Assistant Attorney General Henry Petersen, Criminal Division, today called to advise that he was concerned with leaks to the press of information concerning captioned matter and he would like to have an electronic sweep made of his office. It is to be noted we previously made a similar sweep of Assistant United States Attorney Earl Silbert's office and Mr. Petersen made mention of this fact.

RECOMMENDATION: It is recommended that the Laboratory contact Mr. Petersen and arrange for the requested electronic sweep of his office.

SECURITY SURVEY

In keeping with your request of October 24, 1972, Special Agents of the FBI Laboratory conducted a microphone and telephone security survey of your suite of offices on October 26, 1972. All telephones were searched for listening devices.

The physical search during this survey was limited to the most likely places a listening device could be hidden without defacing office walls and furniture.

I am pleased to advise you that no evidence of eavesdropping devices or tampering was found at the time of this survey.

NOTE:

See cover memo W. W. Bradley to Mr. Conrad, dated 10/26/72.

ELSUR, BERNARD L. BARKER, ET AL., BUDED: OCTOBER ELEVEN, NEXT.

RE BUTEL TO ALBANY OCTOBER SIX, LAST.

CONCERNING BERNARD L. BARKER, AKA FRAN CARTER, THE SPECIAL INDICES OF THE SAN FRANCISCO OFFICE FAILED TO REFLECT THAT THIS INDIVIDUAL, (A) WAS PRESENT AT OR PARTICIPATED IN ANY CONVERSATION OVERHEARD ON AN ELECTRONIC SURVEILLANCE CONDUCTED BY THIS OFFICE, NOR, (B) HAS HE EVER BEEN THE OWNER, LESSEE, OR LICENSEE OF ANY PREMISES ON WHICH THIS OFFICE HAS HAD AN ELECTRONIC SURVEILLANCE. IN VIEW OF THE FOREGOING ITEMS (C) THROUGH (F) ARE NOT APPLICABLE. NEITHER BARKER NOR ANY PREMISES IN WHICH HE HAD PROPRIETARY INTEREST HAVE BEEN THE SUBJECT OF ANY LAWFUL ELECTRONIC SURVEILLANCE. NO SUCH SURVEILLANCE HAS BEEN CONDUCTED PURSUANT TO THE PROVISIONS OF PUBLIC LAW NINE ZERO THREE FIVE ONE. IN ADDITION, BARKER WAS NOT COVERED BY TITLE III.

DEPARTMENT OF JUSTICE

Memorandum

TO : Acting Director
Federal Bureau of Investigation

DATE: October 5, 1972

HEP:PTW:lrt
177-012

FROM : Henry E. Petersen
Assistant Attorney General
Criminal Division

SUBJECT: ELECTRONIC SURVEILLANCE
Bernard L. Barker, et al.

EP. The individuals on the attached list are the subjects of an indictment in the District of Columbia, involving violations of 18 U.S.C. 2511 and 371, 22 D.C. Code 1801(b), and 23 D.C. Code 543(a). The indictment alleges that the violations occurred in June, 1972.

Would you please supply us with electronic surveillance information pertaining to the individuals on the attached list, following the form set forth in our memorandum to you dated April 16, 1969.

We would appreciate your furnishing Mr. Earl J. Silbert, Principal Assistant United States Attorney, District Court Building, Washington, D. C. 20001, with the following, should your files reveal that the individuals or the premises in which they had a proprietary interest were subjected to electronic surveillance:

1. Logs disclosing the conversations of the defendants and logs of any of the premises in which they are or were the owners, lessees, or licensees;
2. Any airtels which expand or summarize the portions of the logs disclosed unless fully reflected in the logs themselves.

LAW
NINETY
10/11/72

3. Any memoranda, including reports to the Department of Justice, which expand or summarize the portions of the logs mentioned above or which demonstrate pertinent leads which may have come from the illegal electronic surveillance.

It is also requested that you advise us whether the defendants have been subjected to any lawful electronic surveillance, including such surveillance where one of the parties may have consented to the surveillance, as well as any surveillance conducted pursuant to the provisions of Public Law 90-351.

If your records indicate that the individuals have used names other than those given, please check your electronic surveillance indices with respect to the additional names.

SI-113

REC-63

With approval of the Acting Director, tests were conducted on 10/16/72, from 8:40 a.m. to 1:30 p.m. by SAs William E. Harward, Joseph B. Parsons, George O. Vervan and William C. Johnson of the Laboratory and SAs Edward R. Leary, Robert E. Lill, C. Earl Shaw, Dennis F. Hoffman and Michael J. King of the Washington Field Office.

