## Super Police Need Teaching

As Sen. Robert C. Byrd observed in a letter to FBI Director Clarence Kelley, the nation's law enforcement agencies for years have instructed American citizens to keep their doors closed to strangers and to demand credentials from persons who identify themselves as policemen.

When a young Wheeling woman living in Alexandria, Va., did exactly that, FBI agents forced their way into her apartment, their guns drawn, and frightened her half out of her wits.

The agents were acting on a tip that Patricia Hearst was sharing the apartment. It turned out that the Wheeling woman's roommate looked somewhat like Patricia Hearst.

We cannot understand why the agents didn't properly identify themselves when asked to do so. It would have taken only a moment to do so, and it is improbable that anyone could have used that moment to escape from the apartment. In the television shows, at least, all exits are placed under observation before FBI agents knock at the front door.

Sen. Byrd was right to chastize Kelley. The record shows that America's super police and espionage agencies are in need of instruction in the area of civil rights.

The philosophy, or theology, or whatever you want to call it, of Sun Myung Moon, although disguised in the rhetoric of religion, is a program for political revolution. The major thrust of the book, The Divine Principle, which is a kind of Bible for the members of the Unification Church, is to prove that a new political order must be achieved to prepare for the Second Advent, and this new government will come about as the result of the Third World War.

The title page of The Divine Principle does not list an author, but a picture of Moon precedes the table of contents, and so most people assume that he wrote it. Another Church publication, Communism - a Critique and Counter-proposal, by Sang Hun Lee further describes the plan for revolution and explains how the new society will function.

The Divine Principle is published by the Holy Spirit Association for the Unification of World Christianity. Communism - a Critique and Counter-proposal is published by the Freedom Leadership Foundation, Inc. Both publishing houses are owned by the Unification Church. When quoting I shall use D.P. to indicate The Divine Principle and C.C.C. to indicate Communism - a Critique and Counter-proposal.

According to The Principle the devil has been one step ahead of God at every turn. Adam was supposed to set up the Perfect Family, but the devil stepped in in the form of the serpent and destroyed the possibility of a perfect union. Christ was supposed to marry and set up the Perfect Family, but the Jews killed him before he fulfilled his mission. Moon has now established the Perfect Family, and all his recruits are brothers and sisters in

this family with Moon and his wife as their Mother and Father. Presumably he will function as leader in the new social order.

Opposite page 446 in D.P. is a chart which shows the history of religion, the history of politics, and the history of economy. The purpose of the chart is to show that now the time is ripe for the new Messiah. ~~Democratic society can now move into the socialistic society which will prepare for the Second Advent.~~

~~"The significance of politics in the Providence is to lay a foundation for receiving the Messiah by unifying religions and economics."~~ (C.C.C., p. 169) "Providence" is a favorite word in

the Church. It implies the inevitability of God's will and His plan for the future of mankind.) This socialistic Utopia is rather vaguely described: "So there should not be any competition over the market because of excessive production, nor any accumulation or excessive consumption which would bring obstruction to the purpose of life of the whole, due to unfair distribution. There must be a necessary and sufficient amount of production, distribution in fair and proper quantities, and reasonable consumption for the general purpose...." (D.P., pp. 443-4). Such a socialistic society will come and will be the ideal world in which God's kingdom can be realized.. ~~Democracy has served its purpose in replacing monarchism.~~

~~archism.~~ The Heavenly side will break down the imperialistic economic system in which the state property is owned by a certain individual or class, and will establish a system of economy in which all people may equally enjoy the wealth. (D.P., p. 445)

When the problems of religion and science have been solved by uniting them in the dogma of the Church "Then there will come a political society in which all mankind, having been unified into the heart and bosom of God through the religion based on truth

will realize the ideal of creation on the economic foundation centering on God's ideal." (D.P., p. 446)

"Now that time has arrived, and before too long the day of the Second Advent will come. The ideal world of creation will arrive which has long been the dream of mankind, and it will be the world of freedom, peace, and prosperity. This is the Unification view of the history of the chosen people." (C.C.U., p. 172)

