October 25, 1950

I William Danziger make the following statement voluntarily to James T. O'Brien and Charles P. Silverthorn who have identified themselves to me as special agents of the Federal Bureau of Investigation. No duress, threats or promises have been made to me. I know that I do not have to make a statement and any statement I make, may be used against me in a Court of Law. I have been advised of my right to counsel.

I was born in New York City on April 18, 1918. I was graduated from the College of the City of New York in June 1938. I am an Electrical Engineer.

I have known Morton Sobell
William Danziger

since High School days. When I returned to New York City in March of 1950, Morton Sobell and I resumed our acquaintanceship. I visited with him several times after March 1950 at his home on 73rd Ave in Queens.

One night in the latter part of June, I telephoned Morton Sobell for the purpose of borrowing an electric drill from him. At this time Sobell told me he was leaving ^{that night (Wed)} for a vacation in Mexico and that if I wanted the electric drill that I should come over ~~Wed~~ and get it. I knew Sobell had an electric drill because on my previous visits I saw the drill in Sobell's workshop ⁱⁿ the basement of his home.

I drove to Sobell's home in my own car on the same night. I arrived about 9:00 P.M. Sobell

William Danziger

told me he was leaving by plane
for Mexico. Besides Sobell, there
were present in his home, Sobell's
wife, his two children and a
young woman ~~who~~^{with} named Edith
or Ann who has since been
identified ^{to me} as Edith Levitov, a
sister-in-law of Sobell's. I
remained in Sobell's home about
15 minutes just long enough to
pick up the electric drill and
have a few minutes conversation with
those present. I returned to my
car and drove off. When I
left, Sobell's car, a 1950 Ford, was
in his driveway and all of the
persons I have mentioned above were
getting into Sobell's Ford ready
to leave. I was under the impression
that Edith Levitov was not going to
Mexico with the Sobells but would.

William Danzyer

drive the Sobell car back from the airport. I am unable to recall definitely at this time what gave me the impression that Edith would drive the car back. That was the last time I saw the Sobells. I saw Edith Leveton once since then at Mr. Lane's office.

~~Wd. Sobell gave me no indication that~~
about one week later after Sobell left, I received an air mail letter addressed to me at my place of employment, Academy Electrical Products Corp., 48/49 Broadway New York City. There was a return address on the outside of this envelope. My best recollection was that the return address was M. SOWELL in Mexico City at a street address I don't recall. Inside this envelope there was a brief note and to the

William Danzger

best of my recollection it was addressed "Dear Bill" and signed either "Mort" or "Morty". To my best recollection, the letter mentioned Sobell had a pleasant plane trip and that he was making arrangements for lodging, etc.

On a separate sheet of paper, Sobell requested me to deliver or forward a letter addressed to Sobell's parents beginning "Dear Mom and Pop" and a letter beginning "Der Edie + Rose and Dave". I believe that the address of Edith Levitov in Arlington, Virginia was at the top of the letter.

On the same note Sobell requested that I advise one PASTERNAK of Sobell's Mexico address. I believe Pasternak's first name ~~was~~ ^{is} May and his address is 41-42 42nd St Queens. Sobell gave his name and address
William Danziger

on this note which I remember as
M. SOWELL, Mexico City. I cannot
recall the street address but
believe that this was the same
as the return address on the
envelope.

a day or two later I placed
the letter for Edith Levitt in a
plain envelope and addressed
it to her at 2135 Lee Highway
Arlington, VA. and mailed it.

I personally took the note
to ^{the home of} Sabell's parents on Trinity Ave
in the Bronx. Since they were
not at home, I placed the note
under their door. On this note
to Sabell's parents I wrote that
I would call them later in the
week and signed my name Bill.
I attempted to telephone them
several times but there was no answer.

William Danziger

In accordance with the request contained in Sobell's letter I wrote out a note which to the best of my recollection was as follows:

"Morty Sobell may be reached as M. SOWELL," giving the street address in Mexico City which had been contained in Sobell's note to me. I put this note in a plain envelope and addressed it TO PASTERNAK at the address supplied to me in the note. I carried this envelope around for about two weeks before I got around to delivering it. One night about the middle of July 1950 I drove alone in my car to the address given on 42nd St in Queens. This address is a large apartment house. I arrived at

Willson Danziger

about 9 or 9:30 in the evening.
I located the apartment number
of PASTERNAK from the doorbell
or the mail boy. The apartment
was on the fourth floor possibly
4E. I received no answer when
I rang so I placed the envelope
addressed to PASTERNAK containing
the note described above under
the door.