19 NOV 1 1972

The tests were conducted to determine how well radio signals radiated from the Democratic National Committee Headquarters area, using the miniature transmitters associated with the captioned cases, could be received individually with a CRI radio receiver system in Rooms 419 and 723 of the Howard Johnson Motor Lodge. For the information of Washington Field, the tests further indicated that the received signal level of Q1 was less than the signal levels received from Q3, Q4 and Q5.

Signal strength readings for each individual test are a matter of record should these figures be necessary.

Except for occasional brief periods the tests conducted from the offices of R. Spencer Oliver and Mrs. Harriet Cipriani were observed by Mr. Oliver, J. Alan Galbraith, SAs William E. Harvard, William C. Johnson of the Laboratory and Edward R. Leary, Robert E. Lill and C. Earl Shaw of Washington Field Office.

Receiving tests conducted in Rooms 419 and 723 of the Howard Johnson Motor Lodge were observed by SAs Joseph B. Parsons, George O. Verven of the Laboratory and Dennis F. Hoffman and Michael J. King of Washington Field Office.

Other persons observing part of the tests conducted in Mr. Oliver's office are Marie Elise Haldane, Secretary to Oliver, James Flug, Chief Council, Senate Sub-Committee, AUSA, Donald E. Campbell and Mrs. Cipriani.

Permission to use radio frequencies for the test between 110 and 130 MHz, was secured by Laboratory Supervisor Ernest J. Landreville. Necessary arrangements and security was provided by Washington Field.

Honorable Edward M. Kennedy
Chairman
Subcommittee on Administrative
Practice and Procedure
United States Senate
Washington, D. C. 20510

Dear Senator Kennedy:

This is to acknowledge receipt of your letter dated October 27, 1972, requesting that you be notified as soon as the whereabouts of Donald M. Segretti is determined.

Assistant United States Attorney Earl J. Silbert, Washington, D. C., on October 20, 1972, in connection with the then scheduled November 15, 1972, trial of the individuals indicted relative to the burglary of the Democratic National Committee Headquarters, requested the FBI to locate and serve a subpoena on Donald M. Segretti.

On October 30, 1972, subsequent to the trial date being changed to January 8, 1973, Assistant United States Attorney Silbert advised the FBI to discontinue its efforts to locate Donald M. Segretti. Accordingly, the FBI is not now actively seeking to determine the whereabouts of Mr. Segretti.

Sincerely yours,

CB:DC

(PURSUANT TO SEC. 1, S. RES. 32, 90 CONGRESS)
WASHINGTON, D.C. 20510

October 27, 1972

Honorable Richard Kleindienst
Office of the Attorney General
Department of Justice
Washington, D. C.

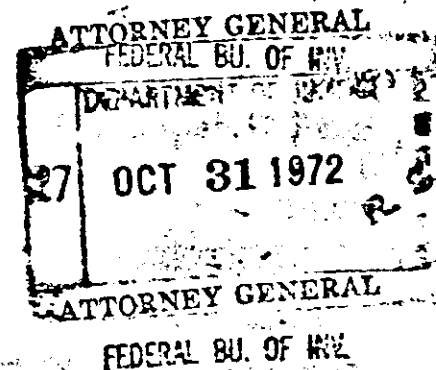

Dear Dick:

On October 23 the Subcommittee on Administrative Practice and Procedure orally requested the assistance of the FBI in locating Donald H. Segretti. Pursuant to the suggestion of the Bureau, on October 24 I sent a letter to the Acting Director confirming the prior request. The Acting Director, on October 26, replied that Congressional requests for FBI investigations should be addressed to you.

In the meanwhile, I have determined that on or about October 26 the Bureau in fact initiated efforts to locate Donald Segretti. Any request for a separate effort on the Subcommittee's behalf would therefore be redundant; however, I would appreciate being notified as soon as Mr. Segretti's whereabouts is determined.

Sincerely,

Ed Kennedy

COMMITTEE HEADQUARTERS, WASHINGTON, D.C., 6/17/72

UNSUB(S); MINIATURE FM TRANSMITTER FOUND ON TELEPHONE OF

R. SPENCER OLIVER, DEMOCRATIC NATIONAL COMMITTEE HEAD-

QUARTERS, WASHINGTON, D.C. 9/13/72, IOC

10/1/72 and 9/18/72.

- Q1 Miniature frequency modulated transmitter (139-4136)
Q3 - Q5 Three frequency modulated transmitters (139-4089)
Q6 Microphone transmitter (139-4089)
Q99 Radio receiving system CEI, RS-III-1B-12 (139-4089)

Results of Examinations

On 10/16/72, tests were conducted from the offices of R. Spencer Oliver and Mrs. Harriet Cipriani located in space leased by the Democratic National Committee Headquarters (DNCH), on the 6th floor of the Watergate Apartments, Washington, D. C.

