DISORDERS BY AMERICAN INDIANS  
IN SOUTH DAKOTA  
CRIME ON INDIAN RESERVATION -  
EXTREMIST MATTERS

b6

At 2:25 PM, 3/2/73, Personnel Officer [redacted] called. The Bureau would like this Division to furnish immediately ten Special Agents on special. They are to fly as soon as possible directly to Rapid City, South Dakota, and check in with the RA there. They are to bring appropriate clothing, keeping in mind that it can and does go below zero and should bring their firearms. He asked that one of the men also bring a Starlight Scope if we have one available.

Mr. [redacted] stated we could select the men, but we should keep in mind that this was not an intelligence operation and that probably Agents with some training or experience in riot control, defensive tactics, administrative firearms, etc., would be most adequate for this assignment.

b6  
b7C

We are to confirm by nitel this evening to the Bureau and Minneapolis the names of the Agents who are going and the expected time of their arrival which the Bureau hopes will be this evening.

He mentioned incidentally that they have had 40 men on special there for about one week and that at the moment he is rounding up five from San Francisco, five from Detroit, and he is trying to get 30 others who are close enough that they can drive and bring cars.

b6  
b7C

For your information the Section Chiefs are making a survey of the personnel available and SA [redacted] is inquiring as to the airlines' schedules.

## PROPOSALS AND DEMANDS

The list of 20 demands is not from the American Indian Movement (AIM) alone. It is from all the Indian organizations that participated in the Trail of Broken Treaties. These demands came out from a stack of paper of 5,000 pages of all the organizations of one cause to show what was needed by all the organizations.

### "Trail of Broken Treaties"--Renewal of Contracts; Reconstruction of Indian Communities; And Securing An Indian Future In America!!!

1. Restoration of Constitutional Treaty Making Authority.
2. Establishment of Treaty Commission to Make New Treaties.
3. Presidential and Indian Address to American People and Joint Congress.
4. Commission to Review Treaty Commitments and Violations.
5. Resubmission of Unratified Treaties to the Senate.
6. All Indians to be Governed by Treaty Relations.
7. Mandatory Relief Against Treaty Rights Violations.
8. Judicial Recognition of Indian Right to Interpret Treaties.
9. Creation of Congressional Joint Committee on Reconstruction of Indian Relations and Programs.
10. Land Reform and Restoration of 110-Million-Acre Native Land Base.
  - A. Priorities in Restoration of Native American Land Base.
  - B. Consolidation of Indians' Land, Water, Natural and Economic Resources.
  - C. Termination of Leases and Condemnation of Non-Indian Land Title.
  - D. Repeal of Menominee, Klamath and Other Indian Termination Acts.
11. Revision of 25 U.S.C. 163; Restoration of Rights to Indians Terminated by Enrollments; Revocation of Prohibitions Against "Dual Benefits."
12. Repeal and Nullification of State Laws Enacted under Public Law 280.
13. Resume Federal Protective Jurisdiction for Offenses Against Indians.
  - A. Establishment of A National Federal Indian Grand Jury.
  - B. Impose Jurisdiction over Non-Indians within Indian Reservations.
  - C. Accelerated Rehabilitation and Release Program for State and Federal Indian Prisoners.
14. Abolition of Bureau of Indian Affairs (BIA) by 1976; New Structure.
15. Creation of "Office of Federal Indian Relations and Community Reconstruction".
  16. Priorities and Purpose of the Proposed New Office.
  17. Protection of Indian Commerce and Tax Immunities.
  18. Protection of Indians' Religious Freedom and Cultural Integrity.
  19. National Referendums, Local Options, and Forms of Indian Organization.
  20. Health, Housing, Employment, Economic Development and Education.

The foregoing are titles to proposals advanced in a series of study, discussion, and issue workshops conducted by several hundred Indian people from numerous, diverse Indian communities and joined in the "Trail of Broken Treaties" Caravan. The proposals are discussed with minimal essential detail, sometimes rationales and justifications are included. In brief, and taken together, they provide concrete proposals for positive, constructive and necessary change for America's relationships and dealings with the

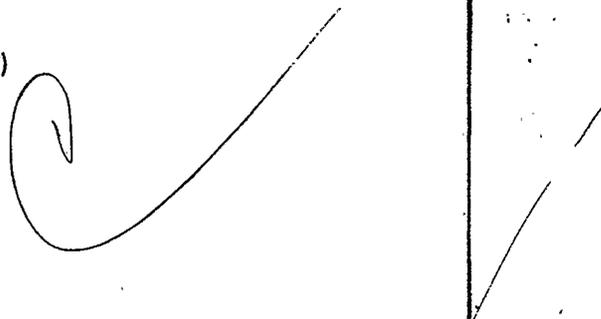

... [over]

first people of the American land. They present an outline for Indian and non-Indian actions -- and an agenda for the next Congress and Administration of the United States Government -- an agenda that must be accepted and acted upon, if the basic obligations of a government to a people are not to be forever denied.

1. We demand that we get the Executive and Legislative action on our twenty (20) point solution papers.
2. We demand that John Crow be relieved of his duty as Deputy Commissioner.
3. We demand that Harrison Loesch be relieved of his duty as Assistant Secretary.
4. We demand that Louis Bruce be given back his authority as Commissioner until such executive and legislative actions are implemented on our twenty point solutions papers.
5. We demand proper housing and facilities during our stay in D.C.
6. We demand that commitments made to Indian people over the Johnson-O'Malley Issue in Oklahoma be honored and be written to the people.
7. We demand that urban and landless Indians be given proper services entitled to them same as treaty Indians (medical, etc.).
8. We demand that all bones and artifacts of our ancestors be restored to our people for reburial.
9. We demand that Bob Robertson be relieved of his duty as Director of National Council on Indian Opportunity and be replaced by an Indian.

