ASAC Whelan called from New York at 10:25 am. He said he had just gotten a call from O. John Rogge, who said he has been retained to represent Greenglass. He wanted to know what charges are being placed against him and where he could see him and when. Whelan advised Rogge that the facts regarding Greenglass were presently being considered by the Department of Justice. Whelan said he would either call Rogge back, or if Rogge so desired, Greenglass was available and he could talk with him. Rogge said that he would call back shortly.

Mr. Whelan stated that if Rogge comes to the New York Office, he planned to let him see and talk with Greenglass. I told him that this was the proper procedure and that unless instructed to the contrary, he should follow this procedure.

At 10:30 am, Mr. Whelan advised that Rogge called and said he was sending his associate, Herbert J. Fabricant, to the New York Office to talk with Greenglass. He will be allowed to talk with Greenglass in the presence of Agents.

Mr. and Mrs. W. B. FREEMAN, 606 Ridge Place, Albuquerque, advised that they were the owners of the premises located at 209 North High Street, Albuquerque, and had been the owners of that premises since prior to January 1, 1945.

According to their memory, an apartment located on the second floor of that address was rented to DAVID and RUTH GREENGLASS on March 19, 1945, to March 9, 1946. They pointed out that they could not precisely fix these dates, but they were positive it was from some date in March, 1945, until March, 1946, and it was their opinion that it was on the dates above given. Mrs. FREEMAN produced two documents described as "Form D-35, Order Adjusting Maximum Rent, Concerning 209 N. High Street, Albuquerque, Apartment Number 4, Docket Number 5-AL-H-7196," addressed to Mr. W. B. FREEMAN, 606 Ridge Place, Albuquerque, New Mexico; and a form bearing Budget Bureau Number 08-R 029-42, Form DD 7D, Landlord's copy, entitled, "United States of America, Office of Price Administration, Registration of Rental Dwellings," which showed on the reverse side of these documents the signature of RUTH GREENGLASS and fixing the period of occupancy from the period March, 1945, until March, 1946, without setting forth the specific dates of the occupancy other than stated.

Mr. and Mrs. W. B. FREEMAN advised they were only able to recall one visitor calling on the GREENGLASSES during this period of occupancy and although they could not fix the exact period or time of this visit, they expressed the opinion that it was during January, 1946. This individual whom they could not describe was believed to have called on a Sunday and stayed for Sunday dinner. It was pointed out by them that during 1945 and 1946, including the period of time of GREENGLASS' tenancy at this address, the FREEMANS were in residence at the address of 209 North High, occupying an apartment on the second floor in the front of the building. It was subsequent to the departure of the GREENGLASSES that they moved to their present address on Ridge Place.

They recalled that the GREENGLASSES had received packages from New York and that the GREENGLASSES had commented that they were packages of "Kosher food". It was recalled by Mrs. FREEMAN that the return address on these packages carried the name of the sender as having the last name of "PRINTZ."

Neither of the FREEMANS were able to recall the GREENGLASSES having been financially embarrassed or "flushed" financially during the period of their tenancy at the above address.

They were able to state that DAVID GREENGLASS was an enlisted man in the United States Army stationed at Los Alamos, New Mexico, and that he was in Albuquerque with his wife at the above address on week-ends.

AO# 65-39

The wife, RUTH GREENGLASS, was recalled as having been employed in some capacity by the Office of Price Administration in Albuquerque, New Mexico. It was their recollection that she was employed in the "gas and tire rationing office" but no further details could be recalled.

Mrs. FREEMAN stated that prior to Christmas of 1944, her father, Mr. P. M. SHERER, was visiting them and living at the address, 209 N. High. According to her memory, her father left sometime during the middle of June, 1945, the precise date not being recalled. Mr. SHERER can presently be reached at 2400 West 23rd Street, Los Angeles, California, in care of Reverend HENRY SHERER, a Lutheran Minister in that city.

Mr. P. M. SHERER was described as having grey hair, being approximately 5'6" in height, weighing 140 pounds, having a slender build, and being approximately seventy-five years of age. Mrs. FREEMAN pointed out that her father, although seventy-five years of age, gave the appearance of a man some ten years younger. Mr. SHERER was further described as being a man with a fairly good memory but one who presently suffered from a heart condition and was being protected by the members of their family from any undue excitement.

Mr. FLETCHER BRUMIT, Resident Manager, Hilton Hotel, Albuquerque, produced a registration card for that hotel for "HARRY GOLD, 6923 Kindred Street, Philadelphia 24, Pennsylvania." The firm given was "TERRY AND SEIBERT" and the registration shows that the room was occupied by this individual from 12:36 P.M. to 8:00 A.M., June 3, 1945. Mr. BRUMIT pointed out that on the reverse side of this registration card appeared the date and time stamp of the hotel and that this date and time stamp showed the time as above stated, but the date as being June 4, 1945. He further informed that an examination of other registration cards for guests registering at that hotel on June 3, 1945, showed that the date stamp on these cards carried the date of June 4, 1945, as in the case of this particular card for GOLD. It was stated by BRUMIT that for some unknown reason on June 3 the automatic date and time stamp used by the hotel had set itself for June 4 instead of the correct date of June 3.

Mr. BRUMIT advised that in the event the records of this hotel were desired under subpoena that one of the following would be the proper official to subpoena:

H. O. BEASLEY, Auditor;
MARK NEAL, Assistant Manager, in charge of Rooms Department;
COBY BRIEHN, Executive Assistant Manager; or
himself.

He requested that prior to the issuance of a subpoena that he be contacted in order that he might determine which official would be available.

AQ# 65-39

ROBERT S. POAGE, Cashier, Albuquerque National Bank, caused a search to be made of the records of that institution. There was produced the original ledger card for savings account Number 35169 in the name of RUTH GREENGLASS, 209 North High, which reads as follows:

Date	Withdrawn	Interest	Deposited	Balance
June 4 '45			400 -	400 -
July 24 '45			55.40	455.40
Sep 4 '45	55 -			400.40
Nov 7 '45	15 -			385.40
Nov 9 '45			5 -	390.40
Nov 16 '45			5 -	395.40
12-1-45		1.60		397 -
Nov 20 '45			5 -	402 -
Jan 29 '46	402 -			

The original ticket for each deposit and withdrawal was located.

Savings Department credit for Book #35169 dated June 4, 1945, shows a deposit of \$400 in "currency" on that date; the name set forth on this ticket is "RUTH GREENGLASS."

A deposit ticket for this account dated July 23, 1945, was located. It shows a check in the amount of \$55.40 was deposited to savings account #35169. A debit ticket for account #35169 dated September 4, 1945, was found wherein RUTH GREENGLASS withdrew \$55 on that date, leaving a balance of \$300.40. (Should have been \$400.40.)

A savings withdrawal ticket showing a debit to the same account November 7, 1945, in the amount of \$15 was found with the name of RUTH GREENGLASS thereon. This debit shows a balance at that time of \$385.40.

A deposit ticket to the same account showing a deposit of \$5 in "currency" was made in the name of DAVID and RUTH GREENGLASS on November 9, 1945.

A deposit to this account consisting of \$5 in "currency" was found under date of November 16, 1945.

A deposit in the amount of \$5 in "currency" to the same account under date of November 30, 1945, was found.

Savings withdrawal ticket dated January 29, 1946, for account number 35169 was found showing that \$402 was withdrawn on that date from that account by RUTH GREENGLASS.

AQ# 65-39

The signature card for savings account Number 35169 with the Albuquerque National Trust and Savings Bank, Albuquerque, New Mexico, setting forth an account in the name of RUTH and DAVID GREENGLASS was found. Thereon appears what purports to be the signature of "DAVID GREENGLASS" and "RUTH GREENGLASS" giving the address of "209 N. High St." with the notation introduced by "D.K." on "6-4-45." There is the further notation under data of the following "Works at OPA, husband in Army."

Mr. POAGE advised that in the event the above records were desired for prosecutive purposes that he be contacted prior to the issuance of the Subpoena Duces Tecum in order that at that time the proper bank official to be so served might be designated.

Mr. R. R. GALUSHA, Cashier, First National Bank, Albuquerque, New Mexico, caused a search to be made of the records of that institution and produced a ledger sheet in the name of "DAVID or RUTH GREENGLASS, 209 N. High, City", which reads as follows:

MAXTELL:

The following investigation was conducted by SA J. JEROME

AT LOS ALAMOS, NEW MEXICO

The files of Confidential Informant T-1, of known reliability, reflect T-5 DAVID GREENGLASS, Army Serial Number 32882473, was at Los Alamos, New Mexico, as a member of the Special Engineers Detachment, United States Army, from about August, 1944, to February, 1946. A list dated August 31, 1944, showed that GREENGLASS was a member of Group E-5 at that time. Group E-5 was in the Ordnance Division, of which Captain WILLIAM S. PARSONS was the Division Leader. Dr. GEORGE BOGDAN KISTIAKOWSKY was at that time a Group Leader of Group E-5. From September 30, 1944, to November 30, 1944, GREENGLASS was listed as a member of Group X-1. During that period, Dr. GEORGE BOGDAN KISTIAKOWSKY was the Division Leader of X-Division and Commander NORRIS E. BRADBURY was the Group Leader of Group X-1.

In January, 1945, GREENGLASS was listed as a member of Group X-4. Mr. E. A. LONG was the Group Leader of Group X-4 at that time. The files of T-1 reflected GREENGLASS was still in Group X-4 in May, 1945, but these files contained no list of servicemen by groups, subsequent to June, 1945.

The files of T-1 contained a Vocational and Educational Sheet dated August 7, 1944, signed by GREENGLASS which reflected he had been in the Military Service one and one-half years. He listed his previous stations as M O P, Mississippi, three months; Pomona, California, three months; Fort Ord, California, five months; and Aberdeen, Maryland, four months. He listed his present civilian address as 266 Stanton Street, New York, New York, and his home telephone number as GR 7-4649. GREENGLASS listed the following former employment:

1937 to 1940, neighborhood electric (vacation and after school);
October, 1940, to June, 1941, FREEMAN BROTHERS, 8th St. and Broadway, New York, New York;
June, 1941, to October, 1941, INT, Tel. and Tel., Varick and Spring Street, New York, New York;
October, 1941, to April, 1943, PEERLESS LABORATORIES, 115 East 23rd Street, New York, New York.

After the question "What forms of employment or work do you consider yourself best qualified for?" GREENGLASS stated, "I have had various machinist and mechanical electrical job which I feel that I am capable of doing. I have done drafting, and have a good education in machining and have had good electro mechanical experience which included mach. shop and building of X-Ray equip."

GREENGLASS listed his hobby as "designed model airplanes." He stated he was a member of the United Elec. Radio Machine Workers of America, CIO. He stated he attended Brooklyn Polytechnic from 1940 to June, 1940, for

one semester. He stated he had attended the Haaren Aviation Tech. High School. He indicated he could speak the Yiddish language and that he had an aunt living in Poland. .

