keep them in community placements.... To encourage this new program, they have given/allocated \$2.5 million to beginnal Centers to give to facilities for setting up or enhancing programs so that they can take people out. Our Regional Center approached us and all thus promised us the money. They said that we are the top candidates and to write up what we would like to do. They said that there are no strings atached (find that hard to believe personally); that it is a gift. I asked ham them for recommendations—the suggested anything from adding a kitchen living room and bedroom to the dorm to heating system to the start of a pprinker system to whatever. They said that "the sky's the limit." I have hard the same comments from others and will get a copy of the state's memo to the Regional Center as well as what the R.C. says.

Personal opinion at this point is that it is worth checking as it would improve the value of the property without additional work on our part.

JEAN and SANDY:

11-4-78

What I was told re Claire and the Ranch from Claire:

After talking to Sandy on the phone that:

1. Don and I were supposed to get the license in our name

2. That she was going over permanently and to take everything. Said that if she had to come back in an emergency, she could get things over here.

- Comments about what she is going to do over there:

 1. Stay with Richard whereever he is...most likely/most of time with kids too.
- 2. Work in the nursery after resting up on getting there. Will have her rocking chair and hammock, etc. (No, i do not think she is kidding about it either)
- 3. Plans to get on the letter writing committee and grab people to write (not an unproductive idea)

REPORT ON RANCH FINANCES:

GROSS since January, 1978: \$120,976.40 (rates for the guys - income).

" : \$73,245.55 (after expenses, approx. \$49,230.) NET

\$71,000.00 (after expenditures for FL supplies

which Claire makes on request from Leona and Sandy.)

GROSS monthly rates:

\$12,548.88 (rates for the guys currently; they

continue to go up, and have since the beginning of the year.)

NOVEMBER 4 JEAN

1. JUNE, LEONA, CLANCEY AND TOM and I visited Marshall Bentzman about our latest FCC citation. We have another appointment Monday to meet in his office 7:30 AM to call Washington D.C. and consult once more ** with the FCC-attorney Weitzman. We thought it best, maybe there is some way he knows to buy us a little time. Also he said he would give us ideas for setting up Mexico station.

MARK's report on Ryan-NBC-TV. He called to say DON HARRIS of NBC-Tv had called him because he had been assigned to cover Leo Ryans' trip to Guyana to report on P.T. Harris called Mark because he knew he was associated with P.T. and had previously worked wit Mark on King case. Mark feels he did a farily good job, they had their hassles with Harris but in the end he came out very pro their side.

Harris told him there was going to be a big NBC network program on P.T. and it would be an attack. Yet Harris had also heard that people fike Gov. Brown, Dymally, Rosalyn Carter (thought he said Lillian Carter) had talked to JJ and were impressed with him, so wanted some inside clues from Mark. Mark explained that we were attacked because we have integrated a white church with blacks, and that we were an excellent example and therefore embarrassment to the U.S. That JJ is being attacked because

he is a good person.

Marks said Harris bought it, and immediately wanted to work with Harris to balance out the Inevitably negative coverage NBC and Ryan were

going to do.

At the same time as Mark had this information from Marris, the radio had given me info that Ryan would be visiting Jonestown and to get to Mark to tell him Ryan would not be welcome without Mark along. I passed that message and Mark said fine, but he could not make it the 15th. Grace Walden is up before the HOus Committee on the 14th and James Earl Ray again on the 18th. So he is siad he would call Ryan and tell him they would have to negotiate a suitable date. He asked at that time If Keith wanted Ryan to come and if he wanted Harris to come to do the documentary he was planning for. He said that Harris came recommended by a man named Bill Stein, on their board of CCI and friend of Rev. Lawson. We concluded coversation saying Mark would reach Ryan and tell him he would have to put visit off for two weeks.

Mark called back to say he had talked to Ryan's assistant Jim Schollaert (202) 225-2752. Ryan is the Democratic representative of the House Committee on International Relations. Schollaert is his assistant and slated to travel to Guyana with Ruan. Derwinsky is the Republicately, and the party was to include Derwinsky and his assistant as well Derwinsky is the Republican as Ryan and his. The assistant to Eyan said they would be arriving on the 44th. Mark said not so quick! Jonewtown is private and you don't just drop in. You are requiring of these people housing, food, transportation, and though we are willing to be cooperative, this visit must be negotiated by both sides. He pointed out the problem with the day of the 14th, saying that PT had insisted Mark be able to come along with Ryan, and that Mark could not make it on the 14th. So they dickered about the date some, and the assistant asked point blank: "Are you saying they are refusing to let Mr. Ryan come?" Mark kpet at it and reemphasized that we were simply trying to work out the best time for us to have them come. Said we have nothing to a hide. Ended by saying Schaellert was to have

Ryan call Mark at soonest oppostunity,

That was yesterday (Friday). As of 12:00 noon. today (Saturday) Mark had still not heard xem from Ryan or his office. He said he would write him a letter stating our case to Ryan if he has not heard from him by this evening. I said time was getting short, and he said he would persist, so they got the message and a date was set when he (Mark) could come, too. The aide said that he thought Derwisky was not going to be able to xm amke it afterall. That probably means someone else would be sent as a replacement. Mark will find out.

He said to be sure to thank everyone for the cheese gift. Said Grace Walton was satrved xm for cheese in the institution and it is her favorite fmm food. She vouced for it, said it was marvelous. So the PR gift was a hit.

3. When I talked to Julia, she asked me to call her dad and tell him never to mention to Theodore who Wendele's was. He said he would never do that. It was understood.

She also asked that Goodlett and Johnson and other doctors involved get thank-you letters as the medicine they sent saved the child's life. Debbie will do this

We have an appointment with Goodlett Monday morning to talk over a letter from him allowing Joyce P. to get drugs with his drug #.

Julia and Margarte insturcted us to do this. So Joyce can get in Venezuela what Goodlett can arrange for and then carry the medicinal supplies to Guyans

Also sent copies of the pages out of the Call Sign Book for Joyce ---names and addresses of ham operators so she can talk to them about using

radio to Jonestown.

So much for now, Jean

Jean:

I called the VA again today and told them about Mom Bates's question.

Their answer was that even if she were in the US she would have to make application to a VA hospital or some other such facility for care and that her application would be considered on a first come first serve basis because her disability was not service caused. The person I talked to said that there might be care available, but at any case, application would again have to be made, priority would always be given to those vets who had service connected problems and that such application would have to be made through the US embassy or counselor office in the country where she was located.

I asked if he had some kind of breakdown of the kind of care that might be available, and he said that he did not even though he spent some time looking.

Apparently the only way to go with regards to getting any kind of VA benefit beyond the pension is through the US embassy, and then if there is some kind of care available or whatever, they would have to make the determination.—Or at least be the ones who provide you with the appropriate information. As the VA seems to have no info on extended services beyond the US, perhaps someone should call the US dept of State about this.

10/27/78 from June

Jean Terry

I talked to Neil Rosenbaum on the phone after Jean told me he had called wanting me to sign papers in the Medlock suit.

Charles and Rosenbaum filed a petition for writ of mandate, which is something I cant define except it's a procedural paper appealing the previous decision against our motion for change of venue.

Charles and Pat went to LA today to file the petition for writ of mandate.

Rosenbaum forgot to include my verification (the declaration I sign on behalf of the corporation saying I've read the contents and believe them to be true) and w hen that was discovered, Charles was already on his way to IA. But they had me come in anyway because they dnt know how Charles will want to handle it, and since the papers were being filed today, they wanted me to sign the verification today. Charles will be back Sunday.

I read the petition for writ of mandate - among other things it says that at the hearing on our motion for change of venue our counsel never showed up in court kim in time, because of difficulties in flights between SF and IA, and the judge ruled against our motion because of no appearance. The attorney got there late and talked to the judge, presenting the argument that all the parties did not live in IA, kkmyx that Enola Nelson and JJ were out of the states and McElvane's official residence was SF, etc. The judge ruled against the mmxx motion.

So the next step was the petition for writ of mandate. There's a lot of legal discussion in it about why Enola Nelson Realty doesnt sustificant technically qualify as an association established in L.A. - the law says that if a business is a corporation in the county, then that qualifies it as desired as management to the county, but Nelson Realty is not a corporation. Nelson Realty is a sole proprietorship owned by Enola Nelson. In other words, technically none of us reside or do business in LA so the action ahould be moved to SF.

While I was waiting for the Medlock verification to sign, Jim Herndon came by and stopped - he said there a court investigator called him and asked him some questions about Vincent Lopez. The investigator asked if he knew if Vincent was with a church group in South America; Herndon said he didnt know. The investigator asked if he knew ifxVinzentxwezxwixwithxResplexxXesplexxxMexex anyone with Peoples Temple. Hermdon said he might.

Herndon asked me what should he say. He said as far as he knew up til now, for the-record, he did nt know that exactly where Vincent is - (to cover his ass, of course)... he wanted me to tell him what to say.

I told him I would have to talk it over with others at home and he didn't like that, raised his eyebrows, said it's
no matter, and I tried to cover it over by saying wl
I dont see what's wrong with your telling them straight
but then he said again that he didnt know where Vincent
was - in other words, it was for me to tell him.

I said I would get back to him, and he said no matter, that ifxix he could always just not return the investigator's call if necessary. But Herndon does not like situations like this, he is conservative and likes to be straight, so I think it's just a matter of time til imm he'll have to tell the investigator once he geta the okay from us to do it.

Mazor has been in this, I bet - when he was over there he did say that he had been sent by the court. I doubt that but who knows who he talked to when he got back...

Tean

Rob Tarver called Jim Williams of Redwood Auto - Jim Williams does not ever remember selling us an air compressor. He had soldus something else but nothing like an air compressor. So we're back where we started from.

If Bentzman tells us that it is a matter of ownershp and we do need the receipt, then I'll send a measaga overseas for them to search, but if he says not, I'd rather not get them started because that stuff is still unpacked and it would be a lot of extra work for some poor soul...

Washington Sandera - the attorney for the newphew has been stalling all these weeks and I finally called Charles for sugeestions - Charles suggests we have Jim Herndon do it and forget about Gross. So I have to write a letter to Gross and get the papera back and go see Herndon. Meanwhile, someone's been talking to Washington cause he told Andy today that his papers were held up, that the attorney didn't get them. Now that goes way back about 4 months ago when I originally sent the papers signed by Chaikin to Gross, and Gross claimed he never got them in the mail, so I sent a duplicate signed set about 3 weeks later. I never told Andy - and never told Wash - so how did Wash find out about it? And There's somehting fishy here - I think Gross has had his mind changed, either by the nephew or what he's been reading in papers or TOS - perhaps the nephew influenced by Stoen. XX
Wash was upset tonight because he knew Cynthia was going and he had thought he would be going with Cynthia with Jennie; then found out that Cynthia going with her mom... and Jennie not going yet. Andy talked to him, well be accound him more tomorrow to cash some checks. Andy should be bringing \$620 to you tomorrow from Wash's account.

Re Washington Sanders

He was cleared to go, but we have to terminate his conservatorship first, because there is a bank account in the name of Garrison, his conservator, and since Garrisin is so unpredictible, it was thought better to terminate the whole thing so Washington could be free on his own.

ł

Washington's nephews attorney is a friend of Charles, and Charles talked to him, and I talked to him also, and he said he wiould be willing to terminate the conservatorship for us, kind of as a personal favor fax out of his friendship with Charles.

So before I went overseas I kept in regular communication and sent him the necessary papers and he told me he would get a court date after I got back.

Now that I'm back he's been evading every phone call I put through to him, which is lake every other day, and today his secretary take told me he goes to the hospital next month and he just hasnt gotten to the thing and maybe it would be best to write him a letter and ask him to refer the thing to another attorney.

I asked to talk to him directly about it and the message was thet he wasnt available for the call.

So, maybe Stoen has gotten to him too?

I would like to call Charles tomorrow and see if he could call the attorney and find out what's going on.

Lane Gave the message tonight that you asked be givin about Bonnies call and the things that were said by the national Inquirer and how we would sue for 200 million dollars if they printed one faulty word--- etc etc. Surprisingly enough Lane had no trouble at all with our having done the call-- and needless to say I swallowed hard before I passed that message given all the past experiences with "Garry etc --- anyway -- no problem -- he said that he was not at all surprised by the response of the secretary and that they were still negotiating and he would continue to stay on top of it. As far as the sueing goes -- he said that that has been his standeerd end running line with them. He said that he had no problem throwing in the 200 million when talking to them but that he did want us to know that everytime he talks to them that we talk about sueing and he has made that very clear --- he also has sent them a telegram and latter to that effect. Lane thinks that they know that he means business and he feels that part of the reason that the national Inquirer is not gaingx running the story yet is more the fear of ausing than necessrily being sold on the sotries that he and Hal wax have given (Lane then gave his schedule-- says that he will be them. in Washington still in the morning -- them he is going to fly to New York and then to Memphis- (same day) and then back to washington on Saturday --- so it is going to be tough catching up with him)

MARIA
Got a call on the pay phone from someone who called themselve
Terri and who said that ahe wanted to talk to Maria Katsaris.
Gave a call back number 391-9603. I don't know what this is all about
but it did striks me very strange. I am going to ask someome to
do a fishing type call to check out the number to see what the hell
it is . In the mean tima--- someons should check with Faria to see
what it is all about-- she may have some idea.