The equipment used to conduct the tests consists of the following: The telephone removed from the office of Mr. Oliver on 9/13/72, the telephone on the desk of Mrs. Cipriani, the CEI, radio receiving system designated Q99 in Bureau file #139-4089, miniature transmitters designated Q1 in Bureau file #139-4136 and Q3, Q4, Q5 and Q6 in Bureau file #139-4089.

From results of the tests it was determined that all transmitters tested from the above offices could be satisfactorily received in Rooms 419 and 723 of the Howard Johnson Motor Lodge located across the street from the DNCH.

It should be noted that a transistor in Q1 was defective when found. For test purposes the defective transistor was replaced by a new one of the same type and made by the same manufacturer as the original.

The evidence is being returned to you via personal carrier.

Re WFO teletypes October 4, 1972, and October 13, 1972, requesting testing of the devices recovered in both of the above-captioned cases. Referenced teletype specified that the devices be tested from the room of R. Spencer Oliver utilizing the telephone that was removed from the office by Laboratory personnel on 9/13/72, and these tests be monitored from the two rooms in the Howard Johnson Motor Lodge across from the Democratic National Committee Headquarters allegedly used by Baldwin to monitor tap on the telephone of R. Spencer Oliver.

With approval of the Acting Director, these tests were conducted on 10/16/72, from 8:40 a.m. to 1:30 p.m. by SAs William E. Harward, Joseph B. Parsons, George O. Verven and William C. Johnson of the Laboratory and SAs Edward R. Leary, Robert E. Lill, C. Earl Shaw, Dennis F. Hoffman and Michael J. King of the Washington Field office.

Memorandum to Mr. Conrad
RE: JAMES WALTER MC CORD JR., AKA; ET AL

The Washington Field office made the necessary arrangements and provided security for the above tests with the exception of the authorization to transmit test signals between 110 and 130 MHz. This permission was obtained from the Office of Telecommunications Policy by SA Ernest J. Landreville of the Laboratory.

Except for occasional brief periods the tests conducted from the offices of R. Spencer Oliver and Mrs. Harriet Cipriani were observed by Oliver, Executive Director, Association of Democratic State Chairmen and J. Alan Galbraith, Attorney for the firm Williams, Connolly, Califano which represents the Democratic National Committee. Galbraith observed the tests very closely and took detailed notes including description of devices tested, test equipment used, instrument settings and conversations between SAs Harward and Johnson.

Other persons observing part of the tests conducted in the office of R. Spencer Oliver were Marie Elise Haldane, secretary to Oliver, James Flug, Chief Counsel, Senate Sub-Committee on Administrative Practice and Procedure, Sub-Committee of Judiciary Committee of the U.S. Senate, and AUSA Donald E. Campbell, United States Attorney's Office Washington, D. C. Flug made a brief appearance at approximately 8:50 a.m. and was permitted access by Oliver and requested to leave by SA Leary. Mrs. Harriet Cipriani, Special Assistant to the Chairwoman, Democratic Womens Clubs observed part of the tests conducted from her office.

While tests were being conducted in Spencer Oliver's office SA Leary advised SA Johnson that AUSA Campbell had requested that additional tests be conducted from the office formerly occupied by John Stewart, Director of Communications, McGovern-Shriver Campaign Headquarters, who was formerly with the Democratic National Committee. This office is presently occupied by Mrs. Harriet Cipriani. These tests were to be conducted utilizing the telephone in Mrs. Cipriani's office.

Permission was secured by SA Leary from Mr. Bates and the appropriate personnel of the Democratic National Committee to make these tests prior to conducting the tests from Mrs. Cipriani's office.

RESULTS OF TESTS

Based on tests conducted from the office of Spencer Oliver utilizing the telephone removed from the office of Spencer Oliver on 9/13/72, and the office of Mrs. Harriet Cipriani, utilizing the telephone in that office located on the desk of

Memorandum to Mr. Conrad

RE: JAMES WALTER MC CORD JR., AKA; ET AL

Mrs. Cipriani, Democratic National Committee Headquarters (DNCH) 6th floor, Watergate Apartments, Washington, D. C., It was determined that all transmitters tested are capable of transmitting a signal which can be satisfactorily received in Rooms 419 and 723 of the Howard Johnson Motor Lodge across the street from DNCH. The transmitters tested are the transmitter designated Q1 in the Laboratory report regarding "Unsub(s) Democratic National Committee Headquarters, Washington, D.C., September 13, 1972 - IOC" dated 9/26/72, and the transmitters designated Q3, Q4, Q5 and Q8 in the Laboratory report regarding "James Walter McCord, Jr. et al Burglary Democratic National Committee Headquarters, Washington, D. C. 6/17/72" dated 6/26/72. The radio receiver used was the receiving system designated Q99 in the Laboratory report regarding "James Walter McCord Jr. et al Burglary Democratic National Committee Headquarters, Washington, D. C. 6/17/72" dated 10/11/72.

