SUBJECT: PHOTOGRAPHS OF SECURITY INDEX SUBJECTS
CLEVELAND DIVISION

During the recent inspection it was noted that the Security Index in this office contains some photographs which are either outdated or of poor photographic quality. It was the Inspector's suggestion that every effort be made to bring the photographs on SI cards into a current status as expeditiously as possible. Accordingly, though no specific program or assignments are being made at this time, the following is being called to your attention in order that current photographs may be obtained as the files of subjects on the Security Index are opened and assigned for annual reports:

1. The Agent to whom the case is assigned should make every reasonable effort to obtain a current photograph from established sources. In this connection it is noted that the following may be productive of good photographs:

In the event that the above mentioned sources, after the expenditure of reasonable effort, do not yield a suitable photograph it is suggested that the matter be discussed with the Security Supervisor on an individual case basis and arrangements will then be made to obtain a current photograph of the subject. In no case should the submission of an annual report be deferred until a photograph has been obtained.

The subject of this file is included among those whose SI photographs are considered insufficient for proper identification purposes and the Agent to whom this case is assigned should comply with the instructions set forth above.
