The intence PURITYOF MOTIVE on your part is the great protection that walks us through the purification fires... that protection prevails as long, and only as long, as we are in mind-harmony and in heart-harmony with this communist pathway. Lunar Return of February 10, 1978 ... 1:35 local mean time PK

DEVALUATION IS LIKELY TO HIT IN THIS PERIOD... The Guyana new boon chart holds an elevated Saturn opposition Sun... danger to the muling headers.. Fear and anxiety are at nerve wracking proportions... It looks like a payoff to someone in top government here; and the government says no and will not budge on it... to foes of greater strength...internal figh as well...

-MARS in the house of finance is a spending rattern... and it is squaring Plute in Louse of children. A crisis which talks for the native's taking of the responsibility is in the offing.. (This IS This ADDICT URLEW WHICH THE ATTACK OCCURRED WITH THE KNIPE. and subsequent swift reaction financially by our adversances..) Seems to the with your children. is expensive.. someone may get killed -do-sn't look like us.. They may attempt a kidnapping under this pattern and get killed in the process.

There is surprise action on your part in this chart..totally unexpected by the opposition. You stend with a female figure in this chart. is does not look like Mercy; female is in distance but entremely helpful.. It is attack and counter attack.. Venus is opposite Saturn, so is a contrast of young and cld.. the women seems quite young, and extremely daring... It is like a roll of the dice: it seems to go against us for a while and when the odds are at the very worst, the tides turn by some unpredictable flook! It is like a superman movie serial—each chapter looks like the end, and then tides turn... CERTAINED UNDER THIS ASIEST THE "PREFIXEDER" WILL NOT BE EXTECTING HIS REMARDS.. for the knife turns on the would-be assessible to. There is powerful protection from your own higher field (Sun is trining Fluto) but you will no doubt wender how the holl you will turn these tides: but turn they you will:

THE JUPITER OPPOSITION NUPTURE-which is the exploitation, cheating and assassination pattern --and is NUPLE WILLIAM DELECTED... reposts its pattern with and easing intensity each nearly which which a office of major proportions occurs -- it appears at top government levels. May be hassis coming in then... on not sure -- but magnitude is phenomenal:

THERE IS A CHANCE for a property sale in February that could sneak by when the opposition has their eyes on scrething else. There is a favorable money pattern in the distance and all of this spending and tension.

Lunar Return of March 10, 1978. .. 1:33 am local mean time

Problems with neighbors end kin. maybe trouble with vife's kin at this time, as well. And from Keitune + Ridge officials_

Pluto is in the 10th of Career, public standing and those in elevated rank -- it usually indicates the government of usual rounds. Squaring Mars in house of partners (your church failly would fall in this house) -- it brings ANOTHER OLISIS of nature of attack with Imife.. when seem used in the conflict...

(In looking of the Guyen: lunstion for blis paried, it looks like they enemuch caught up in their financial problems and do not enter into this Jonestown conflict too much. The conflict falls in their "house of friends" but is not angular. which would indicate they only involve themselves "indirectly" in it... This march Chart IS A "BITCHY" CHART... Sun is squaring Neptune'so there is much fabrication of written and anchor and we sum is with

THIS MARCH CHART IS A "BITCHY" CHART... Sun is squaring Neptune'so there is much fabrication of written and spoken ord. as Sun is with l'ercury.. Sensory perception is extreme here, and there is much emotional feeling demonstrated. There is a lot of anguish, but the same aspect if the anguish can be set aside -- GIVES MOST POWERFUL IMAGING TO THE POINT OF "SPONTANEOUS COMBUSTION" resulting..

In the Great GEOPHYSICAL year, when scientists all over world were sharing notes on earth science... they brought out that MATTER IS ONLY "TENSION" APPLIED TO ENERGY... So emotional tension-times give the greatest TINSION or structure to the energy field... so materialization under such times is most rapid indeed. As I am sure you know, the entire theory of the cabalists is utilization of the fear and emotion patterns for materialization. unfortunately many learn the secret and misuse it. You are probably the only one on the planet unselfish enough to use it entirely for good.)

Unless you choose to intercede, there is likely death to a friend or former friend thru a sudden and most crushing accident... 3/04 4/6 period.

Inflers ation and boils are a problem thru this period.. to failly (large),

Fatigue is likely to bring lung problems, colds, etc. You need to est more fruit thru this period if possible; elimination can often help offset this particular pattern. Body blockages indicated.

THRU INDUSTRY... we can pick up our money pattern this month and bring increase. But you will have to maintain rigid structure thru all of this tension to keep production from lagging! Lethergy will creep in if it is permitted.

4 of strangers or outsiders, Known or unknown-

THERE IS AN AIR OF FINALITY about this chart. I am inclined to think your enemies pull out all of the stops this month. EVENTS ARE KALLIDOSCOFIC

Swiftness and unerring directhess mark this period.. There is a laying of the cards on the table.

Sun in the chart is in the house of friends..hopes, wishes and dreams.. and step children. and opposes Pluto (government/underworld) in the house of children; nerve jangling, dramatic scenes occur that bring lasting results. The Sun-Pluto aspect is within 1° (like in the eye of the hurricane, where you (Sun) have control. Fluto is retrograde so the situation with John "could" be concluded.

Money is spent heavily, but it seems to be coming in From schemiace...

Very delegs and obstacles with neighbors and bin; falls and accidents are more frequent than usual; a lot of bruising occurs; theft and lies prevail in this period.