It was also determined that the signal intensity from all transmitters was greater in Room 723 than in Room 419 of the Howard Johnson Motor Lodge. The tests further indicated that the received signal level of Q1 was less than the signal levels received from Q3, Q4 or Q5.

RECOMMENDATION:

That attached teletype setting forth results of tests be forwarded to Washington Field.

File # 139-4089/719-4136
Lab. # E-1498-MA/KB/JO/HY

Examination requested by: SAC, WFO (Teletype dated 10/13/72)

Examination requested: Engineering

Date received: 10/16/72

Result of Examination:

Examination by: Johnson/Harward/
Verven/Parsons

on 10/16/72, tests conducted between R. Spencer Oliver's office and Mrs. Harriet Guprian's office in the Watergate complex, 6th floor and room 419 + 723 located in the Howard Johnson motor lodge across the street. Q1, Bufile 139-4136 and Q3, Q4, Q5 and Q8, Bufile 139-4089 and Q99, Bufile 139-4089 were tested between the above mentioned points. The receiving locations were Howard Johnson. All signals could be satisfactorily received. Q's 3, 4 + 5 were the strongest. Q1 was the weakest. The five transmitters were all tested from each of the two offices in the Watergate.

Specimens submitted for examination

Q1 - Miniature frequency modulated transmitter (139-4136)

Q3 - Q5 - Three frequency modulated transmitters (139-4089)

Q8 - Microphone transmitter (139-4089)

Q99 - Radio receiving system (139-4089) CFI, RS-111-1B-12

The transmitters were received in each of the two rooms in Howard Johnson motor lodge with a minimum signal strength of -15 db. The receiver used (Q99) was the CFI allegedly used to receive signals from the Watergate by the McCord group.

I will assume that if Mr. Silbert's hypothesis is correct, he could succeed in his objective to have the device from the Oliver telephone introduced at the trial to corroborate Mr. Baldwin's testimony that Mr. Oliver's phone was tapped. I make this assumption because, from every indication Mr. Silbert is an excellent attorney, and he clearly knows his evidence much better than I do. On the basis of my own very limited knowledge of Mr. Silbert's pending case, I am not able to see from here exactly why the device from Mr. Oliver's phone is critical to Mr. Silbert's case, nor indeed am I able to decide whether it would even be admissible at the trial.

I would recommend that the Bureau should canvass its files completely to determine if Mr. Silbert's suspicion that there are a number of statements setting forth the thoroughness of the sweep on or about June 17 is correct. If there are no such statements, Mr. Silbert should be so advised, and if he persists in believing that the FBI has made a mistake, that is his privilege, but unfortunately I do not see how the Bureau can do anything more to satisfy Mr. Silbert. The case will simply have to proceed as though the FBI did make a thorough sweep in June and did not find any device on Mr. ~~Oliver's~~ telephone.

ST-111 REC-20

139-4089-1452
20 NOV 10 1972

20 NOV 10 1972

If there are statements confirming Mr. Silbert's suspicion, they should be given to him, and then he can take it from there.

Although as previously indicated, I have not seen the details of the evidence which has been developed in the original investigation, I do not find Mr. Silbert's five reasons persuasive of the proposition that the FBI must have made a mistake when it failed to locate the device back in June. *[Handwritten signature]*

The memorandum of 9/28/72 to you from Mr. Karl Silbert, Principal Assistant United States Attorney (AUSA), relative to the above-entitled matter sets forth Mr. Silbert's suspicion that there are a number of statements at the Bureau relative to the thoroughness of the sweep following the June arrests and discusses Mr. Silbert's reasons for believing that the electronic device recovered from the telephone of Mr. Spencer Oliver on 9/13/72 is the original device which permitted Mr. Baldwin to overhear conversations, and that this device was in Mr. Oliver's telephone at the time of the security check of that phone.

A check of FBI files indicates that no information concerning the thoroughness of the sweep following the arrests at the Watergate in June has been withheld from Mr. Silbert.

to Mr. Silbert
While we recognize the appeal, from a prosecution standpoint, of the situation postulated by Mr. Silbert, no facts known to us at present support the presence of a listening device on Mr. Oliver's telephone at the time of the security check. There is no evidence to our knowledge that the device heard by Mr. Baldwin was heard by anyone after the arrest of the defendants. On the contrary, a check of the telephones by competent and experienced technical personnel, looking specifically for this type of device, showed no such device to be present at the time of the search. The device was large enough to be readily seen during a physical search, and based on the search conducted, employees conducting the search are positive that the device was not on the phone at the time of the search.