TERI - Reports 10/26 / 73 talk with Lane verbatum transcript Re:Nantional Enquirer and what he found out in Flaorida

Well there is nothing new happening— I have been talking with them and they are desperately envious to get the King material but I don't think that I can do that for other reasons. I will try to find something hat I can give them. They are interviewing "ames earl ray tomorrow. Exchange for that I am asking for everything that they might have and everyhiting that might bossibly errupt— they are negotiating talking about that but they haven't told me yet

T: so they didn't say if anything was going to break next week or not.

In well they don't know. Ell they said was that was a possibikity

T. What about the Debbie Blakey sotry-- does that mean that has been thrown out.

M: Well, I don't know. I can't say max for the say in the say they say might happen-- happnes-- then they may come up with a story . They have been very much slowed down by the information with Ral Jacques and my talking to people there

T: another thing could you check back with the SF chronicla and ask them why they completely ignored us when you gave the press conference.

M: Well, of course, I did discuss that knex with their reporter who called and said that he wanted to go down there—— don't you remember—— what's his mane—— Kilduff—— he called and wanted to got to Jonestonw and I said no not if you are only running hostile sotries and not runningour answer. However what we can do now is to write a letter to them ans said asked them official to do that. They had already asked a reporter :ilduff) and you know how that is.

T: anything else. 'No:

REPORTS JEAN OCTOBER 25

1. Fire inspector came for the insurance co. today. Everything was pretty well clearned up. He only found one problem - that the drapes behind the choir area on the stage, also by the pulpit, were not flame proofed. So we will look into treating them somehow. We paid \$8,980.00 for fire insurance on this building and on the RV church yesterday. The RV amount will be rebated to us after escrow is done.

The company of the Section of the Se

2. Called Mac. He has been difficult to get ahold of, often not xx at his home number. Two days ago there was a question given about the note which we are trying to sell, Ray and Viola Godshalk's. The agent, Selzer, was trying to reach Mac. I called Mac Tuesday morning, told him that June had mailed the signed note to Selzer several days before, and to call Selzer himself and get the whole thing worked out. He never called. I had to call Bonnie Beck in RV myself, have her call Selzer, and explain to him that the note had been sent to him. Mac told me he was going out to dinner Friday with Charles and Pat, and that David Hilliard (former Pantehr) was to join them. Siad he is trying to work something out for Hilliard to get a livelihood by helping Frolich on some small things. He didn't say what. David Hilliard is down and out in L.A. and Pat referred him to Mac what and the Temple in L.A. for work. Mac has been trying to refer him to other people. (Amoust of badshalk note we will receive is \$ 7,661.77)

I feel that anything we area getting done in real estate these days

I feel that anything we area getting done in real estate these days is getting done in spite of Mac rather than because of him. On the Melvin Dean note, sale of the Pugh note, and now Godshalks we have had trouble getting him to call the people or to act and follow ikm through. My opinion is shared by Tim Clancey and Juna. I do not know what is up with him.

Marcie called last night. It was during the medical emergency while we were trying to get Kathy P. off, get Goodlett and Wesley and Debbie Evans on the phone for the medication, etc. When she called, I told her about the emergency, that a child was in critical condition in Garacas and we were trying to get *** prices** out. Parly I told her because I wanted to explain I would have to get off the phone, partly because I wanted her opinion on whethr the ATCH was OK in Gel form, because that is all Goodlett had on hand, and partly because(it did not occurred me that that was unfair to do to her -- to give her partial imformation and leave in her anxiety about something she could do nothing about. She wanted to know who the child was, and I did not know. So she was very upset. I alarmed her needlessly, for which I apologized, but the damage was done.

In the same conversation she told me again to explain to you there that her feetlers should not her should he placeted. She should not he

In the same conversation she told me again to explain to you there that her feeling about Sue is that she should be placated. She should not be handled in such as way as to make her is feel boxed in, as though she has no out. That, like an animal, when someone feels boxed in, they tend to

Also, sha talked to Dick Reynolds, who had reconsidered about the letter writing -- that it was not organized as he had thought, but just the response of people, as Marcie explained to him. In Marcie's opinion, letters to him should continue. He had tried to Call Herb Caen, but it was unsuccessful - he could not get through to him. He intends to do an article, and if he wents further information, he is to call here. Her eister will send us the article when it comes out.

4. Tell Kathy that we called her job to tell them she left for South America suddenly because a very dear friend of hers was gravely ill -- she left on a moment's notice. Her mom will call there, not keen doubt, so we cannot say anything else. I will call Virginia on Monday to tell her Kathy went over. Monday because it will giver Kathy a chance to get there.

5. Guy Young talked to James Heridog about his daughter. There were few options available to Guy, according to Herdon, because the California divorce papers are not enforceable in Nevada. He could serve his wife when and if when she should come to California, or try to get a Nevada attorney to extend the rights to Nevada somehow. That would cost money and take Guy to Nevada for an extended as parsex period. The only option he made sound like a passibility at all would be for sometime in the future Guy to take his daughter on a vacation and when the wife challenges him, say that the court order stated he had "reasonable b visitation rights" and to him, taking her on a vacation is reasonable. How far and where he went on the vacation would be up to Guy. Not a very practical option at this time.

June will talk to Frolich to see if he has any other ideas.
Guy's spirits are up, but he is very impus impulsive about his daughter.
He has moved into an apartment closes by on Turk and Webster, about three blocks away. He went to the Councils of Churches meeting with Hue today. He comes around nearly every day to participate in what is going on here. He seems to enjoy attending PR events with the ones that go.

6. I talked to Eleanor Ohman today to thank her for helping us get the medicine for Caracas. She went to Goodlett's office and got the box of ACHT gel and got it right over to the Temple. Very friendly. Said it is a thrill to her just to be associated peripherally with what is going on in Guyana. Said her sister was visiting her when I called, and the two of them were actually excited about being able to help save the life of a child like that. She asked about Jim's health and about Marceline. I told her Marcie's cancer had been diagnosed positive, then negative. She said it was a miracle, and was receptive to that idea, when I said we have seen that kind of thing here. She asked about the film and about Sonja Jones doing it. I told her it was such a problem for us putting out \$30 thousand when it could be money to buy a tractor and feed children. She said maybe someone could fund it themselves, which indicated she understood that Sonja's films was just too much money for us to spend. She speluditated that the Jonestown project represents everyone's private dream come true.

This letter from Guy speaks for itself. He is getting nowhere re. his daughter Kristin, and it eats at him.

That we don't allow for people to come and go except for a very select few of the leadership. Said that the would be Said that the would be stuff about the living conditions also. --- she did not know any more. Bonie said that we she called yesterday she got someone kmxxx higher up and they would not breathe a workd but there others being less professional were more inclined to talk. Another thing however is that they do not have a set date for the article only that they always welcome more information.

However my opinion on the saule of this call is that this call does not preculde the fact that something might be ready to break for reason that these people might now be aware of itas they probably aren't talking it around. Frankly this sounds like the Debbie Stakey stuff all over again. would assume that this is what the secretaries are operating from.

LANE: Called this morning and aaid that he would be going to Fla in two days. Said that he had talked to Hal Jacques regualrly but that at this point he felt that Hal was sincere that he didn't know anything. He said that he was now dealing with another man there and that there might be some possibility there of his finding out something. He said that Ellsburg refuses to give permission for the information on the Kennedy assasination to be printed me in the National Enquirer and therefore Lane is losing some of his leverage unless he can think of some stuff to get into the Ebquirer to still keep them happy and make them think that they are getting what they are wanting. Said that he had already talked to them about the exchange of getting his article in exchage for ----- He said that he alwo liked the not going to do one on us. idea of approaching Stoen and perhaps telling stoen that we will quit going after his liscense which is important to him m if he will drop the three lawsuits against us. Just talking to him out in the open about a trade. Mentioned that Marcie had called him abou Suzanne and that he would write the letter-- suggested that he might ought to talk to her on the phone and I told him that Marcie had thought about it and thought that he should not call just write -- so that will be done.

MAC: Got you r message about Mac and still I have some concern about him as I have previously expressed. I am more concerned becase Mac makes it a personal effort to always try to get in with the key people -- that is Garry --- Freed -- Lane --- not being critical but when Mac pops in unempected on the day that Leona, Hue, Jean and myslef are going to Garry's for dinner it is pretty obvious that Mac wants in on something. (not that he is excluded) but to come all the way to SF for a dinner that he is not even He trys very hard to engratiate himself asked to seems to me odd. with Garry and Pat now is absolutely in love with him. Pat called me tonight and said that she was going to be in LA with Garry this week and she wanted Mac to meet her and Garry at some beverly hills home for dinner. If everything is on the level with Mac I have not problem with that --- However -- I am not sure that all is on the level. So I am somewhat worried about these Garry asked me the other day if I trusted closeness of alliances. Mac--- I said that I liked Mac alot--- but I have learned not to act on trust but rather thanks just the "need to know theory." ao that Mac knowledge of tack of knowledge in some areas wouldn't reflect on my personal like or trust but just the way that we operate. Garry said " that's good because I really like him".

RADIO THING IN FLORIDA

I got the radio message from Mary Worhterspoon as to this ham that supposedly talked against us on aire. As instructed I told Lane about it and he called the person. When he called the person who answered said that they had just received a call from a rather forceful speaking woman who said that they had better leave us alone and that Mark Lane was our attorny and they would

BB-7-A-45

REPORTS Teri

be in serious legal trouble etc etc. Anyway -- Lane immediately thought that I had done it so he owned up to the fact that he had done some legal work for us on one occasion. He said that the guy was not hostile -- but somewhat defessive in view of the last call. Lane xx The guy said that he had gotten the information from the NET control guy and he also said that he hadn't said anything He said that the FCC was on our case and that we were going to have our liscone taken away -- he said that he had gotten this notification from the FCC in SF. Lane thought that this was suspicious because he was under the impression that all # FCC notific tions come from Washington and not from SP as indicated by this guy. Lane says that he is going to see him while in & Florida.
Furthermore-- Lane thought that I had made the call to this guy and he said that it was out of order becuase I had asked him to call and just blew the whole thing that he was planning by my call. I told him that I had not done it. Then he said to ask around the people here to see if anyone here had done it becuase he said that it wasn't a real hostile type call but a firm call -- just like something that we would do and that he wouldn't particularly disagree with were it not for the faxt that he was trying to pump for information shortly thereafter. I told him that I didn;t do it nor did anyone else here. He was so convinced that he told me to check anyway Anyway at this point he seems to believe that we didn't do it or if we did do it it could be a provacatuer in our midst. only ones of us here that knew about this were Jean, myslef, Tom and Sandy. My concern is that this was not anything seri us enough for the CIA to be tapping our phones and then gaixx doing a semi-hostile call to this person. I just don't understand it at all unless this thing was done long distance from georgeotwn but that seems illogical to me also. I cannot figure it out. But then again there is always the suspician that the person who did this call might infact be responsible for the additional harrassment that some ex-members have been getting that was never done by us. I really wonder if we have a zealout amoung us doing thesethings. My concludion is obvious.

LEON BRUSSARD

Called tonight and I answered that call. He asked to speak to Patty and I told him that she wasn't in. He said that he was Leona and he just wanted to say that he was very sorry for what he had done and that he loved you and all the people here at the Temple and that he knew in his heart that we were doing the fight right thing. He wanted us to send a message to guyana letting you know how sorry he is. I checked with Tom on this and he said that we get with calls from Leon all the time asking to come back to church and the like. I am not suggesting that he come back but I wonder if for the price of getting him a dinner if he would perhaps reveal how he came to be involved in the conspiracy—did they pay him to get involved (how many boottles did they give him) I think that he would be a low risk person to approach.

REPORTS JEAN OCTOBER 24

- 1. Phyllis H. called social security who said their office will not sent benefits to anyone living at Clifford's, and theonly way to proceed further with the question is to contact the State Department.
- 2. Lynn Hodges was friendly when I called, was interested in our event and would like to attend and do radio announcments about it, even make it the subject of a program. But he cannot be listed on our make list of endorsements; as a media person he must remain impartial and known as objective in the community. I told him we had excellent feedback on the KGO radio interview with Marcie and Mark and him. He was enquised, said he has about 60,000 listeners in the Bay A ea.
- Albert Kahn had heard the KGO broadcast that morning and was very enthused and interested in it. Likes Mark, thinks he is well qualified in the journalistic field. Remembers Voices of America, a compliation by mark of GI's statements about the war during Vietnam. Said his material on Stoen was excellent. To Kaho, the Stoen-type is a well-known phenomenon, a character-type he is familiar with and has exposed many times. Said from all Mark said that Stoen's background and tie-ups make him an obvious infiltrator-agent.

Wants Mark to contact the Nation and do an article for them. Thanks the material in the KGO inverview is enough to do an article on, and

articles in the Nation are picked up by journals all over.