FROM : SAC JAMES L. STARTZELL

SUBJECT: DISORDERS BY AMERICAN INDIANS  
IN SOUTH DAKOTA  
CRIME ON INDIAN RESERVATION -  
EXTREMIST MATTERS

DATE: 3/2/73

SA [redacted] inquiries disclosed that agents could leave here at about 10:30 PM today and with a six hour layover in Denver and numerous stopovers, arrive in Rapid City at 8:43 AM. However, a more logical course would be to take the next best flight, a Western flight out of here at 6:55 AM tomorrow morning and with two brief stopovers, arrive in Rapid City, South Dakota at 11:55 AM. This is a breakfast flight and they would be rested and ready to go on arrival.

b6  
b7C

I have scheduled for a 4:30 PM conference ten men (six from the Criminal Division and four from the Security Division) who appear to have some special aptitude or background for this assignment and we have numerous other volunteers available if you feel these ten volunteers do not fill the bill.

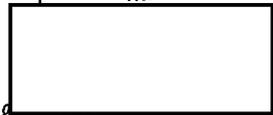

b6  
b7C

My first alternate would be [redacted] who has had combat experience, narcotics training, and most of all, has had extensive Bureau and Navy photographic experience.

On March 5, 1973, Source Three advised that on March 4, 1973, a benefit was held for the "People's World" (PW) at the First Unitarian Church, 2936 West Eighth Street, Los Angeles, California. Source indicated that those in attendance were urged to participate in a demonstration, sponsored by AIM, to be held at the Federal Building, 300 North Los Angeles Street, Los Angeles, at 1:00 p.m. on March 6, 1973. The PW is a west coast Communist newspaper.

On March 6, 1973, at approximately 1:00 p.m., at the Federal Building, 300 North Los Angeles Street, Los Angeles, Special Agents of the FBI observed the following:

Approximately 100 people had gathered consisting primarily of Chicanos and American Indians. Those assembled marched in circular fashion in front of the Federal Building carrying signs which read as follows:

"United States Treaties Are Tricks"  
"Indians Have Rights Too"  
"Chicanos Support Wounded Knee"  
"Justice 1973 Not 1890"  
"Freedom For All Not Prison Camps"  
"Support AIM 1973"  
"The Land Belongs To The People"  
"Unjust To One Is Unjust To All"  
"Wounded Knee, Indian Mai Lai"

Occasionally there was chanting, some of which was heard as follows:

"Freedom Now"  
"No More Dogs At Wounded Knee-Off The Dogs"  
"BIA, CIA, Go Back To Where You Came From"

On March 6, 1973, Source Four advised that the demonstration sponsored by AIM commenced at approximately 1:00 p.m. on March 6, 1973, in front of the Federal Building, 300 North Los Angeles Street, Los Angeles, California.

AMERICAN INDIAN MOVEMENT

Source indicated that among those participating were approximately ten teenagers and four adults, all of whom indicated they were students or teachers at the South Bay Community School, 1130 Laurel Avenue, Manhattan Beach, California, telephone number 376-3667. An unidentified teacher affiliated with the school indicated to source that

Source also indicated that Archie Fire, also known as Lane Deer, a self professed AIM organizer, indicated that he was deeply disturbed and regretful that the Indians in Los Angeles do not thoroughly support AIM. Fire also indicated that AIM planned to spend the evening in front of the Federal Building to show support for their "Brothers at Wounded Knee".

On March 6, 1973, Source Five advised that the demonstration held at 1:00 p.m. at the Federal Building, 300 North Los Angeles Street, Los Angeles, peaked at about 100 people at 3:30 p.m. Source noted [REDACTED] of the Southern California District Communist Party, and Sam Kushner, Editor of "People's World", to be present. Source also indicated that Archie Fire, Western Regional Coordinator for AIM, had stated to a gathering of news people that the AIM members intended to stay in front of the Federal Building until "Wounded Knee is free". Fire indicated that the demonstration was a result of a coalition of Chicanos and American Indians, all present there, according to Fire, to render support for their brothers at Wounded Knee.

The Brown Berets was formed in 1967, composed predominantly of Mexican-Americans within the eastside of Los Angeles, for the purpose of opposing alleged discrimination by the Anglo establishment. Their stated motto is "To Serve, Observe and Protect". They have been active in demonstrations against local law enforcement agencies and the participation of the Mexican-Americans in the Vietnam War.

On March 6, 1973, Source Six, with whom insufficient contact has been made to determine reliability, advised that a meeting had been held March 5, 1973, at AIM Headquarters, 600 South New Hampshire, Los Angeles, California, between AIM members and some Chicanos. On March 7, 1973, FBI Agents observed the demonstration by AIM members commence again at about 9:00 a.m. with about 15 participants. The events during the day as they unfolded, remained docile, and the crowd peaked at about 75 to 100 people, again consisting primarily of Chicanos and Indians.

