I was having a severe pains in my
breast & under my arms. I was too embarrassed
to tell anyone about this. Although [redacted] one night
Pastor Jones sent his nurse to me and told me
exactly where my pain was and of my secrecy
about my pain. He gave me a cloth and told me
to rub it over my breast. The pain was gone
immediately. I have no more problems in my breast
or under my arms.

examined my foot. The ligament
specialist and Dr. Asher had me sign more
papers because they were going to
have to do more extensive surgery
than planned because of a slipping
ligament further up my foot.

I was really concerned because of
the seriousness. I had been told before
I went in by Pastor Jones that everything
would be all right. When I came
out of surgery all the Doctors came to
me and told me how surprised
they were because when they did go

That in 1969 in October Jim Jones called me out and told me of my mom, Leontine Forney Thomas and my two dogs, Bailey and Tammy. He then said, "Alfred and Alfreda. You have twins?" I said, "Yes." He told me that my sister had died of cancer of the uterus. He told me to go to the bathroom and pass a cancerous growth from my uterus. I went to the bathroom and sat down. One of the nurses put some paper towels from the rack in the bathroom under my napkin. I felt this thing moving down from my uterus which felt like I was having a bowel movement. This thing was very black with a bloody mass at the end of it. It smelled terrible. I had just left the hospital a few weeks before. Dr. Calderwood, then the Chief of Staff at Kaiser Hospital in San Francisco, told me when I returned that he never expected to see me again.

Another time Jim Jones called my brother's name, although he wasn't there. Pastor Jones said to tell my brother to be in the next meeting. My brother did not go. Shortly after this my brother was attacked and caused him to sprain his ankle. On his way home he had groceries in his arms. He fell in Union Square Park. People came and took his groceries and left him there.

I felt very ill and was vomiting and bleeding from my throat, but recovered within minutes.

I was also struck in the back by a ^{mooring} mooring line in Georgetown in the presence of dozens of witnesses, one of whom Compton ConSalvo, who is not a member of People's Temple, said he couldn't understand why I wasn't hurt. In April of 1974 Pastor Jim Jones called me aside to tell me that he was concerned that I would have a mishap involving a lawn mower during the coming week.

I did indeed have need to use a power mower that week and was ever so careful while the motor was running. However, my caution ended when I stopped the engine while syphoning gas to refill the tank & got about a cup of gasoline up my nose and in my eyes. I received chemical burns which blinded me. I had a message sent to Pastor Jones. His reply was, "Do not worry, it will be ^{all right} ~~wrong~~" Almost immediately the intense pain stopped, vision returned and within a few hours all traces of the burns were gone.

The x-ray showed that the end of the bone was also cut off. The end of my left thumb went down a suction dust tube. The end of my thumb was seen to be missing by two witnesses and described as a piece of hamburger. A loose wrapping was put around my thumb and when I arrived at the hospital and the nurse took off the bandage, the end of my thumb was back on by a piece of skin, and the Doctor only had to put on two stitches. It grew back and is the same size as the other thumb and normal.

meeting of Pastor Jim Jones. It
was the first meeting I had ever

names, Georgiana & Michelle. They
were only 4 & 5, so I stood up.

He told me that they had a
blue bicycle that was going to be
painted pink by an uncle named
Don. It happened exactly that
way.

He told me to rub the bicycle
with a cloth that he had given
to me. That it would prevent my
children from a fatal accident.

Soon after my children were
riding the bicycle & lost control.
They went into the street, & fell.
Thanks to the protection from
Pastor Jones, they were not even
hurt from the fall. I thank him

Dear Mom, Guy, etc.

I had suffered severe foot and leg cramps 1964, 65-
and in spring of 66 Pastor Jim Jones healed me - I
have not been bothered with cramps since -

In the fall of 76 - I spit up a goth that was literally
~~cutting~~ cutting off my breath - It was spreading rapidly in my
throat - Pastor Jim Jones spoke the word and it came out -
The pain stopped immediately -

In 1966 we had been in Calif. about six months - Jim Jones
called Cleone out and told him that our son oldest son Robert and
his wife had been in an accident one that would have
taken both life's but Pastor Jim said he saved their life
because at the time he said that Cleone or I couldn't have
taken his ~~life~~ death at that time - He said we would
receive a phone call verifying the accident - next day we
received a call from our daughter Joyce telling us about the
accident - saying Robert + wife had a very narrow escape
from death - Our son ~~tell~~ telling Joyce about the narrow
escape said it was like slow motion, a car had pulled
out in front of him he was traveling 75 miles per hour - He
said as far as he was concerned there was no escape from
death said he could see him and his wife laying out dead -
Said he never knew what saved them - I had the
privilege of ~~tell~~ telling them about Pastor Jim Jones & how
he had saved their life.

In the Summer of 1969 Jim Jones told me of a specific thought that I had experienced. He asked, "What does this MEAN to you, life is nothing more than a desert wasteland?" I tried to recall what relevance this had to me and it hit me with a shock that the exact words had gone through my mind a week earlier when I had considered suicide. I didn't answer his question but he proceeded to tell me that there were people who cared for me, and assured me of the value of my life. Being a born cynic, sceptic and a critic I have gone over the situation with every consideration and have found no loophole. This was a thought that I expressed to no one. I believe that Jim Jones has supernatural abilities that I cannot logically explain but I cannot disclaim with that same logic.

I Michelle Touchette was told by Pastor Jones on December 29, 1974 that I had ~~leucemia~~
~~blood cancer~~. That day I went to the St. Joseph's Mercy Hospital in Guyana SA & my ^{white} blood count was ~~elevated~~. When I came back from the hospital he said everything would be alright. I then went to Pomo Clinic in Mendocino County, Calif., NA, ~~for~~ for a complete & he said I was in perfect health. All test results came back negative and the once grossly elevated white blood count returned to normal. My physical fatigue and debilitated condition resolved and I have no longer any medical disability.

Back in 1975 I, Ida Albury was attending a service, He called my name, at this time I was having acute pain in the neck and shoulder area especially around C-7 & 8. When he called ^{my} name he told me he was saving one of a stroke. He gave me a cloth to put on my neck and ^{the} pain immediately went away. I am sad as ~~remembering~~ pain since then.

Liz Foreman

Liz told me numerous times about how she used to be so sick, she couldn't hold a job down, relied on her relatives for money to live on, and slept 12-16 hours a day just to escape. She often said that she felt healthy physically and mentally since coming to P.T. With her personality deviations and idiosyncrasies, only a tolerant group would have been able to work with her. When she first came, her life was ~~centered toward~~ palm reading and star gazing. She couldn't deal with reality, just about went into hysterics over the thought of dinner oggi, or anything not immaculate. Her sexual hangups ~~were~~ carried over throughout her personality and her hypochondria

In December of 1976 Jim Jones warned me about being with a close friend, Beatrice Bell. He said that for the time being he felt that I should not be around her. Two days later I went to meet Beatrice Bell and was arrested by the San Francisco police department. Charges were filed against me for armed robbery. I had nothing to do with the armed Robbery, but I was framed to the point that there was clearly no way out. Pastor Jim Jones told me that he was sure that I was not guilty. I am sure that if I would have listened to what Jim Jones said about not being around Beatrice Bell for a while, I would not have been at the place I was arrested. Jim Jones said that even though there were 3 or 4 eyewitnesses saying that I was guilty, he knew that I was innocent. He told me not to worry, that I would not go to jail. Jim Jones then got me a very good lawyer and the charges ended up being dropped. If not for Jim Jones I know that I would have spent at least 5 years in prison.

My name is Marciel Simon. I live in Jonestown Guyana. I've lived here four months now and plan to stay. I have a two year old daughter who also loves it here. She's the picture of health. I think it's the sun that makes everybody so healthy happy and full of energy. I live in a nice little cottage on the main road and I can look out my window and see the trees in the jungle where the trees are so tall you think you'll never see the top. You can go into the jungle and see the beautiful waterfalls and wild animals. When I was a child I always dreamed I'd have my own little tree house and this is the place I dreamed about. There is no violence here, no rapes, no racism. I just wish everybody could be ^{at least} as happy as I

I have wanted to come to Jonestown

Since I first heard about it. Little did I know at that time that I would have one of my lungs removed because of cancer. Consequently I retired and after recuperating came to Jonestown.

This is a beautiful place. Somewhat like a large estate with fields planted all around. The climate is ideal for my condition. Warm in the day and cool at night, but never cold. My strength has come back here and I am working part time with our medical staff doing medical protocols on people that want to see the Doctor. We have a clinic for our own people and also for people living in the North West district around us. We practice preventative medicine and consequently have little sickness among our own people in spite of the fact that we have many elderly people in our group. This is a great place.

My name is Bill Olin and we're been living in Jonestown for nearly 11 months and I love it here. Jonestown to me is a land of opportunity because now I have the chance to learn how to pilot a boat. I enjoy watching our children play on the playground and our young people learn agriculture. In my spare time I like to go to the library and read or play baseball. A few weeks ago my parents tried to force me to go back to the States, they completely disregarded what I wanted to do, I prefer to stay here with my friends and my wife but they didn't care. My dad who never bothered with me other than to beat me has suddenly become anxious over my welfare. Now living in Jonestown I'm very happy, my wife is happy and I'm not interested in what they got to say.

Thank you
Bill Olin

FF-3-415

My name is Joyce Touchette I was one of the fortunate ones that got to come over to it when it was just getting started. I have been here about 4 years now. I saw Jonestown when it was nothing but jungle and now it is a town with about 1,000 people. I have never been sorry that I chose this way of life. The beauty here is breathtaking. Since I've been here I have learned how to cook on open fires. We bake all our own breads, pastries, and crackers etc. All this is done in a wooden oven. We are growing Coffee and Coca. We hope to become self sufficient.

I don't know why my daughter is telling lies, or why she can't live her life and just leave us alone. She chose her life and I am not interfering. Why does she keep battering me?

Jonestown is the most beautiful place I've ever seen. I'm sorry she got mixed up in the wrong crowd, if she hadn't then maybe she could see the beauty here. As for me and the rest of my family we have found a new home

Things I remember about Birdie Marable

Jane Brown

Janey Brown--- she was a diabetic patient at Birdie's. Birdie used to do the manuevering of the patients to get their money, and she cut Janey's knowing that she was diabetic and couldn't afford to have her skin cut. The cut was infected, and then turned to gangrene ~~where~~. Birdie did anything about it. Janey was first taken to Hillside Hospital, ~~where~~ I remember the nursing staff saying the infection was due to unclean linens and lack of proper care. She was then moved to ~~Woodstock~~ somewhere in Pennsylvania, where she died.

Victoria--- she is Velma Darnell's great aunt. Velma has something to say about the poor care that Birdie gave Victoria, who was crippled. As I recall, Velma said that the place wasn't kept clean and that Birdie didn't try to meet Victoria's diet for her condition--- (Victoria was a patient of Birdie's for some time.)

Also, someone else in the house was diabetic, but Birdie still gave the person the ~~doctor's~~ same diet as others, against the ~~dr.~~'s orders. I've forgotten which patient that applied to.

Birdie also tried to run down one of the high school students-- I think it might have been Pam Bradshaw, but I'm not sure.

AFFADAVIT

I was attending Pastor Jones' service, in January of 1974. I was packed ready to move to Van Couver, BC, & no one knew this but me. Pastor Jones called my name twice, my first cousin Christine Bates said he's talking to you, I said "no he's not, he don't know my name" Christine said "yes he does" Then he repeated my name again, I jumped up in amazement & said, "Yes Sir!" Pastor Jones told me I was all packed & ready to go to Van Couver. He said; "you're not going to Van Couver, you've been having a lot of trouble you have a son by the name of David that you adopted at the age of 6 months old. You've been having a lot of trouble, things you've gone through with you don't have to go through no more." I was completely astonished, no one could have possibly known I was going to move, or of any problems, not even Christine. I'm glad to be a member of Jim Jones' Temple.

In May of 1977, I was walking down Sutter Street to Divisadero in S.F. All of a sudden I got extremely hot & weak, I felt myself falling to the ground, I blacked out. When I came back, two men were holding me up, I immediately thought about Pastor Jones, my strength came back & I felt alot cooler. The two men told me I should go to the hospital & get a check up. But of course, after I called on Pastor Jones' name I was fine & refused to go to the hospital.

ANNIE J. ROZYNKO

I (Annie J. Rozynko) duly sworn, declare:

In 1975, Mrs Virginia Taylor, was going blind because she had cataracts in both eyes. Pastor Jones told her to go ahead and have surgery to correct her failing vision. The surgery was not as effective as it should have been and her recovery was further complicated by a clot in her eye.

Her sight was so bad that spring and summer she had to be assisted where ever she went. Despite was terribly anxious and afraid. She is 87 and very independent, and hated the thought of becoming helpless and totally dependent on someone else.

Pastor Jones knew her for. He spoke very warmly of her and the many things she had done since she joined the church. He spoke of her during services, one evening, and said "I will not let her go blind!" Later she underwent further surgery on the other eye.

When next I saw her, she called me by name from across the room. She laughed when she saw my bewilderment. "Oh yes, I can see perfectly now." She has had excellent vision since

I ~~had~~ felt so much better that, I was really overjoyed. I also couldn't see

out of my eyes that well. I had poor vision. my vision was becoming worst. Until Pastor Jones told me ~~I was also healed from being blind of this problem.~~

Most of all the doctors told me I would never walk again. I would be an invalid for the rest of my life, because ~~a~~ half of my spine had detached. But Thanks to Pastor Jones I am able to walk around. I feel 100% better. I can not thank him enough for what he has done for me. It is so much to tell. I will always be grateful to Pastor Jones.

Before I came to Peoples Temple I was suffering from chest pains. It felt like my chest was caving in on me. I felt as if I was dying. I had heard of this Church through my companion, I joined and started coming regularly. I was called out in the service and I was healed of lung cancer. I had started feeling much better and notice that I wasn't having chest pains anymore.

Thanks to Pastor Jones, I have been saved from many accidents, and my baby's life was also spared. We were in Fresno and my son was sitting on the sofa. He fell down and hit his head so hard the it sounded through the entire building. Pastor Jones look up to him and said there will be no dying here and he will be alright. I went up stairs to see him and he was playing like nothing was wrong with him. He didn't even have any bumps on his head.

I am so grateful for what he has done for me.
There are so many miracles that have happen
in my life.

Is the *AT* headed over-water? *not*?

MARGARET JAMES duly sworn, declare:

I was ill, had no energy, I didn't know what was wrong with me.

Pastor Jim Jones sent two of his secretaries to my home with a personal message. They told me of his love and concern for me. They, the secretaries, told me what Pastor Jim told me to do.

This was May 8, 1977. Immediately after I had done what I was told to do I felt my strength return right away.

One day as school let out I was looking
through my pockets I found a ~~photograph~~ ^{special}
picture of Pastor Jones that was perfectly new
without any imperfections. I ~~was~~ ^{had} ~~standing~~ put it
back in my pocket on my left side and proceeded to
walk to the bus stop. As the traffic light turned
green and I walked across the street I saw a white
van coming towards me at great speed. I
froze right in front of it and it stopped with a
jerk as if it ~~was~~ ^{had} stopped by some invisible
force. What was so strange was that there was no
screeching from his brakes. When I got to the curb
I reached into my pocket for my wallet and ~~sight~~ ^{just} felt

before it was a perfect picture but now an area in
the middle of it had faded away as has happened

Then two days after that warning in the middle of the night, when everyone in the house was asleep, my sister, Cindy Lynn, and I heard Jim Jones' voice and woke up gasping for our breath. Our house was a two story house, in Redwood Valley, California U.S.A, and it was completely filled with smoke. My sister and I were able to wake up everyone in our house. And my dad, Harold, was able to find the opening in the pipe, and fix it. We knew that our lives were spared from suffocation, Thanks to Jim Jones!

In 1972 I met Pastor Jones and I had had a severe pain in the lower part of my back on the right side where two other doctors had told me I had too kidney but pastor Jones called me out and I passed a cancer through the rectum. I saw this cancer with my eyes. I havn't had pain since. I had a heart attack also in 1971 in June, I could not do any thing for myself just had to have complete bed rest for about six or eight weeks, then when I went back to church pastor Jones saved me from having a fatal heart attack, he has saved me from having several heart attacks. Pastor Jones has saved me from having a stroke that would have left me a vegetable because I was loosing all use of my self.

In 1976 I had spinal meningitis and didn't know when I got to the hospital, who had taken me there or how long I had been there but the nurses and doctors told me that I was lucky to be alive. When I got to the hospital the nurses said that I had a fever of 103° and it was still rising, but they would not tell me how high my fever did rise. The doctors or nurses didn't see how I was able to think straight, because they said that I had blood on my brain, but Pastor Jones although he was in Los Angeles and I was in San Francisco he did from the pulpit there that I would be alright and I was. After the meningitis attack I lost my hearing and the doctor said that I would never hear no, all that he could do was give me a hearing aid, but after Pastor Jones put his hands over my ears two or three times I can hear normal again.

Margrette Jeffery

In April of 1976 I had another severe heart that kept me in intensive care for 72 hrs. During that time my heart felt as though it would jump out of my chest or turn over. The doctor when he saw the trouble he just put a monitor on me and it was a show to every one that entered the intensive care room doctors, nurses, and visitors because the monitor was going crazy and most people thought I was not going to live, but Pastor Jones sent one of his own messengers and for the first time I slept for the first time in 3 or 4 days and nights. I was discharged from the hospital the next two days and have been going every where today I feel fine

NOTES TO TELL NELSON:

Affidavits sent to the President of the US with explanations on all the charges and to show him what we are up against. They talk about orchestrating a tax thing against us. Even to embarrass him. Any ideas he has on that, forestalling that we wouldn't mind at all being disciplined, or reprimanded for things we did, but this is a smear campaign, reminiscent of the McCarthy era or worse.

Get Phillip on the radio and let him ask certain ques, relay it to him, to get it doo him. Don't know how enthusiastic they are, can't know that they will but get on the radio and interview the press, or pick out some that we think would give a reasonable interview. Some would feel slighted so they would just knock us out of vindictiveness if we did that. For instance I would say when I handled the CA's at no time did I --anyone I was attempting to heal where I felt succeeded I would always send them to a doctor, always. Anyone I dealt with with terminal CA, I would tell them to be absolutely sure they followed exactly their doctor's specifications. We have had reports of all kinds of wonderful remissions & you can take a voice print and certainly test that I know I can heal. I know I have a certain paranormal aspect, but that was always far, far secondary to anything else. It isn't important. We don't see ourselves as a panacea.

Each of these charges I could handle in a way that would not compromise him. I wouldn't say the end justifies the means. I would think that I would have to talk about a woman in general that the reason I am down here is because of the baby. And how that baby came to be. The woman was suicidal and her husband thought she was going to cause difficulties to the cause on top of it, go out and do treachery. He asked me to do what I could and he that sex would help her and I did. And she had a baby. One of the reports said that she said she never was a believer. Obviously this is odd. Say everything in a general way without hitting her publicly, first. I could approach them that way. Allude to it, but say that I will be going public the next time.

If JJ surfaced in an interview it might paylay, show humility, say I am not even sure of the overall workability of egalitarian philosophies, but I know it is not right for 2 out of 3 babies to go to bed hungry and the reason that we got many of our people out was that we knew that they would go back to their former patterns of violence & suggested it. We wanted them to be a part of a solution where they would make a good image for the United States as well as help in a country that is trying to build a non-aligned society. That would be one reason. We will have new people down here. When the road is prepared and there is more adequate guest housing. Our people are very happy and very well housed and very well taken care of. We have our own ware house where they get food, the best of clothes that they need, the best medical care that they can have on earth. What other place can the doctor see everyone each week. The best of educational material, not to mention being out with nature, good clean air, mineral water, and an atmosphere free from racism which is so important to people. That is roughly a little bit of the idea.

A summation of the worst parts of the affidavits needs to be ready for the interview so he can go down the list. We didn't want to get into personalities to hurt them, and we didn't want to even explain one of the reasons why I am here for the time being, until this thing is worked out. I will not allow a child to go to a person who beats their head against a wall, and threatened to kill herself and the child, threatened to kill her husband, all the other things she did. Rather than hurt, or embarrass her or other members of her family. Her family are all racist bigots and I don't want to expose my child to that.

What to
say on
Grace
publicly

Description
of
Jonestown

Again- I wish to communicate with you- but time is limited as to whether it is done effectively or not. So many things to say- and so limited as to creative ways of doing it.

I am sorry for your pain. Sorry I ever give you any- and sorry I can do nothing about helping relieve. I am very sorry that I mentioned anything about that woman I spoke about wanting sterilization. I usually think things out that I tell you a little better- but that was a new thought- and seemed so logical- and I did not think all the way thru the motives etc. and how it might affect you.

I knew it would be painful- but somehow I did not want to do something that was against the scheme of things. And I think too that woman may have wanted to gear something like- "no- things will be different in the future"- or maybe she wanted to hear how much he would have liked her to bear his child- even if she never would. For you know how she loves children- and how she would have felt giving birth to his life. I'm sure some of that "romantic" nonsense was working in her mind too. Anyway- I am sorry that I ever mentioned it- and I will tell that woman to do nothing in haste.

I feel a sense of loss about this life - not so much personal pain- but more of loss. As I think back- I remember times of your pain- inescapable times. Times when my own pain was so minimal. I remember so well when you told me of G- and what the coming event was. How the pain first made me think of leaving- had it been any other person- I would have. But it was so very clear- that your own pain was so much worse than my own. The full extent of your love then was so obvious.

And obvious too is your constant suffering. It is suffocating to deal with- since my own inability to help you is also very obvious. There is tragedy about these lives. and I suppose in the same sense- grandeur of sorts- but the pain obscures the glory.

And duty obscures the pain. So much for that...

I knew these last 2 times- that what was planned on would not take place. Because- it had again moved from becoming an added 'attraction' to a desperate need. I know that when I do not have needs under control- the "gift" of the situation is denied. I truly believe that much of what goes on like that- is influenced by what is going on in the head. A Socialist can not have desperate needs- it is that simple.

I get so repressed in my feelings around the person that I love- that sometimes I think I am too repressed to do the love-making up right. If there were time- and the opportunity- I would like to take my lover and do so many tasty and lustful things- my lover makes me feel very lustful- and aggressive. Now there is a good activity too often denied. But I relish in so many beautiful memories.

The times are busy- and that is good. Pressures keep the mind from getting lost in the frustration of it all. the end seems far, far away. But yet- so very near. I have enough to get thru this life time- and so grateful for a purpose. All else seems superficial.

I wish there were words to tell you all that is in my heart... I wish there was a way to ease your pain. But there is no way to go- but thru... I give my very best to you... In deepest faith- Teko

I came to Guyana in July 1974 for the purpose of assisting in the construction of Jonestown. I like it very much and hope that I will be able to make Jonestown my permanent home.

My name is Charles E. Touchette and my wife is Joyce Touchette, the two of us were appointed by Pastor Jones to co-managed the construction of Jonestown. Pastor Jones also made it possible for my youngest daughter Michelle, oldest son Michael and youngest son Albert to come to Guyana with us and be apart of this beautiful program. All three are still here and extremely happy, their lives are very productive in the jobs they are doing.

I wish my oldest daughter Shirley Jean would have remained in Peoples Temple and been as productive as her sister and brother, but instead of disappearing with \$300⁰⁰ of ours and not telling us where she was taking it or where she was going.

Jonestown is truly the only place that is totally free of social prejudice where people truly care about one another and all people are equal regardless of race or age.