Very interested in himself having Mark call Warren Hinckle, whom he admires as former editor/publisher of Ramparts and anti-war, antiestablishment journalist. Hinckel has a full-page article wank every two weeks or so in the Chronicle. He has covered the White Panthers and two CIA former employees who confessed to years of "dirty-tricks," in recent articles I have seen. According to Kahn, Hinckle gets published in the Chronicle exactly as he writes; he is not edited. Hinckle is currently doing an article on Kahn, attempting to cover the areas and eras of his life in one page. It is not completed yet. Kahn had asked Hinckle if he knew of the Temple, and we got into a conversation with him about use Said Hinckle knew the weeks score when it came to the press - said he has been very critical of the Chronicle even in his articles. His comment about P.T. was that we had an as outstanding record for service in the commity, so tended to disbelieve the media charges. But said even if he had believed half the charges, they would have not amounted to anything more than what the Catholic Church has done for centuries. What Kahn would like to do is talk to Mark about Hinckel, and possibly arrange for Mark and Hinckle to get to gether to talk atmm. about the Temple and possilby do a full-page article. Described Hinckle as eccentric, anti-establishment, completely independent, and Catholic. Said he is honest -- meaning that he would be critical if he saw something to mix criticize. Isaid to Albert we made no claim to perfection. Albert we made no claim to perfection. answered that he meant Hinckly would assuredly do a positive article, but he would be writing his own story. Thinks that because Mark has already bunk broken the story to the media in the Bay Area, Hinckle would have to do something a little different from that -- suggested possibly a new angle the two of them could discuss and come up with. Only thing Albert wanted to be sure of is that he had a chance to talk to Mark first, before Mark talked to Hinckle, if he should end ap doing it.

DIRECTOR OF CORRECTIONS

BB-7-A-KB

REPORTS JEAN OCTOBER 23

 Marshall Bentzman call the Franchise Tax Board about the tax bill we received from them (June had this in one of her reports). They sent us a bill under some inscrutable title like TLE - the last few letters of our name. The FTB told Bentzman that Bank of Montreal had been submitting statements of interest to the FTB, for instance we deposited \$600.00 interest earned on our California Canadian Time Deposit account. The Bank would have sent that record of deposit to FTB as interest earned.

June and Bentzman and I agreed he should write a polite letter to the Bank informing them we were a tax-exempt organization. Which of course they know. Thought it best to go thru our attorney on this one. We will check his letter before it goes out. One thing to note is that from the manager there to Mrs. Yee (who used to handle our accounts), the entire B of M staff has changed. There is noone there from last

year, mrrs according to Tom.

Another note of interest on the B of M is that the teller who usually deals with Tom and Jim Randlph when they make their deposits is the husband of a woman who is very active in Scientology, chairman of some one of their committees. We have thought that Scientology probably has all the info they could want on our accounts. What really made us all a little- unnerved was a comment the guy made to JR lest time he made a deposit and took our \$30,000 for the check-cash and money order service. Asked what was the connection between this account and P.T. JR rold him it was a service we had for our membership, which many used because it is a safe method of getting checks cash rather than be seen coming out of a bank. The guy replied that once "they" (meaning the Feds, we presumed) saw your checking account they knew all your business, so he didn't blame us. He was implying to JR that he did not buy the story about the check-cashing service, and that he agreed basically with doing a large cash business so it cannot be scrutinized.

2. Genny Cheeck seems fine to me. She is planning to go to the Ranch, seems interested and willing to do so. She is responsible with books and records, and keeps account of every penny I give her. She does considerable amounts of bying for PL supplies. 'I am sure she has her conflicts, and yet if they bother her, she doesn't let it whow. Just that one time when SB talked to her, and once she talked to Claire about being depressed because she feels she does not have a worth-while job here to give her time to. One thing, though, she does confide in people apart from council. When Barbara Hoyer was going in with the guy in Oakland, Genny knew it and did not tell anyone. She knew Barbara had an abortion, and that she was considering leaving the church to live with the guy =- which Genny still never told us. It was just through Randolph's interest in her and watching her every move that the irregularities started being noticed. I think Bonnie would tend to neutralize that some, though p.t. people at the Ranch are great prone to relate to "moms." I don't know what other choices we have. Aside from that pattern, I don't know of anything she has done to act out depression or hostility. She is concerned about Kim and asks frequently about her, so she definitely has an attachment there.

Two suggestions Genny made for Dad (she thought his voice sounded on the tape like he was tired, which I confirmed saying he sleeps very little) was ... pollen, Australian variety, and a new algea capsule called chorella -- both are very high energy type natural boosters. Thought I'd pass it along. She has looked into holistic field and is getting many ideas. Says pollen works very well to pick her energy up.

3. Charles does not want to ask Maxor to do an affidavit about the indidents in the jungle he claims to have participated in. Says that the whole story is bullshit and to try to put Mazor on the spot to sign an affidavit about it, he thinks it will have a negative effect. It will make Mazor make all kinds of excuses to worm his way out and embarrass him. He would rather stick to asking him for affidavtis in areas Garry knows will help us. He mentioned he is planning to subpoena all the information and people connected with Mazor's affidavit re. Grace. He asked if we were please with that and if it had been sent over.

Re. Wolfe -- the matter stands before the appellate court, and they are deciding whether or not to hear it. In the meantime, the records submitted by the AG are sealed, temporarily, until court decides what to do.

Re. Ramirez, he has still not returned Charles call, as of today.

He asked for the xx addresses of Stoen over the past 5 years, which

we will provide for him. Said that Sutro and Co. cannot find records under his name; so will have to look under addresses.

- 4. We are having a fire inspection of the building this week. I checked with Mayfield to see if it was necessary for the inspection and he said yes. Archie has taken responsibility and is checking all m lights and extinguishers etc. Should go smoothly.
- 5. Winslow was cordial on the phone today, as he always is. He will contact his wife first before allowing his name to be used on our list of endorsements. Also, said he will be going to the coronor's office in person tomorrow to see if he can detect anything -- he preferred that to a telephone call.

REPORTS OCTOBER 23 JEAN

1. KATHY RICHARDSON: Her mother has moved to Kansas and now calls Kathy on her job and writes letters. She manipulates guilt, saying Kathy should not forget her since she brought her into the world, etc. Last night Kathy said her mother had talked to Stoen. I asked her about it more tonight (after the revelation about someone mixed). She said her mother sold her trailer here in California before she moved and had some contract difficulties -- and in conversation said she had talked to three attorneys about it: Stoen, Crawford, and Cartmell. I asked Kathy what else she had talked to them about, and she replied that when she asked Virginia that, she had backed off saying she hadn't reallytalked to them at all, just thrown out their names and addresses. Of course if she had their addresses, she had tsiked to them. Katy said she thinks her mother really talked to them.

Kathy describes her mother as "hysterical" pn the phone, cries and

says that JJ is taking her daughter away and will not let her return. Told her she should get two passports and give one to her mom, so when whe decides she wants to return, she can get back. Kathy said she denied that JJ would keep her there -- and Virginal told her not to be so sure,

and remember who he was in the last life etc. etc.

Virgina wants Kathy to visit her in Kasas for Christmas. I told Kathy she would have to decide for herself, since she would have to live with

the consequences of going or not going. But that if I knew anyone in my "family" had talked to people trying to destroy the group, I would not have anything to do with them. She wants to go, from what I pick up.

Tomorrow night she is going with Kris Kice to the "Golden Venus" health spa, a free trial introduction night of some sort. This is to do "something different," because she claims to be bored. She has seen the movie Saturday Night Fever more times than she will admit to and income additional to the second state of the second state o Saturday Night Fever more times than she will admit to, and wears disco-

type clothes. She is into a real city trip.

While I was gone she quit her job at ITEL and got a job in word processin at an attorney's firm on Union Square. Says she is happy there, though she did not officially clear it before making the move. She manipulates and

acts independently

She was told last week to accept Judy Flower's offer to help in the Letters Office, and as much as she yells about needing help she made an arbitrary and emotional negative scene about not wanting to work with Judy. This has still not been resolved. She does not keep up with the Letters work, complains about it and takes days off to shop and do petty things like movies and other diversions. Her head is at best dual.

I have talked to Marcie twice since she has been in Indiana. Tonight she seemed fine, said she had talked to Lane and he agreed to write Suzanne the letter. Then she said she agreed with the decision that she should tell him not to contact Suzanne by phone, but just write. But she did bring the subject up again, however, that he was willing to talk to her. Said she had given him the messages about Castro's own sister turning on him. Also that she thought Suzanne had definitely talked to the enemies. When I said everything here was quiet though busy, especially planning for the event on the second of December, and that everything was going along well in Jonestown, she was glad and said she could use some quict.

The other time I talked to her was when she said she wanted to talk to

This was conveyed on the radio, but for clarity here it is again. Marcie said Sue had called Mrs. Baldwin, and it was her feeling that Sue really believed the lies she had been told. Two of them were that Marcie was guarded 24 hours per day, and that Margret is supposed to be trying to get Robert to divorce Theresa and marry her. This is supposed to be because Margarte knows so much on Robert. Theresa's conclusion was that she should have her mom call Sue because she would accept a call from her. Theresa wanted to get on the line and assure her that these allegations were not true. Or, that at least she could tell her to call her brother inGeorgetown and talk to him, if she won't talk to Theresa. She also was definitely sure, from the gist of Sue's conversation, that she had been talking to Debie. She hoped to have Sue come to Indiana to talk to her and Mrs. Baldwin or offer to pay her way to Georgetown and Jonestown. She wa need to give Sue the EMERE chance to see that the lies were not true. I asked what Mrs. Baldwin had said Sue's tone was, and she said "concerned about Theresa and jet hostile to her dad." She expressed the thought that Sue is only questioning at this stage, and if M Theresa and or Junior could talk to her and assure her the lies are just that, she would come around.

Marcie said she talked to the Socialist

who had called her mom with support during the negative articles in Indiana.

She will bring further report on that to you.

The man from the Paladian Item she talked to, Dick Reynolds, was warm, accaording to Marcie. He had gotten letters from P.T. when the good article had come out, and again when the bad ones appeared. His comment was that this appeared to be a campaign, she implied a mildly negative reaction from him, or at least questioning. Said he was concerned about Mrs. Baldwin when the bad news came out; Mr.a Baldwin, who was along with Marcie, had replied that her husband had in= fact suffered a stroke from the articles. He kept her articles and photoalbum to take pictures from. Said he would call her back, and she anticipates a good article from him. He did ask about the paternity cituation.

- 3. Muhammad Ali's address is: 48th and Woodlawn, Chicago ILL 60615.
- 4. Disciples of Christ meeting. I attended Friday night and Saturday. Few people asked any questions. The feeling most people seemed to express toward me, when they learned I was from P.T., was curiosity as much as anytjing else. Curious about when and where we have services. From those who have known Bonnie and me for a long time there, the attitudes were slightly more cordial than when we were under direct fire in the media. One minister, Harold Ranton (formerly of Eureka, recently moved to a church in the Central Valley) said he came by to worship with us several Sundays ago and the church was locked up tighter than a drum. He asked if we were teally still having services as we said. I said of course, and we also still drove to L.A. on some week-ends and if he would lat us know ahead of time we would tell him whenwe would be there for him to come by. He is a fairly simple person, has been friendly over the years. I think it would be a good idea to try to swing a service sometime in December and ask a few "religious" folk -- like him. Disciples. To prove we are what we claim to them to be. Maybe the Sunday after the December 2nd testimonial when there will likely be relatives of people coming mup from L.A. for Saturday's event on the buses.

 Guy and Hue and A.J. could provide a few prayers, I suppose.

 Talked to Leona and a few others about this. It might be feasible, if we kept it short and strictly planned. Let me know if there are objections.

LANE:

discise called and said that she called him last m night and that he said that he would write to Susanne and put her on notice.

FRANCIS:

We spend from 9-12 this morning in a counseling session with Prancis. Apparently she had run so many games on so many people about going down to LA this weak that the whole issue finislly came to a head. The issue was that she wanted to go to LA to make contacts. Our point was that she and Laona were running this dinner and naeded to be here -- and not in LA until after this big dinner was over with. Her point was that we could do the work and she could organize from whereaver -- thet she wasn't needed on the follow through. She planned to go alone --- Harcie had told har that Wars is to go on all PR things with her. She hit me later telling me that she was going with Maxine who is her allience and Marcie and I talked to her about her gamming up and then last night she hit Jean Brown. Just playing one against the other all the way In the courds of the counseling she said that Leone was on a power trip. alone. It got into a heated mees. Frankly --- I don; t think a person who doesn't carry thair share of the responsibility has a right to be deciding what is a power trip or not when she has no first hand knowledge of what is needed to get a job dona. Anyway the issue is celused down for the time being. It is hard to any what will happen. She doesn't appear to be in overly good spirits with this group if you want my frank opinion. She eaidm eaid at one point in telking about getting Mervin Gay to come to the dinner " I think it would be better if I talked to him in person x so he can see me when I am acting like myslef" The obvious inference was that in PT you don't act like yourslef but rather we all put on a show atc. (I am sure you have heard all these complaints before).

