STANDARD FORM NO. 64
Office Memorandum • UNITED STATES GOVERNMENT

TO : SAC, NEW YORK

DATE: July 2, 1952

FROM : SAC, WFO (65-5553)

SUBJECT: WILLIAM DANZIGER
ESPIONAGE - R

ReNYtel to WFO dated June 9, 1952, requesting the identity of Confidential Informant T-6, mentioned on page 10 of the report of SA CALEB L. BATTEN, made at Washington, D. C., April 24, 1948, subject, "WILLIAM DANZIGER, LOYALTY OF GOVERNMENT EMPLOYEES". From a review of the file of referenced report and other files in the WFO, it is not possible to ascertain who secured the information set out as being furnished by T-6. However, on June 24, 1952, Confidential Informant [REDACTED] was interviewed by SA JOSEPH E. KELLER at which time this informant advised that Local 3 in 1948, was composed of people from the Department of State, Bureau of Standards, and all locals in Washington, D. C., except Local 10, which covered the Federal Security Agency. This informant advised that Local 3, of UPWA as of April, 1948, followed the Communist Party line without any deviation, also that this Local was Communist dominated and controlled by people in the CP or closely affiliated with it. WILLIAM DANZIGER
ESPIONAGE - R
INTERNAL SECURITY ACT OF 1950

*James M. McInerney
Bureau of Investigation
7/25/52*

Reference is made to your memorandum, dated July 1, 1952, wherein you requested the Department's opinion as to whether William Danziger has violated Section 1001 of Title 18, U.S.C.

The Department has reviewed the photostatic copies of those documents which are described and enumerated on pages 66 and 67 in the Summary Report of Special Agent Charles P. Silverthorn, dated June 20, 1952.

With particular reference to enumerated items (1), (2), (3), (4), (5), (9), and (10), the statute of limitations would now, in view of the reasoning contained in the recent Supreme Court decisions in U.S. v. Smith and U.S. v. Darley, 342 U. S. 225, appear to present a bar to the prosecution of those violations of 18 U.S.C. 1001 committed prior to August 25, 1942, the date of the enactment of the Wartime Suspension Limitation Act, and during the year 1948.

In the absence of any evidence of Danziger's organizational membership during the period from August 25, 1942 to April 1945, in the Communist Party or membership in or affiliation with any group or association which lends support to any organization advocating the overthrow of our constitutional form of government in the United States, there appears to be no 1001 violation with respect to the denials contained in the documents described in enumerated items (6), (7), and (8) in the aforementioned Summary Report of Special Agent Charles P. Silverthorn.

In the circumstances it is the Department's view that any prosecutive action against the subject for violation of 18 U.S.C. 1001 would be abortive in lieu of evidence which would competently prove the subject's membership in the Communist Party as of the dates those documents described in items (6), (7), or (8) were executed by the subject.

In view of United States Attorney Myles J. Lane's previously stated position, to which you referred in your memorandum of July 1, 1952, I am of the opinion that any determination concerning possible prosecutive action against the subject for perjury should await the outcome of the Rosenberg-Sobell appeal. //

MEMO

RE: WILLIAM DANZIGER
ESPIONAGE - R
INTERNAL SECURITY ACT, 1950

This memorandum is being submitted to briefly summarize the remaining investigation to be conducted in this case in view of the writer's transfer out of the NYO.

This case was placed in a P status by a report of the writer, dated 8/14/52. The USA, SDNY, has declined to take any action regarding possible prosecution of subject for perjury pending the outcome of all the appeals in the JULIUS ROSENBERG - MORTON SOBELL case. The USA, SDNY, has indicated that should the MORTON SOBELL conviction be reversed by the Supreme Court it would be necessary to again use the subject as a Government witness against SOBELL.

It is also pointed out that the only possible witnesses against subject for perjury at this time are MAX and HELENE ELITCHER, who were also used as Government witnesses against SOBELL.

It is suggested that after the final appeals have been heard in the JULIUS ROSENBERG case and the sentence has been carried out, that this case again be discussed with the USA, SDNY, in order that he might furnish a final prosecutive opinion in this matter.