On March 8, 1973, Source Five furnished the following tape recording of an interview on March 7, 1973, with Archie Percy Fire, also known as Lame Deer, AIM Office, 600 South New Hampshire, Los Angeles, regarding the current demonstration at the Los Angeles Federal Building, Wounded Knee, and other related matters. A transcription of this interview follows:

ARCHIE FIRE: My name is ARCHIE FIRE, Lame Deer, I'm from the Rose Bud Reservation in South Dakota. And I'm also the Western Region Coordinator of the American Indian Movement. And I have been involved with the American Indian Movement before it was called the American Indian Movement. And I am also the coordinator for the Indian Offenders Rehabilitation Program, serving eight prisons in the Southern California area, handling pretty close to 300 Indians in eight prisons. We started our organizations about a year ago, the American Indian Movement in the Los Angeles area. We've opened a chapter here, we opened one in San Jose, San Francisco, Sacramento, Santa Rosa, San Diego. We opened chapters clear across and we're hoping to open more chapters than we have now, because here in the California area there are more Indians in California than any other state in the nation. Here in Los Angeles alone we have between 60 to 75 thousand Indians. For that reason the American Indian Movement is very, very much needed in this area. Not only for one Indian group but for all Indian groups to fight for the same causes that we have, which is the rights of the American Indian. To be able to relate to other nationalities, ethnic groups organizations. To be able to sit down and really understand what we are really fighting about. For myself I have been in the military service nine years eleven months and twenty-two days.

I spent seven years in the special forces in the Green Berets. I've seen the other side of the life you might say of what the American way of life is all about. But there are a lot that are missing. One of the things is the dominate society in America. It's sold on the idea that materialistic things of life is the only way to live. Which is not the idea of the American Indian or a lot of groups, it's not their idea. The white man says, why should I collect all the material things of life when I can't take it with me? It seems to me like they should practice this more often. And being in the American Indian Movement and the prison movements I have found myself now at a turning point where my life is, is not in jeopardy. But at this stage of the game getting in the lime light, you might say. But to cover myself in everything, a year ago we did a documentary on my life story on television, for any political or politician to come at me with anything, as far as blackmail or to degrade me in any way. Because my history is a matter of record all they have to do is pull it out of the films and they can show it. And as the coordinator of the American Indian Movement I believe strongly that this is a way for all the American Indians. We have Token Indians, we have BIA Indians, the BIA Indians are now in the age group of 30 to 50, who have been raised on the reservations across the United States of the 290 reservations in the United States. That have been living on hand-outs given to them by the

government. What good is freedom when a man has to live on hand-outs. The Citizenship Act of 1924 says that the American Indian is not a citizen of the United States.

If we pursue this through legal aspects then we will find that we are not legally citizens of the United States. And for that reason I believe that our only way as American Indians is to fight for sovereignty, to have a nation here in the United States. The great spirit has put us here in the Northern Continent to be the overseer of this land that we are now in. And for that reason the American Indian cannot sell the very land that he is standing on. And going back again to the American Indian Movement, living here in Los Angeles the last two and a half years I have been watching other Indian organizations within the urban Indian do things that if the Federal government ever stopped long enough and took a look at these programs there would be a lot of Indians in jail. Misappropriating of funds, Indians ego-tripping in order to get ahead. Using government funds, using government funds which should go to the community. The Indian Center gets 239 thousand dollars a year. And of this 239 thousand 70 percent of it goes to the administration, ten percent of it goes to the renting of cars, and when it comes down to the community only five percent goes to the community. Indian people are being turned away in places like the Indian Center. Why? I have sat here in this same office now over a year, almost

two years watching other people as they go about their daily business. These people are supposedly suppose to be Indians. Given money so they can help the community and make a stronger organization, but no we have had four directors since we have been here. And needless to say the OEO has cut our funds till the end of June. In the time that I have been here, although our freezers are full of food, our basement is full of food we turned away Indians every day, because the people that are working here don't have enough guts to pick up their key and walk to the basement and get a box of groceries and give it to him. I've seen all these, while working here, I've seen other Indian organizations. The Powwow groups in Los Angeles are the only strong Indians groups there is. For the simple reason there is, these Powwow groups the people that run them are not paid, they have to work every day of their lives, but this is their only recreation to dance on Saturday nights. I've seen, I have been in other organizations. I have been to 43 reservations in the United States. I have watched other people, other Indians living on the funds of the Bureau of Indian Affairs. The Bureau of Indian Affairs is being a thorn in our sides. I have went through the Bureau of Indian Affairs. The Bureau of Indian Affairs annually gets 500 million dollars a year. Allocated to the Indians in the United States every year and this money when it comes down the Indian kid is lucky if he gets a pencil,

while he is at school. One point five million is allocated to highway patrols to run their communications, their signal equipment on their police cars and this in fifty states. Money is being channeled off that is earmarked for Indians. And just north of us here in California we have highway patrolmen killing Indians and not even reporting it to their superiors for three or four days and when they do they get out on a OR. I've seen and been involved in all these and for that reason, I got involved with the American Indian Movement. Here is a chance for me to express myself and show the community, the Indian people wherever they are. And expose these people for what they are, some of our own people. They have given me a chance to relate to the community and I have already had the backing of the community clear across Los Angeles area. I had better backing with these people than any other place in the United States. Over the years I have been here I have seen in myself hatred turned to love for your fellow man. I have learned to hate my own people, then in turn I learned that to hate is not the way, but I found a better word which is love for your fellow man. The American Indian will continue to be a non-prejudiced people. And those that are prejudiced because of another nation, because of his skin, of the color of his skin hates that which the Great Spirit has put here himself. If a man hates another man because his color of his skin then that man hates his own mother because we are all, each and everyone of us, children of the Great Spirit and 14 Mother Earth. And also

