Details: The item listed above contains the recording of a telephone conversation which is of sufficiently poor quality that it will be difficult for a jury to discern. FBILA is aware of the limitations of the enhancement process, particularly when a recording is not made stereophonically. However, if this matter proceeds it is expected to garner considerable attention in the media. Hence, a higher quality recording with less background noise will be necessary to ensure the success of this investigation.

Synopsis: The purpose of this EC is to close this investigation.

Details: Above captioned subject made telephonic bomb threats in January 2004 against Orlando, Florida based music producer Lou Pearlman and Pearlman's talent agency business. The reason for subject's threats was subject's frustration with money he perceived Pearlman owed him. Subject was interviewed by FBI New York and subsequently confessed to these threats. Subject did note he still believed Pearlman had fraudulently obtained his money.

Since subject's confession, Pearlman has been the subject of an FBI mail/wire fraud case involving losses in excess of \$100 million. Pearlman was subsequently arrested and indicted, and his trial is pending in the Middle District of Florida. Pearlman would not be a credible victim/witness.

The United States Attorney's Office has declined prosecution on this matter. FBI-Orlando concurs with this declination.