LETTER WRITING:

I am soome what worried about the letterwriting that is going on here. I am not questioning the wiedom of having lots of letters going into anywhere as I can see the obvious advantage of having lote of pressure on any given office. But the worry I have is---- are we perbape becomming counter productive with getting off all most all very poor quality letters. I don'tknow. But just stating the facts --- out of the several hunder letters I read yesterday to the FCC, DA., McGoy and who all else we are writing. They are like anograms -how many differnt ways that you can eay the same thing. Haybe since they dont read them and just chalk them up as votes -- it doesn'tmatter. But I hope that we aren't bordering on counter productive. --- I don't know. As it is we are continuing with the letter. I do think that we should require that at makes lesst one heartflt letter or ecomething that rings a note of real thoughfulness muture ought to go out to each place eavery other day or so just in case they are reading them. I am not writing this as a dig. Lauria and all are crenking them out as fast as they can-- and they are direct and too the point. They eay what you want eaid -- and they don't take alot of riske in what they eay--- so the instructions are being followed to the T. This may be just fine. I am just throwing it out for reeveluation becuese Marcie called in here yesterday and said that the guy from the Indianeipolis paper that she telked to said " I I write a good letter I get lots of letters -- if I write a bad article I get lote of letter -- but in ell homesty I em worried that perhaps others I just see it as a massive letter writing campaign". may view things this way. I em not being critical --- Obviously it is impossible to do high quality work to the number of people that have to be hit daily and also in the quantities to each thet you want daily --- but I just think that we should review what we ere doing and raesse if this is what we want to do and are we gett ing the respits we want. I think that with the state department it was most effect. With the Indianapolis man I am not sure that it was--- so each case is going to have to be looked at on its own merit. I can'teem it as reelly hurting. Perhaps it is only to let them know of our numbers which is fine. But I do think that you should be sware that the quality is to the point but grossely repititious and boring. Thats no problem but thught you should be aware.

Talk with Lane:
Talked to lane this morning and he said that he has been in touch with the National Inquirer and Hal Jacks and that Hal said that if he knew it he would like to tell him but that he cannot get it from them becuase the thought it best that with his being the middle man and all that he not know what it was. Lane then proposed to go to Florida and talk to the National Inquirer people himslef and find out 1. what it was and 2. stop it not only on the newspaper level but im also on the level that it is origionating from. He said that if it is the Head case that he will go to Los Angeles and work on it. I gave him the information on that Ham operator that was saying all those things to the people on the aire and he would prefer not to call himbut rather wait until he gets to florida and visit this guy andximum see exactly what materials he has and who he f got them from since it is his opinion that this man is g just duped and you want to get to whoever got him that stuff... so if it is ok with you he is going to check into that while in Florida. The rest of the time he diescussed developments with the Ray case. He will keep in touch more frequentlt.

Tim Carter
Called this mouning from Idaho and he will be delayed slightly in
getting back here because he is getting some partials made since
he says that he only gax has six teeth left in his mouth. He said
that ixix his dad will pay the bill and that he is also buy
ing stuff for others down there that have been requested.

Charles Preston:
Marcie talked to him yesterday and he was friendly. He said that
the Grey Panthers paper was xxxx rather poor but that he would
try to find a way to get down to Jonestown. Marcie said that it
sounded to her like he was doing big hint for a paid trip and
she said she did not give into his hint at all. Converdati n went
well she said and she will fill you in on the details when she
arrived.

PAIADIUM IDEM Harcle is due to talk to them today. Will have more information on this when she calls.

MAZUR: MAZUR:
Called Garry yesterday and told him that Dior had sent an B page report to the state department about Lanes visit to Guyana. This is all that he said that we were able to get from Garry. Also did the D to Mazur saying that your his letters were received in the Capital and that he was always welcome in the project.

- JIM CLEAVER: Ha s agreed to do an interview for the Sentinal. He will be talking to Hue and Don Freed on Tuesday in IA.
- 3. Mayor Bradly: Hue and Freed have tentatively scheduled an appointment with him on tiesday. Still not completely sure that he can get in but will try.
- 4. Pat Richartz: Called yesterday on some routine matter and went on another one of her all out campaigns against Lane. Some of the points that she mentioned were:

a) Lane is no more left than the shoe on her left foot.

b) Lane is only out for alne and not for any cause.

c) Lane plays the game for the government because you never get the true story because Lane plays bothsides against the middle and befriends both sides.

 d) She feels that Freed is crazy to even associate with Lane
 e) she has always hated Lane and always will.
 f) Lane in her opinion is the biggest male chauvinst that America has ever produced.

---- anyway--- I'm not endorsing her opinion--- just passing it on-naturally she has the interests of Garry to protect and would try to get us away from anyone if she could so --- I wouldn't put much merit in what she is saying but do think you should be advised as to her opinion.

SCIENTOLOGY:

Talked to Jeff Quiros today and he has been tied up in some HEW thing He said that he would go over our articles and give me a call back. He was qurious to know how our thing with Stpen was going. He mentioned a guy on Channel 38 who was having some difficulty with the FCC and IRS and that we might want to give He said that he would keep a look out inhis stuff for anything on Stoen. One thing that Randolph told me later on is that the guy that takes care of our cash transactions at the Bank of Montreal is a scientologist. Also when I talked to Tom about it the guy at the bank has been asking how our cases are going and the like. So we may as well take it for grantid that Sceintology has a listing of how much cash we have on ahnd at all times. The said that the guy at the band told him on one occasion that he agreed withus on doing things Tpm said that the guy at the bank

BB-7-A-56 6 DENNIS BANKS Have sincerely tried every possible means of getting hold to Dennis and it is utterly impossible. Even when we don't say that we are peoples Temple people just have not seen him in months. Tom tells me that he was trying to get hold to banks before I can back with the same kind of luck. I even called his next door neighbots and

they havenot seen him either. We are now begining to wonder if Dennis wasn't a bit worried that som thing was going to go amuck with his extridition and split to someplace. Remmebr in an earlier report someone had seen Debnis in IA with an asian girl and he looked all surprised. I do 't know. Have sincerely tried to get hold to him however.

F. NORMAN IJAMES
Talked to Norman today from Florida and he would like a patch sometime with his family. Haxaanx & We can run it from here sometime if you like but it would be cheeper if you just picked up a Miami sastipn and then the call could be done for free. He was checking out someting in regard to a shippinglines and was giving us some feedback on some questions we had. He sounded a little tired but other than that ok. He was interested inknwoing what is going on and I gave him a brief rundown. He is getting all the articles and stuff in the mail as it comes out. He said to say hi to AMEXA AJ and Rosie for him.

8. Marcie:
Called to say that you should back up her story with her parents that she and you live in different places because she workes days and you work nights and you al would never get any sleep if you did not live seperately. I passed this already on the radio so this is just a reminder.

9. ARCHIE
Was alittle upset this morning because he had not been told that
Marcie was leaving. A stupid mistake on all of our parts. But
moreover he was pissed because Marcie had promised him a counseling
with him and has crew and now the opportunity is passed. A counseling
session is being set up and things will get straightened out.
Apparently Archi e is having some problem with Irvin not comming
to work until later--- I am sure that there are two sides to the
story however.

From Jim McElvane 10/17/78

To: Dad

me: Bill Russell

Bill is now a special commentator on Channel 7 in Los Angeles.

Bill was a 3 time all American basketball player and outstanding pro. He was the first black NBA coach and the first black general manager of an NBA team. He is very well known.

He prides himself on being outspoken.

I played with him and against him in high school and later in various leagues and knew him fairly well.

He is a capitalist but has done black pride programs. Francis Johnson says he was one of the few black athletes that would respond to black fund raising with time and money.

My suggestion is to approach Bill about doing a story on Jonestown if he's interested.

If you think it is a good idea, I will follow through. If not, okay by me.

Dear Pat,

I am leaving today and thought that it might be in order to ask a favor in the event that something should happen to Jim and the organization before I see you again or before you get to Guyana yourself. In that you and Charles and Dennis are just about the only people with any understanding of the group outside of the organisation, should anything happen that would kill Jim or bring about a last stand on the part of the organization in Guyana -please try to put both his life and death in perspective to the people. I am sure that many will say that it was perhaps a "crazy or hysterical act" and my answer to that is that it has been the collective decision of the group and Jim for a long time that if it is not possible for us to live the lifestyle which we believe is the only fair and just way to live then we do believe that we maintain the right to choose the circumstances of our deaths. Jim has dared to believe in human strength and has shown us the beauty of a society based on principle; we have chosen collectively to opt out of a society that exploits human weakness. If we do make a last stand, it will not be as an act of giving up but rather as a demonstration in the hopes that some peopls will wake up and give those people who wish to live in equality a chance to do so. It will have been a last resort, we will have tried everything short of it to find a place where we could live our marxist lifestyle in peace. I am not expecting anything to come up in the next few days so don't worry, but on the other hand I don't want to be so pollyannish as to assume that all will go well and leave here without asking someone sympathetic to interpret Jim's commitment to an ideal in the event of his death. As I said before, I really am not expecting anything to come up, but I did want to feel secure that in the event anything would ever happen that someone would make an attempt to stop the maniac press from distoring his life further and that someone would try to bring about an understanding of his life to the people.

BB-7-C,

Thanks for all the help you have been and for taking the time to listen to all our problems when I am sure that you have enough of your own. Take care -- see you in Guyana.

Well, Det, I hope you are being good and listening to Maike and Terry and Jocelyn. I talked to Bobby the other day ans he told me that he was going to write you a letter. Did you get it. I have a picture of you on my wall and you look very happy. You're getting so big any more that it looks like you've almost You're getting so big any more that it looks like you've almost grown haxxup. Have you learned any maxwax new words lately. I bet you speak Ramminaxx Russian and Chinese better than us big people-- don't you. Well, you be good. Don't forget how much Dad loves you becuase he talks about you all the time. See you later--- be good and have fun.

Love you.

Dianne:

Well I heard about the trip you all are planning and it sounds good to me. Glad that you got a chance to go. I guess it must make you pretty nervous however-- knowing so much it hinges on how you do. The longer I am here the more that I know that Jonestown is the most perfect place in the weixxx wantexx world. You know, everybody has their angle--- left right--- whatever--- out for good imax old number one. Mary is carrying on the show pretty well here--- she sings like she feels it and I appreciate that. Her situation is being worked on now and we think that we may have some solution to her problem-- but I'm not going to be too optimistic on that yet. Nothing much here has changed except that there are less people and that makes it rough. Masfixx I hope we have a break through in one of our court cases or the conspiracy soon becuase I know how much that would mean to Dad. Well, miss you take cara of yourself and especially Jelanie. Bye for now.

A professional person - s wasp - say, folks don't trust the newspapers, and they look into the thing to find out how wrong they are. If the H. Enq. were honest, they might get a chance to see things for themselves, and it would be fantastic.

For Darren - Please think of anything you can. Robt. particularly asked you to do it. I hope now

Jean:

From TON Enclosed is a note to jim --- thie is a matter that we have discussed before an end bescially the decision was left to me. Alot of it was binging on JJ's health and that was the deciding factor in all of this. If the other side gets wind of what I have in mind----it will completely blow it and inx any information gotten would be usekess becase I am ours it would be no good. Further more it is just risky as hell. So please do the following:

- 1) to keep Leona off your back and also Sandy--- just tell them that I got a phone petch lest night from down there and had to make some immediate changes to be the continue of I left immedetely. That will keep Leona from being paramoid and I don't trust sandy not to be leaking messages to the other side.
- 2) as far as what to tell JJ--- he has a good idea of this alheady so all you need the assignment that was wnce given to a Thomas" ---- but really I don't trust half of the people on the radie on that side either--- so you can prix use your own discretion on it but I would just as soon people thought I had split and then there would be no much denger of a leak however--- if JJ thought that he might get sicker so I don't know. Maybe just pass the message to him alone in the room later in the evening when he is up on the project and just ask to just have him in the room. Or just him and Julis---- I wouldn't throw it any further because Julis knows about this also --- outside of Julai and Jim this has not been talked about.
- as for as Same and Freed goes-- they were told in Guyana that I was only comming back here for a few weeke while you were in Guyana and that I would be returning when you a returned so all they need to know is that them I went to Guyana. They will never check it out and I don't plan to be vocal so thay won't be hearing enything from us one way or another in terms of the press or something like thet. When they go to Guyana egain you can just say I am out of the country taking care of da finances ---I don't know. I would not think it wise to discuss what I am doing with them -especially on the phone for reeson that they are tapped and maybe we are too. Garry is used to bex me sneaking off to Guyana behind his back so that should be no trouble for him.
- 4) from time to time as soon as I find some thing out I will be getting messages for you to you-- samehow--- so keep your ear open for anything unusual-- and read things that may seem routine carefully before throwing them eut.

The note enclosed is for Jim. If you want to read it that is your right. I have writte nothing specifically about finances in there so there is no information in there that you are not privy to already. Basically --- it states why this is happening now. I have discussed this with Jim many times and I guess the time came to shit or get off the pot--- mor so that is what is happening. I will be checking the chron and examiner daily--- to see what is happening and also will keep on top of the court cases so I will know what is going on so I don't be doning comethi ng stupid at the precise wrong moument.

If I find that I can't learn anything from the folls I will be back---- as soon as I am sure that nothing is to be accomplished. My reasoning is all leyed out in the

To: Jim From: Tori

As you know by several letters I have written you in the past few months --I am extremely upeet with one the state of your health end two our insbility to expose the other side. Although things seem to be getting better there is still something going on -- which allows for people to get hold of such people es that redio operator just a short time before Lane and it goes on and an. It is clear to me that there is a very prohestrated movement against us-- and frankly they are doing such a good job of it that -- it may be never that we get to the bottom of it. At least that is my feeling. I don't know how much longer you are going to live. I heard you on the phone patch the other night and you could berely get out the words. I asked Tom to pass a message asking how you were as per your instructions and Tom said " why should I be is obviously critically timescux ill -- anyone listening to him can tell that". I passed a massage the other night about comething that would really be to be expected from the Estional Inquirer and you went into a full fleedged attack. Leona told me that you had three before abe left. I keep getting messages on the radio Robert is very sick-I know that no one would be making this up because I made it quite clear when I left you that I was going to be making alot of decisions based on the state of your health. So time is short. Sorry to say life ham't been more pleasant than a continual hell of demands and demands and femands.

