LUCKHOO 13/4/78 (Debbie, Sharon, Mike)

- -asked him what would happen if it went against us, what would happen before an appeal/ said we absolutely wouldn't compromise on this but want to know/ told him we'd rather die them have the child taken etc.
- -he said that if they decide against us, he would ask for a stay of arrest orders, nobody ever turns such a thing down/ I asked if it was a legal thing or just precedent/ he said it was precedent/ he's never known it to fail, it's granted authomatically (I asked a couple of tiems about this)
- -regarding the possibility in a loss of the case that the arrest order against JJ could be activated/ he said the case is not against JJ/ it's Joyce who has been intervened/ JJ is west a party to it and Joyce am can always say, "I don't have the child".
- -the Marshall will not emerute any orders because the registrar told Luckhoo this
- -them court could have acceed a long time ago on this if they vanted it mactivated
- -they area stymied (Stoun) as no order is being served
- -regarding: could be delay for a long long time, the judge/ he said the judge must eventually give a decision/ he will should give it before the end of the month but if he doesn't Sir Lionel will supeak to him/ Sir Lionel will does to the Chancellor or the Chief Justice in if something isn't doen
- -if they wanted to do anything, Sir Lionel felt they would do it now but
- the Registrar said he was told by the Chief Justice not to serve the papers
 -was regarding possible passisure on the case, he pooh-poohed that/ said "no-one has even asked me about them case" it's "forgotten"
- -he said we were unnecessatily concerned
- -said re immigration that the doesn't know about that order to stop John/ Sir Lionel said he himself smalldn't i get the info
- -first he said that order would have had to come from Fred Wills/ later when I said it might have been secent and came from Shahabadeen, he didn't argue that
- -* he said "no-one is interested in doing anything to hurt youXX"
 -he said he hasn't seen the PM in 3 weeks
- -he doesn't think the Steems will come here

Lionel said if the answer was "no", in favor of Stoen, he will aske for a stay of execution on the arrest order. -He said the orders are there they can do anything they want to. -said not this is not a case against Jim Mones, Touchette has in--tervined, he doesn't know how they have an arrest order, Jim -is not a party to the child, said Barnwell won't give any orders. -said there was no written law that states he has a limited time to give a decission, but he can be pressured through the registure.
-Sharon asked if anything could be done if Jim came to G/town and someone saw him who was a rep. of Hass, or didn't like Jim? -Lionel said nothing could be done. The registure General has been instructed not to serve anything.
-lionel said he didn't know about the order of not being able to take the child out, said the order could only have come from Min. Fred Wills. -le said "I don't think theres anyone at all interested in hurting you in Guyana. -Sharon ref. to pressure of black outs, would there be pressure on us? -I don't know, I haven't seen the P.M. in three weeks, I don't think so, but I don't know. -lionel said we were makin; ourselves too important, people weren't as worried about us as we thought.

OFICIO::

Luckhoo was irritated at the questions asked.

I think it's because he not use to having his opinion questioned sto throughly, we ask the same questions over again, (out of concern and necissity) and because we don't pay a greater amount of money he shows impatients in giving us his time. Mike Frokes felt Sharon was to pushy in asking questions, but I don't feel she was. We would't have gotton any answere if we didn't probe. I thought she conveyed concern, but was not confrontative. Mike argued the point alot, disagreed with me on this. He pointed out that Luchkoo didn't even say goodbye. (someone came into the office as we were leaving and Lionel was talking to them and didn't acknoledge Wike Prokes good bye) I don't know if he heard him or not, but I thought we should do something for him, like take him some scotch, or some baked goods to his home because the man was irritated and I don't think we can afford for him to get hostil against us?

(We didn't ask the same questions over and over in this meeting, but asked questions that had been asked in previous meetings)

Dear Comrade Minister:

We are sending you the enclosed article as a forewarning that Tim Steen has indicated he has plans to come to Guyana very soon. Steen has been quoted in the U.S. press, having made statements that reflect negatively on Guyana (e.g., referring to Guyana as a "backward" country).

Stoen, who loves the limelight (as shown by the enclosed article), came to Peoples Temple pretending to be interested in working for the rights of the oppressed. As it turned out, he was only interested in using Peoples Temple to advance his own career as an attorney. He is not a Socialist. In fact, he has given his cooperation to the Interpol agent (Mazor) who is orchestrating the conspiracy against us. (Interpol works closely with the FBI, CIA, and U.S. Treasury Dept. Additional background is enclosed.)

We wanted you to be posted of Stoom's background in case he should try to contact you, as it is evident he is coming in an attempt to stir trouble and parner more negative publicity against us and Guyana. (The proper authorities have been notified and Stoom's visa is being revoked.) He is capable of being extremely devious and will likely employ devisive tricks to manipulate uninformed persons.

We appreciate your taking the time to consider this matter.

Co-operatively yours.

Lionel Luckhoo Meeting with him \$12/8/78 Maria K and Sharon

- -he said he was disgusted with Judge Bishop because he handled the case the way he did
- -he said he's always told us as a matter of law we can't lose tho in the beginning decision he thought we would lose
- -but he felt that Bishop was embarrassed to say he made a mistake and in court has said that the attorneys were not at all in fault but that he had received influence from abroad/ letters, phone calls and so he was going to send it back to the Chief Justice
- -lionel said that if he was going to do this he could have done it long ago instead of waiting six months because now the case has to start all
- -he said it is make assine, unlegal and purine??? because the judge can't admit he was wrong
- -he said thewhole thing now goes over from the beginning -I asked if he could ask it Bollers how long it would take/ he said he couldn't do that but if JJ goes out of the country for medical care then he'd ask Bollers
- -he said JJ should go right away out 6f the country for medical care/ there is nothing that the govt, would do to harm him and he shouldn't wait -he said JJ could even come to Georgetown
- -I said we were watiting for some kind of weitten assurances afrom the govt/ as we had gotten verbal assurances but we had thought that might be why they were doing the decision
- -regarding the case being sent back to the Chief Justice / it would be for re-assigning it, but when I asked if Bollers would take the case/ he said maybe Bollers would take it himself
- -he said Bishop has botched this up more than he could believe in that he has delayed so long and now won't give a decision
- -I was wondering what our relations should be with Bollersm as I am afraid if Hughes hears we see Bollers socially he might say Bollers shouldn't be on the case.

FROM: PARY RUTH

- I think Lionel's examination of the case is perhaps much more clear than anything
 we could have given you, however I will add a few of the deaails I know in case
 whileft them out.
 - A. The Prime Einister, Fred Wills, and the Chancellor of the Judiciary J.O.F. Haynes (top post in the judicial system) are advising Lionel how to handle the case insofar as Lionel does the research and they say whether it is good enough to present in court. The Prime Minister has called Minister four times according to Lionel to ask how the case was going (which is why I think Lionel has taken such a sudden interest in it). The Chancellor has called him several times but Lio has had to call Wills.
 - B. The court is going to nullify all of the orders for arrest of child and arrest of you and enter at the same time that Jeffrey Haas is not even qualified to represent the mother as he has no authority. If the Judge which Joyce appeared before on Friday remains hostile, then it will go before the Full Court and if they won't throw out the orders, then it goes before the Court of Appeal (which is the Chancellor) and he will throw it out. The Judge Aubrey Bishop and according to wills why he didn't tell him government was interested. Wills, according to wills, informed Bishop that whether government was interested or not, "bad law was bad law." There is no reason to believe that Judge Bishop will be on our side. If he finally agrees, it will be done quickly; if not it will just take a little longer. It is assured that we will win the case as it stands now.
 - C. The procedure could be drawn out, however, Wills did indicate that it would be finished before October 6.
 - D. wills is keeping a very close eye on the matter. He even knew that Karen was waiting outside of the courtroom when Joyce was inside. However, so was Richard RoCoy and his assistant Dennis Reese.
 - E. I have enclosed a letter which was sent by Luckhoo to collect fees.
 - F. Karen has not been approaching Langley at all recently because of two reasons. We ascertained that he really didn't have any large amount of money that he would be willing to spend on her, and them after getting that message, we stopped. It was very difficult to keep up with that anyway because we didn't have much spars time. However, to even get some of those outrageous fees cancelled would be quite a savings.

COMMENT ON LUCKHOO

1. I think that we were dooped by Luckhoo over this Mazaharally issue. Luckhoo had told us that Reid had said that we were not to be touched which is exactly what Clarke is saying that Reid said. Then later & Luckhoo who had told us this and who was also the legal representative for Mazaharally said that we had to settle or they would get another lawyer and take it to court. He advised that we settle and we did.

LUCKHO Monday g (this week)
-said that he didn't know where we'd get blood tests etc for Jim to
prove paternity, we'd have to call the pathologist (we'll do that)
-he six said if we wanted to sue re Bedford trucks %(apparamently you really
didnt mean trucks but wanted to know about suing a newspaper so we'll have
to ask again), we'd have to go to England and get a lawyer, he couldn't
recommend one/ or we could give a report here to the British High Commission
-he said that any press now wouldn't have any affect on the case
-he has heard nothing about the case
-regarding the PM and seeing him in the US, the PM didn't say anything about
seeing us/ Luckhoo just has the feeling, he'd be easier to see if someone
from the US contacted him when he was in the US, but we shouldn't try to
setwit up here / Luckhoo could tell us when PM gm gminkskinkings leaves
for the us

LIONEL LUCICHOO TALK

-Joyce's constest is based on the Father contesting it; it will be difficult to hold the child without the legal father's consent.

1-they cannot make headway if the child is in Guyana and not where service is accessible or with the cooperation of the government so no papers can be served. 2-unless there is service they can do nothing

The Registrat, Chief Marshall has no intention of serving the papers without telling us.

-we are buying time which could work for 2,3,5 years -adoption is the only thing that is irrevocable.

3-Luchhoo feels that TOS should contest the action up North, otherwise they are going to be giving custody to the mother by default.

-YcCoy told Luckhoo that he had visited our project and found it satisfactory and that he was reporting that to Washington. He said adverse publicity has caused some of our problems. His attitude w/ Luckhoo was that he was not interfering on their behalf. (Obviously we don't know that, if fact it looks the other way)

-Luckhoo has read the Observer and Newsweek stories on us.

Elements in the case that are in our favor:

- -1 she has sworn to no affidavit here
- -2 Hass has not shown amotherity or even that he is really her attorney
- -3 he has filed no power of attorney here although he had some paper on her behalf
- -4 His affidavit is pointless -mother, father???
- -5 The affidavit is inadmissable-heresay
- -6 There can be no substitute service in this case
- -7nno legal service has been made

Hughes knows he has not followed the procedure. He wanted Luckhoo to go to the States so that he could get paid more. He did not elaborate on this point and just implied Hughes was out for a buck.

Easis of our case is that we are holding on to a valid custody documentation.

- -asked about if she rescinded it-then we are depending on the father
- -technically since both signed it, both should rescind it
- -if she goes x-partie, the court may award her provisional custody

If Grace gets absolute custody and rescinds her order

- -Grace could get a Habeous Corpus here against Joyce and JJ
- -the papers would not be served
- -we are buying time as they could come back again and again

Luckhoo suggested some way to buy heremout .

-he says if you pay her, to make sure it is traceable. I didn't understand all the reasoning behind this and would have to discuss it further if we decided to do this.

-he suggests communicate to her: JJ of course is the father, and he will fight to the end. If you want a major skirmish here or there, keep it up.

Whe will go public on everything. —mentioned a legalistic concept of blackmail (he says —heep the threat of going public as an acc use it.) In other words don't go public untile we have tried this as leverage on her.

-you should adopt if that occasion is ever possible, say they will make an unholy stink

-Hughes does not know the paternity of the child

BB- 31-a-11

LUCKHOO

-said Hoyt is a good lawyer, very cleaver

-he has a good reputation with the government

-he said legally you have a perfect case, unlikely the judge will have the courage to change the situation/ in the meanwhile you can do nothing

-Luckhoo said he himself is not a member of govt or in any way associated with govt. -Luckhoo said he spoke to Wills and Wills is a strong supporter of PT, he said that he believes our relationship with Reid is good (Wills told Luckhoo this several

times before the article was written) -we should write for an appt with Hoyt,

-your position is not any different (dispite Wills & resigning), the govt has permitted you to come to Guyana and stay

-k when askemix told we could never give up the child, he said - then don't, if

you take the child across the border, the govt manuals wouldn't do anything, he didn't think

-he said Hoyt situation, 2 you can do nothing by belaboring the issue

BB-31-=-12

Sir Liouel 17/2/78 Sharon, Tim, Jocyln??

