I noticed that Supreme Court nominee Brett Kavanaugh perjured himself several times when testifying before the Senate Judiciary Committee. There is evidence that he stole documents, and that Senate Republicans helped him cover up that crime. A witness testified that he attempted to rape her, and I don't believe you even tried to interview her corroborating witnesses. Does reporting a crime or offering evidence to you ever make a difference, or do you just bow to Republican pressure? (See release of 320 forms for Hillary Clinton testimony on email servers). I believe several million other witnesses can corroborate the crimes I witnessed.

I called the D C office and held until I got through to an agent today. She was just confirming my personal info and I had just started to give her the info I wanted to pass along when the phone went back to the recorded message. The info I wanted to pass along was about Dr. Christine Ford and that she may have given false information about herself when she first started to testify during the Senate hearings last week. I wanted to email this to the FBI because it is info that was forwarded to me by email. She said in her opening statement that her occupation is a psychologist. She has a degree as an educational psychologist but is apparently not licensed as a psychologist in California which requires much more training. She can teach but not treat without this license. Someone at Stanford realised this and changed the heading on her listing from psychologist to affiliate. If I could have an email address I would like to forward this email to you to see if it is of any importance. I tried to contact Sen.

Grassley's office by fax to see if I could get it to him but can only guess how many people are trying to contact him and didn't expect a response. I did not try to contact media because I knew it would not get to where it needed to go. I am not any kind of activist. I would be forwarding this regardless of who it might benefit. If I get the opportunity to forward this to you I have a couple of other emails I will forward to you that are kind of revealing. I did not dig this up. I wouldn't even know where to start. It was sent to me by friends,

I saw a man (Brett Kavanaugh) life under oath to the US Senate. It is easy to find facts which call in to question many of his statements. As he is already a federal judge and may be a Supreme Court justice. I feel the FBI must investigate.

suggests the FBI should investigate Google for suspicious activity that may impact the midterm elections.

This election interference may violate federal law. In particular, these actions might amount to obstruction of justice, because they can impact the capacity of Senators who are conducting related hearings to get accurate information. Please consider investigating.

I ask that the Senate not vote until after any investigation is complete by the FBI to assure lack of misuse of Federal Funds if the Department of Justice should find reason to not allow for any such appointment. I realize that I probably recognize Brett Cavanaugh from the Harvard area but I believe that he may be known from the Falmouth, Massachusetts area about 30 - 40 years ago, which would include 1982 and/or the time of the suggested incident spoken of at the hearing and possibly known to Stephen Colbert of Late Night close to the same age. I believe the area of the very small tennis club near Walker Street and Mill Road around the corner from what was then used by [redacted]

[redacted] If Cavanaugh offers all prior addresses of use to the Department of Justice, the Cape may be the place to look into if he is whom I can slightly remember. It is his voice that reminds me of someone whom threatened a few people not to speak of some incident in a summer of that time period. The color and tone of color, of the tie used by Brett Cavanaugh during the hearing, is one associated to persons known to be members of what is known as the [redacted] AKA other misspellings and is used in what is considered properties and businesses in Massachusetts, (including overtaken) used in commercials and TV signifying the relationship of the properties and persons to that group of persons also known in Commonwealth vs. [redacted]

I believe Judge Sara Day O'Connor may be of that same family and I hope that the Senate does not allow any conflicts of interest within our Justice Department especially immediately following a request for a "mistrial" where a Judge may be of the same family or "friends" (as in those Brett Cavanaugh "loves") as the Defendant in the requested mistrial possibly based upon errors of the court. I am concerned that there is a significant group of men whom torment women and others not showing sincerity to any member of their group and that the "Tone of Blue" such as in that tie signifies

I want to report suspected criminal activity. Congress recently ordered the FBI to investigate a perspective candidate for the Supreme Court. The FBI completed their investigation without even interviewing the two key individuals of the case and did it in just days. This can't possibly be a serious investigation and is obviously a circus sham. I want to have faith in my government agencies and give them the benefit of the doubt but things keep coming up which cast serious doubt upon the integrity of the FBI. The sham Kavanaugh investigation is just the most recent example. I've put extensive time into studying 9/11. There is simply no way the government is telling the truth about that. The roof of the WTC makes it to the ground in 10 seconds. This isn't up for debate, even NIST lists 10 seconds as the official collapse time. So even though the tops of the buildings fall straight down into their own supporting structures, they pass through the structure at a rate of

UNCLASSIFIED

UNCLASSIFIED

Re: 77N-HQ [redacted] SubPal, 10/05/2018

b6
b7C

acceleration, which would suggest the structure is no longer there. If the falling mass began engaging and impacting into the lower building it has to slow down. At least a little bit. Also even if this point isn't true, what about the maximum operating speed of a Boeing Jet below 1000 feet. NIST says the planes hit targets at 500mph. Boeing says the maximum operating speed for a jet below 1000 feet is 250mph. That's sort of a problem. Then we have missing suspects from the OKC bombing, we have a missile shooting down TWA 800, The Kennedy Assassination, MLK. I've put a lot of time into studying these things and it can't all be false. No way, the odds that it's all untrue is about zero. No way that many people would be delusional or lying. It's pretty clear that the FBI is the liar and that there really is a curtain with men behind it. Anyone who is an FBI agent has to know this truth. The information is out there and if one studies it with honest objectivity there is no way to dismiss it all. 9/11 especially. I've studied that enough that I'm totally convinced there is enough evidence to prove the government is lying, in a court of law, beyond a reasonable doubt, if given the opportunity. Building 7 falling at free fall, no one wants to talk about that and I can see why. The laws of physics are irrefutable and you all know that any peer reviewed investigation that wasn't controlled by the government could only conclude demolition. It's the only explanation that stands up to scientific scrutiny. It's really sad to know that the FBI doesn't represent me or my fellow citizens. Well, just keep on serving your elite masters and betraying your country. You've gotten pretty good at it from all indications.
