ESPIONAGE-- R

Re: Analysis of search material
obtained from the subject's
room at 129 West Chew Street
on June 16, 1950, by SA RO-
BERT E. MASTERS and the writer.

DESCRIPTION: Item #1 consists of a letter from GERHARDO
COLLIARDIN of Germany to FRED HELLER, dated March 10, 1950, with
three yellow copies of letters from GERHARDO COLLIARDIN to THOMAS
L. BLACK, dated March 10, 1950, March 10, 1950, and December 13,
1949. This material pertains to BLACK's obtaining detergents
for GERHARDO COLLIARDIN for sale in Germany.

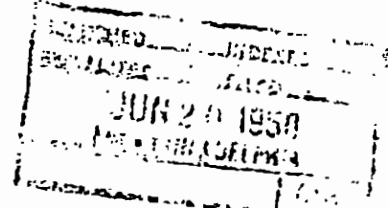

Item #2 is a letter from GERHARDO COLLIARDIN to
FRED HELLER, dated December 13, 1949, which pertains to the above
referred to detergents.

REMARKS: FRED HELLER was questioned by the writer and SA
JACK WALDMAN regarding HELLER's dealings with GERHARDO COLLIARDIN
and he advised that he has become a fairly close personal friend
of COLLIARDIN due to the fact that GERHARDO COLLIARDIN has been the
Germany representative for the American Chemical Paint Company for
many years even prior to the war. He stated that the Collardin
Company is located only in the Western Zone of Germany, that
COLLIARDIN is extremely anti-Red in his political views but that he
does not know whether or not he favors Nazism.

Since HELLER's first trip to Europe in 1949, he has dealt with
COLLIARDIN concerning various products of the ACP and also entered
into considerable discussion with COLLIARDIN relating to detergents
and graphites. According to HELLER, detergents in particular were
needed badly in Germany and that COLLIARDIN thought it would be an
excellent field to handle. Inasmuch as the ACP did not deal in
detergents, HELLER via letter introduced COLLIARDIN and THOMAS L.
BLACK. BLACK was to handle matters regarding detergents and graphites

for COLLARDIN and in return receive a ten percent royalty such as COLLARDIN paid to ACP on other materials. However, HELLER stated that there was no written agreement between him and BLACK as to the disposition of the royalty payments.

HELLER advised that he was positive that any information furnished to COL. REIN would be perfectly legitimate and that under no circumstances would any such material fall into the hands of the Russians through GERARDO COLLARDIN. In fact, he stated that all of the ACP representatives throughout Europe were anti-Red and that he had planned to develop similar arrangements with numerous ACP representatives.

With respect to the graphites, HELLER stated that COLLARDIN was interested in graphite as a lubricant and that he, HELLER, had made arrangements with BLACK to obtain information on colloidal graphites from Acheson Colloids through MORRELL DOUGHERTY, a representative of that Company. However, HELLER stated that he had told BLACK not to let DOUGHERTY know what the material was for inasmuch as DOUGHERTY was an opportunist and would probably pester HELLER if he felt that there might be something to gain through the enterprise.

I contacted Mr. BELMONT 6/26/50 on the telephone and advised him BLACK had now finished telling his story and it now appears desirable to question him relative to specific phases of the story, discrepancies, material found in the searches conducted in the case, etc.

Mr. BELMONT stated that this should be done as long as he was here voluntarily.

I told Mr. BELMONT that BLACK was still under surveillance. He stated that this should be continued.

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
EXCEPT WHERE SHOWN
OTHERWISE

On 7/3/50 I telephonically communicated with Mr. HENRICH of the Bureau in connection with the above case. I called to his attention the fact that the statements dictated by HARRY GOLD concerning the activities of BROTHMAN, as well as supplemental statements from GOLD on FUCHS, SLACK, and GREENGLASS, were ready for GOLD's signature. I pointed out to Mr. HENRICH that there was nothing relating to motive or intent on the part of GOLD contained in these statements other than the flat statement of fact relative to GOLD's contacts with Soviet agents. I mentioned that unless the Bureau had any objections it was our intention to call Mr. JOHN D. M. HAMILTON, GOLD's attorney, and advise him we had the above-described statements which we intended to take to GOLD for his signature; that we would mention that there was nothing in these statements relating to GOLD's motive or intent, as indicated above; and that it was expected that Mr. HAMILTON would not interpose any objection to GOLD's signing these statements.