(Narch is likely to be a most difficult month for the Guyanese leadership -- At the time of the Full Moon eclipse of March 24 opposite your natal Moon, they TURN TO MILE FROM A DISTANCE...

In April, the new moon/eclipse is South nodel, or saturation in pattern, and I think a COMPDISE tat may occur on be attempted at that time. HOWEVER, MATURE TO THINK OF LOTE WITH SO it appears that they ride out the starm.

1980 & 81 bring repercussions from the March eclipse pattern -- but summer of 81 ends the dangers initiated hereby..)

Attempt to de-us-in monetarily is "engular" in the chart, so likely some frontal attack on our money and rescurces. Surprise problem with young woman at a distance. She had better watch health. Whitever surfaces at this time --Torri cause to mind as I look at this, but case not make it is her.

Lunar return of Far 3, 1979 at 4:41 pm local mean time

From behind the scenes power wrestles -- there is monetary struggle in the distance (probably the states, of course, but is not NECESSARILY SC...)

This is another period of thrill and excitement; there is breaking off of old ties, swiftly! It usually brings someone as well -- a stranger enters the pattern-may be male or female, but is usually beneficial.. It can be a chance meeting, a one time meeting -- but as flavore days pass..it will be seen to have been most important: they either teach us something, give us something, or give us a "contact" with another.. There is tremendous magnetism in the moment depicting the Uranian person. Uranians may be fettered in body, but never in mind.

Danger from and to older friends, and friends of many meny years.. do not TRUST anyone you don't have to this month! Danger also to a YOUNG female.. you seem to be expending a great deal of power to save her.

ANGULAR 10th House(public) Kercury opposite Pluto and squared by moon in 1st-- meaning that PUBLICITY CCKES TO YOU UNKERALDED. Your life becomes a virtual stage, and there is even less time for repose or privacy... this in a year when you need reflection. Others invariably mix your in their affairs. Pluto is in the 3rd house of publications, so there is heavy accent on written word. It looks like you and initiate a new your here what may be picked up in other 3rd world media internationally. It also indicates you will be the CBJECT of the written word by outsiders. You burn the cendle at both ends more than ever before, but a rising Mars in the chart gives you the energe. Canger of high fevers at these from tenicity.

TVL MLAR is one of intense FRUGALITY.. Saturn in the Smd warms to be most fregal..

MME Sun (yev) in house of friends opposing Thomas in Atl.. Finds yev making sugden breaks with so-called friends this year; there is a continuing excitement and a growing reputation that you DC PATTLE IN THE WINK OF AN EYE..

Danger to a small child --doesn't look like the pattern that has been around John, is more like Nimo -- needs to be watched carefully against falls. It is not a death as eot or such, but is a hunt aspect that could will be arrifed! He is safer with males than with females in whit period; it appears a roung much would be carefuse. Weather is a problem.. may be a serious storm.. may cost us in food loss.. Two cancer women seem to work together for you re an agent or agency of government.. don't ask which one..

Dear Jim: When I came here and found my children working in the fields, as I did when I was in my teens, working in the grape fields out in Cucamonga (you learn how hard so many people work, and you learn a respect for the worker as well as a greater appreciation for yourself when you do it. The city would not make them strong in this way -- it weakens them with too much comfort and too much concentration on self --) I was joyed and felt good to see them taking part -- and they love it. Erin is in the incentive group since she canot take the sun for such long periods of time and the supervisors suggested this since she had nea rly passed out the first few days out there and had to sit in shade at intervals she has lifelong had trouble with heat, though she is doing much better and loves the fields. She is a very excellent worker and enjoys work. I asked her if she wanted to stay there and she said an overwhelming yes, she loves working in the the ground. In younger years, I loved garden work myself so I can see why king they feel good doing it. In S. F. when I **ehorthand** suggested Erin get into office work because she has distinct talents in that area as does Evelyn, she nearly came to tears at the prospect of being stuck behind a desk-so I know they love any outdoor work. For the strength you are putting into our youth, I deeply thank you. Help me to learn in time all I must know, do or be. It is very confusing at times, and I proceed on in the dark. Many times I fall down and many times I get back up again. The last five months in S. F. were hell with tely that Apostolic Corporation. What I did they could put me away and throw approxima away the key-but the evidence is now all destroyed, the source material, so this is no longer possible to trace - yet, best if we do not have to go through audit, though I did everything as though we would. The attorneys (Chaikin) did not get the letters they were to get, however — that area is weak, but we could get letters signed and back dated down here, though that runs into danger since some big mouth would remember when they signed it or massemething... that is, however, the only weak area. The figures are in balance --unbelievably! The last part I did entirely myself, so none but me could know where anything was buried. . . And it was so hard for dra me to figure where I had been even two days later that I had to call on

My weight is still not where it should be —I Fasted the 31 days as pledged —but could not continue with-the tiredness it brought. Had we had fruits and veg avail to eat there —I might have, but the kitchen was straining as it was. Maxine has gained 100# since unwiring he r teeth, Mary Tschetter says that Maxine is now 265... Too much pastry and starch and not enough exercise to balance it. Though temperaments are doing REMARKABLY WELL, and all are trying hard to get along and doing it pretty Well. The tension is from fear of not getting it all done, having things half-packed, not being sure you are doing what you should, etc. They are not doing badly under the circumstances.

your name to help me get it all closed out. It is well done, but totally designed to tie an auditor in knot s. From sheer mental exhaustion, I think they would pass it: I was doing it and was totally exhausted mentally from