Despite what others may say about our collective paranois.— I em convinced of the effort against us.— I heard them talking under the house.—— I heard Dennis Banks first hand.—— I know that the AG wouldn't be moving in your direction if Stoen wasn't pushing behind him. These things that others may view as contrived I know as fact because I expresenced them first hand.

I believe strongly in peoples temple and the people that are trying to make it work. With all of our faults (and I believe we have many) it is still the most decent place in the world -- without question. Maturally, I have my conflicts as I am sure you have yours but none of them are insurmountable and I believe I have faced just about every personal conflict in regards to you that a person is able to have---and I feel that my respect for you is not based on any illusions of trust or personal love because I knew quits well that is not the case--- I don; t expect it and it doesn't bother me. From time to time I get respet ful of those who had children when I gave mine up--- but I should have been more firm about what I wanted at the time -- so you are not to blame for whatever grief I may feel there. And I know practically that I did the right thing. All I am trying to say is I don's feel that I can be shaken at this point by anything that anyone says or does because I think at this point I have faced the brut facts of life and have no illusions about much. I know you have talked about me to many. I know that you talked about me to Debbie as I read a note that referred that a conversation that you all had--- so I am braced for that and nothing she can say at this point could be anything worse than what I already think. And I em old enought to know that you take us ell on our own merit one day at a time- action by action so I don't care what happened a year ago ar so.

At this point I find my self in e very old situation. That is--- that elot of the stuff that the church is presently in trouble for-- I organizaed-- did and carried out. If you wanted to call me a provecetour it would get the church most neetly off the hook. I would not sue. I have discussed this with you before and you also felt that it would work. Maturally I hope it doesn't come to that-- but I am willing to take that if that is what it will take. I would like the see the stage set so that you all could go to russis--- I think that there will be safety for the people there in the event of your death and slep in terms of survivial alot of the pressure will be take off of you as a single leader and I know you would like to

just get out of that role for a while. I feel and strongly believe that at this point there are only two m people that the conspiracy would even consider talking to after Debbie. Who needs to taken talk to others after they have talked to Debbie--- everyone else has less information. So the only two people who have more are myslef and Carolyn. Carolyn is obviously not oredible because of Kimo and it would be oracl to Kimo to think that his mother was a agent-provacatsur all his life. My case-- although -- I am sure all will be synical --- is more oredible --- I have taken the most radical positions of anyone in the group (which some say is the first indicato r of an agent-provacateur) -- having lost several children and for a period of time -thinking myslef "in hove with you" -- these would be a personal motive on my part from a feeling of rejection that carolyn would not have --- or perhaps the feeling that you wanted Kimo and not mine --- alot of rationales that would be oredible come into play. Alao--- as of this week--- I signed the last bit of finaces out of my name--Marcie is mailing one en route and the other I sent down to Carolyn to get signed and done with. So from this paint on I am completely out of the money and have no control thereof -- whereas Carolyn is not yet in that position. Frankly --- If I don; t fuck up and get myself in alot of trouble there is a possibility that Stoen in particular would be quite interested in cultivating a working relationship -- given he came to me and not me to him. (I know that this whole Idea seems orany and radical but then again when someone ie dying what oboices are there---)

I really want to be in a poistion to pass releavant information to you through a disinterested thrid party and then you can use that to catch stoen. This I know will take some time end I am not expecting mircacles or even for it to work at this paint. If thinks get out of hand--- well--- you can call me every name in the book. The eperson that organized all the illegal sotivities at PT--- on the other side--it will be obvious to all that I am an agent. I manished will try to stick to some guidelines and get messages to you from time to time but I will stick to the basic frame work. 1. of trying to get information. 2. if step one doesn't work I will consider taking the tectic that I wrote you about--- that is of speaking out against-- but I don; t know if I am able to pull that aff without going completely mad. 3. the would only the s final thing--- If I had really blown it and that is the final solution that I wrote you about and said was able to be done without flaw. Tou could use it for whatever--- but I would naturally held off on any such final solutions in that I don't know what the effect would be on you-- would I was sure that all other avenues were closed. (also--- if things started to go botter for the temple on its own or you all makes got to Russis--- I would feel free to abandon the whible idem.)

I am very sware of the emotional consequences of such an act. The parancia. The feeling that no one ever trusts the sikenex person who plays both sides. But how else are you going to find out anything -- court ordera --- hardly. I feel given your health and personal demands on you in addition to this mess -- that we are in a state of complete crisis. I realize also that there are many in the group who willalways consider me a traitor and I do think that I don't care what shey think anymers. Thus You know better end the only other person I have any personal feeling for outside of children is Dianna. I have never been involved sexually with Dianne but I do have an emotional attachment for her but If I can take your diagust I can certainly take hers. She's just been accepting of me as a person and I have always appreciated that. Thats' all nothing are nothing less.

I also wanted to Calrify one thing also. I noticed that Jean Brown wrots me up for having Jim Rendelph go through the money with me laxx while Jean was gone--- but I know organizationally that was stupide--- but I have been planning this mose for mothes and I flidn't want any slip ups in the counting of the money and that is why I also gave the other books to Paula so in the major cash and the petty cash common else had the count on the money --- so sa to prove that I did not take one cent of black peoples money for thie. I am going to try to da this without stealing from the church. So on the surface it looked stupid--- but every went of money is accounted for and as for the international accounts-- they are all out I of my name now.

I know that this is nothing less that am major move and I know also that you will have massive conferences discussing my loyalty and I just think it is time that something get done. I know I can take it and I don't know that others can. I don't claim to be without hostility---- but I don't feel that my hostility is organizationalky destructive--- unlike some who claim no hostility and are more destrotuve than those of us who own up to conflictis. And some of this may be cop-out-itus-- that is not wanting to watch you die-- not wanting to watch Mrs. Thomposon mucher you to deeth--- I must admit that I have seen a terrible deterioration in your helath since her return. That kind of shit makes me hostile. But I think that it is absolutely characterless for people to speak out against a belief and an organization onthe basis of personal likes or dislikes.

I guess the deciding factor in this is that I would never be able to live with myslef if something happened to you and I was not able tohave done something that I thought was right to help. Obviously however they have been playing on people has been quite an effective technique--- but I can only say that it won't be the same in my case. If I waited for you to instruct this --- it would never happen max me for one consideration or another. Also I fully realise that if theother side figures out what I am up to--- then I will be in serious trouble an gradient probably do al ot of time in jail on alot of things. I know the consequences of this. I also know that if you try to inferfere that you will just save a suicide---at any point-be it now--- be it jail-- whatever--- I will just go into the final etags of the plan which may not be necessary at all and finsh it off. I hate to put it that way but if this is the last thing I do in life I would like to do it right. Please remember that I was gone for 6 months out of the country last year and months and months the years before that by myslef handling the finances and that was really not much different in terms of risks. I can also assure you that I won't be going after any financeshad I wanted money I have had smpls socess at all times --- and I don; t care about moneyso you can send CL and Heris on a trip m if you feel it necessary against me--- but I think I have well proven that I don; t care. Further--- you know how I feel about who can be trusted in that area. Venie only.

Plassa don't put anything over the radio on this --- or I will be getting all sorts of no good information ebcuase they will have figured me out.

Another motivation for doing this... is that little wa are doing is effective. Lanes work has had the best response I have seen as far as community pull and with the exception of "arry the response has been good. But take sunday for an example. We had meetins and counseling from 9 am in themorning til 10 at night. I started my work at tem PM after listien to problem efter problem after problem; When are people ever going to grow up and stand on their max own two feet. I don't know.

I taxx will enclosed fax some papers to show my good faith. I took a stand against soten in the Law shit and have him very pissedoff at me at this point so this while thing is going to be tough but it might in fact make it more realistic. Bacuase somehow he would not think that a person that just attacked him the hardest would be out to infiltrate. At least that is my opinion. But he may be so mad that it won't make any difference. I don't know how it would go.

I don't know what else to say. I believe what I am doing is right. I can only go on what I am harring on the radio--- but you are sounding worse and you were in terrible chase when I laft. I am sorry toward worry you--- buy I don't think that anyone clase would be workable or credible at this point. I know you will keep and eye on Detrick and I don't care if everyane thinks I am horrid---- they already do anyway---/

Respectfully -- as always

Teri

PS The only way I will ever feel trusted in the organisation again is if I succeed in this so please don't interfere

abother factor in these whole mess is that fact that I know you are exceedinly anxious about a number of adtuation none of which we have been able to get any information in despita the dact that we have sent Lane fo Florida -- have Garry calling the DA four times a Day--- numerous diversions all comming to nothing. Daily on the radio are desperate pleas to find something out and I don't know what to do. I am frustrated beyond all believe. I have run out of ways to find out the information. Hoave no one that would be willing to sell the information. Can't even find Debbie Blakey in this little city. It is just upsetting -- very much so to hear people begging -- eaving that you would feel so much better if you just knew thus end so and our being completely unable to produce anything. Haybe because we can't come up with anything -- it is assumed that we don't care but the fact is I don't know how Jean feels and I try to keep It light joking about kidnapping the DA and begting the information out of him but the only way I can see to get this information is to get it from the other aids. Maybe this won't work. But I get the feeling from the people on the redio that they are desperate for anything to make yolu feel better. The two minutes I talked to harriet the other night she sounded utterly depressed completely unlike Harrist. So it all boils down to -- do I have the nerve enough to do this --- to be liked if it is successful but to be cleesified as an ass and maybe words traitor by the whole group if I don't succeed which is probably thecase -- can I take that kind of group eauction. I guese the question no longer comes to canxixxxx I take the group hatred but moreover can I live with myslaf If Idon; t do everything possible knowing the condition of your health, hearing daily begging, and not reacond. Naturelly you will never tell anyone to take risks. Frankly this is less risky than other endeavors. -- I really have nothing more to say othr than I I terribly depressed by all of this --- I am afraid that I will fail---I can't stand daily asking on the radio and being able to produce nothing-knowing that the lives and survival of people depends on your survivel becuass rightnow the organization will not stand without you and we would have makem, and as I said before--- please don't interefer becuase I want to do this right and if I don't get a change to prove myslef -- then I will forever be paramoid.

Also I am enclosing aeveral declarations that I wrote that will have me thrown in jail and Tim Stien too anytime you want to show them to the authroities—— so you have complete control—— anytime you want me out of the picture—— youhave my signed thing that will get both me and Tim. This is to show you that I am leaving my life in your hands. I don't know what else to do to prove my intentions.

October 9, 197?

Dear Pat.

I am leaving today and thought that it might be in order to ask a favor in the event that something should happen to Jim and the organization before I see you again or before you get to Guyana yourself. In that you and Charles and Dennis are just about the only people with any understanding of the group outside of the organization, should anything happen that would kill Jim or bring about a last stand on the part of the organization in Guyana -please try to put both his life and death in perspective to the people. I am sure that many will say that it was perhaps a "crazy or hysterical act" and my answer to that is that it has been the collective decision of the group and Jim for a long time that if it is not possible for us to live the lifestyle which we believe is the only fair and just way to live then we do believe that we maintain the right to choose the circumstances of our deaths. Jim has dared to believe in human strength and has shown us the beauty of a society based on principle; we have chosen collectively to opt out of a society that exploits human weakness. If we do make a last stand, it will not be as an act of giving up but rather as a demonstration in the hopes that some people will wake up and give those people who wish to live in equality a chance to do so. It will have been a last resort, we will have tried everything short of it to find a place where we could live our marxiet lifestyle in peace. I am not expecting anything to come up in the next few days so don't worry, but on the other hand I don't want to be so pollyannish as to assume that all will go well and leave here without asking someone sympathetic to interpret Jim's commitment to an ideal in the event of his death. As I said before, I really am not expecting anything to come up, but I did want to feel secure that in the event anything would ever happen that someone would make an attempt to stop the maniac press from distoring his life further and that someone would try to bring about an understanding of his life to the people.

BB-7-10

Thanks for all the help you have been and for taking the time to listen to all our problems when I am sure that you have enough of your own. Take care -- ses you in Guyana.

- Ter

FROM: Teri

Included here is the hodgebodge of reports that I have thrown together on a day by day bsis while here--- sorry they aren't beettter organized but the past few days have been literally insane with the press. Also included is a thing that Mark Lane wrote up to you on his proposal which you should probably read. Pat Richards is doing every thing in hoer power to divide us from Don and Mark. She called me up thress times yesterday to tell me stuff about them calling the lambrarains and all that kind of stuff. She says thing to piss us off with Don on a regualr basis. Anyway-- Pat is a little trouble maker. So --- she set something up today with Dillenger to come down to Guyana which I guess is good--after all he is with 7 Days Magazine. She tries to divide us and bribe us simulataeously. She invited Marcie and I to dinner at her house next week. Charles is firendly except when he is being devisive. and that attnory in his firm that I said did a good job on your particular case is a jerk becuase he refuses to work on the Cobb case -- (which we have to respond to in 35 days) on grounds that we were Redbaiting by calling Cobb a trotskeyite and he says that he cannot in good conscience go alone with such McCartheit tactics as we resorted to so we have to get another lawyer in the office to handle the case. Sickeing if you want my opinion. Pat also tolm me that Huey Newton has threatned her three times because now the Penthers think that she tried to interfere with Michal K Kennedys defense of Heey-- she called Huey crazy and everything esle to me--- so I wouldn't doubt it if the Panthers didn't think that she was an agent--- in fact I wonder myself.