The "law of give and take" is a favorite theme. "Even in history it is through the action of give and take between the central leader and the masses or between the central figure and the social, material conditions, that the development of history has come about. And in this case, the idea or intention of the central figure (leader=Moon) is the subjective (active) factor whereas the populace is the objective (passive) one." (C.C.C., p. 176)

Moon uses the terms "Cain-type" and "Abel-type" to identify the evil and good groups. But the groups change their colors sometimes. For instance, when Hellenism was arraigned against Hebraism, the Hebrews were good guys. But after Christ was crucified the Jews were bad guys. There are two types of democracy: ~~the "Cain-type" is French and the "Abel-type" is Anglo-American.~~

Everything comes in threes for Moon. There have been three revolutions in the three fields of religion, politics, and industry. Each has had three stages. In religion we have had ~~the first religious reformation under Luther, a second one centering around Wesley, Fox, and Swedenborg, and then the third one which is~~ ~~in the offing~~ (D.P., pp 473-4)

Politically we have moved from the feudal society through a monarchic society. Now we have communism and democracy confronting one another. ~~Out of the conflict between these two will come the new socialistic theocracy which Moon will set up.~~ The Divine Principle hints at this, but the leader of the camp I attended spelled it out in no uncertain terms: "Communism and democracy will destroy one another," he said, " ~~and a new system must be established. We must have a new system - political, ideological, economical (sic) - united~~ a totally new culture, total unity. Even now (January, 1975) he (Moon) is meeting with world-wide leaders to discuss the economy. He is working out his political system."

Moon puts it this way: "Now through the third religious reformation to come, the democratic world of the Heavenly side will subjugate with ideology the communist world of the Satanic side. These two worlds will necessarily be united into one Kingdom of Heaven on Earth, centering on God." (D.P., p.474)

In addition to the religious and political reformations there will be an economic, or industrial, revolution. It, too, has had to go through three stages. "The first industrial revolution originated in England as a result of industrial development through steam. Immediately afterward the second industrial revolution, through electricity and gasoline, broke out in many advanced countries. ~~Now a third industrial revolution, based on atomic energy, will arise, and this will create throughout the world a very blessed social environment for the ideal world.~~" (D.P., p.474)

When the third stages of these three revolutions have

been reached, then we shall have achieved the ideal society and can establish Heaven on earth with Moon as our leader.

Three great world wars are necessary to smite Satan just as Jesus was tempted three times by Satan. Two of these wars have taken place. ~~A third one is inevitable to prepare for the Second~~

~~Coming.~~ Democracy, after World War II, is like a fallen man who has no contact with God. Using the analogy of the bodily system, he says our government is ~~"like a man whose nervous system has~~

~~been severed from the brain."~~ Therefore, the purpose of the ideal of the Second Advent of the Messiah is to make the ~~present political system now resembling the structure of a fallen man - "display perfectly its original function centering upon God's will by connecting it to the perfect central nerve"~~ (D.P., p. 471) In other words

our system could go on functioning as it is, only with the Messiah at its head. The "Glorious Revolution" came about in England because the citizens wanted to be liberated from the great class of landowners, the rich and powerful monopolists and to establish freedom of faith. (D.P., p. 468) Like the Dutchman, William of Orange, Moon will step in and save the U.S.A.

According to Moon the Second World War has set the stage for the Second Coming. "Many people have therefore received revelations concerning Christ coming again, and spiritual works occur a;; over the world. At the same time, all the established religions will be secularized in increasing chaos and decision, losing their religious power. This is a latter-day phenomenon occurring due to God's final providence for the unification of all religions through a new and ultimate truth." (D.P., p. 490) (The Unification Church does not, however, aspire to unite all religions, but to unite all

people in the Unification Church whose leader will unite the world in one organization, combining politics, economics, and religion.)