Mr. HENRICH stated that he desired to discuss this matter further with Mr. BELMONT and would subsequently return my call.

At 3.30 p.m., Mr. HENRICH called and advised he had discussed this with Mr. BELMONT. He instructed that this office should call Mr. HAMILTON and tell him about the nature of the statements and that it was our intention to submit them to GOLD for signature; that Mr. HAMILTON can see these statements if he so desires; that we wanted to give him the opportunity to review them. We were to mention to Mr. HAMILTON that nothing was contained in the statements relative to intent or motive on the part of GOLD, as previously described by him, but on the over-all picture of intent as related to all of GOLD's activities and associates it was felt he should be the judge, and the purpose of my call to him was to advise that if he so desires he could see them. Mr. HENRICH was advised that this would be done.

I subsequently telephonically communicated with Mr. HAMILTON's secretary at his law office and learned that Mr. HAMILTON was in Canada on vacation and not expected back in Philadelphia until 7.10.50. I also learned from her that Mr. FALLARD, associate counsel for GOLD, was out of the city over the 4th of July holiday and would not be back until Wednesday.

In conclusion, Mr. HENNRICH indicated that it would probably be necessary for us to show all of the photographs to BLACK, pointing out that we should not be placed in the position of some day in the future having the question raised as to why we did not show certain photographs which we have in our possession to a man known to have been active in espionage in past years.

After making a search of available records, Mr. D. H. CLEMENTS, auditor of the Hotel Adelphia, 12th and Chestnut Streets, reported to the writer that there are no registration records on hand for the year 1942.

It is noted that registration records beginning January 1, 1943, are in storage on the 17th floor of the Adelphia Hotel. If it develops that BLACK stayed there during that period, it is suggested that Mr. CLEMENTS be contacted in Room 110. These records are filed by date and not alphabetically, and will require considerable searching.

At 11:45 A.M., July 3, 1950, SA LOUIS TURNER of the Newark Division telephone and desired to alert Philadelphia since it appeared BLACK might be on his way back to Philadelphia. BLACK traveled from Patterson to Newark, carrying his bags with him. He was at the time of the call, at the PRR Station in Newark eating lunch. He had as yet made no effort to contact the Van Posnak Warehouse in Newark.

At 2:30 P.M., TURNER called again, speaking with SA ROBERT W. HOLMES. He said that after eating, BLACK had gone to the Van Posnak Warehouse on foot and returned to the PRR and then gone to the bus station and taken the bus to Patterson.

Accordingly, the Agents who had been standing by to take over the surveillance were permitted to go about other duties.

RE NYTEL to Newark, New Haven and Philadelphia dated 6/23/50.

The records at the AMERICAN CYANAMID RESEARCH LABORATORIES, West Main St., Stamford, Connecticut, indicate that Dr. LEONARD J. CHRISTMAN, also known as LEWIS, was originally employed by the company on April 1, 1925 as a Research Chemist to work at WARNER'S LABORATORIES in Linden, New Jersey. CHRISTMAN was transferred to the Stamford Laboratories about 1937. He is now the Director of the Basic Nitrogen Division.

Miss JOSEPHINE WHITTAKER, Personnel Department at the AMERICAN CYANAMID LABORATORIES, made available a photograph of Doctor CHRISTMAN, which was taken in the fall of 1946 for a publication prepared by the AMERICAN CYANAMID LABORATORIES in Stamford. Miss WHITTAKER, who has been acquainted with Dr. CHRISTMAN during the past fifteen years has advised that the latter's photograph is a true likeness of the individual and that his appearance has not changed to any degree during the past fifteen years.