Assistant Attorney General

A review of the five reasons set forth by Mr. Silbert shows, in our opinion, that none are conclusive. The specific reasons cited by Mr. Silbert and comments relative to each one are set out below using Mr. Silbert's numbering.

1. The device recovered operated at 120 MHz. Mr. Baldwin was receiving at 118.9 MHz, well within the range of the device. The three devices in the possession of those arrested operated two at 110, one at 114 MHz, not at all as clearly within the range of the receiver at 118.9, particularly the two operating at 110.

COMMENT: The frequency on which the recovered device originally may have operated, if at all, cannot be accurately determined since it was inoperative at the time of recovery. It was made operable by replacing a defective transistor, after which the unit operated on 120 MHz. While this is the closest of the four mentioned devices, this fact is not conclusive because (a) there is no evidence to our knowledge that limits the original device tuned in by Mr. Baldwin to one of the four recovered (two men escaped from the premises the night of the discovery) (b) the original operating frequency of the instant device cannot be determined; and (c) after repair, the operating frequency is not on the frequency reportedly received.

2. To assume that one of the three devices recovered upon arrest was the one used on Mr. Oliver's telephone assumes that the defendants removed it. I see no reason to assume that. A more or at least equally logical assumption is that they were going to put more taps on, not take those they had in out. Clearly, they were going to put the bugging device in. Why not the taps?

While the Oliver tap was not (the) O'Brien (tap), they apparently had considered it to be producing useful information. There was, accordingly, no reason to remove it while putting in other taps.

COMMENT: This reason appears speculative. We do not know the basis validating the assumption "Clearly, they were going to put the bugging device in." Laboratory tests of the batteries associated with the bugging device showed that some were partially run down. This would not

be the normally expected condition for a new installation of batteries. However, more in point, the absence of a device in Mr. Oliver's phone at the time of the security check does not necessarily carry with it the assumption that one of the devices found in possession of the defendants was the one heard by Mr. Baldwin.

3. The location of the tap in the telephone is totally consistent with Mr. Baldwin's explanation of how the telephone calls were intercepted - only three specific extensions, one at a time.

COMMENT: This is a questionable reason and additionally is not consistent with other statements of Mr. Baldwin that he could overhear telephone conversations on four extensions of one phone at the office of Mr. Oliver.

4. I cannot imagine anyone planting a device in the Democratic headquarters after Watergate, particularly on Mr. Oliver's telephone.

COMMENT: At least two other speculative possibilities suggest themselves on the basis of reported information:

(a) Some intercepted conversations dealt with marital problems. Marital problems are a well recognized basis for attempted wiretapping.

(b) Democrats or sympathizers, feeling they had an unusually good issue in the "burglary" and wiretapping incident, could have decided to make a more recent "installation" and call attention to it in order to keep the pot boiling. Mr. Baldwin had previously disclosed the approximate frequency and the fact Mr. Oliver's phone was involved and Mr. Oliver's office was cognizant of at least part of this information. Moreover, Mr. O'Brien publicly alleged his office was bugged.

In this regard it is of possible significance that the device found on Mr. Oliver's phone on 9/13/72 was completely unlike the devices found in possession of the defendants at the time of arrest. (See enclosed photographs of the devices)

Likewise, it is noted that the physical security of the Democratic National Committee space was such as to make subsequent

access for the purpose of installing devices relatively easy. Investigation has indicated that the Democratic National Committee Headquarters maintained no limitation to access to offices after normal duty hours until about midnight when the premises were secured.

5. I think the FBI missed it because the location of Mr. Oliver's office in the Democratic headquarters is such that it is almost the last place one would expect a tap to be placed - nowhere near Mr. O'Brien's office or anywhere else of importance.

COMMENT: This is based on an erroneous assumption, since the Laboratory's search was not keyed to relative location. Indeed, Laboratory technical personnel, in addition to knowing of attempted penetration by the arrested defendants, also considered the possibility Democratic sympathizers might make additional installations to exacerbate the situation, and therefore all rooms and all phones were considered highly suspect and were thoroughly searched irrespective of the personnel to whom the phones were assigned.

TO : Mr. Bates *BN*

DATE: 9/29/72

FROM : C. Bolz *CB*

1- Mr. Felt
1- Mr. Bates
1- Mr. Gallagher
1- Mr. Bolz
1- Mr. Nuzum
1- Mr. Conrad

SUBJECT: JAMES WALTER MC CORD, JR.; ET AL.
BURGLARY OF DEMOCRATIC PARTY
NATIONAL HEADQUARTERS, 6/17/72
INTERCEPTION OF COMMUNICATIONS

On 9/29/72, Mr. Henry E. Petersen, Assistant Attorney General, Criminal Division, made available the attached copy of a memorandum to him from Earl Silbert, Principal Assistant U.S. Attorney, Washington, D.C., concerning the electronic device removed from Spencer Oliver's telephone on 9/13/72.