GREENGLASS listed the following references:

~~NORMAN BROWN~~, 79 Lewis Street, New York City, shipyard,
known ten years;
~~MORRIS BAUM~~, 40 Marcy Pl., Bronx, New York, salesman, known
ten years;
~~SAMUEL TRUED~~, care Mr. B. GREENGLASS, 64 Sheriff Street, New
York City;
~~MORRIS RUDMAN~~, care MARKOWITZ, 73 Willett Street, New York
City, machinist, known ten years;
Pvt. ~~DAVID TRICK~~, Company A, 150 M.T. Bn., 36 MT Reg't., T.
Lewis, Wash., Ordnance, known ten years.

Mrs. LILLIAN ANDREWS, Secretary in GMX Division, Los Alamos, New Mexico, made available records of the Division formerly known as X-Division, which are presently maintained in the files of the Central Mail and Records Section, Los Alamos, Scientific Laboratory, Los Alamos, New Mexico. These files reflected that the name of T-5 DAVID GREENGLASS appeared on a list of members of Group X-4 which was undated but which was probably made in January, 1945, which listed GREENGLASS as a machinist, semi-skilled.

An undated list of the functions of the X-4 Service Section showed JOHN P. FITZPATRICK as the Section Leader. This list showed that one part of this section was called "Student Shop." The following individuals were listed as members of this sub-section:

~~T-3 H. HOLLAND~~, in charge
~~T-4 C. SCHROEDER~~, alternate
~~T-5 C. COMRAD~~, machinist
~~T-5 D. GREENGLASS~~, machinist
~~T-5 W. SIMERALL~~, machinist
~~Cpl. J. BRANDT~~, machinist.

The functions of the student shop were shown as "to maintain shop equipment for use of members of X-Division to make miscellaneous exp. items; to do experimental work on large jobs before final design is made for large orders."

These files also contained a letter prepared for the signature of Dr. J. R. OPPENHEIMER, the Laboratory Director, dated October 1, 1945, acknowledging the contribution of T-4 DAVID GREENGLASS. This letter read in part as follows:

"According to your Group Leader, you have served with this project since August 8, 1944. You have worked very efficiently in a small experimental engineering shop as a machinist, assisting in working out design details in various mechanisms before production. Your broad knowledge of machine tools was a great help in planning tooling set-ups on production, and in ironing out design troubles in pilot models."

Similar letters were written for all military personnel at Los Alamos.

The records of the old X-Division at Los Alamos indicate that during the summer of 1945, the X-4 Service Section was transferred from Group X-4 and placed directly under the X-Division Office. JOHN P. FITZPATRICK was the Section Leader of the X-Service Section. GREENGLASS was listed as a member of the X-Service Section on January 31, 1946. His name appeared on no subsequent list of the members of this section.

Sometime during the Fall of 1945, JOHN FITZPATRICK was transferred from the X-Service Section and Sergeant HARRY BEACH became the Section Leader.

Confidential Informant T-2, of known reliability, advised that according to the Los Alamos Technical History, in August, 1944, Group E-5 was in the Ordnance Division, of which Captain WILLIAM S. PARSON was the Division Leader. Group E-5 was known as the "implosion experimental" Group. Mr. GEORGE BOGDAN KISTIANKOWSKY was in charge of one section of the Ordnance Division and was also the Group Leader of Group E-5. In August, 1944, the explosives or X-Division was organized with KISTIANKOWSKY as the Division Leader. Group X-1 of that Division was under the direction of Commander NORRIS E. BRADBURY.

Group X-4 was created in October, 1944, under E. A. LONG and J. W. STOUT. This group was charged with engineering of molds for "S" Site, research on sintered and plastic bonded explosives and miscellaneous services for the Division. A section was added to this group in December, 1944, under W. G. MARLEY, responsible for some aspects of lens research.

T-2 made available progress reports for the pertinent period which reflected that in July and August, 1944, Group E-5 was headed by G. B. KISTIANKOWSKY and that the major portion of efforts of that group during these months was devoted to the "study of symmetry of collapse and of the methods for its improvement."

Although it is not clear from the progress reports, it appears that the work performed and most of the personnel of Group E-5 were transferred to X-Division and more specifically to Group X-1 in August or September, 1944.

The progress reports of Group X-1 reflected that that group was under the leadership of Commander NORRIS E. BRADBURY and that during the period GREENGLASS was a member of Group X-1, that is from about September, 1944, to December, 1944, the group was working on "implosion research."

The work of Group X-1 was summarized for this period as follows:

"The investigation of experimental implosion group (X-1) is continued to be directed along three major lines. These are (1) The designs and use of explosive lenses; (2) The study of non-lens spherical and cylindrical implosions; (3) Improvements in instrumental technique."

T-2 stated that, according to the records of the Document Division, Los Alamos Scientific Laboratory, GREENGLASS had no card indicating that he had been given access to classified documents while at Los Alamos. He stated that no notebook had been charged out to GREENGLASS for use in his work

and that no scientific papers had been retained by him while at Los Alamos.

By teletype dated June 2, 1950, the Philadelphia Office advised that GOLD had stated that he had the impression that the unknown subject that he had contacted in Albuquerque was somewhat naive in that he suggested that GOLD recruit another individual who was assigned to the same section of Los Alamos as was the unknown subject. GOLD stated that the person mentioned was a Corporal who had recently been broken.

In this connection, it was noted that a list of Group X-4 personnel in June, 1945, showed only one member of this Group who was a Corporal. This individual was Corporal JOHN FRANCIS BRANDT, Army Serial Number 35009331. The records of T-1 reflected that BRANDT came to Los Alamos in about March, 1945, and that he was a Corporal at that time. The date that BRANDT was transferred from Los Alamos was not shown. The investigation conducted concerning BRANDT at the time he came to Los Alamos uncovered no unfavorable information, concerning him. The following description of BRANDT was obtained from the files of T-1:

NAME	JOSEPH FRANCIS BRANDT
July 10, 1919	Youngstown, Ohio
Sex	Male
Race	White
Height	5'6"
Weight	158
Eyes	Brown
Hair	Dark brown
Complexion	Machinist
Address	1918 Ohio Avenue Northeast, Canton, Ohio

Files of T-1 reflected that a report from the military authorities at Los Alamos reflected that two men had been reduced in grade in May, 1945. These two men were listed as T-5 CARL J. SETZER JR., ASN 15308262, who was reduced to Private and T-3 BENJAMIN BEDERSON, ASN 32505267, who was reduced to Private.

The files of T-1 reflect that CARL JOHN SETZER JR. was a member of Group CM-5 in May and June, 1945. An investigation concerning SETZER at the time he came to the Los Alamos Project reflected no unfavorable information. The following description of SETZER was obtained from the files of T-1:

NAME	CARL JOHN SETZER JR.
Date of Birth	September 12, 1924

Place of Birth	Columbus, Ohio
Sex	Male
Race	White
Nationality	American
Height	6'1½"
Weight	154
Eyes	Green
Glasses	Wears glasses
Hair	Brown
Complexion	Fair
Marital Status	Single
Address	1950 Berkshire Road, Columbus, Ohio

The files of T-1 reflected that BENJAMIN BEDERSON was a member of the Special Engineers Detachment, United States Army, Los Alamos, New Mexico, from about March, 1944, to February, 1946. In August, 1944, he was assigned to Group E-9 and during the latter part of 1944, was assigned to Group X-2. In the Spring of 1945, he was assigned to Group X-5.

The files of T-1 further reflected that ~~BENJAMIN BEDERSON~~ was born November 15, 1921, at New York, New York. His father, ABRAHAM MICHAEL BEDERSON, and his mother, LENA WAXLOWSKY BELERSON, were both born in Russia. In a Vocational and Education sheet dated March 25, 1944, BEDERSON stated that he had been a member of the International Workers Order from 1935 to 1939. He also stated that he had visited Russia from November, 1932 to May, 1933. He added the following statements:

"Father went to work (established large cafeteria in Moscow factory)."

He stated that his father's relatives lived in Minsk and his mother's relatives lived in Kiev prior to the invasion.

An investigation concerning BEDERSON in June, 1944, in connection with his employment at Los Alamos reflected that the files of the United States Civil Service Commission indicated that subject's father, ABRAHAM BEDERSON and his mother, LENA BEDERSON, were registered Communists for the years 1936 and 1937 in the Sixth Assembly District, 125th Election District, Bronx County. His mother signed a Communist nominating petition for ISIDORE BEGUN on August 10, 1939, Sixth Assembly District, 130th Election District, Bronx County. A reference listed by BEDERSON, one PAUL ABRAHAMSON, 2714 Wallace Avenue, Bronx, New York, was found to be the son of LENA ABRAHAMSON, who signed a Communist Party nominating petition for ISRAEL AMPTER on July 8, 1942.

Mr. MICHAEL KARABIN, Superintendent of the building in which BEDERSON formerly resided, stated that BENJAMIN BEDERSON was not a Communist

AQ# 65-39

but that his parents were Communists.

References on his Vocational and Educational Sheet were:
PAUL ABRAHAMSON, 2714 Wallace Avenue, Bronx, New York, Inspector, Signal Corps, known five years;

JOSEPH ~~DERMAN~~, 3205 (Street not legible), Philadelphia, Pennsylvania, Inspector, Signal Corps, known two and one-half years;

STANLEY ~~FISHMAN~~, 124 West Ninth Avenue, Columbus, Ohio, Inspector, U. S. Navy, known five years;

Corporal JOSEPH H. ~~KATZ~~, address illegible;

BERNETHA ~~WINNICK~~, 3604 Bx. Boulevard, Bronx, New York.

The files of T-1 further reflected that under date of May 21, 1944, PFC IRVING R. ~~SCHMOLKA~~ and T-4 BENJAMIN ~~BEDERSON~~ wrote the following letter to the Surgeon General, War Department:

"In these critical times, when all of we Americans are united in fighting the evils of Fascism and Fascist Doctrines, we take time out just long enough to inquire whether or not you are carrying out one of Hitler's (and Fascism's) Doctrines in segregating the blood plasma of Negroes and whites? And are you requiring that the American Red Cross, which recruits and procures the blood plasma, does not carry out this policy of segregation?"

By letter dated May 27, 1944, F. N. SCHWARTZ, Major, Medical Administration Corps, Blood Plasma Branch, Surgery Division, advised ~~BEDERSON~~ and ~~SCHMOLKA~~ that although there was no scientific basis for the practice of plasma segregation, there are other factors which must be considered. SCHWARTZ stated that many whites would object to have Negro blood injected into their veins and that although this objection might be the results of prejudice and ignorance, it nevertheless exists.

By letter dated June 5, 1944, they again wrote to SCHWARTZ in part as follows:

"We wish to thank you for a very interesting answer, and the frank explanation which you were so kind to give us. Since it is so unusual, we ask your permission to make it available for public consumption by releasing it to the Press.

"This is not to be taken as an indication that we agree with the contents of your letter, and subscribe to the belief expressed!"

By letter dated June 12, 1944, SCHWARTZ declined permission for the above mentioned letters to be released to the Press.

