This will record that on 2/11/75 Mr. John Kronin, General Accounting Office (GAO), telephone 964-8701, telephonically discussed with SA Charles A. Nuzum the fact that GAO is presently conducting an audit for the Ford Administration seeking to determine whether there was improper fiscal action by the Nixon Administration. Mr. Kronin advised he was aware that SA Nuzum was in charge of the various Watergate investigations and desired to know (1) whether the present GAO audit will conflict with any ongoing FBI investigations or with actions being pursued by the Department of Justice and the Special Prosecutor's Office (SPO); and (2) whether the FBI was aware of any particular areas that his audit should inquire into. *Nuzum*

Mr. Kronin was advised that the FBI is not aware whether the Department of Justice or the SPO may be involved in areas at present which may conflict with the GAO audit and if he requires such information he may desire to contact those agencies direct. With respect to FBI investigations, Mr. Kronin was advised that all of these relative to the Watergate and related activities had been reported in detail to the Special Prosecutor, who would be knowledgeable of all investigation conducted. Mr. Kronin was informed that the Bureau's investigations did not direct themselves towards the possibility of improper fiscal action by the White House; rather, our investigation was directed towards securing all facts concerning various criminal actions, such as the burglary of Democratic National Committee Headquarters, Obstruction of Justice, Election Laws, and the like. Consequently, the FBI could not furnish him with any guidance as to areas he may wish to inquire into other than the activities of the "Plumbers" which have been thoroughly publicized. Mr. Kronin advised his agency was already aware of that situation and was working on that aspect. He expressed appreciation for the foregoing discussion and advised he has already preliminarily been in contact with the SPO. *D*

Dear Mr. Colby,

I have studied all the publications available to me regarding Philby-Burgess-Maclean, and have carefully read all of the material thus far published regarding E. Howard Hunt. For what appear to me to be obvious reasons, I have concluded that Mr. Hunt was, from his days at Brown University, a soviet agent. In all probability, Frank Wisnor, Bissell, Barnes, Helms, Angelton, Osborn - one or more of them were also soviet agents. And with the witting or unwitting assistance of Colson, Young, Krough, McCord, Sturgis, etc., they brought down the government, and, I might add, continue to threaten it. D

REC-106 139-4089-2962
This conclusion seems so patently obvious to me that a recitation of the reasons is unnecessary. Even a cursory reading of the three major books on Philby (in which I'm sure that "William Howard" is none other than our friend Hunt), the book by Szulc on Hunt, Hunt's auto-biography and his own fiction (Berlin Ending), reveal his real character, temperament, and more importantly, his point-of-view. The photograph that Hunt includes in his auto-biography of himself and Philby taken in 1948 is either the greatest example of unmitigated gall I've ever seen or a pathetic cry to be "found out."

MAR 11 1975

The more disturbing, if not sinister, possibility, of course, is that poor Richard Nixon (and/or Kissinger, Haig) are part of a conspiracy. The tapes reveal Nixon's fear of blackmail. The little red box that "she" (Dorothy Hunt?) gave to Eddie Williams obviously contained dynamite. Either Nixon feared that Hunt would expose the governments (Johnson's, Connelly's, Hunt's?) and/or possibly his own complicity in the assassinations of the Kennedys, King and the attempted assassination of Wallace, or he feared the exposure of himself as a deep-cover agent for the Russians. (The latter theory, in addition to being preposterous, also destroys my entire case, so I refuse to entertain it!)

The question of whether Liddy was in on the Watergate "set-up" with Hunt, or whether he, with the help of "transcendental meditation" (their euphemistic term for hypnosis) was merely duped, I wouldn't hazard a guess. And speaking of transcendental meditation, how is that little "prayer group" (Is it "Spiritual Frontiers", per chance) that facilitated Colson's "conversion" doing? It appears a peculiar and obvious "cover" for heaven-knows-what-type of nefarious activities. How did Senator Hughes become involved in that set-up and why? All of this mind control and programming are simply too "mission impossible" for words. Another question which troubles me is, where is Fred Malek? What has become of that singularly "undiscussed" background figure?

The homosexual characteristics of the "Nixon" men (almost all of them as far as I can detect) may or may not be relevant. It could have major importance, but it could be of only secondary, or relatively minor significance.