Mr. Silbert in his memorandum states that he has reviewed the FBI's initial report on the finding of the 9/13/72, electronic device and he believes that this device is the original device that was on Spencer Oliver's telephone which permitted Alfred Carleton Baldwin to monitor his conversations. Mr. Silbert outlines various reasons for believing this and is quite strong in his assertion that the FBI "goofed" and missed this telephone bug during the security survey it made following the 6/17/72 break-in of the Democratic Party National Headquarters.

Mr. Silbert also noted that the case involving the finding of the 9/13/72 electronic device is assigned to an Agent other than the Agent who handled the Watergate investigation and from this draws the conclusion that the FBI assumes the Watergate defendants are not involved. It is to be noted the case involving the 9/13/72 bugging device is assigned to Edward R. Leary who was the assistant case Agent on the ~~McCORD~~ Watergate case.

RECOMMENDATION: That this memorandum and enclosure be furnished the Laboratory Division for review and reply, it being noted Mr. Petersen in furnishing this material, stated he would like to have the FBI's comments concerning Mr. Silbert's analysis.

UNITED STATES GOVERNMENT

DEPARTMENT OF JUSTICE

Memorandum

TO : Henry E. Petersen
Assistant Attorney General
Criminal Division

DATE: September 28, 1972

FROM : Earl Silbert
Principal Assistant
United States Attorney

SUBJECT: Electronic Device Removed from
Spencer Oliver's telephone on
September 13, 1972

I have received the FBI report of the WFO dated September 26, 1972, concerning the recovery of an electronic device from the telephone of Spencer Oliver on September 13, 1972.

The report contains virtually no useful information concerning who put that wiretapping device there. As you will see, it is entitled Unknown Subjects and the case is assigned to an agent other than the one assigned to the Watergate; the Bureau is thus assuming that the Watergate defendants are not involved. Yet the report contains no statements at all by Bureau personnel as to the existence or nature of their sweep of the Democratic headquarters in late June or early July as a basis for establishing that the device had to be installed after the sweep. If such statements have been taken, I would suspect that for self-preservation of their professional careers, the makers of such statements claim that Oliver's telephone was checked. There is no record of this, i.e., the FBI did not list the telephones examined. Thus, all we will have at the most are statements concluding such an examination was made by virtue of the claim that all telephones were checked.

I believe that the device recovered is the original device on Oliver's telephone which permitted Baldwin to overhear the conversations he did. My reasons are as follows:

(1) The device recovered operated at 120 MHz. Baldwin was receiving at 118.9 MHz, well within the range of the device. The three devices in the possession of those arrested operated two at 110, one at 114 MHz, not at all as clearly within the range of the receiver at 118.9, particularly the two operating at 110.

1-Xerox made
OPE
JFclamm
5/20/74

Wm. C. Baley to
Wm. Baley
9/29/72 ENCLOSURE
Camm

139-4089-1454

(2) To assume that one of the three devices recovered upon arrest was the one used on Oliver's telephone assumes that the defendants removed it. I see no reason to assume that. A more or at least equally logical assumption is that they were going to put more taps on, not take those they had in out. Clearly, they were going to put the bugging device in. Why not the taps?

While the Oliver tap was not O'Brien, they apparently had considered it to be producing useful information. There was, accordingly, no reason to remove it while putting in other taps.

(3) The location of the tap in the telephone is totally consistent with Baldwin's explanation of how the telephone calls were intercepted - only three specific extensions, one at a time.

(4) I cannot imagine anyone planting a device in the Democratic headquarters after Watergate, particularly on Oliver's telephone. It is too ludicrous.

(5) I think the FBI missed it because the location of Oliver's office in the Democratic headquarters is such that it is almost the last place one would expect a tap to be placed - nowhere near O'Brien's office or anywhere else of importance.

Under ordinary circumstances, I would have no hesitancy in offering this device at trial as the device being used, particularly as corroboration of Baldwin that Oliver's phone was tapped. The problem is this: though not included in the report, I suspect there are a number of statements at the Bureau setting forth the thoroughness of the sweep following the arrest. If no such statements exist, I am sure defense counsel could call the Bureau personnel who made the sweep who would testify as to the thoroughness of the sweep. Obviously, we do not want to be put in the position of challenging such testimony of the FBI, particularly its lab, while at the same time relying so heavily on the FBI in general and the lab in particular for other important aspects of our proof.

As I mentioned in my prosecutive memo to you, I thought the Bureau performance in this case was excellent. I believe, however, that the Bureau "goofed" on this one though admittedly I must share part of the blame for not insisting on a check of Oliver's telephone despite being assured that it had been done. At the present time, by treating the device as newly installed while in its reports offering no evidence to prove it, I believe the Bureau is compounding the "goof".

I can, of course, convey my disbelief and dissatisfaction to the case agent of WFO who would then convey it to the Bureau. Before doing anything, however, I thought this should be brought to your attention.

SUBJECT:

JAMES WALTER MC CORD, JR.; ET AL.
BURGLARY OF DEMOCRATIC PARTY
NATIONAL HEADQUARTERS, 6/17/72
INTERCEPTION OF COMMUNICATIONS

Memorandum of 9/29/72 from Mr. Bolz to Mr. Bates relative to the above-entitled matter attaches a memorandum from Assistant U. S. Attorney (AUSA) Earl Silbert to Assistant Attorney General Henry E. Peterson dated 9/28/72. AUSA Silbert in his memorandum deals with the electronic device recovered from the telephone of Spencer Oliver on 9/13/72 and sets forth his belief that the recovered device is the original device which permitted Baldwin to overhear conversations. Silbert sets forth five reasons which he believes lead to his conclusion. Laboratory is requested to review and reply.

Review shows that none of the reasons are conclusive or compelling and that only the first reason advanced by Silbert is technical in nature and based on reported technical facts. The remaining four reasons are questionable or speculative in nature, and in at least one instance (#5) totally in error. The specific reasons cited by Silbert and Laboratory comments relative to each one set out below using Silbert's numbering. *ST-111*

1. SILBERT: The device recovered operated at 120 MHz. Baldwin was receiving at 118.9 MHz, well within the range of the device. The three devices in the possession of those arrested operated two at 110, one at 114 MHz, not at all as clearly within the range of the receiver at 118.9, particularly the two operating at 110.

60 NOV 10 1972
LABORATORY COMMENT: The frequency on which the recovered device originally may have operated, if at all, cannot be accurately determined since it was inoperative at time of recovery. It was made operable by replacing a defective transistor, after which the unit operated on 120 MHz. While this is closest of the four mentioned devices, this fact is not conclusive because

Memorandum to Mr. Conrad
RE: JAMES WALTER MC CORD, JR.; ET AL
BURGLARY OF DEMOCRATIC PARTY
NATIONAL HEADQUARTERS, 6/17/72
INTERCEPTION OF COMMUNICATIONS

(a) there is no evidence to our knowledge that limits the original device tuned in by Baldwin to one of the four recovered (It is our understanding that two men escaped from the premises the night of discovery) (b) the original operating frequency of instant device cannot be determined; and (c) after repair, the operating frequency is not on the frequency reportedly received.

2. SILBERT: To assume that one of the three devices recovered upon arrest was the one used on Oliver's telephone assumes that the defendants removed it. I see no reason to assume that. A more or at least equally logical assumption is that they were going to put more taps on, not take those they had in out. Clearly, they were going to put the bugging device in. Why not the taps?

While the Oliver tap was not O'Brien, they apparently had considered it to be producing useful information. There was, accordingly, no reason to remove it while putting in other taps.

LABORATORY COMMENT: Reason appears speculative. We do not know the basis validating the assumption "Clearly, they were going to put the bugging device in." Laboratory tests of the batteries associated with the bugging device showed that some were partially run down. This would not be the normally expected condition for a new installation of batteries. However, more in point, the absence of a device in Oliver's phone at the time of the security check does not necessarily carry with it the assumption that one of the devices found in possession of defendants was the one heard by Baldwin.

3. SILBERT: The location of the tap in the telephone is totally consistent with Baldwin's explanation of how the telephone calls were intercepted - only three specific extensions, one at a time.

LABORATORY COMMENT: Questionable reason. Summary Bureau report dated 9/20/72 made available to Laboratory states on page 12 that Baldwin in his monitoring discovered that he could overhear telephone conversation on four extensions of one phone at the office of Oliver. General Investigative Division advises that Baldwin's interviews tend to indicate he believed he was monitoring conversations of secretaries and others from telephones which were extensions of Oliver's phone. The instant device, as installed at time of recovery would not permit this type of operation.

Memorandum to Mr. Conrad
RE: JAMES WALTER MC CORD, JR.; ET AL.
BURGLARY OF DEMOCRATIC PARTY
NATIONAL HEADQUARTERS, 6/17/72
INTERCEPTION OF COMMUNICATIONS

4. SILBERT: I cannot imagine anyone planting a device in the Democratic headquarters after Watergate, particularly on Oliver's telephone. It is too ludicrous.

LABORATORY COMMENT: Speculative reason. At least two other possibilities suggest themselves on the basis of reported information:

(a) Bureau Summary report dated 9/20/72 shows on page 11 that some intercepted conversations dealt with marital problems. Marital problems are a well recognized basis for attempted wiretapping.