Also dear old Charles was called to day by the Berkely
Barb who wants to do a positive article on us. Charles
informs them that he will talk about us as along as they
don't talk about conspiracy stuff and that is precisely
what the Barb wants to do. Mark is furious and so are we
at this pp int. Frankly--- I know we have to keep charles
but it is rather divisive when he won't cooperate in even
bakeing up the ides of a conspiracy.

last minute note:

Seese Davis of Channel 7 wants to come down to Guyana I believe next week. He was reasonable in his questioning. Lane suggests that we see what he does with this material before wa give him a definate yes but that he should go.

Lynn Hodges wants to come to Guyana. Lane recommends yes.

Jim Eason wants do do a live phone patch with JJ on iare--Lane recommends ok on that.

Hal Jacques-- would like to talk to JJ in person on the radio and also would like a letter from Tosh tslking about the constiacy against Jonestown from start to finsish--- he would like the letter to be from her to print---- So please make someone puch on this.

Evonne Golden: wue to come down at thanksgiving.

Dyamm11Y: was very firsdly last night and said that he was comming down and he is pissed at the FBI for messing with him-(paula is writing you a complete report)

MEETINGS WITH MARK LANE SEPT. 27-28 Teri

Those at meeting: Vera, Hugh, Marcie, Tom, June, Teri , Leona

Topics mentioned:

-wants to talk to Mazur about getting out of that 2500 bill and also

about the Fresno case before getting into the Fresno DA.
-feels that Mazur should not be working with us at all but rather just as an informer and wants to get Mazur back again interested in the movie idea.

-feels that in the Katsaris suit that a change in venue is not the best idea for reason that Katsaris would be more likely to not want to be sexually exposed in his bome town as opposed to other towns -- Katsaris might be more inclinded to drop the case if he stands to be embarrassed at home.

-feels that we should concentrate strongly on getting stoen out of the case.

-agreed that press conference should be at temple at 10 am.

tuesday. -said he would talk to Albert Kahn about getting the statement from the ediotr about the funding of Kathy Hunters trip.
-said that he would talk to Don about the possibility * of talking to

George Klineman.

-thinks that we should contact all left wing press with articles about us-- such as 7 Days---- Mother JOnes--- In These Tiomes--- etc-- said that is was a mistake on our part (and his) to hit the Guardian first becuase they are so dogmatic in their views.

-gave us a record of this Barbara Dane --- who is a folk singer against the capitalist system --- he thinks that we should invite her to Guyana and ask he to play for our people --- he feels that she will be impressed with both our lifestyle and talent ---- she is now working for the Guardian and he feels that she will be an easy way to get friends with the Guardian. -Mark said that he will talk to the congregation on Sunday.

-said that he would talk to Leo Ryan

-said that he will talk to Barton Hunter

-wants us to set up an embassy in Washington to keep communications good in J/town and US.

-asked to take alide show to LA for use in the National Inquirer interview tomorrow.

-talked about making a contact for us to get massive doses of Vitimin C for project that a doctor friend (Nobel Peace Prize winner) is warking

-Wants to get a Friedns of Jonestwon committee together to do things not only in our defense but also to get them to write to get medical supplies and fund raising and all that kind of stuff. -wants to talk to Garce when she gets off of work someday and see

who has been contacting her.

-wants us to invite all the foreign press to the conference -- that is Sweednes atachee, Denmarks, Russian, GDR, etc. also wanted Philand John Burton press person told, Dymmallys press person told Youngers press person told, Browns press person contacted about the press conference.

DON FREED

Called and mentioned that he had talked to a Les Payne from News Day magazine and that the guy is positive and may be interested in comming to Jonestown. I don't know the background on this maganizzen or the guy however Dpn says that he considers it a real breakthrough and wants him to go down. Will have more information is on this later.

DANIEL ELSBURG

Danial talked to the people here for about an hour. However one thing that he waid to Mark while they were both sitting on the podium together was that he had heard alot of strang things about us---- horrible to be exact. So mark asked him out to dinner and they both spend the evening at Elsburgs house and Elsburg did tell Mark that he was very m impressed with the program and all the people xhank here etc. He laso told Mark that he always had reservations about joining or supporting something that he himslef was no an exptert in so Mark responded that he would given him enough information to make him an expert on Jonestown.

67C

Got a letter from the property of the property of the husband who is in jail for murder and all and that your were going to get them both to Jonestown soon. Anyway she told me that after she got the leyter that she moved up to SF and proceded to try to come to PT. She was turned away at the door by some 11 counselors and now she is slightly perturbed to have moved all the way to SF being told that she can move to Guyana only to find out that she is not allowed in the door--- I frankly feel that she should be let in for reason that we have had informers at the highest levels of our organization so even if she is an informer-- what is the difference. Anyway-- since she has moved to SF =- being on limited funds-- she is living in a run down old place and has since been raped. What to do? \(\mathbb{B} - 7 - \mathbb{D} / \mathbb{E} \)

RE: CONVERSATION WITH PAT RICHARTZ:

Pat called me up this morning after the press conference and asked me how it went and I told her ok. I told her that they talked about the Ja, mes earl ray case and about us and she responded "They had a hell of alot of nerve talking about the Ray case at your press conference--- that will just kill the sotry for you." She want on to ask me why was Mazur meeting with Mark and Don in the afternoon and I said that I dadn't know and ahe said not haxx to believe any of their hairbrained schemes. She went on and on about Don's and Marks ineptitude and all.

But the important things that she said were:

- that Mazur had called Garry telling Garry about a scheduled meeting private between him and Mark and Don (sounds like Mazur is trying to stirr some shit between us and Garry)
- 2) That Garry had been called by Mazur and told about the press conference that Don and Mark were having and it was only fortunate that I tol d Pat ahead of time or we would again been in hot water with Garry.
- 3) That Gary had asked Mazur what the account or what bank that account of stoems was in Venezuala and that Mazur could not remember every talking about any Venezuelan bank account.
- 4) Pat asked me to come over to meet David Dillenger this afternoon-(if he shows up) which shows to me that Pat is still vieing to keep us as clients.

RE: CONVERSATION WITH MARK ABOUT PAT AND ALSO CHARLES ABOUT PAT

When I was talking to Garry on Saturday about the Cobb suit

Gerry got a call from Pat. Pat was literally hysterical. That

is pat was crying in faar for her life and all. Garry kept telling

her to calm down that no one was going to hurt her or anything and

not to worry and not to call that woman again and to just stay out

BB-7-D.C.

of that whole affair. -- I did not know what the whole thing was about but fet the foom to give Garry the appearance that I was giving him and pat provacy. However Mark told me today and told me to tell no one at all becuase Don had told it too him in confidence . Anyway Don told Mark that Pat called him on Saturday hysterical and that Pat told him that she had called up Hueys wife and that Hueys wife (Gwen) was cool to her and she was worried that the panthers were going to kill her and her children. Don fold Mark that he thought that Pat had cracked -- to make such an assum|tion on the pasis that Pat was worried about & tone. Anyway -- I would not have waxximixmismix even credited Don's story had I not heard the same thing happening in Garry's office. So something is definately wrong with pat so this is a real zoo we are dealing with. We have Mazur playing both sides against the middle. We have Pat who begs for our friendship and tears Don and Mark down to us and then turnes to Don and does the same thing about us to him. You have Don amd Mark vieing with each other on who cam be the most excentrick ---- you have all the left telling us that Mark is a fucker --- and you have Mark being the only person who will speak up to the press on our behalf----- this is all happening in a critical time in the civic suits --- Garry is beginn to act for once --- Mark is urging us to get another lawyer --- and I find it all very very confusing.

TALK WITH MARK LANE 8/26/78 afternoon call

-Mark said that he will not be going to Florida tomorrow
afterall but rather will be comming directly here.

-he said that he had a long talk with Charles Preston and that
he had been quite excieted about what we are doing for seniors
down there and he said that he will try to get the word out about
what is going on in Jonestown. Said that Chalres is now editor
of a Gery Panthers publications and will try to come down. Mark
asid that it was a good conversation.

-he said that he had the video tapes of all the fimls that he
is going to give us comming down here so that we should make
arrangeemnts to copy them

- said that he is being some 60 copies of Rush to Judgement with
him also since he had made a promises to the people in Georgetown.

NEXT CALL WITH MARK LANE
-Told him to call the AG and he said ok that that he would pay
a person to person visit to AG and also to Jerry Brown.
-said that he would talk to the Governor in person also.

BEN BOWERS
Tom called him this evening and he seemed his usually unguit ridden self. Friendly to Tom. Appreciative of Tom's offer on JJ's behalf to pay his 50 dollar fine however Ben said that that would not be necessarry for reason that he had protested the fine on the grounds that he had turned his liscense in and he had heard nothing more. Nothing unusual about Bens conversation.

BON FREED conversation with Teri 9/26/78
Told him that I had not heard from mark for a couple of days but as soon as I did I would lek him know etc. Don doesn't see how he would be of any use at the press conference and said that what he thought would be a joint thing of him and Mark on Stoen and that is what he wanted to discuss with Mark. He also reminded that it is most important to talk with Charles about what our plans are at all and the whol significiance of the press confesce will of course also hinge on Charles support. As you know Don thinks that well-xelefix world of Challes and that it could well be a problem when everyone gets together because Don's alliance with Charles may well be tighter than his alliences with Mark. In fack Mark told me that Don considers Challes his very best firend.

MARK LANE: CONVERSATION WITH Teri 9/26/78 1) he did give a call to Dick Gregaory and talked to him and Dick is excited about the possibility of comming down and is working on some plans so that he can try to make it into his schedule.

2) Charles Preston: he called and Prestons wasn't in so he is caaving a message for Preston to call him back. Paladium Idem --- he is going to send them a copy of the article when written. Guardian: he said that they are not unfriendly but very dogmatic in their political poistion -- he said that they argued the point that we shou be up here fighting and all --- he said that he argued that this was giving children a change to grow and a place for senior. They are not hostile to us in one sense but in a political sense they do not agree with our stand so they are not going to writee on us.

5) gave him the message about the mix up in communication in regard to Cheddi Jaggan. // he said that he thought that communications just are very difficult between inthe interior and the other areas and he just chalked it up to miscommunication and that he didn't pass it and further as a matter of polity he doesn't pass thiggs that he doesn't understand.

6) NATIONAL Inquirer: says that the national I quirer wants this other story from him so bad that they can taste it and he has said that he will give it to them only on the condition that they lay off of us. He is thinking about having a postive story by a National Inquirer reporter going down haxx there as a condition to getting the toher article. wants to go down to Florida tomorrow en route here to settle the situation about the National Enquirer and to give them a positive sotry about J/town.

7) Mark says that he wrote a 6 page letter so this french film producer that he knows about J/town etc and should be hearing back on that sometime. said that he placed a call to Steve Gavin and that Steve was not in so he left a number for steve to call back. 9) Said that Ralph Abernaty is working out a conference of meovmemnts at the end of the month and Ralh will be inviting Muhammad Ali to it and Mark says that he is going to invite Muhammad Ali at that point. 10)

Mark Lane continued:

- 11) Mark said that he has alot of ideas that might be usuful -- he is trying to get together a team of people who can all sign for a medical thing to go to medical places here and outside the country--- he is going to try to get some of the top names in the country to sign it as an endorsement and see if they; can start getting free medical supplies for us that way.

PAT RICHARTZ:

Pat valled me this morning with the new news about that one case that they wanted to reopen and for whatever reasons that conversation of Mark Lane came up and this was her comments:

a) I don't trust ham

b) I worked with him on the White soldier trials in chicago a few years ago and he alienated all of the marxist soldier so they finaially split off and did their own trials three months after mark did his--- they found him to be inaccurate.

c) she said that she watched the James Earl Ray proceedings and that she felt that Mark did not prepare him for the case and that he came out looking like an ass. Said that he was no more better prepared to testify than she was on the case--- that he came out looking like a liar and

d) she said that he is the kind of person who doesn't know the meaning of cooperate -- that when he gets on a case he goes full force with it and doesn't listen to anyone else--- she said in the later steps of the Dennis Banksuzz episodes that they had the find excuses to get him out of town on various reasons for reason that he was wrighted at the war wrighted that he gets his facts twisted up and uses facts as he wants to see them

e)) she said that a case in point with us is the comparison between Mark and Don's analysis of what Mazur said and then the reading of the actual transcript. The two (as we found out the hard way) differ greatly in content.

AN IMPORTANT THING THAT SHE SAID: Is garry made some remark about Don calling us fanatics and Pat got pissed at charles for repeating it and she asked me not to tell Don that she had said it. She had apparently had tax a talk with Don Freed this morning and had been talking about us. In the process of the conversation Don said "They aren't paranoid they are just fanatic in their beliefs"---- so who knows what that means. But I WOULD BE CAREFUL THAT MARK IS GOING TO TELL DON ALL OUR PLANS AND I THINK THAT DON WILL TELL THEM TO GARRY. I am going to ask Mark tonight to please keep in confidence anything that you said about Garry because I am afarid that this will get right because to Don and then right back to Pat. I think that we will have lots of trouble.