-said that it is good if Will Viola comes to visit in March

-Burnham is going to the US in April/ he told Lionel he had a very tight schedule

because soon after the budget he's going abroad

-Sir Lionel has heard nothing new about the decision

-he still feels we aren't going to win the first time/ he knows Fred Wills awas always very optimistic

-It involves Judge Bishop's personal pride

-if you don't want to return the child you won't do it

-don't s tell people outloud of the support you have from the govt. - doens't know

if Wills being out of office will change it

-whe can't comment about Minister Hoyt, he's his own boss, he took exception that it was suggested that we were the only facility/ "let sleeping dogs lie" if you try to cure a small ailment it becomes big (later we found he was the attorney for Hoyt)

-Hoyt won't write another letter

-can only advise us on the legal situation not on the political trends

-he has some ideas about Wills resigning, but can't say

-legally will help you, can't give you assurances, can't tell you knoknikokn whom to talk to

-re having him talk to the PM, if you are in difficulties Lionel can help you but can't be your advocate with the PM withoutem reason/ if you were in a major problem Sir Lionel would go to see him for us

-see the PM only when he calls Sir Lionel not when Sir Lionel wants to see him

-he knows that when the case was beginning before they granted the joingt custody (Joyce and JJ) the PM was very favorably interested

-can't ask the judge when the decision will come/ after 6 mos. the trans then can say his clients are anxious but it isn't even 6 mos. yet

-didn't agree that we should get in touch with Hoyt/ let it ride 80- 31-6-/3

Luckhoo meeting 17/1/78m

(Re being mble to sue % maxiyxRammxisexxkaxxaxxisia) Paas for saying PT paid off the judge)

PT is mnot an official person, so can't sue

- -if said a particular person JJ gave officials money, then could sue, but would need witnesses and would need to know when it was said
- -the arrest order of JJ is not stayed the it is not served
- -Re having the case tried in California, he said it's a law of form vs a law of origin. Conflict of laws doesn't arise if being heard here, but it could be tried there in Calif. also, couldn't hurt. Affidavits are not tensivele from the States, hux if you try it in the strates as well as here, would use it as a subsidiary argument that it was tried in US. It isn't mutomatic that it would influence the decision here but couldn't hurt. Luckhoo doesn't have the books to research Calif. law. Grace films her affidavit for divorce but it wasn't is looked at here as it is Calif. paper tho it had custody awarded in Calif.
- -Luckhoo amid he doesn't know when he can fly to Jonestown as he has murder cases he is dealing with , maybe the end of the month

PT being imcorporated

- -have to register thru the Beeds Registry. No-one can bring action against us now/ or could register under "friendly societies" welfare organizations have limited powers, could sue and be sued.
- -any publishing of statements that Guyana govt. is corrupt (or takes bribes), by Haas wer other people should be brought to Luckhoo's attention
- -could write and make a formal protest with Wills because of Haas making his statement of corruption to an American Official
- -Stoens cam bring this case up again
- -if we a want our questions answered, he said to write them out, or our attorneys can write out their questions and he'll answer them in writing. then there would be no misunderstandings.

of acres have been planted in crops such as yams, corm, sweet potatoes, citrus, and avocado.

In addition to the agricultural and livestock programs is extensive community development. Three houses, a workshop, an equipment maintenance station, a warehouse, a shoe repair shop, and a church/community center have been built by the Feoples Temple mission workers. The cooperation and assistance given by this fine government's agricultural advisors, as well as from many other government departments, has been invaluable.

Pastor Jones extends his gratitude to all of our Guyanese brothers and sisters for their interest and encouragement. Although he hasn't much time for travel because of his busy and hectic schedule ministering to the three large United States based churches, he does enjoy hearing from you and gives every letter he receives personal attention.

May God Bless You.

Pastor Jim Jones Peoples Temple Christian Church P.O. Box 214 Redwood Valley, California 95470 U.S.A. Conversation between Lionel L.uckhoo and Maren October 1, 1977

Court went all day. He will finish toworrow. Bishop (Judge Bishop) is taking the case quite well. Lloyd also spoke to Judge Bishop and gave his presentation, as did, Edward, who is Lionel's nephco.

Bishop (Judge) has already ordered the charges against JJ dropped, as he admitted they were wrong.

Conversation between Lionel & KL on October 2, 1977

He said they concluded the orders made by the judge affecting the child.

After a number of days of arguments and authorities, Number will commence his reply on Monday. The judge seemed very favorably inclined when Lionel said he pointed out that a chain was as strong as its weakest link, and that a chain for the creation of the writ of habeous corpus had tissue thin links which broke under scrunity.

Points made:

- Abdication (sp?) can only be made under the law by the mother, father or guardian and this was not done.
- 2) One of them would have to swear to show the child was unlawfully detained.
- 5) There is no affadavit in court by Grace Stoen.
- 4) Judge Bishop has agreed with us that Grace has not made an affadavit because it had to do with the matrimonial situation between her and Tim, and was not revelant to the present situation with John.
- 5) The affadavit by has transgressed all laws of affavavits in that he repeated heresays without giving the source of the information, and he said that he believed it
- 6) Hass was dishonest in court. There were features that should have been brought to the court's attention, such as Grace Stoen having come to Guyana, John having been here off and on for 3 years, and the fact that the custody papers were in the hands of Mrs. Touchette.
- Lionel said they also attacked the service of events which he said must be personal.
- 8) The return of service was bad by Eman in that he swore that JJ could not be found. He would have to show what efforts had been made to find JJ.

Lionel cited a large number of authorities from the United Kingdom and the Dominions and elsewhere which all confirmed the points he made.

Lionel feels that Hughes is conscious of the weakness of his position and it would not surprise me if they were to capitulate at a later stage.

Lionel feels what they are about is to have it draw on till Oct. 6, and then get the courts in the US to move for contempt against JJ to get an order for his arrest in the US. That order would have no effect in Guyana but it seems to Lionel that TOS should resist the actions being brought by his wife and he could ask for the adjournment of the case by citing the unfitness of Grace.

Since JJ has received no papers, Charles Carry could state it's not possible to reach him. $88-3/\sim-22$

Lienel Luckhee 31/7/78 Sharen, Maria

We only talked to him for a few minutes. He agreed to write the letter to Iverson requesting that he get TOS to take a paternity test. He said he has never recieved a reply to the last letter he wrote him. We asked if he had heard anything more about the case and he said no, but that he had talked to Frankie and asked him to talk to Terrance about it. He thinks this is the only way anything is going to gk get done. Sharon asked him if he thought Frankie would actually talk to Terrance about it and he said yes. Luckhoe said Rudolph is a very irresponsible person and he does not like the way he handles things. He had just gotten back to his office from court where REE Rudolph had said he was going to give a decision on another case and then did not do it. He said he does not like the man.

Ray Fernandz said that kke there is going to be a very severe food shortage because farmers are refusing to replant. He said he is glad that we are getting to be self-sufficient because food is going to be very scarce. Even now, things are very hard to get and there are Long lines to get certain items like split peas. The other day there was a near riot as people were waiting to get split peas. The name of each person who purchase split peas and the amount they buy has to be turned into the Ministry of Trade because they have become a black market item.

I, Timothy Oliver Stoen, hereby acknowledge that in April, 1971, I entreated my beloved pastor, James W. Jones, to sire a child by my wife, Grace Lucy (Grech) Stoen, who had previously, at my insistence, reluctantly but graciously consented thereto. James W. Jones agreed to do so, reluctantly, after I explained that I very much wished to raise a child, but was unable, after extensive attempts, to sire one myself. My reason for requesting James W. Jones to do this is that I wanted my child to be fathered, if not by me, by the most compassionate, honest, and courageous human being the world contains.

The child, John Victor Stoen, was born on January 25, 1972. I am privileged beyond words to have the responsibility for caring for him, and I undertake this task humbly with the steadfast hope that said child will become a devoted follower of Jesus Christ and be instrumental in bringing God's kingdom here on earth, as has been his wonderful natural father.

I declare under penalty of perjury that the foregoing is true and correct.

I. Fatty Cartnell, swear under penalty of perjury that the following is true:

I have observed how one Grace Stoen pressured Rev. Jim Jones repeatedly for sex. The ace would call me on the phone and cry, and then come over to me house where I lived close to Rev. Jones' parsonage home. She would ask Jim over and over for sex.

she was weare Jin did not want her in a segual encounter. Jim was very kind and always compassionate. Grace would still continue on this insane issue of sex. She appeared to be obsessed with wanting sex with Jim Jones. She threatened suicide on numerous occasions.

And then I heard Tim Stoen ask Rev. Jones in the parking lot to have sex with Brace, because he (Tim) was afraid she would leave him and try to hurt Feoples Temple and bring public embarasement to Jim Jones. So then Jim agreed, and in February or March, 1971, he did have sex with Grace at my house. She got more demanding after that and more threats came from here Suicide and threats of hurting the church. Numbrous threats to kill her huband were made. Jim had sex with her again. Grace swore she was taking birth control pills, but later laugher and said she wasn't.

I later heard Tim stoen say he wanted Grace to have a child by Jim Jones, as the thought that might settle her down. I don't know just what he meant, but Tim seemed to want to help people, though I wasn't around him enough to know for sure.

SEQUENCE OF EVENTS IN BIRTH OF JOHN STOEM, LIVES OF GRACE AND THE STOEM

- Tim and Grace were dating when they visited the church.
- Tim was the one who was primarily interested in the Temple and Rev. . Jones' teachings. Grace came mainly to be with Tim.
- They were married in the Temple in Redwood Valley by Rev. Jones. Both their parents attended the wedding.
- Grace was a spoiled your woman who had fits of emotional depression and expected everyone to cater to her. She had a manic-depressive personality.
- After they were married, Tim worked in the Kendocino County D.A.'s Office and Grace attended classes at Santa Rosa Jr. College; Grace also got a job in the Mendocino County Welfare Department during the day. They set up housekeeping in a comfortable home in Redwood Valley.
- Grace's insecurities continued despite her marriage. She threatened to leave Tim and leave the church. Tim was torn and wanted help so asked Rev. Jones to do whatever he could. He mentioned that sexual attention would be in order since Grace had placed such emphasis on her desire for Jim to relate to her.
- ~ Grace conceived a child by Jim Jones. She and Tim were not relating at the time; Grace has told many people that Jim is indeed the father.
- Grace continued to demand time and attention of Jim. She would call him at his hone, even intrude on the family by coming over and demanding that he talk to her. Jim talked to her many hours at a time, many times even when his own health was poor or he had had no rest. She was extremely hostile if the slightest of her needs did not get met.
- During the early term of her pregnancy, Grace was encouraged by Jim and others to seek an abortion. She refused.
- When John was just two weeks old, Grace allowed him to spend one day a week with Carolyn Layton. Carolyn had to have John treated for severe diaper rashes, resulting from neglect.
- John was only a toddler when Barbara Cordell started keeping him day and night. Grace would see him once a week, and would frequently choose to spend time at the church socializing with adults than spending the time with John.
- John always made frequent visits to the Jones house. Grace had no success in toilet training the child, and gave him, after several others had failed, to Marceline Jones to train. She succeeded with ease in three days. John was noticably relaxed and "at home" in the Jones' home.
- John would spend time with the Jones family on vacations, when the whole church would go on summer vacations, and on week-ends when the church members went on the buses to Los Agneles. John rode on the bus with Jim and played and talked to Jim and the boys. John insisted on calling Jim "Daddy" and even when contradicted, he insisted that the Jones boyé were his brothers.
- Jim took his adopted and "natural" family along to Hawaii on a business trip, and John accompanied them.
- "If Jim would take his sons to the movies, John would go along.

BB-31-a-27

- When John was approximately 3 years old, Grace and John moved to San Francisco to stay in the church. Grace decided she did not like staying in San Francisco and left John in the church to stay with Jim and returned to Redwood Valley. Maria Katsaris would babysit John when Jim was busy --which was most of the time.
- John would also make daily visits to Jim's mother Lynetta Jones, whom John called "Grandma."
- Tim Stoen was in Redwood Valley/Ukiah when he joined Freitas' office in San Francisco. He lived separately from John when he moved to the City. He lived in the home of Leona Collier in his own quarters there and often would sleep at his office.
- When Grace was in Redwood Valley, she occasionally saw John, often not even once in a week. She would sometimes spend part of a day with him and become so aggitated that she would bring John back to the church early. John acted up terribly around Grace, and she had no ability to reason with the child.
- When Grace began her relationship with Walter Jones, she spent even less time with John. Her free time was spent with Walter usually at the Lake Mendocino or driving around. She did not make the effort to go to see Jahn or to bring him to the Valley.
- July 4, 1976, Erace left with Walter Jones, abandoning John. She did not even say good-bye when she left. From July through October, she visited John only one time in Los Angeles, for a few hours. John was so upset by her visit that he had terrible temper tantrums and regressions and it took him several days to calm down.
- Grace talked to John a couple of times on the phone after she left. She told him to be a good socialist and that the church was good and that "Jim Loved him most of all."
- In October, 1976, John word to Guyana with Grace's permission. She signed the papers for him to go. A round trip ticket was also provided for her to go to Guyana in case she wanted to visit him. John has been in Guyana since that time.

We've been putting him off by saying the report was sent in to the project is for our attorneys to review and our boat hasn't come back yet. He was asking for a response to it. Burn Mingo, in the meantime asked him why he was doing this. Hamaludin then asked us why we k told Mingo about it. He said Mingo came to him and asked him why was he was harassing um. It evidently had its effect because at that point he said he sixiate had not decided whether he was going to do a story about it. Up until then he said he wanted to do a story that gave both sides. We said that would cause people to have doubt about us because some people are always prepared to believe the worst. Re: Return of John Victor Stoen

Dear Jim:

I am asking for your cooperation in delivering John Victor Stoen to Grace Stoen and me in San Francisco by next Friday noon, November 25, 1977. We will, of course, raise John in an interracial and sharing environment consistent with the highest teachings.