The Third World War is inevitable. It may be fought with weapons, or it may be an ideological one. "...at the consummation of human history, both the Heavenly side and the Satanic side must come to dominate the world in their respective ways. Thus, the two worlds of democracy and communism will stand together. For the final separation and unification of these two worlds, there should come world wars. The First and Second World Wars having been the wars to divide the world into the two worlds of democracy and communism, the war for the unification of these two separate worlds must come next." (D.P., p. 491) Of course, it would be best if the takeover could come without bloodshed. But that is unlikely. "...it is a fact, historically proven, that there has not been one ideology among the many existing in the democratic world that can subjugate the communist ideology." (D.P., p.492) And so a new truth must be found. "Such a new truth, when it should come, will conflict with the old ones which many people have until now believed to be true. So even in today's democracy, people will be divided into two groups of the different standpoints of Cain and Abel, fighting with each other. Nevertheless, when this new truth establishes a victorious basis in the democratic world and further subjugates the communist ideology, the one world under this one truth will finally be realized." (D.P., p. 492) "...the question of whether the Third World War is to be waged by force of arms or by an ideological battle will be decided according to the success or failure of man's carrying out his own portion of responsibility in fulfil-

~~King God's providence of restoration.~~ However, regardless of the type of battle to be fought, there will undoubtedly be one more world-wide war." (D.P., pp.493-4) ("~~Providence of restoration~~" ~~is Moon's term for the inevitable revolution.~~)

For this war the Rev. Moon is assembling an army of young men and women who will fight fanatically for him. "Many (former members) have said they could easily kill if they were told by the church to kill," Dr. Clark said. (Washington Post, August 20, 1975.) "Since Christ will come again, born in flesh on earth, he will look like a heretic to the saints who believe in his coming again in the clouds. Therefore, anyone believing in and following him will have to risk his life." (D.P., p.507)

The leader of the camp said: "You must deny all your possessions, deny all your physical desires, in order to receive the Messiah and ~~finally you must deny your life.~~ You must earn the right to be called sons and daughters. ~~Until we reach the point of perfection, we represent Satan. We must unite and give total obedience, total surrender to the person who symbolizes the Messiah.~~" (i.e., the leader of the group.)

First they will take over the United States government because ~~"we must have a God-centered government."~~ The members of the Church will then take over the important jobs. Although he is a German alien, the leader of the camp said he would go into politics. (A large proportion of the leaders are German or Austrian.)

"Most of us," he said, "aspire to be nothing more than teachers." This information made a deep impression on the group of recruits.

"Doesn't this just blow your mind?" one asked me. "Yes, it does," I answered.

I asked another recruit if he went along with the business of overthrowing the government, he said, "~~It is God's will, what difference does it make?~~"

The funds available to the Church appear to inexhaustible. They have numerous vans, cars, even jet planes to take them all over the world. When members are working at centers in the city, they stay in hotels. In Los Angeles alone they have four such centers that are very plush, in addition to a camp in the ~~San Bernadino Mountains~~. The members have nice clothes, good food and medical care when they need it. All this is provided by the Church. If they have any money, they are supposed to give it to the Church, but if they don't - and most don't - it does not seem to make them any less reliable as recruits.

For a "Christian" church their language is strange. They pray constantly, but always to "Father" and "the Living Christ". Jesus is almost never mentioned. The dogma is full of glaring contradictions: although the proof of the imminent advent is based upon the Bible, when asked about certain passages in the Bible, the teacher said: "You must not take the Bible too seriously." The teachings appear to vary from camp to camp; some leaders emphasize one aspect, others another. ~~One gets the impression that as a religion the details have not been carefully worked out, and there is a wide variance of belief among the believers.~~

Morally, too, the Church's teachings are unusual ~~this is~~ ~~all right to lie if you are doing it for the church.~~ Such lies are "heavenly deceptions". Although they are not supposed to be interested in the "materialistic" world, they are very impressed if the recruits are wealthy. "He is from a very rich New York.

of politics more than

main attractions of the Church for many young people is the promise of escaping from a competitive world, but after they join there is pressure to try to outdo one another in showing excessive devotion and capacity for sacrifice. The pecking order is very strong, and backsliders are chastised openly. Anyone who asks embarrassing questions at the lectures is put down with scathing ridicule, and all the others attending laugh cruelly at the ignorance the questioner has displayed. A spirit of love and brotherhood does prevail among the recruits, but the leaders remain aloof and difficult to talk to. I was told not to bother them with too many questions because they were "too busy".

