REQUEST FOR PURCHASE:

The LIST OF PARTS ARE FOR PUTTING AN OIL COOLER ON THE ROUND TOP CAT TO COOL THE TRANSMISSION OIL. THE REASON FOR THIS IS BECAUSE THE OIL GETS TO HOT WHEN WORKING AND WE HAVE TO STOP AND LET IT COOL OFF several times a DAY WHEN IT IS HOT OUT. WHEN IT IS COOL BUT WE ONLY HAVE TO STOP 2 or 3 times a DAY. TOTAL PRICE IS \$2,500 AT THE MOST.

Mike Touchette

MARIA KATSARIS
GEORGETOWN PURCHASES----23 March 78 ~~Friday~~ Thursday

*for Maria
(c.t.p.s.)*

- PG#1 4 watering containers for the chichery. Ordered sometime back..
NOW THE NEED IS DESPERATE! ~~Now the day will be~~
- PG#2 ~~#~~ of .003 plastic, minimum 6 inch width or multiples thereof...
a place called GUYANA PLASTICS LIMITED, someplace around where
they publish the chronicle --look up in phonebook. Is sheet
plastic for our nursery. ~~in a sheet~~
- PG#3 Two tins (probably ~~#~~) of pruning or grafting compound --
is in a green tin. Can likely get it from Geddes Grant or
maybe Bookers hardware.... ~~but~~ ~~not~~ yet

~~XXXXX~~ GENE'S FRUIT ORCHARD PLAN CALLS FOR THE FOLLOWING NUMBER OF TREES:
WHICH SHOULD BE BOUGHT FROM Georgetown. Since the quantities are
substantial they should be notified now that we want them, and they
should give us a delivery date. Total cost of \$141 for the trees.

- PG#4 220 grafted Avocado. 50¢ each. Need delivery date.
- PG#5 55 Sapodilla. 10¢ each. Need delivery date.
- PG#6 40 Golden apple. 10¢ each. Need delivery date.
- PG#7 55 Cashew fruit. 10¢ each. Need delivery date.
- PG#8 30 Mamee Apple. 10¢ each. Need delivery date.
- PG#9 30 Guava trees, for cooking. 10¢ each. Need delivery date.
- PG#10 100 Five Finger trees. 10¢ each. Need delivery date.
- PG#11 10# Purple top Turnip. TOO EXPENSIVE IN SMALLPACKAGES..IF CANNOT
buy in bulk, get about 20 packages here--and will order balance
from the states. GROWS VERY WELL OUT HERE.
~~Can find~~
- PG#12 5# Tampala Spinach.
~~same~~
- PG#13 5# Cabbage, the KK Cross variety. or the tropical variety Dutch
---is a very large head. Called Flat Dutch variety...
~~same~~ ~~5#~~
- PG#14 5# red cabbage
~~same~~ ~~5#~~
- PG#15 5# Copenhagen Cabbage
~~same~~ ~~5#~~
- PG#16 5# Kahlrabi seed
~~same~~
- PG#17 5# Collard seed
~~same~~ ~~5#~~
- PG#18 URGENT. URGENT. Need at least 8 packages of "HEADSTART" in
powder form (mixes with 50 gals per package). Need to have this
sent out with the baby chicks on ~~XXXXXX~~ Friday or Saturday, when
they come out. HEADSTART IS A VITAMIN MIX FOR DRINKING WATER,
AND A SUBSTITUTE COULD PROBABLY BE USED, BUT A DRINKING WATER
FORMULA WOULD BE MORE PRACTICAL THAN INJECTION.
~~Can find~~ ~~5#~~

MARIA: I will make a backorder list with numbers, and give them to you with a W or waiting #....so you will know is back order... --Tish

P7-11-38

RADIO INPUT -- GEORGETOWN:
information needed

-1-

Thursday, 23 March 78....

PLEASE--all feedback is to go thru Tish. IF YOU CONTACT others in agriculture to give information, or ask questions -- PLEASE ALSO SEND TISH A MEMO ON THIS so that it will be recorded as followup. I am beginning with this order and will be NUMBERING EVERY ITEM, as IG# for Information Georgetown, IS# for information states...PG# for purchases Georgetown and a PS# for purchases states.....I WILL DELIVER TO YOU THE INPUT ON SEPARATE SHEETS OF PAPER....NUMBERED. In the responses, please respond to the input by listing the input number of the item. I now have an input register listem the item numbers and the dates I get feedback...wit a cardex to followup on them. The analysts are asking for a weekly report on feedback, so this way I can give it instantly from my number charts... YOU MIGHT WANT TO MAKE UP ONE OF THESE as it will give you the same records.

IG#1-- WHO WILL TAKE RESPONSIBILITY to put special markings on the rabbit feed you purchase? We need 3 bags of it. The tags come off easily, and there is no way then to tell it from the pig feed, since both are pellitized. PLEASE USE A LARGE BLACK MARKER PEN AND EXXXL CLEARLY MARK THE PACKAGES OF FEED.
Good Luck & Thanks.

IG#2-- Please tell us who will take responsibility for this item. DAD DEMANDS WE LOCATE THE BULK VITAMINS, MINERALS AND ESSENTIAL PROTEIN FOR MAKING OUR OWN ANIMAL FEED. Dr. Fernandez recommends that we do this. The states has located a pellitizer for us...
~~Dr. Fernandez~~ SOMEONE MUST LOCATE, either in Guyana, Trinidad, or in a nearby surrounding country -- where we can get the items in bulk... along with information for putting it together. We can then make some up and send it to Trinidad for testing.... We need to determine WHERE THE THINGS CAN BE GOTEN, AND WHAT THE COST WILL BE....Also, after you have that information, consult again with Dr. Fernandez and try to determine approximate quantities that we will need.

You should at the same time go to the Guyana Feed company and find out what they put in their feeds, what the vitamin and mineral supplements included are, etc... A good PR couple should be able to get this. Might get letter of recommendation from Dr. Fernandez to them to get in there? *you know, or something*
~~get into their feed~~

IS#3 NEED TO KNOW WHO HAS MADE THIS CONTACT....We are requesting someone there to contact pig farms to arrange for Tim Swinney and David Solomon to learn the technique for clipping the teeth of the baby piglets. Would like them to be able to watch the process... Please make the contact ahead of the boats arrival to arrange this if possible.
See Tim & David on the boat this week

IG#4 NEED TO KNOW WHO TAKES THIS ASSIGNMENT! Mention was made of a pineapple plantation just out of Georgetown that Evelyn and some others went to a while back --where arranged for us to get pineapple and coconuts free if we would come in and pick... we never got back to do it because of crisis. HAVE THEM GET AGAIN AND MAKE ARRANGEMENTS FOR US TO GET SOME, ALSO...TO GET AS MANY PINEAPPLE SUCKERS AS POSSIBLE FOR OUR PLANTING UP HERE. They could send people in just before the boat returns. With so many agriculture people in town will be good. Should arrange same for any other fruit available--to line it up just before the boat returns home. *It's been done.*

PP-11-3D

- IG#5 Need name of person taking responsibility. URGENT! URGENT!! We need the queen bees and the worker bees we ordered (3 queens and 600 workers)... Supposed to be 3 day delivery on them... CAN THEY BE ARRANGED TO COME OUT ON THE PLANE WITH THE PERSON COMING OUT WITH THE BABY CHICKS? *Value C. - make*
- IG#6 Still awaiting the feedback on sugar cane. WHO IS TO BE RESPONSIBLE? Ask Guyana Sugar Co. (GuySu) if there are any varieties available that are immune to sugar cane borer and red eye... and leafy. Is for feed. Want to know best varieties for animal feed. What do they use in Cuba? etc.. *xxi where they use the cane for feed.*
- IG#7 Metaldehyde or Metaldex insecticide for slugs and snails. WHO WILL CHECK THIS OUT? We want the information on THIS SPECIFIC type of insecticide. Substitutes aren't working. IS IT AVAILABLE here or through Trinidad? If not --let us know so can channel it through the states.
Dear here, we have this.
- IG#8 Chris and Mauri are still waiting for Richard to contact the vet in town about the rabbits. Need to know about a mild antibiotic to put in rabbits water for prevention of any respiratory problems... Need amounts to use. Need for 9 rabbits. 6 mo suppl: *4. Then to another month*
- IG#9 Check both vets and find out if anyone there has the electromyaci in yet. in oral form...6 mo supply. ASSIGNED TO WHOM? *Needs 5 more bottles - That is how much electric you have.*
- IS10 Ask vet about vitamin supplements for rabbits. ASSIGNED TO WHOM? *That - Vitamin for day, Vitamin for night.*
- IG#11 In contacting the feed company, find out also what is in the commercial rabbit feed. What is its basis? See what we might do for making it here by adding required protein, minerals, etc.. WE ARE GETTING A PELLITIZER from the states we understand one has been procured, or offered us and we definitely want it.
- IG#12 We lost a little deer we had. For future information, contact the Zoo in Georgetown..ask info on deer--what the babies eat, etc what to give at 4 weeks, 6 weeks, etc.
Look for this, should have return.
- IG#13 Ask at the zoo also: Can a zoo be located near piggery and chickenry? How far away should it be? Is there possibility of spreading disease between them? Please get the opinions of 2 vets also...let us know so we can evaluate. GET ANY BOOKS pamphlets, information, also... See if someone can take pix of zoo facilities (cages, pens, feed supplies, etc.. also try to get a zoo manual...and medical information on zoo animals. Please send this information to the agricultural office, attention Tish Leroy. Who is taking assignment on IG#12 & 13?
Double check here, this will show how feedback.
- IG#14 Ask Dr. McKenzie about any literature available on tropical rabbit farming. *Ok, now*
- IG#15 Can the rabbits eat pig ration or broiler starter? Will it harm them? What supplements are needed if the pig ration or broiler starter can be used? *Now*
- IG#16 WHO WILL TAKE RESPONSIBILITY FOR GETTING THIS INFORMATION? Still waiting for costing information on the prices of:
a) CORRUGATED ALUMINUM ROOFING --label how it is priced, by by sq foot or? Also prices on tongue & groove wood, and lap siding--and how priced, by board foot or square foot? *Info*

G E C R S I T C W H

MESSAGE TO EVELYN: What has happened with the rice millings? This is not the hulls -- but the germ and bran removed when they make white rice. We would like to get this for our family to eat, mix with rice and with flour. PLEASE GIVE US SOME FEEDBACK ON THIS... ARE THEY ABLE TO BUY THE UNMILLED BROWN RICE.. THEY SHOULD ASK AT THE MILL AND FIND OUT. THAT IS WHAT DAD WANTED. ALL OF THE B VITAMINS ARE IN THE MILLINGS. THERE IS PRACTICALLY NO NUTRITION IN THE WHITE RICE. THIS IS VERY VERY IMPORTANT!

P.D.H.