as a medicine man this is the things that I believe, our philosophies, our religions, our cultures. To conquer your own self and finding reality. When you find that reality, hold on to that reality. The American Indian Movement will be a strong organization. We once fought on the battle fields but we were divided because we do not understand each others languages. One of the greatest things the white man has done for the American Indian, or should I say the English people, is that he gave us a common language, a universal language, the English language. With this language Indians across the United States, Canada, Alaska, South America, we can now communicate with one and other. Where before we had to rely on hand signals in order to relate to each other. Now we have a common language. We can sit down and relate to each other. Where once my enemy was a Crow as a Sioux. We find that we have the same needs and the same wants and the same rights. We are now asking for the support of all Indians across the United States. Whether he is married to a white woman, a black woman, a yellow woman. You may say that you are a full-blooded Indian and your wife is a full-blooded Indian, but you cannot control your grandchildren. But one thing that you can see and always remember is that, if you marry another person other than yourself of your nationality, always remember that your offsprings are the seeds of you, these are your seeds. They will be here long after you are gone. And we go into religions, for myself I have been baptiz 15 even times in seven

different churches. But never finding the thing which I was looking for, which I had all that time was reality, my true self and who I am. It was at one time when I went to the top of the mountain I use to pray in the English language, my thoughts were in English. When I came back to my own language and went to the mountain and prayed in my own language my thoughts were that of an Indian, part of mother nature, part of mother earth. Here I found myself, who I really was. The dominate society has stereotype that we Indians are savages, heathens, false idols. But I also don't believe that the dominate society has the key to the spirit world. We the American Indian has always been part of what is here in the United States. Part of nature, part of mother nature, part of this earth. The question will now come to the things that we believe in; the four colors, the red, the white, the black, and the yellow, it also stands for the four directions of the wind. You might ask, what about the blond man? The color of blond is also sacred color, of the four winds coming together in the very beginning, coming together and creating a color. For that reason mother nature, mother earth is also blond, because four directions have come together. These are some of the religion things that we believe in, in the American Indian Movement. We believe that as Indians it is no good for other Indian organizations to be separated from us. That we come together as one race, not just the Indian race but all races and sit down and study this common thing that we all have, which is part of nature. We are only destroying mother

nature when we are fighting among each other. The American Indian Movement we do not believe in violence unless the man who casts the stone first, then we have to throw the stone back. If we cannot do it in peaceful means then we have to do it in other ways. Here in America; the Northern Continent we have been a peaceful nation. We have lived in harmony here in North America long before the white man came. And we can still live this way with other people providing these people do not get stuck in the material things of life. Indian organizations that are against the American Indian Movement are organizations controlled by Bureau of Indian Affairs. The Bureau of Indian Affairs have been on the reservations since we can remember. They use to be the U.S. Calvary then from the War Department and then the Bureau of Indian Affairs from the Interior Department. It was good the way it started but over the years it has changed. It has changed to greedy hands, where people are taking our land from us, using it to put up places to build weapons, atomic energy. They are taking this land from us and there is nothing we can do about it but we can get involved with other groups here in the United States. As the American Indians, for those who don't believe that they're Indians, those that are against the American Indian Movement, those of you that are what we call tomahawks or red apples, I'll give you a word of advice that if you want to live this way don't ever say that you are an American Indian. An American Indian is not a degree of blood,

its a way of life. And the Bureau of Indian Affairs has put a wedge between us. You are a half-breed and you are a full-blood, and you are a three-quarter Indian. Always remember that the full-blood is no good, the white man is no good. They have dropped us to our faces all our lives. But one thing that they forgot, one of the main things that they have forgot is that they have forgotten to take our pride away from us. Our grandparents had to walk in iniquity in order to eat because they could not hunt. They give us a common language and now we can walk with dignity again and we never lost it, it has been here all these years. When a man has dignity, when a man knows what he is, he will die for these causes. And as the coordinator of the American Indian Movement this is the way I believe. The thing that I believe that if this will save ten or fifteen men then I will gladly give up my life, if it will save one man I will gladly give up my life. I'm just now coming into the American Indian Movement because I have been pushed against a wall. I was pushed against the wall, not by the white man, not by a Chicano, not by the black man or the yellow man. I was pushed against the wall by my own people. I despise the things that are happening. The things that are motivating some of our Indian people and material things. Some of our Indian leaders that have already disappeared into the past, who have sold out other Indians. This will continue as long as there is Indians because the Indians now, a good precentage of them, are stuck on the material thing<sup>18</sup> life. The white man

buys him out, if you get twelve thousand dollars a year and you go against the causes, you are rocking the boat. And they raise your pay to fourteen thousand and you become a Token Indian you sit down along the wayside because you are afraid your family might go hungry. The Indian people should understand that we have been hungry all our lives. We can still continue to be hungry in order for our childrens to have a better life and not live on the handouts of the United States Government or the state or the counties or the cities or the Welfare Departments. As a coordinator of the American Indian Movement I have been questioned many times about my stand as an Indian. My only stand is that I know what I am. My friends, my enemies can call me anything; they can call me a no good Indian, a buck Indian but I don't have to retaliate with this because I know what I am. I can sleep at night. I pray every morning when the sun comes up, when the sun goes down I give thanks to the Great Spirit for having given me a new day. If a man is thirty-eight years old and I have prayed for that man for thirty-five years, when I pray in the morning I do not pray for material things, my friends I am praying for all people. The animal world, the birds, things that crawl, and things that swim every morning I ask the Great Spirit to forgive, to forgive these people for the wrongs that they have done, If only all people can live this way we will have here, not only here in America, but all over the world a better life were we can