The file contained a copy of another letter from SCHMOLKA at Camp Beale, California, which was probably addressed to the Bureau of Public Relations, War Department, although the copy of the letter does not indicate to whom it was addressed. This letter read as follows:

"I hereby request permission to make available for public consumption, the enclosed two letters, as well as a third. This letter is dated 21 May 1944, and addressed to the Surgeon General's Office. It merely asks why the U. S. Army practices segregation of Negro and white blood plasma.

"I believe that publication of these letters, together with my opinions on the subject might do much to get the Surgeon General's Office to discontinue its Hitler-like doctrine of segregation. This would do much to prove that we are really fighting a war for democracy - in deeds as well as in theories."

Confidential Informant T-2 advised that the progress report there for Group X-5 in May, 1945, reflected that L. FUSEL JR. was the Group Leader of Group X-5 and that the Group was doing work on "detonating circuits."

It is pointed out that GREENGLASS suggested to GOLD that GOLD attempt to recruit a member of his Section at Los Alamos in June, 1945, and that GOLD stated that this man had recently been broken. BEDERSON was reduced from Grade T-3 to Private in May, 1945. BEDERSON was never a member of the same group as GOLD at Los Alamos but was a member of the same Divisions.

The files of Confidential Informant T-1 were thoroughly searched by SA JEROME J. MAXWELL and no photograph could be located for either DAVID GREENGLASS or BENJAMIN BEDERSON.

By letter dated April 18, 1950, the Saint Louis Office advised that Army Service Records reflected that BENJAMIN BEDERSON, Army Serial Number 32505267, was on furlough on the following dates:

4-17-43 thru 4-26-43;
6-6-43 thru 6-9-43;

ALBUQUERQUE, NEW MEXICO

Mr. and Mrs. W. B. FREEMAN made available two photographs of the residence at 209 North High Street showing a portion of the front of that building as it was in the year, 1945. These photographs were forwarded to the Philadelphia Office. It was pointed out by the FREEMANS that the building in its present condition varies from its appearance in 1945. During the year, 1945, the building had a porch on the front thereof, the entrance to the porch being on the south side of the porch or further described as being on the left-hand side of the porch as one faces the building from the sidewalk.

Since that year, this porch has been walled up, covered with a stucco finish and a new entrance to the building has been cut in the south wall of the building at a point where formerly a window existed and that thereafter a "stoop" of cement had been constructed in this subsequently-cut door.

It was observed that the second floor of this building was reached by entering the presently existing door, going up a stairway containing a rail, which is so constructed that for half the distance up the stairway, the stairs proceed in a southerly direction and then turn backward in a northerly direction for the other half of the ascent to the second floor. On reaching the second floor, it is observed that a narrow hallway of short length runs to the left or to the west in the interior of this building.

Apartment Number 4, identified by the FREEMANS as the one occupied by the GREENGLASSES, is located on the north side of the building on the second floor with an entrance on this hallway. The apartment itself was observed to consist of one room and a kitchenette. The kitchenette is located on the west side of this one large room and immediately adjacent to the hallway. There is a window in this larger room which opens to the north.

Photographs of Mr. W. B. FREEMAN were obtained as well as photographs of the vicinity of the address, 209 North High, and permanent stores between the Hilton Hotel and this address. These photographs were forwarded to the Philadelphia Office by Albuquerque memorandum June 6, 1950.

By memorandum dated June 6, 1950, two documents described as:

1. "Form D-35, Order Adjusting Maximum Rent, concerning 209 North High Street, Albuquerque, New Mexico, apartment Number 4, Docket Number 5-41-B-7196, addressed to Mr. W. B. FREEMAN, 606 Ridge Place, Albuquerque, New Mexico";

44-365-39

Form bearing Budget Bureau Number CB-2 029-12, Form FD 2-3, landlord's copy entitled, "United States of America, Office of Price Administration, Registration of Rental Dwellings," obtained from the FREEMANS, were forwarded to the Bureau for the attention of the Mechanical Section with the request that appropriate photostatic copies be made.

Photographs of subject GREENGLASS provided by the New York City Office were exhibited to the FREEMANS. Both Mr. and Mrs. FREEMAN identified the photograph of subject GREENGLASS, wearing a cap and gown as an apparent part of the graduation ceremony, as being that of the individual occupying their apartment during 1945 and part of 1946 as above described.

The photograph of subject GREENGLASS and his wife made by the New York Office during the course of this investigation was exhibited to the FREEMANS. They were unable to state that these photographs were the individuals who occupied their apartment but stated there was a marked resemblance between subject GREENGLASS and their former tenant; that, however, he appeared to be much heavier in weight.

The photograph of Mrs. GREENGLASS was described by Mrs. FREEMAN as being probably the same individual but that she had appeared to have changed some and particularly was wearing a different style of hairdress.

The following documents were forwarded to the Bureau for the attention of the FBI Laboratory by Albuquerque memorandum dated June 8, 1950:

Original ledger card for savings account #35169 with the Albuquerque National Bank, Albuquerque, New Mexico, in the name of RUTH GREENGLASS, 209 North High Street, Albuquerque;

Deposit slip dated 6-4-45, amount \$4.00 in currency in form of Savings Department credit;
Deposit slip dated 11-9-45, amount \$5, in currency;

Deposit slip dated 11-30-45, amount \$5;
Deposit slip dated 7-23-45, amount \$55.40.

The following Savings Withdrawal tickets:

Ticket dated 9-4-45, representing withdrawal of \$55,
Ticket dated 11-7-45, representing withdrawal of \$15,
Ticket dated 1-29-46, representing withdrawal of \$4.02.

107-25-39

The original ledger sheets pertaining to the checking account at the First National Bank in Albuquerque, New Mexico, have been returned to Mr. R. P. GALBRAITH to be preserved until such time as they are sealed under appropriate subpoena.

The investigation at Los Alamos, New Mexico, was conducted by SA JEROME MAXWELL and the investigation at Albuquerque, New Mexico, was conducted by the Reporting Agent and Special Agent JAMES WILLENDE SMITH.

Remytel 16th instant, setting forth signed statement of DAVID GREENGLASS.

There is transmitted herewith a photostatic copy of the rough sketch made by DAVID GREENGLASS, which he describes as an end view of a high explosive lens mold, which was an experiment to study implosion effects on a steel tube to understand the effect it would have on uranium so that it could be determined how a critical mass could be arrived at which would not explode before detonation.

The above information was furnished by GREENGLASS to HARRY GOLD.

It is requested that the Bureau ascertain from AEC if such information was classified and to determine the identity of a competent witness who can testify that such information is classified or was classified as of June, 1945.

GREENGLASS stated that the world-famous scientist referred to in the above mentioned statement was Dr. BOHR, who was working at Los Alamos as BAKER. It is also requested that you ascertain the identity of a competent witness who can testify to the fact that it was classified information that Dr. BOHR, OPPENHEIMER and KISTIAKOWSKY were working on at the Los Alamos atom bomb project as of June, 1945.

Reference is made to our letter to you dated June 27, 1950. As a supplement to the information contained in our memorandum concerning the espionage of Greenglass, we are forwarding herewith two photostatic copies of a rough draft sketch made by David Greenglass. Greenglass describes this sketch, which is similar to the one which he furnished to Gold at Albuquerque, New Mexico, in June, 1948, as an end view of a high explosive lens mold which was an experiment to study implosion effects on a steel tube to understand the effect it would have on uranium so that it could be determined how a critical mass could be arrived at which would not explode before detonation.

Greenglass also has admitted that he furnished information to Gold concerning Dr. Bohr who was then working at Los Alamos under the name of Baker.

It would be appreciated if you would advise us to whether the sketch which we are enclosing would have been considered as classified information as of June, 1948. You also are requested to advise us to the identity of a competent witness who could testify to this information. We would also appreciate being advised as to whether the fact that Dr. Bohr, Dr. Oppenheimer and Dr. Kistiakowski were working at Los Alamos as of June, 1948, would have been considered as restricted information.

Unknown American Number Five

Special Agent Richard E. Brennan, Philadelphia Office, advised as follows concerning information furnished by Harry Gold in re captioned case:

Gold had only one meeting with the unknown subject, a corporal or sergeant probably assigned to Los Alamos.

den

Prior to making his first trip to Santa Fe in June, 1945, Gold met John in a bar, he thinks, on Third Avenue, New York City. John gave him a slip of paper containing the address and name of an individual and an envelope containing \$500 for this individual, telling Gold to contact him while in Santa Fe but not to let that assignment interfere in any way with his contacting Fuchs. Gold did see Fuchs in Santa Fe, then returned to Albuquerque and tried to contact the individual whose name and address he had. No one was at the address, so Gold stayed overnight, and made the contact next morning, learning for the first time that unknown subject was a United States soldier. Gold thinks he met the unknown subject that morning and again that afternoon and believes the information given to him pertained to the physical setup of the installation at Los Alamos. The soldier expected the money.

Gold passed the information received on to John on his return to New York.

Gold cannot recall the unknown subject's name. He describes him as young, not over 25, dark curly hair, light colored eyes (maybe brown), snub nose, square jaw, about 5'7", 180 pounds, good regular teeth, broad mouth, tanned complexion, a rather engaging appearance, possibly a machinist or draftsman with some training in physics, a New Yorker by birth with a definite Bronx or Brooklyn accent, believed to be Jewish. He hadn't been married long, his wife was a recent arrival there and they had no children. Unknown subject had a Christmas furlough in 1945. Unknown subject's wife is recalled very vaguely, at as about 5'5" and "possessed with normal good looks."

INDEXED *OK* RECORDED *OK* 65-59028-97

Gold says he can identify unknown subject's residence in Albuquerque if shown maps or motion pictures. blocks, turn left to the first, second, or third house. The unknown subject's residence had a brick cement foundation and on top of that brown clapboards three feet high. The front of the house has an enclosed porch of glass or screening or both. The sidewalk leading to the house is narrow as is the street itself. In front of the house is a lawn about twelve feet deep. Unknown subject lived on the third floor, the stairway leading to his apartment leading directly up from the enclosed porch.

Special Agent T. Scott Miller suggests reviewing Bureau files on Theodore Hall, the subject of an espionage case who was at one time in Los Alamos.

Enclosed herewith to Philadelphia will be found the only available photograph of the house at 209 North High, Albuquerque, New Mexico, during the year 1945.

For the assistance of the Philadelphia Office it will be observed that six people are standing on what appears to be the front steps of this building. In the photograph enclosed it will be observed that to the left of these individuals is a window. To the right of this group of individuals will be found the former entrance to the building. This constitutes a view of the southeast corner of the building in question.

The building in its present condition varies from that reflected in the photograph as follows: The window above described has now been remodeled to become the entrance to the building and a form of step has been constructed beneath what is now the window. The porch, a portion of which appears to the right of the group in this photograph, has now been enclosed, has a stucco finish and only the lower two steps appear in the present condition of the house.

By separate letter Philadelphia has been provided with movie film of this house in its present condition. The above will assist the Philadelphia Office in identifying the house in question on the movie film.

No identifying marks have been placed upon the enclosed photograph for the assistance of the Philadelphia Office in exhibiting it to the informant. When the photograph has served its purpose, it should be returned to the Albuquerque Office in order that it may be returned to Mr. W. B. FREEMAN, landlord and owner of the premises at 209 North High.