To: Maria Katsaris *Ankey*

RADIO INPUT
from: Tish 7 March 78

-1-

- 1) Ask Kenard first and then Dr. Reed --what about the bug damage around the windrows. We get more bugs in areas of the windrows. What if we just contour plowed around the hill and did away with the windrows? *lawn*
- 2) Have we gotten more welding rods for Charlie? Should order more since increasingly difficult to get. *yes - how much?*
- 3) The parts for the sprayers can be gotten from store ACROSS FROM CITRUS FARM BORDER MARKET. *sent.*
- 4) Enquire for us: is there an easier way to clean shark? Radio us some instructions, please. *read thru*
- 5) Get to set a shark and weigh it: then take off head and remove guts and weigh again; see what difference is. CAUTION ALL GETTING THE PORK TO BE SURE THEY DON'T CHEAT US... *Yes*
- 6) Adrienne Thompson's wife was saying our young trees are spindly and should be pruned (citrus).. We hear this delays fruiting for 2 years.. What do the citrus people in town have to say about this? *lawn, Wanda*
- 7) Has Dr. Fernandez been advised that the cattle we got are not good milkers --and that they might have been switched on us? Did he tell Wanda that they WERE GOOD MILKERS? *They are Good* (Wanda Standard @ that price)
- 8) Oramycin --powder for the chickens and livestock? Cost?? *-----*
- 9) What is happening with refund on chicks--that died?
10C free this time with 50 @ every week when things get better.

Maria

[

TO: MARIA KATSARIS
RADIO INPUT —Georgetown AND THE STATES
From Tish Leroy (Agric & Livestock)

- 1) Contact Dept Agric and others: People are building dairy herds on east bank of Georgetown going towards Tamari. They use mostly pangola ~~for~~ and Lacunta grasses. It is said these are better than tanier grass. Can you check and see if this is so, and if so, why? ~~People o better we know, we Town first than we payan~~
- 2) Evelyn and Jocelyn to contact Dr. Fernandez and find out about Pulmons Disease (commonly called Arizona disease). ?
- 3) ARRANGE TO FLY THE MEDICATION OUT HERE FOR THE CHICKENS-- TRY TO GET IT ON BOARD FREE. NOTIFY US TO MEET THE PLANE. TELL THEM MEDICAL EMERGENCY.. OR SOME SUCH, IT IS THE TRUTH. The disease came in from the U. S.
- 4) Make contact with Trinidad and Granada. Find out how they handle erosion on their hill plantings.. CONTACT CAT PEOPLE IN GEORGETOWN AND see what they recommend in the varicus area.
~~Check but never go because from Barbures.~~
- 5) Dad approved go to BETTENCOURT DEPARTMENT STORE in book section.. procure if you can --but get copy of EDIBLE PLANTS OF GUYANA.. is a yellow book, paperback 8 x 11. Now
- 6) Literature on Newcastle talkes about vaccinating and revaccinating at intervals --check with Dr. Fernandez and others and check and see how the commercial chicken growers handle this.
~~Sort in the info, here cow, hog.~~
- 7) Tell them where we got the buckets that 18 of them leak. Try for replacement or adjustment. Will send the buckets back in on our boat its next trip into town. Out of 88, 18 leak... Get our money back. Talk firmly. ~~Get them replaced will be on boat.~~
- 8) PLEASE CONTACT PEOPLE IN GTW. TRY TO GET INFO AND POCKS ON BEES IN THE TROPICS. Are there diseases or anything special should watch for?
~~Now.~~

870

--Ask Thomas if a honey extractor that will come from a company back east, should come by air or surface. Tell him it will be checked by customs ahead of time so it will not get tied up.

--Ask Thomas if he ordered a cassette recorder from Japan.

--The following people need to be cleared through immigration: Tony James, Clarence Haider, Herman Lee, Dorothy Lewis, Eddie Lowery, Christopher O'Neal, Bessie Proby, Gina Severini, Dennis Smith, Norrell Willis, Ruthel Willis, Laverne Wilcox, Lilious Willis, and Willis Smith.

--Send the most recent list of people who have been cleared through immigration to Janes.

--Check out the account farm owned by Mr. W. D. Davis, at 1111 1/2 St., N. E., Cunninghamburg, Md.

--Look into ball bearings

--Meet for planning with Mr. Griffiths and Symmetra's Bank

PF-11-7

ORDERS FROM BPD

- Book called Edible Plants of Guyana by Armit and a book on Poisonous and Medicinal Plants and Herbs, by London, England publishers.
- Information on Rhode Island Reds, White Leghorns (eggs, Chicks, and pullets, and on automatic waterers and feeders. Also, prices.
- Get the following at Guyana Electric Corp. 1 ought Kearneys KSC 24 100 ea. 1/4 ASP American wire gauge Kearneys KSC 22, 200 each. 100 clevis insulators for 2 ought wire or less.

PP-11-8

—GEORGETOWN—

Jocelyn--in re cassava tops. When you picked the ones that were good to cook, how did you pick...what leaves did you pick? Roughly how old the plant, and how many leaves from each plant?

Would you please go again to the chickenry in town and ask the person there about how frequently we should change the deep litter. We are using sawdust.. is this okay.. Is there danger bringing in contamination when you change it? or is there more danger of sickness by leaving in the same litter..the deep litter?

Wire-- We ordered the 3/4 inch square mesh wire for chickenry..was not on boat..when can we expect it?

AUREOMYCIN-- What we got is nearly used up. Should this be used all the time or just at times of illness...or... Please advise, and get another supply of this. It goes very fast, says Rob Gieg at the chickenry.

PP-11-9

To: MARIA KATSARIS
3 February 78 - Friday
From: Tish Leroy

RADIO TRAFFIC

Maria K
Dad to clean
the purchase
first -
thanks

Seeds:

4 tins 4# ea--Japanese Eggplant
4# sunflower seeds, or 10 packets
5# Creole Okra
2 lbs beefsteak tomatoes
5 # Mustard
5# Pok Choy
5# Kohl rabi
10' x 40' of 4 mil plastic for garden
2 tins of asphalt priming compound
5 gals. Roger 40 for leaf minors

NOTE: PLEASE NOTIFY TISH BY RADIO WHO ON THE BOAT WILL BE CARRYING THE SEEDS, AND WHO ON THE BOAT WILL BE CARRYING THE INFORMATION OF WHAT IS BEING INCLUDED "ON" THE CURRENT BOAT.. WE NEED A LIST OF WHAT IS THERE SO THAT ALL DEPARTMENTS CAN KNOW...

- 120 bags egg ration for chickens ONLY (you didn't give me for pigs)
- 110 bags broiler starter
- 3 automatic watering units (MUST have for new chickens)
- Need the de-beaker if available. Tim can check them out and get the most efficient one. We have lost chickens from pecking each other... Please do not hold up on this one again...

NO SEEDS CAME IN ON LAST BOAT... TO WHOM WERE THEY ENTRUSTED?????

States JJ said to get all sorts of books on tropical herbs --try to procure or get at very low cost. Not much call in states for them, so should not cost too much. Try gov't bookstore, 550 Golden Gate for govt releases and brochures.

States ~~Adviser~~ Dad approved ~~purchase~~ of "Barefoot Doctor's Manual" for joint work of Dr. Schachter & herb committee.. Can probably phone around SF to the dealers of nutrition books (health stores) and regular book dealers...

~~Adviser~~ { Need some granite or earthenware or crockery pots to be used for making the herb teas --the aluminum cannot be used, affects medicinal qualities. Have Evelyn try to procure in Georgetown -- or bring down from states.. could be packed with some clothing. Label to herbal committee or Tish attn.

RICE BRAN--Ask Evelyn to try to procure rice polish or rice bran.. it could be a rich source of B vitamins for us..and added to our food. Also, if the place "sacks" rice, they might let us buy BROWN, UNPOLISHED rice from them. Dad has asked for this, and our folk can't seem to find it.. it must be available. The polishing takes off all of the b vitamins and main source of nutrition in the rice... Tell Ev to please get on this. Also, tell her to give us some feedback on availability of the bran..

Did they get the sack of sand and sack of cement..it was approved by JJ and was supposed to have been given Gtn already. Need it badly to make a sharpening stone for our tools in garden shed. Dad approved it!

States From used book stores (and if could get someone to go to Acres of Books in Long Beach--call first, only open some days)..get old books on the mfg. equipment of 18th & 19th century. We could mfr these here--tooling the parts and putting together ourselves.. Much of that equip would be good in case of holocaust--We could not make the complicated stuff, but could

PP-11-10-

make the less complicated equipment of that era.. such as cotton gin, paper making methods and equipment, harvesters and farm equipment, steam generators, commodity factory equipment for "necessity" items... While we would not make the equipment now.. we should have the old books available in case we need it..later... These books at "Acres of books" range in price from 50¢ to 1.50..are VERY cheap at that book store.

FISH-- JJ said he wants 5-6000# fish. Can sell some up here if we get it.
(Maria --did this get on radio? said it that night to go on--someone was to send it over..)

Press for feedback on our querries re the pigs?

*Pad to
be advised*
EARLY IN NOVEMBER we ordered 5 tons TSF and 5 tons UREA.. Since Dad has said we need to keep a 3 mo supply, these should be increased to 10 tons each and purchased now, even if we cannot ship now. They can store in garage in Georgetown. What is situation on this? Has one order been placed? Do they have some in Gtn?

States--Tell Rob Tarver we "LUCH" appreciate his efforts on the dairy collection. Needed it desparately... Keep up good work.

Someone in states needs to take on research projects covering light manufacturing methods --even back in 1800's that could be implemented here if times get tough -- on such as paper mfg., jute, hemp, rope mfg., freeze drying, soil testing.. a multitude of subjects we should be collecting. Tell CJ his spare time would be well spent collecting some of this -- and others who can do the research.. Tell him to get it free please.

Maria: Note all "library" markings must be removed from books & periodicals brought down here! As crucial as "someone" could be jailed for petty theft! In dairy material Rob sent was a b.t. library item. We cannot afford this type of economy - purchase or photocopy cheaper attorney fees & a jail record - Code this but get it across - also have Debbie advise them in states -

Thanks -

P.S. Where is the collection of paid bills
Debbie was to bring out? - 4

Isis

PP-11-103 3

3. (cont.) gone, then discuss it with Mr. Gunnis
4. Go check on the three cows and calves at Mr. & Mrs. Sankar and also apologize for not returning the borrowed ropes. They live near the University, tell Evelyn where she took us and it is the place where we were going to drive the cows into the boat dock area but instead had to get a truck.
5. Ask KME Corsby and I. C. Bubba if they vaccinate for any pig diseases and then check with two vets. The disease that I am concerned about is Swine Erysipelas. If so price the medication and its availability
6. Check with the Home Affairs office and find out the laws regarding the branding of cattle and how to get a brand assigned to xxxxx.u

8. *Ask Dr. Alexander if St. John's Building
or their dog can be used*

Please check with Tim Carter about the Livestock Disinfectant that was ordered. It was supposed to have been ordered before he left as Maria's crew spilt all of ours. They are using it for fly control. We need this badly to disinfect our farrowing pens.

STATESIDE: We hear that Rob Tarver got some dairy equipment donated. We need to have some details on this so that we can determine if it is necessary to purchase the other or not.

Thank Dad & You.

Wanda Swimsy

GEORGETOWN:

7. Price and check on the availability of Neo-Sulphentriu. It is a medication used for diarrhea in animals. Also price and check on the availability of Kapectate. Want to compare using the two. *Price for Sulphentriu, DNTC, & Dgtg of
Kapec (per gm tongue off)*

SEED- be sure to store in refrigerator
(This is in addition to what is on backorder)

5# Mustard ✓

5# Turnip

GARDEN TOOLS

We purchased 20 scythes, some time back. We got them out of the box to put handles on, and find that they have no RECEIVING SOCKETS.. We took one from an old broken scythe we had, and have this together. IF THE SOCKETS come with the scythes, then please pick up 20... If we have to buy them separately, then only get 19 since we can use the one we have.