When asked where these unlimited funds come from, they sometimes say fund-raising, or from vast industries and businesses which Moon runs in Vietnam and Japan. ~~One of these industries is an armament factory, an unusual business for a man of God.~~

They also give conflicting statements about how many members are in the Church. The numbers range from ~~20,000 to~~ ~~2,000,000.~~ Other organizations aligned with the Church are the Freedom Leadership Foundation, One World Crusade, International Cultural Foundation, the Christian Crusade, the World Freedom Institute, ~~the D.C. Striders Track Club,~~ and the Society for a Moral World. Individual members of these groups may deny any connection with Rev. Moon's sect. According to the leader of the camp ~~attended they also anticipate support from fundamentalist groups.~~

The number of people who have been married in mass ceremonies by Moon is also unknown. Some say about 2000 couples; others say about 7000 couples. ~~These men and women do not choose whom they will marry. They are matched by the leaders, always~~

with aliens. ~~This allows them to have dual citizenship.~~ Currently they are working for permanent visas so that they can move freely from country to country. The Church frowns on sex. Recruits are made to swear to refrain from all sexual activity.

Even the marriages will not be consummated until the Messiah is accepted. This fact is a closely-guarded secret from out-siders. Recruits and members are never allowed to be alone or with other recruits. A member of the staff is always present. Many letters to members from family and friends are not delivered. Telephone calls are always monitored.

When I pointed out that messiahs usually depend upon some miracle to substantiate their validity, I was told that "the strength, vitality and size of the Movement was the miracle that ~~would convince the world that Moon was indeed the Messiah.~~"

The real miracle is that these intelligent, educated, affluent (at least three-quarters of the recruits are from upper-middle-class homes) and talented young people are transformed into mindless zombies, incapable of coherent thought or logical reasoning. How are they changed into robots who repeat the Church's teachings as if they were hypnotized and who will cheerfully lie and kill for their leaders? Any deviation is ascribed to "the force of Satan." ~~Suicides and accidents are attributed also to Satan.~~ When I pretended that I, too, was "spiritual", ~~the leader of the camp was not convinced.~~ He looked at me with a long, hard look and said: ~~it is dangerous to be too spiritual. It can mean death.~~

REL

FF  
[Redacted]  
Oak Hill, W. Va.  
Dec. 20, 1975Senator Robert Byrd  
Senate Ofc. Bldg.  
Washington, D.C.

Dear Sir:

I am a school teacher and liberal being illegally harassed by some sort of radar surveillance. I have sought help but no help seems available; therefore, this letter to you. Actually, I am being physically injured by this surveillance.

Since I do not advocate violence — and never have  
advocated violence — radar surveillance of me and my  
property (a house in Oak Hill) by the FBI (or CIA) is,  
according to my knowledge, illegal.

I am a ~~Communist~~ Socialist. This is my Constitutional right. Till the Socialist parties are legal; even the communist parties are legal. I do not belong to any of these political parties. I have voted Democrat all my life. I do believe, however, that if God loves all (and not just the privileged few) capitalism is a grievous error in His holy sight, producing, as it does, with callousness & glee, the rich at the top at the expense — & over the bodies & souls of — the poor at the bottom picking up crumbs from the rich man's table, Lazarus fashion. I work hard at promulgating my belief, talking personally to people on the streets, and handing out leaflets (my own) over

when possible. As I understand it, this is my Constitutional right.