progress together, do the things that we want, but there has to be the material things that turns many mens heads. It will be this way, some of my brothers are now in prison, for what? They were not put there, they didn't ask to be there. Not understanding the alcoholic beverages, ninety-eight point five percent of our American Indians in prisons today are in there for direct contact of alcohol and one percent drugs. We can conquer this very easily by becoming an Indian once again. All I ask is that Indian people across the nation, even non-Indian people to start studying the Indian way of life. People laugh at Indians because their on foot and they don't have a car. You can be driving a Cadillac and drive beside me and I can ask myself, is that man happy? I'm built close to the ground and I always will be. My father is the Chief of the Pine Ridge and the Rose Bud Sioux. In the old days I would have been in the same position as Crazy Horse. Sometimes I wish that I was born five hundred years ago. On my fathers side we are hereditary chiefs. On my mothers side we are hereditary chiefs. Our ancestry goes back to the year 1151. We have counted every Winter that went by since 1151, long before the coming of the white man. And my seeds will be here long after I'm gone. But before the full-blooded Indian or the traditional Indian that knows history, the religion and the cultures, before we are gone, we hope to leave to our young ones our way of life, our religion and our culture. And let them be proud that they

are Indians and that our way of life was not a false idolatry, paganism, savagery. But a way of life that had to come to an end. I can say that the Indian will be gone within a hundred years. I'm not talking about the Indian in general. I am talking about full-blood. In a hundred years the full-blood will be gone. Indians that are full-blood now and their wives are full-bloods and their young, they cannot laugh at this because they cannot control their grandchildren. Because their great-grandson might be half white, half Negro, half Chinese, Oriental. And these are some of the things that the American Indian Movement is trying to relate to the Indians that don't understand what the American Indian Movement is all about, to be an Indian once again. But like I say, if you don't like the way the American Indian Movement is trying to get their rights, can I suggest to you that you just go on being a white man, because you are not welcome in my lodge. If you wish to become a white man, and this is not our way. People have stereotyped that the white person is a man of white skin. The old people call a white man a person that was stuck on the material things of life. This was what a white man really was. I use to sit down and listen to some of the white girls that say, I'm white, twenty-one and single, because they have been stereotyped that they were white. When a person says that he is a white person, then you can say that he is stuck on the materialism, is stuck on the materialistic ways of life. And when you bring that to

his face he gets mad because the white is not the color, white is not the color of the white man. I have known black men, yellow men, Indians, the red man, I have known some that are more white than white men that are living today. These are some of the things that we believe as Indians, you are my white brother, you are my white sister, you are my black brother, my black sister. And in the American Indian Movement we will continue to be a non-prejudice people. And the man that is prejudice hates the very thing that the Great Spirit has put here, their mothers which is mother earth.

INTERVIEWER: What is the attitude in regards to the reservations that the Indian people are living on, is it something that the Indian people want to keep or do they want to do away with that or what?

ARCHIE FIRE: Now let me give you a simple answer to this. The white man has a slum, the Negro has a ghetto, the Chicano has the barrio, the American Indian has his reservation. These reservations were set up as concentration camps started across the United States in big acreages so that in the future as prisoners of war in the United States, the government can take back this land. This is my definition of what is happening as far as the reservations are concerned. We want to keep the land, the Indian land that is left. We also want self-determination, the right to say that BURT FIRESTONE can take his rubber company and put it on my

reservation and I'll give him twenty years tax free. And I will hire nothing but Indian people. I want to have the right to say this. They call this a free country, which this isn't. In order to sell our own land or to lease our own land we have to get permission from the Bureau of Indian Affairs. We are being, we are tired of this mob. Our young people are getting educated and are starting to wonder, what has my ancestors done to us? We're not asking the Bureau of Indian Affairs to completely disappear, we're asking for Indians to step-in and fill these positions that are held by the white people in the Bureau of Indian Affairs. We want Indians in there. We have educated Indians that want to step-in these positions. The Bureau of Indian Affairs has set up resources in every big city across the United States, what good would it do us if we say, let's do away with the Bureau of Indian Affairs, we have to start all over again and set up those resources that they have set up and life being what it is now of materialism. We want these resources, we want jobs for our American Indians. Fifty percent of them are held by white people. The president said self-determination. If he were so set on self-determination then give open all the positions in the Bureau of Indian Affairs to the American Indians and take the white people out. This is what we're asking for, it's very simple. Because these people are the people that are controlling our reservations. And in order to control one of these reservations you can get a tribal chairman at the price of ten

thousand dollars and turn them any way you want. It's very easy, it happened not too long ago. It happened one week ago today. A tribe of Cherbin(phonetic) backed by the Bureau of Indian Affairs called a U.S. Marshals on Wounded Knee. And the U.S. Marshals, Sioux that the Indian Police were against the people at Wounded Knee, the U.S. Marshal justified it by stepping in. But the United States government made the biggest mistake they ever made in his life again by listening to an apple (phonetic). They stepped in when they should have went the other way. Maybe it's good for us because it has brought the attention of the American Indian to the community clear across the United States and other world, and other countries. I have been in forty-three different countries in the world. I can truthfully say that the friends that I have had in Germany, in Europe in the far East. The friends that I know, and the friends that I have kept, I can honestly say that the friends of mine are sitting back and laughing at the United States Government. When they make a blunder like this, they have made the biggest blunder in their lives. When a man controlled by the Bureau of Indian Affairs call the U.S. Marshals to fight against Indians that are fighting for their rights, sixty percent of these people that are at Wounded Knee are in drove numbers of the Walla (Phonetic) Sioux tribe at Pine Ridge Reservation. There are old people here that are in drove numbers, the tribal Chairman himself being only what you might say, a half breed, his

followers have bootlegged on the reservation. Who sold liquor to the Indians, marry the Tribal Chairman, try to sell us his program of complete control of the reservation. As an Indian fighting for his rights this will never happen. If we want the reservations. If the president calls for self-determination then we are going to call the same things for the reservations, self-determination of Indians on the reservations. Our old people are now all gone. Ten years ago on reservations the Tribal Chairman says, let's not terminate our reservations because we have a lot of old people living on the reservations yet. But those old people are gone. It is now time for young, younger Indians to step-in and fill these positions. The ones that are hollering lets don't terminate our now the old people on the reservations. My definition is to keep our reservations. Not as a reservation, but as land, a land is to operate out of. We in the United States as Indians will be the strongest of all ethnic groups if we retain our land base, we can operate out of something that we believe in. The Indians in the United States can be the strongest here in the United States because we have the land to back us up. We have the land to use, to build buildings on. We have the control of the water that below this ground. So for this one I can say, we should keep our reservations. But it is now getting to a turning point where we need new blood, new people to run these reservations not by a man of God which the dominate society say will administer Not by politicians, but by

Indians who have been fighting this common cause of the Indian rights from the very beginning. We are setting up resources where we want control of our reservations.