- 1) 19-20 Scythe blade receiving socket ~~XXX~~ EYE BOLTS.
- 2) 19-20 Scythe blade receiving socket securing carriage bolt.

SPRAYER PARTS--critically needed

(Parts for STABILUS No. 354-1, tank of stainless steel...)

2	Hex Nut (plastic)	No.593-1
3	170. 130x230	399
2	Cleaning plug	594-1
2	Discharge hose assembly hose and discharge valves	584
1	Spray Lence brass 50 CMS	365
6	Nozzle pins for No. 375	376
2	Fine spray nozzles (bore 1,5MM)	375
12	Piston washers	472-1
6	Support for piston washers	752-1
12	Valve Disc.	500
6	Service kits containing all washers and gaskets	416-1
2	Discharge valves CPL with strainer	390
3	O-Ring 9 Øx 2,5 MM	440

PP - 11-13d

(sprayer parts, continued)

1	Outlet tube with hose socket	673-1
2	Cylinders	669-1
3	OXING 220x 2.5 MM	470
2	Valve ball 1 $\frac{1}{4}$ MM	512
2	Suction Valve Body	674-1
3	O-ring 24 Ø x 3MM	481-1
2	Seats for pressure valves	682
2	Guide rings for pressure chambers	672-1

From Small Animals, Chris Talley & Mauri -- to RICHARD JANARO
--GET PRICES on medicines, and give feedback for clearance.

- 1) Please contact vet in Gtn and ask about a mild antibiotic to put in rabbits water for prevention of any respiratory problems.
6 mo supply for 9 rabbits.
- 2) Check both vets and find out if anyone has the electramycin in yet (oral form -- or a substitute) 6 mo supply.
- 3) Ask vet about vitamin supplements for rabbits.
- 4) Contact feed company; get information on what is in the commercial feed made in Guyana and what the possibilities are of making what we can here? and adding required protein, minerals, etc.
- 5) Contact zoo and ask any information on DEER --what they eat and what to feed a baby about 4-6 weeks old., etc.

PP-11-14

To: Maria Katsaris
Radio Input to Georgetown
Agric & Livestock - 1 March 78

- *) PLEASE ASK GEORGETOWN TO RESPOND on the issue of our seeds. WHY is there no cooperation on this. Seeds for our gardens are the crops that feed the family out here. We are low in vegetable production SOLELY AND SINGULARLY and ONLY because they have not been getting out to us the seeds we order. This issue is so serious that they cannot imagine it. We must have the seeds available to put in the ground WHEN NEEDED. We should get immediate feedback on seeds the next day.
- The orders that were sent in with Ujara WERE NOT NEW. THEY WERE ALL BACK ORDERS AND WERE SO LABELED... AND SHOULD HAVE BEEN ON THEIR LIST IN TOWN UNTIL PURCHASED. Can I please have an explanation on why this is so hard to process? ~~JKAY~~ Why aren't we getting feedback? IF THE SEED STORES HAVE TELEPHONES, WHY CAN'T THEY ORDER BY PHONE THE ITEMS WE MUST HAVE, then have them picked up? By having to send crews to the bush to scout and pick wild greens, we use 3-4 times the labor to get the same amount of food, costing us phenomenal sums for what would be only a pittance when we have the seed and grow the food in our gardens. THE WILD GREENS ARE GETTING MORE AND MORE SCARCE AS WE PICK THEM.
- *) Maria--attached is list of blades and parts that have been ordered for Philip, on the tractors... Please check with Georgetown that they have this on followup.
- *) Maria--attached also is the BACKORDER list that went in with Ujara. I have deleted what portions came out on the boat--will you please re-issue this, since they apparently disregarded it in town..
- *) 94 Crates--Dad asked that arrangements be made to get the 94 crates off the dock and up here. Has this been done? Can we have the date they have scheduled the government vessel to bring it up.
- *) What happened to the scrap paper weekly pickup from the printer there? Also, the scrap material from the ~~the~~ sewing place that was to be weekly? also the 40 agricultural bags per week we were to get and none of the above was on the boat! SHOULD PICK UP REGULARLY whether or no they get out on next boat. We could perhaps send in a couple of crates to be filled with these items--STATIONERY SUPPLIES PROCURED, and the FABRIC SCRAPS PROCURED...to get them back up here in good condition. IS CRITICAL to us to get the items Dad's energy field has set up for our needs. People will think we don't care when we don't pick up!
- *) Who in capital does Ramniryan have to contact to get us some Sorghum seed. He says he will write and get it for us, but doesn't know whom he should be contacting.
- *) Need more text material on bananas and plantain and any books that might be available.
- 8) What was answer on Marax? We KNOW it is supposed to be given day after birth. But "can" it be given to older chickens who are healthy? Also we need it for our chick we will be hatching ourselves. That is why these now haven't been vaccinated that are here--we hatched them ourselves and didn't vaccinate.
- q) See

RADIO INPUT 24 Feb 78 -- Friday

TO: MARIA KATSARIS

From Tish Leroy

RUSH ITEM PLEASE! Read it on the boat please.

~~X~~ We need 2000 of the small plastic agric bags -- in addition to the 1000 currently on order.

The bags run 3¢ and 5¢ each at Chin Cho's on Lombard Street. Get us 1000 of each size; (you already had on order 1000 3¢ size.)

AN ITEM FOR RICHARD TO CHECK OUT AND GET US PRICES...

2) We have on loan from the government a planting machine. This will save us MUCH time in our planting. However, the machine needs repairs and a couple of parts -- and we will need some additional "plates" to go in the hoppers that let the seed down, in different sizes.

In looking thru catalog, Philip identifies the machine thus:
Looks very much like the Massey Ferguson -- MF-37, which has 4 hoppers. Our is the same, but it has 2 hoppers. Philip says looks same in every way..

It is an older machine, do not know how old.
Was bought at GNTC when the store was "Sandbach Parker's" -- which was a Massey Ferguson dealer. After purchase, the government had it originally at Mon Repos, so they might have a record on it.. (it is now broken down and we need a parts book on it, and an instruction manual if one is available.)

WAS PURCHASED ORIGINALLY FROM MASSEY FERGUSON INDUSTRIES, LTD., TORONTO, ONTARIO, Canada MGK1E3.

For purposes of identification: NOT FOR ORDERING
On plates, the number is: 488364 MI Hadrich
Disc below plate: #089074 MI
Driven sprockets: Large 20 tooth #440851 MI
Med 18 tooth #44E110
Small 11 tooth #3741 32-IN
Drive sprocket 9 tooth #3733

Rim -hopper
Bits on #689 11 4 MI
Auger 689 090 M2
Planter base 689808 MI

PRICES NEEDED ON THE FOLLOWING PARTS WE WILL BE WANTING TO ORDER..
NEED PRICES SO DAD CAN CLEAR:

- 1) Lost drive chain; only have one and need another.
- 2) Need another (have only 1) of large driven sprocket 20 tooth which is #440851 MI
- 3) Price also 2 each of the following plates for planting: blackeye peas corn, cutlass beans (like large limas), peanuts, mung beans and if they have any small plates for vegetables - price them too.

NOTE: TRACTOR METER ON NEW MASSEY IS NOT WORKING RIGHT. WE REQUESTED NEW

one but they did not have it in stock at time. Check again, please, with GMPC and see if they have one in yet.

AGRICULTURE IS DESPERATE FOR SEEDS AND IT'S START IN... THE NEWS SAY BATS FROM CHIN CHOC'S on Lombard are critical for us in saving plants and trees for our nursery. Tomay brought in 900 coffee trees seeds and we have only 200 bags.. URGENTLY NEED THESE BAGGED OUT OF CHOC. They can mean difference in our saving plants for our tree nursery.

At least a partial order on the pigfeed should be on the way soon.. and the rabbit feed.. Be sure to remind them to refrigerate vacuum.. and refrig. on the boat..

DAD SAID MARIA TO CHECK DAILY WITH GEORGETOWN TO SEE IF THEY HAVE GONE TO GUY-CHICK to get the problem straightened out on the 153 chicks we lost? Will ~~we~~ we get the replacements? Will they give us a cut in price for doing own debeaking, and own inoculations except for Marax and the one to ~~mapxham~~ relieve them of stress for the trip.

NEED RESPONSE ON THIS DAILY.. I will be back up around 4:30 to check on this --send word if you find out sooner.

REMINDER ON THE ADDING MACHINE...we are hurting for it.

Thanks,

Tish

26-11-76

TO: MARIA KATSARIS
RADIO INPUT TO GEORGETOWN
Sunday, February 26, 1978

from: Tish

- 1) Tell Ujara to put prices on EVERY ITEM on the list. The town people should know it or have the bill, if they bought it..the farm people should know if "they" bought it. If procured, label it procured, and list the approximate value.. ALSO, PLEASE HAVE TERRY SEND OUT ALL OF THE BILLS. HAVE BEEN ASKING OVER TWO MONTHS ON THIS AND IT IS HOLDING UP OUR ENTIRE COST PROJECTION DAD ASKED FOR.
- 2) What happened to the PLASTIC FOLDERS FOR THE MEDICAL DEPARTMENT THAT WERE TO COME OUT ON LAST BOAT..OUR MEDICAL FOLDERS JUST DO NOT HOLD UP AND THEY ARE FALLING APART..I HOPE GEORGETOWN DID NOT CONFISCATE THESE--THEY WERE GOT ESPECIALLY FOR MEDICAL AND ARE VERY COSTLY. PLEASE GET US IMMEDIATE FEEDBACK ON THESE AND GET SOMEONE THERE TO TAKE RESPONSIBILITY AND HAND CAREY THEM TO THE MEDICAL OFFICE OR TO TISH LERCY OUT HERE.
- 3) Is the molasses for the cattle FREE or if a cost, what is it?

FROM THE STATES

Please give memo to ALICE INGRAM from Harold.. He needs his adding machine and typewriter. The adding machine could be packed in a crate coming down, and the typewriter should be hand carried as an ONLY ITEM.. If they have other stuff or another in-hand case, the person cannot carry the typewriter topside..they are only allowed one item topside that can go under seat from New York on because the plane is stripped to hold more seating capacity..and there is danger of flying objects if they can't be secured under a seat should they hit an air pocket, get in a storm at sea, etc. THEY ARE VERY RIGID WITH PEOPLE..

MARIA--the following medical list is also to go to the STATE..it was thoroughly researched by a medical team comprised of: Larry, Dale, Annie, Don Fields, Joyce Parks, Liz R., Renie, and I was there as advisor on ordering and indexing... Vernetta came a brief time and left..said had to go to another meeting.

IN ALL CASES they are going to the generic product over the trade names, as he is no doubt knows this saves a lot of \$\$. One item, for example was 95¢ in the generic..the same item, and the same quantity in the trade name was \$35 and was an item our people regularly used... I felt they were critical of cost, and tried to be conservative in their costs, and conscientious in their evaluations. THE ATTACHED IS A REQUEST FOR A 6 MONTHS supply...of what we regularly need --and some we are getting low on.. so all of this should be gotten soon as possible. WE NEED TO BE TALKING TO THE GOVERNMENT ABOUT GETTING AN IMPORT LICENSE FOR JOYCE PARKS ON DRUGS AND MEDICATIONS...We cant get anything thru their store,

R A D I O F O L L O W U P...

GEORGETOWN

- 1) REPEAT DAILY UNTIL WE GET A REPLY...

Chickens Lost 153 chicks; faulty debeaking..

We want to do our own debeaking, and all of the immunizations but Marax..which must be done on day of hatching.

PUSH FOR A CIVT IN VENEZUELA. What is the shot they give to help them make trip easier? What is the cost--let us know about this immediately. Want all of this settled before we get the next batch of chicks.

MARIA-daily follow up with Georgetown on this till get reply.

- 2) Dr. Fernandez -to research for us on yeast from cassava flour--check with him on this.
- 3) Ask him what "Laracipeles" is.. we know about Laracipeles.
- 4) 300 toilet seats.. can we sell them in Gtn?
- 5) Maria K-get list of the stainless steel used equipment from our San Francisco Temple we want to bring down here to use in our facilities here--see if customs will let us bring in okay? CLEAR ALL OF IT AWAY, S.I.D JJ. We need immediate feedback.
- 6) Richard check on the availability of flour and needed ingredients to operate the bakery we are considering. JJ must know immediately.
- 7) PUSH for medical and dental appointments for those coming in on the boat. PUSH and get them back soon as possible. Try to see if JJ would like to give Bobby and Joan a turn at home.

~~KK~~ SPECIAL INFO TO MARIA: JJ wants to know exactly the P.R. contact made "each" day, as they are made.. just know exactly how much income each day as it comes in. Just have weekly balance on time!

- 8) Appeal to Minno..JJ is ordained to try to get him certified to do our marriages. Has been minister over 25 years..

FROM THE STATES:

- 1) Safety Glasses are needed for welding and machine shop work. Get them with clear lenses.. Jane Hutchman would know about this.. Need something with protective sides on the glasses.. JJ said bring over as personal effects with the group coming over.

Repeat: ~~for your calendar:~~ Maria, sent you during rally last night memo to radio Gtn since Mother having meeting with Min of Agric today, 22nd, to ask him about getting us a LWD RACER LOAD HUB.

for your calendar: Dairy Court, July 3, 1978--reserved seat for us at the seminar..Dr. Fernandez visit..information came then.

cardyn? QSO's: Make index of call signals, professions & names..keep file there on file. *PF-11-17*

MARIA KATSARIS
RADIO INPUT -- Georgetown

Feb 23, 1978 from Tish

Note: Maria, you have possibly gotten this al ready--but am putting it back through in case you didn't. I think Wanda turned it in-- Is most important for the livestock people to get as much as possible on the boat.

1) Pig feed 103 bags Pig starter @ 17.35 ea 1787.05
 108 bags Sow ration 14.87 1605.96
 189 bags Pig grower 15.95 3014.55
 6407.56

This is 400 bags, to meet the 3 mo feed-on-hand which Dad required be ordered. Wanda says the few bags on hand in Gtn are from another order, and should not be counted in this.

2. Get this from Geddes Grant or GNTC

Enough vaccine for 30 pigs (150-180# weight) and instruct amts. to use if it goes per pound, etc. How early should the baby piglets be vaccinated? etc. Dr. Fernandez can be called for this information.

Pig vaccine for Erysipelas
" " Larasipelas

3) Equine Encephalomyelitis vaccine (for horse sleeping sickness)
Get the three-in-one shot (Eastern-Western Strain) 4 doses;
be sure ON ALL VACCINES to check the EXPIRATION DATES...we don't want any that isn't good for a while, though will use most of it relatively soon in all probability.

VERIFY THAT VACCINES MUST BE REFRIGERATED-- AND BE SURE IT IS REFRIGERATED IN TOWN AND ON THE BOAT. Thanks..tl

4) We are hurting for the 500# livestock salt, and the 500# trace mineral #105, the 4 containers 1 litre ea of Nilverm Wormer (prefer injectible but can use drench--try to get at least one bottle of injectible), 1 bottle nitrofurazone and 1 caustic potash stick for bleeding.. ESPECIALLY THE SALT & MINERALS.. THIS WAS REPEATED ON ORDER SENT IN WITH BOAT OF ITEMS BACKORDERED..

Dr. Fernandez suggested trying Geddes Grant and GNTC --if not avail, then go into latter store and order direct from Gr Brittain..

Try for it at a discount as it won't be AT COST like the Dept. of Agric. is giving it. (TRY THERE FIRST).. Also, J. P. Santos carries other livestock supplies. Suggest talking to John Fernandez -- verify if that is the correct brother..said Wanda...

BE SURE TO CHECK AND SEE IF WE CAN GET THE MINERAL, VITAMIN & PROTEIN CONCENTRATES IN BULK --then we could use that instead of the regular feed..

- 5) 1 horse brush (Richard can select suitable type for our horses)
6) 1 gallon of 2% formalin

pp-11-20

Agriculture & Livestock meeting
Radio Traffic from meeting of
7 Feb 78 Tues eve

To: Maria Katsaris
From: Tish Leroy

- 1) Charlie gave you some information to get from Georgetown. Dad is waiting for followup on costs of 20 additional cottages, and bunks, and you are to get prices for Charlie on this from town. What has happened?
- 2) JJ said to radio people in town --what about the 35¢ fish? Ask about others.
- 3) Generator in town on dock awaiting repairs. Parts were to be gotten out of customs by the repair people.. What has happened. We need the generator desperately. Richard J. will check further on it when he comes in, but what is happening now?
- 4) Richard Janaro to talk to people in states and give them list of banned items. STRESS that it holds us up in customs!
- 5) Letter from Truck people in England was at our former address; check this address regularly for any mail that may go there. An invoice sat there for months, and we did not know it was there. The letter we are expecting is worth \$60,000 to us...
- 6) Followup and see if Gtn has checked with Brittain on the steam generator and on the trucks we have paid for. When will be getting them?
- 7) Has Gtn been instructed to send us out some cats to catch rats at the cassava mill?
- 8) Ask BRI is our storage fee on the dock still deterred? or are they now charging us storage costs for what is being held up in customs?
- 9) Check with BRI -when will next batch of chickens be coming in?
- 10) Tell Evelyn to carefully bundle the paper and rags or scrap material and send out on boat.. Attention Tish--Give to Ujara to give to me.
- 11) Wanda said we need to vaccinate the pigs and asked for vaccine to be cleared, but we did not get name of it. Did she give to you? is on learning crew.
- 12) Find out what McKenzie likes to eat and have something nice for him.
- 13) Need 1000 small plastic planting sacks, cost about 3¢ in Gtn -total of \$30. Can be bought at Cho Chin on Lombard Street, second floor.

PP-11-21

TO: MARIA KATSARIS

Radio Traffic
Agriculture & Livestock
Followup as of Feb 14, 1978

GEORGETOWN

- 1) Information needed on the "leafy" variety of sugar cane for use in cattle and pig feeds. Where can we get the planting material, also.
- 2) Please call Percy Crosby; ask him about pipping of chickens: how early? Other info about chickens..
- 3) Contact Mon Rapo --try to get some whitewash for our citrus trees.
- 4) PRICES NEEDED SOON AS POSSIBLE--Please phone on this.
Corrugated Aluminum roofing _____
Wood-tongue & groove _____
Wood-lap siding _____
- 5) What is happening on rabbit food; have been out of it for over a month; have had on radio reminders several times...
- 6) Reminder--Serious when we don't get seeds, insecticides and Agric supplies. No seeds--will cause period when no veg on table for anywhere from 2-4 weeks! WHEN WE SAY URGENT on an insecticide or fungus problem medicine, it is because that problem is presently attacking our crops.. in a month, WE MAY ~~XXY~~ HAVE BEEN WIPE OUT OR AN ENTIRE FIELD.. They MUST respond on these emergencies. They are making value judgments without information when they ~~ACQUIT~~ we are crying wolf...~~XXXX~~Snails are wiping us out because we did not get metaldex or metaldehyde..in the entire kitchen gardens. Failure to get other supplies causes equal problems..
- 7) China trade mission for info on nightsoil or human manure.. IS ON BRIDGE LN, 1 block toward town from police station across street Also ask Dept Agric if they have any info on use of nightsoil
- 8) DAD ASKED US TO GET PRICES ON INSECTICIDES --QUITE A WHILE BACK.. HAVE PUT THRU SEVERAL REMINDERS. WHAT IS WRONG ON THIS.. Also must have the bills brought out or sent out (with Tim Swinney probably) from town. Is holding Tish up on both projections and cost analysis projections for farm which Dad has asked for over month ago...what is holding this up?

STATE: PLEASE SEND DOWN 10/2inch binders (3 hole) and about 3 reams of RULED 3 hole paper for Agric Office. We are starting some special notebooks, to register information and have nothing to keep it in. Also need 2000 3x5 cards. WHAT HAPPENED TO THE PRINTED FORMS FOR AGRICULTURAL DEPARTMENT WE SENT FOR AND DAD APPROVED... Should be hand carried down here..in a crate. MARK ALL ITEMS FOR AGRICULTURAL OFFICE, ATTENTION TISH LEROY. --Ask Betty to go to Argo Health Store-See about Buchu tea or Thanks Much.. berries or seeds...PHONE HEALTH FOOD STORE GEORGETOWN & SEE IF CAN LOCATE WHERE TO GET SEEDS. VERY VALUABLE HERB. SHOULD NOT BE VERY EXPENSIVE.. -Tish 2/11/78

To: Maria Katsaris
From: Tish (Agric/Livestock Comm)
15 Feb 78 -- Wednesday

RADIO INPUT TO GEORGETOWN

- 1) Please contact Joe Lambert at Guyana Marketing Corp and determine our marketing possibilities in Georgetown of Cayenne and Plantain.
- 2) There was an old sugar plantation in Gtn. See if you can get the old cast iron kitchen pots, utensils, for Jtn. Also, there is a castiron factory in Gtn. See about costs of having a large grill made for our stoves on special order; and if they have any utensils we might procure... See if there is anyplace in Gtn we can buy "grill" steel. Is a special non-porous steel that can be used for making grills.
- 3) Find out availability of buying vitamin and mineral concentrates that can be added to our foods.
- 4) Someone in Gtn go over to Dr Ferrands and stay there couple days at their chicken ranch; Dr. F. invited us to send someone... learn all they can about how to raise the chickens..what they do...etc. how they feed.. write us up full report and send it out.
- 5) Please check out marketability of pineapple on commercial basis in Georgetown. How much could they use? price as it is now running..
- 6) Still awaiting prices on tongue and groove, lapsiding and flooring.. can you phone and get us the prices?

STATES: Please get us price on 200 egg capacity incubator.

WHAT IS HAPPENING ON INFORMATION RE BEE HIVES. WE HAVE LOST 3 swarms of bees we could have caught because we have no hives. --in one week last past.

What has happened on the following ordered and not received?

- 1) We are out of rabbit feed. What do you expect us to feed rabbits? Have been out a month and they're carrying young ones..need feed. Waiting for trial also quantity
- 2) Please send out the black mesh netting. We need it.
- 3) Please send livestock disinfectant soon as possible. Waiting for quantity
- 4) Please enquire further about the herb, kumkum buchu berries here & in states..
- 5) STATESIDE: SF was asked about 3 weeks ago to get info on additional wing bean seed. 3 sources were given: THE ASIA FOUND.TICKY, SF., A nursery in Homestead, Florida; and a nursery in Hilo, Hawaii.. Please follow up. The Asia Foundation is supposed to have seed ON HAND. Reference: Wing Bean Flyer, Volume 1, No. 2.

PLEASE ASK EVELYN TO TRY HARD TO GET US MORE STATIONERY SUPPLIES PROCURED FOR THE NEW AGRIC OFFICE.L.TELL HER TO SEE THAT THIS GETS ON EVERY BOAT COMING OUT--Either/and the paper and other supplies, plus the cloth she picks up. Send Attn Tish or Agric ofc. Tell her we need a pencil sharpener badly, more carbon paper for typing, and manila folders.

GP-H-23

To Maria: -from Tish
CONFIRMATION of Radio input to Gtn & States from
Ag & Livestock meeting of 18 Feb 78

GEORGETOWN

- 1) Followup on 10 horsepower Jacuzzi portable irrigation pump which Richard previously checked out. GET PRICE AGAIN, and clear with Dad for purchase. Has been approved thru Agric Committee & Dad was present.
 - 2) Cassava Starch-get info on who might take our cassava starch and refine it for use in bauxite. Can call the Bauxite Co in Gtn and enquire of them.
 - 3) SODA POP BOTTLES--be sure they are filled to come out on boat this next time in. Also, if we have folks out door to door--can try to collect more bottles..since get filled free.
 - 4) Need prices from Guyana Pharmaseudical on vaccines for chickens: Marax, Poul Plaque and Newcastle -does price change with quantity?
 - 5) Contact Guy-Chick re last batch we received; 153 died; Dr visited here and said the tongues were broken and they had ~~big~~ debeaked incorrectly. Carelessness..or person who did it did not know how..
Kenneth Chowgan used to own GuyChick and always made good.. If he is not there, try to contact him thru his brothers' place.. brother owns Redcone. Talk with him directly. Tell him about it-- see what he says. We want another 150 chicks to replace those we have lost --we are trying to save the rest, but may lose more.
- FROM THE ANALYSTS MEETING--for the Georgetown ofc
- 6) Ask Richard if the welding rods have been gotten. If so, send in a handful..we have equipment WAITING on it for repair..holding up some of agriculture.
 - 7) PRICE ONLY, do not buy --procure if you can.. Need price on 5 gal hand (pump) sprayer for garden use.. Several of ours are down and can't get parts..if can procure any, please do it..
 - 8) Richard, in your wanderings -- we are considering some horse-drawn plows, and prices on some teams of work horses.. Also if there is any horse drawn equipment "around.." ENQUIRE-- of course, procure anything you can get..don't buy anything at this time. Analysts are planning several years ahead.

PP - 11-24

FROM: Shirley Fields, nutritionist and consultant
on the last making & animal feeds.

- 1) Can someone please contact Banks Brewery in Georgetown and see if they make their own Brewers Yeast and see if we can get any information on it.. Also, is it available to procure, to buy, do they have chemical analysis of the nutrients in it (particularly the amounts of the B vitamins therein...). We would especially like to make our own for our livestock..and for human use also..

Ask if it is used in making marmite?

- 2) Please see if you can locate copy of GUYANESE FOLKLORE DICTIONARY which has herbal research in it. Price if you can't procure it.
- 3) From Ministry of Agriculture, find out about securing wheat --unprocessed. There are supposed to be papers we can fill out saying we will not use for resale, etc. Also, can you find out about BRAN.. both from wheat and rice.. the milling are separate, and we are interested in these for stock feed.. We want whole wheat and brown UNPOLISHED rice for our human consumption, and perhaps in our stock feeds.

We need manufacturers instructions yet on the following,
with ANTIDOTES...

Nemagon (Nematocide)
Basudin 40 (insecticide)-^{Important!}
Metaldehyde or Metadex (for slugs and snails) ^{pp - 11-25}
Planavin (Herbicide)
Phosvel E. L. 0-12,5-Dichloro-4-Biphenyl-0-Methyl

BACKORDER: Asphalt grafting compound--2 tins. Some was bough.
recently for the piggery. GEDDES GRANT OR BOOKERS
HARDWARE might have it or enquire of the Curatrix office
across from Ministry of Agriculture. FOR NURSERY & CHAIKIN.
WE ARE WORKING HEAVILY WITH GRAFTING AT THIS TIME AND NEED
IT VERY VERY MUCH...PLEASE GET IT ON THE BOAT IF POSSIBLE.

PGB015

PAPER...PAPER...PAPER... Need procured paper of all
sizes. Please try to develop more than one source. We need
it for our school and for the reports our family is doing
weekly....All adults and children are doing weekly news
reports and turning them in at their political enlightenment
classes...We need the larger sizes of paper. Also need
larger heavy type paper which can be used for maps, etc.
Please make your regular pickups, BOX IT CAREFULLY....SO
THAT IT DOES NOT GET WRECKED COMING OUT HERE....AND DO
MARK IT TO ATTENTION AGRICULTURAL OFFICE, SCRAP PAPER....
SO WE KNOW IT IS PROCURED.

TO: MARIA KATSARIS
Radio Input -- Georgetown
From: Tish Leroy

Thursday 20 April 78

-1-

PG 101 URGENT. Try to get on the boat home...1 box of 1/2 inch fine thread nuts. (Get at Guytrac. Must be regular caterpillar "hardened" nuts. for Philip)

PG 102 *(Large handwritten note)* 45 bags @100# each of cattle feed. (This is a back up so that we do not get caught without any feed if we should have to keep them in during rain and if we don't have enough hay. Feeding as a supplement feed at night, this will last 90 days. Cost is about 18.00 per hundredweight. (cwt)...

PG 52-REPEAT--URGENTLY NEED THE 2% formalin... Be sure it gets on the boat coming back.

PG 103 6 small hand sharpening stones for Orchard department. (Need to sharpen the cutlasses, loppers and pruning knives -- maybe 2" and 3/4" -- both rough and smooth stones. I don't know if they are available in Gtn or not, but will not be expensive.. Is for Gene's crew.

REMINDER... We are desperately in need of seed for the garden area.... Specifically at least 2# mustard, 5# purple top turnip, 2# spinach, 5# chinese mustard, 5# chinese cabbage, 2# Chantenay Carrots... WE HAVE ORDERED A LOT OF SEED ON BACKORDER...BUT WE NEED THESE LAST WEEK IN ORDER TO KEEP FROM HAVING ANOTHER 6 MONTHS WITHOUT VEGETABLES ON OUR TABLE!!!!!!

REMINDER... were you able to get prices on commercial quantities of sodium carbonate (Na_2HCO_3) and Sodium Bicarbonate (NaHCO_3)

PGB 014 *(Large handwritten note)* 10# Nylon (polyethylene) twine for tying up our various items in gardens. DO NOT MAKE VALUE JUDGMENT AND DECIDE IS TOO EXPENSIVE.. WE ARE LOSING FOOD BECAUSE WE DO NOT HAVE IT!!! Need it to be about 1/8 inch diameter for planting lines. *we are losing & use wire which is MUCH more expensive.*

REMINDER... You were to get citrus information for us..what happened? Also need marketing information on citrus.

REMINDER... Someone was to go to the Dept of Agric, or phone them...and ask when the breadfruit trees send out shoots...it is only one period a year, and we have asked severaltimes for someone to find out.. Or the government gardens would know...

IGB-001 INFORMATION BACKORDER...We asked about information on purchasing of CANS for a cannery...this would probably be #3, 6 and 10 cans.. or from 1 pint through the gallon size...Probably pint, quart and gallon sizes...Are they made in Guyana? Venezuela? AID puts out a booklet, Small Canning Facilities... What supplies for a cannery are available in the south american area? are the prices reasonable? outrageous?... as soon as is practicable....look at the imports from the ~~main~~ country of the newperson that was recently out here... We need to begin finding out what is available from that source. Our friend mentioned this publicly.

PG 104 2 Pair Rubber gloves for when we handle and wash suckers in insecticides. (for Kutulas, bananas)

Items not listed in a catalog.

1 hot plate (used is ok)

6 draw spring Scales scaled in grams
ounce and or pounds

I am in BAD need of a Good psychological
Dictionary. PLEASE RUSH ONE HERE!!!
Perhaps you can procure some health
books. We can use books on all levels but
particularly levels 4-8. We need a
minimum of 15 copies of levels 4-6 and
30 copies of levels 7-8. We have nothing
in this area.

Procure and send cigar boxes up to 50.

How is the acquisition of Crafts material
coming?

We are now Peoples Temple Community
School. We are respected and envied.
Also, we are looked to for a sample and
example. However, our crafts program
is weak, weak weak.

Also, an already approved Rush

P.F. 11421

item, 4 months ago Dad sent Mike R out of service to put a Rush order for the following Photo Supplies

Super RT developer, 10 sets of 2 packs
16 black, screw cap, re-usable 35 mm
film ~~canisters~~ cartridges

This is a short request.
But the items are urgent.

Thank Dad, thank you,
Tom Grubba

MEDICAL

PP-11-43

TO DAD:

May 12, 1978

FROM PHYLLIS & JOYCE PARKS

REGARDING: ORDERING OF MEDICAL SUPPLIES:

We had an emergency meeting of the medical staff members on May 8, 1978 to assess the needs for additional medicine and equipment. The list attached contains names and some prices of items most essential. There will be other surgical instruments not included on this list, added next week after correct order numbers and prices are received.

This list was given to Debbie Evans last evening over the radio and is awaiting clearance before purchase in it's entirety. Mother and Maria gave the O.K. for transmission last evening because of Debbie's work schedule. We felt it necessary to talk with her directly in order to avoid mistakes and delays.

May 11th, Mother has talked with you regarding the needs. This memo is being sent so you are aware of specific items purchased and prices.

We have given Debbie the O.K. to bid \$300-\$350 on overstocked items amounting to \$11,000.

Thankyou for your constant love and attention.

Joyce Parks

RESPIRATORY THERAPY CONTINUED:

10- Oxygen humidifiers.....\$18.50

TOTAL COST APPROX. \$967.50

GENERAL SUPPLIES TO ORDER:

TO PURCHASE:

5-Central venous pressure set ups.

1-abdominal paracentesis set up.

2-Sengstaken-Blakemore tubes.

1-3 way bladder irrigation set up.

Amniotomy hooks 4 if autoclavable
 12 if disposable

10-Subclavian catheters (various sizes)

5-Pleuravacs

20 Sticks-Bonewax

1-Reusable spinal tap manometer

TO PURCHASE: LARRY SCHACHT ORDERS.

1-Head halter for cervical traction with pully.

1-Gardner well skull tongs.

6-Ampules Contrast media for myograms.

12-1000 cc Sterile normal saline irrigating solution.

1000-Safety pins.

PRICE ONLY (WITHIN THIS WEEK)

1-Doptone

1-Nodest Cardiac Monitor and defibrillator

1-Emerson Chest suction machine with all tubing, bottles and connectors.

THINGS FOR DEBBY EVANS TO DO:

Get: Information regarding emergency burr holes. Question: Can we use a regular electric drill and just use burs and bits? What sizes would be appropriate?

pp-11-45e

THINGS FOR DRS BY TO DO, CONTINUED:

Page Six

Get: Information regarding emergency tracheostomy set ups and permanent Jackson stainless steel trache tubes with cuff adapters.

CHECK TO SEE: If we have a biofeed-back machine in San Francisco.

CHECK: Into Anesthesia Machine.

RUSH: Go to blood bank in San Francisco on Masonic and get complete information about cross matching of blood, blood bags, reagents, and any other necessary procedures or equipment.

GO TO: Blood Gas Lab, 7th Floor ICU Unit, U.C. Hospital and try to get hold of Dr. Severinghouse (Inventor of the Blood gas machine Electrode Unit). Get all information-how much it would cost, how easy it is to maintain and repair, the availability of parts-or any suggestions on alternate machines that would be practical. (U.C. Medical Center).

QUESTION: What is going on with Cauterizing Equipment? If you don't think it's wise to fix it, get a price on a new unit.

We need a water filter before the water distiller can be installed. The water distiller we have is Barnstead, Boston, Mass/Sybron Corp. 10-5-78

ELECTRICAL DEPARTMENT

OSCILLOSCOPE-Hewlett Packard is the best. If not available get the same type that John Hennecka has in U.S.

WATTMETER- Model 43 Bird Wattmeter "UHF" and "N" Jacks.

WATTMETER- (Has been ordered) 1 phase, 3 phase, 110, 220, 480 and 2400 Volts. 500 KW for all 1% accuracy.

FET TRANSISTOR TESTER-

UTVAC VACUUM TUBE VOLT METER, ANY MODEL.

RECORDING VOLTMETER- GENERAL ELECTRIC

1 YEAR SUPPLY OF SCROLL PAPER

We need Schematic for all machinery manuals and trouble shooting guides. It would be helpful if the manual also stated what type of tools are needed and if any special tools are needed.

ORDERS FROM WADDC

- 5 lbs. of glitter.
- Portable watt meter that will measure 3 phases simultaneously, 1% accuracy, and a voltage rating of 220 - 3 phase, and 460 - 3 phase.
- 1 megohmmeter (also called a Megger), instrument that measures resistance.
- Any recent slides of the project.
- Ask Florida, Vee, or McElvane to ask Esther Johnson in L.A. to send Janet & Mark Readers with Teachers Guide, City Days / City Days readers, Just for Fun Readers, Phonics Books, Pre-Primer and Primer Reading Books, Kindergarten Math Books, and any other H- fifth grade books. Ask Florida to send as many of the Jr. High School Reading materials as possible.
- Ask Alice Ingham to send as many of the Instructional materials they are in the trunks. Can be crated to be shipped by surface.
- 50' rolls of bailing tape.
- Right, pre-tinted replacement lenses for Carol's eyes from Dr. Kittin.
- Close out Dorothy Simpson's bank account.
- Collect the rents from Berda T. Johnson's property.
- 10 pints. of dark green dye.
- Chain nets for the kitchen.
- Carpet scrap.
- 10 tape recorders with radars.
- Glasses for Christine Young from Dr. Silverstein on Market--Guy Young.
- Pyrrochlorothiazide, 50 mg. 3000 tabs. We use about 400 tabs/week.
- Soap and soap powder
- Literature on making adobe bricks.
- 6 rubber spatulas
- 10 boxes for baked goods
- 5 each magnetic starters size double 2 # 0, 1, 2
- Book from Spader's on kiln drying wood.
- Seeds from the fruits of temperate zone fruits and berries, all varieties. Fill save 10% rather than buying plants.
- Ask Alice to send the Fatigue pants and green tee shirts she has.

PP-11-510

--I ore books to ask Esther Johnson from the Curriculum and Reading Materials Bureau, California State Dept., Sacramento, Calif., for 1967. To take 25 copies of the A - D for her version and the teacher's edition along with it, and the teacher's edition.

--25 cases (12 cans/case) of clip-on and 16 cases of clip-on
with tips.

--eller says there are 3 sets of clip-on cuffs for electrical tools under the table in the shop. Please send them.

--Price plastic sun visors at Interstate or National Delivery Center.

--Send Sam Chitt's shoe repair tools in the shipping box used by Marcelle's truck.

TO: MARIA KATSARIS
PURCHASES --To the States
23 March 76 -- Thursday --RADIO INPUT

- PS#1 Please go to a health food store in SF and get 2# of unsalted and UNROASTED(-- THAT IS NOT ROASTED AND NOT SALTED) pure, raw sunflower seeds... SEND THESE DOWN TO US. ALSO GET SOME OF THE JERUSALEM ARTICHOKE tubers from either a healthfood store or the grocery store... Safeway sometimes has them, and so does the ARKO health food store Betty knows about down on Geary... we used to go there occasionally and spend allowance on kefir.. I recall they have both of these items. It is down in the avenues about 22nd Avenue on Geary.... 5#
- PS#2 Organic Chemistry by Morrison & Boyd-- they have this at the city college book store, or state... Contact Rob Carver.
- PS#3 Also need a good BIOCHEMISTRY BOOK.
- PS#4 We have been asking for some time for books on MAKING OUR OWN YEAST.... for the development of B vitamins in our foods... and in our feeds. Please consult with some specialists on this. (Maria -- MIGHT ALSO TRY ON THE QSC's PCR THIS.... You might contact the wholesale vitamin people we used to deal with -- ENTERPRISE CO., see canceled check in the P. T. Co-op account.... also might have some info on it in the Co-op paid bills for 77... THEY BOTTLE THEIR OWN VITAMINS, so would know who to contact or whom we might contact...also, the biochemistry professors at Berkley and Davis might know... THIS IS A MOST CRITICAL ITEM.
- THE FOLLOWING IS A REPEAT...WE NEED FOR THE BEES...
If it is already gotten, fine...if not...please get on it.
- PS#5 Two grafting outfits for queen rearing (est. \$10)
- PS#6 2 cell dipping outfits (for making our own queens); will use after hives get going and we find the best queens...
- PS#7 2 of the "supers" were cut incorrectly and we had to have them re-cut locally out of other wood. Parts were #20105 --2 extracting supers. (Please give credit on other items --gotten at Dadant Bee Ware).
- PS#8 MISSING FROM OUR ORDER: 6 spools 5# ea Foundation wire. (needed badly)....
- PS#9 MISSING FROM OUR ORDER: 1 of the 3 hoods ordered...so far, we have gotten none and we need at least one. Will eventually need all three and none came in the order. Urgently needed. Can train no one without this.
- PS#10 MISSING FROM OUR ORDER: 3 smokers. Must have at least one immediately --use them when bees swarming, and to get new hives of bees.
- PS#11 PROCURE. Did they get the message we DO WANT THE PELLETIZER? THERE IS NONE IN THE N. W. DISTRICT, AND WE WILL NEED IT TO DO OUR OWN FEEDS...when we add the multi viat-mineral nutrients, etc. Please give us feedback on this. IMPORTANT ITEM.
(cover)
- PP-11-60-*

Maria:

Gene mentioned that the Synanon people gave us a whole lot of the PVC pipe, and he told Dad we should take only 10,000 feet of each of a couple of kinds... but if we have the boat...we should take it all. What we don't use ourselves, we could GIVE to the government for their other projects and communes.... would be good for P. R. and in exchange, perhaps they could pay the fuel to transport it down here--or part of the fuel.... Is likely a banned item since the government manufactures it... however, as we spread out over this acreage -- possibly we could use a lot more.... AND, CHANCES ARE, IF WE COME IN WITH OUR OWN BOAT...THE GOVERNMENT WILL NOT DO SUCH A THOROUGH SEARCH OF THE CONTENTS...AS THEY WOULD IF IT CAME THROUGH A COMMERCIAL CARRIER... ESPECIALLY IF WE WERE RETURNING TO GET THE REST OF OUR "PERSONAL" BELONGINGS.....

We should maybe find out the canal costs....for taking our ship thru Panama....in case we would decide to go around to SF...or if the costs are too much greater than the costs of shipping across country to Galveston or Miami...then we could of course forget it.... We were in fact getting a pretty good rate from that commercial trucker....so might be cheaper than taking our ship around...also, the less time we spend in U. S. waters, the better I would like it...might be better to go into Miami and stay closer to Cuba..... You might mention these possibilities to Dad...though am sure he likely has the best strategy already worked out on this in advance.

---Tish

PP-11-606

JR.

On hand, in back yard warehouse.

240 lbs red clay, molding, in brick size cylinders, not for children ✓

~~10 rolls plastized wall paper, 48 inch rolls (used) dia, left
on rolls varies from 4 to 8 inches, varies in color and texture~~

2 outdoor lamp cover and reflectors 3 inch hole top and 24 inch spread, suitable for outdoor sports. ✓

2, 4 gal pails, steel alloy, tall and slim. ✓

~~1. round plastic childrens snow sled with weak grips, easily
breakable, saucer shaped, 30 inches across.~~

1, case of stainless steel measuring cups and spoons, cheap
quality, smaller sizes. ✓

1, 1 and $\frac{1}{2}$ H.P. motor with blower attached. ✓

1, Hide a Shelf, spring and bar mechanism, like for fold
away typewriter table. ✓

1 washboard. ✓

4 ventilator housings, Theramador Model 12H, 6x7x8 inches. ✓

6 electric radiant wall heaters, Theradore Model, RB 121, new,
but with no fan. ✓

~~100 plastic wall rings, (Toowel holders,) very cheap, easily
breakable.~~

~~plastic bread boxes, very cheap quality.~~

80 small 4 oz aresol cans of Elmers Slide All, magic lubricant,
Sprays Teflon film. *Froissé like Sun Tan oil in drum*

~~King size Tray table; folding type, cheap quality.~~

6, 16 inch light covers for regular bulbs, porcelain. ✓

10 lbs of door bell parts and 10 volt transformers. ✓

52 gallons steam Cleaner concentrate in plastic gallon jug, which
work good on cleaning bus engines, won't harm aluminum,
says Erwin. (Alkaline) ✓

6 Emergency lights with rechargeable batteries, (working???) ✓

32 gallons Rug Cleaner concentrate 1h gal. plastic jugs. ✓

6 recessed bathroom ceiling light fixtures with lens, Marco brand. ✓

380 Plastic Toilet seats, new, in plastic film, and boxes in cartons. ✓

65 metal bathroom medicine cabinets with mirrors. ✓

1 box flourcscent ballasts, wire, and fittings. ✓

PP-11-614

7, 2 inch pipe mounting brackets with 3/8 x 2 $\frac{1}{2}$ lag screws. ✓

1 case 1" x 12" electric sander; sanding reels, sandpaper. ✓

X small metal wall shoe rack. ✓

20 used hard hats. ✓

2 recessed bathroom fixtures, no covers. ✓

40 lbs welding rods. ✓

100 cotter pins 1 $\frac{1}{2}$ x 3/32 ✓

50 plastic screw anchors w/ screws, 4-6 x 7/8 ✓

1/20/78

The following items are part of the donation from Synanon
and we need to know if you want them shipped.