Radar surveillance by the FBI allegedly "affects the eyes and the sex organs." I gleaned this information from the editorial page of the Charleston (W. Va.) Gazette some time ago in a column by a writer whose name I forget. (It could have been Jack Anderson). The story goes that the Americans had placed an electronic surveillance on the Russian Embassy. Some one had the courage to ask: "But won't this hurt the Russians?" The answer was, lightly: "Oh, it will affect their eyes and sex organs!"

In another column in the same paper, later, I read more about the eye problem under radar influence. It seems that the marines whose work was handling the ship's radar were getting cataracts on their eyes. Complaining to the top echelon did no good. So the boys went on working & getting cataracts on their eyes.

I am being fast demolished by radar surveillance. I heard from two sources: "They are trying to kill her!" This I did not believe at first but I feel sure of it now. (It sounds like something by the CIA, which, as I understand, has no conscience, & indulges in assassinations of liberals. It could be in connection with a private firm - or firms - in Oak Ridge, Tennessee. I have reason to eye with suspicion Little Oak Realty, Young & Sons, and the Piece Goods Shop in or near the shopping center in front of my house.

I have every reason to believe that I am being murdered by atomic radar surveillance in which the victim can be seen in his house (even in his bath - horrors!) and in which injury can be specifically directed at will to any part of the body - inside or outside. I got this information from a student majoring in radar at Washington Univ. in Seattle, Washington; and also, in casual conversation with a gentleman in the lobby of Halley Hotel, Charleston, W. Va., who told me: "yes, injury can be directed. The equipment needed to inflict such injury would be in a huge truck. The expense would be terrific!" The injury can come, also, I find, from a small car, several blocks away. They "see" me, in my house, with some procedure or equipment connected with terrific noise. There is a new small car on the market whose engine makes a frightful noise - as though to wake the dead. These are used - even several blocks away. I should prefer not to tell you, at this point in time in a letter, the extent of my physical injury. This (atomic?) horror seems to be connected with electricity - the electric wires - That would make it nation wide, I surmise.

I took my problem to the FBI in Charleston (one.)

housed in the new federal building on West Quannei.  
 A fellow named [redacted], dark, youngish, slightly  
 answered my questions and told me that the FBI  
 would investigate the matter only if I could get  
 my doctor to attest to his belief that my injuries  
 were caused by radar. (My doctor refused to become in-  
 volved, although he had to send me to a hospital  
 with my feet hideously burned, swollen, & peeling.)  
 I did not mention atomic radar surveillance to  
 [redacted] I simply told them that I believed that  
 electronic radar was injuring me & would he please  
 investigate. (I must add that this man's dislike for  
 me was almost hate. I had never seen him before).  
 I had reminded him, sharply, of course, that since I  
 did not advocate violence to achieve division of wealth,  
 I could take the FBI to court for overstepping its  
 charter — if, indeed, I were under <sup>FBI</sup> surveillance.

This may be important: Near the north end of a  
 shopping center in Oak Hill is Young's Floor Covering  
 Three or four years ago [redacted] added an extension to the  
 back of his store. I believe it possible that this extension  
 houses some sort of atomic equipment for surveillance  
 of my house, just behind & across the street. I saw strange  
 equipment go into the ground, under the northwest corner of  
 the foundation of the extension, and, possibly the roof area.  
 One half of the extension (a large room or garage) has a double  
 wall with perhaps a yard of space between. This may, or may  
 not be significant. Is there anything you can do to help me?  
 Respectfully, [redacted]

Honorable Robert C. Byrd  
United States Senate  
Washington, D. C. 20510

Dear Senator Byrd:

This is in response to your letter of December 23rd  
on behalf of [redacted] of Oak Hill, West Virginia.

If [redacted] has reason to believe that her home  
is subject to some form of electronic surveillance other  
than telephonic, she should contact an independent electronics  
expert who would be qualified to make the necessary technical  
examination of her home for any listening devices. If an  
electronic device is found, she should then notify our office  
located at 1300 Federal Office Building, Pittsburgh, Pennsylvania  
15222, telephone number 412-471-2000.