(b) Democrats or sympathizers, feeling they had unusually good issue in the "burglary" and wiretapping incident, could have decided to make a more recent "installation" and call attention to it in order to keep the pot boiling. Baldwin had previously disclosed approximate frequency and fact Oliver's phone was involved. WFO wire dated 9/15/72 sets out that Oliver's office cognizant of at least part of this information. Moreover, O'Brien has recently publicly alleged his office was bugged.

In this regard it is of possible significance that the device found on Oliver's phone on 9/13/72 was completely unlike the devices found in possession of defendants at time of arrest.

5. SILBERT: I think the FBI missed it because the location of Oliver's office in the Democratic headquarters is such that it is almost the last place one would expect a tap to be placed - nowhere near O'Brien's office or anywhere else of importance.

LABORATORY COMMENT: Totally erroneous reason. Laboratory's search was not keyed to relative location. Indeed, Laboratory technical personnel, in addition to knowing of attempted penetration by arrested defendants, also considered possibility Democrat sympathizers might make additional installations to exacerbate the situation, and therefore all rooms and all phones were considered highly suspect and were thoroughly searched.

*By false trouble report. In this regard WFO wire 9/30/72, advises telephone repairman attempted to observe malfunctions reported by secretary with negative results. WFO suggests possibility reported malfunction had never occurred.

Memorandum to Mr. Conrad
RE: JAMES WALTER MC CORD, JR.; ET AL
BURGLARY OF DEMOCRATIC PARTY
NATIONAL HEADQUARTERS, 6/17/72
INTERCEPTION OF COMMUNICATIONS

SUMMARY: While we recognize the appeal, from a prosecution standpoint, of the situation postulated by AUSA Silbert, no facts known to us at present support the presence of a listening device on Oliver's telephone at the time of the security check. There is no evidence to our knowledge that the device heard by Baldwin was heard by anyone after the arrest of the defendants. On the contrary, a check of the telephones by competent and experienced technical personnel, looking specifically for this type of device, showed no such device to be present at the time of the search. In this regard, Supervisor W. G. Stevens who was in personal charge of and took part in the search has previously stated that the device was large enough to be readily seen by physical search, and that based on the search conducted, he is positive that the device was not on the phone at the time of the search. Further in this regard, it is noted that the physical security of the Democratic National Committee space was such as to make subsequent access for the purpose of installing devices relatively easy. WFO wire to the Bureau dated 9/15/72 on page 6 states DNCH maintained no limitation to access to offices after normal duty hours until about midnight when premises secured.

ACTION:

If approved a response to Assistant Attorney General Peterson will be prepared along the above lines.

Reference is made to my letter with enclosures to you dated November 7, 1972, relating to the request of Senator Edward M. Kennedy concerning the location of Donald H. Segretti.

Am
Our Los Angeles, California, Office has determined that Donald H. Segretti has returned to his residence, Apartment 117, 14013 West Captains Row, Marina Del Rey, California, and has advised he is accepting all messages from his telephone answering service and persons who were attempting to contact him. Mr. Segretti stated he would make himself available for receipt of any subpoenas that may have been issued for his testimony.

Assistant United States Attorney Earl J. Silbert, Washington, D. C., is being advised of the above information.

NOTE: The above information is contained in Los Angeles teletype to the Bureau dated 11/10/72. Senator Kennedy's letter dated 10/27/72, to the Attorney General requested he be notified as soon as the whereabouts of Donald H. Segretti is determined. AUSA Silbert on 10/20/72, requested the Bureau locate Segretti in anticipation of trial scheduled for 11/15/72. However, when the trial was deferred to 1/8/73, AUSA Silbert advised us to discontinue our efforts to locate Segretti, all of which was furnished to Senator Kennedy in a letter dated 11/10/72, from the Attorney General.

Re: Bureau teletype, dated 9/6/72.
Newark teletype, dated 9/11/72.
Cincinnati airtel, dated 9/26/72.

Information requested per referenced Bureau teletype
for estimates of time involved in this matter since 9/8/72:

Estimated twenty regular man hours, which includes
fifteen hours by SAs and five hours by clerical employees.

Five SAs are the most assigned on case at any one
time and one SA presently assigned to case.

Investigation requested per referenced Cincinnati
airtel:

Newark has interviewed JOSEPH JOHN BURBOL, GLENN D.
ANDERSON, and GEORGE PERRY KNOWLTON, identified by numbers 87,
88, and 89, respectively. Each home, retired from military
service, and none of them have been contacted by JAMES WALTER
MC CORD, JR. They do not know any of the subjects in this matter,
they did not prepare any devices to intercept communications, and
have no knowledge of the burglary, other than that reported by
the news media.