I have received reliable information to the effect that Grace is being seriously discredited in John's eyes. Not only is this deeply offensive to me, but it could easily cause irreparable, emotional harm to John. I ask you to immediately reverse the hate campaign and to advise John repeatedly what you and I both know to be true: That Grace loves him deeply and has never abandoned him. You and I both know, and John should be told, that Grace's leaving the People's Temple was not in any way due to a lack of commitment to the goals of racial equality, economic fairness and social justice.

As a further indication of cooperation, please indicate to Grace's attorney, Jeffrey A. Haas, by telegram not later than Tuesday noon, November 22, 1977, the exact time and flight of John Victor's arrival at San Francisco International Airport. The telegram should be sent to Mr. Haas at 3609 Sacramento St., San Francisco, California 94118. (Telephone: 922-6200)

I am sending a telegram to Clarence Hughes and Lionel Luckhoo in Guyana asking them to be of assistance to you in returning John Victor to us. You may confirm that I am the authentic author of this letter by contacting my attorney, Patrick Hallinan. (Telephone: 861-1151) I know that Marceline Jones and your attorney,

May the goals we shared be realized at Jonestown.

Dear Charles,

I am deeply honoured by your biography and the generous inscription therein which I have just received. I shall write to you after I have read and digested the same.

I send berewith copies of the three publications of my stories which have been printed up to the present. Someone from abroad (Fred Archer) comes on the 13th of this month to spend a few weeks and to get material to do my biography which will be printed simultaneously in London and New York. I am happy about this because we live for a short while and it provides a feeling of satisfaction to know that one's efforts will be recorded for those of my family who will come in the distant future when I am pushing up daisies.

Just glancing through the pages of your book, you certainly have had an exciting life in which your tenacity and courage are strongly evidenced. Haybe one day I shall be privileged to see you in action and to hear you in person.

I hope our mutual client takes our advice if and when the occasion arises.

I have just concluded my 205th nurder, but I fear I have some pending in which the chances of success are rather slim. I am advised to pick my cases, but somehow this approach does not appeal to me although I do confess that when I was in the 190s I exercised some discretion in the acceptance of briefs.

My daughter's comments on you were, "Daddy he seems to be a very real person," and she is looking forward to the reading of your biography.

I have had suggestions from abroad that I should do a lecture tour with some of the anecdotes and some of my criminal cases, and also the diplomatic

7th December, 1977

Dear Paula,

de: Application by Joyce Touchette for joinder and to remove Labeas Corpus Orders.

In my letter to you of 19th September, I pointed out "..... My services up to the present stage are freely given" I find that I have attended eight (2) times in Court for this matter and once again must do so on the 18th December, when a date will be fixed for the continuation. Meluctantly I am compelled to make a small charge for my services. I suggest the sum of \$2,500.00 (two thousand five hundred dollars).

all of the lawyers have, of course, been paid and there are no extra fees. We would all be present for the continuation.

In respect of general advice and even the opinion which I gave today re Oriminal charge of kidnapping, there are no charges. I have had to fix a fee because of the long drawn-out hearings which are time consuming.

Warmest Regards!

Yours,

BB-31-a-49

OPILIIO.

Re: Kidnapping.

Midnapping is an offence of Common Law punishable by a fine or imprisonment. We in Guyana follow the common law of angland, and the stealing and carrying away of a person is an offence at anglish Common law. To obtain a prima facia case the Prosecution will have to prove the imprisonment of the person, whether it be a common prison or a private dwelling house.

It is a good defence to show that the person was not imprisoned.

Merely to withdraw consent given the care of a person placed in lawful custody of another is not kidnapping.

The following cases are of use to show the limits of kidnapping: -

- 1. ... -v- Lesley 1 Dast P.J. 429.
- 2. 2. -v- Modder (C.C.). April 12th, 1937).
- 3. Phillips -v- Lyre L.R. 4 L.B. 240.

Clearly in the instant case there is no taking of the person against his will. There is no detention of the person against his will and there is no confinement of the person against his will. The requisites of kidnapping as understood by the Common Law of angland are absent and consequently no case can properly be founded to institute proceedings.

STRATEGY REGARDING THE CUSTODY ISSUE:

I. Lianel Luckhoo:

Joyce Touchette is to appear in court as personal secretary of Jim Jones. The Harshall of the Court claims to have served the papers on Sept. 9 by way of posting 3 copies on various buildings and the kinkinkinkinkink fourth copy being served on the personal secretary of Jim Jones, who is Jayce Touchette.

but I do not know where Jim Jones or the child is at this moment." "The papers were served on me thus giving me the right to intercede. I took the papers to counsel and he advised that all orders are wrong and of no effect, therefore, I move that the court throw the orders out for the following reasons:

- 1. There was no personal service on bishop Jenes.
- 2. Nother is not personally present.
- 3. There is no jurisdiction.
- white. I, along with Jim Jones and other responsible persons were given fulls custody of the child. The mother, Grace Stoom, wrote ink her own handwriting that she would never interfere with the child. (Luckhoe also mentioned something about affidavits aworn by Grace & lawyer have hidden and concealed from the court material facts (such as the powers of attorney, and other things which I didn't get down).
- II. Chaikin recommended adding the following to the statements made by Joyce (and other elements for the course of strategy to follow):
 - 1. The affidavits contain such inadmissable bearsay.
 - The court order from California was made ex-parte, neither Tim Stoom nor Jim James were present at the hearing; neither were served.
 - 3. The affidavits totally ignore the best interests of the child and do not reach the issue of Grace Stoom's fitness as a parent.
 - Add about the healthy environment of the child (Jonestown) because the government has said it is a "model community." If found unfit by the Guyana court, it is a governmental statement that this interior settlement is an unfit place for settlers and especially the children to live. (Get affidavits about what a healthy environment it is, how good the educational and recreational facilities are for children, how it looks like a small town, and anything else you can think of). (Try to get Headmaster of F.K. school, Hrs. Carmichael, Rose Ifill, government and community leaders.)

BB-31-2-51

III, Miscellaneous Information:

- 1. Find a "Commissioner of Oaths" or a "Notary Public" in that area because the statements <u>must</u> be sworn to in person to avoid any question in the court. The lawyer will have to draft the affidavits which are to be court record however, I will have to consult bienel about using the affidavits about Grace's character which were made by many of our people.
- 2. Lionel said that he had a long talk with the Chanceller of the Judiciary who is the very top person in the court system ether than the minister of justice. A he said that we should not allow has or anyone connected with mass on our property and Lionel said that we should throw them off if they come on. The Chanceller said that there will be no harshall coming. Lio repeated this several times and said that he knew this for a fact that there will not be a Marshall coming onto the property, and in fact, the one person in the court system who is dead against us is going to be removed (his name is Burch-Smith). He is the person to make a court order effective and there was some concern earlier that if he were offered anough that he might go against the Minister of Justice's orders, however Lio was certain tonight when he called that there was nothing to worry about anymore, that the man was being transferred.
- 3. Lie said that by using Joyce as the persons served with the maximum papers, that on the legal level with no governmental intervention, Jim and John would not have to come out of the bush.
- . Clarks said that the Judge who made the bad orders was somewhat hostile toward us because he had heard that one of our members had called him stupid. He obviously wanted to believe it because it had to have come from someone connected with Hass.
- 5. Lie wanted to have a good legal case as a contingency, however, he said to not tell Fred Vills how far we had gone within the legal framework so that the government will still feel pressure to do their part of intervening on our behalf. Wills said that Jim and John would not have to come out of the bush also, and we will find out on baturday. (Wills said that he does not want to discuss anything until the weekend. I called on Thurs, and he reiterated that he didn't wan want to discuss it until the weekend.)
- 6. Rex McKay wants his retainer in U.S. \$. He wants U.S.\$1,500.
- 7. Lie is not going out of the country after all therefore, he feels no urgency for Joyce to come in until her is ready for her.
- 8. I don't think we should discuss this strategy at all over the radio because Hughes quoted several conversations to bio that we had with you. It jeapordize our chances in court if we discuss this.

Dear Faula,

Re Summons - Jounder - Setting aside Orders

I have just had a Conference with my brother Lloyd (a Senior Courses), Junior Courses - Mc From To. (Solicitors).

we have settled the Officiant. The Summons is now being prepared.

the other lawyers discussed with me fees. In to now the only fees mained are those for Solicitor's preliminary work, impostigation and dishursements.

My services up to the present stage are freely ofmen under happily given. When all is finished at the end of the line, I may send in some small change.

It is the lawyers to fice a fee inclusive of all disbursements, and including the Solicitors (Go charges which are incurred a fee of #8.500... has been fixed, and if you are agreeable and have in this amount to buckhos? Luckhos then we would have the firm issue their chapies

Normally we just pend in accounts - but I couldn't do that to you, hence I have sought to speel it out.

Conversation between Lionel L.uckhoo and Karen October 1, 1977

Court went all day. He will finish tomorrow.
Bishop (Judge Bishop) is taking the case quite well.
Lloyd also spoke to Judge Bishop and gave his presentation, as did,
Edward, who is Lionel's nephew.

Bishop (Judge) has already ordered the charges against JJ dropped, as he admitted they were wrong.

Conversation between Lionel & KL on October 2, 1977

Ee said they concluded the orders made by the judge affecting the child.

After a number of days of arguments and authorities, Hughes will commence his reply on Monday. The judge seemed very favorably inclined when Lionel said he pointed out that a chain was as strong as its weakest link, and that a chain for the capation of the writ of habeous corpus had tissue thin links which broke under scrunity.

Points made:

į

- Abdication (sp?) can only be made under the law by the mother, father or guardism and this was not done.
- 2) One of them would have to swear to show the child was unlawfully detained.
- 3) There is no affadavit in court by Grace Stoen.
- 4) Judge Bishop has agreed with us that Grace has not made an affadavit because it had to do with the matrimonial situation between her and Tim, and was not revelant to the present situation with John.
- 5) The affadavit by Haas transgressed all laws of affavavits in that he repeated heresays without giving the source of the information, and he said that he believed it
- 6) Hass was dishonest in court. There were features that should have been broughst to the court's attention, such as Grace Stoen having come to Guyana.

 John having been here off and on for 3 years, and the fact that the custody papers were in the hands of Mrs. Touchette.
- Lionel amid they also attacked the service of events which he said must be personal.
- 8) The return of service was bad by Haas in that he swore that JJ could not be found. "He would have to show what efforts had been made to find JJ.

Lionel wiped a large number of authorities from the United Kingdom and the Dominions and elsewhere which all confirmed the points he made.

Lionel feels that Hughes is conscious of the weakness of his position and it would ust surprise me if they were to capitulate at a later stage. Lionel feels what they are about is to have it drag on till Oct. 6, and then get the courts in the US to move for contempt against JJ to get an order for his agreest in the US. That order would have no effect in Guyana but it seems mo Lionel that TOS should resist the actions being brought by his wife and be could ask for the adjournment of the case by citing the unfitness of Gence.

Since JJ has received no papers, Charles Garry could state it's not possible to reach ham.

TO WHOM IT MAY CONCERN

I, Timothy Oliver Stoen, hereby acknowledge that in April, 1971, I entreated my beloved pastor, James W. Jones, to sire a child by my wife, Grace Lucy (Grech) Stoen, who had previously, at my insistence, reluctantly but graciously consented thereto. James W. Jones agreed to do so, reluctantly, after I explained that I very much wished to raise a child, but was unable, after extensive attempts, to sire one myself. My reason for requesting James W. Jones to do this is that I wanted my child to be fathered, if not by me, by the most compassionate, honest, and courageous human being the world contains.

The child, John Victor Stoen, was born on January 25, 1972. I am privileged beyond words to have the responsibility for caring for him, and I undertake this task humbly with the steadfast hope that said child will become a devoted follower of Jesus Christ and be instrumental in bringing God's kingdom here on earth, as has been his wonderful natural father.

I declare under penalty of perjury that the foregoing is true and correct.

Dearest Edith:

I have been thinking fondly of you over these past several months since we've seen each other. I can say with utter sincerity that you have been the warmest, most satisfying companion to me in my lonliest hours that a human being sould have possibly been. I long to see your cheerful face, and to hear your understanding voice in my ear again. It would be so good, Edith, just to touch your hand once more. I hope you can see past the differences that separate us now, and perhaps know that what I have felt for you, and am feeling now, is undiluted love. Just pure and simple love. Flease, please don't let circumstances of the present cloud your vision of what we had, and could have, if you were here with me now.

I could never have worked out my life as I must live it there at the Project in Guyana, Edith. First, my esteem; even adoration, of Goarade Cheddi Jagan was looked on with embarasment and disapproval by Jim, who would not even tolerate my objectively discussing the marits of that great man with members of the Temple. I found this restrictiveness intolerable, both morally and practically. If Jim chooses to work with murnham and his party, that is his business, he has no right refusing another side to be discussed among intelligent people. I personally discain Burnham, and feel that he has cheapened the accomplishments of the People and their revolution. It takes gute to be the minority opposition in Guyana, and that's what people like Jim Jones and Forbes Burnham don't give enough oredit to!

But one thing that I beg of you now, Edith. <u>No Mot</u> let your commitment to high primciples (and I know that yours are the highest always,) delude you into thinking

BB- 31- 2-60

that we cannot leve one another as we have before, and at the same time serve those principles to the fullest. High ideals and great principles make people better able to leve, Edith, and you and I can be happier than those uncommitted once who have not developed their capacity to love by serving the greater cause of socialism. If you stay there in Jonestown, Edith, you will learn much of how to serve Jonestown, but you will less sight of the greater movement now taking shape in America. This is where the real revolution is growing; at the root of the system. There, you are just fighting the peripheral skirmishes, while the actual struggle goes on in America.

I know you have given your all to the cause you believe in. That's just the kind of person you are, and I leve you the more for it. I hold these qualities in you like pearls of great value. Unprincipled people like Ferbes Burnham can keep their own private funds in Swiss bank accounts, and never feel a pang of remores for their dishonesty. Not so with you, my leve, for I know that you agonise over the minutest details of your life, to make sure that you are living in accord with the integrity to which you have committed your life.

I hope with all my heart you will forgive what may seem to you now like an inconsistency, but believe me when I say that I did it for love. Love I knew you and I could share when the time and opportunity presented itself.

That time is now, Edith. Please, I implore you, reach out and take it. Do not send my love back wold, for this would break my heart, more than you could ever know.

Loving you with my whole heart,

Proposal re Class Enemy #1 - Tim Stoon

In view of your remarks last night concerning the harm done to our family by this individual, I want to reiterate my offer to take care of him, with a few additional details. What I plan is to follow through on the basis of the letter he wrote to me, pretend I am browned off with communal living and miss him terribly, that as I am not much use to the present concerns of Jonestown, I can find a way to return, and shall look forward to seeing him. When I got to the States, I would proceed on that basis, presuming that, as I suspect, he hasn't got a real friend in the world, nor anyone who cares about him. It always seemed strange to me, but I do seem to have some sexual attractiveness to him. I may add that the pleasure was one-sided, because I got no fun out of it at all, except, as I thought then, that I was giving some relaxation to a person who was serving the cause well. Now I would be serving the cause

I would go ahead on the basis I could become intimate with him and induce him at least to share a cup of tea or coffee with me, if not liquor, into which at an apportune time I could slip some quick-acting poison. If the circumstances were such that it would be better for me not to live, I could take it too. I imagine such a poison could be obtained, say from a garden supply store — a pesticide of some sort. A pesticide would be appropriate.

As far as conspiracy charges against the church because I could not have done this without the help of the organization, I don't see that one more charge could make a difference, what with war threatening. Before such charges could be tried, it would be all over. I think it wise that I should go out as a person who didn't fit in here. If an attempt were made to force me to do harm to the church, I don't see how this could be effective. In the first place, I don't believe I know any secrets not already known to them. In the second place, by my association with Tim Stoen, I would be joining the conspiracy — for a while. If they tried me on any charge, including murder, I wouldn't worry. I don't mind going to jail. I know the CIA. If torture was threatened, I would commit suicide.

I further propose that during the time it takes to put this plan into action — I imagine the conspirators would test me for sincerity — I go to Sechtel's and get my old job back or a similar one. Believe it or not, I feel sure that People's Temple and all the publicity about it has scarcely made a ripple at that insulated institution. But if they have anything to say, I can get a job somewhere else. The advantage of going to Sechtel's is, not only that I had worked up to a pretty good salary, but I am familiar with the contracts they have in such countries as Brazil, Venezuela, Nigeria and Algeria — where I know they have operations. This information might come in handy, as I wrote yesterday, because it could give access to electrical power plants where nuclear material could be obtained by guerrilla action. In case of nuclear war wiping out their top leadership in the States, a resultant gap in organization might offer a wedge for revolutionary activity in those countries and others where Bechtel is operating.

I have for some time felt a guilt because I did not stay longer in the States and contribute my considerable salary for a longer period of time \rightarrow I just had to get over to Jonestown. I was making around \$10,000 s year. If I could kill two birds with one stone, I would feel it my duty to do so.

Ever since I joined the Temple, I have actually been somewhat convinced that I must have been in the CIA for some reason. My intelligence knowledge may perhaps be put to use. If, however, this just represents some Edgar Allan poe dreams of glory, put to use.

I may be able to get the money for my fare home from my family. They didn't particularly want me to come here, and most people love saying, "I told you so."

just ignose it.

I Frances R. Muchnick, declare under penalty of perjury that the following is true and correct:

On Sunday, the 7th of May, 1978 around 7:30 p.m., I received the following phone call from a Mr. Timothy Stoen:

- TS Mrs. Frances Muchnick? I don't know whether you remember me or not, but I met you some years ago at the People's Temple Church in Redwood Valley, and I' calling to let you know of a mass Protest Meeting to be held in front of the Federal Building in San Francisco on Wednesday, May 10th.
- Fr What kind of meeting?
- TS We are a group of 25 parents who have children or relatives in the Agricultural Mission in Guyana, and they are being held there incommunicado. There is no way we can reach them by phone or radio or get to see them. Five parents have traveled to Guyana and came back without seeing their children. I understand that your children and grandchildren are there also.
- Fi Yes, my grandchildren are there, and my son-in-law is there, but my daughter Claire is still here in Redwood Valley. By the way, how did you ever get my number to call me?
- TS Oh, I didn't know that Claire was still in Redwood Valley, I got your number from ir a lirs Janaro, at 763-4119, and they asked me to call you. They wanted you to know what was going on.
- Fil Did you know my Claire and Richard?
- TS Oh yes, very well. I was as dedicated a worker for the Temple as they are, five years ago. But then I began thinking that things were not going exactly as I had contemplated they would, because the more power that Jin Jones possessed, the more he wanted to use. I tried to break away from the church two times I went as far as London to get away from it all, and try to think things out clearly for myself but Jin sent someone after me and begged me to come back. I decided to give it another try. For some reason, I was told to sign a paper saying that Jim was the father of my child (TS didn't say what the reason was), and now I want my child back. I have a suit going in the Guenese courts.
- Fi! Have you ever been to Guyana?
- TS Yes, I spent about 3 months there.
- Fi: What did you find there?
- TS It was a very beautiful spot and good food a little starchy, but good. When I was there, there were only about 75 people there, and now there are about a land. So I don' really know what the conditions are there now.

- FM I understand that Jonestown is in a remote region and difficult to get to.
- TS The difficulty was in getting out of there, once you get in Now, no one can leave. The mail is definitely censored in Jonestown. I know that first hand.
- Fif If the people in Jonestown are being held captive or against their will, how come you don't go to the government for help in getting them released?
- TS Oh, I did. I spent two weeks in Washington, trying to get through some of the buracracy there trying to get people to listen to me. I spoke to (or THEI, meaning the group) Prime Minister Burnham about investigating Jonestown.
- F:: Do you know Lt. Governor Dynally?
- TS Very well. In fact, he was on the plane with me when I went to Guyana.
- FX Well, it is my understanding that Lt. Gov. Dynally was very favorably impressed with what he found there, and came back full of enthusiasm with the progress and the life style program that they are accomplishing in Jonestown.
- TS He was very impressed at that time, but we have been talking to him and he is weakening in his opinion of Jonestown since we have been informing him and putting on some pressure. Jim Jones is a master at mind control, is power mad, it has gone to his head, is paramoid and can't take criticism of any kind. Claire and Richard are completely under the influence of Jim, are very loyal to him and would do anything he asked Claire would even kill someone if he asked her to.
- Fit I have complete confidence in the intelligence of Claire and Richard and their ability to judge what is right for them and their children:
- TS People are afraid to come forth and expose Jim and the Jonestown situation for fear of retaliation by Jim or his henchmen several people were threatened that their homes would be burned, but when they came forth nothing really happened to them or their homes.
- Fil Have you ever witnessed any physical violence against members of the church, or anyone who tried to leave the church?
- TS When I was a member I saw, (I think he said Jim) paddle people as punishment.
- TS I just wanted to let you know what we are trying to do. We are asking Jim to please let our children cone back here for one week (at our expense) so that we can see them again, and let them decide for themselves whether they want to return to Jonestown or not. If they decide that they want to return to Jonestown, we will send them back.
- Fi Well, that sounds like a fair enough request.

13B-31-a-64

- TS Also went to let you know that Jin wrote letters to all of our Senators and Congressmen, saying that he would rather die than be harassed from continent to continent. Jim has strayed so far from the original concept of a better world to live in, is so inflated by his power, that if things don't go Jim's way, Jim could get his followers to partake in a mass suicide action if he so decreed.
- TS If you want to reach me for any reason, or any further information as to the progress of the group, feel free to call me at my law office in San Francisco, on Montgomery Street. The number is 391-5020.
- M: Are you calling me from Los Angeles.
- TS No. I'm calling from San Francisco
- Fig. This really is a long toll call. I want to thank you for calling me and telling me about your group, but I still have all the confidence in the world in the judgement of Claire and Richard.

The above pieces of conversation may be out of sequence, but considering the emotional duress I was going through hearing all of these things, and knowing that they are out to destroy this miraculous achievement by a group of valiant and courageous people under the leadership of a man they dearly love and respect, Jim Jones, - the above is as near as I can recollect - it may not be verbatum, but it is to the best of my knowledge and memory.

Executed on May 8th, 1978 at Los Angeles, California.

TO HARRIET:

The following is information from Terri's notes which is probably nowhere in the documents but might be relevant and you can decide what would be helpful to the counselor.

Also, this whole file is all we have here in Guyana on Tim & Grace so it should be copied. Also, as you can see the Mazor file is included. We asked the States for more copies of this but just be sure we do have one available and that we have copies of this file or at least of the important parts of it such as the affidavits so that we can use the information wherever necessary.

Grace Stoem's lawyer has told Gary that the San Francisco DA offered her immunity if she will testify before the grand jury. We do not know if they are going to do this (since obviously there is nothing to talk about.)

Tim Stoen is to their knowledge back home going to his brothers in France on his farm there.

I don't know if Tim Stoen's current lible suits against the media would be relevant in this case, but details on that would have to be gotten from Gary I would imagine.

Harriet: we began to be thinking more and more about the conspiracy end of this and the funding as you also have. Hill is beginning
to fit together some of the peices. We wonder if the agencies involved
are just outright funding her to get the return of the child, which will
be an exchange for her later testimony and immunity. How else would
she be able to get the attornies? You may already have more ideas from
that end. It seems like it could be a low-level treas, attempt to get
information, but maybe they think she knows more than she does, or
they just plan for her to outright lie. If the latter is the case, then
I would think it might be more than low level. However, I beleive Hill
wants all conerned here to know of it as low-level.

I and some others were somewhat paranoid of the councidental arrival of some others you know of at the exact same time. I hope it is just that. It seems hard to believe otherwise, but I am getting pretty skeptical at this point.

someone is assigned to John at all times, but easier said than done.

26

I am informed and believe that my minor son, JOHN VICTOR STOEN, date of birth January 25, 1972, age 5 is in the physical custody of the Peoples' Temple, Inc. of San Francisco, California; that the Peoples' Temple has taken John to the Peoples' Temple Agricultural Mission in Guyana and that they will refuse to return him to me or to bring him within the jurisdiction of this court unless ordered to do so. I further believe that unless this court acts, John will continue to be held in an atmosphere that is detrimental to his mental and emotional well " being and that he will be permanently deprived of the loving

BO-31-2-68

and stable home I can provide for him.

I am a former member of the Peoples' Temple. I joined the organization shortly after my marriage to Respondent in 1970. At the time of the marriage, I was nineteen years old, impressionable and looked to my husband, who was 12 years older for guidance. Respondent was a Deputy District Attorney for Mendocino County. He is intelligent and widely read. I greatly respected his judgment. He was a member of the Temple; I soon became a member also. The organization's professed ideals of social justice, racial equality and concern for the economically disadvantaged held great appeal for both of us.

I was given the position of bookkeeper and became intimately involved with the inner workings of the organization. I
was instructed to become a notary public in order to assist in
the deeding of large amounts of real property to the Temple by
its members.

It soon became apparent to me that the organization and the lives of its members were tightly controlled by the Reveren Jim Jones, the founder. The Temple's Planning Commission created an illusion of collective decision-making. The Commission made major decisions affecting the lives of the members. It decided where members would live, with whom their children would live, the career they would pursue and what they were to do with their earnings and property. The Planning Commission selected members out for punishment and public humiliation. Public humiliation and the threat of it caused members to become

passive in the face of demands made by the Temple. The Planning Commission was in fact the alter-ego of Rev. Jim Jones. Members felt a general loss of autonomy.

I worked in close association with Rev. Jim Jones. His behavior was frequently erratic. Rev. Jones often expressed a paranoid world vision wherein he and his organization were the objective of multiple conspiracies. To protect himself from alleged threat of assasination, he employed bodyguards. He feared attack from within the Temple as well as from without. To protect himself from internal threat, members were frequently directed to sign statements declaring their predisposition to one aberrent form of anti-social behavior or another. I was required to sign such a statement. These statements were regarded as an internal security measure. There was no suggestion that they were truthful. The statements were intended to be used to discredit anyone who turned against the church.

My own life was strictly regulated by the Temple. My minor son was sent to live with other Temple members. children of other Temple were in turn sent to live with me. Though undermining the nuclear family was not a stated aim of the church, such was frequently the effect of the Temple's directives. The heavy schedule of church duties to which I was assigned often left me no more than 5 to 6 hours sleep per night. Nevertheless, because of the strong love I felt for my son, I was able to maintain close contact with John, generally seeing him at least four times a week. We enjoyed a warm and

affectionate relationship.

The Peoples' Temple gradually took control of my life. The regulation and regimentation of our lives caused Respondent and myself to grow apart. Leaving the Temple seemed impossible.

Members were strongly discouraged from leaving. Any defection from the ranks was seen as a threat to the security of the organization. Rumors circulated about dire consequences which would befall defectors. Because of my intimate knowledge of the organization's financing, my departure would be viewed as especially threatening.

Toward the end of my time as bookkeeper, the Temple's finances came under scrutiny. Allegations that transfers of money had been fraudulently induced began to be heard. Paranoia within the organization increased.

Thoroughly disillusioned with the organization I secretly departed in July, 1976. Since leaving the organization in July of 1976, I have made numerous attempts, first acting alone, and then with the aid of my attorney to secure my son's return through informal negotiations with Respondent and the Peoples' Temple.

I did not seek a court order because I feared that the Temple would secret the boy in Guyana and deny knowledge of his whereabouts. My last meeting with Respondent confirmed that our minor son was in Guyana with the Temple. Respondent indicated that he believed that custody should be split between the Temple and myself. He further stated that he would make

all reasonable efforts to have John sent back to live with me for six months, and that if negotiations with the church failed, he would travel to Guyana to institute legal proceedings. This conversation with Respondent confirmed my worst fears. Respondent is unsure of his own ability to secure the return of our son.

I am now convinced that my only hope of becoming reunited with John is to have a private investigator serve Temple representatives with an order issued by this court directing the Temple to release John to the investigator and to my custody. I have retained Joseph Mazor of Mazor Investigations. I respectfully request that this court issue the following order:

Pending further order of this court, Petitioner is granted sole physical custody of John Victor Stoen, date of birth January 25, 1972, age 5.

The Peoples' Temple and its agents and members are ordered to release John Victor Stoen to Petitioner or her duly authorize agent.

I declare under penalty of perjury that the foregoing is true and correct except for those matters stated on information and belief and as to these I believe them to be true.

RE: Joseph Mazor, Investigator

His office in San Francisco is listed at 680 Beach St., with the telephone number 673-3077. When this number is called, a recording comes on saying the number is disconnected. I called the number on the letterhead and was told that the Beach St. listing is an old number, and the new number and address is 1800 Pacific, \$ 776-7232. I then spoke with Hal Lipset and was told that he used to be a polygraph operator and that he had been convicted at one time of a felony. I then called Sacramento and was told that he has a valid license number A 6804 and that he received the license in Mav of 1977. Prior to that time he worked as an in-house investigator for his wife. He worked under the license of a Donald Morris who has since parted company with Mazor. The State of California asked me if I was working with Mazor and I said no that some clients of ours had some unpleasant dealings with him and I just wondered who he was. The man on the other end said he wasn't free to tell me what was wrong with him but that I shouldn't be dealing with him. I asked him of there was some way I could get more information and was told that the State wasn't free to divulge anything else. I spoke with Fech about him and he said he had seen him at various meetings for investigators but didn't know him. He said we could run a public check on him if you wanted to.

Lipset says that Mazor's reputation is not to savory. He said that he would like to help People's Temple and had called offering his services. In his opinion what is needed is a good PR man and a blue ribbon panel of friends to clear the Temple.

Mr.:George Harmon - Polygraph 1182 Market St. San Francisco, CA 94101

Dear Mr. Harmon:

I'm sorry I couldn't make my appointment last Monday afternoon. Our budget meetings with B.A.P.C. took much longer than I anticipated. I will be prompt next Tuesday, May 2 and plan to be at your office at or before 3:00 in the afternoon. My check for last Monday's time is included.

Tim Stoen will meet me at your office to provide a second source of information. If you can think of anyone else you wish to have there, please notify me.

My main concern in asking for the lie detector test is to prove the falseness of the charges by People's Temple Church members, including my daughter, that I am a child molester and have abused my daughter sexually. However, I would also like to be questioned on the following charges they have made against me:

on the following charges they have made against me:

That I was a member of the CIA and worked for or was involved with the military junta that ruled oreece.

- 2. That I engaged to Joseph Mazor along with a group of parents in an effort to get our children out of Guyana.
- 3. That I along with other parents known as the Concerned Relatives are planning to send mercenaries into Guyana to kidnap our children.
- 4. That I appose my daughter's membership in People's Temple Church because I am disappointed she is not working with me at Trinity School.
- That I am in league with a right wing Congressman in a conspiracy to destroy People's Temple Church.

That's a pretty long list of charges and I hope they can all be incorporated in the test.

Sincerely,

"I thought I should ge to East Barlin and see what it is lithe out of my pockets. They for Barlin and see what it is lithe out of my pockets. They for haid the horn Curtain." Stoen said. exerpted from Trip notes:

I saw things that textbooks and newscapers can't make vivid. I saw what a police state can do to individual human beings....I will now talk of the most startling and disconcerting experience in my life.

The restrictions of a communist police state are as bad as you read about. At newsstands you buy papers of East Germany only which serve as propaganda only.

... More notes ---- pages of unreadable stuff on East Germany and how he was treated while under arrest.

.. "now I will reveal some information gleaned from aperson I set but whose make I can't reveal because I fear for his safety.

-that each week a person must attend meetings some as often a 2-3 times a week. Seetings can last as long as four hours--what is discussed in Marriet writings and the virtue of a denocratic state. The groups are so affanged that they seperate friends and people with common interests are separated. My informer told me that the meetins were not too successful in indoctrination because too many people had been to the west.

-Re said that if East Berliners has known before the borders were being set up that bog of them would have left all worldly goods to escape. Test than 10% of them seill support the regions

-It is extremely difficult to have an underground spying system because you can't trust anybody.

-Evenin Sast Germany army Saxons had to be brought in from other areas to keep check on the local soldiers because many of the local soldiers had anti-communisg sympathies. It was from fear alone that most men carried out orders. One must notethat the system of morality is quite simple. The soldiers are told that there are two kinds of Germans good and bad---the good are those who obey communist orders and the bad are to be shot.

-ending sentence:

"But when you see what people like you and I have to go through. They just want one thing. They want freedom to think and act as they see fit-to be able to choose between alternatives-where to work- and how to live and whom to worship-a state or a God--- they couldn't care less about creature comforts, -- All I can do is anguish about the problem and pray to God that it won't last forever.

TOS WRITE UPS

<u>Don Fields</u> - Suggests we use cloak and danger CIAt tactics, have Stoen found dead from natural causes, said if this was done a few times those mouthing off would stop.

Cleve Swinney- thinks Stoen is trying to keep a foot in the door, we shouldn't give him anything. Says he doesn't want to go back but if it was to help make peace "any way at any time".

Barbara Walker - feels Stoen is being backed by conspiracy in this, doesn't have guts to do it on his own. Doesn't think he has anything on us that hasn't already been used. Thinks they are trying to get you back in the states, thinks we just ignore Stoen and call his bluff.

Lena Benton - Thinks TOS should be shot orm "put through hell" Says she is ready to give her life, just let them face the gun and give them no money. Says they are like bird dogs, and if we give to Stoen he will never stop.

Jack Barron - Suggest many ofus write TOS, address him as "Brother James" and askin him if he wants his "30 pieces of silver". Says there might be loss of face to his CIAm supporters when tryinging to anwer these queries.

<u>Cardell Neal</u> - Says since we are portrayed as mafia, act like mafia. Send bomb to one of compainies involved in conspiracy, and from this Stoen will know this is a threat. Thinks he will back off if he sees this, and then says killk him.

Theresa King - (very good, shows detail, some sincere thinking) Theresa's is a very long writem up, but basically what she is offering to do is set up herself as an escapee from PT by going to American Embassy in G'town. She goes back to states, gets job at Kepplers book store, contacts Gary Lambrev through his parents. She gets into lover/sexual relationship with him, acts out jealous role of his male lovers, and starts lemving sick poems in key places. Then offers to give info. on PT, and for Gary to arrange meeting w/ Grace, TOS, and all. Then she would blow herself and them up in this meeting. Also says she could be ripping off books from Kepplers and depositing them at a false company front for our library. Says she feels guilty about her alliance with Gary, Liz, and Joyce Shaw - that she probably deserves to be here less than some of our brave brothers and sisters back in the states, and this is her way to pay back her debt to you for giving her a taste of liberation.

<u>?Ray Jones</u> - Opposed to paying TOS anything. Says we should move our prime targets for frame up into hiding. Says he will meet Stoen anywhere and kill him for what he's done. Wonders if we can use Mafia contact we had. Again says he is willing to kill for the cause.

Barbara Cordell - says Chris was done in because Mertles Stoens afraid what Chris would do tothem. Says we should have some of our people, different ones daily, walk up and look the enemy tm "straight in the eye." She doesn't think they are sleeping to well right now.

Ron Sines - Would be gladk to be involved in anymp; an to stop a conspirator, says we should plan a burglary or mugging around their assassination to take some of the heat off of us, and serve as warning to other conspirators.

Ameal Staten - "Tim Stoen told you a lie to go back to the stated have was afraid to do want he is doing now because he knew my proting world have was kolled him. So I no ge got him out of the way because he would have black-mail the family.

<u>Liss Layton</u> - k Suggests we put a large ad in a gay paper where TOS is living welcoming him to gay community. Thinks it would louse up his rep and soare him, Otherwise ignore him.

Buby Carroll - Suggests getting some outsiders to do different things, such as breaking into Tim's home, beating TOS and Grace up, fixing the brakes on their car, having their car catch on fire a little to scare them. Suggested Russell Jones get Chris's old addict friends to pay TOS a visit, or Joann Carroll to do same and beat the shitout of him. Offers to go back herself and thanks you for 3 mos of peace, but won't promise anything won't happen to the traitors. Offers to "cook" for Tim if he comes over to visit.

Gloria Carter - Thinks Stoen is taking orders from higher up in conspiracy. Thinks they're trying to weaken us through this, won't stop with small sum of money and we should not give him anything. Says she'smi willing to do whatever necessary to stop them, and if they stop Mother and comrades in states we should move as a group to fight for them. Maybe put them on notice through PF we will not be intimidated.

<u>Peter Wotherspoon</u>- Thinks Stoen asking for modest amount shows: he's financially poor, gambling he'll get smaller amount, wants to leave SF cause he can't me get a job, baiting us for verbal or written response to use against us. Says we shouldn't yield to any of his demands, and that he would be willing to return to US to kill by whatever means, and then himself.

Bonnie Simon - Says we shouldn't give himm anything but a bullett. Says she is go happy she made it here, and knows her children will have a future, and with that in mind would gladly go back to states and kill traitors and then herself. Would be glad to give her life for you, for socialism, and for our brothers and sisters in the states.

DeeDee Macon - Says out of this family of ex-cons should be 1 or 2 that could be trusted to go back to kill Stoen. Suggests we cut him in half length wise and send 2 to Grace and 2 to Mertles. Would be willing to go over, even if it meant death.

<u>Margarita Romano</u> - Thinks we should expose Tim in last issue of Peoples Forum. Says our people back there would have to be in position free from harassment or kidnapping.

Mary wotherspoon - Thinks Stoen thinks our right arm has been knocked off in Chris, and wants to see if you will bend. Thinks we should make him paranoid and make him think he is going crazy. Also suggests that we smear him, to ruin his reputation. Give him no money. Also suggest making Stoen look like he is really with us, to make the other traitors mistrust him.

<u>Dianne Lundquist</u> - Says traitors should all be killed, would be willing to get in meeting with them and kill or as many as she could. Maybe carry an explosive device on her body.

Jim Pugh - says to count on him in solo or consort in the elimination of Stoen. His preference is a hand-gun r or rifle, or blow up whole conspiracy if we could find a meeting place.

Mary Tschetter - doesn't think Stoen is interested in money. Thinks he might be suicidal and force us into killing him so he would be out ofhis mess, don't give him any money, and that he's lived in too long.

BB- 31-a-137

Phyllis Chaikin - says Stoen's achilles heel is his drunk narcissism and drive to be around people of power. Says she remembers in HV he was willing to risk his image with you and blabbed to a reporter becausehe flattered him. Said when he met Gene's brokher he couldn't be himself but threw his medals around. Says she hates the mf, and would participate in whatever wayuseful. Thinks the natural way for him to go would be at some fancy function and Finkles friends passing him a poisoned canope.

Nat Swaney - Says to knock Tim Stoen off, and that they think they have us over a barrell because Chris was killed. Said he will do it.

<u>Diame McKnight</u> - thinks Stoen sold outrbefore he left Jonestown, that he wanted Grace back but it didn't work, and now has no money to go anywhere. Wants to get out of area because of Teddy Bears death. Thinks we should ignore him, his own conscience will fuck him up. Thinks the law will try to hold us responsible.

Tom Kice - Thinks someone should go back as if they's left the church, and would give information to use against church, get them in a meeting, and kill them all. Says he is willing to do this, and would like to be killed himself rather than be arrested and taking a chance of saying the wrong thing and causing more trouble.

Nedra Yates - write him a dear John letter and on the return envelope coat it with poison. Suggests to get TOS and Grace and all into one place and make herself a human bomb. Als suggests to just let him come over inJanuary, take him to the jungle, and make him disappear.

Millie Cunningham - says keep the money and send him a bomb. says you have donso much for people and all they do is act up.

Billy Oliver - feels there should be no money given because it is part of the conspiracy and they are devoted to destroying us no matter what. Thinks he should be confronted face to face because he values money more than his life, and he can be reached because he's weak. Is willing to do anyting for cause. Says he could go back under false image of it his parents wanting him back. Also offers to have someone use prepaid ticket his parents sent to go back. Feels there should be alot of planning to not keep our people from coming over. Worried it might be easily traced to peoples Temple. Also thought of Hanafi muslim in Washington D.C. and what he did.

Laura Johnsoton - Says she has fucked up with following thru with responsibilities, but would love to be able to do one thing right - drive a car off
a cliff with Tim and any oif the other traitors she could take. Or carry an
explosive into a group of them, without implicating the group. Is more
than willing to do it. Says she has fear, preferences, and manyf faults but
death offers we things she wants so she doesn't see herself falling short of
anyl instruction in that area.

Bea Brsot - m says he will remain strong inm their favor as longas he's theresuggests we kidnapm him, 1 make him talk, and find out mean what we need to know. Says to de-program him, and "supper" him later. Keep confidential, general public could never know. Thinks he may be trying to get the law here to divide us from Burnham. suggest stationing people in nearby countries to watch for personalities connected w/ conspiracy. Also suggest kidnapping Mazor, and giving same treatment as Stoen.

Luna Bucklew - says we shouldn't give Tim Stoen a penny. Thinks we should let him know if he does anything to keeps our people from gettinghere he will be a dead man. She is willing to do whateverto Tim or any of them.

BB- 31-a-138

hark Sly_ "First have John Doe change his name to Joe blow. Then sendhim to another country to become a citizen, and get a passport. Then he comes back to Jonestown and has an accident and dies as John Doe. Then Joe Blow goes to the US and takes care of Tim Stoener or anyone else.

Patsy Johnson - Is willing to kill anyone, anyplace, even if it means her life or going to prison, she doesn't give a damn. Thinks Stoen may be asking for this amount of money knowing it is needed to get our people over here. She says fuck life, its hard as hell to live. Thinks Stoen could be pressured into his sexual acting out through phone calls, not saying anything, just harassing. When he was "driven crazy" from these calls he might go to a bar, where anything bould be done. He could be given a mickey, or slipped a hallucinogenic. We could get him to flip out with acid, or angel dust. Mentions fixing it up so he's in a car wreck, or possibly run him off the road. Possibly be watched and attacked and stabbed from behind. Suggest shooting him full of heroin and making it look like an OD. Also mentions a bomb underneath his car. It Offers to do any of these things

Rosa Keaton - Suggest people meditate w at 6am and 6pm on the thought "Father. Vengeance is yours, you will repay." Says we should do this to people who killed Chris.

Annie McGowan - Says don't give him a damn thing, and to meditate so your power san strike him down.

Linda Arterberry - Says we should make up some Christmas candy to sell, and have poison in the candy, and pretend we are selling it door to door and give some to Stoen. Also suggests placing bomb ink his door when he is mk not at home and then when he came home would be blown up.

Honorable Alan Cranston
Honorable S. I. Hayakawa

Re: Daniel H. Weinstein

Dear Sirs:

I am writing as a former deputy district attorney for the City and County of San Francisco to give you my views of Daniel H. Weinstein, who is being considered by your commission for recommendation as United States Attorney for the Northern District of California. I was hired by District Attorney Joseph Freitas to handle specially the Voter Fraud prosecutions, and resigned from the office in February of this year, when that assignment was substantially completed, in order to handle the international legal affairs of a large-scale agricultural development in the third world. This letter comes completely unsolicited.

By way of background, I have a J.D. degree from Stanford, have been in private practice, have served as the legal adviser to a board of supervisors, and have worked as a prosecuting attorney in two offices. I have been active on committees of the California State Bar, and currently serve, pursuant to gubernatorial appointment, on the California Advisory Council to the Legal Services Corporation. I happen to be a registered Republican.

I am very much concerned that the prestigious and powerful office of U.S. Attorney be held by someone with experience and a measureable track record in two areas of central importance: the supervising of a prosecutorial office and the discretionary selecting of cases to be filed. It is because of my first-hand observation of Mr. Weinstein's performance in these two areas that I make this appeal that your commission recommend him to President Carter for United States Attorney.

The direct supervision and management of day-to-day operations of the San Francisco District Attorney's office has been the responsibility of Mr. Weinstein. He has, in my opinion, achieved marked successes in the recruitment of high-quality trial attorneys, the establishment of valuable in-service training, and the intelligent handling of personnel

BB-31-a-140

matters. In recruiting, he has shown a fine ability to recognize lawyers of talent and to persuade them to leave positions far more lucrative to join his office. He has brought into the office women lawyers and minority lawyers of excellent abilities and presence. There is no question but that the professionalism of the San Francisco D. A.'s office is noticeably greater today than it was when Mr. Weinstein came 16 months or so ago.

Mr. Weinstein has established the in-service training of prosecuting attorneys on a solid basis where previously there was little or none. This includes mandatory weekly sessions on new cases and specialized problems for all attorneys not in trial, and extended orientation sessions for all new prosecutors. A first-rate felony prosecutor has been brought in to coordinate these training programs. Police personnel are instructed regularly on matters ranging from arrest procedure to report writing, which exemplifies an attention to detail characteristic of sound leadership. Mr. Weinstein also treats advocacy as a separate subject and art form, whose lessons the serious prosecutor is obligated to study and internalize.

I have also observed Mr. Weinstein handle both routine and sensitive personnel matters with a firm hand yet open mind. He seems to be an intrinsically fair person, who hears out all persons affected. He treats the clerical people with dignity and fellow lawyers with empathy. Yet there is always, it seems, present in him that special respect for the prosecutorial function as an institution, one deserving of society's most profound respect. This feeling was probably accentuated by his years at a national law school like Harvard and as a federal deputy public defender.

Then there is the matter of how a criminal case should be selected for indictment, i.e., the types of cases and the types of defendants. Mr. Weinstein has assisted in creating in the San Francisco District Attorneys office one of the nation's most outstanding consumer fraud units. He is currently establishing a Special Prosecution Unit to deal with organized crime and public corruption. In my opinion, this is indicative of his willingness to enforce all laws which the legislature has enacted to protect the public, not simply those traditionally enforced. Because of personnel limitations, not all violations of law can be prosecuted, and therefore those that are should be chosen with a seasoned, mature judgment with a conscious view towards enhancing the criminal justice system as a whole. Mr. Weinstein, to my mind, has such judgment.

Once a chief prosecutor establishes his policy as to the types of cases to be handled, the question of integrity assumes paramount importance. He must be resolute to avoid showing favoritism based on personal or political allegiance. Moreover, he must not be afraid to prosecute the powerful and the vengeful. Speaking from my experience as a voter fraud prosecutor, I can truthfully say that at no time was I asked by Mr. Weinstein to ease up or go slow on suspects who could harm him politically or otherwise. At the beginning of these prosecutions, it appeared that a certain very powerful San Francisco' figure who was also

a close personal triend of the Weinstein family may have violated the election residency laws. Mr. Weinstein made it a point to press upon me the obligation of a prosecutor to avoid even the appearance of favoritism, and insisted that this suspect be investigated promptly and thoroughly, and that a felony be charged if the evidence justified such under the same standards as applied to all other voter fraud suspects. The press was not aware of the aforesaid suspect, so Mr. Weinstein was not, in my opinion, playing to the gallery. Although our investigation was exonerative, the conduct of Mr. Weinstein in this matter is what caused me really to respect and believe in him.

In conclusion, I think that Mr. Weinstein has a rare feel for the law as a craft, and that he has as keen a set of ratiocinative powers as any you will find at the prosecutorial bar. Mr. Weinstein would, in my opinion, bring considerable credit to your good judgment if you decide to recommend him. He has the potential to be even a great United States Attorney.

Please be so kind as to make known this endorsement of Mr. Weinstein to each member of your commission. Thank you.

Sincerely.

Similing O. Ktern

Deer Les:

Enclosed is another article I discovered after dispatching first one. I've checked and State Board of Psychology Examiners secured legal opinion from Ind. Attorney General which said they had no cause to prosecute because Jones didn't use the thank title "psychologist". State medical people say they're handcuffed because no state laws authorizing prosecution against "faith hesters." Dr. Reilly, mentioned in enclosed clipping, said yesterday Stoen) had made personal visit to here here after this story appeared, pleading Jones' cause and making that psychology story appeared, pleading Jones' cause and asking that psychology board abandon any thoughts of prosecution. She said she's had no further word from Stoen, other than a prediction by him-est the time of his visit-that it was "unlikely" Jones would return to Indianapolis to preach. I'll keep in touch---

Res Foreign Accounts held by Individual Members of Peoples Temple

Dear Cde, Minister:

Bishop Jones and all the members of Peoples Temple are most appreciative of your assistance in authorizing our organization to hold monies in a U.S. dollar account in Guyana. We are now requesting your authorization for our individual immigrant members who have individual bank accounts in the United States and other nations to continue to maintain said accounts upon the express condition that no monies which are earned in Guyana may be removed to such foreign account.

As you know we are undertaking an expensive mass movement of several hundreds of people to Guyana from the United States. More people will be coming in gradually after the initial mass moves as they get their personal business settled. Naturally if there were some immediate threat of fascism, a larger number of these people would want to come sooner. All of the group are very good people and non has come before a court of law. In fact, even a very conservative supervisor anthousedord that we are a very law abiding group, which is mentioned in the attached article from the Bay Guardian entitled "Peoples Temple": Where activist politics meets old-fashioned charity" All of these people intend to become permanent residents of Guyana. Many, however, have mortgages and other financial obligations they must continue to honor after they have arrived in Guyana. In addition, some of the people have made financial committments to support certain causes in the United States such as the Chilean refugees and the American Indian Movement.

Specifically, therefore, we are asking that you supply us with a letter from yourself as Kinister of Finance authorizing Peoples Temple members, while residents of Guyana to hold bank accounts outside Guyana provided that no such person shall remove any monies or valuables from Guyana to any such account.

Again, let me express our deep appreciation for your expeditious and gracious help thus far. We are very much impressed by the high efficiency and quality of your Ministry.

Cooperatively yours,

Line & Story

Re TOS libel suit:

Garry's comments:

"It's bad enough to quote Maria, but when you say "we know it's true", that's-bad. To accuse someone of a crime is libel per se.
We're not only repeating what Maria has said in describing her dad's molestation of her, we've taken it upon ourselves to judge. How do we know it's true? No witness..It's his word against our word."

This gets us into a <u>malice</u> situation, by our publishing the statement - shows intent of malice, which is why TOS seeks punitive damages.

The libel suit opens a "pandoras box for demanding our financial records." But they have to win in court before they can tie up our assets.

Garry sees a conflict of interest in TOS having been attorney for P.T. and then turning around and suing us. TOS will argue this is separate, has nothing to do with what he was privy to when he was our attorney.

The corporation should deny complicity with the statements issued in the releases, with Ingram or any other party being spokesmerson for the group. They spoke of themselves only, not on behalf of P.Y.

Garry will sees further down along the road, once we get served and are in the suit, trying to get venue changed to SF, not Mendocino County where it was filed; he is considering putting TOS on stand under voir dire -inquiring as to TOS's state of mind, ability to speak - but this ki is limited cross-examination - just one possible tactic of many which we he will consider along the way.

Right now he wants IMMEDIATELY in detail Mari's description of Katsaris's sexual molestation of her - when, where, how, how many times, any witnesses, why did she wait so long to tell of it, was she afraid of retaliation, embarrassment, what was her reason for telling it at all, every specific extense description possible.

He says Sandy Ingram should not attend any public functions, including services here, and that she definitely should not be around to accept service. He is worried about her statement to the Press Democrat that "we know it's true"...

Re L.A. asian case: A.G. has requested extnsion of time to file opening brief Re Paternity blood test by UC doctor: the child has to be present as well as all parties. But he gavepermission to write to the doctor and ask if these tests can be conducted out of the country.

TIM STOEN: chameleon

I. Staunch anti-Communist - Christian - Rotarian

1960 Wheaton College (Illinois) graduate 1961-62 Rotary Foundation Graduate Fellowship

1962 Trip to East Germany, " . . . to see what it is like behind the iron curtain".

-" I saw . . . what a police state can do to individual human beings . . the most startling and disconcerting experience of my life."

"The restrictions of a communist police state are as bad as you read about . . . "

"It is extremely difficult to have an underground spying system because you can't trust anybody."

" But when you see what people like you and I have to go through. They just want one thing. They want freedom to think and act as they see fit."

All I can do is anguish about the problem and pray to God that it won't last forever.

Address to Rotary Club: "The first thing I noticed was the blank expressions on the faces of everyone. You could tell they were just waiting for the day they might have some freedom."

"Fifteen hours in Communist hands."

"Stoen had a happier experience in West Germany . . . a little old Lady recognized hi as an American. 'She told me that she loved Americans for the kindness she recieved from them at the chose of World War II.'"

1965-67 Prosecutor - Deputy District Attorney

II Conversion to Socialism

1970-76 Joins Peoples Temple - a socialist collective in Redwood Valley. Served as chief legal counsel to Rev. James Jones, a marxist and outspoken critic of inequities and injustices within the United States as well as throughout the world. Tim Stoen advocates concepts of extreme revolutionary orientation, beyond the limits of humanitarian socialism practised by Temple members as taught by Rev. Jones. Serves as Deputy District Attorney in Mendocino County, and maintains membership in several social reform programs - - ACIU, NAACP, Legal Aid and Defense Association.

