Purpose: To set forth need for utilization of ADP support for alphabetical reproduction of Guyana codebooks which will facilitate and expedite analysis of encoded radio transmissions which is currently being conducted by San Francisco Division and the Cryptanalysis Subunit. (u)

Details: On January 10, 1979, the Cryptanalysis Subunit was furnished, by the San Francisco Division, codebooks used by Peoples Temple members in radio transmissions. Current format of codebooks requires extensive searching through approximately 250 pages to locate a particular codeword or phrase. The haphazard and random nature of this material precludes an efficient and thorough examination of the communications. Therefore, the alphabetical listing of codewords and phrases will enhance and expedite analysis and investigation. Additionally, the San Francisco Division has requested ten copies of the alphabetical codeword listing to expedite their investigation. (S)(u)

Due to sensitivity and cryptic nature of codebooks, personnel in the Technical Services Division's Laboratory Support Group, who are trained in cryptography, are well qualified to assist in this project. (u)

Upon approval, details of the project will be discussed between Laboratory cryptanalysts and the Laboratory Support Group personnel. (u)

(u)

CECIL ROBERTS DURING CONFERENCE AT HEADQUARTERS, INDICATED THAT LARRY LAYTON MAY BE MADE AVAILABLE FOR INTERVIEW AFTER LEGAL PROCESS IS COMPLETED BY GOG AND OBSERVATION OF CRIME SCENE BY AGENT KNOWLEDGEABLE IN ALL FACETS OF INVESTIGATION WOULD BE IMPERATIVE FOR PROPER INTERROGATION. (u)

CID concurs with the recommendation of the SAC, San Francisco that SA Hale travel to Guyana for purposes set forth above. SA Hale has been charged with the unique responsibility of conducting a thorough investigation of matters which occurred outside of the United States. It is believed to be essential that he receive first-hand information from authorities at the crime scene. (u)

SA Hale has complete knowledge of the facts in this case. Legat Robert Oglesby, Caracas, has acted only in a liaison capacity and does not have the benefit of complete knowledge of investigation conducted in the United States. Furthermore, issues to be discussed with officials of the Government of Guyana will be self-generating based upon items revealed to SA Hale. These issues cannot be pre-planned because the pieces will not fall into place until the complete knowledge of investigation from both countries is compared. It is anticipated that a myriad of evidence and testimony will be presented to a Federal Grand Jury at San Francisco as an outgrowth of the trip to Guyana. It is impractical to have Legat Oglesby tied up at San Francisco for an extended period of time, even if he could accomplish the task to be undertaken by SA Hale. (u)

The Department has tasked the FBI to conduct a complete investigation into the mass suicide at Jonestown including areas not usually the responsibility of this Bureau. Such areas include possible illegal gun shipments, drug shipments, currency violations, and location of assets of the People's Temple worldwide for the United States Government to attach in connection with its \$4.2 million dollar lawsuit against the People's Temple. The civil action has been instituted to recover expenses incurred in bringing the bodies out of Guyana.

It is further recommended that State Department be requested to make appropriate arrangements in this regard and that Legat Robert Oglesby, Caracas, accompany SA Hale while in Guyana. If approved, CID will monitor the activities of SA Hale while in Guyana to insure that the time spent in Guyana is held to the shortest possible duration.

If approved, this matter including contact with the State Department will be handled by CID. (u)

Re: RYMUR

Specimens received December 29, 1978

Result of examination: (u)

This report supplements previous report dated
March 6, 1979. (u)

The motion pictures which have been designated as Q101 through Q122 have been examined as requested. It was determined that Q101 and Q102 are identical 16mm copies; Q104 through Q122 are Super 8 and Regular 8 films, noting that Q118 is unexposed. These films depict JONES and his followers on bus trips, at the beach, during a visit to a zoo, during interviews and other general scenes apparently which were all taken in the United States. (u)

Only Q103, which is a 200 foot reel of 8mm sound color film with numerous splices, contains scenes of Guyana. This reel depicts some construction at Jonestown and contains interviews with some of the individuals there as to why they like it there, what they do, etc. It appears that this reel may have been in the process of being edited for documentary or public relations type promotion of Jonestown. (u)

Q123 through Q126 are 8mm sound color movies which are undeveloped. Appropriate arrangements are being made to have these films processed and they will be examined after completion. They will be subject of a separate report to follow. (u)

Q101 through Q122 are being returned to San Francisco under separate cover. (u)

PURPOSE:

The purpose of this memorandum is to request that Engineering Section, Technical Services Division, duplicate approximately 672 audio tapes from Jonestown, Guyana. *(u)*

DETAILS

It is anticipated that four cases of audio tape recordings will be arriving at FBIHQ from Georgetown, Guyana, during the week of December 26, 1978. In order to more efficiently review these tapes, they should be duplicated as soon as possible and sent to San Francisco Division. The originals could then be preserved at San Francisco and the San Francisco Agents could work only with the duplicates. It would also be advisable that one copy of each original be maintained at FBIHQ in the event that any of the original and their duplicates were lost or destroyed enroute to San Francisco. *(u)*

RECOMMENDATION

That Engineering Section, Technical Services Division, immediately make one copy of each tape recording received from Guyana, and that a master copy of all tapes be maintained by Engineering Section, Technical Services Division. *(u)*

SPECIMENS:

This report confirms and supplements information telephonically furnished to Colonel Cowan on March 15, 1979, of dental information set forth in the referenced FBI communication concerning Selika Bordenave. (u)

It should be noted, page thirty-seven of Latent Fingerprint Section report dated January 23, 1979, indicates that body #53-C, has been identified by fingerprints appearing on a Guyana, S.A., Personal Identification fingerprint card, dated August 15, 1977, bearing the name Selika Glordine Bordenave. This would appear to be the same individual as mentioned above, with the difference in the spelling of the last name being caused by the Guyana official recording the fingerprints. (u)