It was pointed out by Miss WHITTAKER that the personnel file relating to Dr. CHRISTMAN was retained by the AMERICAN CYANAMID COMPANY'S New York office, 30 Rockefeller Plaza, New York City. Dr. CHRISTMAN's current residence was furnished as No. 9 Center Knolls, Bronxville 8, New York, telephone number Beverly 76930. Miss WHITTAKER advised that to the best of her recollection Dr. CHRISTMAN at no time has ever resided in Connecticut.

The indices of the New Haven office contain no identifiable information relating to Dr. CHRISTMAN with one exception, which is a reference to a plant informant file which has been destroyed. It is possible that Dr. CHRISTMAN was considered as a plant informant at one time or may have been interviewed in connection with the plant informant program. The Bureau records may contain information concerning such reference, which is no longer available in the New Haven office.

Enclosed is a photograph of Dr. CHRISTMAN, which is being forwarded to the Philadelphia Division for exhibition to the subject THOMAS L. BLACK. Philadelphia is requested to furnish said photograph to the Bureau after it has

HELLER reports meet 10/25/34 with Soviet Agent using name of PETERSEN, a friend of OVAKIMIAN. BLACK reports HELLER unacceptable to Soviet agents, due to emotional instability, affairs with women and drinking. Separated from BLACK 1934-1937. In 1939 HELLER requested that BLACK forward AMERICAN CHEMICAL PAINT CO. processes to USSR. VERA KANE, HELLER and BLACK prepared information in 1939 and latter delivered to "JACK", his Soviet superior. HELLER enthused at reception and secured all ACP processes to forward to Soviet. BLACK unaware of HELLER's possible more recent Soviet Agent contacts and HELLER denied personal contact with Soviet Agents since 1934. Subject as Business Representative, AMERICAN CHEMICAL PAINT COMPANY made trips through Europe during September-December 1949 and in May-June 1950. Interviews of HELLER terminated on 6/22/50 pending completion of major interviews of THOMAS L. BLACK.

DATE: July 7, 1950

On June 28 and 29, 1950, the following surveillance of captioned subject was conducted by the writer and SAs HERBERT F. GREATHOUSE, JOHN BLAZEK and ROBERT V. HANCOCK:

4:07 p.m. Subject departed work at Berg Laboratories, 1827 North 5th Street, and entered cigar store at 1808 Germantown Avenue.

4:09 p.m. Subject departed from the cigar store after purchasing a newspaper; stopped for a few minutes and talked to a woman described as 5' 4"; 132 lbs.; 55 years of age; dark hair; wearing blue dress; apparently regarding headlines in newspaper dealing with the South Korean situation.

4:10 p.m. Subject re-entered Berg Laboratories.

5:04 p.m. Subject departed from work.

5:09 p.m. Subject entered his home at 1929 North 6th Street.

5:33 p.m. Subject departed from his residence and caught trolley #8449, going south on 6th Street, at 6th and Berks.

5:50 p.m. Subject left trolley at 6th and Market Streets.

5:52 p.m. BLACK caught a trolley going west at 6th and Market Streets.

5:58 p.m. Subject left trolley at 13th and Market Streets.

5:59 p.m. Subject entered the Horn and Hardart's Restaurant on Market Street, in the vicinity of Penn Square.

6:05 p.m. Subject departed from restaurant.

6:08 p.m.

BLACK met the following described person at the City Hall Court:

Sex:	Male
Race:	White
Age:	31
Height:	5' 7 $\frac{1}{2}$ " to 10"
Weight:	162 - 165 lbs.
Build:	Medium, slightly heavy.
Complexion:	Tan skin; extremely dark complexion.
Hair:	Dark
Eyes:	Dark; wore light brown horn-rimmed glasses (bifocals)
Dress:	Wore light tan gabardine or palm beach suit; brown shoes.

6:10 p.m.