As I awakened this morning, Evelyn flashed before me. She was in severe anguish and her eyes looked pleadingly at me. Why? What should I be doing that I am not? Last time on the floor in S.F. when she was shouting somethin at me, my only concern was to meet her need and not disappoint her as a socialist, and not be a bad example to her... That is my concern now: Please Jim, take me or my children as needed for the cause...but please let our lives be laid down for the cause of socialism and not for some stupid failure or omission where we have not learned fast enough what we should do. I feel that m big clock is running somewhere, and I have to meet a dead-line. I don't know what it is. Please help me toknow, and help me to be the

to the formal participation of 120 7-6047 EE-1-L-114

I do see what you are doing here -- and indeed it is a high calling: how many times have I sung the song from the depths of my heart that I sing now: Father, don't let me fail. . help me to divest myself of all but socialism. Porgive me that pain I have caused you - I know that we unwittingly cause you pain with our lingering capitalism. Beautiful, Beautiful socialist man who even fears to sleep lest the enemy approach and we are not on the fob... your sacrifice is perpetual. At is seeing this that makes me hate the capitalism in me. I love the beauty I see in you, and hate the ugliness I find lingering in my ways far more than should be. Please, Comrade, bepatient with me just a little longer. The vision is finally penetrating my thick skull... There is nothing I really want personally save to be what is needed of me here. I KNOW that there can be no joy for me really until you can find a moment of rest, and that cannot be until the entire world is free -- for we would be fools to think that fascists would suffer socialism to exist anywhere if they had the power to overthrow it...since it divests them completely of their powers. The thought of feeding all of the babies of the world one day is my joy to be hoped for that thought lingers with me always. Thank you for including us here -- and please extend your hand that we not carelessly destroy ourselves in some foolish way - but if our lives should be laid down, then please let it be for socialism. If I cease to exist and go into oblivion, it is all right -- but let my going be for socialism. I have no regrets when my efforts have been sincere. Again and again and again and again... THANK TOU for including us and for bringing us here. I would rather live a day with you than a lifetime away from you.. Forgive the pain I have caused, Jim.. I have tried wary hard to be faithful to my tasks. I feel so damned unworthy as I look at your daily sacrifice --- My-children have already gained more from this life than an entire life outside could have given them. I recall when I came to the valley and you said you would be their Dad...since they did not have one, really ... They have gained and grown steadily in that love you tendered them. I speak of course not only of my natural chillren but of our other children -- and thank you for that. You said to remind you to put on the radio something about my doing the astrology thing at the housein Geor getown. Perhaps they could check it out with Claudette or Dr. Reid... Whatever we do is fine with me, I just want to be sure I do what should be done ... In deepest love, with a de omrade <u>Tis</u>h

MEMO TO DAD FROM -- Tish Dad- Probeethat good ideas -

Dear Dad: I came home last night when it seemed the decisions were made, and since I was getting up very early and saw much had to be done today-- cutting superfluous to the minimum whokenexaming and pushing the urgent to the front. Decided to attack with a fresh mind. I figured if I was needed further you'd send for me so am sorry was not in the later meeting I heard about. However -- following are some ideas that might need weighing as we make this final (THANK YOU DAD) close down from hellhole u-s-a.

- 1) Am very concerned if possibleto save and bring here our presses... THE TAPER CAN BE A "VOICE OF FREEDOM" to many long after we are gone from their shores... Perhaps we can get it sneaked into the country or whatever... even a single sheet mailed in can be passed from person to perso and copied there and TRUTH spread...WAYS TO FREEDOM TOLD... COURAGE INSPIRED.
- 2) Our 2 freezer units out back, were purchased for use here or on a big boat.. This could be of great importance to us in transporting our foodstuffs thruout the Carribean, so if possible, these should be dismantled, PACKED WITH CARGO, and shipped via boat right out of S. F. --we can arrange to pick up in either Venezuela, Trinidad or Panama. They are the kind of units USED ON BOATS, and are designed to ship "as is" on boats.. Jack did this deliberately in purchasing them.
- 5) ALL ACCOUNTING AND FILES & TAX PAPERS SHOULD LEAVE SF WITH THE FIRST OR SECOND BUS COMING, leaving the family there free to work entirely with purchasing, people and crating. LET THEM TELEPHONE FROM GTN.. AND ADVISE ACCOUNTING TO JUST MAKE LIES AND STALL FOR EXTENSIONS on any problems that arise, but the the paper out of there Anything not neede for taxes should be burned. WE CAN ALWAYS TAKE TAX PAPERS HERE TO THE U. S. EMBASSY.. AT OUR DISCRETION.. but anything there we know will be confiscated and used against us.
- 4) I don't think we SHOULD totally forget the 2 year projected orders we have planned. Rather, we should immediately pare the MOW & URGENT from the very vital... This means setting up places and means to:

A) Purchase from in the states --establishing a purchasing agent and we have some recommendations from people on this..

B) Establish points to receive these orders for initial shipping consignment—coming in to a FREIGHT FORWARDING AGENT, either in VENEZUELA, PANAMA OR TRINIDAD (least favorable probably)..so that we could pick up the frt. without having it go thru customs in any port save Guyana.

C) ESTABLISH AW CUTPOST STATION either in Venezuela or Panama from which to transact mail and international business. (Much will be short circuited coming in from the states -- However, a Venezuela or Panama mailing address might well make it possible for us to receive critical mail for a longer period of time... especially mail that might have money in it.) I do not know the feasibility of an "arrangement" for banking in one country and then writing checks to another.