Which brings us to William F. Buckley, Jr. In addition to being Hunt's best friend, past CIA employee, executor of Dorothy Hunt's estate, and fellow literary "lion", he, like Hunt, is a monument of Conservatism. Need I say that with conservatives like them, we won't need left-wing radicals to undermine us. I can't help but speculate, and I assure you I'm only speculating, that maybe there is a reason for Buckley's temperament and style seeming to be so at odds with his peculiar, almost bizarre posture on most things political. Just a thought. I'm sending a copy of this letter to both Hunt and Buckley and maybe they'll feel compelled to sue me for slander.

I hope you will respond to this letter. I've been studying this material for a considerable length of time, and I believed it necessary, in view of the fact that these possibilities have not been raised, to forward my theories and conclusions to a number of sources. The extensive investigations presently being launched regarding all of the intelligence agencies, concerns me greatly. For while it is certainly necessary to closely control these agencies, many unnecessary and undesirable problems can develop if the "investigators" themselves are not fully informed and do not have a firm grasp of what it is that they are about. Occasionally I have a frightening mental image of Philby, Hunt and company all laughing uproariously when they speculate on the forthcoming investigations. If the entire affair weren't so fraught with danger maybe we could all laugh. I'm afraid that for all the wrong reasons, the investigation may prove to be nothing more than a cover-up of a cover-up of a cover-up.

I remind you of Senator Ervin's favorite Shakespearean quotation, "Oh what a tangled web we weave when first we practice to deceive." I implore you to scrupulously avoid the errors the British made regarding Philby-Burgess and Maclean. Why not simply

clean house and deport the lot of them? The people in the United States can stand the truth. What they can't stand are anymore lies and hypocrisy. I cannot believe that you people in the controlling positions are unaware of this simple fact. So summon up the courage, collectively, and open the can of worms. I for one, would like to see the perpetual smirk wiped off Hunt's "cat swallowed the mouse" face! How about a nice, slow boat to Moscow for him? Farwell romance! Nothing like a little Moscow apartment in which to fashion his future memoirs. I venture to say there will be fewer romantic spy novels issuing forth.

One other item. Was Dorothy Hunt really on that ill-fated airplane? On the basis of Hunt's own book, I gathered that all they had for identification purposes was her jewelry. I realize that this may not be correct, but if it is, are there any of Hunt's close women friends missing? So many of their friends and colleagues met with such dreadful mishaps. (Their French maid, for instance.) What if Mrs. Hunt were at this very moment comfortably enchanted in Moscow, taking tea with Philby and Mrs. Maclean. She would be telling them of Howard's brilliant coup and bringing news of their son, St. John Hunt, who I surmise was named after Kim Philby's own father, Sir Harry St. John Philby.

Mr. Colby, I don't know you, and obviously, I have no way of knowing whether you will see this letter or not. But at the risk of sounding like a pre-Skinnerian anachronism, I have grown rather fond of this beleaguered country, faults and all, and although I'm a bit of a socialist myself, I abhor Hunt's kind of treachery. When I think of all the "bodies" lying about - going back to the Kennedy assassination - just the ones I can count from here, not to mention all those that we'll probably never learn about, I implore you to really clean house, not engage in yet another rhetorical housecleaning. Why not, as poor Nixon used to say "go the hang-out road?" This period in America is like Hamlet's Denmark - the heaviness, the pervading gloom. Open the windows and let in the air! Show a measure of confidence in the people in this country. You managers or controllers or whatever you call yourselves, might be surprised at how much we as a group can take, and you might also be surprised at the resiliency and recuperative powers of the body politic. We've given you the power; now use it to our best interest.

I am awaiting contact from any or all of those who receive this letter. I used to think that no one wanted to know the truth, but I don't believe that anymore. I think that the time for truth is truly now. It is probably the only thing that will save us. Has the truth become so expensive that we, the richest country on earth, can no longer afford it? If that is so, we are truly bankrupt. Our death knell has already sounded. If I believed that, I'd applaud Hunt, but I don't.

NOTE: Bufiles contain no information identifiable with correspondent. Investigation concerning the Jack Anderson disclosure of grand jury material is contained in Bufile 69-829. It should be noted that at that time, the USA was handling the prosecution of the break-in and the USA's files were turned over to the SPF. This file reflects in an LHM dated 12/21/73, from WFO, that the Criminal Division closed this investigation with a letter to USA in which USA was advised that the Department decided not to call Anderson before a Federal grand jury or prosecute anyone in this case. The FBI's participation in the other issues raised in this letter are contained in Bufile 139-4089, which is Watergate Break-in investigative file.

