Before you get all excited or happy that I am writing you this is going to be my last letter. I am very hostile, I think that you are writing to me now to pacify me you don't have to anymore. Three letters ago I asked you your feelings and you acknowledged the fact that you had received them, but you refused to answer the questions.

You even waited a long time before you answered, I had to get on the radio and ~~(write messages)~~ ask you to write me to let me know what to tell your parents! I have to apologize to my mom for you not writing, but don't even worry about it anymore I can't take it anymore.

with the crazy talk that all of them are putting down.  
You make me awful paranoid when you tell me  
the same things over and over. And then someone  
else tells me that you were really getting down at  
a dance that was given one night, and it's not the  
point of who was there, but why tell me the same things  
over and over and not that small thing? If you  
think that if you were to tell me something that I  
would flip out over here, well I'm doing that anyway  
trying to figure you out! You did not even remember  
that it was our anniversary, but that's ok, too. Because  
what does an anniversary mean anyway when there seems  
to be nothing but an image for everyone to see. I  
have a great respect for you because you are a hard  
worker and the Mother of my child in this cause for truth,  
Freedom, and Justice. I have been crying and  
hurling and I can not take any more, I am sick of  
EEIF296

being playacted by you so don't write any more.  
There is nothing to talk about on the radio so please  
don't ask to speak to me. I will talk to John  
once and a while because he had nothing to do  
with us bumping heads. I have been through  
so much these last few months that my head  
is about to explode, My chest feels like a hard  
keller. Ready to burst at any moment. Keep  
on in your work that you are doing for the cause  
and forget about me for I am nothing and the  
little that I am is only because of Father.

Sincerely,

Joe  
Foster

I hope this letter finds you and the girls well adjusted to Jonestown. I am sure that you can now see the beauty of living together astoplicly working for the same common goals. The night before you left I wished for you all night I didn't know where you had went, I had a yearning in my heart to tell you the things that were in the letter I gave you. I do care for you very deeply and I want to continue our relationship when I get there. Because there is something about the way we can communicate with one another and grow

from our mistakes. You're quite a woman  
a strong one and I need you. After our  
relationship grows then we can have a child like  
we wanted to. You see I wanted the other baby  
also, more than the tears that rolled down my face  
that night we were talking making a decision on  
what we should do. I had a long talk with  
Eric and he understands about me now, I am  
sorry for my actions on Thursday, everybody  
was joining me for shoes, clothes, money so  
they could go on the trip and I should have not  
taken my hostility out on you I am sorry.

Seems the only time you seen me I was mad at  
somebody. Enough for myself how is your  
man? Doing fine I know her and Lucious one!  
Please don't forget to write me its awful lonely  
without you and the children. Did you get

Dear Father;

Excuse me for writing you once again I know that you have the weight of the world on your shoulders and I can talk to Leona about some things but she is in such physical conditions that I dare not to begin to lay this on her. And I doubly hate to let you know but it is going to end up you hearing about it in the end. I had written you in a previous letter about my relationship with Wanda Souder (Martha Souder's daughter).

I have known her these last few months and I have a very strong feeling about her and her two children. She has suffered a lot in her life with her former companion, He used to treat her

steal her county check and one time he looks out a window in front of her face and put glass in her eyes.

He sees a much older man (35) and she is 23, he is now in prison for selling drugs. And to show you how rotten he is when Wanda needs to live there was some neighbors living next door and they called the county she has claiming that she neglected her children, but I knew for a fact by looking at the childrens clothes and the neatness of her house, that she didn't. So the county people couldn't find anything wrong with her at home so they wrote her companion in China and he signed some papers saying that "she was an unfit mother".

Her dad doesn't like the church because he and his ex-wife (Martha Sanders) had a home on 102nd street in Los Angeles, which AJ worked on and Kay sold for the Doyle, he was fertile because of that and when his wife went to Guyana he found the

Newest Article and sent Wanda Photo copies of it to Wanda. She had an abortion for her ex companion who is in China because when they were together he was dealing "snacks" and shooting his self up so she did not want to bring a deformed child into the world. She had another companion that was worse so she decided him until he wanted to find someone else, she had a tube pregnancy and the doctor had to operate. And then with me she or should I say we because she didn't do it alone. She was 9 weeks and she and I discussed it at length about the situation, we decided that for the good of the cause that if we truly wanted to start a relationship that it would not start this way and the problems that it would bring for your Father. As much as I wanted the baby and she wanted it very badly, even though we knew that we had no

EEIF302

IV

rights to decide, we thought what would be now  
going to do. She went into the hospital and  
had an abortion. I had never before cried in  
a long time I think the last time I cried is when  
I saw the people not responding to what I was  
saying about you, this was in Los Angeles Temple  
and I asked myself why are you willing to go through  
so much suffering for people like me? I cried  
one morning, I was dreaming that I was holding John  
and his leg was cut open and I hugged him and  
cried and I woke myself up crying holding the  
pillow. I must had cried for an hour one  
night on her shoulder, I was crying because of  
the pain that I was putting her through, wanting  
to keep down confusion and wanting to keep the  
holly and the physical pain that she would have  
to endure. She comforted me and then she

EEIF30 d

II  
gave me words of encouragement, that this is what  
we should do for the cause, then she died also.