On or about the fourth of July
I ~~answered~~^{wd.} sent a letter to Sobell
using the name and address indicated
in Sobell's letter. This letter was
purely social in content and I mentioned
the fact that I had received his letter.
I don't recall making any mention of
the requests contained in his letter to
me

about the middle of July 1950 I
received another letter from Sobell

William Danziger

addressed to me at my place of
employment. I am quite sure
that the name on the return
address was not SOWELL
or Sobell but was a decidedly
different name possibly LEVITO
although I may be mistaken. The
was also a different street address
and to the best of my recollection the
name was COROBA or CORBODA
in Mexico City.

Enclosed in this envelope was
a brief letter addressed to me
mentioning that Sobell had moved
and some personal references to his
family. ^{Ed.} Either in a separate
note Sobell requested that I
forward an enclosed letter to
Edith Levitov in Arlington
Virginia and give his new
address. As I recall it, this

9. William Danziger

was the name possibly "Levitov"
and the address contained on the
envelope.

Shortly after receipt of Sobell's
second letter I forwarded the letter
enclosed for Edith Levitov to her
at the Arlington, Virginia address.

about the same time I sent
another letter to Sobell in Mexico
City using the name and address
furnished by Sobell in his second
letter to me. This letter was brief
and social in content. I did not
refer to the fact that Sobell was
using ^{wd.} ~~another~~ other names to
receive mail nor did I mention
the requests Sobell had made of
me in either letters.

Regarding the requests ^{wd.} of Sobell made
of me, Sobell said in a separate
note contained in the first letter

William Danziger

that he would explain to me when he saw me.

I believe I typed my first letter to Sobell on my personally owned typewriter. The second letter was either typed or handwritten. Both letters were sent air mail.

I have read the above ten and one-half page statement of facts. All statements and facts herein set forth are according to my best recollection and knowledge at this time and I believe them to be true.

Dear Friend:

Received your letter and was glad to hear from you.

As you know, I was not feeling well and went to see a doctor. However, no one could help me until the last few days, when I was able to contact a top-notch doctor who claims to know what's wrong with me. He assures me that he will have me cured in the very near future.

I got your letter by coincidence as I don't live there any longer. I've been travelling these last few months & as soon as I settle down I'll let you know my whereabouts.

since rely yours,

Lew

Kleinschmidts Bake Shop

Dear Sir:

Thanking you for the order. Same is on the way to you.

To use the molds is a very easy matter. When making a great amount of ornaments for a holliday, you make one first, filling the mold to capacity, then you take the amount out of the mold and round the peice up for the correct size, then you break up your matzapon to peices of the same size.

Another way to make them is to press the matzapon firmly into the mold and use a wire, the kind you use to ~~all the matzapon butter~~, to slide over the mold, to cut away all the matzapon that is above the flat surface of the mold

When making marzapan you cannot follow a recepe, as it depends on the amout of flavor and color that you hav to use.

1 pound of Almond- or Kernal paste
1 pound of sugar
Flavor and color
and if still to stiff use some water or Egg whi

For instance: For halloween, when using the pumpkin, you color the marzipan a pumpkin color, the layer chocolate, and when placing the pumpkin on the layer, the dark color of the layer will show through the eyes nose and the mout. Then you finish your layer with pumpkin colored trimmings. When using the cat or the witch you color your matzipan chocolate and your layer pumpkin color and when placing t cat on the layer, the pumpkin color will show through th eyes. Then you finish the layer with chocolate trimmings

When making the graduation hat on sheep skin, you fill the hat, tossel and the writing with choco. and then the rest with natural marzipan and when taken out of the mold it is finished in two colors.

∞ In using my molds you can make a nice showing in your window and it gives your cakes the right holliday spirit.

I hope that my comments will be of help to you,

Sincerely yours,

Rec'd from