Sir:

During Watergate it was stated that everyone has "a right to know"--there are a few things I would like to which seem to have escaped some people, especially Judge Sirica.

A quote from the Boston Herald American 26 Sept. 1974..."the FBI is probing source of leaks...Watergate files." We read constantly that "no man is above the law" but how often did we hear that every man is guaranteed the full protection of the law?

Why has no investigation/action taken against Judge Sirica about the way he conducted Watergate grand jury probe et al--i.e.

1. When Jack Anderson and the newspapers printed verbatim testimony from the grand jury probe--why did Judge Sirica not declare a mistrial "A conspiracy is two or more conspiring to obstruct justice" Depriving the people testifying before the grand jury of secrecy, Judge Sirica in my opinion, allowed the ones testifying to be tried by the press and deprived them of the full protection of the law--an obstruction of justice, I allege.

2. According to Bernstein and Woodward, in their book "All the President's Men, it was reported that a "Federal Judge gave them permission to interview 'jurors'." Wasn't that tampering with a jury and a violation of the law? Why were not Bernstein and Woodward so charged also, the Federal judge, and what "law" gave him permission to allow that?

3. Judge Sirica wrote a five page discourse stating that he could not find the source of "leaks" from his Watergate probe--it was learned and made known that it was Archibald Cox himself, the Special Prosecutor, who passed information, secret grand jury testimony to Senator Kennedy. In my opinion Cox and Kennedy were in flagrant Contempt of Court--giving and receiving "secret information from a Grand Jury probe." Evidently they are above the law, while others, by their (Cox and Kennedy) action get no protection of the law.

One more question--Frank Wills has said, in and on every statement, and I will be the first to admit I have not heard every statement that he ever made but--that "he discovered the tape--made his rounds, came back 20 minutes later and found more tape." According to the New York Times 10 Nov. 1974 "A Watergate Footnote"...they (mystery man) walked over to the Restaurant Howard Johnson, together". The mystery man never identified. Why would Wills leave his post for that long a time with a man he did not know or be with him for 20 minutes and not learn his name? Did the police or FBI have a composite picture of the man printed in newspapers--if not why not--it seems that that would answer many unanswered questions.

Thank you for any help you can give me.

SUBJECT: JAMES WALTER MC CORD, JR.
AND OTHERS
IOC; OOJ; CONSPIRACY

WFO has advised that subject Frederick LaRue, former Assistant to President Nixon, was sentenced this morning by Judge Sirica for his participation in the cover-up by White House and Committee to Re-Elect the President officials. LaRue received a sentence of one to three years for Conspiracy to Obstruct Justice. He must serve six months with the remainder of the sentence being suspended. He will then be placed on probation for a period of two years. He is to report to the U. S. Marshal on 4/1/75 to begin serving his sentence. LaRue had pleaded guilty in U. S. District Court, Washington, D. C., in the summer of 1973 and was a Government witness at the trial of Haldeman, Mitchell, and others, which recently resulted in their conviction.

James Walter McCord, Jr., had filed a motion for a hearing for the presentation of new evidence. Judge Sirica this morning denied that motion. McCord has an appeal to the Supreme Court for a review of his case.

a copy of an article from the magazine "Writers and Artists", and copies of excerpts from three books reportedly authored by Sizemore under the name of James Moore, all of which are enclosed herewith for the Special Prosecution Force.

The source advised that James Moore resides at 319 West 48th Street, Room 126-28, New York City, and the three books he is attempting to have published are entitled, "That These Might Live", "If I Should Wake Before I Die", and "These Lives: Anonymous". All three books deal with a group of investigators headed by one Richard Davis, reportedly a former Central Intelligence Agency agent turned private investigator.

this group was first used by President Truman in 1947 for the purpose of investigating government corruption, and has worked for all Presidents until it disbanded in September, 1972, due to insufficient funds. The group used the name Inter-Agency Services, headed by Richard Davis, who in several instances is referred to as Robert Dawson in the excerpts from the books made available by the source.

External Affairs Division has requested the views of General Investigative Division relative to disclosure of some information from the Watergate investigation aimed at restoring to the FBI any prestige lost during that investigation. Such information could also serve to dispel the false impression left by the book "All the President's Men" that its authors, Carl Bernstein and Bob Woodward, not the FBI, solved the Watergate case. USA.