I do know that Panama is considered the Switzerland of this continent..so there is a lot of financial freedom. POSSIBLY, GRADUALLY, a few Social Security checks could have at transfers made to a Panama bank for direct deposit.. or to a U. S. bank with a Panama correspondent bank -- using several different banks.. Ferhaps if done over a 3-6 mo period, we could salvage many of our checks that WILL MOST CERTAINLY BE CUT OFF with Guyama's extreme move to the FAR FRR LEFT...and to the USSR and Guba.

I WOULD RECOMMEND A 2 week rotational person -- perhaps 3 of your most trusted inner staff could go there for 2 week intervals...dangerous to be without family contact for longer.

THE METHOD
I THINK IS
ORITICAL TO
FEASIBILITY.

THE WORK DONE THERE could be SPECIFICALLY ASSIGN D "EACH" TIME..without carryover. PRIORITIES BEING RE-SET EACH TIME THEY GO.. some would have purchasing capabilities and others would have other capabilities. or perhaps a staff person plus one purchasing person could go fach time.. but no records maintained there.. just each time come back and go over what is done, re-evaluate and institute immediately the instructions for the ensuing and singular 2 week period. What does not get done comes back to a central planning group for re-evaluation. This would ELIMINATE PROCRASTINATION, which would stop the danger of the FEAR OF CONFRONTATION BUILDUP that comes from a staggering workload an individual cannot handle—which in frustration, then often tends to cause even the work that "could" be done to be stopped...or curtailed greatly.

- 5) URGENT TO LEARN WHERE INTERNATIONALLY we can purchase the items we might need: this is an EDUCATION project.. we need to study world trade publications and get letters off for phony distributorships, etc., just to LEARN WHAT WE CAN GET FROM WHERE in the critical areas of:
 - A) Medical supplies;
 - B) Equipment, mechanical, electric & electronic parts;
 - C) Paper and education supplies
 - D) Fabric and household items..
 - E) Misc other items we can sell...

SOMEHOW, I think I should be in on this study -- feel that I could be effective in helping set up this program..

8) AT THE INCEPTION point -- now -- of our businesses in Guyana I feel I should get educated on the tax laws affecting us.. perhaps work for a 6 month period for a CPA OR COMPARABLE in Gtn at some "safe" future point in time... or get the books cut here (also).. MUCH IS NOT GLEANED FROM BOOKS? because the law is always partially the letter of the law and its semantic interpretation by the courts at the time... this varying from case to case as the courts rule...which usually is only known by practitioners in tax law..either attorneys or spa's.. we might make a trade deal, they do free work for us and train one or two of our people in exchange for "X" amount of time spent working for them in their offices by our persons.. Probably we could work out salary too.. but even if not, if the post were politically advantageous, it would pay for itself in connections.

I keep remembering how much we would have lost on the Apostolic had we listened to our LEARNED COUNCIL.. and feel that we must have more than one mind interpreting our tax law picture.

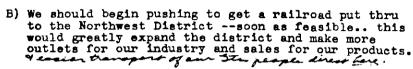

Whatever we are going to be assessed for, we need to set up our records to MINIMIZE TAXES.. because unger Guyanese law, communes are taxable. And, while it may have been thought it would be long before we owe taxes --am NOT CONVINCED, STI SINCE I AM ADVISED BY SOME THAT THEY USE INTERNATIONAL TAX METHODS AND "DISTINGUISH" PROFIT AND LOSS FROM INVESTMENT.. It is our investment that is heavy.. But when we start businesses with profit ..like Patty and Rheaviannia are doing..-- and too much has already been said about the \$5000 week they did this last time...and with practically no investment or expenses there.. a political enemy will start some tax-law shit.. It is bound to happen and we are not well advised to be ill prepared.

- 7) INFESTATION OF VIRUS, BACTERIA & PESTS in our gardens.. we should not forget that those in states were "CONFIDENT" we would be starving -- and they might well have dropped the diseases upon us --just as they did to the pigs in Cuba.. WHY WOULD THEY MISS THAT KIND OF CHANCE? The IICA may have been coming in to asses what they had done?
- 8) A CHURCH CENTER IN GEORGETOWN would provide an increasing power base in there, an additional source of income and a COMMUNITY STRUCTURE for our Georgetown family.. which may well be increasing to increase our profits and money..

66-1-6-123

- 10) PLYWOOD FABRICATION--Need to immediately investigate what is needed to move ahead on this. and push it if at all feasible. SHOULD HAVE SOME OF OUR TOP MINDS VISIT A PLYWOOD MFG PLANT TO SEE FIRSTHAND what we need to know to get this started here. If the North Koreans PDR have industry -- perhaps we could get technical consultation from them on our plans and the feasibility of them???
- 11) Need to present a SUMMARY LIST OF MECHANICAL EQUIPM NT that we want to buy -- to the embassy representatives of East Germany, P.D.R. No Korea, and USSR etc.. to see what can be gotten from them; we would be better advised to utilize their technical know-how and expertise and parts availability..

I PARTICULARLY HAVE IN MIND THE EQUIPMENT CLEVE NEEDS.. There is nothing he cannot make if he has the few more items he needs.. In view of coming nuclear war.. this seems of critical issue.

Dear Jim,

Thankyou for saving me from getting hiltby a tree the day I was out at the bone yard. Also, mu thankfulliness to you for all your healings and miracles. My apology or the delay in writing to thank you for trusting me to go down the river to help out the cause. It was a very experince particularly in becoming aggressive. I truly enjoed working eith arly in becoming aggressive. I truly enjoed working aith Patty and all. I liked most was the immediate confrontationright on the spot and group criticism-there was no hesitation to critize. Althoug, I have gone and accomplished a little I feel it wasn't enough I could have done more. I felt IT could have at least bring home some money from the husters'. twhorsacked to show interest in me because I:m, a church member) But I didn't know how to approach them: I admit that was ignorant on my part. Because of my ignorance I let you and the family down especially during this time we need money bad. I am sorry, hope you will forgive me. The next time, I go I promise to try harder at least bring some money home if not a lot. I feel I let you down terribly after you brought me here and granted my wish. I I stated in the letters I wrote you back in the states-that I wanted to do humantariandwork. I want you to know if anytime you think I have to protemial to do particular work I awill do it.

In the states I splent money on entertainment, clothing books and mainly food. I went to high class stores such as I Magnin, Joseph Magnin, and Macy's. Frequently I took my friends out. The money I used was my parents they supported me. My first pay job was in December 1976. Every check I received was deposit but only tawo checks were cashed. One to buy my dad a cassette recorder and the other one to pay for the clothes I bought to consider the money in the cash any expense on the trip to come here. The rest I turned in.

The bash I regret I didn't accept money offered from my mom when I

any expense on the trip to come here. The rest I turned in. I regret I didn't accept money offered from my mom when I left. Reason_at that time didn't want to dependent on her anymore. I took everything that I bought with my money I didn't want to have anything to do with them amymore. If you want to see my bank book I have it still. My parents are like all parents—they wrote and asked for my phone number and wanted to know when I'm returning to the states with Bob. Plus giving me the bull—shit saying they are getting old and worried not being able to see me.

I want to bring up the subject on procuring again although I was confronted on the floor for mamulating to go to town to procure. This time I'm not manupulating I don't intend to. I want to go talk to some Chinese people for donation when I'm in town for medical appointment only. While I'm in town I want to do something productive to contribute to the cause. I have the confidence I can at least ge \$50. If there's Thinese speaking Chinese down the river I consider it too not just Georgetown. In concluding this letter I just want you to know I'm sorry I let you down. And making a request

to procure I've already know the answer after my failure down ther river. Thankyou for your time.

I talked to Lisa for a long time tonight. I asked her if she was going to stay home tonight since she wasn't feeling well and she said no, she hated to stay home alone as she got to thinking about Debbie, and she got tears in her eyes. Said she's really been thinking about it all the time recently, and it is getting worse. Said she just can't deal with deceivers and liers, and I asked her who she was talking about, and she said Debbie. Then she said that it's effected her ability to trust anybody anymore. Said she hardly believed a word anyone said to her. Said she knew that was bad and the would overcome it, but right now she couldn't help it. I thought she was really talking about you, so I asked her point out if she had doubts about what she was told that even I had told her fibs, and that anything about Debbie. She said is suppose to be ok as long as it's for the cause." She said the only thing she could deal with about Debbie is that she took \$15,000, but then she wondered if we had counted right or if there was some mistake. I looked her right in the eyes and spoke firmly but lovingly. I said that you nor no one had told her anything about Debbie that wasn't true. I wished it wasn't true, I said about the money, that that money had been in my closet, that there were stacks of American dollars in here, stacks and stacks filling up a whole box, and she took every last dollar and only left the American I swore it all was true on your life. She said well that was just unforgiveable for her to have done that. She said she wondered still if she was pregnant. I said she had gained weight in town but I didn't think she was pregnant.

Then she brought up Annalisa. Said when she first got upset over Debbie (like she is now) was when she was called in the radio room about calling Annalisa. Said she was upset because she had never gotten any letter from Annalisa saying she was coming, and that hat was the first she had heard of it. Said in fact she had only gotten a couple of letters from her since she's been here. I said that Annalisa had written Debbie in town (several letters) and that I thought Debbie had passed them on to her and had communicated to Lisa about Annaliza, # though I said I did find the letters (a couple of them) in G-town after Debbie left.) I said I wondered why Debbie had 熱#### not told Lisa. Lisa said she was upset because the thought of seeing or talking to Annalisa was disturbing because she didn't know what to say to her. She was afraid 星星/岩製美/岩岩基岩/岩/岩岩岩/岩岩岩岩 Annalisa had said something to her in a letter which she hadn't gotten and she wouldn't know the reference if Annalisa asked her about it. Said she couldn't see Annalisa in Matthews Ridge as what could she tell her. If she said the roads were bad, too bad to go to Jonestown, then Annalisa would say "Then how did you get here?" Said she didn't see why Appalia couldn't come in here, as she couldn't help but like it here. I said

and that Ray was hostile and would be looking for enything wrong. I said to us it's beautiful, but to people who are looking for something, this place would be "muddy" and crowded" (housing crowded) considering how bearquoise they are. List said that was true, that we couldn't have Ray come in here, that she definitely wouldn't want him here. She said she just couldn't believe that Annalisa would be work as for anyone like the CIA. I said for her not to forget that since Debbie as telling her all these lies - police state, etc. _ that Annalisa would think she was doing Lisa a favor to go to Stoen or whoever and try her best to get Lisa out of here. (She didn't come back on that one.)

