Staten Island, New York, advised that she could not give an estimate as to the average number of vacant apartments at the beginning of each month at the Tysens Park Apartments, nor could she furnish an average number of apartment turnovers at the apartment complex. She estimated that there were approximately 20 applications submitted on a weekly basis to the Trump Management Company Central Office and that 90% of these applications were approved by the Central Office. She said that more than half of the applications submitted were from black applicants. She said that about 25 persons came to the Rental Office each week inquiring about renting an apartment, but she could not estimate what percent of these persons were black.

Knew of no policy on the part of Trump not to hire black or Hispanic superintendents or doormen. She knew of no code referring to a black applicant and no policy showing preference to rent apartments to Jewish persons or executives. In her capacity in the Tysens Rental Office she was not allowed to make any decisions concerning an applicant's financial qualifications, but such decisions were made by the Central Office in Brooklyn. She accepted an application from anyone interested in renting an apartment at Tysens and was never instructed to do otherwise by anyone connected with the Trump Management Company.

He stated that the unsatisfactory conditions concerned the constant badgering he received from Trump Management who expected him to act as rental agent with the goal of full occupancy at Laurence Gardens, which he did not consider to be part of his duties as a superintendent.

He stated that while employed at Laurence Gardens, he would follow a set procedure with regard to all prospective tenants. He stated that prospective tenant would tell him what type of apartment they required, i.e., size, floor plan, etc., and that he would then show the prospective tenant vacant apartments which met their needs. He stated that if the prospective tenant liked the apartment, he would then give them an application which he would personally carry to the Trump Rental Office.

He advised that all applicants were shown all vacant apartments fitting their needs and that all applicants who desired a rental application were provided one.

He advised that he was not authorized to nor did he ever advise a tenant that they were or were not acceptable. However, he did stated that there was an understood requirement that a prospective tenant would have to have an income high enough so that the monthly rent payment for the apartment applied for would not exceed twenty-five percent of the renter's salary.

He advised that when he brought the application to the rental office, he never advised anyone at the rental office, either verbally or in writing, as to the race or any other characteristics of prospective tenants. He added that this was never asked of him either, by anyone at the rental office.

He stated that he as unaware of any requirements placed on prospective renters by the rental office other than that the applicant had to be at least 21 years of age and that his monthly rent could not exceed twenty-five percent of his salary. He added that he believes that the rental office also desired at least two years continuous employment by applicants, but does not think that this was an inflexible requirement.

He stated that he is not familiar with how the rental office went about checking out desireability of applicants or how they were approved or rejected as tenants.

He stated that the only way he knew an applicant was to become a tenant was when he received a copy of the lease to be executed by the applicant which was sent him by the rental office.

He advised that he was never given any instructions for procedures to be followed in renting to blacks or Puerto Ricans.

He stated that he never maintained a "phony" lease or check for the purpose of showing that a vacancy had been rented when a black or Puerto Rican inquired about an apartment.

He stated that during the time of his employment, of the approximately 225 apartments at Laurence Gardens, approximately six apartments were occupied by black and Puerto Rican families, adding the makeup was four Puerto Rican and two black families.
He advised that he knows of no instance where an applicant was denied residence because of race or color and could not provide the name of anyone he believes has information of possible racial discrimination by Trump Management.