INTERVIEWER: What about the killing, the murdering of Indians by highway patrol? Is there anything that can be done about that, do you think?

ARCHIE FIRE: This has been going on from the very beginning. The killing of American Indians in Northern California by highway patrols. It is being run by the State Attorney in the Northern area. It is run this way because the State Attorneys and the Attorneys that are there want control of the timber that is there in the Northern part of California. This is where it all lies. They want complete control of the timber rights that the American Indian has on the reservation there. And that they have to use the highway patrol in order to accomplish what they wanted. If we don't stop it now it will go on.

INTERVIEWER: Is there any kind of program as far as curbing alcoholic situation.

ARCHIE FIRE: We have approached the alcohol, the problem of alcohol, what the American Indian in various ways. One thing that does not work for the American Indian with alcohol is the Alcoholic Anonymous. The Alcoholic Anonymous, the Alcoholic Anonymous way of life does not relate to the American Indians at all. I can truthfully say that and that Alcoholic Anonymous does not relate to any ethnic group except

the dominate society in the United States. Show me a man that had a four dollar an hour job and two cars in the garage and a fifty thousand dollar home and that has lost it all and gets up in front of a group and talks about it. The Indian does not even have two cars, not alone one. Your alcoholic to the American Indian which was open to us in 1953; in July 1953 alcoholic was opened across the United States to the American Indian. The full-blood, the full-blood Indian cannot tolerate alcohol, because of physical makeup. For this reason, you see, the American Indian that are full-blood they're not alcoholics, but they are dealing with a problem they don't understand which is alcoholism. You can take a full-blood and get him drunk and next day he does not have a hang-over and he's going on his normal duties. People have tried to understand what it was about the American Indian that made him do this. But as the only approach that we had is for the Indians to start going back to their old way of life, of religion. In our religions, the four religions that we had, in order to participate in this religion you have to take a sweat bath. When you take a sweat bath and involve religion in your sweat bath all the poisonous of alcohol is drained from your body. And it was used one time a long time ago by our ancestors. But the sweat lodges were used for, before a man went on a hunt he went in the sweat lodge. While in the sweat lodge, he sweated out the body ordors and used the sewage to beat himself across the body with while he was taking a sweat bath 27 when he came out the animals

could not smell the Indians. This was one of the reasons why the sweat lodges was used. But it also involves our religion, we have to be pure mind, pure body before we have our religion ceremonies.

INTERVIEWER: Lastly what do you feel in the event that any of your people in the community are interested to visit while the struggle is taking place from this community to that community, are there any facilities or arrangements or anything as far as the Indian Center concerned that they could communicate with the center or what have you and thereby go back as a group or whatever, train, bus or plane, whatever? Is that possible or is that taking place?

ARCHIE FIRE: It has not taken place at all. The Indian Center has not gotten themselves involved with the American Indian Movement or whatever the American Indian Movement is all about. Their totally, the Indian Center in Los Angeles is known to the Indian Community as the BIA annex. And my office is here in the Indian Center and for some that are still coming here, they are only coming here because my office is here yet.

INTERVIEWER: Then there is no way to go back there then?

ARCHIE FIRE: There is no way. We would like to find someone with transportation or something like this to hire to transport some of our people that are here that are willing to go back and start up what is right. But they are stuck here in this city. If we had transportation to go back to Wounded Knee,

I can truthfully say that I can pick up five hundred people within five days.

INTERVIEWER: Would you recommend that they contact you or anything else? Instead of the Center?

ARCHIE FIRE: The address is the Indian Center but it has to be under the IOR Program. The Indian Offenders Rehabilitation Program at the Indian Center. The same phone number but extension nine.

INTERVIEWER: What is that phone number?

ARCHIE FIRE: 213 is the area code. 386-6262.

INTERVIEWER: And the extension?

ARCHIE FIRE: Extension nine.

INTERVIEWER: That would reach you, right?

ARCHIE FIRE: Right.

INTERVIEWER: Thank you. Now I appreciate very much your time and I'm sorry that it took the time that it did.

DATE: 3/14/73

FROM : SUPV. EDMUND J. BIRCH

SUBJECT: WOUNDED KNEE  
CIR

This date, the writer was telephonically contacted by Supervisor [redacted] (phonetic), [redacted] Supervisor, New York Office, now on special assignment at Wounded Knee. He related that a Departmental attorney on duty at Wounded Knee somehow got ahold of the information furnished by SA JAMES G. KEENAN on 3/13/73 to SA [redacted] at Wounded Knee concerning the possibility of radical types in the Los Angeles area traveling to Wounded Knee with arms and ammunition to join the American Indian Movement.

b6  
b7C

This Departmental attorney, through SAC TRIMBACH, discussed the possibilities of having these individuals arrested before leaving the California area. The purpose of Supervisor [redacted] telephone call was to see if this would be at all feasible.

b6  
b7C

[redacted] was advised that the information we obtained came from a Los Angeles Police Department undercover officer, and that this information was limited to just a few individuals in the radical movement and that if we were to make any such arrests, it could seriously jeopardize the safety of this source. It was further pointed out to [redacted] that [redacted] and [redacted] two of the radicals involved, are extremely "tail" conscious and would be a very difficult assignment to try to maintain a discreet surveillance of these individuals. [redacted] stated that he would relate these comments to SAC TRIMBACH and he requested that should we get any further information concerning the movement of these people, such as numbers and identification of vehicles, that they be immediately forwarded to Wounded Knee.