In addition, there are enclosed herewith to the Philadelphia Office sixteen photographs of W. B. FREEMAN, landlord of the premises at 209 North High, Albuquerque. This may be the individual with whom the informant conversed when he first called at the above address in

Re: UNKNOWN AMERICAN #5
ALBUQUERQUE, NEW MEXICO
HARRY GOLD - INFORMANT
ESPIONAGE - R

By memorandum dated June 6, 1950, bearing the above caption, the Bureau was supplied with two documents described as follows:

1. "Form D-35, order adjusting maximum rent concerning 209 N. High Street, Albuquerque, N.M., Apartment #4, Docket #5 - A1 - H - 7196, addressed to Mr. W. B. FREEMAN, 606 Ridge Place, Albuquerque, New Mexico."
2. Form bearing Budget Bureau #OH-R 029-42, Form DD 7-D, Landlord's copy entitled "United States of America, Office of Price Administration, Registration of Rental Dwellings."

On the back of one of these documents will be found the signature of Mrs. DAVID GREENGLASS, presumably placed thereon by Mrs. GREENGLASS at the time the apartment at 209 N. High Street, Albuquerque, New Mexico, was rented. It is requested that this signature be compared with the signature on the enclosed documents to determine if all were prepared by the same individual. In the event all were not prepared by the same individual, it is requested that the examiner determine which ones were prepared by the same individual. The purpose of this examination is to determine whether Mrs. RUTH GREENGLASS was the author of the deposit of \$400 in cash on June 4, 1945, and to determine whether the occupant of the apartment at 209 N. High Street, Albuquerque, New Mexico, is identical with the individual who made these deposits.

Upon completion of the examination, it is requested that the Albuquerque Office be supplied with one photostatic copy of each of the enclosed documents. It is requested that the enclosed documents be returned within two weeks of the date of this letter to the Albuquerque Office in order that they may be returned to the Albuquerque National Bank where they will be held for possible future prosecutive use.

Schedler called at 12:50 p.m., stating that he had gotten word from Whearty that he had a release prepared in the typewriter and that Peyton Ford had instructed that Mr. Hoover's name be put in the release. He stated that he had told Peyton of my discussion with him and that he was doing the decent thing by letting me know. I told him that the Director's name was not to be put into the release and I wished to lodge a formal and vigorous protest against the Director's name being put in the release, that this was against his wishes and contrary to his order and that I thought they had no right to quote him without his permission. He stated that he had his orders and there was nothing else to be done. I told him that I would check to see if the Director was still here and if so I would ask him. I called Schedler back in a few minutes and told him that the Director had gone out, that I could not give approval for the use of the Director's name without the Director's consent and I wished to lodge a vigorous protest against the use of the Director's name pursuant to his instruction. I think the attached memo might be in order.

Mr. Schedler called Mr. McGuire earlier this morning and stated that he had just had a call from Whearty regarding the development of the Greenglass case and Mr. Ladd had told him that probably there would not be any action for approximately an hour. He wanted to come right on around to get some data, stating that he was in the same position he was in last night. Mr. McGuire told him that he had some people with him which was a fact.

I called Schedler back shortly after 11:00 a.m. Schedler told me that he needed some basic information to get up a release and that he had the press people standing by. I told Schedler that in view of Peyton Ford's conversation with me last evening, we had decided we would not put out a press release in Washington as far as the Bureau is concerned. He asked where that left him. I told him that it left him with the fact that we were not going to send a release around. He stated that if he could just get Greenglass' name, age and a little personal background, he could get up a two or three paragraph release and attach it to a copy of the complaint. I told him that we were not being a party to any press release in Washington. The conversation terminated.

Shortly thereafter he called back. I was on the phone at the time and returned his call at approximately 11:45 a.m. He stated that he found himself in a powerless position and that it was certain that he could not or would not or had no desire to overrule either the Bureau or the Director but that he thought his position was untenable, that he had nothing to say to the press. I previously told him that the press could get the details at the Commissioner's hearing. He said that, of course, he could not tell the press that. In our latest conversation, he stated that he could, of course, go down to Whearty's office and get a few details from the Bureau's memo but that would also be overruling the Bureau. I told him that that was the Department's memo, the Bureau had sent it to the Department and he could do as he wished. He stated that he did not want to do anything which the Director would not approve of. I told him that the Director was concerned only with the Bureau and that, of course, he could do as he wished but that we were not sending around a press

release in view of Peyton Ford's conversation with me. He stated that he couldn't understand Ford's criticism of him last night. I told him quite frankly I had told Ford that I resented the criticism directed at the Bureau and me personally and that I also told Ford that I did not see where he could criticize Schedler for doing what Schedler and his predecessors had been doing for the past 15 years, that it just didn't make sense. I further told Schedler that the only thing that I could conclude with was that somebody didn't want Mr. Hoover's name in the newspapers and if that were the case, we would see to it that this did not happen. He asked what I thought about his getting up a press release based upon the Bureau's memo. I told him that that was the Department's memo and he could do as he wished. He didn't want Mr. Hoover to get mad at him. I told him that Mr. Hoover would not get mad with him for doing his duty, that I would talk to the Director about this but that certainly he was not authorized and could not use Mr. Hoover's name in the press release. He then asked about using the name FBI. I hemmed and hawed on this and concluded that the matter was up to him. It is obvious that Schedler is pretty much upset over the situation. I made our position clear to him I thought in rather certain terms.

Shortly after 10:00 am today, Mr. Ladd, Supervisor Lamphere and Mr. Belmont conferred with Mr. James McInerney, Mr. Raymond P. Whearty, and Mr. George Kneip, of the Department, concerning the case of David Greenglass. At the start of the conference, Mr. McInerney was unavailable; however, he came in shortly after the conference started.

The memorandum to the Attorney General dated June 16, setting forth the background and available information concerning David Greenglass was furnished to the Department. After a study of this information, Mr. Whearty advised that the Department would authorize prosecution against Greenglass under Section 34 of Title 50 charging conspiracy to violate Section 32 a of Title 50 USC. Mr. Whearty was of the opinion that venue would most clearly lie in the Federal District of New Mexico, inasmuch as the passing of the information from David Greenglass to Harry Gold occurred at Albuquerque. Mr. Whearty was orally advised that Greenglass had been allowed to call his home last night and again this morning, as a result of which, attorney O. John Rogge had called the New York Office this morning to state that he represented Greenglass and was sending Mr. Fabricant, a representative of his firm to the New York Office to interview Greenglass. Mr. Whearty was advised that arrangements were being made for Fabricant to interview Greenglass.

In view of the interest of Mr. Rogge in this matter, Mr. Whearty immediately called U. S. Attorney Saypol, SDNY, and requested him to be alert for any action on the part of Rogge to secure a writ for the release of Greenglass, although Greenglass as yet has not been placed in custody. Mr. Whearty advised Mr. Saypol very briefly of the fact that a complaint was to be filed in Albuquerque against Greenglass and based on the warrant to be issued, Greenglass would be apprehended in New York. Mr. Whearty told Mr. Saypol there was to be no publicity prior to the arrest.

In view of the fact that it was only 8:00 am in New Mexico at this time, Mr. Whearty also spoke to U. S. Attorney T. Vincent Keough, EDNY, to advise him of the same facts and that the Department was authorizing process in Albuquerque, but that if Attorney Rogge attempted to get a writ, it might be necessary to file a complaint immediately in the Eastern District of New York. Mr. Keough was advised by Mr. Whearty that this matter should be kept confidential and no publicity should be issued in connection with the arrest.

Mr. Whearty then called Assistant U. S. Attorney Sanchez at Albuquerque, New Mexico, and advised him that the Department was authorizing process in the Federal District of New Mexico. He requested that Sanchez immediately contact SAC Wily, who would have the necessary facts to draw up the complaint. He advised Sanchez that Greenglass was in New York and would be apprehended on the basis of the warrant to be issued in Albuquerque.

UNRECORDED COPY FILED IN 65-5749

MEMORANDUM FOR MR. LADD

Prior to the calls to the above United States Attorneys, Mr. Whearty and Mr. Kneip drew up the complaint against Greenglass. A copy is attached. Immediately on the completion of the drawing up of the complaint, both the New York Office and the Albuquerque Office were telephonically furnished the exact wording of the complaint. SAC Wyly was advised to take the matter up immediately with Mr. Sanchez and to have an Agent appear before the United States Commissioner, and to advise the Bureau telephonically the moment the warrant was issued.

The New York Office was advised to be prepared to arraign Greenglass immediately upon receipt of word that the warrant had been issued.

For record purposes, prior to authorization of prosecution by the Department, the above Department representatives were advised, as set forth in memorandum to the Attorney General, that the interview with Greenglass first started at 1:46 pm, June 15, at his apartment, that he accompanied Agents to the office at 5:25 pm on a voluntary basis, and signed a statement concerning his activities at 1:06 am on June 16. Thereafter, he slept in the nurse's quarters at the New York Office. He called his brother-in-law on the night of June 15, and again called his family on the morning of June 16. The Department was advised that Greenglass had not been arrested, but neither had he furnished a written consent to stay with the Agents overnight.

Mr. McInerney inquired as to what action the Bureau was taking concerning Julius Rosenberg. He was advised that Rosenberg is presently being questioned at the New York Office on a voluntary basis.

Mr. Whearty inquired whether we had taken steps to interview Ruth Greenglass. He was advised that she is in a hospital in New York undergoing treatment for an infection resulting from a severe burn some months ago and that consequently we had not interviewed her as yet this morning. His advice was sought as to whether, under the circumstances, the Bureau should seek to interview Ruth Greenglass. He and Mr. Kneip were both of the opinion that Ruth Greenglass should be interviewed at once, if possible. Instructions were telephonically furnished to the New York Office to contact the doctor treating Ruth Greenglass and hospital authorities to determine her condition, and if her condition was such to permit interview, instructions were given to interview her immediately.

At 12:39 pm, Mr. Carlton, of the Albuquerque Office, called to advise that the complaint had been filed at 9:36 am (Albuquerque time) (12:36 pm, Washington time) and the warrant issued immediately thereafter. The complaint was signed by Special Agent J. Jerome Maxwell before U. S. Commissioner Owen J. Mowrey. Bond was set at \$100,000 upon the recommendation of the U. S. Attorney, following recommendation by the Department for this amount. Bond is returnable forthwith at Albuquerque. Certified copies of the papers are being forwarded air mail special delivery to the U. S. Attorney at the SDNY. This information was immediately furnished to ASAC Whelan at New York with instructions that Greenglass be arraigned at once.

MEMORANDUM FOR MR. LADD

It is noted that Mr. Whearty called while the call from the Albuquerque Office was in process to advise that AUSA Sanchez had informed that the complaint had been filed and the warrant issued.

At 1:07 pm, ASAC Whelan advised that U. S. Attorney Saypol had informed him that O. John Rogge would not be available for the arraignment until 1:30 pm. Therefore, the arraignment will take place at that time. Mr. Whelan will advise at once when the arraignment has taken place.