OFFICE MEMORANDUM UNITED STATES GOVERNMENT

TO: SAC, New York

DATE: 10/5/53

FROM: JAMES J. MCCARTHY, SA (65-15396)

SUBJECT: *William Danziger*

SM: C

WFO let 9/25/53 advised that the above captioned subject is scheduled to be called as a witness at hearings of the House Committee On Un-American Activities to be held on 10-20-53 at [redacted] Washington, D.C. according to [redacted] who furnished the above information on 9/23,24/53. b7D

Above WFO let stated that [redacted] had advised that while subpoenas have been issued for certain NY witnesses, for 10/26/53 he doubts very much that hearings will be held on that date. b7D

In connection with the appearance of the above captioned subject before the HCUA, it is suggested that the provisions of Bulet 6/8/53 entitled "House Committee On Un-American Activities" be complied with.

The above Bulet stated as follows:

"The Bureau desires at this time to set out the policy to be followed in connection with the handling of HCUA testimony".

"It is desired that the Washington Field Office maintain close liaison with the HCUA to determine the identity of persons to be subpoenaed so that it may be ascertained whether any Bureau informants or sources of information are involved, whether the investigation of a pending case may be interfered with and, so that up-to-date reports may be submitted on proposed witnesses. It is desired that current reports be submitted on individuals active in Communist Party affairs and these reports should be received by the Bureau prior to the beginning of the hearings. No report is necessary on persons merely having knowledge of such activities without active participation therein. The Bureau should be immediately advised as to the identity of such persons, as well as the identity of any informants or sources of information who are subpoenaed.

MEMO

"Where it is found that hearings will be held in another city, Washington Field should advise the appropriate office of that fact, along with the instructions set out hereinafter".

"As the hearings are held, it is desired that liaison be maintained so that copies of the testimony, both public and executive session, can be obtained. The Bureau should be kept currently advised of any pertinent developments affecting the investigation of any Bureau case. It will be incumbent on the office covering the location of the hearings to maintain liaison with the HCUA and with Washington Field Office to insure that transcripts of all testimony are secured".

"Two copies of the testimony should be obtained. One copy should be forwarded to the Bureau for the attention of the Records Section for indexing purposes. Executive testimony should be clearly marked "Executive Session Testimony, Do Not Disseminate".

"The other copy of the testimony should be forwarded to the office covering the location of the hearings for review and dissemination.

"The testimony should be reviewed first of all as to the witness himself and a determination made as to whether an investigation should be initiated or reopened, whether the subject should be included in the Security Index, whether he should be interviewed or any other appropriate action taken. Where the witness does not reside within the territory of the office where the hearings are held, all pertinent information in the testimony should be forwarded to the appropriate office under the individual's caption and that office should make the decision as to any action necessary.

"In the event a witness furnishes information concerning others, this should be reviewed and channelized to the appropriate files where it pertains to a subject within the territory of the reviewing office. Where it pertains to an individual residing elsewhere, all pertinent information should be furnished to the appropriate office under the caption of the individual to whom it pertains, along with appropriate instructions to review and take any action necessary.

MEMO

"Where the identity of an individual mentioned in the testimony cannot be determined, this information should be submitted to the Bureau under the individual caption with the request that Bureau files be checked and the information forwarded to the appropriate field office.

"As the review of the testimony progresses, a letter should be written to the Bureau on each witness and on each person identified in the testimony as active in the Communist Party or related activities, along with a statement as to action taken and any recommendation.

"Where hearings are held outside Washington, D.C., the appropriate office should advise the Bureau within one week after the transcripts of the testimony have been received that a review of the testimony has begun and the approximate date the review will be completed. Each week thereafter the office should advise the Bureau as to the percentage of the review completed. After the review of the testimony has been completed, the Bureau should be advised of this fact, along with a statement that letters have been submitted to the Bureau under the individual caption on each witness and person named therein and the action recommended on each.

"Where hearings are held in Washington, D.C., concerning activities elsewhere, the testimony should be furnished to the appropriate office as outlined above. Where the testimony pertains to activities in Washington, D.C., the Washington Field office should take any action necessary on individuals who are the subjects of Washington cases.

"In the recent past, hearings have been held in New York City concerning the educational and the entertainment fields. The Bureau desires that the above instructions be followed in connection with the review of the testimony concerning these hearings and any hearings which may be held in the future.

DONALD THOMAS AXON (Bufile 100-383022)

As of November, 1951, AXON's residence was Apartment 312, 1607 East 12th St., Tulsa, Oklahoma. His last known employment in 1951 was Assistant to the Vice President of Manufacturing and Research, Deep Rock Oil Corporation, Tulsa, Oklahoma. AXON was a Section Leader, University of California, Los Alamos, New Mexico (US Army) from March, 1946 to September, 1947. From 8/18/44, to 3/9/46, AXON was in the US Army at Los Alamos, New Mexico.