SUBJECT: WOUNDED KNEE

Reference is made to Bureau tel to all SACs dated 3/15/73 instructing that in the event information is received concerning outside elements traveling to Wounded Knee to supply individuals at Wounded Knee the matter should be immediately discussed with the appropriate USA.

Information has been received that a car caravan is leaving Los Angeles on 3/16/73 for Wounded Knee with medical supplies and food. It is known that the Indians possess a large amount of ammunition but there is no positive information to indicate that the ammunition will be transported in this caravan.

[redacted] was advised of the Bureau's instructions and the facts concerning the Indian caravan. He in turn discussed this matter with [redacted] in Washington. [redacted] then advised that as far as he was concerned, there could be no violation of anti-riot laws until the Indians had crossed the state line. Further, there is a question of intent which must be proven as a basic element of the violation.

b6  
b7C

[redacted] suggested that Bureau Field divisions covering the route of the caravan be alerted and that this situation be discussed with U. S. Attorneys in those divisions. He further requested he be kept advised of the details and the departure of the Indian caravan.

b6  
b7C

~~ASA~~ MOUNT C. DULINSKY, Las Vegas, was telephonically advised of the caravan and of the comments of [redacted]

# Memorandum

TO : ADIC, LOS ANGELES

DATE: 3/29/73

FROM : SUPERVISOR [redacted]

SUBJECT: WOUNDED KNEE

b6  
b7C

At 2:20 PM, 3/29/73, Bureau Supervisor JOHN SWARTZ, Division 6, telephonically advised that he wanted to alert the Los Angeles Division to a situation at Wounded Knee.

SWARTZ said that Los Angeles television station KTTV [redacted] appeared at the roadblock at 1:00 AM, 3/28/73, and claimed that he had been held as a [redacted] insurrectionists for three days. [redacted] related the following events which SWARTZ wanted Los Angeles to know about:

(1) DENNIS BANKS and RUSSELL MEANS both returned to Wounded Knee 3/26/73 after an absence of approximately two days.

(2) At 11:00 PM, 3/27/73, MEANS and BANKS confronted PEDRO BERSONETTE regarding the situation there. MEANS and BANKS contended that BERSONETTE's group had no right to negotiate the situation. A heated argument ensued and guns were drawn. After continued discussions, however, the dispute was apparently resolved.

(3) [redacted] described a white male known only as [redacted] had been firing at the Federal roadblocks with a 30.6 rifle equipped with a scope from the Catholic church tower.

b6  
b7C

(4) A twin engine Cessna airplane, red and white, had brought food and ammunition to Wounded Knee from Colorado.

SWARTZ said that a subpoena has been served on [redacted] and he wanted to alert the Los Angeles Office for any newspaper or television coverage that might result from [redacted] statements. The Bureau wants to know right away by teletype if there are any newspaper or television stories attributed to [redacted] regarding the Wounded Knee situation.

# Memorandum

TO : ADIC JOE D. JAMIESON (70-7253)

DATE: 3/30/73

FROM : SAC ELMER F. LINBERG

SUBJECT: WOUNDED KNEE

Reference is made to memorandum of SAC LARSON, 3/30/73, outlining a telephone call from SAC WILBURN K. DE BRULER at Wounded Knee. SAC DE BRULER telephonically contacted SAC LINBERG at 11:15 a.m., today, and referred to his previous telephone call to SAC LARSON. DE BRULER advised that the San Francisco Division will make five cars available, but no men and that the five Los Angeles Agents who are going to travel to Wounded Knee arriving there 4/2/73, should fly to San Francisco and drive five San Francisco cars to Wounded Knee. SAC LINBERG agreed and advised this would be done.

At 11:40 a.m., Bureau teletype to Chicago, Los Angeles, San Francisco, and Minneapolis dated 3/30/73, 1:01 p.m., came to the attention of SAC LINBERG. This teletype instructed Chicago, Los Angeles, and San Francisco to send five Bureau automobiles each to Wounded Knee. SAC LINBERG subsequently contacted SAC DE BRULER at 3:20 p.m. and called the teletype to the attention of DE BRULER who agreed Los Angeles should disregard sending its Agents to San Francisco to pick up five San Francisco cars and that the five Los Angeles Agents should bring five cars from Los Angeles to Wounded Knee.

DE BRULER indicated he would telephone San Francisco and advise them that San Francisco Agents should drive the five San Francisco cars to Wounded Knee and fly back to San Francisco, inasmuch as San Francisco is not being required to send any additional manpower to Wounded Knee at this time.

SUBJECT: WOUNDED KNEE

SAC WILBURN K. DE BRULER telephonically furnished on 3/30/73 the following rotation system concerning the contingent at Wounded Knee. They have authority to rotate 15 men at a time after they serve a 21-day tour. They are eligible for rotation after 21 days but due to the "interest" in getting out of the area, they draw names to see who leaves. They cannot reduce the number on duty and we are expected to continue with 20 on assignment.