1976-77 Turning again to former conservation

Moves to San Francisco to take on the job of prosecuting slleged voter fraud, mainly simed at Delancey Street foundation, a progressive prisoner rehabilitation movement which has been politically progressive.

1977 Takes up prosecution of chicano truck drivers union members. Called to South America by Rev. Jones To help establish Guyans project, thus never completing his surprising new project.

August; 1977 Stoen returns from South America to "set the record straight" on allegations that he was afraid of Jim Jones. While no longer a member of the organization, he makes clear "I have always made known my esteem for Jim Jones." Claimed he was suing New West and Mendocino Grapevine for slander, that he intended to set up law practice in Ukish, and establish an organization of "idealistic young lawyers" to fight for the rights of the religiously persecuted. He has "worked with the U.S. legal system long enough to trust it" and states, "I'll put my trust in the system". Steels a line from Charles Garry, "I'm a streetfighter. Someday people will come to appreciate that I'm a streetfighter." At this point, his beliefs are still allegedly

BB-31-a-148

"closely linked with those of Rev. Jim Jones."

- respects because he has decided to claim paternity to John Victor and to represent his ex-wife in efforts to take John Victor from his natural father, Jim Jones. Stoen explains why he signed documents admitting Rev. Jones paternity: claims it was an "act of faith" to show that he was a good follower. His opinion at the time, he says, was that the documents would be ineffective in a court of law. At this point, he claims that this one custody case is his only quarrel with a great man, Jim Jones.
- Agril 1978 Forms a small band of followers which he calls "Concerned Relatives" most of whom are former members with no relatives in Guyana. Runs the organization out of his Montgomery Street law office. Leads this little band in a demonstration to the door of San Francisco Peoples Temple to hand over a petition alleging human rights abuses. Later the same month leads the same band on a demonstration in Los Angeles. Now he is accusing Rev. Jones of every conceivable kind of crime, but with no facts, no evidence to back his claim. He is in association with people who, according to the owner of the Ukiah Daily Journal, are threatening to "hire mercenary soldiers to raid Jonestown by force." He has filed three lawsuits against the Temple. One is representing a couple who told their neice in Guyana that "You ought to all be killed. Every one of you."

TOS - involvement with members of PT etc.

Jim Randolph: During a time when his job was in jeopardy(he worked as a social worker for the Mendocino County Welfare Department), Tim Stoen, then Assistant District Attorney for the county, took it on himself to speak to the Welfare Department director on behalf of Jim Randolph. Therefore, Therefore, Tim Stoen subsequently told Jim Randolph that the director, Dennis R. Denny, had threatened to get Stoen's job in retaliation. It is known to Jim Randolph and others that on at least two separate occasions Mr. Denny had tried to get Randolph's job.

In a bragging manner Tim Stoen told Jim Randolph that he had answered Denny's threat with words to the effect that if he (Denny) tried to get Stoen's job, Stoen would "sue him once a month for the rest of his life." He also remembers Stoen saying he had told Denny, "You know

that I can do it."

Party X: There are several people who know decisively that Tim Stoen gave. Party X instructions to proceed with a major money transaction and claimed that the instructions were directly from the Office. The Office did not know anything about the instructions Stoen had given. The directions were outrageous and eventually led Party X to jail.

There are a number of people who know that TOS sent a threatening letter to his wife, Grace Steen.

(from Feb - Oct 1975)

Phyllis Houston was advised by Tim Stoen to use her position as dispatcher in the Mendocino County Sheriff's Department to "get rid of" tape recordings that he wanted off the record. She could not erase the tapes but did arrange the designated dates' recordings so they would 1) be out of filing order and 2) be in sequence to be automatically erased for reuse by the office.

David Smith: Tim Stoen advised David Smith NOT to pay his federal income taxes.

Sandra Bradshaw was advised by TOS to actually hide Jack Arnold Beam when the sheriff's deputy came to the Redwood Valley Center to pick him up for questioning in a child abuse charge. Ms. Bradshaw did as Stoen asked and took Beam into a small office in the complex for the sole purpose of hiding him from the authorities. She acted on instructions from Stoen whom she had called at his D.A.'s office. After she had hidden Beam she went back out to talk to the Sheriff's deputy because she worked with the deputies in the Probation Department where she was employed and knew they would tend to believe her story that Beam was not in the building.

Phyllis Houston was told by Stoen to look at the sheriff's report on the above incident and report the contents directly to him. She read the report and as she recalls she relayed the contents directly to Stoen in his office.

Stoen advised all members of Peoples Temple who possessed any kind of handgun, rifles, shotguns and ammunition to turn them in directly to him and he stored all that was surrendered to him in his own home. There were several hundred guns in his keeping.

Sandra Bradshaw was adivsed, along with Jack Arnold Beam, Jack Beam Sr., Mike Prokes, Gene Chaikin, Harold Cordell, Rick Cordell, to get gwm licenses to carry handguns by Tim Stoen.

Stoen used his office to order a copy of the "Anarchist's Cookbook" which is a well-known, how-to-do book in the planning and operation of terrorist activities. He got it with the express purpose of directing the Temple members into this kind of activity. He gave the book to Bonnie Beck when he received it, were to be the book to Bonnie Beck when he received it, were to south the for him. Phyllis Houston was advised by Tim Stoen to look into records rof complaints about any kinds of activities perpetrated against Peoples Temple by members of the community. She did this whenever he asked and reported the contents of confidential sheriff's department files to him directly.

Outrageous things that stoom suggested.

- 1. When I first came 50 the church soten wanted me to join the sherrif's department. He usedyour name in trying to get me to join. His re-son being that I could infiltante the police, carry a gunl and be liscensedte do so while also keeping tabs on the police. He wanted me to sign up as soon as I turned 21 which i did. However___ I hnever followed through with it and whn I checkedwith you as to whether I really had to do it or not you seemed unaware of the whole thing.
- 2. That same year; steen suggested that I change me major from pre_med to chemistry when I went back to school. The suggested that I move into an apt in SF wigh Tom and have a back room where we would make bombs. He wanted Tom to drop out of school and work for a pharmacy thus enabling Tom to steal the needed supplies for bombs.

- 3. It was Tim who brought up the idea of poisoning a major city as a revolutionary tacking. I don't know if he ever discussed this with you but what was to have happened was that hewanted to clear sith you the possibility of having Mac study the layout of washington DC and the rest of us research poisons that would be appropriate to poison a assive population.
- 4. It as some who recommended getting Kinsolving by omning up behind hij and tying aburlap bag over his head and beatin him to a pulp.
- 5. It was soten who did that whole layout for the money.
- 6. It was soten who gave me wich numbers in the DA 's and oppolice could be called without risk of being taped.
- 7. In the Delancy street votor fraud cases and the votor fraud cases in general he steared away from the big money holders and did not hit the big fish.
- 8. Instructed the stealing of ta tapes out of northern california police department.
- 9. Tam Steen told the federal government thathis pasport was lost when indeed that was not the case.

Your entry into my consciousness occurred about four years ago this month, at some Young Life deal in Lake Grneva, Wisconsin. It was en-a-Sunday-dinner-and-during dinenr on Sunday noon, and people started to sing happy birthday or something to some girl named Molly. I looked to my right, and there she was, glaefully locking the chicken off ber fingers and evoking charisms. charisma all over the place;

I dear draw that afternoon with my write to see he gignerologists she bold me I han't know how to deal with people and and too insensitive and lack empathy. I can now see that substantially she's right

During the course of the day I and myself and felt near-lightered at the thingest of long my wife, when I really do lone (enorfue as I know anything atout it, which, wheel, a limited). She said I didn't want to lose her because of embarrasonant in the eyes of my friends and of my church. I reaffirmed not one that lovely. (Incidiately, my wife lives very staken up by the wednesday mylit meeting. The fels that everyne is going to hate her for being pregnant, as endeaded by I. BB- I know the only their that keeps my write at the church is Then 31-a-174 belief in you. I felt truth about sugari L.S. liked me, and I tried to explain that my ego is so great I could not, winted new,

even accept the thought that a woman would not like me and thus my vision was distirted, as was my judgment, atout the whole thing.

(What arranges me is how she learns all these Things She says This LS and LA bave compared notes about everything I say as do to either, that Earth B kinnes atout M.B. and won't both my write in the face, and that P.C. thinks I took a proposed interest in hel daughter T. because I had told her how transfer I was and T. had told her mother I put my arm as her should I did not take a pregnant interest in T and my wife does kelver in mother. I tried to repair the damage and be as objectively truthful as possible that night in bed. (I had started packing my suitease tilling my unfo I has not fain to cause her so much heart. (I had previously remainded the that the S_ way was to share husbands and wife and that she was not withing to be s_ That did make an impression, I think, for she shifted her time a little tot and became more calm in saying that maybe we should not live tracther because we had different philosophies and she writted me it be free.)

In bed that night

Re: TOS

-Went through the two brief cases that TCS left back here and found some things that you may find of interest-

-PASSPORTs His passport has been changed since the time that he went with me to take care of finances: the date of issue of this new passport is Feb.9,1977 which is before he was sent down here. This passport has stamped next to his color poeture. His passport was issued in SF. It says this passport is issued as replacement it for a lost stolen passport and is limited to empire on Sept. 8, 1977--- extension of validity must be approved by the department. His passport number is 1272505. His passport has heathrow stamps-- tarbados--trinidad and Totago--his rastrort lacks the double heathrow stamp which is indicative of going into Switzerland so Iwould doubt that he went onto the continent while in europe.

- if this passport were to be lost I would say that he would have a difficult time replacing it.

IMPORTANT CONTACT OF STORIS:

Hunter, Eilliam G: 751 Longridge Rd., Oakland, California 763-3749 occupation: DA's office SF---Head of Robbery Felony Team--

why this man is important to us:
-in one mote book TOS talks about calling Billy H. from londen re: suitcase:
this would make me think that this may be the same man as this guy in the
DA's office.

-in another notebook stoen talks about mailing a letter to Billy Europe from Barbados-- this is on the same sheet of things to do in the process of leaving the church-- ie send Paula telegram-- write Jim-- contact Marge--- write letter to Billy Humter containing (and that is all that is said it did not say containing what)

-in apersonal address book in TOS black brief case is his address and name again

-in TOS green triefcase is a letter of recommendation from TCS recommending this B. Hunter to be Judge. --- TOS mentions his outstanding prosecuting ability and the fact that he is writing this handwritten from Guyana TOS concluded his letter to the momnitte of Judicial selection in SF by saying " A Fardon my longhand, but I am on leave in an outpost in Guayana, and I have no luxery beyond pen and ink.. sincerely TOS../

it would be my opinion ghat the letter containing thing was that he mailed a copy of this letter to Bill Hunter while in Barbados.

I think that Bill Hunter is the one who kept his suitcase in SF and is probably the key to ther things-if we wanted to find that out.

Daniel Sienstein: Wiendstein sent soten a hand written note-dated earlier this year it says--Timothy--your work before the grand jury and with the press has been nothing short of sensational, watching you last wek was apleasure, I have numberous comments from lawyers, grandjurors and press exhaulting your fairness, and professionalism, and human qualities. You are a real credit to this office. DW.

BB-31-a-178

-BANK ACCOUNTS: For sure TOS has a bank account at the Chartered Pank of Londen--- he has two cheek books to this effect. Recently used at that, could not see how much was in account as the account was not ikxeexx there, it is the SF barnch however 999 Market street SF.

NEWS ARTICLES: TWS has a collection of news articles that has been written about him especially since comming to SP---- re: votor fraud cases.

<u>IEATHER GOOD</u>: Two leather wallets—lots of leather keychains with different initials on them—— two wallets must bee for two girl first friends. Cne is blue and the other is red.

1. On Fooding Thursday, July 8th, my wife at wone stated she "couldn't go on" luring with me because I was chasing other women in the charch, and that stemmet not be meeting her in my needs, that I was immature it have to do this, and that she was treed of people laughing at her because of the numers circulating about me, and that people loved at we and be say "what's with him, anyway." She cried, and said other price couldn't take it and that she was leaving me.

2 argued that I was not chasting umore, that I wanted to "help" within who didn't bare needed aftertion based on respect as well as physical and that she could know this by the fact that the three women who I had shown an interest in whice notical the type beauty-queen type I had always previously been exclusively interested in. I said that if her analyses of my nature were correct I would be chesing sainly ligrarium and not MB, or LA' or LS. She replied that I admired structly (in MB) land thinking the proposed and that I admired structly (in MB) land thinking the proposed and the LA), and black sexually (in MB) land thinking the proposed and the formulation of the could not accuse me of duplicate. The did not deary this (for she had so promise said it would be as and I shouldn't be a slave lete—although the rooms she said this protecting was due to my telling her before the wedding she was free to go out with other men if the would to the wedding she was free to go out with other men if the would to the wedding she was free to go out with other men if the would to the wedding she was free to go out with other men if the would to the.