DAVID GREENGLASS on 6/3/52, identified AXON as one of the 18 men included by him as potential Soviet Espionage recruits, employed at Los Alamos, which were furnished to JULIUS ROSENBERG in January, 1945.

AXON was interviewed 3/16/51, by SAs JESS L. ORR and BENJAMIN C. GARRIN at Tulsa, Oklahoma. AXON denied knowing ROSENBERG or GOLD, but admitted serving with GREENGLASS at Los Alamos, from February, 1945 to March 1946. AXON denied being approached by anyone, including GREENGLASS, to furnish information. AXON mentioned that GREENGLASS indicated a sympathetic attitude toward Russia; that he, (AXON), shared some ideas, such as racial discrimination, as entertained by GREENGLASS and pointed out that he did not consider GREENGLASS a Communist at this time.

Oklahoma City requested to ascertain present residence and employment of AXON and to review their files in an effort to bring background information on AXON up to date, at which time Oklahoma City should make a recommendation whether current evaluation of AXON warrants a reinterview.

BEDERSON advised that he knew DAVID and RUTH GREENGLASS at Los Alamos, and knew them both to be outspoken as pro-Communists. BEDERSON said he had no recollection of furnishing information to GREENGLASS but conceded he might have done so. BEDERSON admitted membership in the IWO until his college days.

BEDERSON presently resides at 30 West 73rd St., NY, NY, and is employed as an instructor at NY University.

SECURITY MATTER - C

This case is being reopened under the program of investigating all individuals included in the Communist Index in the NYO.

The following minimum investigative steps must be taken:

1. Review file and all pertinent references thoroughly.
2. Contact informants, sources and defected Communists who could be expected to know the subject. Contact for evidence of current activity and also for the sources' evaluation of potential dangerousness.
3. Determine residence and employment. Check against the key facilities and classified contractors lists to insure full and complete dissemination is made. Submit Form FD-128 if the subject has moved to a new field division.
4. If the subject has been a CP drop or ceased activity suddenly, develop information to show the reason. Many of these drops are purely on the basis of theoretical and intellectual differences. The convictions of the persons involved remain unchanged in their hard-core devotion to the principles of international Communism, waiting only for what they consider to be a more favorable climate within ruling Communist circles. It should also be borne in mind constantly that unexplained cessation of Communist activity by a subject may well be based upon a contemplated assignment in espionage or illegal underground activity.

These cases must be given expeditious attention since it will be our responsibility to fully handle the approximately 4232 cases on individuals included in the Communist Index.

Additional instructions relative to the handling of these cases will be immediately forthcoming. In the meantime the necessary investigative steps should be taken so that there will be no time lost in launching this program.

SUBJECT: William Donziger 65-15396

This Reserve Index case is being reopened to conduct the following investigation:

1. Verify residence and employment.
2. Conduct an indices search and file review to determine whether investigation is warranted at this time or whether an interview with the individual is deemed desirable.
3. If additional investigation is conducted or if there is unreported information of a subversive nature contained in the files, a report must be submitted.

Designate for Section A of the Reserve Index those individuals whose subversive activities do not bring them within the Security Index criteria but who, in a time of national emergency, are in a position to influence others against the national interest or are likely to furnish material financial aid to subversive elements due to their subversive associations and ideologies.

Included in Section A will be those individuals falling within the following categories:

1. Professors, teachers and educators.
2. Labor union organizers or leaders.
3. Writers, lecturers, newsmen, entertainers and others in the mass media field.
4. Lawyers, doctors and scientists.
5. Other potentially influential persons on a local or national level.

Forms will be available to recommend the inclusion of the individual's name in Section A of the Reserve Index. These forms will contain a succinct summary, setting forth the basis for recommendation. If no report accompanies the recommendation, a statement to that effect should appear on the page containing the succinct summary. Investigations of individuals listed in Section A are to be brought up to date annually and they are to be considered for Security Index status or retention in the Reserve Index. Changes in residence and employment will be submitted to the Bureau.

The administrative handling of the reopening of these cases will be similar to that in the case of annual reports on SI subjects. Section B of the Reserve Index will be the names of the remaining individuals in the Reserve Index who are not in Section A.

The revised standards for inclusion of names in the Reserve Index are:

1. Membership in a basic revolutionary organization subsequent to January 1, 1949, together with some indication of sympathy or association with such an organization or a subversive front organization subsequent to the reported membership and no reliable evidence of defection.

2. Investigation has failed to substantiate allegations of membership in a revolutionary organization within the past five years, coupled with some evidence or information indicating activity, association or sympathy for the subversive cause within the same period, and no reliable evidence of defection.

3. The individual, within the past five years, by his associations, writings, financial support or conduct in relation to and support of subversive organizations or the international communist movement is in a position to influence others at the time of a national emergency and no reliable evidence of defection.

4. Leadership or substantial activities in a major subversive front group over three years ago, together with some evidence of continuing activity, association or sympathy for the subversive cause within three years and no reliable evidence of defection.

5. Membership in a subversive front organization within the past three years and no reliable evidence of defection.

This Reserve Index case is being reopened to verify the continued presence of the subject within the NYO territory. The agent to whom case assigned should explore the possibility of the development of potential witnesses, sources and informants. He should determine whether further action under Security Index Program is indicated. This case should be reviewed with a view toward ascertaining whether the subject might have come to the attention of the Soviets as being qualified for and amenable to recruitment for espionage purposes, bearing in mind recent developments indicating that the Soviets have under consideration the utilization of present and former members of the CP in espionage.

The memorandum closing this case should be routed to the Security Index Unit. Any changes to be made on the Reserve Index card should be underlined in red on the memorandum in order that the card may be brought up-to-date.

This Reserve Index case is being reopened to conduct the following investigation:

1. Conduct indices search.
2. Verify residence and employment.
3. Contact informants and sources.
4. Explore subject's informant potential.
5. Determine whether further action under Security Index Program is indicated.

Provisions of SAClet 63-61 (F) dated 12/17/63, set forth certain additional specific factors that should be considered in recommending individuals for inclusion on the Security Index.

SAClet 63-61 states that in connection with all security investigations in the case of individual subjects the essential question for determination is whether the subject's activities are such as to depict him to be a potential danger to the national security of the US in time of an emergency. In the event such a determination is made, his name should be included in the Security Index.

Section 87D of the Manual of Instructions contains a number of specific factors that must be taken into consideration when arriving at a conclusion as to whether a particular subject meets the Security Index criteria and represents a potential threat to the national security.

The following specific factors in addition to the ones set forth in Section 87D of the Manual of Instructions are set forth for consideration in arriving at a determination as to whether a security subject falls within the Security Index criteria, represents a potential danger in time of an emergency and thus should be included in the Security Index.

1. Contacts with Sino-Soviet-bloc establishments (including Cuba) where purpose of contact cannot be determined or contact indicates Communist sympathies.
2. Contacts with Sino-Soviet-bloc, Cuban or Yugoslav intelligence agents where purpose of contact cannot be determined or contact indicates Communist sympathies.
3. Individuals who have defected, revoked or sought revocation of their United States citizenship in favor of a Sino-Soviet-bloc country, who have returned to the United States, and who have taken no positive steps to counteract such action.
4. Statements or activities on a subject's part establishing reasonable grounds to believe that his loyalty would lie with a Sino-Soviet-bloc country in the event of armed conflict between the United States and a Sino-Soviet-bloc country.
5. Training and/or participation in espionage, sabotage, or intelligence activities.
6. A history of emotional instability or irrational behavior on the part of an individual with a subversive background whose prior acts depict a propensity for violence and hatred against organized government.

The above factors, including the various factors presently set forth in Section 87D of the Manual of Instructions, are not all inclusive but are set forth for the purpose of providing a more detailed guideline and all must be considered in evaluating the facts developed during the course of the investigation.

This Reserve Index case is being reopened to conduct the following investigation:

1. Conduct indices search.
2. Verify residence and employment.
3. Contact informants and sources.
4. Explore subject's informant potential.

~~5. Determine whether further action under Security Index Program is indicated.~~

Provisions of SAClet 63-61 (F) dated 12/17/63, set forth certain additional specific factors that should be considered in recommending individuals for inclusion on the Security Index.

SAClet 63-61 states that in connection with all security investigations in the case of individual subjects, the essential question for determination is whether the subject's activities are such as to depict him to be a potential danger to the national security of the US in time of an emergency. In the event such a determination is made, his name should be included in the Security Index.

Section 87D of the Manual of Instructions contains a number of specific factors that must be taken into consideration when arriving at a conclusion as to whether a particular subject meets the Security Index criteria and represents a potential threat to the national security.