The following are eligible for release on 4/3/73. Replacements should arrive in Rapid City, South Dakota on 4/2/73:

PILGRIMAGE TO WOUNDED KNEE  
April 20-22 Easter Weekend

The American Indian Movement (AIM) and the New Oglala Sioux Nation has called for a world-wide pilgrimage to Wounded Knee on April 20-22, Easter Weekend. They are calling for 300,000 people to join them at that time.

People who are into spiritual, social, cultural, and political liberation will gather from all over the world to share energy and knowledge at this important liberated zone. Conferences, meetings, prayers, and celebrations in which we can gather gentle strength necessary to win the self-determinist struggles we are engaged in everywhere are planned.

It will also be a time to be with our sisters and brothers who have fought and worked so courageously building a New Independent Nation at Wounded Knee. It is also an important demonstration of support, understanding, and solidarity with the Indian people in their righteous efforts to be free.

The FBI has surrounded Wounded Knee since its liberation on February 27th. If the pilgrimage is stopped by these forces of repression people can gather in the outlying Indian communities. Those who are willing can move against the FBI in a massive force of non-violent action.

People are immediately needed to spread the call for the pilgrimage to all parts of the North Country and the Midwest. We need to organize speaking engagements, seminars, and gatherings at every high school, university, church, union and community meetings in our region. We must turn every bus stop into a street meeting so that the truth about Wounded Knee and the Easter pilgrimage gets through to the people.

Leafletting, phoning, silk-screening, postermaking, and fund raising are integral parts of a people's victory. If you can lend a hand or an idea call or contact us at:

## WOUNDED KNEE BULLETIN

"The white man promised us that the land of the buffalo would be ours forever. Now he threatens to take that from us too. Shall we yield to them, brothers? Or shall we say to them, "You must kill me first before you take possession of my country!"

Sitting Bull

At Wounded Knee right now the Sioux People with the help of their Native American brothers and sisters are fighting for what is rightfully theirs according to treaties signed by them and the U.S. government — a sovereign Sioux Nation and the right to self determination.

The fact is that it is the U.S. government that precipitated the crisis at Wounded Knee by its shameless refusal to honor the terms of its own treaty with the Sioux Nation.

The fact is that it is the Bureau of Indian Affairs' use of puppet "leaders" like Dick Wilson, that has disrupted tribal affairs, despite the fact that the Sioux People have sought his impeachment on four occasions and have been frustrated each time by the government.

The fact is that the violent atmosphere at Wounded Knee right now is due to the presence of hundreds of armed U.S. marshalls and federal agents, and not by the Sioux who seek only to defend their rights AS DEFINED BY TREATY AGREEMENTS.

The Sioux demands are simple:

1. A review of all treaty rights between the U.S. government and the Indian nation.
2. A Congressional investigation into the BIA and its' close ally, the Tribal Council.
3. A U.N. investigation into the U.S. dealings with the Indian nation.

There will be no compromise on the right of the Sioux People to govern their own affairs.

What you can do:

1. Donate food, money, and medical supplies. Contact either Mill City, 2552 Bloomington Ave., Mnpls., 721-2072, or AIM, 553 Aurora, ST. Paul, 224-4395.
2. A struggle in solidarity with Wounded Knee is being organized in the Twin Cities. Contact either AIM or Mill City Foods.
3. Support the Easter/Earth Day Pilgrimage to Wounded Knee on April 20-22.
4. Pass this information on.

FOR 100 YEARS, THE SIOUX NATION HAS WATCHED AS TREATY AFTER TREATY HAVE BEEN MADE AND BROKEN AT WILL BY THE U.S. GOVERNMENT. THAT TIME IS OVER.

THE SIOUX NATION HAS RISEN UP AT WOUNDED KNEE!!!!!!!!!!!!

Enclosed for the Bureau are 5 copies and for each contiguous office one copy of a leaflet entitled, "Pilgrimage to Wounded Knee, April 20-22 Easter Weekend."

The leaflet notes that the Wounded Knee Supply Station is located in care of Mill City Foods, Minneapolis, Minnesota.

The March 8, 1973 edition of the "Minneapolis Tribune," a daily newspaper of general circulation at Minneapolis, Minnesota, described Mill City Foods as one of a loosely knit organization of food cooperatives in the Minneapolis-St. Paul, Minnesota area.

Recipient offices are requested to contact informants for identities of any individuals or groups who plan to attend instant pilgrimage and advise the Bureau and Minneapolis of any positive information.

[redacted] California, was interviewed at the Pine Ridge Jail, Pine Ridge, South Dakota, by Special Agent [redacted] concerning some items of baby clothes [redacted] in the car she was riding in and also a letter addressed to [redacted] stating that if he left Wounded Knee, he would not be arrested. [redacted] was presented with FD-395, Interrogation; Advice of Rights Form, which she advised she understood but refused to sign. [redacted] stated she had no idea who had put the baby clothes in the car. She stated she did not know anything about baby clothes.

She advised she entered Wounded Knee on about March 10, 1973, when the roadblocks had been lifted. She stated she entered Wounded Knee with her husband, [redacted]. Their purpose in coming to Wounded Knee was to bring food and medical supplies. She stated she is not an American Indian Movement (AIM) sympathizer or member but that her husband is an Indian and he also came to see what was happening at Wounded Knee. She stated when they attempted to leave, the roadblocks were up and were led to believe by the AIM leadership that if they left they would be arrested and charged with treason and might have to spend the rest of their lives in jail. She stated she became increasingly disgusted with the AIM Leadership, a feeling shared by her husband. She advised this day her husband approached someone from the Justice Department; she believes who had entered Wounded Knee as one of the negotiators. Her husband asked if it was possible for her and some of the ladies to leave Wounded Knee. This official was able to get her and the others in her party out of Wounded Knee, who are as follows:
