FEDERAL BUREAU OF INVESTIGATION

Date of entry 10/05/2017

On Wednesday, October 4, 2017, [redacted] white male, was interviewed at the Savannah, Georgia office of the Federal Bureau of Investigation (FBI) located at 2003 Chatham Center Drive, Savannah, Georgia 31405. [redacted]

[redacted] at Daniel Defense, 101 Warfighter Way, Black Creek, Georgia 31308. [redacted] office telephone number is [redacted]

[redacted] his mobile telephone number is [redacted] and his email address is [redacted]

[redacted] telephonically contacted FBI Special Agent (SA) [redacted] earlier on October 4, 2017 regarding information that Daniel Defense wanted to provide the FBI associated with the Las Vegas, Nevada mass shooting investigation. [redacted] provided the following information:

On Monday morning, October 2, 2017, [redacted] was contacted by the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) Tracing Center regarding four serial numbers of weapons that had been located by authorities in the hotel room where STEPHEN PADDOCK had gunned down several people in Las Vegas. [redacted] immediately created a report for ATF regarding the four serial numbers; which included two 5.56 rifles and two 7.62 rifles. [redacted] provided all of the information from their sales database regarding the four weapons and the wholesalers the weapons were shipped to. A couple of days after providing the information to ATF, [redacted] recalled that while gathering the information he did not check the serial numbers in Daniel Defense's safety notification database. The safety notification database is separate from Daniel Defense's sales database. It houses all information associated with Daniel Defense's safety notifications, more commonly known as a product "recall", by weapon serial number.

b6
b7C

According to [redacted] in June 2017 Daniel Defense issued an official safety notification regarding a bad disconnecter located in the fire control group of select 5.56 rifles. Upon searching the four serial numbers that had been queried by the ATF Tracing Center earlier in the week, [redacted] found one of the four serial numbers in the Daniel Defense safety notification database. The serial number was "DDM4123629", which

(U//~~FOUO~~) Interview of [redacted] on 10/04/2017 RE: Daniel Defense Weapon

Continuation of FD-302 of Information , On 10/04/2017 , Page 2 of 3

was a Daniel Defense M4A1 5.56 rifle. According to Daniel Defense records, PADDOCK submitted a return request associated with the aforementioned safety notification on or about June 2, 2017. The following information was submitted by PADDOCK for the recall:

- Name: STEPHEN PADDOCK;
- Address: 1735 Dell Webb Parkway West, Reno, Nevada 89523;
- Telephone Number: (310) 227-7094; and
- Email: centralpark1@live.com.

In response to the request, Daniel Defense sent a pre-paid packaging box and label to PADDOCK at the aforementioned Reno, Nevada address. According to [redacted] the specific information regarding the safety notification requested that the customer send back only the lower portion of the rifle and specifically requested that the upper not be returned.

b6
b7C

On or about June 23, 2017, Daniel Defense received the lower portion of the rifle without the buttstock attached. [redacted] stated that it was very common for customers to send back weapons for a recall without the buttstock. Daniel Defense repaired the bad disconnecter and returned the weapon to PADDOCK via FedEx to the Reno, Nevada address on or about June 27, 2017.

b6
b7C

The returned FedEx package, tracking number 7406 3236 1531, was delivered to the Reno, Nevada address on July 5, 2017. Because a weapon was shipped, Daniel Defense listed that an adult signature was required in the special handling instructions for the package. Per FedEx records, an individual named [redacted] signed for the package on July 5, 2017 at 1:58 P. M.

b6
b7C

SA [redacted] questioned [redacted] regarding the specific disconnecter in the fire control group which was the subject of the Daniel Defense safety notification. SA [redacted] specifically asked [redacted] that if any part of the fire control group had been altered, would the armorer have noticed and/or noted that in the Daniel Defense system when they processed the repair. [redacted] stated that if any alteration to the fire control group had been made, the armorer would have noticed, immediately stopped the repair process, and noted his/her findings in the system. Additionally, if any part of the fire control group was not a factory Daniel Defense product, the armorer would have noticed and taken the same action to stop the repair and note his/her findings in the system.

b6
b7C

[redacted] provided a document which listed all details of the repair regarding the aforementioned rifle. Under the section for the armorer,

there was no entry where any part of the fire control group had been changed in any way. Therefore, [redacted] opined that the fire control group, including the disconnecter, were unaltered factory parts when it was received from PADDOCK in June 2017.

b6
b7C

At the conclusion of the interview, [redacted] provided the following documentation [redacted]

- The safety notification detail report regarding the weapon;
- The customer order sheet and the pack list of the returned shipment;
- A copy of the FedEx delivery information sheet regarding the package that was sent back to PADDOCK [which includes a copy of [redacted] signature];
- [redacted]
- An email with nine attachments that detailed any and all communication that Daniel Defense had with the email associated with PADDOCK regarding the safety notification return.

At each step of the return process, an email is automatically generated by the system and sent to the email on file for the customer that describes the exact stage of the return/repair process the weapon is going through at that time [redacted] provided all of the system generated emails that were sent to PADDOCK during the return process. [redacted] advised that their records did not contain any replies to the automated emails from PADDOCK.