Relative to Ruth Greenglass and Julius Rosenberg, Mr. McInerney and the other Department representatives were of the opinion that process should not be issued at this time on the basis of the statement of Greenglass alone. They requested that the Department be kept advised of any developments resulting from the interviews of these individuals. They were told they would be kept advised.

At 2:05 pm, ASAC Whelan advised that the subject had been arraigned before U. S. Commissioner Edward W. McDonald, SDNY. Bail was set at \$100,000 and Greenglass was remanded to the custody of the marshal until hearing scheduled for June 23, 1950. Attorney Rogge made a plea for bail in the amount of \$5,000, stating that hysteria is gripping the country; that figures mean nothing under these conditions; and that \$100,000 in reality means denying bail to the defendant and thus violating his Constitutional rights. Both the U. S. Attorney and the U. S. Commissioner disagreed with him and bail was set at \$100,000.

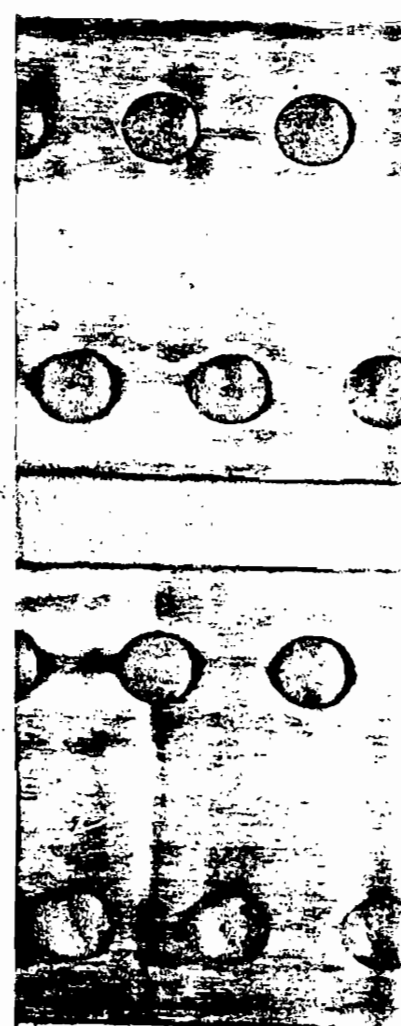

COMPLAINT

In connection with the admissions of Harry Gold, he has implicated David Greenglass, whom he contacted in Albuquerque, New Mexico, in June, 1948. On June 2, 1950, Gold executed a signed statement concerning his contacts with this individual. In the statement he stated that sometime around May, 1948, he met his superior, "John," Anatoli A. Yakovlev, in a bar on Third Avenue in New York City for the purpose of discussing plans for his departure in June, 1948, for Santa Fe, New Mexico, to meet Klaus Fuchs. During this meeting "John" supplied him with the name and address of an individual in Albuquerque, New Mexico, and instructed Gold to contact this man. He indicated that he believed "John" had told him to contact the man's wife if the man was not there. "John" stated that he would receive information from this man which Gold was to deliver to "John." "John" gave Gold an envelope containing about \$500 and instructed that this money be given to the man in Albuquerque in payment for the information. He stated that the money was to be given to him only if he needed the funds.

sent

Gold further stated that he left Philadelphia in June, 1948, and went to Albuquerque and then to Santa Fe. On his return to Albuquerque he tried unsuccessfully to contact the individual. The following morning, which he believed was Sunday, he again went to the address and met the individual, at which time he learned that he was in the United States Army and believed that he was a Technician Fifth Grade. Gold stated that he, Gold, used the name Frankessler or Frank Martin and that the soldier recognized the password which was given by Gold.

Gold stated that he returned to the home later in the afternoon, at which time he received from the soldier an envelope containing three to five pages of written information and possibly one sketch. Gold believes that this information was a generalized description of the area in Los Alamos, New Mexico, in which the soldier worked. He stated there also may have been a sketch of some structural equipment of a machine. Gold judged from what the soldier said that he worked at Los Alamos as a draftsman, a machinist, or electrician in the Physics Laboratory.

At the time the information was furnished by the soldier to Gold the latter gave the soldier approximately \$500. The soldier had expressed a need for funds to enable his wife to stay near him.

During the conversation with the soldier, Gold made tentative arrangements for a second meeting to occur in New York City during a furlough which the soldier expected at Christmas in 1945. Gold was to call the soldier's father-in-law in the Bronx, New York, whose first name Gold said may have been Philip. Gold indicated, however, that this meeting never occurred on the orders of "John" who appeared to have lost interest when Gold mentioned the matter to him in the late Fall of 1945.

Gold stated that the information he received from the soldier in Albuquerque was turned over to "John" upon his, Gold's, return to New York. Gold believes the actual transfer of the information to "John" occurred in Brooklyn in the neighborhood of Metropolitan Avenue.

Gold stated that at the time he first met the soldier in Albuquerque he also met his wife, whose name may have been Ruth. He also stated that subsequent to the meeting in Albuquerque he never saw the soldier or his wife again.

On June 15, 1950, Harry Gold made a positive identification of Greenglass from photographs which were shown to him.

David Greenglass, who was born March 3, 1922, in New York City, was inducted into the United States Army on April 5, 1943, and entered active duty on April 12, 1943, at Fort Dix, New Jersey. During July, 1944, he was transferred to the First Provisional Special Engineer Detachment Unit, Manhattan District, Oak Ridge, arriving on July 27, 1944. He departed from Oak Ridge on August 2, 1944, and joined the Second Provisional SED Unit at Santa Fe, New Mexico, on August 8, 1944. The Second Provisional SED Unit apparently became a part of the Santa Fe Detachment, 9912 TSD-CR, Manhattan District, Santa Fe, on November 20, 1945. On February 20, 1946, Greenglass was transferred from this assignment to the Separation Center at Fort Bliss, Texas, and was discharged on February 29, 1946. The records in Los Alamos reflect that Greenglass worked on highly confidential material in connection with atomic energy research.

On June 15, 1950, at 1:45 PM, Special Agents of our New York Office began an interview of David Greenglass at Apartment 8, 205 Rivington Street, New York City. After being advised of his rights not to make any statement and to have an attorney, Greenglass signed a waiver of search for his residence. Greenglass voluntarily accompanied the Agents to the New York Office, arriving at 3:25 PM. At 9:25 PM he admitted his activity in connection with Gold and signed the following statement at 1:00 AM on June 15, 1950:

"I, David Greenglass, make the following statement to John W. Lewis and Leo E. Frutkin, who have identified themselves to me as Special Agents of the Federal Bureau of Investigation. I make this statement freely and voluntarily and have been advised of my right not to make a statement and that I have a right to an attorney. I understand that this statement may be used against me in a court of law. I was born March 8, 1921, at New York City and presently reside at 288 Livingston Street, New York City. On or about November 20, 1944, my wife, Ruth, arrived in New Mexico from New York City and told me that Julius Rosenberg, my brother-in-law, had asked if I would give information on the atom bomb and stated as a reason for that that we are at war with Germany and Japan and that they are the enemy and that Soviet Russia was fighting the enemy and was entitled to the information. On that basis, I agreed to give whatever information came to me in the course of my employment at Los Alamos, New Mexico, at the Los Alamos Atom Bomb Project. This message, which my wife conveyed to me, was not her own idea but was an idea given to her by Julius Rosenberg. She told me at the time that a man would contact me later for information about the Los Alamos Atom Bomb Project. About February, 1948, my wife moved to Albuquerque, New Mexico, from New York City. Three or four months later she had a miscarriage. Approximately a month after that time, a man came to the place where Ruth was living, 200 North High Street, Albuquerque, New Mexico. I did not know this man's name at the time but recently recognized his picture in various newspapers as being Harry Gold. He had with him a torn or cut piece of paper card which fitted a torn piece of paper card furnished me as a means of identifying this man. I cannot recall at this time whether this torn piece of card was given to me by my wife, Ruth, at the time she moved to Albuquerque, New Mexico, from New York about February, 1948, or whether I received it from Julius Rosenberg while I was in New York City on furlough between about December 20, 1944, and January 20, 1945. Gold gave me an envelope containing five hundred dollars. Gold said to me that I was living in a poor place at the time he gave me the five hundred dollars. I furnished him with information concerning the Los Alamos project, although I did not do it for the promise of money. I gave him a list of names of persons who were working at Los Alamos who, I thought, could be approached for information. They were names of both soldiers and civilians, to the best of my recollection. I felt it was gross negligence on the part of the United States not to give Russia the information about the atom bomb because she was an ally. I think that I gave Gold a sketch of a high-explosive lens mold, or something of that type of thing, which was an experiment to study implosion effects on a steel tube

to understand the effect it would have on uranium as it could be determined how they could arrive at a critical mass that would not explode before detonation. I have furnished a rough penciled sketch of a portion of the above-mentioned high-explosive implosion test to F.B.I. Agents. I also furnished Gold with information concerning the identity of a world-famous scientist, who was working at Los Alamos under an assumed name. I also furnished the information to Gold that Oppenheimer was working at Los Alamos and that Kistiakowsky was working at Los Alamos. Gold told me that he would come back to see me again and I agreed to see him, however, he never contacted me again. My wife was not in the room at the time I received the money from Gold and at the time I gave him information about the Los Alamos Atom Bomb Project. I gave Gold the information without expecting money for it. I was inducted into the Army April 12, 1943, and was given Army Serial Number 32552473. During the summer of 1944 I was assigned to Oak Ridge, Tennessee, where I remained for about two weeks. While at Oak Ridge, Tennessee, I was given a security pep talk by someone in Military Intelligence, and at Los Alamos was furnished with a security book. I understood that all of the work being done at Los Alamos, New Mexico, was Top Secret. I understand that under Army regulations "Top Secret" means that such information is not to be discussed with anyone, even with fellow employees, except when it is necessary for the work. I was assigned to the Los Alamos Atom Bomb Project from about August, 1944, until about February, 1946, and during all that time I was a non-commissioned officer in the United States Army, having first, Grade E-5, and later, Grade E-4. I was assigned to Theta Shop at Los Alamos where I worked on high-speed cameras, lucite parts, experimental equipment, and also made up parts that could not be bought on the outside. On one occasion that I recall I handled uranium. In general, the work was in regard to the atom bomb but I did not know this until about a month or two after I was assigned there. I heard it among the employees at the Los Alamos Project. I recall that I had a leave of five days in late November, 1944, and that my wife, who had arrived in Albuquerque for my wedding anniversary celebration, came on or about November 20, 1944. I also recall that I had a furlough from about December 20, 1944, to about January 20, 1945, and I spent my furlough time in New York City.

"I have read the above statement consisting of this page and three preceding pages and state that it is the truth to the best of my knowledge. No promises or threats or coercion of any kind were used to obtain this statement.

(signed) "David Greenglass"

On the evening of June 18, 1950, Harry Gold made the following notation on a photograph of David Greenglass, "This is the man I contacted in Albuquerque, New Mexico in June, 1948, on instructions from my Soviet espionage superior 'John.' The man in the picture gave me information relative to his work at Los Alamos, New Mexico which information I later gave to 'John.'" At 1:10 AM on June 18, 1950, Greenglass wrote the following on the back of the photograph of Harry Gold, "This is the picture of the man who was the recipient of my information at Alb," signed "David Greenglass."