- *47. 1. 1 electric oven 36"x36"x22"
220volt single phase 60 amps 200lbs approx. weight.
- *44. 2. 2 electric griddle-ovens 36"x38"x32" \$72 ea.
220volt single phase 50 amps 800lbs ea.
- *49. 3. parts locker or index file locker 24"x31"x40"
80 drawers 3"x4.5"x24" --24 drawers missing--120lbs.
- *47. 4. 1 electric oven stand--36x36x22"
3 metal shelves--75lbs.
- ? 5. 1 stainless steel grill stand and hood--This unit consists of
3 drawers with no bottoms or fronts--8x18x21". A table top
70x30" on top of the drawers--18" above floor. 3 sided hood
built above table. 73x78x33"--175 lbs.
- *52. 6. 1 hotpoint double electric oven 51x26x24--75lbs.
220volt single phase 50 amps(approx.) looks sharp, never been used
showroom model--75lbs.
- *116. 7. 1 hot box--24x32x92--120volt single phase 3 amp also natural
gas--controls frozen and missing--dont know if it works--150lb.
humidity control, works on steam blown from tpp.
- *107. 8. 1 range hood 27x34x71"--40lbs.--galvanized steel.
- *42. 9. 2 range hoods 48x45x27"--50lbs ea.--galvanized steel. 76 ea
- *17. 10. 1 stainless steel insulated box 24x16x27"--2 handles each on 2
sides--heating element 120v 420w needs plug and cord--15lbs.
- *51. 11. 2 stainless steel ice sinks--16x24x34"--ice compartment 20.5x
20x12"--compartment insulated and has drain hole with threaded
skuzixmippimax end--30lbs. 58 ea
- *62. 12. 1 stainless steel counter top with backsplash--24x48x33"
small ice recess and ice chest with chest removed.--25lbs.
- *53. 13. 1 stainless steel ice chest with backsplash--24x34x36"--35lbs
provisions for a drain, two openings stamped in backsplash.
- *53. 14. 1 same as above but new
- *53. 15. 1 same as above but needs some steel cut out in front.
- *203. 16. 1 serving counter--34x64x57"--250lbs. This unit is nice. It has
6" casters, a stainless steel bumper lined with rubber, 3 cabinets
26x18x27" with provisions for racks, a counter with a 8x60" fold
up extension and 3 60x18" shelves built on top of the counter.
- *57. 17. 1 deep fry vat--frymaster brand 18x36x48"--200lbs.--120v 15a
170,000btu hr. natural gas. It has been converted from something
else, has no baskets or basket hangers, can only handle one oversize
basket, needs checking out.

D.G. P.P.-11-63-

957-11

107 18. 1 stainless steel fountain table 41x33x48"--200lbs.
The insulated bottom is missing its double doors. Hole in counter
for ice containers, back splash WITH compartment built into kit for
condiment or syrup containers, which are missing.

1107 \$511- 19. 1 drying or defrosting rack 34x69x27"--100lbs. #73 ea.
43- # 4 swivel casters--a drip pan with a hole in the middle made of
548- galvanized steel 8" from the floor--stainless steel grate table./37-

20. Racks----all have casters--a some are new--none have shelves
spaced alike, some diff. rent--some shelves adjust
\$104- 7 21x30x70"--15lbs.ea. ~~3~~

1 24x52x21"--20lbs
4 39x34x63--double racks

\$93 21. 3 stainless steel chests--39x20x24"--20lbs.ea. ~~3~~ #3/-
vermin proof with locking doors--6" CASTERS--provisions for shelves

459 22. 2 stainless steel warmer chests
#95 1 28x57x22"--vermin proof, missing heating element 100lbs.
1 21x70x31-same as above 90lbs

461-23. 1 pearl diving unit(sink) 118x32x26--150lbs
This unit has a front, back and sidesplash, a double sink ea,
20x26x12", a faucet and some plumbing, a plate cleaner with a hole
for a trash can, and a water nozzle on side.
Should we cut this item up to send it as it is very long or
should we make a special crate for it? Our crates are now designed for
maximum utilization of the trucks shipping to Fla.

24. 10 truck tires for the multifuel never shipped.

24- 25. 3 coleman chests 16x22x13-2 wont lock shut, other has broken lid

26. 6 thermador electric heaters left over from la apartments
ask Chris Rozynko.

27. A tons joint compound for drywall construction in 50lb

cardboard and plastic containers.

Thank you for your time and cooperation

David Gallie

States - page 2

(A) In re the Bees -

- ① 2 grafting outfits for queen rearing (~~one~~^{each})
- ② 2 cell dipping outfits (for making queens)
- ③ 2 of the "supers" were cut incorrectly
& we had to recut them out of other
wood - They were # 20105 (2 extracting
supers) Please give credit on other items
gotten at Dadant Bee Ware
- ④ Items on our order that were not here -
need them :
6 spools of 5# each foundation wire
1 of the 3 hoods ordered
1 of the 3 smokers ordered

(B) Need info on making yeast cultures
& vitamin development in them - ask
Bob Jagger to research this.

pp. 11-64

Subject: getting Herbal information and sample seeds from the states. Also Botanical books fr from UC on what is indigenous to this area. There are herbs which we can plant if we can get the seeds.

From: Bette McCann

List of Herbal Stores in SF are listed below:

Natures Herb Company
281 Ellis Street
SF,
Catalogue 10 cents

Golden Gate Herbs
P.O. Box 9 77212
SF, 94107

These stores will have catalogues and herbs for sale. Maybe we can procure sample seeds or get them for planting. See if it is possible to talk directly to Betty.

Seeds requested especially are: Buche seeds, Flaxseed, comfrey, lobelia. There are others which we are investigating. Also we can ask

Betty to get Botanical books at UC on Botanicals, especial of Eastern South America. This could also be at Berkeley. This is very important as we would then know what we can plant in the way of herbs which are indigenous to the area. There are herbs that we can grow here for medicinal purposes which are not available here yet. High priority in my opinion and of necessity. We may be able to sell these preparations at a later date.

11/6

- 1) 3 bundles of shovels in shipment --which crates are they in? are they down here or somewhere enroute?
- 2) CAN YOU LOCATE BOOK ON PRESERVING AND TANNING FISH HIDES..PARTICULARLY SHARK. We have a lot salted down and don't know how to tan it. Where can we get tanning solutions? Can we make them or what?
- 3) Need more books on herbs, with this -- "ARTICULATED MEDICAL HERBS.. AND MEDICINAL HERBS". Also need books on extracting the components from herbs and making into lotions, elixirs and potions.. PERHAPS SOME "OLD" pharmaceutical books on PROCESSES, chemical preparations, etc. Might get some ideas from people at Stanford or Berkeley? Betty McCann might have some ideas on this...
- 4) Need more books on bees. One on Queens is good--need others on bees..
- 5) Veterinary Therapy Vol VI Good--but on small animals; need also on Cattle, pigs, horses and goats...
- 6) RESEARCH PROJECTS FOR US ON WINDMILLS, systems for hydroelectric power to make hydrogen gas with electricity--probably Standard Oil Company would have books on this info. We are seriously considering windmill as source of electrical energy--see what you can find in science indexes.
- 7) Order 300 large 5 gallon water buckets, good quality. Have Andy try to procure them if he can. Must have the buckets. Dad said put order thru--tell Andy try to procure.
- 8) Need books on bees--especially anything on tropical production of bees. However, would appreciate your trying to locate the following books and literature on bees: (some are from journals, can locate from readers guide indexes at the library)
 - 1) Leidlaw, Harry H. Jr., 1932, HAND MATING OF QUEEN BEE'S American Bee Journal, 72-2%
TO SPEED UP PRODUCTION, WE NEED TO DEVELOP MORE OF THE QUEEN'S...QUEEN AND EPHOTOGENIC MALES TO DO IT. THIS METHOD IS BEING MENTIONED IN ONE OF THE BOOKS.
 - 2) Watson, Lloyd R., 1927, CONTROLLED MATING OF QUEEN BEES Hamilton, Ill., American Bee Journal, 50 pp, 11 figs.
 - 3) Quinn, S. T., 1923. HAND FERTILIZATION OF QUEEN'S Bee World, 5:75
 - 4) Nolan, W. J., 1932, BREEDING THE FOUNTY BEE UNDER CONTROLLED CONDITIONS. U. S. Dept Agriculture, Tech. Bulletin #326
 - 5) Nolan, W. J., 1937. IMPROVED APPARATUS FOR INSEMINATING QUEEN BEES BY THE WATSON METHOD. Journal of Economic Entomology, 30:700-705

To: Maria K.
RADIO INPUT --from Agric & Livestock 1 Mar 78

IN RE BEES...

Input to Georgetown.

- 2-28-78
P.D.
- 1) Is there a "Beekeepers Association" in Georgetown? Ron was told by someone there, when he first arrived, that there was.
 - 2) Can someone phone Dept of Agric and see if there are any hives or foundations available "anywhere" in Georgetown or in Guyana? Ask also if there are diseases to be concerned with.
- (WE HAVE CAPTURED TWO SWARMS OF BEES, and hope we can hold them.. may lose them if do not get a hive. Ron is trying to save them. Has them in a box that he "hopes" will hold-in the queen bee.)

INPUT TO THE STATES 1 Mar 78

To Jim Randolph: In response to letter that came with Buford..

1) 3 beekeepers hoods	\$19.46 ea	653.38
2) 3 bee gloves.	65.11 each.	18.33
3) 2 smokers	67.88 each	15.76
4) Three sets of #4--complete hive incl body at total of \$57.03 each.....		171.09
5) Six 5# spools of foundation wire	67.24 ea	43.44
(This is for 7000 ft. Note that the same quantity in the 1# size runs \$17.73 for 7000 ft. Much cheaper this way and keeps indefinitely.		
6) included in #4		
7&8) Received only ONE book --from Buford on Queen bee..whc has the OTHER book or books?		
#9) 2 elec hive knives	25.20 each	50.40
10) 1 12-frame honey extractor that is manually operated. IS MUCH STURDIER THAN the electrical one. This one will last for many, many years...as long as we need it.		400.00
11) 150 sheets of hive body foundation 150 sheets of shallow super foundation		89.63 90.08
12) Press for making foundation sheets. Ron is aware of the process. It is MUCH CHEAPER to use the foundations. You save your bees a lot of work. Takes 5# of honey to make 1# of beeswax.. then you have great loss of time in production.. WE COULD PROBABLY make the hives after we get ours going, and with the supplies, could thereafter help govt. with theirs..		PP-11-68c <i>over</i>

Ron says the hive the govt has at the government farm in Kaituma is very antiquated, and they get minimal production from that type of hive. They destroy the hive when they take the honey.. not so with the hives we are requesting. We will get much HIGHER quantity of honey with our setup. Very small 3oz jar in Georgetown sells for \$1 so could be very profitable, for the future.

The foundation press costs \$900.

ON THE DISEASES--medications for...we will request information from Georgetown to see if there is any information on this here. At this point we do not know if it is a problem. IN THE EVENT these three might be contracted from the humans caring for them...then we would need the control measures. WILL PUT THRU ADDITIONAL X INPUT TO RANDOLPH ON THIS in next few days.

--Tish

6/11/68

Maria K INPUT FOR THE STATES
from Agric & Livestock
1 March 78

- 1) Need books and information on BANANAS & PLANTAIN from the states.
- 2) NEED TECHNICAL BOOKS on "chemical processes" and machinery for making such items as paper --push on this one please; for manufacture of cloth from cotton.

NEED TECHNICAL BOOKS on 18th century manufacturing equipment -- some may be found in the historical sense of saying what they used to do as against the modern technology.

"PLEASE" send someone to Acres of Books in Los Angeles while we still have someone there...to search for any MANUFACTURING EQUIPMENT BOOKS for things we might need:

Canning, harvesting equipment, planting equipment, book binding, making of rope, manufacture of iron, steel, tin, ALL INDUSTRIAL TYPE manufacturing that might be useful in the future --at a time when imports might not be available due to non-existence of former sources.. (holocaust --but should not be worded this way)...

Pauline Groot in this a.m. and thinks we can develop method of making paper...so need books on the CHEMICAL PROCESSES for making paper, but prefers a book dated 1930 or prior so that modern technology is not involved.