All of the aforementioned documents provided [redacted] are located in the 1A section of this case file.

Attached are 2 emails that were automated from our system to Stephen Paddock for the safety recall of his firearm. There were no responses from him back to us via email. I also included system records of the safety correction steps completed by our internal staff.

As I mentioned this safety notification was for the replacement of an out of spec disconnecter. See this link for a more detailed description of the issue. <https://www.danieldefense.com/safety>

Let us know if you require any further information.

Regards,

Stephen,

Thank you for contacting us to allow us the opportunity to inspect your lower receiver.

We have received your online submission and have generated a Return Material Authorization for your return. Your Return Material Authorization (RMA#) is: RMA 58830

Our team is working now to get a specially designed box shipped out to you to use for the return shipment of your Lower Receiver Group to make this return as painless as possible. You will receive an email with the tracking information for that shipment ASAP directly from UPS.

Once you receive this shipment, there will be a specially designed box for you to use for the return along with a pre-printed UPS label. All you will need to do is safely package your lower receiver in the box, seal the box with the provided tape strip, place the provided UPS return label on the outside of the box then drop your package off at your local UPS store.

Even though you are returning a serialized part you can ship directly to us and we can ship it back out to you with no FFL necessary; this is a warranty related issue returning the product to the original manufacturer. We will cover the insurance on the shipment. Our turnaround time is generally 10-14 days. Once the inspection is completed a Daniel Defense representative will contact you regarding action taken and your product will be sent out via FedEx Adult Signature Required.

Thank you, again, for allowing us the opportunity to serve you.

Thank you,

Subject: DANIEL DEFENSE SAFETY NOTIFICATION

Good Morning,

Thank you for being patient and working with us through this process. We have completed the repair on your return and it is now on the way back to you via FedEx Adult Signature Required to the address used upon submission. You should receive an email directly from FedEx with the tracking information shortly. As this is a firearm, we cannot ship to an alternate address.

We replaced the disconnect in your lower receiver(s) with a new disconnect then placed the lower receiver on our testing fixture to ensure the replacement disconnect completely eliminated the opportunity for any issues. Your product has been repaired and will no longer fall under the affected scope of this safety notification.

Thank you again for your patience and cooperation.

If you have any questions please don't hesitate to contact me directly.

Thank you for choosing Daniel Defense!

Best Regards,

FEDERAL BUREAU OF INVESTIGATION

Date of entry 10/05/2017

On October 3, 2017, Special Agent (SA) [redacted] and Task Force Officer (TFO) [redacted] requested, and were provided, a copy of security camera footage from [redacted] for Avis Budget Group, Inc., business telephone number (602)681-9589, cellular telephone [redacted] business address 1805 East Sky Harbor Circle South, Phoenix, Arizona. The requested video was from September 19, 2017, at approximately 3:17 P.M., wherein a vehicle similar to the brown, 2017 Kia Forte rented by Stephen Paddock, drove past a security camera as it exited the Payless car rental facility parking garage.

b6
b7C

Due to the quality of the video, both the license plate and rear Kia emblem on the vehicle are unreadable. In an effort to show that the requested video captured Paddock exiting the garage in a brown, 2017 Kia Forte approximately 3 minutes after Paddock retrieved the keys, interviewing Agents had Payless employee [redacted]

b6
b7C

[redacted] newly recorded video for comparison. Pictures of the comparison vehicle were also taken by SA [redacted] for enhanced detail of the vehicle's shape, tail lights, front passenger head-rest height, and other physical vehicle features. Additionally, a picture was taken from the rear of the vehicle with a passenger in the front passenger's seat to see if a passenger could be visible in the security camera footage.

[redacted] Arizona's Avis Budget Group, Inc. stated via email, received on October 4, 2017, that "I traced every single Kia Forte in our fleet to see if any other Forte left the lot at the same time or within an hour before or after Paddock rented. I did not find any other Forte during this time period that went out on rent."

b6
b7C

Note: [redacted] informed interviewing Agents that the time on the security camera that captured the video was not set correctly and that the time needed to be adjusted/converted to get the actual time. [redacted] I also met with [redacted] Paddock in on 9/12. He advised the check-in process was fairly routine, Paddock did ask what side the room faced, [redacted] replied that it was the south side. Other than that, no other questions, and just general banter about living in Mesquite. After that interaction, he departed to his room.

b6

Also, during the time he stayed here, he kept his DND (do not disturb) sign on the door, so no services were provided.

Thanks for meeting with us today. We will reach out tomorrow a little after 1600 so we can speak to [redacted]

We have heard that the Paddock tried to reserve 2112 for the time frame of the shooting, but the room was unavailable. Would it be possible to speak to the employee who spoke to Paddock? We would like to know his reaction when he found out he would not be able to get room 2112.

Thanks,

PADDOCK frequented the Atlantis, Peppermill, and Tamaric Junction casinos in Reno, Nevada, and was banned from all three. PADDOCK and other high rollers were frequently banned from casinos for playing well and winning large quantities of money. PADDOCK's preferred game was video poker, where he would bet \$200 or more, per bet.

In previous years, casinos treated the high rollers very well and would frequently treat them to free cruises, airline flights, penthouse suites, tours in wine country, and rides in nice cars. About three years ago, the casinos changes their views of how the high rollers would be treated and started banning them from certain events, hotels, and sometimes certain casinos.

[redacted] Mesa View Hospital, Mesquite, Nevada, mobile telephone number [redacted] was interviewed at her home located at [redacted]. The interview was conducted by SAs [redacted]. After being advised of the identities of the interviewing agents and the purpose of the interview, [redacted] provided the following information:

b6
b7C

[redacted] She has held a variety of [redacted] but in August 2016 she began working at Mesa View Hospital as [redacted]. She worked in that position until she took on [redacted] at the same hospital during the summer of 2017. [redacted]

b6
b7C

[redacted] stayed in a hotel in Mesquite, Nevada on October 2, 2017 instead of driving back to [redacted]. While in the hotel she saw a photo of Stephen Paddock. She did not recognize Paddock's picture and had never seen him at Mesa View Hospital. [redacted] advised that Paddock's name did not ring a bell and she was good with names. [redacted] had not seen a picture of [redacted] and she did not recognize [redacted] name.

b6
b7C

[redacted] was required to check the vital signs once per shift for any patient that was in the hospital on a "psychiatric hold" (sometimes referred to as a Legal 2000). If there is somebody in the ER on a hold, an employee must sit outside the door of the room where the patient is being held. That person was usually a security guard but it could have been just a staff member. If a psychiatric patient needed further treatment they would be sent to one of several facilities in Las Vegas.

b6
b7C

Since the incident in Las Vegas on October 1, 2017, nobody at the hospital had said that they recognized Paddock and nobody had said that Paddock was ever a patient at Mesa View other than [redacted]. [redacted] had heard from somebody that [redacted] had said that Paddock was a "frequent flyer", meaning that he was in the ER often.

[REDACTED] was asked about the possible shredding of hospital records relating to Paddock. [REDACTED] advised that whomever said that the hospital was deleting or shredding records was "full of crap". She further advised that even if you could delete a patient's file at the hospital, there are too many other entities that would have a record of Paddock visiting the hospital to include the laboratory, billing, x-ray. [REDACTED] believed it would be impossible to obliterate records. [REDACTED] felt that whomever was claiming that the records were being destroyed, "just wanted to be heard".

Las Vegas shooter's body was cremated

<https://www.reviewjournal.com/crime/shootings/gunman-in-las-vegas-shooting-worked-hard-to-cover-tracks/>

By Jeff German Las Vegas Review-Journal
January 17, 2018 - 5:00 pm

The body of Las Vegas gunman Stephen Paddock, the man behind the largest mass shooting in modern American history, has been cremated, his brother told the Review-Journal.

But the brother, Eric Paddock, said Wednesday that he has had a hard time over the past month getting Clark County Coroner John Fudenberg to deliver the remains to him in Orlando, Florida.

Paddock said Fudenberg told him Wednesday that he would not ship his brother's ashes directly to him, so Paddock is coming to Las Vegas to get them.

"The coroner seems to think that there has to be some chain of custody because of the criminal investigation," Paddock said. "But his remains have nothing to do with the investigation."

Fudenberg told Paddock that he would try to ship the ashes to the Orlando Police Department and then have the department deliver the remains to him, Paddock said.

But that did not sit well with Paddock, who said he was frustrated over his discussions with the coroner and his office.

"The coroner originally told me that he had constructed a plan to have the FBI deliver the remains and this was not the truth," Paddock said. "He told me he was going to do something, but he didn't have it in place."

Fudenberg had sent Stephen Paddock's brain tissue to Stanford University School of Medicine for a neuropathological examination to look for possible disorders that might explain his erratic behavior. On Oct. 1, Paddock fired into a crowd of concertgoers with high-powered rifles from his 32nd-floor Mandalay Bay hotel room, leaving 58 people dead and more than 500 others injured.

Eric Paddock said his family did not object to the Stanford examination of his brother's brain.

Fudenberg released a statement Wednesday afternoon.

"We are working to deliver the remains in a secure manner to ensure the suspect's next of kin receives the remains," he said. "Due to security concerns, we will not be discussing any details related to this."

"As you know, we recently released the cause and manner of death in this case."

In December, Fudenberg said publicly that the 64-year-old shooter, a high-rolling video poker player on the Strip, died from a self-inflicted gunshot to the mouth and ruled his death a suicide.

Police have indicated that Paddock killed himself as officers closed in on his hotel room.

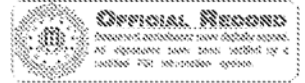

Eric Paddock said the family has not received any additional information, including an autopsy report.

“I have no knowledge of the autopsy report, neither the content nor the release date,” Paddock said.

Paddock told the Review-Journal that he does not intend to keep his brother’s remains at his home in Orlando.

“I’m putting the ashes in a safe deposit box in a bank in order to make sure that there’s no hoopla around Steve’s remains,” Paddock said. “I don’t want someone to do something stupid.”