Dear Julia:

sorry it has been so long since I have even written a note. I am not one to write many letters.. but I do think of you often, and miss our occasional talks. It was good to hear your voice the other day on the radio. I didn't feel free to talk as there were a number of people in the room and I didn't want them to think that I take advantage of being in the radio room to receive personal traffic- so I didn't respond much- but I was glad to hear from you.

things seem so busy around here- but yet I really couldn't tell you just what I do here.. now that Lola is in the apt. with me- alot of what I do is listen to her. She does alot of talking. we get along pretty well- I am solicitous of her and she seems to appreciate it. things are ok. in that dept. She doesn't seem to be in a big hurry to get out of here- tho I do believe that she wants to go. She wants to be sure that she has everything that she will need there- and is shopping in shifts- and plans on sending some things over before she goes- so Alice- or rather MJ can keep them for her. She wants to get well stocked up I guess.

which is ok. because I really have my doubts as to what is going to happen when she goes. For one thing, neither bitch vera or wishy-washy Maxine will take up Lola's mantel. They just push things off on her- even after she tries to get them involved and point out how things should be handled etc. they just don't assume the responsibility.

when she goes= the projects will no longer be bringing in the money they do when she is here.. and also the 'message' intake will be greatly cut- because they won't do that. We can write messages and offering requests ahead of time- but I suppose they will run out and that will slow down. Vera and Maxine just don't have it. Maxine could- but she is not sure of herself and goes with the strongest force around her- which is usually negative Vera or negative Frances. I will be worried when Lola goes where Nathan is concerned. So I say- good that she is taking so long to get ready- I hope she takes a long time for that matter. It will probably be sept. by the time she gets around

and Judy has already told Lola that she WON'T stay here after Lola goes and Judy is one who could take over the counselling etc. but she wont'.

I can't tell you just how much the shit stirring was cut back when Alice went over. I really found out a bunch of shit whirled around her alot. I hope she has help (and supervision) on the other end there when she unpacks- because I don't trust her to be fair on giving out things. She really fucked up Valisha here because she told her not to let others help, etc. etc. and got Valisha to thinking she was in 'charge' of packing- because that is what Alice said. So Valisha won't train anyone else here- and I wonder just what Alice is saying in the letters to Valisha- and what sequests she makes etc. because Valisha can just send them from her directly to Alice. Valisha gives everyone a hard time because of the things Alice told her.
we also think Jimmy is having a thing with Maureen O'dell- but who knows he has had alot of things for a long time. He told Lola that he was going in Sept. and Lola pounced all over him saying that he couldn't go and leave the rest of us here- etc. and who was he to ask that- or rather demand when he was leaving. these people really piss me off...the nerve of telling us when they are leaving...

FF-3-151A

2/

I am doing alright. At times I drag around a bit- and can't seem to go for as long as I used to. But I haven't had a 'spell' as I call it- in a couple of weeks now. The EKG and other tests came out ok.- potassium level kind of low- but still in normal zone- but deb said that all depends on what you have eaten the day or so before it gets tested. but I am not used to feeling so run down that I can't move to get things done. When I do feel that way tho- I lay down for awhile- and it's ok. after a bit. Martha is real understanding about it- but everytime I am down- it is more strain on her. She really has her hands full as it is. And my guilt level won't let me be sick for too long- I just can't stand it. But I do listen to warning signals and rest if I need to.

Please tell Neil not to worry as I really am taking care of myself. I know he won't believe me- but I promised him I would- and I think I am doing pretty well at it.

say hello to my boys for me, and also Dana. I don't get out to pick up anything for them or you anymore. That was one thing I did enjoy doing too- but cant take the chance of going out much. As it is, I have to rely on Jenny to get things for me to send over- supplies etc. and Claire sometimes. but I don't even like to do that.. but I have no choice.

You know, I like Mildred very much, and I Don't really want to have to say much to her about her attitude and tone on the radio. I didn't write a little note last time. But sometimes she is downright nasty- and it is very alienating not just me- but everyone in the radio room. You know, if mild mannered Martha gets put out by it- something needs to be said. I know she is caught in the cross fire and it is a lot of pressure. But if she could just remember what it is like here.. it seems as if anybody could- she would since she was in this position herself. Even Tom says that she is doing herself what she always cussed people out for doing to her. I wouldn't say anything if it didn't come across bad here. She has been somewhat better the last couple of days- so maybe the note I added last time helped. But if not- then I would suggest that other people relieve her on the radio from time to time if she feels under too much pressure.

One thing you should know- and please convey to Neil- I didn't want to put it in my general report- since I know a lot of people read that... but it seems to Lola and to me- and Marthat too- that the morale is low here. That old timers are beginning to wonder about things. The news is an onslaught and the fuckers pick things that members can relate to as having a shred of truth in it- and then they lie from there. So members- like Judy F.- when the mass suicide thing- the fake liquid statement came out from Debbie bitch- Judy said- she thought it was true- and that she never did see the purpose of doing it here- and thus she believed that it was true and then she was more likely to believe the other things in the paper. Patty C. also reads all the negative articles. JR couldn't wait to read the latest on Debbie- her affidavit.. and Phyllis sat and watch Lola read it to judge her reactions. And even Tom- when the fact that Garry couldn't buy the reasons that Debbie left- Tom said he wondered too- he didn't say it in a questioning way- just really wondering what happened? as if what they were told was not the truth- or the 'whole truth'. I tried to explain the 'pretty american woman' syndrome that sometimes our women go thru in Georgetown etc. and that someone was blowing smoke up her ass- but he said- but all these years she stayed- and why would she leave now. I mean- it is hard for people to understand.

FF-3-157B

One thing that I think would help is for someone there to write tidbits on people. Human, touching details of what is going on there. Please not just how good the food is, or pleasant the trade winds are etc... but FACTS about people there and how they have changed.. and grown.. and how happy and satisfied they are. Because I think with Debbie leavin the utopia bubble has burst for a number of old timers. Our 'promised land' was no longer unscathed. so I think someone like Harriet and Mary Lou- someone creative should write a newsy letter for all here to read- and to be read to the congregation.

Sometimes I feel my suggestions go unnoticed or you just don't have time- like the slides. I have asked and asked for slides of specific things- interiors of houses (even if you have to set one up).. leisure slides of seniors etc. but it has been since last Oct.- and still nothing. It would not only help with morale- but it would help with the offering too. We just have nothing to go on here- and that is no lie... I mean nothing. I was told quite some time ago by Mildred that there would be a short tape coming- but still hasn't gotten here. Even if you could send a casset of JJ talking it would help. I am amazed that we even have as many people as we do. which is not a whole lot.

Well, can't think of much more- sorry to go on and on. I can only imagine how bad things may sometimes get there- with all the crises that we send over to you. etc. and all the fuck-ups and fuck-offs. I know that place is wonderful to most- but very hectic and stressful to you few. And you don't need additional worries from us over here.

But I don't usually say anything unless I feel it is pretty important- and that newsletter and a tape from JJ is in my opinion a necessity for morale here.

Give my love to all, and again- I am doing fine here- nothing to worry about. Please let me know your projected needs- and I can see to it that those things get purchased- and maybe even packed for surface shipment. I am trying to stock up on vitamins- but I know you can't be far ahead. I just can't get alot of things out with so few people flying to carry the stuff. And since I can't get out shopping- I have more limited assess. But let me know- cause if I have to leave- I don't know who will be able to see it gets purchased. And let me know if you don't need some of the things I send- or if some are more useful and other- not- just so I will have some way of knowing what to see gets sent.

thanks for everything, much love to you...

lily

I certainly don't feel the necessity to write my feelings from your direction - you have never asked anything from me. You have only given and given. But you know how full my heart gets at times- and then I have to tell you- for my benefit.

I miss you very, very, very much. I think about you so many times a day - your absense is haunting. The separation is like a continual mourning.

I know this is the most painful, difficult time for you- for I know how much you love all the people and want to see them safe together.

I have no illusions about the extent and depth of your suffering. I wish I could do something, anything to ease that burden. You, in your kindness told me one night late, thru Larry, that I helped with your pain. That was nice of you- but I know where I fit in the whole perspective.

I am so grateful for all that there has been over the years.. I have absolutely no regrets.

It was like being blind all my life - and then having sight - having beautiful, full vision for the first time ever. So you know- when those moments are no more- there can never be any regrets- because I was given something I had not had before.. I have no loss- only beautiful memories.

I would like to see you very much. But you know- I don't expect it. Not even to see you again.

I don't feel right leaving here until most of our people get out. I know it can get done without me- I'm certainly not irreplaceable. But I feel I should stay here as long as I legally can. If I stay low, I should be able to stay until something heavier gets underway.

I am just so afraid something will happen- pain to the people- and there will be no one here to avenge. You know how important that is to me.. it always has been. As long as things are going well there- I promise I will not do anything rash. But if things falter- I feel I have to be here until I know.

If there is no other way, I will come with Vera, but if there were any other way- I would prefer she go with someone else. I'll do whichever tho- you know that.

This cause is my life- and you are the center of it. JUST being able to see you makes life that much better. The pain is there- pain is just another word for living.. but you make the pain less-

I send you all my love. The deepest of feelings that I have. You have given me so much- what I have to offer in return is so little in comparison. You know all my faults and limitations- they are many.

But one aspect of me that I am certain of- and that is my loyalty to you. To you as a person- there can never be another man for me- that I know as sure as death awaits - I can only belong to you- ever.

And to you as this Cause. All the major decisions have been made in my life- all the so-called conflicts resolved- except how to die.

FF-3-152A

Life is simple - no longer complex- the main purpose is now- just to stay alive. And that I have promised you- I will be conscious of- and work at.

I have even written my own epitaph:

Who was she?	Just somebody.
What did she live for?	Justice.
What did she die for?	Injustice.
Was her life that simple?	Yes...

I have no hope of life ever being worth living for me - but I know that it can be for so many others- if I help to bring it about. And that is all I need.. that and your love... which I know is always with me.

I am sending you copies of the poems I wrote several years ago- you are the only one I have showed them to. They are not good-but they are my feelings. You know how I cover my feelings. But I wanted you to have them again- and also a favorite picture of mine.

On looking over them- I guess my outlook on life could be called somewhat 'morbid'.. pessimistic to say the least. But I do have feelings of 'hope' that I don't often convey. I just wanted you to know that. I have great feelings of hope for humanity because of you... because of what you are doing. It doesn't matter- but I do feel that this world will not be the same ever- because you have been here. You have sacrificed so much. Your vision has been so strong and clear.

I love you, love you, love you. I just wanted to tell you that again... for my sake. You are always close to me- and your presence gives me great peace. Thank you for so much. You are everything to me. I cannot thank you enough for all that you have given.

All my love...

your teko

- speaking of areas of one's "insanity", funny how things work out. you know, I told you that 1 of my areas was that of taking care of business with George. I have been able to think of little else over these months. So much so, I guess that I have often considered just doing it, planning the party and just doing it. You know, I have thought about it so much- even dream about it. But trying to figure out how to leave Tony and family out of it. Then wondering if the bad PR now would balance out all that is to come from George- would it be worth it? Many times I got the answer that maybe it would be better to get it now and fuck the bad press.

- all this time, I have had to work hard not to just go and get it on. And ~~xxxxx~~ I guess you knew that from the questions that you asked me one night late about visiting my parents. I told you the truth- not by myself". Now, I'm a daughter of a bastard, if I'm not involved in this mother fucking law suit from that ass-hole. Thus ends one area of insanity! Because you know, that I won't let that son of a bitch have the thought that he 'drove' me to do something! He won't 'drive' me to do anything that it is not time and not 'right' to do. I know you know what I am talking about. But that god damned mother fucking cock-sucking ass-hole is going to get his, sooner or later, that's all there is to it!

- well, again- it is time to send the stuff out and I have not more time left. Things seem not to let up much. I am sorry for not getting around to writing before now. I will try to get something for next week- it has been so hectic around here. Not the people to do what has to be done.

I really don't see how we can send very many more 'workers' and still pretend to maintain this work. Anyway, I am doing fine- drinking my water... and pissing all the time. But that is what life is all about anyway isn't it? shit...oh well. Just goes to show- J knows what he is talking about- I just found out- the grandmother that I am just like has had kidney problems and bladder problems all her life- she had kidney stones too. What a lovely thing to pass on- cancer, kidney, heart, high blood pressure, glaucoma, diabetes, arthritis etc. etc.- its a great life- I love every minute of it.

I am glad there is Jonestown. It really ~~xxxxx~~ helps to know it is there- I never have to see it again- just to know that it exists- is enough.

I send all my love to you- and I will write more the next time I promise

for GEORGE:

- 1- send him literature from mortuaries... just to his house and maybe some others in the general neighborhood... as an advertising thing- send in his name "Stoener"
- 2- call a funeral parlor as a third person- leave the number of his office to return the call about some particular of a pre-paid funeral plan etc. and then the funeral director will return 'his' call about making the arrangements.
- 3- more obvious things- floral wreath / hearse/ ambulance etc. to his home.
- 4- sugar in tank//
- 5- write in his name to radical magazines// to gay magazines// to right wing senators supporting them- (so that record will be on file with them)
- generally let him know that we know where he lives etc... people show up now and then...
- no more time- will get back to this later.

Report on Sandy Parks

88

Denny has been drinking for over 1 week - Sandy says she thinks LS or/and someone else have been talking to him.

She came home from last Weds. night meeting - and he was mad - says she wasn't taking the girls to any new country etc. She questioned him about LS talking to him & he didn't deny it - she told Denny to tell LS "she would live to see her dead"

Denny says he wants a divorce - but Sandy says he'll never leave

She has to drag her girls to meetings - they want to stay home with their father - the kids cry a lot now cause she & Denny fight -

She says no matter how busy LS was - she always found time for Sandy's kids (I find this hard to believe)

FF-3-154A

Sandy says Denny talked to
* Harry S last week from Ohio
for about 45 min. etc Said
Harry has a motorcycle and all
this good stuff.

Denny says to Sandy that
he knows more about PT than
she does - that she is left off
the board because she is not
trusted etc.

(I mentioned how trusted
she was by working with Tim and
things by I had told her etc.)
This pretty down right
now - anything else I should do?

I will be flying down Sat. - so
I can do my work - also we
will be having a modified finance
meeting & to go over the L.A.

I, (Rebecca May Beikman)

Rebecca May Beikman duly sworn declare:
In the summer of 1967 Pastor Jim Jones prophesied to me in the house of my friends James & Eva Pugh that I would become a school teacher.

This seemed very unlikely because I was very illiterate and 27 years of age. I had been told that I was retarded and would never be able to hold down a job by my parents. I could scarcely read or write and had no self confidence at all.

But due to Pastor Jones I went back to school and graduated from Ukhia Adult High School in the year of 1971. I was teaching in Calpella School in the year of 1973 to 1975, so Pastor Jones Prophecy come true. And now I'm teaching ~~Pre-school~~ to 2nd grade children in Jonestown school working with Tom Grubbs the Principle.

Dear Pastor Jones,

It is very difficult to write this - as it is embarrassing to confess ones perversions? Despite your tolerant counselling and understanding of my lesbian activities my conscience can no longer bear to carry this.

I have not stopped seeing Cynthia (who is not a member of our church) and have continued my active sexual relationship. I know that it is not a natural thing - but I get no greater pleasure than to have her go down on me - and me on her. We have even strapped on those dildos (artificial penises) as to derive greater orgasm.

I have never experienced such sex - and refuse to give it up - I am very

FF-3-56B

I would hope with all the inconsistencies you have around you all the time- that I could be some kind of constant factor. I 'love' you- ~~me~~ and have thought long and hard about the knowledge I have of both you and the circumstances of your life. When you said that to ~~KL~~ the other night- I first thought that was strategy- a diversion. I thought I didn't think it was true. But then I thought- well it may be true and that something about me prohibited you from being as free. I never for a moment doubted that you loved me. But at the same time- I felt I could accept you feeling freer in a certain area around someone else.

I don't feel that your love for me is- or should be mutually exclusive of other areas or people. But I do have a hard time with the 'physical' part. I do not like sharing that at all. And especially in the sense that I know you don't enjoy any part of it / I think I would feel differently if you did get something out of it. I could almost accept that easier- you know- if you got some sort of release- and not just pain.

It hurts to hear you say that you know so much has gone down that even if you meant what you said- nobody would believe you anyway. I feel that comes to me- and I don't know how I can convince you that I do believe you and the things I hear will not make a difference.

There have been too many things between us; too many years; too many talks; too much sharing of small things/ too many complete moments of love-making. Too many painful situations that have been worked thru.

It is like the same questions keep coming up and have to be dealt with until a decision is made and then the question is dropped. For instance- my suicidal feelings- I have dealt with them for so long- and have decided it would be "anti-" to do it- (and I had promised you I never would and I understand the reasons against it)

But when I was so depressed in Sept.- I again thought of it- closer to home than the usual casual thought of death. But I never seriously considered doing it- even tho I was pre-occupied with not wanting to live.- It was almost as if the "answer" were settled but I masochistically suffered with the "question". And I can't deny that I 'like' to be depressed in a certain way- (I know my masochistic tendencies in some areas.)

Just as at times- I 'want' you to know my suffering (as a subtle attempt at manipulation) but then at the same time- I do not want you to know because of the pain it causes you. In some ways I have over-come the desire to manipulate you- in other ways- I have not.

Considered also- many times was the possibility of leaving- both you and the cause. It was equally rejected for a number of carefully thought out reasons. But again it doesn't mean that the thought never crossed my mind during some particularly painful moment. It's just that I know my answer- so felt 'safe' in indulging in the masochistic agony of the topic.

FF-3-157A

The same with loving you- it has been painful at times (painful mainly because of selfish reasons or expectations) that i thought - if i could get out of it- i would. you know that i have considered it- and i don't make decisions one way or the other-lightly. I am never satisfied with quick decisions or decisions based on emotions. When i say that i have considered all these things carefully- and to great length- i sincerely mean it. I am not an arbitrary person.

long ago
i have decided the answer^{to} to the questions of living for the cause; staying here until the end; and of loving you no matter what...

faithfully,
teko

I Russell DeAndrea Motor duly swear and declare
During the spring of (1973) one nine seven
three, I received a long distance phone call
from my father Glen Motor. I was staying
in Redwood Valley California at the time.

He told me that my mother, Viola Mae Motor
was dying and the doctor felt that she
would pass at anytime.

Upon hearing this, I contacted Pastor Jim
Jones, and informed him of the situation
and requested that he pray and meditate
on her behalf. He said that he would.
At very evening while services ^{at Peoples Temple} were going
on in San Francisco California, my mother
Viola Mae Motor, started vomiting blood
clots. After she had vomited up all of
these clots, she recovered in a week.
The doctor stated to my dad, Glen Motor
after she had recovered, that it was a
miracle that she had recovered because they
didn't know what was wrong with her. In the
following four years, there has never been
a relapse of this illness. My Dad,
Glen motor, tends to be a mystic on
such matters, but he was ~~so~~ experienced

by what had happened to my Mother, Viola
Moton, that he joined the church.

Affidavit of
Ann Elizabeth Moore

Ann Elizabeth Moore

I, Ann Elizabeth Moore duly sworn declare that in
of → Jim Jones told Patricia Cartmell and I to
please be very careful driving home from San Francisco
back to Redwood Valley. Faith Kice rode with us. The road
was wet and as we neared San Rafael on 101, a car
was coming onto the freeway from a ramp into our lane—
the right lane. There was another car in the lane next
to us on the left. We were joking and listening to
the radio and I saw the car coming into our lane.
I said "Patricia, watch out for that car!" She put on
the power brakes, skidded and swerved into the car
next to us on the left which pushed us over into
the middle barrier, then after hitting this the car
went into the middle lane and was spinning rapidly.
There were cars on the freeway behind us traveling
at high speeds around 60-70 MPH, which should have
been hitting us. As we were spinning it was as if
the cars were further behind us yet coming towards
us, I yelled Jim's name twice and the car stopped
spinning, facing the cars coming at us head on.
Almost all the cars were stopped and a few drove
around us at about 5 MPH.

When we were pulled over with the policeman,
about 15 minutes later another car, alone, with no
cars behind or in front of it went past the same
wet spot where we slipped and spun. It seemed for
no reason that it lost control swerved back and forth

FF-3-162A

for about $\frac{1}{4}$ mile up the road and finally it hit the center island and spun in the middle of the freeway. There were no cars behind it for at least $\frac{1}{4}$ to $\frac{1}{2}$ a mile but as we watched cars pass us, when they got to the spinning car about 6 cars smashed into this car which was in the same predicament as we had been only with more chance of avoiding the accident than we ever had. I know that because I called on Jim Jones that the three of us were saved from death or terrible injuries because we should have been smashed from all sides as the car was that passed this slick area 15 minutes later.

I have always considered it a miracle that I left Texas, traveled to California and heard Jim Jones speak my third day in that new state. I had done five years in the drug scene and after 150 trips on psychedelic drugs and two years shooting speed I was wasted. Hopeless and without ambition I was received by Jim Jones and the People's Temple as a friend and am grateful for the hard work I did and the structure that was provided for me my first few weeks in the temple. That initiation permitted my mind to heal and I soon started school. Living in the equalitarian college dormitories in Santa Rosa I studied hard and made Straight A's, received an AA degree and did a year of premedical study at UC Berkeley. I wanted to be a doctor but knowing how hard it would be to get accepted in the states and having heard Jim say that "two of our students have been accepted into medical school in Mexico" I went there and he was right; I was accepted just as he prophesied. I went to Mexico to study and learned a foreign language to do so. I made straight A's and scored high on the national Boards. My success, being so far away and alone, was entirely due to the profound inspiration I received from the life and sacrifice of Jim Jones. The People's Temple sent me hundreds of letters while I was there and I knew who my comrades were. One time soon after enrolling in Mexico's medical school I was flying back to San Francisco and as the plane touched down there was a surprising jolt. Then there was calm and the landing was completed. Later at the Temple that night during service, ^{JIM'S} Father's messages, which he called in from the vacation bus trip to the eastern United States, stated that he knew the flight number and the time the plane touched down and that he had saved our lives. I say our lives because at that time there were two of us in school. Jim had spoken earlier that only one of us would make it through and it was but six months later that this prophecy came to pass, the other student deserted and I was left to do my job alone. During the second year in Mexico Jim landed a plane, which he chartered to the mission project in Guyana, at a city in eastern Mexico to pick me up. There had been a misunderstanding and the airport authorities would not let me board. Because he had concern that I would not be able to return to Mexico to study if I did not obey the authorities I flew separately to Guyana. Jim asked me if I had enough money for food and room during the trip and after I said yes he handed me 300.00 dollars. The ticket to Guyana cost 299.99. How miraculously well he anticipates our needs and how much consideration he showed to land an entire aircraft, on foreign soil, for one of his members. I recall once in Mexico I became ill and had shaking chills. I was under four blankets, had a heater aimed at myself but still had chills. I thought of his name and the chills ceased suddenly and I was calm and slept until I felt well.

Then came the task of transferring to a US. Medical school. He told me a full year earlier to contact a doctor friendly to our church and I indeed it worked out that this doctor had an acquaintance on the board and put in a favourable letter. I made the second highest score on the transfer qualifying exam and was permitted an interview. Jim told me the words of prophecy that I needed to say. I did so and was accepted. I did very well in Medical school and graduated a full year early. I was the only student in my school to graduate with such an accelerated course. Upon graduating I was accepted into a very highly sought after internship program in San Francisco. I performed well there until Jim called and requested that I come to the Agricultural mission. It was perfect timing to get me involved in this great and inspiring work.

BARBARA JEAN WALKER

I, Barbara Jean Walker, duly swear, declare:
that in Dec. 1975 in S.H. Calif., Doctor Jim Jones
stopped me after I had touched the actor with
my 1 year old son Marlon District Porter, and told
me that he had a heart defect that would cost
him his life at an early age if not taken care of.
After being given a cloth by Doctor Jones (that
he had touched) for Marlon to wear, I was told
to take him to the doctor and have his heart
checked out. Two days later I took Marlon to
Medical Consolidated Health Clinic of 38th Cromont
in Los Angeles, and insisted they check his heart
thoroughly. After being given a series of tests, it
was discovered that my son's heart suffered a
defect on one side, which caused it to be larger.
No treatment was given. The cause reason for
defect was not established. I was told to bring
him back for more tests in a week.

(Continued)

FF-3-165A

In the meantime the cloth was being worn by Marlon as Pastor Jones had instructed. When taken to the doctor a week later, and tests were done again, Marlon's heart was normal and the doctor stated he only needed more time in his diet to finish regulating his heart before it would be normal.

I (Geraldine H. Bailey) duly swear declare:
that in January of the year 1973, I was
called out by Pastor Jim Jones, in the
Los Angeles Temple, 1365 Hoover Street,
and received a miraculous healing.

Pastor Jones told me that I had been
having trouble with my throat. This was
most definitely true, as I had been to
the doctor for an X-ray of my esophagus
area just the preceding week. The doctor
arranged for me to begin treatment shortly
after the X-rays were returned to him and
stated that he would be able to diagnose
the seriousness of my trouble at that
time. However, before the time for my
first treatment, I experienced the above-
mentioned call. Pastor Jones informed me
that I had applied for a divorce in 1971
and had paid \$300.00 for the service performed
by a law firm in Torrance, California. He
named all four lawyers in the firm exactly
as they were listed on the letterhead. He
also stated that my mother's maiden
name was Amanda Higgins. All of this

FBI-3-166A

was true and nobody else in the building could have known all these things about my life.

Finally, one of the great miracles of my life was performed when Pastor Jones informed me that I had a cancerous growth in my throat and he was about to save me from a horrible tracheotomy that would have left me speechless and that I would have soon died a horrible death. He asked me to step into the aisle and begin to regurgitate. I did as he told me and a nurse came to my side and held kleenex under my mouth. After about the third attempt, I could feel a sensation of membranes ripping across my throat and I spit out the bloody cancer into the kleenex. I was then given a drink of grape juice and for the first time in several months I could swallow without pain. I had not been able to wear a high-necked dress nor a string of beads for several years, but from that moment on I have had no such trouble nor any sign of cancer in my throat.

I Chenyle D Mc Call, would like to openly-declare & verify beyond a reason of a doubt the miraculous healing that Rev. Jones gave my mom ESTELLE Mc Call, before I became a member of People Temple. I remember it as if it was just yesterday. He called her name, "ESTELLE", ESTELLE, then told her that she was from Houston Texas, & that he was concerned about a dog named Duke. Duke had been killed by my vicious step-grandmother, whom was angry at Estelle because she wouldn't let me come to stay with her that summer because Duke would not stop barking, she maliciously shot him in the head & killed him instantly. Rev. Jones also told my mom that she had come to the church that day in hopes to save her daughter, whom was heavily on drugs, (a drug ^{addict}). Being that he was speaking of me, it was a painful reality of truth, that so deeply touched my heart for I knew that in a few hours I would be sick for the need of drugs. He also told her that she had been in the hospital after hospital suffering from T.B & that at 1 point the doctors didn't know what was wrong with her. By this time Estelle became totally hysterical because she knew as well as I knew that no man on earth could've known these things, being that we had just traveled 2,600 miles & our 1st time being at this meeting or having ever set eyes on Rev. Jones. In college I had come in contact with ~~Christian~~ & census, but had never come in contact with C.S.P. in the manner. Only

The 1st healing was a cancer growth of the throat 24 years ago. He called me by name, Esther & asked me if I knew about it. Before he even got the words out of his mouth I spit that mess up and he never even touched me. I believed him. I ^{do} got my hand in the washing machine ^{It was mangled} ~~and~~ ^{by the washing} the doctors was amazed. Said they never seen a hand like it, and called in other doctors to see it. This was 15 yrs ago. ~~and~~ recently as I had to go for a check up - July 22 - 1977. I had facial pains and sharp cutting pains in my head and tingling in my hands. He looked & turned my hand over & over & said that it was the 1st perfect hand to go through a wringer. And after all check ups were in he said I had no signs of a stroke. ~~and~~ was in perfect health. He gave me a Cardia gram & every kind of a test ^{Possible} ~~possible~~ ~~it was~~ ~~done~~. Since leaving Indiana All Jim Jones did was look at my leg and now my leg is perfect. Life in my toes and new signs of veins. I thank him. In 1971 at the end of February I attended a meeting at the Peoples Temple in Redwood Valley, California. I was called out by Pastor Tim Jones and told about my father's car accident in 1966, his death in 1967 and a siamese cat I had in 1965. No one could have known these facts by any natural means. He then gave me a warning that, like my grandfather and father before me, I would have died as a result of a terrible car accident in which my wife and child would have also been killed. Pastor Jones assured me that everything would be all right. Only a few days later while driving down the California coast with my wife and child a car coming in the opposite direction swerved straight in front of us. Suddenly a force grabbed the VW Bus we were driving and pulled it out of the way of the other car. The cars passed within inches of each other but miraculously no damage occurred. The circumstances were just what Pastor Tim Jones had

I was working out of town some 60 miles and coming home one evening noticed a strange sound on the left side near the front tire that sounded like the tire was rubbing up against something. Being quite concerned I stopped at a service station to have it checked. The man there told me it was nothing to worry about that all it needed was a little oil. Feeling confident I went on about my journey home. The noise continued but I kept on driving assured that everything was okay. When I got home I got out of my car and stepped over to speak to someone in the yard. The entire wheel on the left front side fell off before our very eyes. Instantly I knew that it could only have been the power of Jim Jones that kept me safe during those 60 miles.

I had written a check that could not be covered by the bank and the business I wrote the check to called me made a complaint to the local Sheriff's depart. who when realizing I was from Peoples Temple called up Jim Jones to let him know that one of his members was in distress. Pastor Jones has done so many good deeds to help people in the community to be law abiding and a perfect example for his members to follow. The Sheriff knew that all he needs do was to notify Jim and he knew that the situation would be taken care of. For indeed it was Jim ~~had~~ paid the money to the business

I had a terrible bladder infection two years ago. I had to urinate every 5 or 10 minutes, and was barely able to move without crying from pain. My doctor told me that it'd be at least two weeks or even three before I'd be functioning normally again, and without pain.

On the following Wednesday, only three days later I was in the Wednesday night service and Jim said anyone with bladder infections think on him. He put his hands out and moved them around in the air. Before I knew it, the pressure on my bladder was gone, and Jim

said "Now the pain should be gone", and it was! I've never had a problem with my bladder since that night.

In 1972 I was dying of intestinal blockage - but when I called on Pastor Jones, I felt my intestines immediately open up & was made completely whole!

In 1974 I was bleeding from the vagina. I had a pap smear which came back class III cancer & the laboratory requested immediate surgery. But the doctor took another pap smear &

Nicki Touchette stated that she worked in the offering room, which was true. cl. My sister, Silvia Upshaw, called ME MONDAY evening July 25th, She told me that she had be harassed on her job and wanted to know how the Heetles knew where she worked. SHE said, Linda Mertle, Mert Mertle, Linda Mertle & Ruth Kerns came to talk to her trying to make her ~~you~~ come to their side, since she was a former member and left the church. They said they were trying to recruit everyone possible. They told her about beatings, fake hearings and all sorts of things she stated. I had Arthritis and should be in a wheel chair.
My toes and fingers had began to get stiff
and I was unable to lift my feet & walk,

walk again, my ankles were swollen and
stiff.

I, Emma Wifrey, went to Dr. Winters in Santa

said an operation was needed. Pastor Jones
touched my eyes, I am now able to see.
I can read, write and sew. In 1975 I went to

an operation now.

I, Emma Wifrey, went to Drs. for many years
for Ulcers of the stomach, every six months, I would

attacks with Ulcers of the stomach of any kind.

my shoulder was out of place. I was taken to

it only helped for about twenty four hours.

Pastor Jones touched my shoulder and the
pain immediately left.

I was unable to raise my head off the pillow
or lie down to go to bed without help, it
was the worst pain I ever had.

Thanks to Pastor Jones.

I, Emma Wimpy, saw many miracles healing
in the "Temple", such as these, people would
get up out of their wheel chairs & walk, many times
I have seen casts taken off of broken bone and
healed. I have seen twisted arms straightened
people speak, that have never spoken
a word, because the mother had an illness
before the child was born. The first word
they spoke was, I love you, it was
spoken several times and then it was
perfectly clear and understandable.

In the summer of 1966, Jim Jones called me out in a meeting and told me about a young man named Allen Sonny Brown with whom I was corresponding at the time. He told me Allen's full name and the contents of a phone conversation. Jim also told me that I felt that I was ugly. These details were things that I had communicated to no one! He also told me that I had been craving orange juice -- something else that I had never told anyone about.

One day in 1958, I was riding in a car with Jim Jones and my parents. Jim awoke suddenly out of a sleep and prophesied the U.S. involvement in the Vietnam War. He stated "for all the vain reason for man to destroy . . . over a little place known as Hanoi. He told us that Dean Rusk would be the Secretary of State and would be very much involved in this. At that time, Dean Rusk was not known in the political arena and no one even knew what or where Hanoi was. Years later, war, and Dean Rusk had become the Secretary of State.

In early September of 1976, I was in a car with 7 other youths. It was late at night and we were driving north on East Road in Redwood Valley. We were hit head on by a drunken driver. Some in the car suffered ~~severe~~ head
FF-3 PDA

wounds from the broken glass. The front half of one girl's scalp could be lifted up. Another's head went through the windshield and back thru out the side window. She appeared to have a broken neck, and she had no apparent vital signs. The driver's arm broke the steering wheel and she thought her arm was broken. Mike Cartwell jumped from the car and ran 1 mile to Pastor Jones' house to tell him about the collision. Jim told him there in the yard that everyone would be alright and there would be no broken bones, and no after-effects. Jim also told us this at the scene of the accident. At Urich General Hospital, the X-rays were taken of everyone involved and not one broken bone was found. The doctors said that Cathy Stahl would have brain damage and severe eye damage. Extensive testing was done and she suffered neither. The Hospital staff was truly amazed at this. The wreckers who towed our car away told us the glass shards had to be flying as fast as bullets to become embedded so deep in the cushion of the rear seat, and that it was a miracle that the people in the car were not killed.

Statement of Joyce Rozynde

I was raised in the country, and feel as if I had come home since I came to Jonestown. The country is very beautiful, and my life is full and rewarding. I work as a nurse, as I did in the United States, but nursing here is different than there. I often felt I was just "passing pills" to earn my salary, and so often people did not improve. Often life as a nurse was filled with frustration. Here, the medical attention the people get is very different. Everyone cares, for one thing. I don't care who it is who's sick or hurt - There's a superabundance of people who take an active interest in each individual. It isn't unusual for Jim Jones to drop in to our little hospital to speak to each person there, and to stop by and talk to the Doctor about someone's health problem. We all feel the security of meaning something here, and of being cared for, like never before. I'm so glad to be back in the country again with gardens and growing things all around. We even have our own pets, and these animals obviously love it here too. The dogs are so friendly and downright sweet. They share themselves with all of us. They are exceptionally peaceful dogs. We never have to worry about one of our children being bitten. No one, nor any animals act "nervous", a frequent complaint in the States.

I enjoy the relaxed atmosphere and lack of pressure here. I feel I can work better than I ever did before. I can take interest now in learning new things - I was "turned off" before - now I find it isn't work - it's a pleasure.

I think of Sandy, she decided not to come with us. It's too bad. She'd have loved it here; she cared for animals and they are all around. But she has chosen her life; and as for my erstwhile husband, I hear he has made derogatory remarks about Peoples' Temple and Jim Jones. He once thought highly enough of Pastor Jones to request that he officiate at his wedding to his present wife. I'm glad I live here... I look back and can't imagine the life I lived before. I thank my lucky stars I met Jim Jones.

He made the difference for my children and myself, and gave us the opportunity to come to this beautiful country where we can spread out and feel renewed in the freedom of a new and vigorous life.

My NAME is ALBERT Touchette. I've been here in JONES TOWN for almost 4 years. Since being here I've learned MANY skills that I would not have learned in the states. In the states I was disinterested in school and could never focus on any trade that I might want to learn. It seemed like every time I got interested in something I was never able to complete it. Here in JONES TOWN I have learned carpentry, electrical work, plumbing, heavy equipment and I have also been a MANAGER of the project. I AM also planning to attend a 2 year course in Veterinarian Medicine. Since coming to JONES TOWN I have found much fulfillment. I would like to say that this applies to MANY, MANY more young people that are now living happily here in JONES TOWN. Not only are all of these educational skills offered but in the evenings there are movies, dances, and other entertainment.

I do not know why my sister Mickey has said such disparaging things about JONES TOWN. There are 8 of us now. ZONI

My Name is Michael Jon Touchette and I have been in Peoples Temple since December of 1970. Four (4) out of the eight (8) years I've been a member has been spent in Jonestown building our Agriculture Project. My life before coming down here was meaningless, I was only living for myself not caring for anyone else. Jonestown has made me feel for other people, I feel part of someone besides myself.

My job there has been operating a bulldozer. In the states I went from union to union seeking to learn the trade of heavy equipment. The only way I could have gotten into a union was one of two ways, either lots of money or being able to know someone. I am very grateful for the chance of being able to learn this trade.

When I required medical attention, we were always in need of lots of money for little care. But here our medical care is beyond belief. When you hurt you have a team of people that treat you, on the spot and come to your house 2 or 3 times a day. Our medical team really cares for you.

have a place that gives me a purpose.

I'm Ava Cobb, a twenty six years old Black Woman, who has been an active member of the Peoples Temple Church under the guidance and leaderships of Rev. Jim Jones for several years.

My mother, younger brothers and sisters are also members of Peoples Temple. I can honestly and safely say, that my family has never been happier and more productive than they are now in Jonestown, Guyana South America.

I remember the struggles, turmoil, pain and racism my family faced in the past. The peace we have found in Jonestown where everyone is working, teaching, learning, playing and retiring together in Harmony and Understanding, is like a dream come true.

It overwhelms me to see my younger brothers and sisters growing up into well adjusted and wholesome young adults.

Our Educational Department and Qualified Teachers are outstanding and of the highest standards. My younger brother had many problems with comprehension in reading. Under our educational program and teachers, he has been given individual and personal attention and now he can read two levels higher than his normal grade level. He's much happier. He now has self-respect and confidence, which is really important and necessary for a

it is a learning as well as a
rewarding experience. I would never

I'm pleased and my life
is fulfilled, just knowing that my

Exia Marie Duckett

I, (Exia Marie Duckett)
Exia MARIE Duckett duly sworn declare: that on the 16th day of April 1975 I was saved from dying of a heart attack in my home at 1664 page St. in San Francisco Calif. U.S.A.

The details of this incident are as follows: several weeks before, Rev. Jim Jones had, during a Saturday night service at Benjamin Franklin School San Francisco Ca. Called me out by revelation by the address "who's Father died in 1957, Please stand." I stood and Rev. Jones looked at me a few seconds before declaring, "I'm saving you from dying of a heart attack on the 16th day of April this year" which was in 1975. I was given a red cloth by one of the nurses of the church and told to wear it. and as always when Pastor Jones states something about a matter it's been proven to always be truth.

The Scene: I believe April 16th 12:00pm was on a Sunday night-monday morning. Church service was at Ben Franklin School on Beary St. San Francisco Ca. and it was the first of two services that day, near the close. Rev. Jones made the statement "everyone should go to the Valley (Redwood Valley). FF13-199A