- 3) Re the Wing Bean Seeds --Tell Randolph we have been requesting since November; tell him handle the same way he did the others...
- 4) If AJ hasn't left yet, maybe he could get the sorghum seed..again.
- 5) Also, we need COTTON seed. We had some growing here and some fool plowed it under without consulting! It was doing well! ALSO NEED BOOKS on mfrs. of the early cotton gins.. and prices on what we could get now ourselves, at least expense..
- 6) ROMA TOMATOE SEEDS, BEEFSTEAK TOMATOE SEEDS, several varieties of carrots..
- 7) See attached sheet on "Bees"

PP-11-69

MARIA:
from tish

RADIO--Stateside

Supplies needed here:

- ✓ 1) Urgently need my paper cutter from accounting office.
Tell Randolph we have nearly 1000 people here and not one
in town... WE NEED IT and he can use the one that was sent
down from valley. Send the large green one here!
- ✓ 2) Padding compound --get this from Clancy for making tablets.
- 3) Pads of 11x17 plain paper --about 1000 sheets.
- 4) 3 hole notebook paper-ruled (cheapest at Pay'nSave or
thrif~~y~~ drugs (Ukiah has one).. can get very cheap or
clancy can get very cheap at ~~AK~~ paper houses.
- 5) 11" typing paper, and some colored stock: pink, yellow,
green, blue --16pound is okay..cheap paper.
- 6) Need badly 11" manila folders (letter size) several hundred
- 7) Need at least a dozen 3 hole notebooks for Agriculture..
--the looseleaf binders: 1½ to 2 inch capacity.
- 8) Steno pads
- 9) Some cheap-cheap ruled tablets.
- 10) TELL CLANCY TO PRINT UP SOME OF THE FORMER PC SCHEDULES
WITH SEVEN DAYS A WEEK ON THEM AND SEND DOWN --we are
using them again for some of the group.
- 11) 3x5 cards --need around 5000-10,000
- 12) Need some of the gooseneck or bending lamps like I had
on desk in states.. was an ~~ergonomic~~ one upstairs on
3rd floor..need for dentist work.
- 13) Betty-contact technical book store: there is a book
on "Radio Electronics" -comes out of England --get price
on it for us.
- 14) 5 boxes carbon paper for typewriter and
1 box pencil carbon

PP-11-70^a

TO: MARIA KATSARIS
FROM: TISH --Larry approved all Med & Dental items.

1) LARRY SCHACHT SAYS "PROBABLY GET FROM STATES"

We do not have too many snakebite kits --should get some more. Have only 15 -- They are having a lot of bites at Kaituma because of the long dry... Dad warned us about it.. Possibly order another 20 kits..

- 2) NEED "GOOD" DENTAL TOOLS.. Urgently need some forceps for pulling teeth. Larry says they would be a vital emergency tool to have.
- 3) Need more books on dentistry and especially on DENTAL SURGERY.. Might be needed by Larry. Shonda knows what is needed, but he'd likely have to do it.. Larry agrees.

ROB CHRISTIAN IS ASSIGNED TO DO SURVEYING -- HE HAS NO PAPER... Following are the supplies he needs. Should be brought down soon as possible.

- 1) 1 roll 24"x36" graf paper, 1/16th inch squares, 200 ft roll
- 2) 6 mechanical pencils for drafting lead
- 3) 3 pkg each: drafting lead sizes H, 2H, 4H and 6H
- 4) French Curves -plastic drafting tools What size?
- 5) Rulers & T squares--small selection What size? Aluminum or wood
- 6) 500 sheets 24"x36" drafting paper, 16 pound weight

ALSO--ask Andy to contact blueprint shops in SF and LA (maybe Ruby Carroll's daughter could contact in LA..but ask for donation of blueprint equip (large size used for drafting). He sais it is a long, thin unit sets on a table top --like the process on the old town copier..it is a solution type developer on sensitized paper.

GEOGETOWN--we will be having enough peanuts coming off in April for our use--send someone to the Omar Peanut Butter Co. and check out the steps they take in making the peanut butter--how long they cook it, etc.(the peanuts before grinding them, that is... Thanks. Tish

PP-11-70b

To: Maria from Tish

STATESIDE RADIO TRAFFIC

- 1) From Analysts: please send down some designs for wagons or buggies; you might get book at library and photocopy some ideas for these. We are "considering" some alternate forms of transportation besides the tractor to conserve fuel..The waggons or buggies would be horse drawn.
- We are also interested in information on horse-draw cultivation and plowing equipment.
- 2) Information and pricing needed on: Orchard irrigation equipment, a sprinkler-type system with hydraulic hose and pump. It has a plastic type hose, and you "walk" the equipment around.
- Books like world crops might have the information.. or contact County Agricultural officers, or U. S. Dept Agriculture, local branch; the local farm advisers might help -- or any of the counties that have a lot of orchards..usually they would have a few brochures on these types of things.
- 3) We are concerned to learn more on manganese production. Ask Jimmy Ingram if he collected information on this as he told Jack Barron he would do.. Knowledge of making molds, forms, etc.. Also need information on mining and methods of refining. Someone in L. A. might be able to go to Acres of Books and get some of the earlier methods -- but at least one book of late vintage should be collected. Radio us price before buying unless is used and cheap.
- 4) Information needed on making cement from quick lime. Don Beck can perhaps research this at Berkley (also on the manganese)..
- 5) Need also information on tanning "fish" hides.. We have some sharkskin and would like to know how to utilize the hides..
- 6) Dad said to buy THREE (3) of the incubators, 200 egg capacity as I understood it.. on the special "deal" someone there worked out.
- 7) What happened on the procurement of the 35,000 egg incubator? We heard it was being procured in S. F... what happened?????
- 4⁴ for the price of 3 that we ordered - 16' long x 8' x 7' high
20,000 ea. \$1500. Twice as large as a crate. \$300 ea
to send.

To Maria Matsaris

From: Tish

Radio Tr affic. --medical department

"(Sell them send out to attention Tish Only only)
and you can get recorded)

1) Plastic Chart folders

It is our understanding that there are 500 plastic envelopes or
folders, B x 10, which we need brought out immediately, please.

STATES: Also if there are 500 more in states, please see where they
are and have them brought down with Buford. We are desperate
for these -- like poste haste, and desperate.

2) Also, can you have brought down with Buford the following --Clancy
should be able to get it at wholesale. We need it immediately as
we are re-organizing entire filing structure and procedures.

35⁰⁰ → 2000 Acco fasteners, standard base -- or 2 3/4 inch centers (last for year)
3.75 → A punch for this base --will be needing it on thousands of sheets
of paper, subsequently...Accounting and law office both use these;
perhaps they could share one and send the other down.
@ .70 → 12 rolls 3/4inch mystic scotch tape --does not bleed and is about
same price. Clancy gets it at high discount.

3) Accounting, Agriculture and Medical all need some colored stock --
8 1/2 x 11 paper.. Pink, green, yellow, blue and of course white..
Tell him we can use the cheapest sulphite paper, but to get some down
to us. 1/2 case of each for starters. His cost should be around (10-12)
per case...mf 5000 sheets (10 reams of 500 sheets each).

[We are sending thru a medical printing order, after Dad sees it --
will be very simple, but should save us in time and money for other
supplies that will be saved thru more efficient medical care. Dad said
write up order and pass it by him..he was at meeting today.]

Q → 4) Also need more liquid paper and thinner -- and typewriter erasers.

Georgetown: Ask Evelyn to try and procure any and all office supplies
that she can -- particularly paper, carbon, scotch tape and
paper clips, etc. Printers sometimes have paper we could use
also... Newsprint would be fine for some things..

5) STATES--Tell ~~BETTY MCCANN~~ Betty McCann we have an
urgent need down here for my paper cutter I left on the safe in the
S. r. accounting office. They have another there that came down from
the valley that SF can use.. but send the large one I left down here.
PLEASE CAREFULLY WRAP IT, AND PUT "TISH ONLY" on it. I will not be
using it personally, but want to see it is centrally placed for a lot
of us who have need of it, including medical department, school, agric.
etc. Priority is definitely here, at this time. They do not have the
need there that we do here with NONE in Georgetown --and all the folk
here. Tell Betty to shreik, cry, emothar or whatever she has to do to
get Randolph to part with it. It belongs to accounting and hot to his
department, and we want to share it with everyone here who needs it!

Check list from States for Chukin:

① Wing bean:

San Francisco source

Hawaii source

Florida Source

② 6 pomegranates (before they are totally out of season)

③ Vitamin B solution for plants

Industrial Iodine for Disinfectant

④ Material to shade plants

Copyrighted trade name is Saran.

Ask the county agricultural officer about it where to get it.

⑤ Black bean seed & pinto bean seed - both ordered for January delivery - what happened? Buy at Superway in 2lb packages.

⑥ Budding twine - maybe 2 lbs

⑦ Fig tree cuttings - to be cut during winter, end-dipped in warmed paraffin and frozen down - they can get them at the ranch. Cuttings should be 4-5" long, at least 1/4" in diameter and we would like 30 to 40 of them. - Self-pollinating

2 ea Bottom roller for a speed queen wringer, model#DW9013
Serial#X626919.. It might be necessary to purchase 2
since the other one tore up very easily. \$20.00

NOTE:

(I ordered an INTERNAL-EXTERNAL GROWLER for motor repair
and was sent an external growler --which I already have
on hand.. The internal-external growler is very important
for checking stators in electric motors. It costs approx ~~\$70.00~~
~~\$70~~ in the McMaster-Carr catalog the #is 7275R11..
The external growler is nice to have just in ~~xxx~~ case the
other one goes out, but I still need the internal-external
that was ordered. Thanks so much, and can you please rush
on these parts. --Ray Jones)

+ For several reasons I suggest to Prof Ross that ~~Perry~~ work for him. In case you can think why. It might help Nathan to help no loss to Perry. It would help Ross w/ his work who go Stora's transite experience -- possible Perry might experience same thing. The lastest class of Prof Ross, the lectures are in Perry's area. Perry is close friend of Seymour. Difference in cost - Nathan what would the diff be. Either prof could pay her or other arrangements could be made.

Dowell maker

450.00
(approx)

While in SP it was requested that Ken buy 250,000 dowel pins at a cost of 1320. Have since located a dowel maker that is used in conjunction with the lathe we already have. The total cost of all equipment and necessary accessories will cost \$450.00 or about 1/3 the regular cost. We will be able to make dowels as we need them... 6 different sizes. simple design and durable. The dowel pins can be used for chairs and stools as clamps and gluing presses, axels and wheels for toys, broom handles and much more. It will make our work faster and more professional. Should move quickly on this so as not to lose it.

1 ea.

Carbide saw, 10" 10 teeth, flat top tooth style with 10° alternate face bevel, 5/8" eye, standard plate and kerf.

We want to experiment with this and the following blades - to see what is best. We have had trouble with blades on the wood we have here and we are trying to isolate the one that will wear the best.

Radio EMERGENCY

Cleared with JJ by J'J on Oct 30

\$740.00

~~MAXXMA~~ U. S. EMERGENCY ORDER

300 ft. Coax cable R 6 B/U approx

\$40.00

Antennae - 2 ea. 6 element, triband beam Q350.

700.00

570.00

Note: We need 300 ft Coax cable for antennae feed line. We have about 50 ft left. If somethin' should happen to the coax cable here or in Gtn, it would stop communications with the states. As we have no replacement transmission line.. we also need a back up antennae for Georgetown and Jonestown. Electrical storms are frequent here and a hit by lightning would destroy the antennae and possibly the coax bable... or, if the antennae blew down, etc. You cannot get coax cable or the antennae we need in Guyana. It will have to be bought stateside. The approx cost is above.

NEED PRICING ON MANUSCRIPT PAPER. NEED THIS WITH THE BOOKS.

Stuney has no idea where to buy books except for musical store.
He said maybe Sue Williams could help out in the area - she
might know a good store to go too.