Greenglass telephonically requested Mr. Louis Abel, his brother-in-law, to obtain for him the attorney, G. John Rogge, and told Mr. Abel that he was at the FBI Office. David Greenglass was put to bed in the Marco's Office at the FBI Office, United States Court House, Foley Square, New York City, at 1:40 AM on June 18, 1950.

In connection with Gold's contact with Greenglass in June, 1948, investigation has reflected that a savings account was opened in the names of Ruth and David Greenglass, 309 North High Street, Albuquerque, New Mexico, on June 4, 1948, with a \$400 deposit in currency. It will, of course, be necessary to issue a subpoena for the bank records prior to the public disclosure of this information.

From the foregoing it would appear that David Greenglass, his wife, Ruth Greenglass, and his brother-in-law, Julius Rosenberg, have conspired to violate the War Time Espionage Statute. It would appear insofar as venue is concerned regarding David Greenglass, that it would lie in the Judicial District of New Mexico.

Additional information regarding this matter will be furnished to you as it becomes available.

At 11:50 A.M. ASAC Whelan called from New York. He said he had a call from USA Keogh from the Eastern District of New York who said he had been contacted by the Department and had been told that the FBI in New York would give him a copy of the complaint which was being filed against David Greenglass. Mr. Whelan wanted to know what the facts were since Saypol also had been contacted.

I told Mr. Whelan that the Department had called Keogh and had told him to be ready to move in the event a writ of habeas corpus was filed in the Southern District. I told him to go ahead and give a copy of the complaint to Keogh and tell him that our advice from the Department was that Keogh was not to take any action whatever until he received instructions from the Department.

Re: David Greenglass
Espionage - R

Dear Mr. Grantham:

Reference is made to the above case in which at the Department's request you filed a complaint on June 16, 1950.

The removal proceedings in the Southern District of New York have been set for June 23, 1950. One adjournment of ten days to two weeks undoubtedly can be obtained, in addition to which a further adjournment for a like period is possible. Since the Department is extremely interested to avoid a preliminary hearing which will entail any disclosure of the Government's evidence, it follows that an indictment must be procured within the maximum period indicated above in order to obviate that result. If possible such indictment should be returned within the two week period subsequent to June 23.

It is the Department's understanding that a regular grand jury will not again be convened in your district until September 6, 1950. In the circumstances, and in view of the nature of the case, it will be appreciated if you will endeavor to make immediate arrangements with the court for impaneling a special grand jury to consider the matter. The Government is in a position at the present time to present sufficient evidence to establish a prima facie case so that no delay will be necessary in having the requisite witnesses available whenever a grand jury is convened.

It will be further appreciated if you will advise the Department promptly as to the requested impaneling of a

RESULTS OF EXAMINATION:

A definite conclusion could not be reached whether the MRS. D. If a further comparison is desired in connection with this case, it is suggested that additional writing known to have been prepared by RUTH GREENGLASS be submitted to the Laboratory. This known writing should, if possible, include the signatures MRS. D. GREENGLASS and RUTH GREENGLASS.

With reference to my earlier memorandum today reflecting a telephone call from O. John Rogge, I desire to advise that ASAC Whelan of the New York Office called me and advised that Rogge had called him and advised that he had made an appointment to see me on June 26. At this time, he told Mr. Whelan he would like to have Special Agents Fruitkin and Louis, who questioned Greenglass, at the Commissioner's hearing on Friday, June 23.

Mr. Whelan desired to know what advice he should give Mr. Rogge. Mr. Whelan further informed me that he had talked to Mr. Saypol, the U. S. Attorney, who had indicated that he did not desire to have the Agents present unless Rogge issued a subpoena for them inasmuch as he, Saypol, intends to either have the commissioner's hearing postponed or in any event, does not desire to bring up any testimony on this occasion.

I told Mr. Whelan to call Mr. Rogge and advise him that he, Rogge, should take the question of the Agents' appearance up with the U. S. Attorney and that the Bureau would abide by whatever agreement or instructions were issued by the U. S. Attorney concerning this matter.

In connection with the Greenglass press release, Fred Mullen called and asked what the "SED" Unit stood for.

I told him I did not know and referred him to Schedler. Mullen thought this was unusual since this statement was attributed to the Director in a press release just issued by the Department. I told him that we had not seen the press release issued by the Department and could assume no responsibility for anything therein.

Mullen went into a tirade against the way this had been handled in the Department and stated he was going to make a protest.

Subsequently, Jack Adams of the UP called. He wanted additional material on the induction of Greenglass. I told him that this was a matter presently being handled by Mr. Schedler.

Referenced St. Louis teletype dated June 9, 1950, advised it was possible to determine from Morning Reports the identity of enlisted men attached to the 9812 TSU-CE organization and men on furlough any specific period. Referenced Philadelphia teletype dated June 10, 1950, requested a check of Morning Reports to determine if GREENGLASS was on furlough June 2, 1945, to June 4, 1945. Referenced St. Louis teletype dated June 13, 1950, advised the name GREENGLASS did not appear on Morning Reports for the period June 1, 1945, to June 7, 1945.

Referenced St. Louis teletype dated June 15, 1950, indicated periods of short liberty should be reflected in Morning Reports but might not appear. If a name does not appear on Morning Reports, soldier is presumed to be in a duty status but again might actually be absent if the organization clerk failed to make the proper entry in the Morning Reports.

Referenced St. Louis teletype dated June 13, 1950, further reflected that the Bruns General Hospital records are not located at the St. Louis Administration Center but may be at the Kansas City Records Center, Kansas City, Missouri; that medical records should be in the individual's Army service record; that available medical records in the service record for GREENGLASS were forwarded on April 6, 1948, to the Veterans Administration Regional Office, 252-7th Avenue, New York, New York, Claim No. C-14 289 193; and that a Report of Physical Examination at time of Discharge for GREENGLASS reflects a notation, "Urethritis, Jan. 45, Burns General Hospital, New Mexico (Worked on Atomic Bomb Project)".

DETAILS:

At San Antonio, Texas

ROSALEA TERRELL, 130 W. Carson Street, advised that during February 1945 she received a disability retirement from the Southwestern Bell Telephone Company because of enlarged bronchial tubes and moved to Albuquerque, New Mexico for her health. She stated that on March 1, 1945 she had obtained an apartment at 209 1/2 N. High Street, Albuquerque and that later during that same month DAVID and RUTH GREENGLASS had rented the apartment adjoining hers at that address. TERRELL stated that she had been under the impression that DAVID and RUTH GREENGLASS had previously lived at another address in or near Albuquerque prior to moving to the High Street address. TERRELL advised that during the subsequent months she had become very friendly with RUTH GREENGLASS but had

had no contact with DAVID. She stated that all she knew about DAVID was that he, like RUTH, was from New York and that he was a soldier stationed at Los Alamos, New Mexico. She advised that he spent most every week-end at the High Street address with RUTH but was not often there during the week.

TERRELL stated that inasmuch as she had no friends in Albuquerque she was very lonesome as was RUTH GREENGLASS, consequently, they visited each other quite often during the evenings. In this connection she stated that RUTH worked for the OPA or some other government agency in Albuquerque, consequently, she rarely saw her during the day except on week-ends. TERRELL stated that their conversations had been of a very general nature and that she had found out very little about either DAVID or RUTH or their backgrounds. She stated that she had learned that the relatives of either DAVID or RUTH had a store in New York and regularly sent them packages of kosher food. She stated that RUTH had remarked that she had lived in big apartment houses all of her life, had never seen vegetables or farm produce being grown, and several times mentioned that she would like to quit office work and get some sort of a job on a farm while living in that area.

TERRELL advised that all the mail for the residents of 209½ High Street was left on a table in the hall and subsequently picked up by the tenants. She stated that she observed that the GREENGLASS couple regularly received mail from New York but that she does not recall ever having seen anything unusual in the amount of mail or any mail which appeared to be suspicious in any way.

TERRELL advised that she had never had any contact with visitors at the GREENGLASS apartment and while she remembers that on one or two Sundays they did have guests at the apartment, she did not see these individuals and so far as she could recall RUTH never said anything to her concerning her visitors. She stated that the names FRANK KESSLER, FRANK KEPPLER or FRANK MARTIN are not at all familiar to her and she is positive that RUTH never mentioned these names to her. She stated that occasionally a young girl whom she believes worked at the same place as RUTH visited at RUTH's apartment but she was never introduced to this girl and does not know her name.

TERRELL advised that DAVID GREENGLASS had been very secretive concerning his assignment at Los Alamos and she had heard one or two of the tenants speculate as to what sort of an assignment he had. She stated apparently he had not even discussed his assignment with his wife because after the dropping of the first atomic bomb when it became known that the bomb had been developed at Los Alamos, RUTH told her that DAVID had never even mentioned to her that his assignment involved anything of that nature. TERRELL advised that DAVID had not associated with anyone in particular while residing there to her knowledge except that he had ridden back and forth to work with some individual whose identity was not known to TERRELL.

TERRELL advised that RUTH GREENGLASS had never discussed financial matters, had never complained of not having enough money and the couple appeared to be in moderate circumstances during the entire period that she was acquainted with RUTH. She stated that the couple ate extremely well, that RUTH always prepared huge meals on the week-ends that DAVID came home. TERRELL stated that DAVID was always in uniform and that RUTH did not appear to possess many clothes but dressed like an average housewife. She stated that the couple never appeared to have or to spend any large amounts of money and had taken only one trip to her knowledge during the period March-October 1945. TERRELL stated that as well as she recalled this trip was to visit their relatives in New York City and was taken sometime during September 1945. She stated she believed the couple made the trip by train; that she had received a card from RUTH in New York City and that the couple had returned to Albuquerque about two weeks prior to the time that TERRELL moved back to San Antonio which was on October 20, 1945. TERRELL stated that one or two days prior to her departure from Albuquerque she had talked to DAVID GREENGLASS for the first time when she went to the GREENGLASS apartment to tell them goodbye.

TERRELL stated that GREENGLASS had not been very well liked at the apartment house because he was rather loud or noisy, slammed doors going in and out of the house and his apartment and made a lot of noise going up or down the stairs no matter what time of day or night it was. She stated that RUTH on the other hand appeared to be a very nice considerate person and that she had liked her very much. She stated that she intended to carry on a correspondence with RUTH but had not done so and has had no contact with her since October 1945. She stated she had heard nothing at all concerning the couple until she heard a radio broadcast last Friday relative to DAVID GREENGLASS having been arrested. She stated this had been very much of a shock to her because she had never seen or heard anything in connection with RUTH or DAVID which would arouse her suspicions in any way and she could hardly believe that he could be capable of doing things he is alleged to have done.