She specifielly asked me question after question about LS, wellding X Tell nee, yes or no, did you ever place [i.s.] hand on your peries, X Jall places, in your office and did she find this revolting? I hesitated for a quite a fell moment + specify said "yes." I did so because I felt that the question was an and test of my willinging he he truthed and that she was bruthed in sugging she had reliable sources for X this beautifye. I then said I didn't know she found it nevoting.

I felt This with tall as I saw her ery and heard her accuse we of world her, letting her coth my meals, clean the house, wash the clithe, have no space nument for her but have them for their woman.

She said that L.A. had come up to her and said "that [T.] of your dream't them me in at all." [I had asked my wrife if I could have plupied relation with L.A. because she needed them, and my unfe had then said O.K.] Ever since approaching L.A. LA has been also ford 31-c-1/3 a trife hostile—she has stated to my urife I have an ego prothem.

Strange (

I draw down that afternoon with my write to see he gigne cologist. The told nie I don't know how to deal with people and and com inscristive and lack empathy. I can now see that substantially she's right.

During the course of the lay I and myself and felt newhysterical at the thright of long my wife, whom I really do lone
(enorge as I know anything about it, which, which, in limited). She
said I didn't want a lose her because of entranssoment in the
eys of my fruids and of my church I reaffund over ever that I love her.
(Incidulally, my wife was very shaken up by the wednesday night
meeting. The falls that everyne is going to hate her for being pregnant,
as endeaved by L. B. remark that people who have tables should pay the;
for them. Affective comment about the lay welling, she said she wanted
to covern and run out of the church. She is particularly uptignt at
the fall that various men think she has wanted to fuch them because
she has been friendly to them - she is mate about this and tools to
compare vitable need as more decent in being able to relate to her
without utterior motivies.)

Auguray, the new problem came about on the way home from farta losa. The kept asker, me about L.S. and whether we had I ever held hands. Fareweard yes. The then asked: "Did you ever kiss her and did she ever kiss you." Figuring she knew I answerd "yes." Then I saw a both of shock in her eyes. She stated she was going to leave the clunds, that she first had a very important question to ask you, that she wanted treach you whenever you were. (I because new trysterical, feeling I was apposite for her leaving the church. She calmed the X dryn.) She ished me thinking this had kangarij on. I said "two months."

(H then dawred as me That what perbably happened is that XX you had tild her that L.S. had found my torreling thee hearthing. I had stated to my urife before this point ether I that I debrid to their detivally think it L.S. found me revolving and was surprised to here her say that, that I Through L.S. liked me. It fail "don't you know, that relationship is higged. L.S. doesn't like men. What makes you think she would like you?")

B13. I know the only their that keeps my write at the church is her belief in you. I felt truth about regard (.S. like me, and 31-a. of the between that my ego is so great I could not, with new,

even accept the thought that a woman would not like me and thus my vision was distirted, as was my judgment, about the whole thing.

(What arranges me is how she learns all these Mings' She says that I.S. and I.A. frace compared notes about everything I say as do to either, that Earth B. Krinus about M.B. and won't with my write in the face, and that P.C. thurks I took a phispand without in her daughter T. because I had told her how beautiful T was and T. had told her mother I put my arm on her shrulder. I did not take a physicial interest in T and my write does believe me on this. My write state that K.L. went around killing people I was "Compensating with her. I pretailly was, but only affec K.L. had first started to the her arms against mine when we have sitting aboutsing trusinis meet I thunk Meanwhile I've commenced adopting a b with rule like at Bits have University with respect to K.L., L.A., and anybody close my write might be concerned atoid.

K.L. is the only puson other than Those moutand him I feel I have compoused with I feel Knible in having to bruden you with all I thus compoused with I feel Knible in having to bruden you with all I thus, but I to so only because you asked me to white from my feeling, in an effort bettle to understand mapself.

I tried to repair the damage and be as objectively truthful as possible that night in bed. (I had started packing my suitease tilling my wife I was not fain to cause her so much funt. (I had mevicially remainded the that the S_ way was to share husbands and wife and that she was not willing to be s_ That did make an impression, I think, for she shifted her time a little but and became more calm in saying that maybe we should not live together because we had different philosophies and she wanted me to be free.)

In bed that night

XX TI said " you know, ____, I was very when I tild you L.S. liked

It. The was cold, really cold. Now I'm starting to see this.

I pushed myself on her and couldn't until now tring muzely to
believe the dean't want thete truch her."

AXXX Then the my line said 'Now this is extremely important to me. I must have the exact answers. When I was should shock in my face it was not because of what you said, it was about X somene clae." BO-31-a-195

Ale then asked the following Questions.

- yn b get together?" My answer: "After- 2 or 3 weeks ago."
- *A. Why did you at first, upon M. B. is bromging it to my attention, first try to trying Jim with it saying Jim felt whe needed physical nelationship? I may she sais: "top unphying Jim wasted you to to it?]
 My answer: Jim never told me he wanted me to relate to her physically. I just assumed it because of what he said about her being me of the nost sexually deprived woman in the church." I misunderstood him, which became clear to me upon reflection.
- V3. Did fin nil come to you and say 'What's the by idea saying Fashed you to get involved with M. B?" Petty Petty My answer: 'No, be dien't include of the sort of the

 - 15. Od Jem ash you to get envolved with L.A.?"

 Arouer: "No, I just felt she was sad and it would be therapeatic to have a space playsical relationship with someries who respected her."
 - No. "Ded fine ash you to get unvived with L.S." No, I felt sorry for her. She was having a hard time with her Hothistos wanted cex and she didn't. + vopet her immensely. It was mainly british sick type. I consoled her. I have vever lad served intercrue with her and I do not intend to."
 - X7. [Miled before thes: "You have LS., don't you?" Answer: "yes, font not un the way you are Thunking I could never be married to her. I want a deep friendship with here You are, and I swear to the with the with."

After these questions my wife stid not specifically day she wanted to talk to you. But she did fater ask smething vague about it.

Alle did sloop with me that note. But she was too distrainshit to go to work Inday, so she strayed home until 3 pm. and 7 stayed home with her Fitted her I do love her, that I am willing to give these outside affairs up if it means not losing her, that I will try to spend more time with her, be more sensitive and time, and will try to office. I also told her I would not mind it if she had physical Allstimships with other men y she felt she was helping them. This is hard for her a believe but I think she does a little. Notes from conversation with Marie Duckett, a.k.a Lawrence. a.k.a.

RE DAVID WISE

Summer of 1975, in San Francisco. She was security. Working on the third floor. D.W. was living there at the time, as he had recently returned from being "out" of the church. She saw him come down Webster to churchabout 6:30 on a Sunday (thinks she saw him coming out of a car) and go direct to the thrid floor where he stayed. Seh asked him where he had been nd he said to the store but there were no stores in the area open on sunday evenings.

A few minutes later she was saw him screwing on e of the receiver ends on to a telephone (extension by the end of the hall), and a little later doing the and insert something into it same to telephone in the hall near the door to the balcomy. She wrote it up, told Mac who inspected the phone and found "bugs" in all the phones,

(a p j j). This precipitated a meeting with DW over the matter.

also describes a welfare fraud case TOS advised on, and a plan for "revolutionary act" which she discussed with T.O.S. at JJ fequest.

(She doesn't know anything about any attempt to place a tape recorder on the circuitry in the area behind the closet)

INTERVIEW TAPED Reel 1, side 1 (first 2/3)

About what I would do to average Time Stoen, etc. from Taresa time; Time Stock took his first step toward becoming a reactionary when he left were—It was only a matter of time until he joined the comprisacy. Its a howenigger he must appeare the master by selling out his brothers the field niggers! I do not believe the money is imporant to him. feel that it is a test - as the issue over John was a fest. They are looking for your fallies weel. They lost the game here + they thou it, so they are known your fracting that you would stand by your people to the last man. They stan of weathers would only worsen the take of our family members still in hell St you because won the battle here + only the same well whin the next bottlecommunist is all that matters + all that revolutionaries have ever had to Fight with we the end is their podies sometimes it has dist many bodies, but slowly liberation is spreading the world round So much for the general quoberish + to the brasstacks. I wish I could think of some brillant stradegy to save the family + allow the brave sails that have been holding the fort for as to have the apportunity to lareath the air of freedom. I know that most of them deserve more than I to be here, they've given more + suffered more, and I feliquity for that. I also feel quility that I had an alliance with Garyhambrer, Jayce Shaw + hiz Frinand. To repay, my delot to you for giving me the taste of liberation depite my past, I would like to tell Gary + hiz + Joyce + Grace + Tim + do many others as I could gather into a room + blow up. I propose setting up a lovers querrel & heart of our enemies that their are next. Gary is now a personal enemy. It was a sign of my low state of variously development that I exclaved his weakness + indulated my sentimentality towards him However in forming the alliance I learned now to mangulate him + could once again pull his strings. The arrogant God as as much a fuckaras any other whale despite his homosexuality I propose that we at up a false escape for me - that I go to Georgetown on medical reasons or wholever of that I go to the American Embassy ages to go home. Upon return I could go to tellers in Mento Park + try to get my Job bade, contact Gary's parents in fold Altor wait for him to contact me. BB~ 31-2-202

I could let Gary play a " side " for me in de-progre ing me, which he would let up. Is I sun to buy his vationalizations I aid sugget a meeting with the Storns + their benefactors supposedly to hear the real Story + to sell-them some disclosure - just what I don't thow enough to at them to bite , not enough to caux any narm. At the meeting I could Loduce a homemade bonds + blow us all to bits that way I would not be available for jail, forture + use against the cause - also it could be part of a real as survide story. I'm sure I could resume a perverted acquee contact unit gary acting as a female front for him to prove that he could aft a woman if he wanted & to cook relations with his percent & to be a mama to him. However he would never give up his boy Friends in fact heis probably tucked around with scalar Cof our enemies + would undoubtably braa about H. I could not realous which he would love. I could write bothe ack peems + letters tomenting my palousy - predicting my violence. This is in Keeping with my past product that I'm suice it would sell. Infact one of my of a enemies at teplers would be provided a would undoubtable. to Estily of my vident tendencies. In the meantime I would like to set up a racket at Kepler's to mail out books to a false company to build up our library. If I could act back into the bookeeping + the mail department I could do it easily. If I wind back to work at starting pay (& of what he was paying me)
I'm sure he would hire because the store is now full of may periorical people + I would work my ass off. I evuld wail them to myself + perhaps they could be stolen from me some way to leave no trail to the church. For I am to be a noturning body caus discontent that wants to do he own thing to forget he's responsibility to staturing bookies. I would consider it an honor to die if I could take those

Fuckers with me. I would not have the clean beauty of dying with out as in hand definding our homeland but it would be a satisfying revence.

Dad

My suggestion for Tim Stoen is to have some people break into his house beat him half to death. Slay on the verge of death. Scare him so he would stop these threats I think those people, could then go into hiding and return or come to the Jonestown when out of danger. This is if we want to the let people know we won't put up with bull-Shit. Like you said, they came for & killed Martin huther king Is because they knew their people were passive. We have declared in the states that we were non-violent but we'll stand toother. Those fools are pushing us. I am willing to participate in any type of plan necessary. Some must die in a Tevolution. Some may fall at your light and some at the left, as long as 1,000 more pair who will Rise up to insure communish it this land. Dad, remember They wouldn't suspect me. A lady, young, can appear weak. They would expect someone big and man or someone in the cause they know. Indrementer I'll go or do any mission. It I would have to take my life also, that's good, at as long as the greater number struives and this movement goes on. I oue my life & legar eyes to you. We'll persue, we have the greatest leader & teacher in all lands.

Dad I feel That Cern Stone so being bulked, successed of filed in his altempt to black mail us by the temperacy elements, I don't think he has the gut the a valid never to do it on his own. I do so ful that he is bluffing he really doesn't have anything to use on us that dawn then made public already in he would have heard if he never. I thenk that his asling you for moving, and so little moving at that, is a meaning of internal and in making you so enough that you would come back to the states. Re; Tim Stoen

I suggest that many of us write to Tim, and on the inside letter itself, We address him as Brother James. Then ask if he also wants his 30 peices of Silver. Unquote:

There might be a lot of loss of face to his CIA supporters, when trying to answer these queries. Who would among them believe his stary?

Dad Dam so leppy that I made it leve to see + live in the beauty of Jonestown

To DAD FROM: Peter W. RE: Tim Stone

" In light of the fact that Tim Asked for a modest Amount seems to indicate that:

1) Perhaps he is financially in a poor position

He knows that A large demand would be turned down AUTOMATICALLY but perhaps is gambling that he'll get the money if the Amount is modest.

3. He wants to leave SAN
Francisco And make a new
Start elsewhere As he can't
get A JOB in SAN FRACISCO.
He may BRIANT TO RUN (over-)

fearing reprisal for Chris's death.

H. He may be trying to get a verbal or written response that could strengthen his position in court if he wants to do more dift.

S. We should not yield to any of his demands.

DAD, I would be willing to
return to the U.S. or whereever and kill by subsubtle (ie: "accidents") or
overt means As many traitors
As I could get before the
Authorities would carch me.
I would seek to end my,
own life before the police
could apprehend me if it
came down to the final showdown
Thank you DAD, tetel.

Thinks your right arm has been knowhed off (Chie) to he closest the flow the flow worts to see of you will kend. I think no matter what a bosic fear of you exist. We should think yours to play on his paramose of the people he contactly braze. Maybe we could say that some of the people he contactly called us because they are our friends.
