Re: SA. Clifford P. Hunt 2/10/50 Newark.

DANIEL BRAND, Sr., engineer Regal Electronics Corp. 605 W. 130 St. advised he was formerly employed by the Fada Co. in Long Island City. He left Fada in March 1943 to obtain employment with Emerson Radio. In March 1945 he returned to Fada; consequently he was not employed by Fada at the time Sobell made his visit on Feb. 24, 1944.

Brand advised he had never heard of the subject and could not identify a photograph of subject.

Leo Galonek, Chief Engineer, Regal Co. advised he was employed at Fada during the pertinent period. He never heard of Sobell nor could he identify a photograph of him.

RE: MORTON SOBELL.

At 9:15 A.M. 3/13/51, I contacted Mr. Raisbeck of the Newark Office re the investigation on GEORGE M. KATZ. Mr. Raisbeck referred the call to SA Carl Lenz.

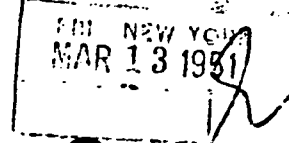

SA Lenz was asked to have an agent of the Newark Office verify KATZ'S employment at the Dumont Corporation and also to determine whether KATZ is working on classified information at the present time and if suitable arrangements are available at Dumont for an interview with KATZ.

SA Lenz stated he would have an agent work on this matter immediately and would telephonically contact the New York Office upon determining the answers to the above questions.

At 9:45 A.M. SA John Devlin, Newark, called the writer to advise that KATZ had resigned his position with Dumont on 2/16/51. Officials at Dumont did not know the present employment of KATZ but advised he left saying he was obtaining a position with a consulting engineering firm.

Re: SECURITY INDEX SUBJECTS

Myrdal - Lohell

"In every case involving a subject maintained in the Special Section in the espionage category where a summary for distribution has not been prepared, a summary report suitable for distribution must be submitted to the Bureau within 30 days of the receipt of this letter. In any case involving a double agent operation, these summaries should stress, where possible, a basis other than the espionage activity of the subject for inclusion in the Regular Section of the Security Index. For example, if a collateral subject in a double agent operation, who is maintained in the Special Section under the espionage category because his apprehension would destroy the effectiveness of the double agent operation, has a record of C.P. membership which in itself would justify his inclusion in the Security Index, such C.P. membership should be stressed in the report prepared for ultimate distribution. If the sole basis for inclusion in the Security Index is collaboration with espionage agents, this should be set forth concisely, appropriately concealing the source of information and informants.

"Regardless of the number of reports covering the investigation of a subject in the espionage category which are prepared subsequent to the above summary and which are not intended for distribution should, after the preparation of the summary requested above, be prepared each six months during such time as the subject remains in the Special Section."

Mr. Hennrich of the Bureau called ASAC Whelan at 9:00 A.M. and requested to be advised as to whether subpoenas had been issued for the Mexican witnesses in connection with this case and in particular he desired to know if a subpoena was issued for GLEN DAVIS inasmuch as company policy will not permit him to come to the U.S. without a subpoena being issued.

I called Mr. Hennrich back at 9:30 and advised him that the U.S. Attorney's Office advised that subpoenas for all Mexican witnesses had been sent airmail special delivery to Fred Kilgus. Kilgus had called the U.S.A., SDNY, on 3/13/51 to advise that he had received the subpoenas and that Miss Shepherd had advised the U.S.A., SDNY, that the subpoenas were sent, together with \$27.00 advance to all witnesses, plus their plane fare.

I suggested that if the Bureau had any further questions in this matter it could be taken up with the Department and Mr. Hennrich said it would be done.