Then she said she's just been feeling so much here sure - you have to learn the news, you have to go to the meeting, and that meeting, etc. I said that you had told her reveral times for her not to feel pressured to go to them all. She said you had never told her rourself that, that Derie had given her messages from you, but now she doesn't know if anything Debbie told her was true of if she was just saying that. I said well you had told me to tell he she sidn't have to go or stay at all the meetings, and you had sent her home from meetings yourself. She said that was true. Said she doesn't feel right not going, but it would help for her not to always feel she had to stay to the end. Said she had been working harder lately and not getting as much rest as she did, and she's been very very tired. She's trying to get some medical lists done.

Said she got diahrea last night and has been feeling especially bad, so things are getting to her more. Said she ate some sour cereal yesterday at mmon time. Doesn't know if that cause her to have diahrea or not. But she as upset with the incident. She got the cereal and it asted sour and she 'mold Eva, and Eva replied, "Dad # said to eat the sour food, that it .cn't hurt you." So Lisa ate it, but she was pissed at Eva. and wanted to know if you really said that - she couldn't believe you would . 2 ~ said "that." [I had takken Monique's cereal back to the kitchen (the same batch) and ... ary Tschmetter it was "spoiled" as it # smelled horrible, and she said that you had maid to serve the food anyway, even if it was starting to go bad, as it wouldn't hurt people. I told Lisa this, only because she said she was going to go confront Eva about using your name when she didn't think you said it. I said I thought they had both misinterrupted you, that certainly I thought you meant if the is just staring to turn it would be ok, but I was Sure you would have never had anyone eat that cereal - no way. (and I don't believe you would have.) (Paula first old me the cereal was spoiled, as she no leed Monique wouldn't eat # it . pulling Paula tasted it, and told me.)

Dear Dad,

I feel very guilty about my hostilities towards you, but I do have a couple. Pirst, I felt hostile toward you when I found out my sister might die. Even though I know it is her own fault for not following you, I kept questioning you in my mind wondering why you couldn't heal her like everyone else. I also feel hostile toward you when you make a rule that makes something inconvenient for me. This is because I am a selfish bitch and am only thinking of myself instead of the collective. Today I was hostile when I heard about the rule of mothers not showering with male children. I dunt do this often, but when I do it is for my convenience. I am overly possessed with an attachment to my child, and I realize he needs male companionship, but it is very hard for me to let go of him because of my selfishness and hostility to Paul.

OVER----

Yes, I have occasionally had sexual feelings towards you. But I don't ponder on it or think about it much. I feel guilty about even thinking it because you are so much more than a sexual image, and I feel even to just think it is lowering ones image of you and the principal you are. As far as my hostilities go. I feel towards you as a child feels toward his parent when he is told to do something that he doesn't want to. But after I think about it, I always realize it is for our own good and feel bad about even feeling hostile at all.

Thank you Dad,

Hurt in the except. The foot my show came off of a couldn't stand on They took me back to exray & it showed no broken bones, The hosp, doctor said I could have a broken pelvic. which I did not It was good I

was left till the last. you did a lot for me in that time. and I did not think of myself I was worried. about everyone else, and I asked Joyce Barks who all was in the hosp, I knew little fim was. I asked about him and they brought his east by with him sitting up. They didn't stop they just went on I asked who else and Joyce named Lew and at the accident & asked where Lew was and I was told he was at Lorrettas. So I put in my mind he was gone. I couldn't believe anything else. That when & got off of my east, I couldn't believe it was the one I was on. I said who was on That. Marcie said you were. Hext day I saw Dr Marsh all he did was make a remark about My blue house coat or robed had on, and souch around my shoulder and walked in + talked to his secretary, and a couple days later I went by Edith Cardell took me . I was dressed my mind morde up he would never see me again, I told Colith when I got out of the Ear he would dismiss me, and when he saw I was

dressed in street clother, he said you look good. I think I will dismiss you. I said that fine, as I was leaving he said of their if I dismiss you, I will have to say you are alright or something to that efect. I never went back. I was at least 65 fre. old. when this happened 10 yrs. ago,

Things like this has made me strong. I could tell more like this or similar as a child up. Pays not to pampir a child to much. They end up being the strongest. I am one of 5 in my family of children, my family so called very much depended upon me. Because & looked the strongest in the family I was a churky robust lettle girl. Even though I was told the doctor said when I was born, that I was not a healthy baby.

at 1029 Geary now, and then. I hope that I

Dear Father,

As I was eating my dinner this evening Cassandra told me there was a phone call from Melvin Johnson who wished to talk to me about a pink slip of his that we were holding. He told Cassandra that he was going to sell the car and needed the pink slip. I got the number from her and went upstairs to check thru the pink slips and then to contact Mr. Johnson,

I found that there were two pink slips one for a 1976 Chevrolet Station Wagon and the other for a 1957 Ford Pick Up truck. The truck had as the registered owner Melvin Johnson and as the legal owner Peoples Temple. I then contacted Jack Beam for information as to Mr. Johnsons status with the church. He (Jack Beam) said to contact Melvin and see what he had to say.

I then phoned Mr. Johnson and asked him if I could be of help. He said that he had been given a Ford Pick up truck after his own truck had broken down inRedwood Valley and that he had thought that the truck was his but since Peoples Temple was listed as the legal owner how could be become the legal owner ? I told him I would look into the matter and call him back.

Jack and I re-examined the pink slips. (We did this because I had asked Melvin Johnson to give me a description of the truck and he had been rather reluctant to describe it.) Since the truck is so old and is undoubtedly thru time and tide wery beaten up anyhow we thought it would be the best P.R. if we gave it to him. We are having Jean Brown sign the pink slip as Power of Attorney. We are also asking Melvin Johnson to sign a note saying that he has received both pink slips from Peoples Temple.

I then called Mr. Johnson on the phone and told him we would have the pink slips available to him anytime tomorrow. morning if he would be good enough' to call at our front desk. He seemed quite relieved and said he would be over for them tomorrow .

Thankyou Father

Report to Jim Jones
From Bette McCann San Francisco. Temple

Dear Bishop:

How are you and all of our wonderful Comrades in the beautiful city of Jonestown? We have new pictures to look at now and how we do enjoy them. Thankyou so very much. The pictures show how hard you are all working and the wonderful progress you have made. Truly a miracle city. We all enjoy the letters we get from the P.L. and we share them with one another. It's a great thrill to get a letter from somebody in Jonestown, it makes one feel so much closer to what is happening down there.

We enjoy hearing you on the radio and we love the tapes you have sent to us. My favorite is the one of you fighting with my little "Wild Italiano" He has really come out of his shell. I'm so glad for him, and for all of our babies.

The purpose of this letter Bishop is to give a report to you of what is happening in the accounting office lately.

Truth Enterprises has slowed down quite a bit but it is still active. They have received small checks from time to time that has paid for a good many of their bills. We had a setback with back taxes but that is now cleared up and everything is fine with that account.

Valley Enterprises has been spending a great deal of money on items for the P.L. The last two months since the Finance Committee became active has settled this account down and it is more under control. The money is being evaluated, which I have felt all along was most important. The Finance Committee is doing a fine job. I have sent you the last two months payables for both Truth and Valley so that you may see what is happening. I will be reporting to you regularly in the future.

Robin-Tschetter and I collaborate on the Money Order Payables. We have tried to cut out all unnecessary expenditures. June Crym and Jean Brown do a great deal of work on this account also. They make the decisions of what to pay and what not to pay, And on this account that is one heck of a job. We have had all kinds of experiences and one day we may write a book. People going off to the P.L. and neglecting to tell us about their bills has been the worst problem, but we think we've got it licked now. Phyllis Houston asks everybody going over about their bill problems and this helps a great deal. We have fewer communes and this saves money too. We are all concentrating on saving as much as we possibly can.

We are also cutting down on the car insurance and selling as many cars as possible. Irv Perkins has charge of the selling. As the insurance runs out if they are in General Use we sell them. So many of the cars we have are old and take too many repairs and the insurance costs more than the car is worth. Also so many are now overseas that we don't need

he-1-m-70

a huge fleet of cars sitting around in the back yard. Even so the back yard is still quite full. We are looking forward to a much neater and emptier back yard as soon as we possibly can. On a few of the cars we have had legal problems that have had to go thru the Beaurocracy of the Department of Motor Vehicles. Oy, what a place that is, frustrating but quite educational.

Will report to you next month. Thankyou for the opportunity to serve.

Thankfully yours,

Bette McCon

I feel my work productivity is okay but not what it should be. I could work a lot harder and waste less time.

My weight is way out of controll and I have ask some to put me on the special diet because if I am going to entertain others I should be an example of what you stand her.

I should be more tollerent of others misquings because after all I'm not perfect muself and my tollurence to others would be a better example of leadership I do feel I'm dissiplied enough to go to Heorgetown and do exactly what you ask me to do.

To Dad,

I am writing you concerning my thievery since I have been here. First, I stole a blouse. It came back in my laundry bag and I knew it didn't belong there and I took it because I liked it. Then there was a red blanket I get from the laundry house during the first crisis. again I mought I likedit. From the food lines, getting two plates and eating them born because it had a good dessert or main dish. a cookie from a Genior, at the time it was because I wanted it. I took a pair of parties from the ware house because I left apair of mine in shower and I just had to replace them! A red blouse I took That came to our house, I took it because I lost a red blouse. What all this boils down to 15 elitism. My thoughts were on What I wanted Monopolizing everything I can, making sure Bea gets whatever she wants no matter what the cost to you or the person who comes out Short I've always had my way and still tries to have it. I also feel it could be an indirect act of hostility towards you here, you ave a exe constant reminder and example of what I should be and should be doing It's hard to face that example when you are an elitess who hates work, who hates to face anything, who takes advantage which is what I have done I'm sorry Dad to throw this type of failure in your Pace for you have taught me better. I will rectify this.

> Thank You, Dad, Bea Mc Cann EE-1-M-76

because 1800 people taking their lives They will the on us no matter what we do anyway. If we faught it would look stupid if they changed the story that we were facists fighting black guyanese socialists because I believe the soldiers would be brainwached against Eis-they wouldn't know who they were really fighting from my experience in georgetown the really fighting guyanese don't understand who we are anyway. I don't know what weapons we have but I think we don't have much of a chance of survival. We would be slaughtered And their although I didn't think of it until someone mentioned it last night - they could .. probably Add to their story that A lot of pur people were cowards: And ran from their .- May be Mike And Albert have a loyalty to this land since they have been here so long, but I think a Americans grow up with no loyalty to anything - land or principle. Many in the group have developed some loyalty-even new people since we have been here-maybe they would fight to be true to youwhich is why I would fight - others to fight for the land. But what A TARCE it would be to be slaughtered and captured And risk our children's lives to be taken to facists. So I Am saying here I don't know how many would stand up to fight. So I Am busically again eynical about how TAR you can trust our people. The main reason for swade to assure safety to the children

I feel the approach of that professional in the day of the Jackal Showed Best How to kill our enemies. First I would find out what their current weakness: ES, Likes and Dislikes are. For example tim stone has a history of Being a homosexually active transvestite. I would venture to say that with the pressure he's under right how, he will find time for a habit like this. He would not recognize me if I was disguised, since he's such a rasciest. I could lure or follow him to an area where pickups take place, cut his throat and police would think it was just another homosexual murder. It happens all the time. I'm willing to bet that each and every one of our enemies have some hangup or some thing they do that places them in M position to be cotton.

- I AM SEXUALLY ATTRACTED TO BOTH MEN AND WOMEN, I FIND THAT THE MALES
 I'M HORMALLY ATTRACTED TO ARE MUSCULAR, HUSKY TYPES LIKE ANTHONY SIMON, JOHN
 HARRIS, JACK BEAM ETC. I'M AWARE OF A HOSTILITY TO WOMEN BECAUSE I FEEL THAT
 THEY SEEK TO CUTROL OR RUIN A MALE IN A RELATIONSHIP. HOWEVER, AT THE SAME
 TIME, I REALIZE THEY ARE BETTER ORGANIZERS AND PLOTERS. PASSIVE WOMEN
 TURN ME OFF, PROBABLY BECAUSE I'M SO PASSIVE AND CAN SEE SO MANY OF MY NEGATIVES IN SUCH A BITUATION.
 - 5) IF FATHER WERE KILLED, I WOULD KEEP TRYING TO BUILD HIS DREAM, SINCE
 ITS NOW BECOME MINE ALSO. WHATEVER LEADER THAT WOULD POLLOW WOULD HAVE TO
 BE MORE FORCEFULL THAN YOU HAVE HAD TO BE IN ORDER TO KEEP THE MOVEMENT INTACT
 IF THATS AT ALL POSSIBLE. THE MOVEMENT STILL DOSEN'T RUN WITHOUT YOU PRESENT
 SO THERE IS A STRONG LIKELYHOOD OF IT FALLING, SO I WOULD DIE.
- 4) ON DEATH, I'VE OFTEN THOUGHT DURING OUR LONG DISCUSSIONS ABOUT DEATH DURING WHITE NIGHTS, THAT IT'S A LOT LIKE SEX IN THAT THE ANTICIPATION IS WORSE THAN THE ACT ITSELF. I CONSTANTLY ASK MYSELF, WHAT WOULD I DO IF, IF A DAY TO DAY SITUATION TURNED INTO A LIFE AND DEATH SITUATION, AND WHAT WOULD BE THE BEST WAY TO HANDLE THEM. I DON'T THINK OF IT IN TERMS OF FEAR LIKE I USTA, JUST SOMETHING THAT'S GOING TO HAPPEN.
- 5) THINGS I MISS IN THE STATES: BASE OF TRANSPORTATION AND COMMUNICATION.
 THINGS THAT I' WE ALWAYS TAKEN FOR GRANTED SUCH AS GOING OUT AND GETTING
 A PEN OR TOOL THATS NEEDED.
- 6) TRAITOROUS PARENT, COMPANION, OR CHILD: YES I BELIEVE I WOULD. I'VE CONSTANTLY HAD TO DEAL WITH THAT POSSIBILITY IN REFERENCE TO MY PARENTS,

PARTICULARLY MY BLOOD DAD.

- PARENTS HOME, I WOULD ALWAYS WONDER IF SOMEBODY WAS GOING TO COME OVER THE FE

 PENSE, CUT THE DOGS THROAT AND DO US ALL IN. EVERYTIME ANY OF MY RELATIVES

 WOULD GO OUT THE DOOR, IWOULD WONDER IF DEATH OR WORSE WAITED FOR THEM ON THE

 STREETS. I USTA THINK THAT WALKING THE STREETS WAS LIKE AN ANIMAL WALKING

 THRU A JUNGLE KNOWING THAT AT ANYTIME, ANYTHING COULD HAPPEN. I HATED SUCH

 AN EXISTENCE, AND DRANK TO ESCAPE IT. WHAT I'M SAYING DAD, IS THAT IN THE ST

 STATES WE WERE ALWAYS UNDER BATTLE TENSION, ONLY THE LINES WEREN'T ALWAYS

 SO CLEARLY DEPINED. AND EVEN BETTER, I DON'T CRAVE A DRINK.
 - 8) I'VE HEARD IN THE NEWS THAT THERE IS NO SECURITY IN CAPITALISM. NO AMT. OF RICHES GIVES THE GAURUNTEES OF SECURITY AS UNDER SOCIALISM. POWER CAN HAVE YOU ON TOP TODAY, AND TOMORROW HAVE YOU IN FRONT OF A FIRING SQUAD. THAT THE U.S. IS SO SICK TILL ALL OF THEIR CREATIVITY IS DEVOTED TO NOT JUST WINNING WAR, BUT TO THE UTTER DESTRUCTION OF ALL LIFE TO THE SAVING OF ALL CAPITAL.
 - 9) SOCIALISM IS EQUALITY OF OPPORTUNITY, THE EQUAL SHARING OF OUR LAND AND RESOURCES. THE ONLY REASONABLE ANSWER TO A WORLD WHERE SO MANY STARVE PURELY BECAUSE WE'RE STILL PLAYING ANIMAL KINGDOM. THAT IS, THOSE WHO ARE STRONGER MORE INTELLIGENT, ETC PURELY BECAUSE OF A HAPPINSTANCE OF NATURE, RULE, CONTROLLING THE LAND AND NATURAL RESOURSES.