Garry was somewhat more defensive of Mark than was Pat. Garry said that he thought that he did a good job on the wounded have trial and Pat reminded him that there were otherlayers working on the case etc, Garry said that he doesn't want Mark calling any legal shots.

I asked Garry if he would mind of Mark talked to the preas in a postive

manner and Garry said fine that Mark could talk to the pres all that he wanted but that he just didn't want to talk about any of the points of litigation. So ---- that is where that stands for right now.

Garry said that he didn't have a problem with Mark in terms of not being of good faith and that kind of thing but rather that he just wasn't a good lawyer.

I don't know what to make of all this stuff.

ELIZABETH TOTHE

Apparently wrote a letter to her mother (Ray and Voila) saying that she had lost her job--- that she had given the children to her in laws--- that she was contemplating suicide. Ray and Viola were just leaving the country when they got the letter-- so Ray worte her a short note and Betty McCann wrote her a note also both of which I thought were ok. Elizabeth is asking if she can come by the church again sometime. I don't know what to do with this Any advice.

PAT RICHARTZ ON PARANIOA

When Don was tald about what Garry said about JJ being a fanatic--Patxxxxxxxxxxxxxxxxxxx Don said that that wasn't how it was at all. He
said that he was talking to Pat and that Pat was calling JJ a
paranoid and that he was defending JJ saying that anyone who
got together a project like that had to be radically committed to
their beliefs--- which he feels she interpreted to mean fanatci.
However he says that he in no way meant that JJ was fanatic wtc.
He said: "Who am I to call anyone fanatic--- I am the most
fanatic person I know" /

FLORENCE BROWN:

Called this morning about going to Guyanea -1- talked about how well her children were doing and all etc. Said that she wanted to come to church here and that she wants to go to Guyana at christmans time. Appeared friendly--- grateful for the children talked about her old farm life.

CALL TO CHERYL BAKER:

Well Freed gave us thes long song and dance number to call Cheryl Baker up with in hopes that she would rush down to SF $13R \cdot 7 \cdot 0 = 8$ 67C

and spill the beans about the Katsaris to Don and Mark. The call was a 100% failure from word go when she answered the work phone "Grapevine". Anyway it was down hill from therenous abe didn't want to come down-- no she didn't want anything to do with peoples temple--- no she hadn't heard of the citizens commission on Inquiry in Washington---- etc--- and so it is left that Don Freed is going to have to call her up and clean up after us--- we did try however.

DEBBET BLAKEY: June told me that she and I are going to be delivering her some message. So---- I just sound this out last night so I will ask Don and Mark is they can find out from the National Inquirer how to get hold of Blakey and see if they can give us the address--- otherwise I have n oleades whatsoever on finding out where she lives. Will porceed on giving her this message as soon as we can find where she lives. I wonder if you would want Lane/Freed talking to her.

TALK WITH LANE: 9/30/78

Lane sa'd that he had talked to Kathy Hunter for about 45 minutes today. I am sure I will get more information tomorrow however in the meanitime--- she apparently believes that we have electronic fences surrounding our project and all of the rumors she ppred she is continuing to spread. Lane told her that they can work jointly together on an article for Esquire magazine and he is going to set up a metting with her this monday to see if she will show him all the letters that she says that she had that she claims to show to no one before. She still believes that Chung is Mao and that the whole country knows it and is just not saying anything. Should be a very interesting meeting with her.

MARALYN PURSLEY:
Would like to go to Georgetown within the next month or two.
She would prefer to take her son Eric with her but is not sure she will be able to afford his trip. It any case she wants to come down as soon as possible. Any feedback on this???

To: Jim From: Marcie

I. I called William Kunstler. I stold him of our organization. He didn't respond when I asked him if her had heard of us or not. He was not unfriendly. Inf fact I thought he was, When I told him of our project very interested. He asked me if I was interested familiar with Micel X Malex' wife, Brix Desires. Evidently, she lives in Georgetown. I told her I knew didn't know of her but some of our people might. He asked that I send him material on the project. He was friendly and explained that he was pushed for time because of a deadline he had for getting some legal work done. Mattral with he sint can fitte from mi,

Jím Jones, Pastor

PRESS CONFERENCE Tuesday, October 3, 1978 10 A.M.

Peoples Temple 1859 Geary Blvd. San Francisco, California

Contact: Laurie Efrein, 922-6418

Two of America's leading investigators, Mark Lane and Donald Freed, have just returned from the Peoples Temple Agricultural Project at Jonestown, Guyana. Both are members of the Citizens Commission of Inquiry, who has conducted independent investigations in the United States for the past fifteen years. Mr. Lane is founder and Director of the organization. Mr. Lane and Mr. Preed are presently conducting an in-depth investigation of the conspiracy against the Peoples Temple church, and will give the first report on their explosive findings at the press conference.

Mark Lane is a former member of the New York State Legislature, and the author of several books, including Rush to Judgment,

Executive Action, and Code Name Zorro. He is currently representing James Earl Ray in the Martin Luther King assasination case.

He flewdirectly to Guyana following his appearance with Mr. Ray before the House Select Committee on Assasinations, met with government officials in the Guyanese capital, and also lived at Jonestown for several days. Donald Preed, the author of The Glass House Tapes, also recently spent several days at Jonestown, learning about the project and coordinating material for his investigation.

Mark Lane: "We have now completed independent investigation into the charges against Peoples Temple, Jim Jones and Jonestown, and we have concluded that there is no substance to those charges. That those charges are false, first of all. Secondly, our inquiry has led us to conclude that intelligence organizations and other organizations of the United States government have been involved in an effort to destroy Jonestown and the Peoples Temple and Jim Jones.

KSFO: "Lane said he is gathering proof of that conspiracy which will form the basis for a multi-million dollar suit against the federal government and its various agencies on behalf of the Peoples Temple."

KSFO made no mention of the press conference on their 3, 4, or 5pm news broadcasts.

KSFO: "... conspiracy theory in the assinations of both John Kennedy and Martin Luther King. Today when he presented a new theory of o conspiracy...

Mark Lane: "We have now completed independent investigation into the charges against Peoples Temple, Jim Jones and Jonestown, and we have concluded that there is no substance to those charges. That those charges are false, first of all. Secondly, our inquiry has led us to conclude that intelligence organizations and other organizations of the United States government have been involved in an effort to destroy Jonestown and the Peoples Temple and Jim Jones.

KSFO: "Lane said he is gathering proof of that conspiracy which will form the basis for a multi-million dollar suit against the federal government and its various agencies on behalf of the Peoples Temple."

KSFO made no mention of the press conference on their 3, 4, or 5pm news broadcasts.

KSAN Radio News Broadcast 10-3-78

The two guys who were at the press conference did
the news spot on the radio. Though they played several
excerpts from their tape of the conference, about the
conspiracy and the plans to sue the various agencies of
government responsible, their side comments were negative.
They said Lane spent a lot of time trying to discredit
Cathy Hunter, and that several of the networks had been
turned down on their requests to film the project. He also
attacked Lane's crediblity as an investigator because of
the Dean Cowden incident during the Congressional hearings.
The parting comment was that , "Does this mean we're supposed
to believe that all the reporters who worked on this story
are CIA agents?"

Re! Meeting with Sheehan in Washington

Note: Please take this in the context that he is only useful for information and given all the basic attributes of lawyers that he is arrogant -- condescending -- opinionated etc-The usual for lawyers:

MOST IMPORTANT POINTS:

Kidnapping of JJ: Sheehan said that knowing the operation of Interpol and the rest of these government agencies that they may be laying for to kidnapp JJ and bring him back to the US to face charges. He said that he is not as worried about John being kidnapped becuase they are only using John to get to Jim and that what they could do is kidnapp JJ and bring him here for court. He said that kidnapping is no defense for a juristiction arguement. That if you are in the US that is good enough becuase kidnappping or however you got to the US is no excuse --- the fact is that you are within juristiction. He cited a case that proved the point on that issue. He feels that Interpol etc play first and foremost where they feel that a person has a personal attachment and where he is vulnerable. He said that Jooxx John fit both of these crtieria . He did say that were you to give John back to Grace that they would just start harrassing someone else. They make it a point to play on relationships. He said that children and Lovers are Interpols age old classic of hitting people where they hurt. He feels that they are playing Grace like a pupet and will play anyone clae that they can get the ir hands on. He dixx doesn't share the Guyanese goverment optimism about John in that Guyana is refusing side that sooner or tater they will give into them and ask for the return of John. He said that he was not saying all this stuff just to make a spook sax story but rather from first abox hand information on the operational tactics of these people.

EAST LANSING MICEICAN: Sheehan would not give the how or the why or the who behind this information but he said that he was giving a strong word of advice "Learn everything you can about East Landing Michigan. Chekk out everything. Jim's name is on a computer up there and those peoples names that are on that computer are singled out for special things that they can do to." That is all he said on the subject. He was not free to go any further. I think that we should check this out. Perhaps by telling Flesheimenr that we have reliable information about East Lansing Michigan and for him to find about it.

MORE ON SHEEHAN; background and other points mentioned in the conversation. Sheehan is about 30 or so. Dreses rather hip. Extremely brifft===well education. Graduate of Harvard. Has worked on wall street. Jesuit. Lives in the monistery. Born in NY. He is the counsel (main) on the Karen Silkewood case regarding here death and information on the piutonium stealing. 🕓 he said that this z case gets more nightmarisb every day. He is currently working on breaking the COXX CIA domestic wiretapping. He will be on 60 minutes next sunday. He talks as though he has "operatives" is many avenues of governemat. He bumped Scientology off of his case load the morning that I was there because they had out and out ited to him on an issus so he refuses to deal with them further. (He was pissed). He organized the security for Letalier/ He is stated to go to Argentina, Brazil and Press for six months comming up soon. Was the counsel for Dan Berrigan. ---- If you were to believe everything that he says --- you would think that he has a hell of alot of people in and out of governemnt w orking for him in some claudestins thing (may or may not be the case)--- he gets his

BB-7-E,

work assignments for the group he works through called Don Quiote. They are a team of lawyers and investigators etc who take on strickly anti-governemnt cases. He seems to feel that he is in am more evolved state of mind becuase he doesn't have "attachments" and that kind of thing. He percent preaches about committment to a 'a cuase aqbe personal attachments and all. Later he got off of his high a horse some what and he said that making decisions about children and the like was not easy however and he also said that alot of people make the wrong decision. He also talked ahout the conflict over loyalty to people and sensitivitly and an organization. Saying that it seems almost cold and inhuman to say that becuase you believe in a principle that you have to make sacrifices of people you care about and ail and that it makes you almost wonder if the principle is any good if you can't maintain sensitivity. His point was is that is an organizational Interpol tactic to hit people in their sensitive areas theee by straining them on about basici issues. Towards the end I did not feel that he was as condescending as it started out to bel. He does feel that it is unwise to take a very offensive opsition when y ou are in a situation of being in complete defiance of the law becuasethey have the upper h and and can make it worse for you then before in an actof retallation. He mentioned that he felt that you should get aqualtined with a very strong Chritain Socialist group of people in Parls who have alot of contacts in latin america -- through out in a radical left perspective. He said that if you wanted to meet someone from there that he would set it up that they could provide a vaulable connection for you someday. He does a feel that if you come back to the US you will get "creamed" and that you also should guard against kidnapp. Although he talks with alot of over-pride I do think that he may have information He relies heavily on his investigators who he is very protective of. to back that up on. He talked about Ga Russel Means being so beaten down til now he is utterly worthless that all that he does is go around getting if drunk and talking about beating people up that he is utterly ineffective as an organizer any further. He talked about DINA and the attack on Letlier and also of different runins that they have had with them. He feels that DINA is backed by the US and is a very ruthless (almost uncontrollable group) that needs He said that they are so blood thirsty that it gives you the "willies". to be watched out for. He mentioned that they are trying to get SB ! through now that Connely is dead. I asked if he knew atxxx any lawers for a organizations that had turned states evidence in on them and if they m were able to counter the lawers with " confidentiality and lawer client priviledge". He said for all practical purposes that that was not true hecuase all the LAWYER HAS TO DO IS GIVE ALL THE INFORMATION THEY WANT BEHIND THE SCENES AND THEN THE PROSECUTOR GOES ABOUT GETTING SUPPORTING EVIDENCE IN ANOTHER WAY SO THAT HE CAN NAIL YOU AND LEAVE THE ATTORNY OUT OF IT. HE SAID THAT THE IDEA OF HITTING THE LWYER WITH THE PIRVELEDGE IDEA WAS NICE BUT VURTUALLY INEFFECTIVE SINCE THERE WERE ONE HUNDERD WAYS AROUND IT . He knows of many instances where the lawyers have done that and he cited a few.

SUMMARY OF MEETING WITH SHEEHAN:

I feel that the two most imporatnt things in this elongated talk were i. East Landing Michigan. 2. JJ being taken ---- I feel that he is well educated. He has many good contacts. 3. That his information is reliable. 4. that our case is too messy for him to want to take on but to g just get feedback he is good. 5. that he is arrogant and moralistic and not aged enough in that respect of understanding. 6. that he (in view of the magniture of his caselaod Karen Sulkwood and CIA) and the results of the cases that when he does talk like he knows something that he probably does.