Subject and unknown man walked side by side and parted on friendly terms near the west entrance to City Hall Court. BLACK headed south on Penn Square enroute to F.B.I. office. Unknown man crossed Penn Square, walked south, stopped, and looked in various windows along the way; suddenly turned and retraced his steps north to Market Street. He made a surveillance of the immediate vicinity and proceeded west on the south side of Market Street. The unknown man was followed by SAs HELLER and GREATHOUSE to 17th and Market Streets. This unknown man, while under surveillance, was observed checking, apparently to see if anyone was following him.

The writer and SA GREATHOUSE have viewed photographs of JACOB FASS and this unknown individual bears a strong resemblance to FASS, but a positive identification could not be made by either agent inasmuch as the unknown man appeared to be somewhat shorter than the description of FASS which was given as 5' 11 $\frac{1}{2}$ " in his file.

6:13 p.m.

BLACK entered the Widener Building.

6:15 p.m.

The unknown man who had previously contacted BLACK, after stopping at 17th and Market Streets, made a surveillance of the vicinity, crossed 17th Street, and headed south on the west side of 17th Street, checking the vicinity in

back of him and peering in windows enroute. He proceeded to Chestnut Street, turned west on that street, and was lost by the agents making surveillance in that vicinity. The unknown man was definitely surveillance conscious.

Agents HELMER and GREATHOUSE returned to the office.

10:00 p.m. Subject departed from the Widener Building, walked north on Broad Street to Linton's Restaurant near Race and Broad Streets.

10:15 p.m. Entered Linton's Restaurant

10:35 p.m. Subject departed Linton's Restaurant and walked north on Broad to Spring Garden subway station.

10:45 p.m. Subject caught subway going north.

10:50 p.m. Subject left subway at Columbia and North Broad Streets.

11:02 p.m. Subject boarded a trolley going east on Columbia Avenue.

11:07 p.m. Subject left the trolley at Berks and North 6th Street, walked north on 6th Street.

11:12 p.m. Subject entered the Cut Rate Drug Store at 1935-41 North 6th Street.

11:23 p.m. Subject departed from the drug store.

11:32 p.m. Subject entered his home.

12:30 p.m. June 29, 1950, surveillance discontinued.

The information concerning BLACK's contact with the individual believed to be FASS was called to the attention of SA WELTE, approximately 6:40 p.m. when agent GREATHOUSE and the writer returned to the office awaiting BLACK's departure.

Agent's notes on the above surveillance are being retained in file number 65-4332.

DATE: July 7, 1950.

SAC McKEE called from Newark today in connection with the above-entitled case and referred to our teletype of 7/6/50 indicating BLACK was expected to return to New Jersey over the weekend and requesting that the Newark Office be prepared to take over the surveillance. Mr. McKEE discussed the negative results of the surveillance during the past and indicated that he thought some consideration ought to be made for presenting the case to the Bureau in order to have the surveillance discontinued. His purpose in making this suggestion was the fact that his office was utilizing a considerable amount of manpower.

This case was discussed with Supervisor H. S. HARTENSTEIN, and the background of the surveillance, results, etc., were considered. Consideration was given to our own desire to terminate this surveillance as early as possible because of our own manpower condition; also, that I had discussed this case with Mr. HENNRICH of the Bureau this week and had mentioned that when we terminated the interviews with BLACK we contemplated recommending that the surveillance be discontinued, as it probably would be as good a point at which to discontinue the surveillance as any. No instructions were issued by Mr. HENNRICH, but he suggested we might consider keeping BLACK under a spot surveillance.

I thereafter returned Mr. McKEE's call and informed him that this office did not feel it wise to recommend the discontinuance of the surveillance at this time, especially since we were in the final phases of interviewing BLACK; that it was expected that this interviewing would be terminated sometime next week. Therefore, I informed Mr. McKEE that this office did not plan to request authority to discontinue this surveillance at this time. After a long discussion, Mr. McKEE agreed that the surveillance be continued this weekend in New Jersey.

THOMAS L. BLACK is presently being interviewed by Agents WILLIAM B. WELTE and ROBERT W. HOLMES in connection with an investigation of his espionage activities. In the course of this interview, BLACK said that he was acquainted with JOHN GILLESPIE while BLACK was rooming at the apartment of SARAH HIRSCHER on Spruce Street, Philadelphia. He was introduced to GILLESPIE by HIRSCHER, with whom GILLESPIE was at that time carrying on an affair.

According to BLACK, GILLESPIE worked for the Inkens Steel Company in Coatesville, Pa. BLACK did not know definitely whether GILLESPIE was a member of the COMMUNIST PARTY but said that he was very sympathetic towards its aims. HIRSCHER met GILLESPIE because the latter was a patient of HIRSCHER's first husband, SID WEINSTOCK, a Coatesville dentist. HIRSCHER influenced GILLESPIE to run for office in his union. During the time that GILLESPIE was coming to HIRSCHER's apartment, he made it his Philadelphia headquarters.

He had a disagreement with BLACK and with JACOB PASS, who also roomed there and who was a cousin of HIRSCHER's, because he was in the habit of staying until late at night and of making telephone calls to HIRSCHER in the early morning hours.

SAC WILLIAM C. HINZE, JR.

FERDINAND HELLER

Espionage (C)

On 7/12/50 I telephonically communicated with Mr. BELMONT of the Bureau and advised that this office had learned that Dr. JOSEPH SKILTON, a dentist who had been interviewed on two occasions by this office, as set forth in our letter to the Bureau dated 6/30/50, and who had recently had an accident by running his car into a tree, had committed suicide last week and was buried yesterday. I advised Mr. BELMONT that we had not interviewed SKILTON since the two interviews recorded in the above letter. I pointed out that the death was confirmed by a newspaper notice of the death, and that in view of the circumstances this office did not believe it expedient to check into the matter of the suicide through the coroner or to interview Dr. SKILTON's wife.

I also pointed out that subject THOMAS L. BLACK had been informed by Mrs. SKILTON that her husband had committed suicide with a knife, and BLACK had attended a wake for SKILTON. Mr. BELMONT agreed that we should have no contact with Mrs. SKILTON and not check into SKILTON's suicide.

At the time of furnishing the above information to Mr. BELMONT, I also called attention to the fact that subject FERDINAND HELLER had indicated that he is also contemplating suicide. I pointed out that subject BLACK, when interviewed last night, had advised that HELLER was drinking two bottles of whiskey daily, was fighting with his mother with whom he lives, and had told BLACK that he was going to the mountains for two weeks and if his nerves did not improve he would do the same as JOSEPH SKILTON.

In this connection I pointed out that BLACK was going to try to see HELLER tonight. BLACK mentioned that he would have to go to HELLER's home and then take HELLER away from his home in order to talk to him. He pointed out that he, BLACK, is acquainted with the fact that he has been under surveillance and stated he is not concerned about it. However, he feels that should he meet HELLER and HELLER makes the surveillance it might cause more serious consequences to HELLER.

65-4332-364

With reference to the surveillance of BLACK, I told Mr. BELMONT that this office recommended its discontinuance due to the fact that it has been unproductive. BLACK has advised us that he knows of it, and CHARLES BERG, BLACK's employer, telephoned this office yesterday complaining about the fact that we were conducting a surveillance in the vicinity of his office. I pointed out to Mr. BELMONT that BERG's office and shop were located in an area where numbers writers openly engage in their activities; that these numbers writers made our Agents very shortly after they started their surveillance near BLACK's place of employment,

undoubtedly due to the fact that they thought they, the numbers writers, were under surveillance. The surveillance has continued in this vicinity for a long period of time, and undoubtedly by word of mouth BERG has become aware of it. I pointed out that if we did discontinue the surveillance we would institute a surveillance on a spot-check basis. Mr. BELMONT stated that this office should immediately send a wire to the Bureau recommending the discontinuance of the surveillance and the institution of a spot check unless advised to the contrary by the Bureau.

Mr. BELMONT also advised that a letter should be forwarded to the Bureau relative to the above information on SHILTON and HELLER.

Reference Newark let dated 6-21-50, pertaining to a search of the property of the subject stored at the Van Poznak Storage Warehouse, 92 Howard Street, Newark, N.J., on June 21, 1950, by SAs PAUL E. KELLY, EUGENE C. JONES, TROY COLEMAN, and JAMES H. HIGDON, Jr.

Volumes I through III of the "CHEMICAL TECHNOLOGY AND ANALYSIS OF OILS, FATS, AND WAXES," indicated as the 6th edition of Lewkowitsch. This is indicated as item A in the referenced letter. A search of these volumes indicates no notations, entries, or identifying marks.

A thin book entitled "LABORATORY COMPANION TO FATS AND OILS INDUSTRIES," which on examination failed to reflect any notations other than the small letter "4", in ink, appearing on the inside of the rear cover. The importance of this numeral is unknown, and it is suggested that BLACK be queried as to its meaning, if known by him. This item is indicated as Item B in the referenced letter from Newark.

A well-worn leather-bound volume entitled "ELECTRO ANALYSIS," by EDGAR F. SMITH, on examination reflects a pen and ink entry in the inside of the front cover "ERNEST L. or D. WILSON." This same name appears on the inner flyleaf. The significance of this name is unknown. It is recommended that BLACK be questioned concerning the identity of WILSON. This item has been designated as Item C in referenced letter.

A book entitled "A TEXT BOOK OF MARXIST PHILOSOPHY," which is indicated as having been printed in Great Britain. An examination of this book does not reflect any marks, notations, or entries. This item has been designated as Item D in the referenced letter.

A piece of white paper, appearing to be portion of adding machine tape, bearing in red scribbling and what appears to be telephone numbers "AP 7-5396" the date November 1945, and the notation "P304," which may be a page number in some particular volume. The telephone number BU. 2-6970 also appears, and, according to the referenced letter, may refer to Rutherford 2-6970, a New Jersey exchange. It is to be noted a search of the directories

of the Philadelphia area and of South Jersey failed to reflect this exchange, hence a lead should be set out to Newark to determine the subscriber of this phone in the event BLACK is unable to identify same. This item was not identified in the referenced letter but merely mentioned. However, it is being retained as an exhibit in the instant file.

The above items were received by the Philadelphia Office under Registered Mail #433855, and were opened on June 22, 1950, by SA WILLIAM B. WELTE, and are to be made an exhibit in the file of THOMAS L. BLACK.

BLACK's EXPLANATION:

The two rolls of 16 mm. movie film were exhibited to BLACK by SAS W. B. WELTE, JR., and R. W. HOLMES on June 30, 1950.

BLACK advised that this was a copy of a movie film entitled "Sizing Up Size" prepared by him while he was employed at the National Oil Products Company. The film was prepared for advertising purposes, and shows the results of an emulsified paraffin wax used for sizing paper. The film was prepared by ARNOLD M. HILL and THOMAS L. BLACK. However, BLACK did the actual photography. This project was discontinued prior to its being completed and BLACK retained the film because the ultimate aim was never completed.

BLACK stated that he had told PETERSON that such film had been made by him, but PETERSON did not ask BLACK to furnish him a copy. It was around this time that PETERSON wanted to give BLACK a microscope. BLACK refused it, stating that he had a microscope available to him at his place of employment, and had no need for another one. In the preparation of this film, the equipment of No. 10 was used. BLACK has made no personal use of this film and merely is retaining it since he did the photography.

reference

A book entitled "Anything Can Happen" by GEORGE and HELEN PAPASHVILY. The book itself does not appear to be of interest. However, a piece of paper approximately 6" x 3" found inside the front cover contains the name Mr. M. B. TURNER with the following notation: "Cannot use your PA Process. Could sell B 1 though. Wire." On the reverse side of this piece of paper appears the following "Cliffchar Charcoal and Actwater Carbon Cliffs Dow Chem Co." Also, on this same side of the paper appeared the notation "Oranite Chem. Co. 30 RP." Also, within the front cover of the book were found 11 charge out slips from the New York Public Library on which were found the names of various authors and books and also in some cases comments concerning the contents of the book and its value. It is to be noted that these charge out slips are used in charging out books at the New York Public Library, 42nd Street and 5th Avenue and, according to the writer's recollection, are usually retained at the library upon receipt of the book. Also found between pages 178 and 179 was a photograph of an unknown individual.

LEADS

Will exhibit the aforementioned slip of paper to the Subject and question him regarding the names and notations thereon.

Relative to the charge out slips from the New York Public Library will question the Subject concerning the reason for having these charge out slips and the notations made concerning the contents of the books requested.

Relative to the aforementioned picture, will question Subject as to the identity of the individual in this picture.

DATE: July 6, 1950

BLACK's EXPLANATION:

The book entitled "Anything Can Happen" was exhibited to BLACK on June 30, 1950, by SAS R. W. HOLMES and W. B. WELTE, JR. BLACK advised that this book was given to him by JACOB FASS, also known as JACK FASS. The photograph appearing in this book is a self-made photograph of JACK FASS. A slip of paper found in the book, approximately 6 inches by three inches, containing the notation "Cannot use your PA Process. Could sell B 1 though. Wire." BLACK advised, has no meaning to him, and in fact, this slip of paper is not in his handwriting and is believed by him to be in the handwriting of JACK FASS. The number of New York Library chargeouts appearing in the book, are, according to BLACK, also in the handwriting of JACK FASS. BLACK stated that he and FASS, in 1940, were engaged in joint processes and were working together with the idea in mind of going into business together. He advised that the New York Library had a practice of returning your original request slip when you returned the book, and that is undoubtedly how the chargeouts came to be retained at this time.

TO : SAC

FROM : WILLIAM B. WELTE, JR., SA

SUBJECT: THOMAS L. BLACK, was,
ESPIONAGE - R.

DATE: July 6, 1950

BLACK's EXPLANATION:

The white 4 x 6 card was exhibited to BLACK on June 30, 1950, by SAS R. W. HOLMES and W. B. WELTE, JR.

BLACK stated that it is simply a memorandum of things for him to do. He stated that the "SS WHITE" was the SS WHITE DENTAL MANUFACTURING COMPANY from whom he has purchased dental equipment. The "BRANDORF" mentioned thereon is RUTH BRANDORF, the laboratory stenographer, at the National Oil Products Company. The notation "Instruct JAMES about 1392 Samp." refers to work that he had to do at Notco; 1392 was a company number for one of Notco products. BLACK states that the card indicates that he was to instruct JAMES regarding a samp. of this 1392 product. "Photo Shop Institute, 3:30" BLACK described as being the place where he took his course in color photography, and believes that the 3:30 applies to the time that he had his appointment for his instruction.

The other notation regarding the Eastman Kodak Store and the KISTNER listed therein is a salesman, and BLACK believes that he was probably interested in acquiring information regarding movie screens.

The Metal Frame Aquarium Company at Pine Brook, New Jersey, made a special aquarium for some tropical fish that BLACK was raising. The notation "Meet CHARLIE at Civic Centre in Verona at 6:30" undoubtedly refers to an appointment that BLACK had with CHARLES M. FREEFIELD. FREEFIELD was working or attending school in Verona, for a short period of time, and BLACK had an appointment to meet him at the Civic Centre there.

On the reverse side of this slip of paper was a notation "Leave for Chicago Thursday night." BLACK advised that this refers to his leaving for the Socialist Workers' Party Convention in Chicago.

566 WBW/jgb

SAC

July 6, 1950

BLACK still maintained that he had attended a Convention of the Socialist Workers' Party in Chicago around 1939 and that it was not the original founding of the Convention of the Socialist Workers' Party. BLACK admitted that it may have been a plenum instead of a Convention.

The notation "(2 s.v.e.)" refers to the Society of Visual Education in Chicago. BLACK stated that he wanted to stop there on his trip to Chicago and pick up their catalog. In addition, he wanted to see some of the exhibits that the s.v.e. had.

The notation "Stop over at Phila. Friday and see IRENE" refers to the Innes Publishing Company of Philadelphia, publishers of an aquarium magazine. BLACK was interested in taking color photographs of tropical fish and wanted to confer with the magazine company regarding this. He admitted that he did not make this contact in Philadelphia.

BLACK's EXPLANATION:

The portion of the newspaper bearing the names "JEROME, BEN - ASHER" was exhibited to BLACK on June 30, 1950, by SAS W. B. WELTE, JR., and R. W. HOLMES.

BLACK advised that JEROME BEN ASHER was a SWP member in New York the entire time that TOM BLACK himself was a member. BEN ASHER is the individual's true name, and he resided in Newark. BLACK did not know where he is employed and the only significance that he could place in this was the fact that he had probably written down the man's name because he had an appointment to meet him.

BLACK'S EXPLANATION

The following explanation was furnished by the subject on July 6, 1950 to SAs ROBERT W. HOLMES and WILLIAM B. WELTE, JR.

BLACK stated that he and JACK ROSNER, whom he has previously identified as an SWP member, had come up with the idea that if a germicide were added to cutting oils, the risk of infection to machinists would be lessened. BLACK stated that ROSNER had made contact with the individual mentioned in this memo for the experimentation of their cutting oil with a germicide added. The deal was handled through Fine Organics, Inc.

BLACK mixed up the cutting oil and added a germicide. He then shipped the cutting oil, the quantity of which he called a working sample, to the aforementioned individual. The idea was that they would use the oil and if they found it satisfactory, ROSNER and BLACK would be given an order for an additional quantity. BLACK advised that he and ROSNER never heard anything more of their business endeavor in this field.

BLACK'S EFFECTS FOUND AT THE VON POZNAN WAREHOUSE,
92 HOWARD STREET, NEWARK, NEW JERSEY, JUNE 17, 1950

DATE: June 18, 1950

A 311 page book (no identification made by Agents securing this book during search), entitled "Qualitative Organic Analysis by OLIVER KAMM with notation written in ink that the book is part of the library of "HARRY GOLD, Xavier University."

Between pages 152 and 153 of the aforementioned book handwritten notes contained on a 11" x 8 $\frac{1}{2}$ " sheet of paper written in ink and pencil was located. The notes contained the crossed-out name of HARRY GOLD and appear to relate to some type of chemical analysis. The paper contains five notations, four of which appear to be of no significance. However, the fifth notation contains the reminder for the writer to "call THOMAS."

Between pages 232 and 233 of the same book was located a yellow 5" x 8 $\frac{1}{2}$ " piece of paper containing pencilled handwriting notes reading:

"Schedule Tuesday 5/12/42
Start Filtering Glycogen
Add E. M. and H 20
Add Aliquots
Slug and auto clove
Titrate samples
_____ Glycogen: H 20

See about Assay Sheets from TERESA
Ship Yeast."

LEADS

Will exhibit notes on 11" x 8 $\frac{1}{2}$ " white paper to BLACK and determine if they were written by BLACK or GOLD and the significance of these notes.

Determine from BLACK if he is identical with the THOMAS mentioned in these notes.

BLACK'S EXPLANATION

The following explanation was furnished by the subject on July 6, 1950 to SAs ROBERT W. HOLMES and WILLIAM B. WELTE, JR.

BLACK advised that this book was the property of HARRY GOLD, and it was loaned to him by GOLD. All the papers in this book are in the writing of HARRY GOLD and mean nothing to BLACK.

BLACK does not recall the purpose of GOLD's lending him the book. He stated that he simply failed to return the book to GOLD after its initial purpose was served.