TERRELL advised from the current photographs of RUTH GREENGLASS she does not appear to have changed very much except that she is somewhat thinner but that DAVID appears to be twice the size that he was in 1945 and much older. The photograph of HARRY GOLD was exhibited to TERRELL and she recognized it as being of HARRY GOLD, stating that she had seen his photographs in newspapers. She stated, however, that she never recalled seeing this individual before.

There are being transmitted herewith to Albuquerque, two photostatic copies of DAVID GREENGLASS' signed statement dated 6/15/50, and two photostatic copies of the sketch referred to therein.

During the interview with DAVID GREENGLASS on the night of 6/15/50, GREENGLASS drew the rough penciled sketch from memory and described it as a sketch of a high explosive lens mould at one end of a steel tube. At the points indicated on the sketch there is a high explosive detonator which is set off. The other end of the steel tube has a photographic film to record the effect of the implosion on the steel tube. The values so derived are translated to uranium to determine the critical mass of uranium which would not explode before detonation.

You will recall that at the time of the press release on the apprehension of Harry Gold, Miss Norma Abrams, of the New York Daily News, telephonically advised of her disappointment and of the disappointment of other reporters in New York City because no release was made at New York City.

At 5:00 pm today, Miss Abrams called to take this opportunity to express to the Bureau her appreciation, the appreciation of the Daily News, and that of all other reporters in New York City because the press release on the apprehension of David Greenglass was made in New York City. She advised that she is sure that the Bureau has gained good will by making this release and the effectiveness of the release in New York City will be shown by the stories in the New York papers.

I advised Miss Abrams that I was glad that she and the other reporters were pleased with the story. I pointed out to her, however, that in each instance when a release is made, all factors are taken into account, and in a great many instances it is outside of our control exactly where a release is made and that it is impossible to please everyone. I pointed out that she should bear this in mind as to future releases.

I. NARRATIVE OF OFFENSE

DAVID GREENGLASS, Army Serial Number 32882473, was inducted into the United States Army on April 5, 1943 and entered on active duty on April 12, 1943. He joined the First Provisional Special Engineering Detachment Unit, Manhattan District, Oak Ridge, Tennessee, on July 27, 1944. While there he was given a "security pep talk" by a representative of the United States Army. He departed from Oak Ridge, Tennessee, August 2, 1944 and joined the Second Provisional Special Engineering Detachment Unit, Santa Fe, New Mexico, on August 5, 1944. GREENGLASS was assigned to the Los Alamos Atom Bomb Project and remained there until February 27, 1946, when he was transferred to Fort Bliss, Texas for discharge.

At Los Alamos, New Mexico DAVID GREENGLASS, with Army Grade T-5, was assigned to Group E-5 (which was concerned with implosion experimentation) in August, 1944 under GEORGE B. KISTIAKOWSKY. The work of Group E-5 in August, 1944 was "Study of the Symmetry of Collapse and of the Methods for its Improvement". From September 30, 1944 to November 30, 1944 DAVID GREENGLASS was a member of Group X-1. Group X-1 worked on "Implosion Research" in that period, and Dr. GEORGE B. KISTIAKOWSKY was the Division Leader of X-Division.

About December, 1944 or January, 1945 DAVID GREENGLASS was a member of Group X-4, which was charged with the duty of "Engineering of Moulds for High Explosives, Research on Sintered and Plastic Bonded Explosives", and miscellaneous services for X-Division. He was still in Group X-4 in May, 1945.

DAVID GREENGLASS was a member of the "Student Shop" of Group X-4. The functions of the "Student Shop" were "to maintain shop equipment for use of members of X-Division, to make miscellaneous experimental items, to do experimental work on large jobs before final design is made for large orders".

In general, DAVID GREENGLASS' work was in regard to the Atom Bomb, a fact he learned about a month or two after he was assigned to Los Alamos, New Mexico.

DAVID GREENGLASS received a five day pass in late November, 1944. On or about November 29, 1944 his wife, RUTH GREENGLASS, arrived

NY 65-15336

in Albuquerque, New Mexico to celebrate their wedding anniversary with him. At that time she told DAVID GREENGLASS that JULIUS ROSENBERG, his brother-in-law, had asked if DAVID GREENGLASS would give information on the Atom Bomb. She told DAVID GREENGLASS that JULIUS ROSENBERG had said that the United States was at war with Germany and Japan and that those countries were enemies, and that Soviet Russia was fighting the enemy and was entitled to the information. On that basis, DAVID GREENGLASS agreed to give whatever information came to him in the course of his work at the Los Alamos Atom Bomb Project. RUTH GREENGLASS told DAVID GREENGLASS that a man would contact him later for such information.

DAVID GREENGLASS had a furlough from December 30, 1944 to January 19, 1945 and spent this furlough (as he did all of his furloughs) in New York City. He also had a furlough from September 7, 1945 to September 25, 1945.

About May, 1945 HARRY GOLD met one "JOHN", his Russian contact, in New York City to discuss plans for HARRY GOLD's departure, about June, 1945, for Santa Fe, New Mexico. "JOHN" supplied HARRY GOLD with name and address of DAVID GREENGLASS in Albuquerque, New Mexico, with instructions to contact him. "JOHN" said HARRY GOLD was to receive information from DAVID GREENGLASS, which information he was subsequently to deliver to "JOHN". "JOHN" gave HARRY GOLD an envelope containing about five hundred dollars to give to DAVID GREENGLASS in payment for the information if DAVID GREENGLASS should indicate a need for funds. "JOHN" is ANATOLI A. YAKOVLEV, former Assistant Consul General of the Russian Consulate, New York City.

On the evening of June 2, 1945 HARRY GOLD tried unsuccessfully to contact DAVID GREENGLASS at the latter's residence, 209 North High Street, Albuquerque, New Mexico, and ascertained that DAVID GREENGLASS was not at home at that time. On the next morning (Sunday, June 3, 1945) HARRY GOLD again went to 209 North High Street, Albuquerque, New Mexico, and there met DAVID GREENGLASS, whereupon HARRY GOLD introduced himself by a fictitious name. HARRY GOLD had in his possession a torn card which fitted a torn card in the possession of DAVID GREENGLASS. GREENGLASS' torn card had been given to him either by RUTH GREENGLASS, when she moved to Albuquerque, New Mexico about February, 1945, or by JULIUS ROSENBERG during DAVID GREENGLASS' New York furlough between December 20, 1944 and January 19, 1945. HARRY GOLD left 209 North High Street, Albuquerque, New Mexico and then returned in the afternoon to the same address. DAVID

NY 65-15336

GREENGLASS, feeling it was gross negligence on the part of the United States not to give Russia Atom Bomb information as an Ally, at that time gave HARRY GOLD a list of names of persons working at Los Alamos, who, he thought, could be approached for information.

DAVID GREENGLASS also gave HARRY GOLD a sketch of a high explosive lens mould (or something of that type), which was an experiment to study implosion effects on a steel tube in order to understand the effect it would have on uranium so that it could be determined how a critical mass could be achieved that would not explode before detonation. DAVID GREENGLASS also gave HARRY GOLD information concerning the identity of a world-famous scientist who was working at Los Alamos under an assumed name. He also told HARRY GOLD that ~~OPPENHEIMER~~ and ~~KISTIAKOWSKY~~ were working at Los Alamos, New Mexico.

After receiving this information, HARRY GOLD gave DAVID GREENGLASS an envelope containing approximately five hundred dollars. Tentative arrangements were made for a second meeting between them, which did not come to pass.

During the December 30, 1944 to January 19, 1945 furlough, or during the furlough DAVID GREENGLASS had subsequent to his meeting with HARRY GOLD, DAVID GREENGLASS was introduced by JULIUS ROSENBERG to an unidentified man in New York City. This man asked DAVID GREENGLASS questions about the high explosive lens which was being experimented with at Los Alamos Atom Bomb Project. DAVID GREENGLASS attempted to describe this high explosive lens to the man.

II. RELEVANT STATUTES

Title 50 United States Code Section 32, Subsection (a)
and Title 50 United States Code Section 34.

It is noted that DAVID GREENGLASS is charged with a violation under Title 50 USC Section 34, which constitutes a conspiracy to violate Title 50 USC Section 32 Subsection (a). Title 50 USC Section 32, Subsection (a) provides that whoever violates this statute in time of war shall be punished by death or by imprisonment for not more than thirty years, thereby making violation of this Section a capital offense.

III. STATUTE OF LIMITATIONS

Since the violation charged against DAVID GREENGLASS is a capital offense, there is no limitation of time, according to Title 18 United States Code Section 581 as amended August 4, 1939, Chapter 419, Section 1 (53 Stat. 1198). This statute reads as follows: "That an indictment for any offense punishable by death may be found at any time without regard to any Statute of Limitations".

IV. END OF WAR

President Harry Truman by Proclamation No. 2714 declared the cessation of hostilities of World War II effective twelve noon, December 31, 1946 (12 Federal Register #1, page 1, dated January 1, 1947).

V. PRELIMINARY PROSECUTIVE ACTION

DAVID GREENGLASS was placed under arrest at 1:32 a.m. on June 16, 1950 in New York City. At 1:50 p.m. on June 16, 1950 a complaint was executed by SA John W. Lewis before United States Commissioner Edward McDonald of the Southern District of New York, stating that a complaint and warrant had been filed and issued on June 16, 1950 in the District of New Mexico charging DAVID GREENGLASS with a violation of Title 50 USC Section 34 (1946 ed.). The complaint which was issued by United States Commissioner Owen J. Mowrey of the District of New Mexico was signed by SA J. Jerome Maxwell and was filed at 9:36 a.m. on June 16, 1950 against DAVID GREENGLASS in the District of New Mexico. This complaint charges the following:

"That from on or about January 1, 1945, and continuously thereafter for a considerable period, the exact period being to deponent unknown, in the District of New Mexico and within the jurisdiction of this Court and elsewhere DAVID GREENGLASS, the defendant herein, did, the United States then and there being at war, conspire, combine, confederate and agree with HARRY GOLD and ANATOLI A. YAKOVLEV, alias JOHN and DIVERS, and other persons to deponent unknown, to violate Sub-Section (A) of Section 32, Title 50, United States Code, in that they did conspire, combine,

NY 65-15336

"Pursuant to the said conspiracy and to effect the objects thereof, the defendant and co-conspirators did commit, among others, the following overt act:

"(1) On or about the month of June or July, 1945, the exact date being to deponent unknown, at Albuquerque, in the District of New Mexico, the defendant DAVID GREENGLASS met and conferred with HARRY GOLD and at that time delivered to said HARRY GOLD information relating to the National Defense of the United States.

"In violation of Section 34, Title 50, United States Code (1946 edition)."

The warrant based on the aforementioned complaint was signed at 9:37 a.m. on June 16, 1950 in the District of New Mexico.

Special Agent T. SCOTT MILLER, JR. and
Special Agent RICHARD E. BRENNAN
Federal Bureau of Investigation
New York, New York

Can testify that on June 2, 1950 ~~HARRY GOLD~~ of 6823 Kindred Street, Philadelphia, Pennsylvania, made the following voluntary statement:

"Philadelphia, Penna.
June 2, 1950

"I, HARRY GOLD, make the following voluntary statement to RICHARD E. BRENNAN and T. SCOTT MILLER, Jr., who have identified themselves to me as Special Agents of the Federal Bureau of Investigation, U. S. Department of Justice. No threats or promises have been made to me, and I realize that I do not have to make a statement, and any statement I do make may be used against me in a court of law. I realize I have a right to counsel.