As you will recall, the FBI did conduct a most thorough and comprehensive investigation in this matter and a comparison of the chronology of our investigation with the events cited in "All the President's Men" will show we were substantially and constantly ahead of these "Washington Post" investigative reporters. In essence, they were interviewing the same people we had interviewed but subsequent to our interviews and often after the interviewee had testified before the grand jury. The difference, which contributes greatly to the false image, is that the "Washington Post" blatantly published whatever they learned (or thought they learned) while we reported our findings to the U. S. Attorney and the Department solely for prosecutive consideration.

Although prosecution of those involved in the break-in and subsequent cover-up has been accomplished, appeal litigation continues and can be expected to continue for many many months.

Memorandum to Mr. Gebhardt
Re: JAMES WALTER MC CORD

The prestige enjoyed by the FBI rests in larger part on our investigative expertise which is surrounded by our sense of fair play and respect for the individual rights of the accused. Accordingly, we should not abandon these ideals to recover any lost prestige. Our investigation was conducted exclusively for the U. S. Attorney and the Department, initially, and for the Special Prosecution Force (SPF) since its formation. It is believed that at this time we must obtain concurrence from that office before disclosing any information. In view of the appeals pending, and the ever-present realization that a reversal of any of the convictions could result in a new trial, the disclosure of any information could seriously jeopardize the subsequent efforts of the Government to obtain justice in these cases. Certainly, we would be on perilous grounds to disclose information without the concurrence of SPF.

In order to dispell the false impressions gained from "All the President's Men", it would be necessary for us to disclose substantial details. Any publication by us should, of necessity, be devoid of generalities and certainly any writer, publisher, or news media representative would, rightfully, demand specifics to do a professional story.

RECOMMENDATIONS:

1. General Investigative Division believes that the disclosure of any information prior to the exhaustion of all appeals in these cases could jeopardize the Government's position and in any event could not be disclosed without the concurrence of the SPF. General Investigative Division therefore opposes disclosure of any information at this time.

2. That Legal Counsel Division review this question and provide External Affairs Division with its observations as to our position in this matter.

In R. E. Long to Mr. Gebhardt memorandum dated 3/25/75, captioned as above, it was recommended that Legal Counsel would review the question of possible disclosure of information concerning the Bureau's investigation of the Watergate matter in an effort to add to FBI prestige concerning the solution of the case. It is noted that the effort proposed would be to counter the notion that the Watergate investigation was solved by efforts of certain members of the press. The specific proposal is that the Bureau disclose certain information derived from the investigation.

While I recognize that it would be most beneficial to the Bureau if it could be publicly understood that the Watergate investigation was successful principally due to the efforts of the FBI, there are some difficulties that interfere with undertaking such a project at this time. For example, I believe it would be essential that we secure the authorization of the Special Prosecutor prior to release of any information collected during the investigation which was under the general authority or direction of the Special Prosecutor's Office. That limitation would involve a good deal of the investigative results. Therefore, it would be a principal concern in any effort by the Bureau to publish such information.

Further, our publication of information from the investigation could yet interfere with civil suits that would involve the principals in the case, as well as potentially interfere with criminal actions that may yet be prosecuted and which may arise from that investigation.

Memorandum to Mr. Adams
Re: James Walter McCord, et al.

Aside from the legal considerations stated above, I believe that there are non-legal factors that should be considered. For example, publicity by the FBI concerning our success in investigating this case would invite responses from certain segments of the press that would likely point out the probable misconduct of the former ^{Acting} Director of the FBI concerning efforts that may have been made to interfere with the Bureau's investigation and actions that he may have taken in destroying certain evidence in the case while he was still Acting Director of the FBI. In addition, publication by us of information resulting from the investigation could reopen charges that the FBI leaked certain information during the course of the investigation. Such charges may well have been true and it would not be of benefit to the FBI to have those matters discussed in the press again.

If it is desired that the Bureau be given appropriate credit for the excellent work that was done by the General Investigative Division, Washington Field Office, and others participating in the investigation, I suggest that a more appropriate manner of publicizing those facts would be to have a very credible spokesman unrelated to the FBI to make the necessary public statements. Such a spokesman could be former Special Prosecutor Leon Jaworski who better than anyone else is in a position to know exactly what was and what was not accomplished by the FBI in solving the Watergate investigation.