She is a strong woman in my eyes, and with the mis-  
understanding that Chonda and I have had. I lean more  
toward Wanda instead of Chonda. I have been legally  
married to Chonda for 5 years and the whole time I  
can truly say I don't know why? When she left  
for Guyana I didn't shed a tear and many times  
people would say "you miss Chonda & Jishi"? I  
would say yes but deep down inside I would say no!  
Jishi yes but Chonda no! So I thought about it  
for a long time even before I even met Wanda  
Lander. Chonda has been a middle class  
black girl that had everything she ever wanted.  
Her family was like upper middle class and my own  
parent family was welfare. I think that I was  
rearing her to become middle class and she

It  
managing me to get out of the house. I don't  
know for sure about her but as I look at me I  
see what I was doing now. Trying to be accepted  
for some reason? Thonda is a very hard worker  
now and has done good things for the cause, but  
she has not been through such suffering in her life.

Sometimes I think that I am in a world of Fantasy  
where everything is slight or forgotten about with Thonda.

I asked her to express her feelings to me in a  
letter, but she sent me a carbon copy of her other  
letters. Then I had to tell them over the  
radio to "tell Thonda to write me and tell me what she  
is going to tell her parents". - So that when I  
go to see them I would have some background  
information so I would not look stupid like I  
have been doing. When she did write it  
was the same old apology that she was busy and

EEIF307

III didn't have time to write, I don't argue the point that she is busy but there are 24 hours in a day and if she could write her non and dad then there is no excuse. At one time I thought she only stayed with me because of my title in the church, she is the mother of my child and that is as far as my feelings go. Maybe its frailty from over the years huddling up and coming out now. I am not the best thing in the world by any means, but the feeling that I thought I had for Rhonda just isn't there. And this just didn't stick in the last few months this has been with me for a while. I am very vested in the relationship that I have with Wanda and her 2 children. It seems that I am playing a game with Rhonda and she writes me to keep my head on.

I love my son, but I could not truly say I love Phondas. I admire her for her hard work and being the mother of my child, but nothing more.

I will be looking forward to hearing that you did get my letter, I am sorry to take up your precious time with my problem, but I have no one else to turn to on this matter.

Thank you Father,

Joe Fortson

Dear Father,

I do not have anyone that I feel strongly sexually attracted to at this time. I have feelings of warmth to individuals who show warmth, understanding and principle and at times I feel these are both to males & females I also have feelings of hostility to both males & females

Thank you Father.

Trip from Mathews Ridge;

On our way from Mathews Ridge, Anthony, Johnny, Lydia Green, and myself rode in a pickup truck owned by a man named Mike (he runs a store in Port Kaituma so said Anthony) and a man named Mr. Daniels who says he is a school teacher in the parishville district. He says that he was going to see his wife who was or is a school teacher in Port Kaituma. He asked us if we knew her and Anthony said that he knew her because she was the only Mrs. Daniels who teaches in the one and only government school. Mike's truck broke down about 10 miles from Mathews Ridge and out of us, where a group of Guyanese Cowboys riding on a tractor with a trailer met. We were pulled down the road until the rope broke and broke so small that there was no way to even lie up the bumper of the truck and the end of the trailer. It was dark and we looked on the side of the road. There laid a long piece of wire rope! We tied it to the two vehicles and rode it back to Mathews Ridge. After we got into the back room with Jason (Julian's friend) Mr. Daniels began to talk to us he asked why he did not know anything about the group but he had heard about the Peoples Temple he wanted to know where we were located. He didn't

ask to many more questions, he was very friendly  
to us and I told him that when I was in  
Georgetown. He shook hands and parted at the  
front gate.

1. Father I would like to go to another Socialist Country, if it is totally Socialist.
2. Father I am afraid to die and my children too, but if it is no other way I will not run, father you no what is best. ~~My~~
3. Father my only wish is to save the children, father you ask us for a honest opinion about how we felt, an that is how I feel inside. I no that I am wrong.

Why I wanted to leave America was because it was a fashious Country us Blacks an poor whites never had a chance to get a decent job or homes to live in, but, here in Jonetown it was so peaceful quiet an the land of plenty. I thought that this would be my perminant home until the American C. I. A. invaded our privacy I really dont want to die but if I have to let me die for a reason. an a life that there is no greater than dying for what you believe an I believe that Socializism is right.

EE 1F33

We have a principle to die for!!

○ Socialism is for us to live as one. All things in common. One according to his need, one according to his ability. I want too, to see our children get to freedom, and be in a Socialist society, and grow up as true Socialists. But if we can not go where our children can be safe. I vote to die right here, on our own land.

○ I thank you Father for all you have done for many people. The years that I have been with you, you have always been doing things for people. You have done so much for me also. Your love, concern and compassion for people. And most of all, by you're being a true Socialist. You have gone through so much pain for us. Trying to get us to freedom, and to have peace. I thank you, Father. I also thank you for what you have done, and still doing for my companion (Hue) and my child (Tshi). No leader would have gone to such lengths to save his people. I also want to thank you for making sure our children will be taken care of if we must die.

Thank You Father!

Rhonda Fortson.

Dear Father

Our reasons for being in (concentration) camps were not only to escape religion that has drug our people for years but to save us in more ways.

The fascist dictatorship here in America along with openings of the Concentration Camps. The Camp just south of San Francisco had guards in it as we were passing by.

The illegal sterilization of women and the castrations of men through the state.

The food riots and water shortage cause because minorities we have because the white racists will need it.

Mass genocide and the Filomitic Army that will put blacks and poor whites in slavery.

And #1427 while a politician of the so call law feels that his question won't answer (nobody) will assist you.

Because of your love we will never have to face it.

Thank You