Sees himstef as a radical. Doesn't like liberals because they always view radicals as impulsive and insans. Sees himstef as a "revolutionary" of sorts. Big ego. God information person but would not want him for our attorney. BB-7-E-7

L'APD ARTICLE:

I am enclosing an article on the LAPD that I found in the Washigton news. It should be helpful to you in that the LAPD is being investigated for unfair treatment and killing of minorities and all. Several copies will also be sent to Georatown so that you can tell them what to do with it. It will make that thing in the letter look one bell of alot better if they have a news story from the Washington Post about racism in the LAPD.

CIA DOLPHINS IN LATIN AMERICA:

Am sending you copies of an article on the CIA putting trained dolphins in Latin america I am sure that they can do something with this in Goertown. Dick could perhaps draft a letter about some thing and include this in it.

TAXI CAB DRIVER:

Just an idea but I wonder if we are buying extra cars down there is someone couldn't be set up in the taxi cab business thereby getting out people hwere they have to go and at the same time charging \$ for other riders. Just an idea. Probably no good.

PAMPHLETING:

One thing I learned talking to Sheehan is that it is unconstitutional to not allow relgious max organizations to pamphet at air-ports. In NewYork and Washington people are p amphleting. I do wonder if in LA if we could try this or do you feel that it is too risky. If they can start in LA we will call this question ONE, yes or no. (from now on all my questions will be numbered.)

December 6, 1977 Tuesday Reports continued page two:

DENNIS BANKS

Talked to him this morning after Andy informat me that we are having rock group comming to the church here on thursday and also baving a dinner of corte for a benefit to raise money for Dennis Banks. I thought that that was a little far out but apparently they had committed us to it some weeks ago and there are flyere out around town and that kind of thing. So I called to at least be sure that they get some aort of control on who comes in this place with what and they are going to be sure that there is no emoking or drinking or dope brought in this place. However Desnis has the followthrough of a mole ao who knows what will really be done. To makee Dennis feel alitte more of the heat eince he may be feeling more accura eince the governor helped him axx i told him that he hed base mentioned in an Interpol report and that it had mentioned that one reason that we were not to be trusted was due to our support of him end that panthers and muslims. Although this is a slight distortion of facts " -- and eaid consudentially I thought that he deserved to feel some of the pressure still. Anyway we are going to have to go ahead with this fool thing on thursdye night and hopefully things will not blow up. I don't like the looks of it but we are stuck with it now. Dennis asked to see a film of the project and wabted to know if there was anything at all that he could look at on Thursday night and I said that we had some home movies of the pisce and he said that that would do that he was anxious to see anything about it.

SCIENTOLOGY:

Talked to Jeff Quiros about the situation of East Lansing and whatall could be found out should it and he asked around and found out that there is a central police computer in Michigan called that Legatex Law Enforcement Information Network. Also tha CIA does do recruiting up thera. Asio some guy up there on the campus itsief is inovied with CIA activities to support of Diem etc. But adothing thing that he seid. rung inhis mind but that he was going to check it out is that he things that there is a very right wing vigilente type church committee up there that takes it upon them sievee to keep a computer file of radicale and to help the CIA adod them other groups interested egainst the evils of the reds and that kind of thing. He aent over a copy of the book that was eent to you so that we can read it on this side and alos another book called Interpol Doesier part one (he saf that they are still working on part tow) so we are conding you that one. For what it is worth he says that he is keeping his car to ground to see what can be found out about east landing. Maybe something will come up it le hard to eav. As you may know by now the thing was alleated about tehir th ng to say that the FBI couldn't do that reid and it was over ruled and said that it was justified so that they are taking the whole leaus to the suprema court. Jeff says that he sloesn't sae this as any major set back for reason that evwn if scientology would have won it then the other side would have appealed it to the supreme court so either way they have ended up where they expected to end up and all.

JOHN BURTON

Following Erics immebrained advice which eaid that if you want to find out something shout East Lansing ask your congressman to look into it. Anyway he seld to call Burton and say that a confidential source of Erics (making him feel big) said this about East Lansing and all and for him to find out what is going on. Well Burton was in DC so I ended up talking to this guy by the name Bill Raed and he was about as motivated as a snail and allowoy and only because he had too took the information. I doubt that anything will come of this but I am going to a follow the whole call up with a letter in hopes that they will get more action. Maybe this is not a good lead but we don't have many to go on.

---- I realize that we havepoor comminication from time to time and frustratins over a lot of little things and I am sorry for my attitude on he radio at times and I am also sorry that I got so judgemental of Margaret for a time there. I know that there are good and bad sides of everyone and I think I was nit picking at the bad. Please do know that I wm with you all the way. Irealize now that I should have taken Ed Please know that my motivation was no agreement but I thought it was maintaing some kind of peace here. Obviously wrong strategy. Marvin I still don't know how to deal with. Take him on and he feels that I think he is a traitor for expressing opposing view and don't take him on and I am back to where I was with chaiken. Frankly I am sure that there is some logiveal calm intelligent way of dealing with people like them but I don't know what it is. I am rotten when it comes to psychology of personal relationship and blow it every time one way or another. Like when Irene went into Garry's office she undermined our whole pecition of taking certain stands legally and all and it really psised me off talking about her private banks accounts. Mike Prokes bring spanks whay you are called father, etc. she could have not answered them and didn't need to add alot of shit to it. Garry unfailing goes with her on reasoning because their reasming coincinde more than mine and his do so naturally he takes her word over mine both due to pasitiona and the fact that he agrees with her viewpoint more than mine which he sees as reactive. So I told chaiken about this problem and that with him gone I would have no back up becueee Garry will naturally take the more moderate of the two postions .-- so Cahikns said that he did say to "ary to listen to my opinions just do due to the fact of working here. But I reaalize now that it was a mistake to blow off about marcy to anyone. I know it was a mistake and I regret it now because although I don't know if he used it in this case of going.

during his negative times he couldhave easily gons to her and told her what I said because basically they agreed on positions as far as I could tell at the t end. Both worrying about their children etc. So I played right into that too, From now on I promise gou I will keep my mouth shut and only blow off to you in letters. I am sorry because Iknow Ihandle things poorly. If life was just papwer work it wouldn't be so hard to deal with but I do terrbly in daaling with people. I think. Irene comes in the radio rooms and tells me what to do and is adamant about it and then you are on the radio sincerely trying to get some work done or instructions and that always means trouble. I don't know.

I hope gou do know that despite my fuck up that I am sincerely with you. I find this whole conspiracy quite upsetting because I know that it is real and it bothers me that Garry would rather go out to s chinese restaurant with Huey than to bother with us. It bothers me that We are a 9-5 do as little as you can case for them than a victumof conspiracy. I know for a fact that these peopls are trying to ruin you over there and here. I cold apss a lie detector on that, I reasly think that it is time that we took a more agressive pisition with thess people and didn't limit ougsleves to one little corner of the earth. I noticed that niether Doik nor ed minded having the information from the Tunnel stragetgy but I dobt that either one of them would really get down and craw under. -----I am sorry for doing such a porr job here and Iknow that that is precisely what it is. I know I have said thise many times before but I will try to get it more in order. I have turned into a compromiser. Find out what you want. Wrod it so that it will pass Dick and then workd was passes Dick down so that it passes Garry at that time of course it is unrecognizatable as comming out of your mouth. ----- I wish we could make some money for youback here as long as we are stuck here.

I drink papel too which I had stopped doing in Guyana and now started up again -- and I know it is really shitty to drink when you all can't. When Chaiken and I went to Garry house with Dennis baknks. .. Cahine took a frink by the way. You can I always tell when people start drinkin that they are feeling more self confident and defiante of the office. At least I think so. -- anyway I havehad no liquer since the last time you gave me a glassz tfo go to sleep on one time when I was a nervous wreck here and elevil hadn't worked or something. I know better on that score. Also since you haveleft I have not taken any hard core downs like reds or yellow like I did before and have also quit taking phenobarbitol which I had resumed taking while on the last voyage to muixmamgailmax outer mongolia. Occasionally whn Ithinkthat my nerves are getting so flakey that I am unbearable to others as well os myslef I have taken valium. (about 4 times since gou left) thats it. I am sorry we are not doing better here. And Ido promiss you that from today on that any probless I have with Irene, or Margarte Iwlll keep to myslef or let out to you. I know that was devisive and a bad mistake. I really do promise to keep my problmes to my slef. Not Debbie not no one anymore. I mean that and I havenever promised you this before but I do mean it--I won't talk about Irene to Lilly or any one. I just won'd do any of that anymore at all. I know that I could have cooled things between Debbie and gargarget more than I did too. I contributed to that some not at first but towards the last blow out we had on the radio about something. I sincerely do prmoise (and I rarely promise you anything other than loyalty to the snd) that I will not voive negative remarks to anyone about anyone else. I won't talk about filly to Irne nor Ir e to Lilly. Only face to face talking. I do promiss you g I will shut my mouth and be a peace maker. (my mouth hasn't be a that bad -I don; t think -- but I can dee where I willingly played into situations. Especially where I had a bone to pick).

BB-7-H3

Anyway I really will do better. As creepy a person as I am I am with you tll the end and regardless of Garry or all these fuck ass liberal if they don't fielp us in fighting this conspiracy than I think that we should I agree that it is stupid to get arrested perhaps in do it alone. the turnel project and enother thing that Rex and I discussed was thatt should we get caught or arrested you might feel obligated tocome back and one thing that I want to make quite clear is that should I get arreted here and have the slightest Idea that you are commbg back on my account I will commit suicide and you will have no reason to come back. I would like some assuraces from you that you will stay there no matter what happens here. Obvioulsy this has to be said now because from jial it is hard to communicate. We are obvioulsy careful (too much so) in all that we do here but should we ever get in trouble we don; t want to feel that we have ruinded the casue and there for it would be a great relief to us to know that if we do mess up here that you will not get involved and that we won't be the case of the ruin of the group. Furter it would do you litte good to return if the intent was to help becuase Iknow for myslef and I think the same for some other here --- that it would be suicde to prevent that.

I miss you alot and I am sorry that I project wanting to go to Guyana so often. I don't have any right to seel that I have some special reason to go when others can't (June, Lee, Dick who are more problematical than myslef) I will do better here. I am glad to come to guyana and looking forward too it sometime soon though I am not getting my hopes up on something not happening before that to ruin that. Whatever happned---- I have total and complete faith in your committment. No one in the history of the worls has lived the philophy that they believe in as do you. Take care.

I am certainly very sorry that I did not push to send Gene on to Guyana aconer. Hewas showing the same pressure signs as was Harriet but I did not think that we could have done without him. Obviously we can. June and I have begun working very closely together. I take all of Gene's calls during the day and take his mail and then we go through the mail together every evening and we split up his work according to who has the most time and or capabilities in that area. We are doing it in an organizaed fashion and making up a daily list of questions to ask Garry so that we don't find ourselves in a mess. We are also making up daily law office reports of basicially probelms that have come up and what we did on them so that we can get input from Garry's staff on our mistakes. I know that it may sound juvenile but it doesn't require more than ten minutes to go over them and it could save us digging us into a legal hole which is quite possible without a lawyer. June and I both feel that Gene should not come back becuase his job is hateful to him, and he undermines you in the process Yesterday we pulled through with no diseasters at all--Don Carolls | robation officer called about a hearing for Gene which I had talked to Gene about before he left. I got an interview with Betty abd Don Carrol about the case and Garry referred the case to Jim Herndon his associate to handle it --- it should be an easy case. Gene left a number of uncashed checks made out to him and we have found a stamp with his name on it so we are going to etamp the checke and put them in his law office account. I have four signed checks to that account by both him and tieh so that account can be closed out at any time. He left:all of his personal tax materials with me and I can't find all the things that he wanted finishe up in the way of some cancelled checks so I am going to send on h what he has together to his tax attorney who has been doing his taxes all this time.

BB-7-1,

Chaiken needs copies of some passbooks for getting some passbooks from a bank and we will write for them as soon as I can dig up a power of attoremy for Chaiken as he forget to leave one with me. --We are working on getting all the documentary evidence needed on the mertle case should it come up in court the leg work will be done. HOwever that is elot alot alot of leg work on finding some of the documentation that has been lost through the years of our less than perfect accounting office. been statreted on and Tish has been assigned to getting together an itemizati of all of that \$ that we put into each mertle property and I am trying to Iocate the city orders to demolish certain properties --- orders of condemnation to prove that their properties without us would have gone down the drain. ---- I am worried about the eax reports that are supposted to be filed yearly with the state of california. Although we do not have to p ay taxes we do have to file. The form is a 199B form. latter lest week saying that we have not filed since 1973 and that if we don't file that our corporate powers will be taken away from us. I am enclosing a copy of the letter. Chaiken becommse gware of this last week a I think he was mux worried about it --- apparently this is something that was a matter of routina to do for Stoen but Stoen never told Chaiken about it or Chaiken doesn't remember--- I don't know what the truth is--- in either case no state exemption forms have been filed since Stoen quite doing it whne Chaiken retunned from Guyana in 1973. --- Cehiken advises to take our denominational reports and up them a bit and use them as a guide line for the state forms ---- but the questions comes in on declaring reality/which as I understand it could bring in an audit wix if we report it as unrelated business income and so it is somewhat of a delima. I checked through the old reports that Stoen filled out and he always left the property ang a. of it blank. In any case- the IRS has never caught us on that so it may be wise to do the same thing on this stuff. June and I both think that we should check this out with the tax attorney at Garry's BB-7-3,