"As of the Spring of 1945, I had been engaged in espionage in behalf of the Soviet Union, since 1936. There were two lapses in my espionage activities, one from the late Summer of 1938 to late Summer of 1940, during which time I was attending college in Cincinnati, Ohio. The second lapse was from the Spring of 1941 to the Fall of 1941. In the Spring, SAM, who was my Russian contact at the time, told me I was not needed anymore. In the Fall, however, SAM told me that now that Russia had been attacked, we must resume our work on an intensified scale.

"In the Spring of 1945, I was meeting regularly with a man unknown to me except by the name of JOHN, who was obviously a Russian, and who had succeeded SAM as my Russian contact.

"Sometime around May of 1945 I met JOHN in, I believe, a bar on Third Avenue, New York City. This meeting was to discuss plans for my departure in June of 1945 for Santa Fe, New Mexico. I was going to Santa Fe on the instructions of JOHN. During this meeting JOHN supplied me with a name and address of a man in Albuquerque, New Mexico, and instructed me to contact this man while I was there. I believe JOHN told me to contact the man's wife in case the man was not there. JOHN told me that I would receive information from this man, which I was to deliver to JOHN. JOHN gave me an envelope containing about \$500. I was instructed to give this money to the man in Albuquerque in payment for the information. I was instructed to give this sum to him only if he would indicate a need for funds.

"I left Philadelphia in June of 1945 and went to Albuquerque and then Santa Fe, N.M. On my return from Santa Fe to Albuquerque on a Saturday evening, I tried unsuccessfully to contact this man on that evening. I was informed that he was not at home at that time. I again went to his house on the next morning, Sunday. At this time I met the man. I cannot recall this man's name, but I believe he lived on the second or third floor of a house, the exact address of which I cannot remember. It was, however, somewhere north of East

"Central Avenue, one or two blocks north, and somewhere between North High Street and North Pine Street.

"I introduced myself to this man as either FRANK ~~RESSLER~~ or FRANK ~~MARTIN~~, I cannot recall which. I used some form of recognition, involving the first name of a man, and stating that he had sent me. This individual recognized the password.

"At this time I discovered to my surprise that this individual whom I was contacting was in the United States Army, and was, I believe a Technician Fifth Grade. His rating may have been higher, however. This man was not over 25 years of age, perhaps even younger, about 5' 7", sturdily built, dark brown or black hair, which was either curly or bushy, brown eyes, snub nose, even teeth, a wide mouth, and an open, pleasing countenance. I believe from things he said that his home was in New York City, possibly the Bronx or Brooklyn, not Manhattan. I also met his wife. She was about 5' 3" and normally good looking and neither excessively stout or slender. Her name may have been RUTH, although I am not sure.

"I returned to this house later in the afternoon, at which time he gave me an envelope containing three to five pages of written information, and possibly one sketch. This information dealt with, I believe, a generalized description of the area in Los Alamos, N.M., in which he worked. There may also have been a sketch of some bit of structural equipment or a machine.

"I believe, from what he said, that he worked in one of four jobs at Los Alamos; 1 - As a draftsman. 2 - As a machinist. 3 - As an electrician. 4 - In the physios labratory.

"At the time that this man gave me the envelope containing the information, I gave him the approximately \$500. He had expressed a need for funds to enable his wife to stay near him.

"During this conversation that I had with this man, tentative arrangements were made for a second meeting between us. This meeting was to occur in New York City during a furlough which he expected to get at Christmas time, 1945. I was to call this man's father-in-law in the Bronx, New York. The father-in-law's first name was, or may have been, PHILIP. This meeting never occurred, on the orders of JOHN, who seemed to have lost interest when I mentioned the matter to him in the late Fall of 1945. I have never seen this soldier nor his wife since, nor have I heard from them.

"I took the information which I received from this man in Albuquerque, and turned it over to JOHN upon my return to New York. The actual

NY 65-15336

"transfer of the information from me to JOHN, occurred in Brooklyn, in the neighborhood of Metropolitan Avenue.

"I have read the above statement consisting of this and five other pages and am signing each page as all the information contained therein is true to the best of my knowledge and belief.

Can testify that DAVID GREENGLASS furnished a voluntary statement on June 15, 1950 at 11:54 P.M., that this statement was transcribed from her stenographic notes by Stenographer FRANCES DEVLIN from 11:54 P.M., June 15, 1950 until 12:55 A.M., June 16, 1950, and that it was signed by DAVID GREENGLASS at 1:06 A.M. on June 16, 1950. This statement is set out as follows:

NY 65-15336

"New York, New York
June 15, 1950

"I, DAVID GREENGLASS, make the following statement to JOHN W. LEWIS and LEO H. FRUTKIN, who have identified themselves to me as Special Agents of the Federal Bureau of Investigation. I make this statement freely and voluntarily and have been advised of my right not to make a statement and that I have a right to an attorney. I understand that this statement may be used against me in a court of law.

"I was born March 3, 1922, at New York City and presently reside at 265 Rivington Street, New York City.

"On or about November 29, 1944, my wife, RUTH, arrived in New Mexico from New York City and told me that JULIUS ROSENBERG, my brother-in-law, had asked if I would give information on the Atom Bomb and stated as a reason for that that we are at war with Germany and Japan and that they are the enemy and that Soviet Russia was fighting the enemy and was entitled to the information. On that basis, I agreed to give whatever information came to me in the course of my employment at Los Alamos, New Mexico, at the Los Alamos Atom Bomb Project. This message, which my wife conveyed to me, was not her own idea but was an idea given to her by JULIUS ROSENBERG. She told me at the time that a man would contact me later for information about the Los Alamos Atom Bomb Project.

"About February, 1945, my wife moved to Albuquerque, New Mexico, from New York City. Three or four months later she had a miscarriage. Approximately a month after that time, a man came to the place where RUTH was living, 209 North High Street, Albuquerque, New Mexico. I did not know this man's name at the time but recently recognized his pictures in various newspapers as being HARRY GOLD. He had with him a torn or cut piece of paper card which fitted a torn piece of paper card furnished me as a means of identifying this man. I cannot recall at this time whether this torn piece of card was given to me by my wife, RUTH, at the time she moved to Albuquerque, New Mexico, from New York about February, 1945, or whether I received it from JULIUS ROSENBERG while I was in New York City on furlough between about December 20, 1944, and January 20, 1945. GOLD gave me an envelope containing \$500. GOLD said to me that I was living in a poor place at the time he gave me the \$500. I furnished him with information concerning the Los Alamos Project, although I did not do it for the promise of money. I gave him a list of names of persons who were working at Los Alamos who, I thought, could be approached for information. They were names of both

2

NY 65-15336

"soldiers and civilians, to the best of my recollection. I felt it was gross negligence on the part of the United States not to give Russia the information about the Atom Bomb because she was an ally.

"I think that I gave GOLD a sketch of a high-explosive lens mold, or something of that type of thing, which was an experiment to study implosion effects on a steel tube to understand the effect it would have on uranium so it could be determined how they could arrive at a critical mass that would not explode before detonation.

"I have furnished a rough penciled sketch of a portion of the above mentioned high-explosive implosion test to FBI Agents.

"I also furnished GOLD with information concerning the identity of a world famous scientist, who was working at Los Alamos under an assumed name. I also furnished the information to GOLD that OPPENHEIMER was working at Los Alamos and that KISTIAKOWSKY was working at Los Alamos.

"GOLD told me that he would come back to see me again and I agreed to see him; however, he never contacted me again.

"My wife was not in the room at the time I received the money from GOLD and at the time I gave him information about the Los Alamos Atom Bomb Project. I gave GOLD the information without expecting money for it.

"I was inducted into the Army, April 12, 1943, and was given Army Serial Number 32882473. During the summer of 1944 I was assigned to Oak Ridge, Tennessee, where I remained for about two weeks. While at Oak Ridge, Tennessee, I was given a security pep talk by someone in Military Intelligence, and at Los Alamos was furnished with a security book. I understood that all of the work being done at Los Alamos, New Mexico, was top secret. I understand that under Army regulations 'top secret' means that such information is not to be discussed with anyone even with fellow employees, except when it is necessary for the work. I was assigned to the Los Alamos Atom Bomb Project from about August, 1944 until about February, 1946, and during all that time I was a non-commissioned officer in the United States Army, having first, Grade T-5, and later, Grade T-4. I was assigned to Theta Shop at Los Alamos where I worked on high-speed cameras, lucite parts, experimental equipment, and also made up parts that could not be bought on the outside. One one occasion that I recall I handled uranium. In general, the work was in regard to the Atom Bomb, but I did not know this until about a month or two after I was assigned there. I heard it among the employees at the Los Alamos Project.

"I recall that I had a leave of five days in late November, 1944, and that my wife, who had arrived in Albuquerque for my wedding anniversary celebration, came on or about November 29, 1944. I also recall that I had a furlough from about December 30, 1944, to about January 20, 1945, and I spent my furlough time in New York City.

"I have read the above statement consisting of this page and three preceding pages and state that it is the truth to the best of my knowledge. No promises or threats or coercion of any kind were used to obtain this statement.

Special Agent LEO H. FRUTKIN
Special Agent JOHN W. LEWIS
Federal Bureau of Investigation
New York, New York

Can testify that at 10:55 A.M. on June 16, 1950 DAVID GREENGLASS executed the following voluntary statement:

"June 16, 1950

"I, DAVID GREENGLASS, 265 Rivington Street, N.Y.C. make the following voluntary statement to Special Agents LEO H. FRUTKIN and JOHN W. LEWIS of the Federal Bureau of Investigation. They have told me that I do not have to make any statement and that any statement I make can be used against me in a court of law. I know I have the right of counsel and to be represented by an attorney. No promise or threat, or coercion has been used to obtain this statement.

"I recall that when I was on furlough from the Los Alamos Atom Bomb Project, my brother-in-law, JULIUS ROSENBERG, in New York City asked to see me one night. I had a previous appointment of a social nature to see some personal friends and out the appointment short in order to meet my brother-in-law, JULIUS ROSENBERG. I borrowed a 1935 Oldsmobile and drove to the vicinity of about First Avenue, somewhere above E. 42 St., but below E. 59 St. probably.

"I parked the car at the curb on a northbound street, facing north. JULIUS ROSENBERG walked over to the car and told me to wait. Then he walked away and came back with a man and introduced him to me by a first name which I do not recall. Then the man got into the car and I drove around while the man asked me questions about a high explosive lens which was being experimented with at Los Alamos Atom Bomb Project. I tried to describe the lens to the man while I was driving. When the man left the car about fifteen minutes later, I went home. JULIUS, after introducing the man to me, had left.

"This furlough was either the one before I met HARRY GOLD in the summer of 1945 or after that time.

"I have read the above statement consisting of this page and one preceding page and state it is the truth to the best of my knowledge.
